In this draft release it was proposed to consolidate all controls, instruments, and warning devices at a single location to permit all phases of monitoring and operation of the pressurization and oxygen systems by a single crew member. However, after consideration of the comments received the Board has concluded that such requirement, while stating a desirable objective, would actually result in a potentially lower level of safety because of the added complexity that would result. With regard to warning devices, it was proposed also to require both visible and audible warnings to give alarm in the event of cabin depressurization. Comments received in this matter pointed out that, in contrast to past practice, airplanes in the next few years will almost certainly incorporate other audible warning devices that may operate at cruise altitude and require immediate conditioned response, and that confusion could result from providing too many such audible warnings. Considering these comments, the Board concluded that the current requirements in § 4b.375 (f) provide for adequately effective warnings.

High rates of fuel consumption at low altitudes lead to the possible necessity for turbine-powered transport airplanes to cruise at altitudes that would require sustaining oxygen for all occupants for extended periods of time. This has emphasized a need for regulations as to the minimum quantity of oxygen which may be carried to insure adequate protection for the passengers. The quantities prescribed by the current requirements of § 4b.651 are generally conceded to be in excess of actual needs for sustenance. The new oxygen flow rates contained herein will provide a level of safety acceptable for sustaining purposes without reducing the quantity carried below a safe minimum.

Some difference of opinion was expressed concerning the provisions for oxygen in the altitude range above 25,000 feet where its main purpose is to prevent physical harm to the passengers following cabin depressurization. One position was that it would be adequate to apply the same prescription as proposed for sustaining oxygen. The opposing view was held that while this might be adequate for sustenance at altitudes above 25,000 feet it would not be satisfactory following cabin decompression at these altitudes because of the problem of removing nitrogen from the lungs, and that for this reason a greater quantity of oxygen should be prescribed. The problem associated with this view is that either the flow rate must be equivalent to the higher requirement throughout the altitude range, or equipment must be provided to enable the oxygen system to differentiate between two situations. In weighing these opposing views, the Board took into consideration that the prescription in the regulation is a minimum value; that previous requirements, although prescribing a greater quantity of oxygen, have not accounted for overall system efficiency; that additional system complexity would decrease reliability; and that the objective of oxygen following a decompression is to prevent physical harm and not necessarily to provide passengers with the same amount of oxygen which would be available at sea level.

There was some expression of opinion that the flow rate provided for flight crew members was not adequate. In considering these opinions, the Board was not able to establish that the 5,000-foot equivalent provided by the prescription for demand-type equipment was unsatisfactory. Consideration was also given to the fact that the prescription is a minimum and that normal operating tolerances will invariably insure that a somewhat greater quantity is furnished. Since this prescription could result in the crew being unable to draw oxygen from the demand-type system while the cabin is pressurized, a requirement is being added that undiluted oxygen be available to the crew.

The provision for insuring that oxygen masks be immediately available to the users is believed to be proper in light of the problems associated with flight at these altitudes. The time available to begin breathing supplemental oxygen becomes less with increasing altitude due to the decrease in the period of useful consciousness. Thus the requirements for making the dispensing units available to the users become more severe as the maximum certificated altitude becomes higher.

A prescription is being added to define the quantity of oxygen to be made available for first-aid use. To avoid having to predict the pressure altitudes at which such will be used, the prescription is in terms of flow at standard temperature and pressure.

The provisions of this regulation require two outlets and units of oxygen-dispensing equipment in the washroom and in the lavatory.

The cabin attendants, in the course of their normal duties, may be at any place in the cabin at the time of depressurization. Since, at the normal cruising altitude of turbine-powered airplanes, sufficient time may not be available for the attendants to return to a designated oxygen station, it is necessary that either a portable oxygen supply be carried by each atendant or that sufficient additional outlets and units of dispensing equipment be immediately available throughout the cabin to insure that it will be attainable a all times. The likelihood of turbine-powered airplanes having to continue operations at flight altitudes requiring sustaining oxygen makes necessary the provision of portable oxygen equipment for cabin attendants in order to insure their mobility even though such equipment may not be required to satisfy the emergency descent provisions. To avoid, as much as possible, the problems associated with changing over from a spare outlet of the installed system to a portable unit, these portable units should have, to the degree practicable, a uniform distribution in the cabin. To provide for this, the portable oxygen units are required to be immediately available.

The proposal regarding means of determining delivery of oxygen to the dispensing units was intended to provide an indication that the oxygen system is in operation and that oxygen is being released from the storage containers to the distribution system. Determination of delivery to individuals, as in the past, by observation of the storage bags on the masks or similar type examinations is felt to be inadequate.

Interested persons have been afforded an opportunity to participate in the making of this amendment (23 F. R. 2229), and due consideration has been given to all relevant matter presented. In view of the imminence of operations to be conducted pursuant to this amendment, the Board finds that further notice and public procedure thereon would be contrary to the public interest and that this amendment may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 4b of the Civil Air Regulations (14 CFR Part 4b, as amended), effective September 1, 1958.

1. By deleting figure 4b–21.

2. By amending § 4b.651 (a) to read as follows:

§ 4b.651 *Oxygen equipment and supply.* * * *

(a) *General.* The oxygen system installed shall be free from hazards in itself, in its method of operation, and in its effect upon other components of the airplane. Means shall be provided to enable the crew to determine readily during flight the quantity of oxygen available in each source of supply. For airplanes certificated for operation at flight altitudes above 40,000 feet, oxygen flow rate and equipment shall be approved by the Administrator.

3. By amending § 4b.651 (b) to read as follows:

(b) *Required minimum mass flow of supplemental oxygen.* The minimum mass flow of supplemental oxygen required per person at various cabin pressure altitudes shall be that necessary to comply with the following requirements as applicable:

(1) Where continuous flow equipment is used by flight crew members, the minimum mass flow of supplemental oxygen required for each crew member shall not

be less than that which will maintain during inspiration a mean tracheal oxygen partial pressure of 149 mm. Hg. when breathing 15 liters per minute, BTPS, and having a maximum tidal volume of 700 cc. with a constant time interval between respirations.

(2) Where demand equipment is used by flight crew members, the minimum mass flow of supplemental oxygen required for each crew member shall not be less than that which will maintain during inspiration a mean tracheal oxygen partial pressure of 122 mm. Hg. to and including a cabin pressure altitude of 35,000 feet and 95 percent oxygen between cabin pressure altitudes of 35,000 and 40,000 feet, when breathing 20 liters per minute BTPS. Provision shall be made to allow use of undiluted oxygen by crew members when they so desire.

(3) For passengers and cabin attendants the minimum mass flow of supplemental oxygen required for each person at various cabin pressure altitudes shall not be less than that which will maintain during inspiration the following mean tracheal oxygen partial pressures when using the oxygen equipment provided, including masks:

(i) At cabin pressure altitudes above 10,000 feet to and including 18,500 feet, a mean tracheal oxygen partial pressure of 100 mm. Hg. when breathing 15 liters per minute, BTPS, and having a tidal volume of 700 cc. with a constant time interval between respirations.

(ii) At cabin pressure altitudes above 18,500 feet to and including 40,000 feet, a mean tracheal oxygen partial pressure of 83.8 mm. Hg. when breathing 30 liters per minute, BTPS, and having a tidal volume of 1,100 cc. with a constant time interval between respirations.

(4) Where first-aid oxygen equipment is required, the minimum mass flow of oxygen to each user shall not be less than 4 liters per minute, STPD, except that means may be provided to decrease this flow to not less than 2 liters per minute, STPD, at any cabin altitude. The quantity of oxygen required shall be based upon an average flow rate of 3 liters per minute per person for whom first-aid oxygen is required.

(5) Where portable oxygen equipment is required for crew members, the minimum mass flow of supplemental oxygen shall be as specified in subparagraph (1) or (2) of this paragraph, whichever is applicable.

4. By amending § 4b.651 (d) to read as follows:

(d) *Equipment standards for dispensing units.* Where oxygen dispensing units are required, they shall comply with the provisions of subparagraphs (1) through (3) of this paragraph.

(1) An individual dispensing unit shall be provided for each occupant for whom supplemental oxygen is required to be furnished. All units shall be designed to cover the nose and mouth and shall be equipped with a suitable means for retaining the unit in position on the face for use. Flight crew masks for supplemental oxygen shall provide for the use of communication equipment. (For crew masks to be used for protective breathing purposes, see paragraph (h) of this section.)

(2) In airplanes certificated to operate at flight altitudes to and including 25,000 feet, there shall be available to and within reach of each flight crew member an oxygen supply terminal and unit of oxygen dispensing equipment to provide for the immediate use of oxygen by such crew member. For all other occupants the supply terminals and dispensing equipment shall be located so as to permit the use of oxygen as required by the operating rules of the regulations in this subchapter.

(3) In airplanes certificated to operate above 25,000 feet flight altitude, the provisions of subdivisions (i) through (iv) of this subparagraph shall apply:

(i) An oxygen dispensing unit connected to oxygen supply terminals shall be immediately available to each occupant wherever seated. In addition, in airplanes certificated to operate above 30,000 feet, the dispensing units providing the required oxygen flow rate shall be automatically presented to the occupants. To insure that sufficient dispensing units and outlets are available for all occupants, the total number shall exceed the number of seats by at least 10 percent with the extra units being as uniformly distributed throughout the cabin as practicable;

(ii) Crew members on flight deck duty shall be provided with demand equipment. An oxygen dispensing unit connected to an oxygen supply terminal shall be immediately available to each flight crew member when seated at his station;

(iii) Not less than two outlets and units of dispensing equipment of a type similar to that required by subdivision (i) of this subparagraph shall be located in each washroom; and in each lavatory if separate from the washroom; and

(iv) Portable oxygen equipment shall be immediately available for each cabin attendant.

5. By amending § 4b.651 (e) to read as follows:

(e) *Means for determining use of oxygen.* Means shall be provided to enable the crew to determine whether oxygen is being delivered to the dispensing units.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

[Civil Air Regulations, Amdt. 40-12]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

SUPPLEMENTAL OXYGEN REQUIREMENTS FOR SUSTENANCE AND FIRST-AID

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 27th day of August 1958.

Part 40 contains among other things oxygen requirements for aircraft operating under this part. Civil Air Regulations Draft Release No. 58-7, which was published on March 27, 1958, proposed changes to the requirements for supplemental oxygen and associated equipment both in the airworthiness requirements and operating rules. The changes simultaneously made in Part 4b requirements will be applicable only to applications for certification filed after their effective date, but the changes in the operating rules made herein will apply to all operations thereby governed on the effective date hereof, or as otherwise provided in the text of the regulation.

The particular characteristics of turbine-powered airplanes which dictate a need for somewhat different requirements relative to the use of supplemental oxygen than those applicable to piston-engine airplanes are the higher operating altitudes at the time of a possible decompression combined with excessive fuel consumption by these turbine-powered airplanes at low altitudes which may require continued cruise at an altitude demanding sustaining oxygen to enable the airplane to reach a suitable landing field.

The base cruising altitude at which oxygen must be provided is being raised from 8,000 to 10,000 feet. It has been generally agreed that this requirement, while reducing the quantity of oxygen required, will provide an acceptable level of safety.

A provision relating to crew oxygen masks is being added. The time required for the crew to institute the use of their oxygen masks when operating at these altitudes is so short that any location of crew masks that could involve any avoidable loss of time in donning them would not be in the interest of safety. To minimize the danger inherent in this situation, one pilot will be required to wear and to use his mask at all times when operations above 25,000 feet are conducted. The other members of the flight crew will be required to have the masks on their person at all times and in such a position as to be immediately placed on their faces for use. Since the object is to avoid any possible hazard to the passengers following decompression, it is considered necesary that the pilot wearing the mask be drawing oxygen from the system under normal conditions. Since all flight crew members would probably have specified duties following cabin depressurization, it is considered appropriate that masks should be immediately available for each flight crew member on flight deck duty.

On those flights wherein operations are conducted above 25,000 feet, the need for rapid action on the part of all occupants precludes waiting until an emergency occurs to instruct the passengers in the use of the oxygen equipment. A provision, therefore, is being included to require briefing of the passengers prior to such operations. This briefing should insure that the passengers know how to use the equipment provided. To the degree practicable, language problems should be avoided or overcome.

For all airplanes operating above 25,000 feet, oxygen and dispensing equipment must be provided for all passenger cabin occupants as well as the crew. Although a rapid descent of the airplane usually will be possible, it is felt that a 10-minute suply of oxygen would be the minimum amount that could be provided which would insure an adequate capability for descent from higher altitudes in the event that circumstances prevent realization of the demonstrated descent rate. For purposes of computing a quantity of oxygen for descent, a uniform descent for the 10-minute period would be assumed.

For a particular operation to comply with the rules in this part the amount of sustaining and first-aid oxygen required shall be determined on the basis of cabin pressure altitudes and flight duration consistent with the operating procedures established for each such operation and route. The requirements for airplanes with pressurized cabins shall be determined on the basis of cabin pressure altitude and upon the assumption that a cabin pressurization failure will occur at that altitude or point of flight which is most critical from the standpoint of oxygen need, and that after such failure any descent to a flight altitude that will permit successful termination of the flight will not exceed the operating limitations of the airplane. Following such a failure, the cabin pressure altitude shall be considered to be the same as the flight altitude unless it can be shown that no probable failure of the cabin or pressurization equipment will result in a cabin pressure altitude equal to the flight altitude, under which circumstances the maximum cabin pressure altitude attained may be used as a basis for certification and/or determination of oxygen supply.

Interested persons have been afforded an opportunity to participate in the making of this amendment (23 F. R. 2229), and due consideration has been given to all relevant matter presented. In view of the imminence of operations to be conducted pursuant to this amendment, the Board finds that further notice and public procedure hereon would be contrary to the public interest and that this amendment may be made effective in less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) effective September 1, 1958.

1. By amending the title of § 40.202 to read as follows:

§ 40.202 *Supplemental oxygen; reciprocating-engine-powered airplanes.* * * *

2. By adding a new § 40.202-T to read as follows:

§ 40.202-T *Supplemental oxygen for sustenance; turbine-powered airplanes—*(a) *General.* Prior to July 31, 1959, turbine-powered airplanes shall comply with the provisions of § 40.202 or, alternatively, with the provisions of this section except that effective July 31, 1959, all turbine-powered airplanes shall comply with the provisions of this section. Sustaining oxygen and dispensing equipment shall be furnished by the air carrier for use as set forth in this section. The amount of oxygen provided shall be at least that quantity which will be necessary to comply with paragraphs (b) and (c) of this section. As used in the oxygen requirements hereinafter set forth, "cabin pressure altitude" shall mean the pressure altitude corresponding with the pressure in the cabin of the airplane, and "flight altitude" shall mean the altitude above sea level at which the airplane is operated; for airplanes not equipped with pressurized cabins, "cabin pressure altitude" and "flight altitude" shall be considered identical. The amount of sustaining and first-aid oxygen required for a particular operation to comply with the rules in this part shall be determined on the basis of cabin pressure altitudes and flight duration consistent with the operating procedures established for each such operation and route. The requirements for airplanes with pressurized cabins shall be determined on the basis of cabin pressure altitude and the assumption that a cabin pressurization failure will occur at that altitude or point of flight which is most critical from the standpoint of oxygen need, and that after such failure the airplane will descend in accordance with the emergency procedures specified in the Airplane Flight Manual without exceeding its operating limitations to a flight altitude that will permit successful termination of the flight. Following such a failure the cabin pressure altitude shall be considered to be the same as the flight altitude unless it can be shown that no probable failure of the cabin or pressurization equipment will result in a cabin pressure altitude equal to the flight altitude, under which circumstances the maximum cabin pressure altitude attained may be used as a basis for certification and/or determination of oxygen supply.

(b) *Crew members.* A supply of oxygen for crew members shall be provided in accordance with the following requirements:

(1) At cabin pressure altitudes above 10,000 feet to and including 12,000 feet, oxygen shall be provided for and used by each member of the flight crew on flight deck duty and provided for all other crew members during the portion of the flight in excess of 30 minutes within this range of altitudes.

(2) At cabin pressure altitudes above 12,000 feet, oxygen shall be provided for and used by each member of the flight crew on flight deck duty and provided for all other crew members during the entire flight at such altitudes.

(c) *Passengers.* A supply of oxygen for passengers shall be provided in accordance with the following requirements:

(1) For flights at cabin pressure altitudes above 10,000 feet to and including 14,000 feet, oxygen shall be provided for the duration of flight in excess of 30 minutes for 10 percent of the number of passengers carried.

(2) For flights at cabin pressure altitudes above 14,000 feet to and including 15,000 feet, oxygen shall be provided for the duration of flight at such altitude for 30 percent of the number of passengers carried.

(3) For flights at cabin pressure altitudes above 15,000 feet, oxygen shall be provided for each occupant carried for the duration of flight at such altitude.

3. By amending the title of § 40.203 to read as follows:

§ 40.203 *Supplemental oxygen requirements for pressurized cabin airplanes; reciprocating-engine-powered airplanes.* * * *

4. By adding a new § 40.203-T to read as follows:

§ 40.203-T *Supplemental oxygen for emergency descent and for first aid; turbine-powered airplanes with pressurized cabins.*—(a) *General.* Prior to July 31, 1959, turbine-powered airplanes with pressurized cabins shall comply with the provisions of § 40.203 or, alternatively, with the provisions of this section except that effective July 31, 1959, all such turbine-powered airplanes shall comply with the provisions of this section. When operating pressurized cabin airplanes, the air carrier shall furnish oxygen and dispensing equipment necessary to permit compliance with the requirements set forth in this section in the event of cabin pressurization failure.

(b) *Crew members.* When operating at flight altitudes above 10,000 feet, oxygen shall be provided to permit compliance with § 40.202-T except that not less than a 2-hour supply shall be provided for the flight crew members on flight deck duty. The oxygen required by § 40.205 may be included in determining the supply required for flight crew members on flight deck duty in the event of cabin pressurization failure.

(c) *Use of oxygen masks by flight crew members.* When operating at flight altitudes above 25,000 feet, one pilot at the controls of the airplane shall wear and use an oxygen mask at all times and all other flight crew members on flight deck duty shall be provided with oxygen masks, connected to appropriate supply terminals, which shall be worn in a manner that will permit immediate placing of the masks on their faces for use, properly secured and sealed.

(d) *Use of portable oxygen equipment by cabin attendants.* Portable oxygen equipment of not less than a 15-minute oxygen supply shall be carried by each attendant during the entire time flight is conducted above 25,000 feet flight altitude, unless it is shown that sufficient portable oxygen units equipped with masks or spare outlets and masks are distributed throughout the cabin to insure immediate availability of oxygen to the cabin attendants regardless of their location at the time of cabin depressurization.

(e) *Passenger cabin occupants.* When operating at flight altitudes above 10,000 feet, the following supply of oxygen shall be provided for the use of passenger cabin occupants:

(1) When an airplane is certificated to operate at flight altitudes to and including 25,000 feet, and if at any point along

the route to be flown the airplane can descend safely to a flight altitude of 14,000 feet or less within 4 minutes, oxygen shall be available at the rate prescribed by this part for a 30-minute period for not less than 10 percent of the number of passenger cabin occupants carried.

(2) When an airplane is operated at flight altitudes to and including 25,000 feet and cannot descend safely to a flight altitude of 14,000 feet within 4 minutes, or when an airplane is operated at flight altitudes above 25,000 feet, oxygen shall be available at the rate prescribed by this part for not less than 10 percent of the number of passenger cabin occupants carried for the duration of flight following cabin depressurization at cabin pressure altitudes above 10,000 feet to and including 14,000 feet and, as applicable, to permit compliance with § 40.202–T (b) (2) and (3), except that not less than a 10-minute supply for all passenger cabin occupants shall be provided.

(3) For first-aid treatment of occupants who for psychological reasons might require undiluted oxygen following descent from cabin pressure altitudes above 25,000 feet, a supply of oxygen in accordance with the requirements of § 4b.651 (b) (4) (see § 40.204) shall be provided for 2 percent of the occupants for the duration of flight following cabin depressurization at cabin pressure altitudes above 8,000 feet, but in no case to less than one person. An appropriate number of acceptable dispensing units, but in no case less than 2, shall be provided. Means shall be provided to enable the cabin attendants to use this supply.

(f) *Passenger briefing.* Before flight is conducted above 25,000 feet, a crew member shall give instructions and demonstrations to the passengers sufficient to insure that all passengers are adequately informed regarding the location and operation of the oxygen-dispensing equipment and the necessity of using oxygen in the event of cabin depressurization.

5. By amending § 40.204 to read as follows:

§ 40.204 *Equipment standards*—(a) *Reciprocating-engine-powered airplanes.* The oxygen apparatus, the minimum rates of oxygen flow, and the supply of oxygen necessary to comply with the requirements of § 40.202 shall meet the standards established in § 4b.651 of this subchapter effective July 20, 1950: *Provided*, That where full compliance with such standards is found by the Administrator to be impracticable, he may authorize such changes in these standards as he finds will provide an equivalent level of safety.

(b) *Turbine-powered airplanes.* Prior to July 31, 1959, turbine-powered airplanes shall comply with the provisions of paragraph (a) of this section or, alternatively, with the provisions of this paragraph except that effective July 31, 1959, all turbine-powered airplanes shall comply with the provisions of this paragraph. The oxygen apparatus, the minimum rate of oxygen flow, and the supply of oxygen to comply with the requirements of §§ 40.202–T and 40.203–T shall meet the standards established in § 4b.651 of this subchapter effective September 1, 1958: *Provided*, That where full compliance with such standards is found by the Administrator to be impracticable, he may authorize such changes in these standards as he finds will provide an equivalent level of safety.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 604, 605; 52 Stat. 1007, 1009, 1010, as amended; 49 U. S. C. 551, 553, 554, 555)

By the Civil Aeronautics Board.

[Civil Air Regulations, Amdt. 41–18]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE CONTINENTAL LIMITS OF UNITED STATES

SUPPLEMENTAL OXYGEN REQUIREMENTS FOR SUSTENANCE AND FIRST-AID

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of August 1958.

Part 41 contains among other things oxygen requirements for aircraft operating under this part. Civil Air Regulations Draft Release No. 58–7, which was published on March 27, 1958, proposed changes to the requirements for supplemental oxygen and associated equipment both in the airworthiness requirements and operating rules. The changes simultaneously made in Part 4b requirements will be applicable only to applications for certification filed after their effective date, but the changes in the operating rules made herein will apply to all operations thereby governed on the effective date hereof, or as otherwise provided in the text of the regulation.

The particular characteristics of turbine-powered airplanes which dictate a need for somewhat different requirements relative to the use of supplemental oxygen than those applicable to piston-engine airplanes are the higher operating altitudes at the time of a possible decompression combined with excessive fuel consumption by these turbine-powered airplanes at low altitudes which may require continued cruise at an altitude demanding sustaining oxygen to enable the airplane to reach a suitable landing field.

The base cruising altitude at which oxygen must be provided is being raised from 8,000 to 10,000 feet. It has been generally agreed that this requirement, while reducing the quantity of oxygen required, will provide an acceptable level of safety.

A provision relating to crew oxygen masks is being added. The time required for the crew to institute the use of their oxygen masks when operating at these altitudes is so short that any location of crew masks that could involve any avoidable loss of time in donning them would not be in the interest of safety. To minimize the danger inherent in this situation, one pilot will be required to wear and to use his mask at all times when operations above 25,000 feet are conducted. The other members of the flight crew will be required to have the masks on their person at all times and in such a position as to be immediately placed on their faces for use. Since the object is to avoid any possible hazard to the passengers following decompression, it is considered necessary that the pilot wearing the mask be receiving oxygen from the system under normal conditions. Since all flight crew members would probably have specified duties following cabin depressurization, it is considered appropriate that masks should be immediately available for each flight crew member on flight deck duty.

On those flights wherein operations are conducted above 25,000 feet, the need for rapid action on the part of all occupants precludes waiting until an emergency occurs to instruct the passengers in the use of the oxygen equipment. A provision, therefore, is being included to require briefing of the passengers prior to such operations. This briefing should insure that the passengers know how to use the equipment provided. To the degree practicable, language problems should be avoided or overcome.

For all airplanes operating above 25,000 feet, oxygen and dispensing equipment must be provided for all passenger cabin occupants as well as the crew. Although a rapid descent of the airplane generally will be possible, it is felt that a 10-minute supply of oxygen would be the minimum amount that could be provided which would insure an adequate quantity for descent from higher altitudes in the event that circumstances prevent realization of the demonstrated descent rate. For purposes of computing a quantity of oxygen for descent, a uniform descent for the 10-minute period would be assumed.

For a particular operation to comply with the rules in this part the amount of sustaining and first-aid oxygen required shall be determined on the basis of cabin pressure altitudes and flight duration consistent with the operating procedures established for each such operation and route. The requirements for airplanes with pressurized cabins shall be determined on the basis of cabin pressure altitude and upon the assumption that a cabin pressurization failure will occur at that altitude or point of flight which is most critical from the standpoint of oxygen need, and that after such failure any descent to a flight altitude that will permit successful termination of the flight will not exceed the operating limitations of the airplane. Following such a failure, the cabin pressure altitude shall be considered to be the same as the flight altitude unless it can be shown that no probable failure of the cabin or pressurization equipment will result in a cabin pressure altitude equal to the flight altitude, under which circumstances the maximum cabin pressure altitude attained may be used as a basis for certification and/or determination of oxygen supply.

Interested persons have been afforded an opportunity to participate in the making of this amendment (23 F. R. 2229), and due consideration has been given to all relevant matter presented. In view of the imminence of operations to be conducted pursuant to this amendment, the Board finds that further notice and public procedure hereon would be contrary to the public interest and that this amendment may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) effective September 1, 1958.

1. By amending the title of § 41.24 to read as follows:

§ 41.24 *Supplemental oxygen; reciprocating-engine-powered airplanes.* * * *

2. By adding a new § 41.24–T to read as follows:

§ 41.24–T *Supplemental oxygen for maintenance; turbine-powered airplanes*—(a) *General.* Prior to July 31, 1959, turbine-powered airplanes shall comply with the provisions of § 41.24 or, alternatively, with the provisions of this section except that effective July 31, 1959, all turbine-powered airplanes shall comply with the provisions of this section. Sustaining oxygen and dispensing equipment shall be furnished by the air carrier for use as set forth in this section. The amount of oxygen provided shall be at least that quantity which will be necessary to comply with paragraphs (b) and (c) of this section. As used in the oxygen requirements hereinafter set forth, "cabin pressure altitude" shall mean the pressure altitude corresponding with the pressure in the cabin of the airplane, and flight altitude" shall mean the altitude above sea level at which the airplane is operated; for airplanes not equipped with pressurized cabins, "cabin pressure altitude" and "flight altitude" shall be considered identical. The amount of sustaining and first-aid oxygen required for a particular operation to comply with the rules in this part shall be determined on the basis of cabin pressure altitudes and flight duration consistent with the operating procedures established for each such operation and route. The requirements for airplanes with pressurized cabins shall be determined on the basis of cabin pressure altitude and the assumption that a cabin pressurization failure will occur at that altitude or point of flight which is most critical from the standpoint of oxygen need, and that after such failure the airplane will descend in accordance with the emergency procedures specified in the Airplane Flight Manual without exceeding its operating limitations to a flight altitude that will permit successful termination of the flight. Following such a failure the cabin pressure altitude shall be considered to be the same as the flight altitude unless it can be shown that no probable failure of the cabin or pressurization equipment will result in a cabin pressure altitude equal to the flight altitude, under which circumstances the maximum cabin pressure altitude attained may be used as a basis for certification and/or determination of oxygen supply.

(b) *Crew members.* A supply of oxygen for crew members shall be provided in accordance with the following requirements:

(1) At cabin pressure altitudes above 10,000 feet to and including 12,000 feet, oxygen shall be provided for and used by each member of the flight crew on flight deck duty and provided for all other crew members during the portion of the flight in excess of 30 minutes within this range of altitudes.

(2) At cabin pressure altitudes above 12,000 feet, oxygen shall be provided for and used by each member of the flight crew on flight deck duty and provided for all other crew members during the entire flight at such altitudes.

(c) *Passengers.* A supply of oxygen for passengers shall be provided in accordance with the following requirements:

(1) For flights at cabin pressure altitudes above 10,000 feet to and including 14,000 feet, oxygen shall be provided for the duration of flight in excess of 30 minutes for 10 percent of the number of passengers carried.

(2) For flights at cabin pressure altitudes above 14,000 feet to and including 15,000 feet, oxygen shall be provided for the duration of flight at such altitude for 30 percent of the number of passengers carried.

(3) For flights at cabin pressure altitudes above 15,000 feet, oxygen shall be provided for each occupant carried for the duration of flight at such altitude.

3. By amending the title of § 41.24a to read as follows:

§ 41.24a *Supplemental oxygen requirements for pressurized cabin airplanes; reciprocating-engine-powered airplanes.* * * *

4. Bl ading a new § 41.24a–T to read as follows:

§ 41.24a–T *Supplemental oxygen for emergency descent and for first aid; turbine-powered airplanes with pressurized cabins*—(a) *General.* Prior to July 31, 1959, turbine-powered airplanes with pressurized cabins shall comply with the provisions of § 41.24a or, alternatively, with the provisions of this section except that effective July 31, 1959, all such turbine-powered airplanes shall comply with the provisions of this section. When operating pressurized cabin airplanes, the air carrier shall furnish oxygen and dispensing equipment necessary to permit compliance with the requirements set forth in this section in the event of cabin pressurization failure.

(b) *Crew members.* When operating at flight altitudes above 10,000 feet, oxygen shall be provided to permit compliance with § 41.24–T except that not less than a 2-hour supply shall be provided for the flight crew members on flight deck duty. The oxygen required by § 41.24c may be included in determining the supply required for flight crew members on flight deck duty in the event of cabin pressurization failure.

(c) *Use of oxygen masks by flight crew members.* When operating at flight altitudes above 25,000 feet, one pilot at the controls of the airplane shall wear and use an oxygen mask at all times and all other flight crew members on flight deck duty shall be provided with oxygen masks, connected to appropriate supply terminals, which shall be worn in a manner that will permit immediate placing of the masks on their faces for use, properly secured and sealed.

(d) *Use of portable oxygen equipment by cabin attendants.* Portable oxygen equipment of not less than a 15-minute oxygen supply shall be carried by each attendant during the entire time flight is conducted above 25,000 feet flight altitude, unless it is shown that sufficient portable oxygen units equipped with masks or spare outlets and masks are distributed throughout the cabin to insure immediate availability of oxygen to the cabin attendants regardless of their location at the time of cabin depressurization.

(e) *Passenger cabin occupants.* When operating at flight altitudes above 10,000 feet, the following supply of oxygen shall be provided for the use of passenger cabin occupants:

(1) When an airplane is certificated to operate at flight altitudes to and including 25,000 feet, and if at any point along the route to be flown the airplane can descend safely to a flight altitude of 14,000 feet or less within 4 minutes, oxygen shall be available at the rate prescribed by this part for a 30-minute period for not less than 10 percent of the number of passenger cabin occupants carried.

(2) When an airplane is operated at flight altitudes to and including 25,000 feet and cannot descend safely to a flight altitude of 14,000 feet within 4 minutes, or when an airplane is operated at flight altitudes above 25,000 feet, oxygen shall be available at the rate prescribed by this part for not less than 10 percent of the number of passenger cabin occupants carried for the duration of flight following cabin depressurization at cabin pressure altitudes above 10,000 feet to and including 14,000 feet and, as applicable, to permit compliance with § 41.24–T (b) (2) and (3), except that not less than a 10-minute supply for all passenger cabin occupants shall be provided.

(3) For first-aid treatment of occupants who for psychological reasons might require undiluted oxygen following descent from cabin pressure altitudes above 25,000 feet, a supply of oxygen in accordance with the requirements of § 4b.651 (b) (4) (see § 41.24b) shall be provided for 2 percent of the occupants for the duration of flight following cabin depressurization at cabin pressure altitudes above 8,000 feet, but in no case to less than one person. An appropriate number of acceptable dispensing units, but in no case less than 2, shall be provided. Means shall be provided to enable the cabin attendants to use this supply.

(f) *Passenger briefing.* Before flight is conducted above 25,000 feet, a crew member shall give instructions and demonstrations to the passengers sufficient to insure that all passengers are adequately informed regarding the loca-

tion and operation of the oxygen-dispensing equipment and the necessity of using oxygen in the event of cabin depressurization.

5. By amending § 41.24b to read as follows:

§ 41.24b *Equipment standards*—(a) *Reciprocating-engine-powered airplanes.* The oxygen apparatus, the minimum rates of oxygen flow, and the supply of oxygen necessary to comply with the requirements of § 41.24 shall meet the standards established in § 4b.651 of this subchapter effective July 20, 1950: *Provided*, That where full compliance with such standards is found by the Administrator to be impracticable, he may authorize such changes in these standards as he finds will provide an equivalent level of safety.

(b) *Turbine-powered airplanes.* Prior to July 31, 1958, turbine-powered airplanes shall comply with the provisions of paragraph (a) of this section or, alternatively, with the provisions of this paragraph except that effective July 31, 1959, all turbine-powered airplanes shall comply with the provisions of this paragraph. The oxygen apparatus, the minimum rate of oxygen flow, and the supply of oxygen to comply with the requirements of §§ 41.24–T and 41.24a–T shall meet the standards established in § 4b.651 of this subchapter effective September 1, 1958: *Provided*, That where full compliance with such standards is found by the Administrator to be impracticable, he may authorize such changes in these standards as he finds will provide an equivalent level of safety.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 604, 605; 52 Stat. 1007, 1009, 1010 as amended; 49 U. S. C. 551, 553, 554, 555)

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART, *Acting Secretary.*

[Civil Air Regulations, Amdt. 42-15]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

SUPPLEMENTAL OXYGEN REQUIREMENTS FOR SUSTENANCE AND FIRST-AID

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of August 1958.

Part 42 contains among other things oxygen requirements for aircraft operating under this part. Civil Air Regulations Draft Release No. 58-7, which was published on March 27, 1958, proposed changes to the requirements for supplemental oxygen and associated equipment both in the air-worthiness requirements and operating rules. The changes simultaneously made in Part 4b requirements will be applicable only to applications for certification filed after their effective date, but the changes in the operating rules made herein will apply to all operations thereby governed on the effective date hereof, or as otherwise provided in the text of the regulation.

The particular characteristics of turbine-powered airplanes which dictate a need for somewhat different requirements relative to the use of supplemental oxygen than those applicable to piston-engine airplanes are the higher operating altitudes at the time of a possible decompression combined with excessive fuel consumption by these turbine-powered airplanes at low altitudes which may require continued cruise at an altitude demanding sustaining oxygen to enable the airplane to reach a suitable landing field.

The base cruising altitude at which oxygen must be provided is being raised from 8,000 to 10,000 feet. It has been generally agreed that this requirement, while reducing the quantity of oxygen required, will provide an acceptable level of safety.

A provision relating to crew oxygen masks is being added. The time required for the crew to institute the use of their oxygen masks when operating at these altitudes is so short that any location of crew masks that could involve any avoidable loss of time in donning them would not be in the interest of safety. To minimize the danger inherent in this situation, one pilot will be required to wear and to use his mask at all times when operations above 25,000 feet are conducted. The other members of the flight crew will be required to have the masks on their person at all times and in such a position as to be immediately placed on their faces for use. Since the object is to avoid any possible hazard to the passengers following decompression, it is considered necessary that the pilot wearing the mask be drawing oxygen from the system under normal conditions. Since all flight crew members would probably have specified duties following cabin depressurization, it is considered appropriate that masks should be immediately available for each flight crew member on flight deck duty.

On those flights wherein operations are conducted above 25,000 feet, the need for rapid action on the part of all occupants precludes waiting until an emergency occurs to instruct the passengers in the use of the oxygen equipment. A provision, therefore, is being included to require briefing of the passengers prior to such operations. This briefing should insure that the passengers know how to use the equipment provided. To the degree practicable, language problems should be avoided or overcome.

For all airplanes operating above 25,000 feet, oxygen and dispensing equipment must be provided for all passenger cabin occupants as well as the crew. Although a rapid descent of the airplane generally will be possible, it is felt that a 10-minute supply of oxygen would be the minimum amount that could be provided which would insure an adequate quantity for descent from higher altitudes in the event that circumstances prevent realization of the demonstrated descent rate. For purposes of computing a quantity of oxygen for descent, a uniform descent for the 10-minute period would be assumed.

For a particular operation to comply with the rules in this part the amount of sustaining and first-aid oxygen required shall be determined on the basis of cabin pressure altitudes and flight duration consistent with the operating procedures established for each such operation and route. The requirements for airplanes with pressurized cabins shall be determined on the basis of cabin pressure altitude and upon the assumption that a cabin pressurization failure will occur at that altitude or point of flight which is most critical from the standpoint of oxygen need, and that after such failure any descent to a flight altitude that will permit successful termination of the flight will not exceed the operating limitations of the airplane. Following such a failure, the cabin pressure altitude shall be considered to be the same as the flight altitude unless it can be shown that no probable failure of the cabin or pressurization equipment will result in a cabin pressure altitude equal to the flight altitude, under which circumstances the maximum cabin pressure altitude attained may be used as a basis for certification and/or determination of oxygen supply.

Interested persons have been afforded an opportunity to participate in the making of this amendment (23 F. R. 2229), and due consideration has been given to all relevant matter presented. In view of the imminence of operations, to be conducted pursuant to this amendment, the Board finds that further notice and public procedure hereon would be contrary to the public interest and that this amendment may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) effective September 1, 1958.

1. By amending the title of § 42.26 to read as follows:

§ 42.26 *Supplemental oxygen; reciprocating-engine-powered airplanes.* • • •

2. By adding a new § 42.26–T to read as follows:

§ 42.26–T *Supplemental oxygen for sustenance; turbine-powered airplanes.*—(a) *General.* Prior to July 31, 1959, turbine-powered airplanes shall comply with the provisions of § 42.26 or, alternatively, with the provisions of this section except that effective July 31, 1959, all turbine-powered airplanes shall comply with the provisions of this section. Sustaining oxygen and dispensing equipment shall be furnished by the air carrier for use as set forth in this section. The amount of oxygen provided shall be at least that quantity which will be necessary to comply with paragraphs (b) and (c) of this section. As used in the oxygen requirements hereinafter set forth, "cabin pressure altitude" shall mean the pressure altitude corresponding with the pressure in the cabin of the airplane, and "flight altitude" shall mean the altitude above sea level at which the airplane is operated; for airplanes not equipped with pressurized cabins, "cabin pressure altitude" and "flight altitude" shall be considered identical. The amount of sustaining and first-aid oxygen required for a particular operation to comply with the rules in this part shall be determined on the basis of cabin pressure altitudes and flight duration consistent with the operating procedures established for each such operation and route. The requirements for airplanes with pressurized cabins shall be determined on the basis of cabin pressure altitude and the assumption that a cabin pressurization failure will occur at that altitude or point of flight which is most critical from the standpoint of oxygen need, and that after such failure the airplane will descend in accordance with the emergency procedures specified in the Airplane Flight Manual without exceeding its operating limitations to a flight altitude that will permit successful termination of the flight. Following such a failure the cabin pressure altitude shall be considered to be the same as the flight altitude unless it can be shown that no probable failure of the cabin or pressurization equipment will result in a cabin pressure altitude equal to the flight altitude, under which circumstances the maximum cabin pressure altitude attained may be used as a basis for certification and/or determination of oxygen supply.

(b) *Crew members.* A supply of oxygen for crew members shall be provided in accordance with the following requirements:

(1) At cabin pressure altitudes above 10,000 feet to and including 12,000 feet, oxygen shall be provided for and used by each member of the flight crew on flight deck duty and provided for all other crew members during the portion of the flight in excess of 30 minutes within this range of altitudes.

(2) At cabin pressure altitudes above 12,000 feet, oxygen shall be provided for and used by each member of the flight crew on flight deck duty and provided for all other crew members during the entire flight at such altitudes.

(c) *Passengers.* A supply of oxygen for passengers shall be provided in accordance with the following requirements:

(1) For flights at cabin pressure altitudes above 10,000 feet to and including 14,000 feet, oxygen shall be provided for the duration of flight in excess of 30 minutes for 10 percent of the number of passengers carried.

(2) For flights at cabin pressure altitudes above 14,000 feet to and including 15,000 feet, oxygen shall be provided for the duration of flight at such altitude for 30 percent of the number of passengers carried.

(3) For flights at cabin pressure altitudes above 15,000 feet, oxygen shall be provided for each occupant carried for the duration of flight at such altitude.

3. By amending the title of § 42.27 to read as follows:

§ 42.27 *Supplemental oxygen requirements for pressurized cabin airplanes; reciprocating-engine-powered airplanes.* • • •

4. By adding a new § 42.27–T to read as follows:

§ 42.27–T *Supplemental oxygen for emergency descent and for first aid; turbine-powered airplanes with pressurized cabins.*—(a) *General.* Prior to July 31, 1959, turbine-powered airplanes with pressurized cabins shall comply with the provisions of § 42.27 or, alternatively, with the provisions of this section except that effective July 31, 1959, all such turbine-powered airplanes shall comply with the provisions of this section. When operating pressurized cabin airplanes, the air carrier shall furnish oxygen and dispensing equipment necessary to permit compliance with the requirements set forth in this section in the event of cabin pressurization failure.

(b) *Crew members.* When operating at flight altitudes above 10,000 feet, oxygen shall be provided to permit compliance with § 42.26–T except that not less than a 2-hour supply shall be provided for the flight crew members on flight deck duty. The oxygen required by § 42.29 may be included in determining the supply required for flight crew members on flight deck duty in the event of cabin pressurization failure.

(c) *Use of oxygen masks by flight crew members.* When operating at flight altitudes above 25,000 feet, one pilot at the controls of the airplane shall wear and use an oxygen mask at all times and all other flight crew members on flight deck duty shall be provided with oxygen masks, connected to appropriate supply terminals, which shall be worn in a manner that will permit immediate placing of the masks on their faces for use, properly secured and sealed.

(d) *Use of portable oxygen equipment by cabin attendants.* Portable oxygen equipment of not less than a 15-minute oxygen supply shall be carried by each attendant during the entire time flight is conducted above 25,000 feet flight altitude, unless it is shown that sufficient portable oxygen units equipped with masks or spare outlets and masks are distributed throughout the cabin to insure immediate availability of oxygen to the cabin attendants regardless of their location at the time of cabin depressurization.

(e) *Passenger cabin occupants.* When operating at flight altitudes above 10,000 feet, the following supply of oxygen shall be provided for the use of passenger cabin occupants:

(1) When an airplane is certificated to operate at flight altitudes to and including 25,000 feet, and if at any point along the route to be flown the airplane can descend safely to a flight altitude of 14,000 feet or less within 4 minutes, oxygen shall be available at the rate prescribed by this part for a 30-minute period for not less than 10 percent of the number of passenger cabin occupants carried.

(2) When an airplane is operated at flight altitudes to and including 25,000 feet and cannot descend safely to a flight altitude of 14,000 feet within 4 minutes, or when an airplane is operated at flight altitudes above 25,000 feet, oxygen shall be available at the rate prescribed by this part for not less than 10 percent of the number of passenger cabin occupants carried for the duration of flight following cabin depressurization at cabin pressure altitudes above 10,000 feet to and including 14,000 feet and, as applicable, to permit compliance with § 42.26–T (b) (2) and (3), except that not less than a 10-minute supply for all passenger cabin occupants shall be provided.

(3) For first-aid treatment of occupants who for psychological reasons might require undiluted oxygen following descent from cabin pressure altitudes above 25,000 feet, a supply of oxygen in accordance with the requirements of § 4b.651 (b) (4) (see § 42.28) shall be provided for 2 percent of the occupants for the duration of flight following cabin depressurization at cabin pressure altitudes above 8,000 feet, but in no case to less than one person. An appropriate number of acceptable dispensing units, but in no case less than 2, shall be provided. Means shall be provided to enable the cabin attendants to use this supply.

(f) *Passenger briefing.* Before flight is conducted above 25,000 feet, a crew member shall give instructions and demonstrations to the passengers sufficient to insure that all passengers are adequately informed regarding the location and operation of the oxygen-dispensing equipment and the necessity of using oxygen in the event of cabin depressurization.

5. By amending § 42.28 to read as follows:

§ 42.28 *Equipment standards*—(a) *Reciprocating-engine-powered airplanes.* The oxygen apparatus, the minimum rates of oxygen flow, and the supply of oxygen necessary to comply with the requirements of § 42.26 shall meet the standards established in § 4b.651 of this subchapter effective July 20, 1950: *Provided*, That where full compliance with such standards is found by the Administrator to be impracticable, he may authorize such changes in these standards as he finds will provide an equivalent level of safety.

(b) *Turbine-powered airplanes.* Prior to July 31, 1959, turbine-powered airplanes shall comply with the provisions of paragraph (a) of this section or, alternatively, with the provisions of this paragraph except that effective July 31, 1959, all turbine-powered airplanes shall comply with the provisions of this paragraph. The oxygen apparatus, the minimum rate of oxygen flow, and the supply of oxygen to comply with the requirements of §§ 42.26–T and 42.27–T shall meet the standards established in § 4b.651 of this subchapter effective September 1, 1958: *Provided*, That where full compliance with such standards is found by the Administrator to be impracticable, he may authorize such changes in these standards as he finds will provide an equivalent level of safety.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 604, 605, 52 Stat. 1007, 1009, 1010, as amended; 49 U. S. C. 551, 553, 554, 555)

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART, *Acting Secretary.*

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 86]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedures appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (L/MFR, ADF, VOR, TerVOR, VOR/DME, ILS, or RADAR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The automatic direction finding procedures prescribed in § 609.100 (b) are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
Tampa VOR	LOM	Direct	1200	T–dn#	300–1	300–1	200–½
Tampa LFR	LOM	Direct	1500	C–dn	500–1	500–1	500–1½
Radar Terminal Area Transition Altitude	Radar Site	Within 25 mi	*1500	S–dn–18	400–1	400–1	400–1
				A–dn	800–2	800–2	800–2

*Radar control must provide 1000′ clearance when within 3 miles or 500′ clearance when between 3–5 miles of radio antenna towers 861′ MSL 12 mi SE and 1135′ MSL 10 mi SE of airport.
200–½ absolute minimum for takeoff Runway 27.
Procedure turn W side N crs, 360° Outbnd, 180° Inbnd, 1200′ within 10 mi.
Minimum altitude over facility on final approach crs, 700′.
Crs and distance, facility to airport, 180°—4.0 mi.
If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 4 mi of LOM, turn right to 225°, climb to 1500′ on crs of 285° from LFR within 20 mi or, when directed by ATC, (1) climb to 1500′ on crs of 180° from LOM within 20 mi or, (2) climb to 1500′ direct to TPA LFR.

City, Tampa; State, Fla.; Airport Name, International; Elev., 26′, Fac. Class, LOM; Ident., TP; Procedure No. 1, Amdt. 11; Eff. Date, 27 Sept. 58; Sup. Amdt. No. 10 (ADF portion of Comb. ILS–ADF; Dated, 10 Sept. 55

2. The very high frequency omnirange (VOR) procedures prescribed in § 609.100 (c) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
HSV-VOR	Ballard Int* (Final)%	Direct	2200	T–dn	300–1	300–1	300–1

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 7001]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

QUALITONE HEARING AID CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.170 *Qualities or properties of product or service;* § 13.205 *Scientific or other relevant facts.* Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Qualitone Hearing Aid Co., Inc., et al., Minneapolis, Minn., Docket 7001, July 15, 1958]

In the Matter of Qualitone Hearing Aid Company, Inc., a Corporation, and Richard T. Burger, Mas Harada and Charles Hinz, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a manufacturer of hearing aid instruments, parts, and accessories in Minneapolis, Minn., with representing falsely in mats for use in newspaper advertising and circulars and other advertising literature disseminated to distributors and retailers to be used to induce purchase of their products, that their "Stereophonic Optical Ear" and "Hidden Ear" hearing aids were cordless, invisible, and required nothing in the ear, and that the former was completely contained in a pair of eyeglasses.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 15 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Qualitone Hearing Aid Company, Inc., a corporation, and its officers, Richard T. Burger, Mas Harada, and Charles Hinz, individually and as officers of said corporation, and their agents, representatives, and employees, directly or through any corporate or other device in connection with the offering for sale, sale, or distribution of hearing aid devices known as "Stereophonic Optical Ear" and "Hidden Ear" or any other device of substantially the same construction or operation, whether sold under the same or any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated any advertisement by means of the U. S. mails or by any means in commerce as "Commerce" is defined in the Federal Trade Commission Act, for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of said product, which advertisement:

A. Represents, directly or by implication:

(1) That said hearing aid devices are invisible or cannot be seen;

(2) That when wearing said device nothing is required to be placed in the ear;

(3) That their Stereophonic Optical Ear is completely contained in a pair of eyeglasses.

B. Uses the words or phrases "No tell tale wires," "No button in your ear," "without cords," or other words or phrases of the same or similar import or meaning, unless in close connection

therewith and with equal prominence it is stated that a visible plastic tube runs from the instrument to the ear where it is held in place by an ear mold or nipple.

2. Disseminating any advertisement by any means for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of respondents' products in commerce as "commerce" is defined in the Federal Trade Commission Act, which advertisement contains any of the representations prohibited in Paragraph 1 of this order.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: July 15, 1958.

By the Commission.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

INFRAGLASS HEATER CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.70 *Fictitious or misleading guarantees.* Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—*Misrepresenting oneself and goods—Goods:* § 13.1647 *Guarantees.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Infraglass Heater Company, Inc., et al., Pontiac, Mich., Docket 7080, July 15, 1958]

In the Matter of Infraglass Heater Company, Inc., a Corporation, and Donald J. Heckman, Individually, and as an Officer of Said Corporation; and Whizzer Industries, Inc., a Corporation, and Dietrich Kohlsaat, Individually, and as an Officer of the Said Corporation, and Henry Schuricht, and Martin Goldman, Individually, and as Officers of Said Corporations

This proceeding was heard by a hearing examiner on the complaint of the Commission charging distributors of electric heaters in Pontiac, Mich., with representing falsely in written guarantees inserted with their products and in newspapers and magazines of general circulation, that they guaranteed their products for normal usage for five years when, in a vast number of instances, they refused to replace, repair, or make adjustments for breakage or defects growing out of the normal use of the heaters.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 15 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Infraglass Heater Company, Inc., a corporation, and its officers, and Donald J. Heckmann, Henry Schuricht and Martin Goldman, individually and as officers of the corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of electric heaters or other merchandise in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that their electric heaters, or any other merchandise, is guaranteed when any provision of the guarantee is not fully complied with.

2. Representing, directly or by implication, that their electric heaters, or other merchandise, is guaranteed when there are any conditions or limitations in connection with such guarantee, unless such conditions and limitations are clearly set forth.

It is further ordered, That the complaint herein, insofar as it relates to respondents Whizzer Industries, Inc., a corporation, Dietrich Kohlsaat, individually and as an officer of Whizzer Industries, Inc., and Henry Schuricht and Martin Goldman, in their capacities as officers of Whizzer Industries, Inc., be and the same hereby is, dismissed without prejudice to the right of the Commission to take such action in the future as the facts may then warrant.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Infraglass Heater Company, Inc., a corporation, and Donald J. Heckmann, Henry Schuricht, and Martin Goldman, individually, and as officers of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: July 15, 1958.

By the Commission.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

ATLANTIC PRODUCTS ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.75 *Free goods or services;* § 13.105 *Individual's special selection or situation;* § 13.155 *Prices:* Adequacy and additional charges unmentioned; misrepresented as regular and customary; § 13.285 *Value.* Subpart—*Misrepresenting oneself and goods—Goods:* § 13.1605 *Free goods or services;* § 13.1663 *Individual's special selection or situation;* [Misrepresenting oneself and goods]—*Prices:* § 13.1778 *Additional costs unmentioned;* § 13.1805 *Exaggerated as regular and customary.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Mick Dalton and Milton W. Johnson trading as Atlantic Products, Laurel, Nebr., Docket 7083, July 16, 1958]

In the Matter of Mick Dalton and Milton W. Johnson, Individually and Trading and Doing Business as Atlantic Products, a Partnership

This proceeding was heard by a hearing examiner on the complaint of the Commission charging sellers in Laurel, Nebr., of photograph albums and certificates for enlargement of snapshots or negatives, with representing falsely on certificates issued to customers by their sales representatives that a few selected individuals in an area would receive free a photograph album worth, along with a book of certificates, many times the "special reduced price"; and understating the cost of enlargements.

After acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 16 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Mick Dalton and Milton W. Johnson, individuals trading and doing business as Atlantic Products, or under any other name, their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of photograph albums, certificates for the enlargement of snapshots or negatives of snapshots, or any other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing directly or by implication:

1. That their albums are given free or without charge.

2. That they sell their albums and certificates only to selected persons.

3. That they sell only a few of their album-certificate combinations in a given area.

4. That the price at which they regularly and customarily sell their album-certificate combination is a special, reduced or advertising price.

5. That each enlargement will cost a specified amount if an amount in addition thereto is charged or required to be paid.

6. That their album-certificate combination has a value in excess of the regular and customary price charged therefor.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: July 16, 1958.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f). [Cease and desist order, Paul C. Vaughan and Ferd F. Weil trading as Vaughan-Weil, Birmingham, Ala., Docket 7093, July 15, 1958]

In the Matter of Paul C. Vaughan and Ferd F. Weil, Individually and as Copartners Trading as Vaughan-Weil

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a furrier in Birmingham, Ala., with violating the Fur Products Labeling Act by labeling certain fur products with fictitious prices which were in excess of the usual retail prices; by failing to set out on labels the term "secondhand used fur"; by failing in other respects to conform to the labeling and invoicing requirements of the Act; by advertising in newspapers which failed to disclose the names of animals producing the fur in fur products or that certain products were composed of cheap or waste fur, and represented prices falsely as wholesale and reduced; and by failing to maintain adequate records as a basis for such pricing claims.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 15 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Paul C. Vaughan and Ferd F. Weil, individually and as copartners, trading as Vaughan-Weil, or any other name, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale, in commerce, or the transportation or distribution in commerce, of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Falsely or deceptively labeling or otherwise identifying any such products as to the regular prices thereof by any representation that the regular or usual price of such product is any amount which is in excess of the price at which respondents have usually and customarily sold such products in the recent regular course of their business.

2. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in th Fur Products Name Guide and as prescribed under the Rules and Regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is the fact;

(e) The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale, or transported or distributed it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product;

(g) That the fur product contains or is composed of secondhand used fur, when such is the fact;

(h) The item number or mark assigned to a fur product.

3. Setting forth on labels attached to fur products:

(a) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with nonrequired information;

(b) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is the fact;

(e) The name and address of the person issuing such invoice;

(f) The name of the country of origin of any imported fur contained in a fur product;

(g) The item number or mark assigned to a fur product.

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

1. Fails to disclose:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide, and as prescribed under the rules and regulations;

(b) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is the fact.

2. Represents, directly or by implication:

(a) That the prices of fur products are at wholesale, when such is not the fact;

(b) That the regular or usual price of any fur product is any amount which is in excess of the prices at which respondents have usually and customarily sold such products in the recent regular course of business.

D. Making price claims or representations in advertisements respecting wholesale prices, comparative prices or reduced prices unless there are maintained by respondents adequate records disclosing the facts upon which such claims or representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Paul C. Vaughan and Ferd F. Weil, individually and as copartners trading as Vaughan-Weil, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the

manner and form in which they have complied with the order to cease and desist.

Issued: July 15, 1958.

By the Commission.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

MUNTZ TV, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.15 *Business status, advantages, or connections:* Direct Dealing Advantages; § 13.230 Size or weight. Subpart—*Misbranding or mislabeling:* § 13.1323 *Size or weight.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Muntz TV, Inc., et al., Chicago, Ill., Docket 6928, July 15, 1958]

In the Matter of Muntz TV, Inc., a Corporation, and Earl W. Muntz, Individually and as an Officer of said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a manufacturer and its president in Chicago with exaggerating, in newspaper advertising and by markings on sets and otherwise, the size of the picture tubes of their television sets, and with representing falsely that their TV sets were sold directly to the consumer from "factory outlets".

The corporate respondent agreed to a consent settlement on June 18, 1958—23 F. R. 5991—at which time the complaint was dismissed as to Earl W. Muntz as an officer of the corporation. Mr. Muntz in his individual capacity on July 15 accepted the same consent settlement.

The order to cease and desist is as follows:

It is ordered, That respondent Earl W. Muntz an individual, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of television receiving sets in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using any figure or measurement to designate or describe, directly or by implication, the size of the picture tube with which television receiving sets are equipped which is greater than the horizontal measurement of the viewable area of the tube on a single plane basis, unless it is conspicuously disclosed in immediate connection therewith that said figure or measure is the diagonal measurement, when such is the fact; or an accurate specification of the viewable area of the tube, in square inches, is conspicuously disclosed in immediate connection with such figure or measurement;

2. Authorizing or permitting others to represent or placing into the hands of others means and instrumentalities whereby they may represent, directly or by implication, that the retailers selling respondent's television sets are factory outlets or have any relationship to respondent other than that of buyers from respondent.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondent Earl W. Muntz, as an individual, shall within sixty (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: July 15, 1958.

[Docket 7069]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

EMPIRE PLASTIC CORP.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Price discrimination under 2 (a): § 13.715 *Charges and price differentials.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Empire Plastic Corporation, Pelham Manor, N. Y., Docket 7069, July 7, 1958]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a manufacturer of plastic toys with factory at Pelham Manor, N. Y., and sales office in New York City, with discriminating in price in violation of section 2 (a) of the Clayton Act by granting as a discount or rebate an amount equivalent to five per cent of list price to members of a corporation of toy jobbers and wholesalers while not making such allowance available to their competitors.

After acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 7 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondent Empire Plastic Corporation, a corporation, and its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the sale of toys in commerce, as "commerce" is defined in the Clayton Act, do forthwith cease and desist from discriminating in price by selling such toys of like grade and quality to any purchaser at prices higher than those granted any other purchaser:

1. Where such other purchaser competes in fact with the unfavored purchaser in the resale and distribution of such products, or

2. Where respondent, in the sale of such products, is in competition with any other seller.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is further ordered, That the respondent Empire Plastic Corporation, a corporation, shall within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist contained in said initial decision.

Issued: July 7, 1958.

By the Commission.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 34]

LOXAHATCHEE NATIONAL WILDLIFE REFUGE, FLORIDA

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add to Chapter I, Title 50, Code of Federal Regulations, a new subpart entitled Loxahatchee National Wildlife Refuge, Florida, and §§ 34.91, 34.92, 34.93, and 34.94 as set forth in tentative form below. The purpose of the proposed regulation is to permit hunting, fishing, boating, and public use on certain lands of the Loxahatchee National Wildlife Refuge under certain limitations and subject to compliance with the laws and regulations of the State of Florida.

The proposed regulation relates to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U. S. C. 1003); however, it is the policy of the Department of the Interior that, wherever practicable, the rule making requirements be observed voluntarily. Accordingly, interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 26, 1958.

D. H. JANZEN, *Director, Bureau of Sport Fisheries and Wildlife.*

§ 34.91 *Hunting of migratory game birds permitted.* Subject to compliance with the provisions of Parts 6, 18, and 21 of this chapter, the hunting of ducks, geese, rails, and coots is permitted on the hereinafter described lands of the Loxahatchee National Wildlife Refuge, Florida, subject to the following conditions, restrictions, and requirements:

(a) *Hunting area.* The following described area is open to hunting:

Beginning at the point of intersection of the west right-of-way boundary of Levee No. 40 and the north line of sec. 26, T. 45 S., R. 41 E., Tallahassee Meridian; thence southerly, westerly, and southwesterly with the west right-of-way boundary of Levee No. 40 approximately fourteen and one-half (14½) miles to the intersection of the west line of sec. 19, T. 47 S., R. 41 E.; thence north approximately three and one-half (3½) miles to the northwest corner of sec. 6, T. 47 S., R. 41 E., thence west approximately one-third (⅓) mile to the southwest corner of sec. 31, T. 46 S., R. 41 E.; thence north approximately eight (8) miles to the northwest corner of sec. 30, T. 45 S., R. 41 E.; thence east approximately four and one-half (4½) miles to the point of beginning.

(b) *State laws.* Strict compliance with all State laws and regulations is required.

(c) *Dogs.* Hunting dogs, not to exceed two per hunter, may be used for the purpose of retrieving dead or wounded birds, but such dogs shall not be permitted to run at large on the public shooting grounds or elsewhere on the refuge.

(d) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for regulating the hunting.

§ 34.92 *Fishing permitted.* Subject to compliance with the provisions of Parts 18 and 21 of this chapter, fishing during the daylight hours is permitted on the hereinafter described lands of the Loxahatchee National Wildlife Refuge, subject to the following conditions, restrictions, and requirements:

(a) *Fishing area.* Fishing is permitted in the following described area:

Beginning at the point of intersection of the west line of T. 44 S., R. 41 E., Tallahassee Meridian with the east right-of-way boundary of Levee No. 40; thence southeasterly, southerly, and southwesterly, with the east right-of-way boundary of Levee No. 40 approximately twenty-four (24) miles to the point of intersection with the centerline of Levee No. 39; thence northwesterly with the centerline of Levee No. 39 approximately twelve (12) miles to the point of intersection with the north line of sec. 10, T. 46 S., R. 39 E., Tallahassee Meridian; thence east approximately eight and one-half (8½) miles to the northeast corner of sec. 12, T. 46 S., R. 40 E.; thence north approximately ten and one-half (10½) miles to the place of beginning.

(b) *State laws.* Strict compliance with all State laws and regulations is required.

§ 34.93 *Use of boats permitted.* The use of boats is permitted in the area open to public hunting and fishing as described in §§ 34.91 and 34.92, subject to the following conditions, restrictions, and requirements:

(a) *State laws.* Strict compliance with all State laws and regulations is required.

(b) *Horsepower limitation.* Inboard and outboard motorboats powered by one or more motors having a combined horsepower capacity of 10 or less are permitted: *Provided*, That motorboats may not be used during the open season for the hunting of migratory birds in areas designated by suitable posting by the refuge officer in charge as closed to motorboat operation during such open season.

(c) Speedboats and racing craft prohibited. The use of speedboats and racing craft of any description is prohibited except for official purposes.

(d) *Air-thrust boats.* Persons may operate air-thrust boats only as may be authorized by a valid special permit issued by the refuge officer in charge, which permit may limit the period during which such permit is valid and the area in which such air-thrust boats may operate.

§ 34.94 *Public use.* Subject to compliance with the provisions of Parts 18 and 21 of this chapter, public use and recreation, including picnicking and swimming, are permitted in areas designated by suitable posting by the refuge officer in charge, subject to the following conditions, restrictions, and requirements:

(a) *State laws.* Strict compliance with all State laws and regulations is required.

(b) *Commercial operations.* A valid special permit issued by an authorized officer is required for any commercial operations incident to public use and recreation.

(c) *Frog hunting.* Frog hunting is permitted only as may be authorized by a valid special permit issued by the refuge officer in charge, which permit may limit the period during which it is valid and the area in which the permittee may operate.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 965]

[Docket No. AO-166-A23]

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Metropole Hotel, 609 Walnut Street, Cincinnati, Ohio, beginning at 10:00 a. m., on September 23, 1958, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Cincinnati, Ohio, marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposals relative to a redefinition of the marketing area raise the issue whether the provisions of the present order would tend to effectuate the declared policy of the act, if they are applied to the marketing area to be redefined and, if not, what modifications of the provisions of the order would be appropriate.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Cincinnati Milk Sales Association, Inc., Cincinnati, Ohio:

1. Expand the marketing area to include Clermont, Clinton, Highland, Warren, and Butler Counties, Ohio; Perry Township in Brown County, Ohio; and Kenton, Campbell, and Boone Counties, Kentucky.

2. In § 965.77 delete the words "six cents" and substitute therefor, "seven cents".

Proposed by Sealtest Central Division, National Dairy Products Corporation, Cincinnati, Ohio:

3. Expand the marketing area to include Boone, Kenton, Campbell, Owen, Grant, Pendleton, Bracken, Mason, Fleming, Nicholas, and Harrison Counties, Kentucky; Brown, Clermont, Clinton, Highland, Butler, and Warren Counties, Ohio; and Dearborn and Ohio Counties, Indiana.

4. Amend § 965.51 (a) by: (A) Preferably, deleting all the language following "$1.30;" or (B) minimizing the effect of the supply-demand adjustment by replacing the numeral "50" with the numeral "20" in the language preceding subparagraph (1) or by other appropriate modification of subparagraphs (1) and (2).

Proposed by Swonger Dairy, Inc., Hillsboro, Ohio:

5. Expand the marketing area to include Adams and Brown Counties, Ohio.

Proposed by G. H. Berling, Inc., Bond Hill Dairy, Cincinnati, Ohio:

6. The sales of skim milk used in the manufacture of margarine remain in Class III all through the year.

Proposed by the Dairy Division, Agricultural Marketing Service, USDA:

7. Classify milk disposed of in "prepared mixes" containing less than 10 percent added sugar and less than 25 percent total solids not fat as Class I milk and classify milk disposed of in prepared mixes containing more than 10

percent added sugar and more than 25 percent total solids not fat and which is to be used semi-frozen or frozen as a frozen dessert as Class II milk.

8. Make such other changes as may be required to make the marketing agreement and order in their entirety conform with any amendments thereto which may result from this hearing and consider any other suggestions for changes in the order language which may be necessary for clarification in redrafting and reissuing the entire order.

Copies of this notice of hearing and the order may be procured from the Market Administrator, P. O. Box 1195, Cincinnati, Ohio, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 27th day of August 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

Commodity Stabilization Service

[7 CFR Part 729]

PEANUTS

NOTICE OF INTENTION TO AMEND THE MARKETING QUOTA REGULATIONS FOR 1956 CROP PEANUTS AND ALLOTMENT AND MARKETING QUOTA REGULATIONS FOR 1957 AND SUBSEQUENT CROPS

Pursuant to authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1281 et seq.), the Secretary of Agriculture is preparing to amend § 729.761 (b) (2) of the Marketing Quota Regulations for the 1956 Crop of Peanuts (21 F. R. 3867, 6057, 8310) and § 729.857 (c) (2) of the Allotment and Marketing Quota Regulations for Peanuts of the 1957 and Subsequent Crops (21 F. R. 9370, 9760; 22 F. R. 6741, 6987, 8475; 23 F. R. 1567). The purpose of the proposed amendments to the section cited is to clarify the conditions under which ASC State committees may reduce a farm allotment for failure of the farm operator to account for the disposition of peanuts produced on the farm. The affected sections, as they would be amended in accordance with present intentions, are quoted in full below.

Marketing Quota Regulations for the 1956 Crop of Peanuts, § 729.761 (b) (2):

(2) Failure to file the report as requested or the filing of a report which is found by the State committee to be incomplete or inaccurate shall constitute failure of the producer to account for disposition of peanuts produced on the farm and the allotment next established for such farm shall be reduced as provided in § 729.724 of the Marketing Quota Regulations for Peanuts of the 1956 Crop (20 F. R. 6033).

Allotment and Marketing Quota Regulations for the 1957 and Subsequent Crops of Peanuts, § 729.857 (c) (2):

(2) Failure to file the report as requested or the filing of a report which is found by the State committee to be incomplete or inaccurate shall constitute failure of the producer to account for disposition of peanuts produced on the farm and the allotment next established for the farm shall be reduced as provided in § 729.824.

Prior to the Secretary taking the action described above, consideration will be given to any data, views, and recommendations relating thereto which are submitted in writing to the Director, Oils and Peanut Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. To be considered any such submissions must be postmarked not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 26th day of August 1958.

[SEAL] CLARENCE L. MILLER,
Acting Administrator,
Commodity Stabilization Service.

Food and Drug Administration

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCES FOR RESIDUES OF DICHLONE

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued:

A petition was filed by United States Rubber Company, % Arthur, Dry and Dole, 1230 Sixth Avenue, New York 20, New York, proposing the establishment of tolerances for residues of dichlone (2,3-dichloro-1,4-naphthoquinone) in or on raw agricultural commodities, as follows:

15 parts per million in or on strawberries.
3 parts per million in or on beans, cherries, plums (fresh prunes).

The analytical method proposed in the petition for determining residues of dichlone is a modification of that proposed by Burchfield and McNew in Phytopathology, Volume 38, page 665 (1948). The principal modification is that of using benzene as a solvent for extraction and color development.

Dated: August 26, 1958.

[SEAL] ROBERT S. ROE,
Director,
Bureau of Biological and Physical Sciences.

[F. R. Doc. 58-7054; Filed, Aug. 29, 1958; 8:52 a. m.]

[21 CFR Part 130]

DRUGS EXEMPTED FROM PRESCRIPTION-DISPENSING REQUIREMENTS OF SECTION 503 (b) (1) (C) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

PROPOSING TO AMEND REGULATIONS AFFECTING CERTAIN N-ACETYL-*p*-AMINOPHENOL (*p*-HYDROXY-ACETANILID) PREPARATIONS

Notice is given that the Commissioner of Food and Drugs, in accordance with the Federal Food, Drug, and Cosmetic Act (secs. 503 (b) (3), 505 (c), 701 (a); 65 Stat. 649, 52 Stat. 1052, 1055; 21 U. S. C. 353 (b) (3), 355 (c), 371 (a)) and the authority delegated to him by the Secretary of Health, Education, and Welfare (21 CFR, 1957 Supp., 130.101 (b)) hereby offers an opportunity to all interested persons to submit their views in writing to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., within 30 days from the date of publication of this notice in the FEDERAL REGISTER on the proposed amendments set forth below.

It is proposed to amend paragraph (a) of § 130.102 by changing subparagraph (1) (vi) to read as set forth below and by adding to subparagraph (1) a new subdivision (viii).

§ 130.102 *Exemption for certain drugs limited by new-drug applications to prescription sale.* (a) • • •

(1) • • •

(vi) The dosages of *N*-acetyl-*p*-aminophenol recommended or suggested in the labeling do not exceed: For adults 0.65 gram (10 grains) per dose or 2.0 grams (30 grains) per 24-hour period; for children 6 to 12 years of age, one-half of the maximum adult dose or dosage.

• • • • • • •

(viii) If the article is offered for use in arthritis or rheumatism, the labeling prominently bears a statement that the beneficial effects claimed are limited to the temporary relief of minor aches and pains of arthritis and rheumatism and, in juxtaposition with directions for use in such conditions, a conspicuous warning statement, such as: "Caution: If pain persists for more than 10 days, or redness is present, or in conditions affecting children under 12 years of age, consult a physician immediately".

The proposal for the changes in dosage levels of these preparations was initiated by a member of the drug industry. Evidence now available through investigation and marketing experience shows that it is not necessary for the protection of public health to limit preparations so labeled to prescription sale.

The attention of prospective manufacturers and distributors of these drugs is directed to the fact that such preparations, labeled with the increased dosage levels permitted by the proposed amendment to § 130.101 (a) (1), if marketed within the jurisdiction of the Federal, Food, Drug, and Cosmetic Act, will be regarded as new drugs, and the law requires that an effective original or supplemental new-drug application be effective for them.

Dated: August 25, 1958.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

NOTICES

CIVIL AERONAUTICS BOARD

[Docket No. 9591]

AMERICAN AIRLINES, INC.

NOTICE OF HEARING

In the matter of a proposal by American Airlines, Inc., to provide coach service with other than high-density aircraft.

Notice is hereby given, pursuant to the provisions of the Civil Aeronautics Act of 1938, as amended, that a hearing in the above-entitled proceeding is assigned to be held on September 16, 1958, at 10:00 a. m., e. d. s. t., in Room 5132, U. S. Department of Commerce Building, 14th Street and Constitution Avenue NW., Washington, D. C., before Examiner Leslie G. Donahue.

Without limiting the scope of the issues presented by the order of investigation, particular attention will be directed to the following matters:

(1) Is coast-to-coast service with departure at the point of origin between the hours of 10:00 p. m. and 3:59 a. m. "off-peak" within the meaning of the Board's coach policy statement (§399.19 (a) of the Economic Regulations of the Civil Aeronautics Board)?

(2) Is the proposed revision to its tariff by American unjust, and unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful within the meaning of section 404 (a) and (b) of the Act?

For more detailed information with respect to the issues involved, attention is directed to the Prehearing Conference Report served August 14, 1958, as supplemented.

Notice is further given that any person, other than parties of record, desiring to be heard in this proceeding must file with the Board, on or before September 16, 1958, a statement setting forth the issues of fact or law raised by this proceeding on which he desires to be heard.

For further details with respect to this investigation, interested parties are referred to the Board's order instituting the investigation, Order No. E-12549, dated May 22, 1958, on file with the Civil Aeronautics Board.

Dated at Washington, D. C., August 26, 1958.

[SEAL] THOMAS L. WRENN,
Acting Chief Examiner.

ATOMIC ENERGY COMMISSION

[Docket No. 50-32]

AEROJET-GENERAL NUCLEONICS

ISSUANCE OF FACILITY LICENSE AMENDMENT

Please take notice that the Atomic Energy Commission has issued the following amendment (No. 3) to License No. R-10 authorizing Aerojet-General Nucleonics, San Ramon, California to operate its Model AGN-201 Serial No. 103 nuclear reactor at power levels not in excess of 20 watts. Previously, the license provided that AGN was not to operate the reactor at power levels in excess of 5 watts without previous authorization from the Commission. The Commission has found that operation of the facility in accordance with the terms and conditions of the license as amended will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since operation of the reactor at power levels not in excess of 20 watts does not present any substantial changes in the hazards to the health and safety of the public from those presented by the previously approved operation of the reactor.

In accordance with the Commission's rules of practice (10 CFR Part 2), the Commission will direct the holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within 30 days after the issuance of the license amendment. For further details see (1) the application submitted by Aerojet-General Nucleonics, and (2) a hazards anaylsis of operation of the reactor at the higher power level prepared by the Division of Licensing and Regulation, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 22d day of August 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

AMENDMENT OF UTILIZATION FACILITY LICENSE

[License No. R-10; Amdt. No. 3]

Paragraph "Ic.", as amended, of Appendix "A" of License No. R-10 issued to Aerojet-General Nucleonics, San Ramon, California, for the Model AGN-201, Serial No. 103 reactor, is hereby further amended to read as follows: "AGN shall not operate the reactor at power levels in excess of 20 watts without previous authorization from the Commission."

This amendment is effective as of the date of issuance.

Date of issuance: August 22, 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

[F. R. Doc. 58-7047; Filed, Aug. 29, 1958; 8:50 a. m.]

[Docket No. 50-34]

WESTINGHOUSE ELECTRIC CORP.

ISSUANCE OF FACILITY LICENSE AMENDMENT

Please take notice that the Atomic Energy Commission has issued the following amendment No. 2 to License CX-6 authorizing Westinghouse Electric Corporation to conduct a third series of critical experiments in its Yankee Critical Experiments Facility located at the Westinghouse Reactor Evaluation Center near Waltz Mill, Pennsylvania, involving a reactor water-to-uranium metal ratio of 4:1.

The Commission has found that conduct of the experiments in accordance with the terms and conditions of the license as amended will not present any undue hazard to the health and safety of the public and will not be inimical to the common defense and security.

The Commission has found that prior public notice of proposed issuance of this amendment is not necessary in the public interest since the conduct of the proposed experiments does not present any substantial change in the hazards to the health and safety of the public from those previously considered and evaluated in connection with the previously approved operation of the facility.

In accordance with the Commission's rules of practice (10 CFR Part 2), the Commission will direct the holding of a formal hearing on the matter of issuance of the license amendment upon receipt of a request therefor from the licensee or an intervener within 30 days after the issuance of the license amendment. For further details, see (1) the application for license amendment by Westinghouse Electric Corporation and (2) a hazards analysis of the experiments prepared by the Division of Licensing and Regulation, both on file at the Commission's Public Document Room, 1717 H Street, NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 22d day of August 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

FACILITY LICENSE AMENDMENT

[License No. CX-6; Amdt. 2]

In addition to activities previously authorized by the Commission under License No. CX-6, as amended, the Westinghouse Electric Corporation (hereinafter referred to as "the licensee") is authorized to perform the tests described in its application amendment dated July 22, 1958, which involves a reactor water-to-uranium metal ratio of 4:1 in accordance with the procedures and subject to the limitations stated or incorporated in said application amendment.

In performing these tests, the licensee shall comply with the conditions and requirements contained in paragraph 4 of License No. CX-6, as amended.

This amendment is effective as of the date of issuance.

Date of issuance: August 22, 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

[F. R. Doc. 58-7021; Filed, Aug. 29, 1958; 8:45 a. m.]

[Docket No. 50-17]

INDUSTRIAL REACTOR LABORATORIES, INC.

PROPOSED ISSUANCE OF FACILITY LICENSE

Please take notice that the Atomic Energy Commission proposes to issue the following facility license to Industrial Reactor Laboratories, Incorporated, Plainsboro, New Jersey, unless within fifteen (15) days after the filing of this notice with the Federal Register Division a request for a formal hearing is filed with the Commission as provided by the Commission's Rules of Practice (10 CFR Part 2). For further details see (1) the application submitted by Industrial Reactor Laboratories, Incorporated, and (2) a memorandum prepared by the Division of Licensing and Regulation which summarizes the principal factors considered in reviewing the application for license, both on file at the Commission's Public Document Room, 1717 H Street NW., Washington, D. C. A copy of item (2) above may be obtained at the Commission's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D. C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 28th day of August 1958.

For the Atomic Energy Commission.

EBER R. PRICE,
Acting Director, Division of Licensing and Regulation.

PROPOSED LICENSE

[License No. R-]

1. The Atomic Energy Commission (hereinafter referred to as "the Commission") finds that:

A. The nuclear reactor (hereinafter referred to as "the facility") authorized for construction by Construction Permit No. CPRR-7, as amended, issued to Industrial Reactor Laboratories, Incorporated, has been constructed and will operate in conformity with the application as amended and in conformity with the Atomic Energy Act of 1954, as amended (hereinafter referred to as "the act"), and the rules and regulations of the Commission;

B. There is reasonable assurance that the facility can be operated without endangering the health and safety of the public;

C. Industrial Reactor Laboratories, Incorporated, and AMF Atomics, a division of American Machine and Foundry Company, with whom IRL has contracted to operate the facility, are technically qualified to operate the facility and IRL is financially qualified to operate the facility;

D. Issuance of a license to possess and operate the facility will not be inimical to the common defense and security or to the health and safety of the public;

E. Industrial Reactor Laboratories, Incorporated has submitted proof of financial protection which satisfies the requirements of Commission regulations currently in effect.

2. Subject to the conditions and requirements incorporated herein, the Commission hereby licenses Industrial Reactor Laboratories, Incorporated:

A. Pursuant to section 104c of the act and Title 10, CFR, Chapter I, Part 50, "Licensing of Production and Utilization Facilities", to possess and operate the facility as a utilization facility in accordance with the procedures described in the application;

B. Pursuant to the act and Title 10, CFR, Chapter I, Part 70, "Special Nuclear Material", to possess and use up to 42 kilograms of contained uranium 235 in connection with operation of the facility;

C. Pursuant to the act and Title 10, CFR, Chapter I, Part 30, "Licensing of Byproduct Material" to possess, but not to separate such byproduct material as may be produced by operation of the facility.

3. This license applies to the facility which is owned by Industrial Reactor Laboratories, Incorporated and located in Plainsboro Township Middlesex County, New Jersey, and described in Construction Permit No. CPRR-7, as amended, and Industrial Reactor Laboratories, Incorporated, application amendments dated June 9, 1958, July 10, 1958, July 14, 1958, July 16, 1958, July 17, 1958, August 11, 1958, and August 12, 1958 (all herein "the application"). The facility is a pool type research reactor designed to operate at thermal power levels up to 5,000 kilowatts.

4. This license shall be deemed to contain and be subject to the conditions specified in § 50.54 of Part 50 and § 70.32 of Part 70, is subject to all applicable provisions of the Act and rules, regulations and orders of the Commission now or hereafter in effect, and is subject to the additional conditions specified below:

A. *Operating Restrictions*

(1) Industrial Reactor Laboratories, Incorporated shall not operate the facility at a power level in excess of 5,000 kilowatts (thermal);

(2) Industrial Reactor Laboratories, Incorporated shall not permit or authorize any organization other than AMF Atomics to operate the facility until the licensee shall have submitted to the Commission the technical qualifications of such other organization and the Commission shall have approved the operation of the facility by such other organization.

(3) The total reactivity worth of all experiments at any one time shall not exceed 1.5 percent and the reactivity worth of any one experiment shall not exceed 1 percent.

(4) The beam tubes shall not be used in an air filled condition until it has been determined and reported to the Commission that the beam tube plug thickness of 3.5 feet provides adequate shielding for 5,000 kilowatts operation, such that the permissible doses and radiation levels contained in 10 CFR Part 20 shall not be exceeded.

B. *Records*

In addition to those otherwise required under this license and applicable regulations, Industrial Reactor Laboratories, Incorporated shall keep the following records:

(1) Reactor operating records, including power levels.

(2) Records of in-pile irradiations.

(3) Records showing radioactivity released or discharged into the air or water beyond the effective control of Industrial Reactor Laboratories, Incorporated as measured at the point of such release or discharge.

(4) Records of emergency reactor scrams, including reasons for emergency shutdowns.

C. *Reports*

(1) Industrial Reactor Laboratories, Incorporated, upon the conclusion of each of the following stages of operation, shall report to the Commission the results and data obtained from each such stage of operation:

(a) the pre-critical and approach to criticality tests;

(b) the low power tests; and

(c) the approach to full power tests.

(2) Industrial Reactor Laboratories, Incorporated shall immediately report to the Commission any indication or occurrence of a possible unsafe condition relating to the operation of the facility.

5. Pursuant to § 50.60 of the regulations in Title 10, Chapter I, CFR, Part 50, the Commission has allocated to Industrial Reactor Laboratories, Incorporated for use in connection with the facility 41.58 kilograms of uranium 235 contained in uranium enriched to approximately 93 percent in the isotope uranium 235. Estimated schedules of special nuclear material transfers to Industrial Reactor Laboratories, Incorporated and returns to the Commission are contained in Appendix "A" which is attached hereto. Shipments by the Commission to Industrial Reactor Laboratories, Incorporated, in accordance with column 2 in Appendix "A" will be conditioned upon Industrial Reactor Laboratories' return to the Commission of material substantially in accordance with column 3 of Appendix "A".

This license is effective as of the date of issuance and shall expire at midnight January 12, 1977.

Date of issuance:

For the Atomic Energy Commission.

Office of the Secretary

OUTER CONTINENTAL SHELF

GEOLOGICAL AND GEOPHYSICAL EXPLORATION

Pursuant to the notice issued by the Secretary of the Interior on September 17, 1953, concerning geological and geophysical explorations in the outer Continental Shelf (18 F. R. 5667), a cooperative agreement has been entered into with the Alabama Department of Conservation covering the protection and conservation of aquatic life. In accordance with the provisions of the said notice as supplemented by the cooperative agreement, any person, as defined in section 2 (d) of the Outer Continental Shelf Lands Act of August 7, 1953 (67 Stat. 462), is hereby authorized to conduct geological and geophysical explorations in that part of the outer Continental Shelf seaward of the submerged lands of the State of Alabama upon condition (1) that his operations shall be confined to such area or areas as may be designated and approved by the Regional Oil and Gas Supervisor of the United States Geological Survey, (2) that he has obtained appropriate permission for such explorations from the Corps of Engineers, Department of the Army, and (3) that, for the protection and conservation of aquatic life he files with the said Regional Oil and Gas Supervisor and with the Alabama Department of Conservation his stipulation agreeing to comply with the requirements of the regulations of the said Department governing the methods and inspection of and restrictions upon geological and geophysical explorations in the submerged lands of the State of Alabama, which regulations are hereby adopted as the regulations of the Secretary of the Interior applicable to that part of the outer Continental Shelf seaward of the submerged lands of the State of Alabama.

The enforcement of the regulations hereby adopted is delegated to the Regional Oil and Gas Supervisor of the United States Geological Survey, and he may accept the assistance of the State of Alabama, in the enforcement of the said regulations. This general authorization to conduct geological and geophysical explorations is subject to termination upon not less than 60 days' notice published in the FEDERAL REGISTER, and the authorization to conduct such explorations may be terminated as to any person upon reasonable notice.

Dated: August 25, 1958.

HATFIELD CHILSON,
Acting Secretary of the Interior.

[Docket No. G-16054]

COLTEXO CORP.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

AUGUST 26, 1958.

Coltexo Corporation (Coltexo) on August 1, 1958, tendered for filing a proposed change in its presently filed rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 30, 1958.

Purchaser: United Fuel Gas Company.

Rate schedule designation: Supplement No. 2 to Coltexo's FPC Gas Rate Schedule No. 1.

Effective date: August 1, 1958 (effective date is the effective date proposed by Coltexo).

The instant Notice of Change reflects in whole or in part the effect of the Louisiana State Gathering Tax which is stated to be effective as of August 1, 1958. The use of Supplement No. 1 to Coltexo's FPC Gas Rate Schedule No. 1 was deferred by Commission order issued November 2, 1955, at Docket No. G-9604. The increased rate and charge proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 2 to Coltexo's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 2 to Coltexo's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said Supplement No. 1 be and it is hereby suspended and the use thereof deferred until the date on which Supplement No. 1 to Coltexo's FPC Gas Rate Schedule No. 1 is made effective in the manner prescribed by the Natural Gas Act, or until August 2, 1958, whichever is later.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR, 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7031; Filed, Aug. 29, 1958; 8:47 a. m.]

[Docket No. G-16076]

ATLANTIC REFINING CO.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 26, 1958.

The Atlantic Refining Company (Respondent) on August 13, 1958, tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 11, 1958.

Purchaser: Tennessee Gas Transmission Company.

Rate schedule designation: Supplement No. 7 to Respondent's FPC Gas Rate Schedule No. 185.

Effective date: September 13, 1958 (effective date is the first day after expiration of the required thirty days' notice).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final decision, it is deemed advisable to suspend the said proposed increased rate and charge until September 14, 1958, and thereafter to permit it to become effective as of that date; provided that within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until September 14, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of September 14, 1958: *Provided, however,* That within 20 days from the date of this order Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of The Atlantic Refining Company To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G-16076, ---------- hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of

which is appended hereto this ------ day of ----------.

By ---

Attest:

(Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR. 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7048; Filed, Aug. 29, 1958; 8:51 a. m.]

[Docket No. G-16073]

J. E. MARSHALL ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

AUGUST 26, 1958.

J. E. Marshall et al. (Marshall) on August 11, 1958, tendered for filing a proposed change in its presently filed rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 7, 1958.

Purchaser: Hassie Hunt Trust.

Rate schedule designation: Supplement No. 6 to Marshall's FPC Gas Rate Schedule No. 1.

Effective date: September 11, 1958 (effective date is the first day after expiration of required thirty days' notice).

The instant Notice of Change reflects in whole or in part the effect of the Louisiana State Gathering Tax which is stated to be effective as of August 1, 1958. The use of Supplement No. 5 to Marshall's FPC Gas Rate Schedule No. 1 was deferred by Commission order issued December 24, 1957 at Docket No. 14071. Supplement No. 4 thereto had previously been suspended by order issued December 2, 1955 at Docket No. G-9722.

The increased rate and charge proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 6 to Marshall's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 6 to Marshall's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said Supplement No. 6 be and it is hereby suspended and the use thereof deferred until the date on which Supplement Nos. 4 and 5 to Marshall's FPC Gas Rate Schedule No. 1 are made effective in the manner prescribed by the Natural Gas Act, or until September 12, 1958, whichever is later.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR, 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7049; Filed, Aug. 29, 1958; 8:51 a. m.]

[Docket No. G-16061]

W. H. COCKE

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

AUGUST 26, 1958.

W. H. Cocke (Respondent) on July 31, 1958, tendered for filing a proposed change in its presently filed rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 25, 1958.

Purchaser: United Gas Pipe Line Company.

Rate schedule designation: Supplement No. 4 to Respondent's FPC Gas Rate Schedule No. 1.

Effective date: August 1, 1958 (effective date is the effective date proposed by Respondent).

The instant Notice of Change reflects in whole or in part the effect of the Louisiana State Gathering Tax which is stated to be effective as of August 1, 1958. The use of Supplement No. 3 to Respondent's FPC Gas Rate Schedule No. 1 was deferred by Commission order issued November 4, 1957 at Docket No. G-12611.

The increased rate and charge proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 4 to Respondent's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 4 to Respondent's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said Supplement No. 4 be and it is hereby suspended and the use thereof deferred until the date on which Supplement No. 3 to Respondent's FPC Gas Rate Schedule No. 1 is made effective in the manner prescribed by the Natural Gas Act, or until August 2, 1958, whichever is later.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR, 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. G-16059]

JOSEPH M. JONES ET AL.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 26, 1958.

Joseph M. Jones (Operator) et al. (Respondent) on August 7, 1958, tendered for filing a proposed change in his presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 31, 1958.

Purchaser: Texas Gas Transmission Corporation.

Rate schedule designation: Supplement No. 4 to Respondent's FPC Gas Rate Schedule No. 2.

Effective date: September 7, 1958 (effective date is the first day after expiration of the required thirty days' notice).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge until September 8, 1958, and thereafter to permit it to become effective as of that date; provided, that within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until September 8, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of September 8, 1958: *Provided, however,* That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondents shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of Joseph M. Jones (Operator), et al. To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. 10659, Joseph M. Jones (Operator), et al. on this day ------ of ----------, hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and for said purpose has executed this agreement and undertaking.

Witness:

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. G-16066]

PAN AMERICAN PETROLEUM CORP.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

AUGUST 26, 1958.

Pan American Petroleum Corporation (Pan American) on August 1, 1958 tendered for filing a proposed change in its presently filed rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 31, 1958.

Purchaser: Hassie Hunt Trust.

Rate schedule designation: Supplement No. 9 to Pan American's FPC Gas Rate Schedule No. 149.

Effective date: August 1, 1958 (effective date is the effective date proposed by Pan American).

The instant Notice of Change reflects in whole or in part the effect of the Louisiana State Gathering Tax which is stated to be effective as of August 1, 1958. The use of Supplement No. 8 to Pan American's FPC Gas Rate Schedule No. 149 was deferred by Commission order issued October 25, 1957, at Docket No. G-13524.

The increased rate and charge proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 9 to Pan American's FPC Gas Rate Schedule No. 149 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be

held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 9 to Pan American's FPC Gas Rate Schedule No. 149.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until the date on which supplement No. 8 to Pan American's FPC Gas Rate Schedule No. 149 is made effective in the manner prescribed by the Natural Gas Act, or until August 2, 1958, whichever is later.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR, 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7052; Filed, Aug. 29, 1958; 8:51 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 485 (23 F. R. 200), the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.11) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.20 to 522.24, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Clinton Garment Co., 1058 South Fourth Street, Clinton, Ind.; effective 8-11-58 to 1-20-59; workers engaged in the manufacture of garments included under the Women's Apparel Regulations (replacement certificate) (playsuits, slacks, pedal pushers, etc.).

Clyde Shirt Co., Northampton, Pa.; effective 8-11-58 to 8-10-59 (women's and children's blouses).

Connellsville Sportswear Co., South First Street, Connellsville, Pa.; effective 8-22-58 to 8-21-59 (men's and boys' sports slacks).

M. Janowitch & Sons, Main and Market Streets, Mahanoy City, Pa.; effective 8-21-58 to 8-20-59 (ladies' cotton and rayon dresses).

Kane Manufacturing Co., Inc., Morgantown, Ky.; effective 8-18-58 to 8-17-59 (jackets, sport coats, outerwear).

Kenrose Manufacturing Co., Inc., 230 Center Avenue NW., 321 Albemarle Avenue SE., Roanoke, Va.; effective 8-22-58 to 8-21-59 (wash dresses).

Loungeray, Inc., Canal Street, Hollidaysburg, Pa.; effective 8-14-58 to 8-13-59 (ladies' and children's robes and loungewear).

Morris & Co., Inc., 124 West Lombard Street, Baltimore, Md.; effective 8-18-58 to 8-17-59 (nurses' uniforms).

Movie Star of Poplarville, Poplarville, Miss.; effective 8-11-58 to 8-10-69 (ladies' slips, petticoats, boufants).

Roydon Wear, Inc., Oak Street, McRae, Ga.; effective 8-8-58 to 8-7-59 (boys' outerwear—trousers and shorts).

Saltillo Manufacturing Co., Inc., Saltillo, Tenn.; effective 8-15-58 to 8-14-59 (sport shirts).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Elpern Manufacturing Co., Inc., 113 Summit Avenue, Hagerstown, Md.; effective 8-18-58 to 8-17-59; 10 learners (replacement certificate) (children's dresses).

Horton Garment Co., 112 South Second, Atchison, Kans.; effective 8-18-58 to 8-17-59; 10 learners (junior dresses).

Johnson Garment Corp., Box 303, Marshfield, Wis.; effective 8-15-58 to 8-14-59; five learners (men's and boys' outerwear—parkas).

McTague Manufacturing Co., Inc., 16 West Presqueisle Street, Philipsburg, Pa.; effective 8-18-58 to 8-17-59; 10 learners (sportswear and outerwear).

Monticello Shirt Co., 706 Forrest Street, Charlottesville, Va.; effective 8-15-58 to 8-14-59; 10 learners (women's cotton blouses and dresses).

Protexall, Inc., Galesburg, Ill.; effective 8-15-58 to 8-14-59; 10 learners (work clothing).

Sunbright Manufacturing Co., Inc., Sunbright, Tenn.; effective 8-23-58 to 8-22-59; 10 learners (single pants).

United Garment Manufacturing Co., Iron Mountain, Mich.; effective 8-15-58 to 8-14-59; 10 learners (women's and children's sportswear, outerwear).

Wear Well Garment Co., Inc., First North and Gorman Streets, New Ulm, Minn.; effective 8-15-58 to 8-17-59; 10 learners (replacement certificate) (ladies' slacks; boys', juniors' and men's trousers).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Clinton Garment Co., 1058 South Fourth Street, Clinton, Ind.; effective 8-11-58 to 1-20-59; 50 learners engaged in the manufacture of garments included under the Single Pants, etc., Regulations (replacement certificate) (playsuits, skirts, slacks, pedal pushers, shorts, car coats, raincoats).

Lawrenceville Shirt Corp., Lawrenceville, Va.; effective 8-18-58 to 2-17-59; 25 learners (men's and boys' sport shirts).

Sandye Shirt Corp., Portland, Tenn.; effective 8-11-58 to 2-10-59; 55 learners (Men's and boy's sport shirts).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.60 to 522.65, as amended).

Florida Knitting Mills, Inc., 20 North Coburn Avenue, Orlando, Fla.; effective 8-25-58 to 8-24-59; 10 learners for normal labor turnover purposes (gloves and mittens).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.40 to 522.43, as amended).

Best Wear Hosiery Co., 495-99 North Third Street, Philadelphia, Pa.; effective 8-14-58 to 8-13-59; five learners for normal labor turnover purposes (ladies' seamless nylon hosiery).

Broadway Hosiery Mill, Inc., 53 Burton Street, Asheville, N. C.; effective 8-18-58 to 8-17-59; 5 percent of the total number of factory production workers for normal labor turnover purposes (seamless hosiery).

Drexel Knitting Mills Co., Drexel, N. C.; effective 8-14-58 to 8-13-59; 5 percent of the total number of factory production workers for normal labor turnover purposes (seamless hosiery).

Huffman Finishing Co., Granite Falls, N. C.; effective 8-18-58 to 8-17-59; 5 percent of the total number of factory production workers for normal labor turnover purposes (men's and misses' seamless hosiery).

Long Finishing Mills, Inc., 225 Trade Street, Burlington, N. C.; effective 8-15-58 to 8-14-59; 5 percent of the total number of factory production workers for normal labor turnover purposes (full-fashioned and seamless hosiery).

Knitted Wear Industry Learner Regulations (29 CFR 522.1 to 522.11, as amended, and 29 CFR 522.30 to 522.35, as amended).

Claxton Manufacturing Co., Claxton, Ga.; effective 8-11-58 to 2-10-59; 10 learners for plant expansion purposes (ladies' underwear).

Junior Form Lingerie Corp., Route 611, Jerome, Pa.; effective 8-19-58 to 8-18-59; five learners for normal labor turnover purposes (women's sleepwear).

JEM Knitting Mills Corp., Strausstown, Pa.; effective 8-14-58 to 2-13-59; 20 learners for plant expansion purposes (men's and boys' underwear).

Miss Coquette, 315 West Stephen Street, W. Va.; effective 8-14-58 to 2-13-59; 10 learners for plant expansion purposes (girls' lingerie—knit and woven fabric).

Hazlehurst Manufacturing Co., 200 Gill Street, Hazlehurst, Ga.; effective 8-15-58 to 2-14-59; 35 learners for plant expansion purposes (women's underwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.11, as amended).

Pattonsburg Manufacturing Co., Pattonsburg, Mo.; effective 8-18-58 to 2-17-59; 5 percent of the total number of factory production workers for normal labor turnover purposes in the occupation of sewing machine operator for a learning period of 240 hours at the rate of 90 cents an hour (leather headwear).

Russell Manufacturing Corp., Lebanon, Va.; effective 8-14-58 to 2-13-59; 5 percent of the total number of factory production workers for normal labor turnover purposes in the occupation of sewing machine operator only for a learning period of 320 Hours at the rate of 90 cents an hour (ladies' underwear, sheets, pillow cases).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D. C., this 20th day of August 1958.

MILTON BROOKE,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 26, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34916: *Fertilizer Compounds and Solution to Southern Territory.* Filed by Southwestern Freight Bureau, Agent (No. B-7361), for interested rail carriers. Rates on fertilizer compounds and related articles, carloads, also phosphatic fertilizer solution, tank-car loads from specified points in Arkansas, Kansas, Louisiana (west of the Mississippi River), Missouri, Oklahoma and Texas to destination in States in southern territory including Louisiana (east of the Mississippi River), also to Cincinnati, Ohio, and to Kenova, W. Va., as a basing point.

Grounds for relief: Short-line distance formulas and grouping.

Tariff: Supplement 14 to Southwestern Freight Bureau tariff I. C. C. 4290.

FSA No. 34917: *Texas and New Orleans Motor Rail Rates.* Filed by J. D. Hughett, Agent (No. 17), for interested carriers. Rates on various commodities moving on class and commodity rates over joint motor-rail-routes between station on the T & NO R. R. in Louisiana and Texas, as described in the application, on the one hand, and stations on the S. P. T. Co., in Louisiana and Texas, named in the application, on the other.

Grounds for relief: Motor truck competition.

Tariffs: Supplement 52 to Agent J. H. Hughett's tariff MF-I. C. C. No. 278 and other supplemental schedules listed in the application.

FSA No. 34918: *Poles and Tile Between Points in Texas.* Filed by Texas-Louisiana Freight Bureau, Agent (No. 332), for interested rail carriers. Rates on electric poles, carloads, also facing or flooring tile, carloads between points in Texas.

Grounds for relief: Texas intrastate competition in connection with rates made on bases of short-line distance formulas.

Tariff: Supplement 64 to Texas-Louisiana Freight Tariff Bureau tariff I. C. C. 865.

FSA No. 34920: *Onions and Onion Sets—Western Points to W. T. L. and Illinois Territories.* Filed by Western Trunk Line Committee, Agent (No. A-2004), for interested rail carriers. Rates on onions (without tops) and onion sets, carloads from points in Colorado, Idaho, Nebraska, Oregon, Utah, and Wyoming to points in states in Illinois and western trunk line territories described in the application.

Grounds for relief: Market competition with transcontinental producing points and rate relationships with white potatoes.

Tariff: Supplement 150 to Western Trunk Line Committee tariff I. C. C. A-3511.

FSA No. 34921: *Sugar—California Points to Dallas, Tex.,* Filed by Trans-Continental Freight Bureau, Agent (No. 351), for interested rail carriers. Rates on sugar, beet or cane, carloads from points in California described in the application to Dallas, Tex.

Grounds for relief: Market competition and to restore rate relationship with Sugarland, Tex.

Tariff: Supplement 28 to Trans-Continental Freight Bureau tariff I. C. C. 1590.

FSA No. 34922: *Substituted Rail Service—Erie R. R. et al., for Motor Carriers.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 91), for interested carriers. Rates on property loaded in highway trailers and transported in substituted service on railroad flat cars by way of specified substitution points in Massachusetts, on the one hand, and specified substitution points in Illinois, and Indiana, on the other, in connection with motor-rail-motor routes between territories served by motor carriers described in the application.

Grounds for relief: Motor truck competition at revised compensation for rail carriers.

FSA No. 34923: *Substitution Rail Service—B&M R. R. Et Al., for Motor Carriers.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 92), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars in substituted rail service by way of specified substitution points in Massachusetts, on the one hand, and specified substitution points in Kentucky, Illinois, Indiana, Michigan, and Ohio, on the other, in connection with motor-rail-motor routes between points in territories served by applicant motor carriers described in the application.

Grounds for relief: Motor truck competition at revised compensation for rail carriers.

FSA No. 34924: *Substitution Rail Service—NYNH&H and Penn. Railroads.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 93), for interested carriers. Rates on property loaded in highway trailers and transported on railroad flat cars in substituted rail service by way of specified points in Connecticut, Rhode Island and Massachusetts, on the one hand, and specified points in Kentucky, Illinois, Indiana, Missouri, and Ohio, on the other, on traffic over motor-rail-motor routes between points in territories served by applicant motor carriers described in the application.

Grounds for relief: Motor truck competition under revised compensation for rail carriers.

FSA No. 34925: *Substitution Rail Service—Erie and N. Y. N. H. & H. Railroads.* Filed by The Eastern Central Motor Carriers Association, Inc., Agent (No. 94), for interested carriers. Rates on property loaded in highway trailers and transported in substituted rail service on railroad flat cars by way of substitution points in Connecticut, Massachusetts and Rhode Island, on the one hand, and Chicago, Ill., and Hammond, Ill., on the other, on traffic over motor-rail-motor routes between points in territories served by motor carriers described in the application.

Grounds for relief: Motor-truck competition under revised rail compensation.

AGGREGATE-OF-INTERMEDIATES

FSA No. 34919: *Poles and Tile Between Points in Texas.* Filed by Texas-Louisiana Freight Bureau (No. 333), Agent, for interested rail carriers. Rates on electric light poles, carloads; also facing or flooring tile, carloads between points in Texas, applicable only on interstate traffic.

Grounds for relief: Maintenance of rates depressed to meet Texas intrastate competition not applicable on constructing combination rates from or to other points.

Tariff: Supplement 64 to Texas-Louisiana Freight Bureau Tariff I. C. C. 865.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

[Notice 20]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 26, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice, any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 61256. Corrected order.[1] By order of July 9, 1958, the Transfer Board approved the transfer to C. Philips Trucking, Inc., Woonsocket, R. I., of certificate No. MC 94997, issued July 10, 1941, to Celestine Philips, Woonsocket, R. I., and of operating rights acquired by the latter pursuant to transfer application No. MC–FC 61106 and assigned docket No. MC 94997 Sub 2. Certificate No. MC 94997 authorizes the transportation of macaroni, from Woonsocket, R. I., to Boston, Cambridge, and Somerville, Mass., and flour, from Boston and Cambridge, Mass., to Woonsocket, R. I., over regular routes, and newspapers, magazines, and periodicals, from Providence, R. I., to points in Burrillville, North Smithfield, and Woonsocket Townships, Providence County, R. I., and those in Blackstone Township, Worcester County, Mass., and household goods as defined by the Commission, between points in the Woonsocket, Burrillville, Smithfield, and North Smithfield Townships, Providence County, R. I., on the one hand, and, on the other, points in Massachusetts, over irregular routes. The operating rights acquired through MC–FC 61106 and assigned docket No. MC 94997 Sub 2 authorize the transportation of household goods, over irregular routes, between Woonsocket, R. I., and points within ten miles thereof, on the one hand, and, on the other, Philadelphia, Pa., and points in Connecticut, Massachussets, New Hampshire, New Jersey, New York, and Rhode Island. Gerard J. Donovan, 11 Beacon Street, Boston 8, Mass., for applicants.

No. MC–FC 61373. By order of August 22, 1958, the Transfer Board approved the transfer to Bobby Jones Mobile Home Movers, Inc., Columbus, Georgia, of certificate in No. MC 115683 Sub 1, issued July 12, 1957, to Robert W. Jones, doing business as Bobby Jones Mobile Home Service, Columbus, Ga., authorizing the transportation of: *Trailers* designed to be drawn by passenger automobiles, in secondary movements, by truckaway method, between Columbus, Ga., and points within 10 miles thereof, on the one hand, and, on the other, points in Georgia, Alabama, Florida, North Carolina, South Carolina, Mississippi, Louisiana, and Texas. In No. MC–FC 61373–A, Bobby Jones Mobile Home Movers, Inc., was substituted as applicant in No. MC 115683 Sub 2 which covers authority as shown in the FEDERAL REGISTER of March 20, 1958, on page 1874. James L. Flemister, 301 Georgia Savings Bank Building, Atlanta, Georgia, for applicants.

No. MC–FC 61378. By order of August 22, 1958, the Transfer Board approved the transfer to Grocery Transport, Inc., Buffalo, N. Y., of second corrected permit in No. MC 86726, issued June 28, 1949, to Faxlines, Inc., Buffalo, N. Y., authorizing the transportation of: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and good business houses, and *equipment, materials,* and *supplies,* used in the conduct of such businesses between points in a specified territory in New York and Pennsylvania. Mortimer A. Sullivan, 530 Walbridge Building, Court Street, Buffalo 2, New York, for applicants.

No. MC–FC 61382. By order of August 22, 1958, the Transfer Board approved the transfer to Eagle Transport Company, A Corporation, Big Spring, Texas, of permit in No. MC 110675, issued January 29, 1952 to Art Tucker, doing business as Art Tucker Transport Company, Big Spring, Texas, authorizing the transportation of asphalt and road oil, in bulk, in tank vehicles, over irregular routes, between Big Spring, Texas and points within ten miles thereof, on the one hand, and on the other, points in New Mexico. Reagan Sayers, Rawlings, Sayers, Scurlock & Edison, Century Life Building, Fort Worth 2, Texas.

No. MC–FC 61420. By order of August 21, 1958, the Transfer Board approved the transfer to Babbitt Bros., Inc., Bloomer, Wis., of certificate in No. MC 111878, issued April 12, 1951, to Frank Babbitt, doing business as Babbitt Bros. Transfer Co., Bloomer, Wis., authorizing the transportation of: Milk and milk products, in bulk, in tank vehicles, over irregular routes, from Bloomer, Wis., and points in Wisconsin within 75 miles thereof, to Amarillo, Austin, Corpus Christi, Dallas, Fort Worth, Houston, Lubbock, Midland, Paris, Plainview, San Antonio, Waco, and Wichita Falls, Tex., Lincoln and Omaha, Nebr., Tulsa, Okla., Hershey and Philadelphia, Pa., Denver, Colo., Wichita and Kansas City, Kans., Council Bluffs, Iowa, Minneapolis and St. Paul, Minn., Chicago and East St. Louis, Ill., Kansas City, Springfield, and St. Louis, Mo., and points within the commercial zones of each, as defined by the Commission. Donald A. Morken, 1100 First National-Soo Line Building, Minneapolis 2, Minn., for applicants.

No. MC–FC 61425. By order of August 21, 1958, the Transfer Board approved the transfer to Garden State Transfer Co., a Corporation, Newark, N. J., of Certificate No. MC 10968, issued January 18, 1949, to John Minarchi, doing business as Garden State Transfer Company, Newark, N. J., authorizing the transportation of general commodities, excluding household goods and other specified commodities, between New York, N. Y., on the one hand, and, on the other, points in Bergen, Passaic, Essex, and Hudson Counties, N. J. James J. Farrell, 201 Montague Place, South Orange, N. J., for applicants.

No. MC–FC 61471. By order of August 22, 1958, the Transfer Board approved the transfer to Peoria Charter Coach Company, a Corporation, 401 Hamilton Boulevard, Peoria, Illinois, of Certificate No. MC 18677, issued October 5, 1948, to White Star Motor Coach Lines of Illinois, a Corporation, 808 Fayette Street, Peoria, Illinois, authorizing the transportation of passengers between Farmington, Ill., and Peoria, Ill., and between Canton, Ill., and Farmington, Ill.

No. MC–FC 61481. By order of August 21, 1958, the Transfer Board approved the transfer to Four L Furniture Transport, Inc., New York, N. Y., of a portion of the operating rights described in Certificate No. MC 72620 Sub 1, issued March 27, 1958, to J. J. Asparro Trucking Corp., Elmhurst, N. Y., authorizing the transportation of Uncrated new furniture, over irregular routes, from New York, N. Y., to points in Connecticut, within 80 miles of Columbus Circle, New York, N. Y., with no transportation for compensation on return. Morris Honig, 150 Broadway, New York 38, N. Y., for applicants.

No. MC–FC 61482. By order of August 21, 1958, the Transfer Board approved the transfer to Rapid Furniture Transport, Inc., Elmhurst, N. Y., of a portion of Certificate No. MC 72620 Sub 1, issued March 27, 1958, to J. J. Asparro Trucking Corp., Elmhurst, N. Y., authorizing the transportation of Uncrated new furniture, over irregular routes, from New York, N. Y., to points in New Jersey and New York within 80 miles of Columbus Circle, New York, N. Y., with no transportation for compensation on return except as otherwise authorized. Morris Honig, 150 Broadway, New York 38, N. Y., for applicants.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F. R. Doc. 58–7039; Filed, Aug. 28, 1958; 8:54 a. m.]

[1] The previous order, published in the FEDERAL REGISTER of July 16, 1958, did not include the rights acquired through MC–FC 61106 and assigned docket No. MC 94997 Sub 2.

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 27, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34926: *Cement—Metaline Falls, Wash., to North Dakota points.* Filed by Trans-Continental Freight Bureau, Agent (No. 352), for interested rail carriers. Rates on cement, carloads from Metaline Falls, Wash., to Ardoch, Conway, Larimore, Portland Jct., Union, and Vance, N. Dak.

TITLE 2—THE CONGRESS

ACTS APPROVED BY THE PRESIDENT

EDITORIAL NOTE: After the adjournment of the Congress *sine die*, and until all public acts have received final Presidential consideration, a listing of public laws approved by the President subsequent to adjournment will appear in the daily FEDERAL REGISTER under *Title 2, The Congress*. A consolidated listing of the new acts approved by the President will appear in the Daily Digest in the final issue of the Congressional Record covering the 85th Congress, Second Session.

Acts Approved August 28, 1958

S. J. Res. 178.....Public Law 85–830
Joint Resolution authorizing the President of the United States of America to proclaim February 8–14, 1959, as National Children's Dental Health Week.

S. J. Res. 201.....Public Law 85–826
Joint Resolution to authorize the chairman of the Joint Committee on Atomic Energy to confer a medal on Rear Admiral Hyman George Rickover, United States Navy.

S. 166.....Public Law 85–807
An Act to amend the laws granting education and training benefits to certain veterans so as to extend, with respect to certain individuals, the period during which such benefits may be offered.

S. 765.....Public Law 85–828
An Act to increase the authorization for the appropriation of funds to complete the International Peace Garden, North Dakota.

S. 2594.....Public Law 85–806
An Act to transfer certain property and functions of the Housing and Home Finance Administrator to the Secretary of the Interior, and for other purposes.

S. 2888.....Public Law 85–836
An Act to provide for registration, reporting, and disclosure of employee welfare and pension benefit plans.

S. 2922.....Public Law 85–794
An Act to authorize per capita payments to members of the Red Lake Band of Chippewa Indians from the proceeds of the sale of timber and lumber on the Red Lake Reservation, and for other purposes.

S. 3139.....Public Law 85–831
An act to repeal the Act of July 2, 1956, concerning the conveyance of certain property of the United States to the village of Carey, Ohio.

S. 3224.....Public Law 85–809
An Act to improve opportunities for small business concerns to obtain a fair proportion of Government purchases and contracts, to facilitate procurement of property and services by the Government, and for other purposes.

S. 3448.....Public Law 85–797
An Act to authorize the acquisition and disposition of certain private lands and the establishment of the size of farm units on the Seedskadee reclamation project, Wyoming, and for other purposes.

S. 3534.....Public Law 85–805
An Act to authorize the Secretary of the Army to convey approximately 161 acres of land at Fort Crowder Military Reservation to the city of Neosho, Missouri.

S. 3564.....Public Law 85–827
An Act to accord coverage under the Civil Service Retirement Act to certain temporary rural carriers.

S. 3682 ..... Public Law 85-812
An Act to authorize the sale or exchange of certain lands of the United States situated in Pima County, Arizona, and for other purposes.

S. 3776 ..... Public Law 85-842
An Act to extend the time for the collection of tolls to amortize the cost, including reasonable interest and financing cost, of the construction of a bridge across the Missouri River at or near Miami, Missouri.

S. 3882 ..... Public Law 85-811
An Act to amend the Act of July 1, 1948, Chapter 791 (24 U. S. C. 279a), providing for the procurement and supply of Government headstones and markers.

S. 3966 ..... Public Law 85-855
An Act to amend Public Law 85-422.

S. 4004 ..... Public Law 85-795
An Act to encourage and authorize details and transfers of Federal employees for service with international organizations.

S. 4021 ..... Public Law 85-850
An Act to establish the United States Study Commission on the Savannah, Altamaha, Saint Marys, Apalachicola-Chattahoochee, and Perdido-Escambia River Basins, and intervening areas.

S. 4053 ..... Public Law 85-833
An Act to extend the boundaries of the Siskiyou National Forest in the State of Oregon, and for other purposes.

S. 4071 ..... Public Law 85-835
An Act to provide more effective price, production adjustment, and marketing programs for various agricultural commodities.

S. 4167 ..... Public Law 85-816
An Act to authorize the lease of Papago tribal land to the National Science Foundation, and for other purposes.

S. 4191 ..... Public Law 85-849
An Act to maintain existing minimum postage rates on certain publications mailed for delivery within the county of publication.

S. 4196 ..... Public Law 85-810
An Act to amend the Intercoastal Shipping Act, 1933 (47 Stat. 1425), as amended, to authorize incorporation of contract terms by reference in short-form documents.

S. 4273 ..... Public Law 85-846
An Act to provide for cooperation with the European Atomic Energy Community.

H. J. Res. 630 ..... Public Law 85-821
Joint Resolution to authorize the Commissioners of the District of Columbia to use certain real property in the District of Columbia for the proposed Southwest Freeway and for the redevelopment of the Southwest area in the District of Columbia.

H. J. Res. 654 ..... Public Law 85-845
Joint Resolution requiring the Secretary of Commerce to submit certain recommendations for legislation for the purpose of assisting Congress to determine whether or not to reimburse States for certain highways on the National System of Interstate and Defense Highways.

H. J. Res. 704 ..... Public Law 85-819
Joint Resolution establishing that the first session of the Eighty-sixth Congress convene at noon on Wednesday, January 7, 1959.

H. R. 376 ..... Public Law 85-839
An Act to prohibit trading in onion futures on commodity exchanges.

H. R. 5411 ..... Public Law 85-798
An Act to amend title II of the Social Security Act to provide that a widow or former wife divorced who loses mother's insurance benefits by remarriage may again become entitled if her husband dies within one year of such remarriage, to provide that interstate instrumentalities may secure coverage for policemen and firemen in positions under a retirement system of the instrumentality.

H. R. 5865 ..... Public Law 85-793
An Act to amend section 80 of the Hawaiian Organic Act, and for other purposes.

H. R. 6239 ..... Public Law 85-796
An Act to amend sections 1461 and 1462 of title 18 of the United States Code.

H. R. 6788 ..... Public Law 85-791
An Act to authorize the abbreviation of the record on the review or enforcement of orders of administrative agencies by the courts of appeals and the review or enforcement of such orders on the original papers and to make uniform the law relating to the record on review or enforcement of such orders, and for other purposes.

H. R. 6894 ..... Public Law 85-808
An Act to amend the Tariff Act of 1930 as it relates to unmanufactured mica and mica films and splittings.

H. R. 7706 ..... Public Law 85-790
An Act to entitle members of the Army, Navy, Air Force, or Marine Corps retired after thirty years' service to retired pay equal to 75 per centum of the monthly basic pay authorized for the highest enlisted, warrant, or commissioned grade in which they served satisfactorily during World War I, and for other purposes.

H. R. 7738 ..... Public Law 85-809
An Act for the relief of the State of New York.

H. R. 8160 ..... Public Law 85-822
An Act authorizing a survey of the Tensaw River, Alabama, in the interest of navigation and allied purposes.

H. R. 8249 ..... Public Law 85-813
An Act to provide for the adjustment by the Secretary of the Army of the legislative jurisdiction exercised by the United States over lands within the Fort Custer Military Reservations, Michigan.

H. R. 8481 ..... Public Law 85-829
An Act to amend title IV of the Agricultural Act of 1956 to provide that the provisions of such title shall apply in Hawaii.

H. R. 8543 ..... Public Law 85-817
An Act to amend the Communications Act of 1934 to authorize, in certain cases, the issuances of licenses to noncitizens for radio stations on aircraft and for the operation thereof.

H. R. 8652 ..... Public Law 85-820
An Act to rescind the authorization for the Waldo Lake Tunnel and regulating works, Willamette River, Oregon.

H. R. 9239 ..... Public Law 85-801
An Act to provide for the construction of an irrigation distribution system and drainage works for restricted Indian lands within the Coachella Valley County Water District in Riverside County, California, and for other purposes.

H. R. 9371 ..... Public Law 85-814
An Act to provide for the relief of certain members and former members of the Army and the Air Force, and for other purposes.

H. R. 9407 ..... Public Law 85-847
An Act to provide additional opportunity for certain Government employees to obtain career-conditional and career appointments in the competitive civil service.

H. R. 9445 ..... Public Law 85-[illegible]
An Act to amend the Hawaiian Organic Act, and to approve amendments of the Hawaiian land laws, with respect to leases and other dispositions of land.

H. R. 9500 ..... Public Law 85-[illegible]
An Act to permit certain sales and exchanges of public lands of the Territory of Hawaii to certain persons who suffered a substantial loss of real property by reason of the tidal wave of March 9, 1957.

H. R. 9932 ..... Public Law 85-[illegible]
An Act to provide for the conveyance of certain land of the United States to the State Board of Education of the State of Florida.

H. R. 10045 ..... Public Law 85-[illegible]
An Act to provide for the sale of all of the real property acquired by the Secretary of Commerce for the construction of the Burke Airport, Virginia.

H. R. 11125 ..... Public Law 85-[illegible]
An Act to provide for the conveyance of certain real property of the United States to the city of Valparaiso, Florida.

H. R. 11630 ..... Public Law 85-[illegible]
An Act to amend title XV of the Social Security Act to extend the unemployment insurance system to ex-servicemen, and for other purposes.

H. R. 11697 ..... Public Law 85-[illegible]
An Act to amend the Act of June 29, 1888, relating to the prevention of obstructive and injurious deposits in the harbor of New York, to extend the application of that Act to the harbor of Hampton Roads.

H. R. 12216 ..... Public Law 85-[illegible]
An Act to designate the dam and reservoir to be constructed on the Cumberland River near Carthage, Tennessee, as the "Cordell Hull Dam and Reservoir" and to establish the United States Study Commission on the Neches, Trinity, Brazos, Colorado, Guadalupe-San Antonio, Nueces, and San Jacinto River Basins, and intervening areas.

H. R. 12217 ..... Public Law 85-[illegible]
An Act to amend paragraph (2) of subdivision (c) of section 77 of the Bankruptcy Act, as amended.

H. R. 12303 ..... Public Law 85-[illegible]
An Act to amend the Revised Organic Act of the Virgin Islands.

H. R. 12489 ..... Public Law 85-[illegible]
An Act to extend the time for making certain reports under the Highway Revenue Act of 1956 and the Federal-Aid Highway Act of 1956.

H. R. 12632 ..... Public Law 85-[illegible]
An Act authorizing Gus A. Guerra, his heirs, legal representatives and assigns, to construct, maintain, and operate a toll bridge across the Rio Grande, at or near Rio Grande City, Texas.

H. R. 12894 ..... Public Law 85-[illegible]
An Act to authorize the making, amendment, and modification of contracts to facilitate the national defense.

H. R. 13132 ..... Public Law 85-[illegible]
An Act to amend the District of Columbia Teachers' Salary Act of 1955.

H. R. 13192 ..... Public Law 85-[illegible]
An Act making appropriations for Mutual Security for the fiscal year ending June 30, 1959, and for other purposes.

H. R. 13342 ..... Public Law 85-832
An Act to provide for a survey of Parish Line Canal, Louisiana.

H. R. 13406 ..... Public Law 85-854
An Act to amend the District of Columbia Redevelopment Act of 1945, as amended.

H. R. 13489 ..... Public Law 85-852
An Act making appropriations for military construction for the Department of Defense for the fiscal year ending June 30, 1959, and for other purposes.

H. R. 13500 ..... Public Law 85-837
An Act to provide for the disposal of federally owned property of the Hanson, Company, and Houma Canals, Louisiana, and for other purposes.

H. R. 13531 ..... Public Law 85-792
An Act to amend the Act of June 29, 1938, as amended, to increase the insurance coverage required to be carried by cabs for hire in the District of Columbia for the protection of passengers and others, and for other purposes.

H. R. 13549 ..... Public Law 85-840
An Act to increase benefits under the Federal Old-Age, Survivors, and Disability Insurance System, to improve the actuarial status of the Trust Funds of such System, and otherwise improve such System; to amend the public assistance and maternal and child health and welfare provisions of the Social Security Act; and for other purposes.

H. R. 13856 ..... Public Law 85-844
An Act making appropriations for sundry independent executive bureaus, boards, commissions, corporations, agencies, and offices, for the fiscal year ending June 30, 1959, and for other purposes.

H. R. 13861 ..... Public Law 85-815
An Act to repeal certain provisions of law relating to messengers for the Committee on Ways and Means of the House of Representatives.

CIVIL AERONAUTICS ADMINISTRATION—Con. Page

Airports—Continued
Public airports, Federal aid to public agencies for development of; project costs other than costs of installation of high intensity lighting on runways designated instrument landing runways, United States share of 7375
Airworthiness directives (specifying products of unsound conditions, and conditions, limitations, or inspection under which products may continue to be operated); amended or issued:
June 1958 5559
July 1958 6343
August 1958 7482
Authority, delegations of:
By Administrator to Regional Administrators; compliance with airport operations agreements, landing area facilities, reduction of maintenance obligations 5277
From Secretary of Commerce to Administrator; contracts for procurement of fresh and perishable foods for commissaries on Wake and Canton Islands 5311
Civil airways, designation of; alterations:
Colored civil airways (amber, blue, green, red) 5236, 5865, 5897, 6823, 7526
VOR civil airways, domestic 5236, 5272, 5705, 5866, 6823, 7526
Control areas, control zones, reporting points, and positive control route segments, designation of; alterations:
Control areas:
Colored civil airways (amber, blue, green, red) 5239, 5870, 6828, 7529
Extension of control areas 5239, 5705, 5870, 6828, 7529
Introduction; basis and purpose, and explanation of terms 5872
VOR civil airway control areas 5240, 5707, 5871, 6828, 7531
Control zones:
Additional control zones 5240, 5871, 6828, 7531
Five-mile radius zones 5240, 5871, 6828
Three-mile radius zones 5871, 7531
Positive control route segments 5873
Reporting points:
Colored civil airways (amber, blue, green, red) 5240, 5871, 6828, 7531
Other reporting points 6828, 7531
VOR civil airway reporting points, domestic 5241, 5872, 6828, 7532
Instrument flight rules:
Altitudes; minimum en route IFR altitudes, particular routes and intersections:
Colored civil airways (amber, blue, green, red) 5118, 5897, 6875, 7580
Direct routes, United States 5118, 5897, 6875, 7580
VOR civil airways 5118, 5898, 6875, 7580
Hawaii 5120, 6875
Instrument approach procedures, standard (including ceiling, visibility, and weather minimums for takeoff and landing at particular airports):
Introduction; explanation of terms 5241
Procedures and weather minimums:
Instrument landing system procedures 5010, 5244, 5292, 5540, 5606, 6181, 6450, 6620, 6750, 7066, 7457.
Radar procedures 5292, 5542, 6451
Radio range procedures:
Low or medium frequency range automatic direction finding, very high frequency omnirange procedures 5009, 5242, 5291, 5537, 5603, 5954, 6180, 6448, 6618, 6750, 7064, 7455
Terminal very high frequency omnirange procedures 5010, 5539, 5606, 6450, 7456
Organization; changes in addresses of Flight Operations and Airworthiness District Offices 6004
Restricted areas:
Designation of restricted areas over Army, Navy, and Air Force installations in various States, Hawaii, and Puerto Rico; alterations:
Arizona 7483
California 7104, 7483
Colorado 7483
Delaware 6179
Florida 5630, 6179, 7104
Georgia 5241, 6492

CIVIL AERONAUTICS ADMINISTRATION—Con. Page

Designation of restricted areas, etc.—Continued
Hawaii 7104, 7483
Illinois (temporary restricted area, "North Central") 5663
Indiana (temporary restricted area, "North Central") 5663
Iowa (temporary restricted area, "North Central") 5663
Kentucky 7104

Nevada 6179
New Hampshire 6492
New Jersey 6179
New Mexico 7104, 7483
New York 7104
North Carolina 6179, 7104
North Central Temporary Restricted Area (Chicago) 5663
Ohio (temporary restricted area, "North Central") 5663
Oregon 5707
Puerto Rico 6179
Rhode Island 7104
Texas 7104
Virginia 6492, 7104
Wisconsin (temporary restricted area, "North Central") 5663
Wyoming 5630, 7104
Prohibitions; substitution of "controlling agency" for "using agency" 6179
Technical standard orders for aircraft materials, parts, processes, and appliances; minimum performance standards (C series):
Fire detectors (C11b) 7209
Flight director, aircraft (C52) 5236
Flight recorder, aircraft (C51) 5378
Fuel and engine oil system hose assemblies (rubber and wire braid construction (C53) 7374

CIVIL AERONAUTICS BOARD:
Accidents, investigations of, at or near certain cities:
Haines, Alaska 7333
Little Rock, Arkansas 6333
Nantucket, Massachusetts 7333
Air carriers:
Accounts of. *See* Economic regulations.
Foreign. *See* Foreign aircraft within United States.
Irregular. *See* Irregular air carriers and off-route rules.
Scheduled. *See* Scheduled air carriers.
Air traffic rules:
Instrument flight rules, cruising altitudes 6342
Reports; voluntary pilot report of near mid-air ("near-miss") collisions, proposed special regulation 5998
Visual flight rules (VFR):
Basic VFR minimum weather 6177
Special VFR minimum weather 6177
Airmen; certificates and ratings. *See* Certificates and ratings.
Airworthiness requirements for various types of aircraft:
Airplane airworthiness:
Airplane airworthiness (other than current application):
For current regulations see Normal, utility, and acrobatic categories; Transport categories, *below.*
Transport category airplanes equipped with standby power, performance credit for (SR–426) 7453
Normal, utility, and acrobatic categories:
Equipment; anti-collision light system, proposed rule making 5996
Power-plant installations, reciprocating engines; fuel system, fuel injection pump 7481

30000—58——2

CIVIL AERONAUTICS BOARD—Continued — Page

Airworthiness requirements, etc.—Continued
Airplane airworthiness—Continued
Transport categories:
Equipment:
Flight recorders, installation of — 7482
Instruments, installation; connection of additional instruments to duplicate instrument system — 7482
Lights; anti-collision light system, proposed rule making — 5996
Fire prevention; compliance with smoke and fire detector provisions of regulations for cargo and passenger compartments (SR–401C) — 6319
Flight; performance, engine power corrections — 7481
Operating limitations and information; airplane flight manual, preparation for aircraft certificated in transport category — 7482
Powerplant installation; fuel system components, fuel injection pump — 7482
Supplemental oxygen requirements — 6743
Transport category airplanes, certification and operation of:
Airplanes equipped with standby power, performance credit for (SR–426) — 7453
Current design turbine-powered airplanes, certification and operation (SR–422A) — 5158, 5378
Multiengine turbine-powered transport airplanes for which type certificates have not been issued, provisional certification and operation of (SR–425A) — 5628
Rotorcraft airworthiness:
Normal category; equipment, anti-collision light system, proposed rule making — 5996
Transport categories; equipment, anti-collision light system, proposed rule making — 5996
Authority. *See* Organization, functions, and authority.
Certificates and ratings; airmen:
Dispatcher, aircraft, certificates — 5864, 6103
Engineer, flight, certificates — 6548
Physical standards for airmen; medical certificates, proposed rule making — 7087
Pilot and instructor certificates:
Pilot certificates to graduates of certificated flying schools, issuance of — 6663
United States pilot certificates, issuance to holders of foreign pilot certificates — 6374
Certification, identification, and marking of aircraft and related products:
Certificates, type, issuance of — 7481
Transport category airplanes:
Airplanes equipped with standby power, performance credit for (SR–406) — 7453
Multiengine turbine-powered airplanes for which type certificates have not been issued, provisional certification and operation of (SR–425A) — 5628
Charter services:
See also Economic regulations; Irregular air carrier and off-route rules.
Statement of general policy; processing of applications of foreign air carriers for authorization to conduct off-route charter trips — 7063
Economic regulations, for air carriers:
Accounts, uniform system of:
Air carrier groupings and standard name abbreviations; Trans Caribbean Airways, proposed rule making — 6629
Balance sheet classifications, proposed rule making — 6629
Definitions, proposed rule making — 6629
General accounting provisions:
Capitalization of interest — 5953
Proposed rule making — 6629
General reporting provisions:
General reporting instructions — 5289, 6837
Proposed rule making — 5358, 6629
Profit and loss classification, proposed rule making — 6629
Standard air carrier operation abbreviations, Trans Carribbean Airways, proposed rule making — 6629

CIVIL AERONAUTICS BOARD—Continued — Page

Economic regulations, for air carriers—Continued
Agreements, filing of; contracts or agreements between affiliated carriers — 6103
Charter services; off-route charter trips by foreign air carriers — 7062
Flight equipment; reinvestment of gains derived from sale or disposition of, proposed rule making — 6837
Foreign aircraft within United States:
Charter services; off-route charter trips by foreign air carriers — 7062
Operations permitted by foreign air carriers, proposed rule making — 5930
Hearings, investigation, etc.:
Accidents, investigation of. *See* Accidents.
Companies and cases, list of, *see list at end of this agency*.
Imported aircraft and related products, type and airworthiness certificates; transport category airplanes:
Airplanes equipped with standby power, performance credit for (SR–426) — 7453
Current design turbine-powered airplanes, certification and operation (SR–422A) — 5158
Irregular air carrier and off-route rules:
Charter and other special service operations, certain, authorization for operators to conduct — 7374
Definitions, proposed rule making — 6836
Equipment; supplemental oxygen requirements for sustenance and first-aid — 6748, 6875
Fire prevention; compliance with smoke and fire detector provisions of regulations for cargo and passenger compartments, (SR–401C) — 6319
Flight crew requirements; pilot recent experience, withdrawal of proposed rule making — 6601
Flight operation rules; pilot responsibilities, admission to flight deck of aircraft having a separate pilot compartment, proposed rule making — 6836
Reports; voluntary pilot report of near mid-air ("near-miss") collisions, proposed special regulation — 5998
Transport category airplanes, certification and operation of:
Airplanes equipped with standby power, performance credit for (SR–426) — 7453
Current design turbine-powered airplanes, certification and operation (SR–422A) — 5158
Multiengine turbine-powered airplanes for which type certificates have not been issued, provisional certification and operation of (SR–425A) — 5628
Maintenance, repair, and alteration of airframes, powerplants, propellers, and appliances; definitions, changes to permit removal and installation of wings and tail surfaces for transportation on trailers — 5378
Operation rules, for various types of aircraft:
See also Foreign air carriers; Irregular air carriers; Scheduled air carriers.
General operation rules:
Certification and operation of current design turbine-powered transport category airplanes (SR–422A) — 5158
Pilot rules (general); pilot certificate requirements for operation of United States and foreign registered aircraft — 7423
Reports; voluntary pilot report of near mid-air ("near-miss") collisions, proposed special regulation — 5998
Organization, functions, and authority; delegations of final authority to Chief, Office of Carrier Accounts and Statistics — 5468
Rotorcraft airworthiness. *See* Airworthiness.
Scheduled air carriers:
Interstate air carrier certification and operation rules:
Airmen regulations:
Flight crew member and dispatcher qualifications, pilot recent experience; withdrawal of proposed rule making — 6601
Pilot:
Maintenance and reestablishment of pilot route and airport qualifications for particular trips — 5356, 7339

CIVIL AERONAUTICS BOARD—Continued — Page

Pilot—Continued
Pilot route and airport qualification requirements — 5357, 7339
Airplane performance operating limitations, for transport category airplanes:
Airplanes equipped with standby power, performance credit for (SR–426) — 7453
Current design turbine-powered airplanes, certification (SR–422A) — 5158
Multiengine turbine-powered transport airplanes for which type certificates have not been issued, provisional certification and operation of (SR–425A) — 5628
Definitions, proposed rule making — 6836
Dispatching rules:
IFR takeoff and landing, and instrument approach procedure — 5235
VFR takeoff and landing minimums — 5235
Fire prevention; compliance with smoke and fire detector provisions of regulations for cargo and passenger compartments, (SR–401C) — 6319
Flight operations; admission to flight deck, proposed rule making — 6836
Instruments and equipment; special operations, supplemental oxygen requirements for sustenance and first-aid — 6744, 6875
Operations outside continental limits of United States, certification and operation rules:
Definitions, proposed rule making — 6836
Passenger operation rules:
Aircraft requirements; instrument and equipment, supplemental oxygen requirements for sustenance and first-aid — 6746, 6875
Airman rules; pilot:
Initial pilot flight training and recent experience; withdrawal of proposed rule making — 6601
Maintenance and reestablishment of pilot route and airport qualification for particular trips — 5356, 7341
Pilot route and airport qualification requirements — 5356, 7341
Airplane performance operating limitations, for transport category airplanes:
Airplanes equipped with standby power, performance credit for (SR 426) — 7453
Current design turbine-powered airplanes, certification (SR–422A) — 5158
Multiengine turbine-powered transport airplanes for which type certificates have not been issued, provisional certification and operation of (SR–425A) — 5628
Fire prevention; compliance with smoke and fire detector provisions of regulations for cargo and passenger compartments (SR–401C) — 6319
Miscellaneous operation rules; admission to flight deck, proposed rule making — 6836
Reports; voluntary pilot report of near mid-air ("near-miss") collisions, proposed special regulation — 5998

- Disaster loans; designation of eligible areas:
  - Agricultural areas, loans for. *See* Agriculture Department.
  - Small business loans. *See* Small Business Administration.
- Federal disaster assistance. *See* Civil and Defense Mobilization, Office of; Federal Civil Defense Administration.

DRUGS, INSECTICIDES, ETC.:
- Addiction-forming and addiction-sustaining drugs. *See* Narcotics Bureau.
- Certification, testing, etc., of drugs. *See* Food and Drug Administration.
- Pesticides, tolerances for. *See* Food and Drug Administration.

E

EDUCATION, OFFICE OF:
- Construction of minimum school facilities in areas affected by Federal activities; Federal assistance under Public Law 815, 81st Congress, as amended 7291
- Deadlines for filing applications, establishment of 7294
- Filing and processing of complete applications 7291
- Records, retention of 7294
- Library Services Act, Federal shares for purposes of 7331

EDUCATION AND EDUCATIONAL FACILITIES:
- Educational requirements for appointment to certain positions. *See* Civil Service Commission.
- School facilities in areas affected by Federal activities, Federal assistance for. *See* Education, Office of.
- Vocational rehabilitation and education. *See* Education, Office of; Veterans Administration; Vocational Rehabilitation, Office of.

EDUCATION, AND WELFARE DEPARTMENT. *See* Health, Education, and Welfare Department.

EMPLOYMENT SECURITY BUREAU:
- Authority, delegation of, from Assistant Secretary of Labor Newell Brown, to Director; functions under Ex-Servicemen's Unemployment Compensation Act of 1958 7512
- United States Employment Service:
  - Instructions to State agencies for preparation and submittal of State plan of operation under Wagner-Peyser Act 6788
  - Policies of; occupational testing, releasing certain test material to nonprofit vocational guidance and placement agencies 5480

ENGINEERS, CORPS OF; ARMY DEPARTMENT:
- Bridge regulations:
  - Florida; Indian River, State Road Department bridges at Cocoa, Eau Gallie and Melbourne 6742
  - Maryland; Bohemia River, State Roads Commission bridge at Cayots 6628
  - Texas; Arroyo Colorado, Highway Department bridge at Rio Hondo 6667
- Danger zone regulations:
  - California; Pacific Ocean adjacent to San Francisco, firing ranges, U. S. Military Reservations, harbor defense, revocation 6555
  - Florida; Gulf of Mexico:
    - Apalachicola Bay, drone recovery area, Tyndall Air Force Base 5507, 6555

ENGINEERS, CORPS OF; ARMY DEPARTMENT—Con. Page
- Florida; Gulf of Mexico—Continued
  - Pensacola Bay, south of; firing range, U. S. Naval Station, Pensacola 6555
- Hunting of deer in Missouri and Arkansas. *See* Reservoir areas.
- Navigation regulations:
  - California; San Francisco Bay, vicinity of Naval Net Depot, Tiburon, revocation 6555
  - Florida; Pensacola Bay, seaplane restricted area 5507
- Real estate activities in connection with civil works projects; reconveyance of land acquired for Grapevine, Garza-Little Elm, Benbrook, Belton and Whitney Reservoir projects in Texas, to former owners 7348
- Reservoir areas, public use of:
  - Missouri and Arkansas; White River, Table Rock Reservoir Area, hunting of deer with rifles permitted 6377
- Reconveyance of land acquired for various reservoir projects in Texas, to former owners. *See* Real estate activities.

ENIWETOK NUCLEAR TEST SERIES, 1958 (HARDTACK); designation of danger areas, etc. *See* Atomic Energy Commission.

EXECUTIVE OFFICE OF THE PRESIDENT:
- *See Civil and Defense Mobilization, Office of.*

- *Defense Mobilization, Office of.*
- *National Security Council.*

EXECUTIVE ORDERS. *See* Presidential documents.

EXPLOSIVES, transportation of. *See* Interstate Commerce Commission.

EXPORT CONTROL. *See* Foreign Commerce Bureau.

EXPORTS. *See* Imports and exports.

F

FARM CREDIT ADMINISTRATION:
- Production credit associations; territorial limitations, investments, and dividends 6195

FARMERS HOME ADMINISTRATION:
- Bank accounts, supervised, established by borrowers; receipts for goods or services purchased 5850
- Farm ownership loans; policies and authorities:
  - Average values of farms:
    - North Carolina 5764
    - Puerto Rico, territorial subdivisions in 6173
    - South Dakota 6197
    - West Virginia 6853
  - Loan insurance charges; sources of funds and terms of loans 7131
- Production and subsistence loans; operating loans to full-time family-type farmers, special type loans in Hawaii 5542
- Soil and water conservation loans; security requirements for loans to associations 7369

FEDERAL BUREAU OF INVESTIGATION:
- Authority, delegation of, from Attorney General; certificates for expenses for certain emergencies of confidential character 6798

FEDERAL CIVIL DEFENSE ADMINISTRATION:
- *For regulations of successor agency, see* Defense and Civilian Mobilization, Office of.
- Authority, delegation of, from General Services Admistrator; contracts for supplies and services, revocation 5965
- Consolidation in Office of Defense and Civilian Mobilization (Reorganization Plan No. 1 of 1958) 4991
- Disaster areas requiring Federal assistance, determination of: Texas 5106
- Transfer of functions:
  - To Office of Defense and Civilian Mobilization (Executive Order 10773) 5061
  - To President (Reorganization Plan No. 1 of 1958) 4991

FEDERAL COMMUNICATIONS COMMISSION:
- Amateur radio service:
  - Civil emergency service; technical requirements, frequencies available, proposed rule making 7434
  - Radio stations:
    - Equipment and operation, modulation of carrier wave 6128

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Radio stations—Continued
Frequencies and types of emission for use of amateur stations 6128
Proposed rule making 7434
Location of station, proposed rule making 7433
Antenna structures:
Community antenna systems, TV translators, etc., effect on construction and operation of regular TV stations; inquiry, extension of time 5044
Construction, marking, and lighting of; form to be used to describe proposed antenna structures 7430
Limitation on, proposed rule making 7590
Authority, delegations of. *See* Organization.
Automobile emergency radio service. *See* Land transportation radio services.
Aviation Services:
Aeronautical enroute stations, frequencies available 6128
Aeronautical metropolitan stations, application for station authorization 7430
Aeronautical search and rescue mobile stations, frequency available, and scope of service 6128
Aircraft radio stations and radionavigation stations aboard aircraft, frequencies available 6111, 6128
Airdrome control stations:
Frequencies available 7430
Scope of service; high frequency, 3023.5 kc. proposed rule making 5960
Applications and licenses 7428
Applications for station license, construction permit, etc., in vicinity of radio astronomy observation sites in West Virginia; proposed rule making, amendment 5095
Posting station licenses and transmitter identification cards 5957
Proposed rule making 6147
CONELRAD, operation in time of war 5582
Definition of terms, aeronautical search and rescue mobile station 6128
Flight test stations, frequencies available 7178
Logs; information required in station logs 6128
Operational fixed stations, frequencies available 7430
Radionavigation stations, frequencies available 7430
Technical specifications, frequencies, single sideband standards, etc., proposed rule making, extension of time 5511
Tests, notification of completion of station construction 7429
Canada, broadcast stations in; additions, deletions, or changes pursuant to North American Regional Broadcasting Agreement 7153
Citizens radio service 6128, 6132
Applications and licenses 6133
Limitation on antenna structures, proposed rule making 7590
CONELRAD 5566, 6139
General; definitions, policy, etc 6132
Station operating requirements 6137, 7004
Posting of station license, proposed rule making 6147
Technical regulations 6135, 7004
Type acceptance of equipment 7180
Type approval:
Receiver-transmitter combinations 5776
Submission of class B and non-crystal controlled class C or class D station equipment for 7180
Common carriers, telephone and telegraph companies. *See* Telephone and telegraph common carriers.
CONELRAD plan of station operation in case of attack:
Aviation services 5582
Citizens radio service 5566, 6139
Disaster communications service 5777
Disaster communications service:
Applications for station license, construction permit, etc., in vicinity of radio astronomy observation sites in West Virginia; proposed rule making, amendment 5095
CONELRAD; scope, operation, tests, etc 5777
Domestic public radio services (other than maritime mobile):
Applications for station license, construction permit, etc., in vicinity of radio astronomy observation sites in West Virginia; proposed rule making, amendment 5095

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Domestic public radio services, etc.—Continued
Technical operation, transmitter identification card, proposed rule making 6147
Dominican Republic, broadcast stations in; additions, deletions, or changes pursuant to North American Regional Broadcasting Agreement 6458
Experimental, auxiliary, and special broadcast services:
Applications for stations license, construction permit, etc., in vicinity of radio astronomy observation sites in West Virginia; proposed rule making, amendment 5095
Remote pickup broadcast stations, special rules relating to low power broadcast auxiliary stations 6126
Television auxiliary broadcast stations, rules governing administrative procedure:
Licensing requirements 6123
Purpose of television auxiliary stations 6123
Television broadcast translator stations:
Equipment and installation, transmitter power output; proposed rule making 6146
Licensing policies, power limitations, transmitter power output; proposed rule making 6146
Experimental radio services:
Applications for station license, construction permit, etc., in vicinity of radio astronomy observation sites in West Virginia; proposed rule making, amendment 5095
Operating requirements, use of transmitter identification card; proposed rule making 6147
Student authorizations 5775
FM stations:
Broadcast stations. *See* Radio broadcast services.
Non-broadcast activities on multiplex basis, inquiry respecting 5284
Fellowships, in communications, for students from other American Republics; deletion 5778

FEDERAL CROP INSURANCE CORPORATION:

Federal crop insurance, regulations for 1958 and succeeding years:
General provisions 6854, 6855, 6857, 7342
Various commodity endorsements:
Barley 7569
Beans, dry edible 5949, 6854
Combined crop 6857, 7342, 7570
Corn 5949, 6854, 6856, 7569
Cotton 5950, 6854, 7569
Flax 5950, 6854, 7569
Grain sorghum 6855
Oat 6854, 7670
Orange 5114, 5951
Peaches 6855, 7342, 7570
Soybean 5951, 7569
Tobacco 5951, 7570
Wheat 5183, 7570
Multiple crop insurance; designation of counties for insurance, 1959 crop year 7515

FEDERAL DEPOSIT INSURANCE CORPORATION: Page
Report of condition of insured banks not members of Federal Reserve System:
Mutual savings banks; savings, and income and dividends 5263
State banks; savings, and time deposits 5263

FEDERAL HOME LOAN BANK BOARD:
Federal Home Loan Bank System; advances, unsecured, for not more than thirty days or not more than six months 6401
Federal Savings and Loan System; operations, loans on property for more than twelve families 6401

FEDERAL HOME LOAN BANK SYSTEM. *See* Federal Home Loan Bank Board.

FEDERAL HOUSING ADMINISTRATION:
Armed services housing mortgage insurance fund debentures, redemption of. *See* Debentures.
Cooperative housing insurance. *See* Multifamily and group housing insurance.
Debentures; call for partial redemption before maturity:
Armed services housing mortgage insurance fund debentures; series FF, 2½ and 2¾ percent 7562
Housing insurance fund debentures; series BB, 2½, 2¾ and 3 percent 7562
Mutual mortgage insurance fund debentures; series AA, 2½, 2⅝, 2¾, 2⅞, 3, 3¼ and 3⅜ percent 7561
National defense housing insurance fund debentures:
Series P, 2½ percent 7560
Series Y, 2¾ percent 7561
Servicemen's mortgage insurance fund debentures; series EE, 2⅞ and 3 percent 7562
Title I housing insurance fund debentures:
Series L, 2½ percent 7560
Series R, 2¾ percent 7561
Series T, 3 percent 7561
War housing insurance fund debentures; series H, 2½ percent 7560
Housing insurance fund debentures. *See* Debentures.
Multifamily and group housing insurance:
Cooperative housing insurance; eligibility requirements for project mortgage, miscellaneous type mortgages 7427
Multifamily housing insurance; eligibility requirements of mortgage covering multifamily housing, miscellaneous type mortgages 7427
Mutual mortgage insurance:

PARALLEL TABLES OF STATUTORY AUTHORITIES AND RULES

Following is a list of current additions to the Parallel Tables of Statutory Authorities and Rules appearing in Title 2 of the Code of Federal Regulations. These additions are made as a result of the rules published in the FEDERAL REGISTER during July–September 1958. In order to determine the FEDERAL REGISTER page numbers of the CFR titles and parts involved, users should consult the Codification Guide.

It should be noted that recent legislation not yet assigned within the U. S. Code is carried by public law number at the end of the list.

[1958 CCC Grain Price Support Bulletin 1, Supp. 1, Amdt. 3, Rye]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1958-CROP RYE LOAN AND PURCHASE AGREEMENT

SETTLEMENT

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 23 F. R. 3500 and 5319, containing specific requirements for the 1958-crop rye price support program are hereby amended as follows:

Section 421.3386 is amended to provide for making a payment to the producer because of reduced rail freights in certain states and counties by redesignating paragraph (h) *Method of payment under purchase agreement settlements* as paragraph (i) *Method of payment under purchase agreement settlements* and substituting a new paragraph (h) *Payment because of reduced rail freight* in lieu thereof as follows:

§ 421.3386 *Settlement.* • • •

(h) *Payment because of reduced rail freight.* A payment per bushel, as provided in this paragraph, which represents the county average reduction in rail freight subsequent to the calculation of the support rates shall be made to the producer by the county office for rye acquired under loans and purchase agreements by the Commodity Credit Corporation at the county support rate in the following states and counties:

IDAHO

County	Amount per bushel[1] (cents)	County	Amount per bushel[1] (cents)
Benewah	5	Kootenai	5
Bonner	1	Latah	6
Clearwater	6	Lewis	7
Idaho	6	Nez Perce	6

[1] No payment will be made where purchases of rye under loan have been made by producers with Soil Bank Certificates.

OREGON

County	Amount per bushel[1] (cents)	County	Amount per bushel[1] (cents)
Baker	9	Sherman	3
Crook	2	Umatilla	7
Deschutes	3	Union	10
Gilliam	2	Wallowa	10
Grant	2	Wasco	2
Jefferson	4	Wheeler	2
Morrow	2		

WASHINGTON

County	Amount per bushel[1] (cents)	County	Amount per bushel[1] (cents)
Adams	9	Kittitas	11
Asotin	7	Klickitat	2
Benton	8	Lincoln	9
Chelan	9	Okanogan	8
Columbia	5	Spokane	6
Douglas	12	Stevens	5
Franklin	10	Walla Walla	6
Garfield	4	Whitman	7
Grant	11	Yakima	8

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053, 1054; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421)

Issued this 27th day of August 1958.

[SEAL] CLARENCE L. MILLER,
Acting Executive Vice President, Commodity Credit Corporation.

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1958-CROP FLAXSEED LOAN AND PURCHASE AGREEMENT PROGRAM

SUPPORT RATES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 23 F. R. 3647, and containing the specific requirements for the 1958-crop Flaxseed Price Support Program are amended as follows:

Section 421.3483 (c) is amended by adding to the list of basic county support rates, "Texas—Lamb County, $2.37 per bushel."

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1054; 15 U. S. C. 714c, 7 U. S. C. 1447, 1421)

SUBPART—1958 CROP PEANUT PRICE SUPPORT PROGRAM

Correction

In Federal Register Document 58-6894, published at page 6583 in the issue for Tuesday, August 26, 1958, the word "natural", appearing in § 446.1005, should read "national".

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 940—PEACHES GROWN IN MESA COUNTY, COLORADO

DETERMINATION RELATIVE TO EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1958–59 FISCAL YEAR

Notice was published in the August 13, 1958, daily issue of the FEDERAL REGISTER (23 F. R. 6202) that consideration was being given to the proposals regarding the expenses and rate of assessment for the fiscal period ending February 28, 1959, under the amended marketing agreement and Order No. 40, as amended (7 CFR Part 940; 21 F. R. 5673), regulating the handling of peaches grown in the County of Mesa in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). After consideration of all relevant matters presented, including the proposals set forth in such notice which was submitted by the Administrative Committee (established pursuant to said amended marketing agreement and order, as amended), it is hereby found and determined that:

§ 940.210 *Expenses and rate of assessment for the 1958–59 fiscal year*—(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Administrative Committee, established pursuant to the provisions of the aforesaid amended marketing agreement and order, for the maintenance and functioning of such committee, in accordance with the provisions thereof, during the fiscal year beginning March 1, 1958, and ending February 28, 1959, will amount to $12,300.00.

(b) *Rate of assessment.* The rate of assessment, which each handler who first handles peaches shall pay as his pro rata share of the aforesaid expenses in accordance with the applicable provisions of said amended marketing agreement and order, is hereby fixed at one cent ($0.01) per bushel basket of peaches, or its equivalent of peaches in other containers or in bulk, shipped by such handler during said fiscal year.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that (1) shipment of the current crop of peaches from Mesa County, Colorado, are now being made; (2) the rate of assessment is, in accordance with the amended marketing agreement and order, applicable to all fresh peaches shipped during the 1958–59 fiscal year; and (3) it is essential that the specification of assessment rate be issued immediately so as to enable the said Administrative Committee to perform its duties and functions in accordance with said amended marketing agreement and order.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated August 28, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division.

[F. R. Doc. 58-7085; Filed, Sept. 2, 1958; 8:47 a. m.]

PART 958—IRISH POTATOES IN COLORADO

LIMITATION OF SHIPMENTS

§ 958.328 *Limitation of shipments, Area No. 2*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendations and information submitted by the area committee for Area No. 2, established pursuant to said marketing agreement and order, and upon the basis of other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this section; (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date; (iv) a reasonable time is permitted under the circumstances, for such preparation; and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period from September 7, 1958 through June 30, 1959, no handler shall ship (i) any potatoes of the round varieties grown in Area No. 2 unless such potatoes meet the requirements of the U. S. No. 2, or better, grade, size A, 2⅛ inches minimum diameter, or (ii) any potatoes of the long varieties grown in Area No. 2 unless such potatoes meet the requirements of the U. S. No. 2, or better, grade, and are of a size not less than 2⅛ inches minimum diameter or 4 ounces minimum weight, as such terms are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1556 of this title), including the tolerances set forth therein.

(2) During the period from September 7, 1958 through October 8, 1958, and subject to the requirements set forth in subparagraph (1) of this paragraph, no handler shall ship any lot of potatoes (i) of the Russet Burbank or Red McClure variety grown in Area No. 2 if such potatoes are more than "slightly skinned" as such term is defined in said United States Standards, which means that not more than 10 percent of the potatoes in any lot have more than one-fourth of the skin missing or "feathered," or (ii) of any other variety grown in Area No. 2 if such potatoes are more than "moderately skinned" as such term is defined in the said United States Standards which means that not more than 10 percent of the potatoes in any lot have more than one-half of the skin missing or "feathered."

(3) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 28, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. Section 4.160 is revised to read as follows:

§ 4.160 *Under section 921, Public Law 85–56*—(a) *Basic entitlement.* Except as provided in §§ 4.162, 4.164, and 4.165, periodic monetary benefits other than insurance and servicemen's indemnity authorized under laws administered by the Veterans Administration, to which a person was entitled prior to the date of his death, and not paid during his lifetime, and due and unpaid for a period not to exceed 1 year prior to death under existing ratings or decisions, or those based on evidence in the file at date of death, shall, upon the death of such person, be paid as follows:

(1) Upon the death of a veteran to the living person first listed as follows:

(i) His spouse.

(ii) His children (in equal shares).

(iii) His dependent parents (if the veteran died before January 1, 1958, the accrued is payable to the dependent mother or the dependent father in the order named; if the veteran died on or after January 1, 1958, the accrued is payable to the dependent mother and dependent father in equal shares).

(2) Upon the death of a widow or remarried widow, to the veteran's children.

(3) Upon the death of a child, to the surviving children of the veteran entitled to death compensation, dependency and indemnity compensation, or death pension.

(4) In all other cases, only so much of the accrued benefits may be paid as may be necessary to reimburse the person who bore the expense of last sickness and burial. (Sec. 921 (a), Pub. Law 85-56.)

(b) *Apportionments.* (1) Upon the death of a person receiving an apportioned share of benefits payable to a veteran, all or any part of such unpaid amount is payable to the veteran or to any other dependent or dependents, as may be determined by the Administrator.

(2) Where at the date of death of the veteran an apportioned share is being paid to or has been withheld on behalf of another person, the apportioned amount remaining unpaid for periods prior to the date of the veteran's death is payable to the apportionee. Where it is determined after the veteran's death that an increased amount is payable, the apportionee is entitled to receive his proportionate share in his own right, covering a period not to exceed 1 year prior to the date of the veteran's death. There is no time limit for the date of filing of a claim by the apportionee.

(3) Where the accrued death compensation or pension was payable for a child as an apportioned share of the widow's benefit, payment shall be made under the provisions of paragraph (a) (4) of this section, on the expenses of such deceased child's last sickness and burial.

(c) *Claims and evidence.* Applications for accrued benefits must be filed within 1 year after the date of death. If a claimant's application is incomplete at the time it is originally submitted, the claimant shall be notified of the evidence necessary to complete the application. If such evidence is not received within 1 year from the date of such notification, no accrued benefits may be paid. A claim for death compensation, dependency and indemnity compensation, or death pension by an apportionee, widow, child, or dependent parent is deemed to include claim for any accrued benefits. (Sec. 921 (c), Pub. Law 85–56.). (See § 4.431 (a).)

(d) *Definitions.* (1) (i) The term "spouse" means the legal widow or widower of the veteran irrespective of the date of marriage. Continuous cohabitation is not a factor.

(ii) If the veteran died on or after August 28, 1957, a woman who is recognized as widow by reason of a marriage which is "deemed valid" may be awarded accrued benefits which are otherwise payable, including benefits for periods prior to August 28, 1957.

(2) The term "child" is as defined in § 4.14 (c) and includes an unmarried child who became helpless prior to attaining 18 years of age as well as an unmarried child over the age of 18 but not over 21 years of age, who was pursuing a course of instruction within the meaning of § 4.98 (a) at the time of the payee's death: *Provided, only,* That upon the death of a child in receipt of pension or compensation, any accrued shall be payable to the surviving child or children of the veteran entitled to death pension, death compensation, or dependency and indemnity compensation. Upon the death of a child, another child who has elected benefits under the War Orphans' Educational Assistance Act of 1956 may receive accrued pension or compensation payable on behalf of the deceased child for periods prior to the commencement of benefits under that act.

(3) The term "dependent mother or father" is as defined in § 4.14 (d): *Provided,* That the mother or father is dependent within the meaning of § 3.57 of this chapter at the date of the veteran's death.

(4) The term "evidence in the file at date of death," as used in paragraph (a) of this section will be considered to have been met when there is on file at the date of the veteran's death:

(i) Notwithstanding § 3.30 (a) of this chapter, evidence, including uncertified statements, which is essentially complete and of such weight as to establish service connection or degree of disability for disease or injury when substantiated by other evidence in file at date of death or when considered in connection with the identifying, verifying, or corroborative effect of the death certificate.

(ii) In the case of a veteran whose award is subject to reduction by reason of hospital treatment, institutional or domiciliary care by the Veterans Administration, and in the case of a veteran whose award is subject to increase under § 3.214 (a) of this chapter, by reason of the existence of dependents, prima facie proof of dependents or of other factors affecting entitlement, such as statements on VA Form VB 8–404 or on the claim for benefits, provided satisfactory evidence is furnished in support of the claim for accrued benefits. The provisions of this subdivision are not applicable to original awards of accrued benefits.

(e) *Subsistence allowance, and education and training allowance.* Subsistence allowance under the provisions of Public Law 346, 78th Congress, as amended, and subsistence allowance (including the 2-months' post-rehabilitation allowance which became payable when the veteran's employability was determined) under the provisions of Public Law 16, 78th Congress, as amended by Public Law 268, 79th Congress, and education and training allowance under the provisions of Public Law 550, 82d Congress, remaining due and unpaid at the date of the veteran's death, are payable under the provisions of this section.

(f) *War Orphan's Educational Assistance Act of 1956.* Educational assistance allowance or special restorative training allowance under Public Law 634, 84th Congress, remaining due and unpaid at the date of the elegible person's death is payable only to another child or children of the veteran under paragraph (a) (3) of this section (see also paragraph (d) (2) of this section), or on the expenses of last sickness and burial under paragraph (a) (4) of this section.

(Sec. 921, 71 Stat. 121; 38 U. S. C. 2921)

2. Section 4.162 is revised to read as follows:

§ 4.162 *Lump sums payable at death of competent veteran where award was reduced by reason of hospital treatment, institutional or domiciliary care by the Veterans Administration.* The provisions of this section apply only to the payment of amounts actually withheld on a running award under § 3.255 (a) of this chapter which are payable in a lump sum after the veteran's death. Accrued benefits, including any amounts in funds due incompetent beneficiaries for periods prior to August 6, 1946, but excluding such lump sums actually withheld for periods on and after that date, are payable in accordance with the provisions of § 4.160.

(a) *Basic entitlement.* Where an award of disability compensation, pension or retirement pay for a competent veteran without dependents was reduced under § 3.255 (a) of this chapter because of hospital treatment or institutional or domiciliary care by the Veterans Administration and the veteran dies while receiving such treatment or care or before payment of amounts withheld, the lump sum is payable to the living person first listed as follows:

(1) His spouse, as defined in § 4.166 (d) (1).

(2) His children (in equal shares), as defined in § 4.14 (c) but without regard to their age or marital status.

(3) His parents (in equal shares), as defined in § 4.14 (d).

(4) His brothers and sisters (in equal shares), including brothers and sisters of the half-blood and brothers and sisters by adoption.

(5) In all other cases, only so much of the lump sum may be paid as may be necessary to reimburse a person who bore the expenses of last sickness and burial.

(6) A waiver of rights by a person having title to all or a share of the accrued lump sum will not serve to vest in a person having equal or successor rights.

(b) *Claim.* Applications must be filed with the Veterans Administration within 5 years after the death of the veteran. If, however, any person otherwise entitled is under legal disability at the time of the veteran's death, the 5-year period shall run from the date of termination or removal of the legal disability. Failure of a member of a joint class to file timely claim will not serve to increase the amount otherwise payable to the other members of that class.

(c) *Lump sum withheld after discharge from institution.* The provisions of paragraph (a) and (b) of this section shall apply in the event of the death on any veteran prior to receiving a lump sum which was withheld because treatment or care was terminated by him against medical advise or as the result of disciplinary action (sec. 1503 (a) (1), Pub. Law 85–56.)

(Sec. 1503, 71 Stat. 137; 38 U. S. C. 3503)

3. New §§ 4.162a and 4.162b are added to read as follows:

§ 4.162a *Political subdivisions of United States.* No part of any accrued benefits shall be used to reimburse any political subdivision of the United States for expenses incurred in the last sickness or burial of any beneficiary (secs. 921 (b) and 1503 (a) (2) (A), Pub. Law 85–56.)

(Secs. 921, 1503, 71 Stat. 121, 137; 38 U. S. C. 2921, 3503)

§ 4.162b *Returned and canceled checks.* For the purposes of §§ 4.160, 4.162, 4.164 (a), and 4.165, where the payee of a check for benefits has died on or after May 29, 1953, and on or after the last day of the period covered by the check, and the check is returned and canceled, the amount represented by the check as well as any amount recovered after improper negotiation of such a check shall be payable to the living person or persons in the order of precedence listed (sec. 922, Pub. Law 85–56.)

(a) There is no time limit for the date of filing claim, or the retroactive period covered by the award or the date of receipt of evidence.

(b) The fact that one or more persons having a higher order of precedence survived the beneficiary will not preclude payment to a claimant who is otherwise entitled if it is shown that at the time the claim is adjudicated such persons are deceased.

(Sec. 922, 71 Stat. 121; 38 U. S. C. 2922)

4. Section 4.163 is revised to read as follows:

§ 4.163 *Amounts withheld or not paid incompetent veteran where award has been reduced or discontinued by reason of hospital treatment, institutional or domiciliary care by the Veterans Administration.* Where an award of disability compensation, pension or retirement pay for an incompetent veteran without dependents was reduced under § 3.255 (a) of this chapter because of hospitalization, institutional or domiciliary care by the Veterans Administration or was discontinued under § 3.255 (b) of this chapter because his estate equaled or exceeded $1,500, and the veteran dies before payment of amounts withheld or not paid by reason of such care, no part of such amount shall be paid to any person. The term "dies before payment" includes cases in which a check was issued and the veteran died before negotiating the check. (Sec. 1503 (b), Pub. Law 85–56.)

(Sec. 1503, 71 Stat. 137; 38 U. S. C. 3503)

5. Section 4.165 is revised to read as follows:

§ 4.165 *Accrued benefits payable to foreign beneficiaries.* In case of the death of the payee of any check in payment of pension, compensation, or emergency officer's retirement pay accruing under laws administered by the Veterans Administration, while the amount thereof remains in the special deposit account established by Public Law 828, 76th Congress, such amount shall be payable under the provisions of section 3 of this act: *Provided,* That the accrued amount shall be payable only if the person on whose behalf checks were issued and the person claiming the accrued amount have not been guilty of any of the offenses mentioned in section 4, Public Law 144, 78th Congress, or section 1104, Public Law 85–56.

(Secs. 2, 3, 54 Stat. 1086, sec. 1104, 71 Stat. 126; 31 U. S. C. 124, 125, 38 U. S. C. 3104)

(Sec. 210, 71 Stat. 91; 38 U. S. C. 2210)

This regulation is effective September 3, 1958.

[SEAL] ROBERT J. LAMPHERE,
Acting Deputy Administrator.

[25 CFR Part 47]

REVISION OF MEMBERSHIP ROLL OF EASTERN BAND OF CHEROKEE INDIANS, NORTH CAROLINA

NOTICE OF PROPOSED RULE MAKING

Basis and purpose. Notice is hereby given that pursuant to the Act of August 21, 1957 (71 Stat. 374), it is proposed to issue regulations as Part 47 of the Code of Federal Regulations as set forth below. The purpose of the regulations is to govern the revision of the membership roll of the Eastern Band of Cherokee Indians of North Carolina prepared and approved pursuant to the Act of June 4, 1924 (43 Stat. 376), as amended by the act of March 4, 1931 (46 Stat. 1518).

All interested persons may submit in triplicate written comments, suggestions or objections with respect to the proposed regulations to the Commissioner, Bureau of Indian Affairs, Washington 25, D. C., within thirty days after the date of publication of this notice in the FEDERAL REGISTER.

ROGER ERNST,
Assistant Secretary of the Interior.

AUGUST 27, 1958.

Sec.
47.1 Definitions.
47.2 Purpose.
47.3 Announcement of revision of roll.
47.4 Basic membership roll.
47.5 Removal of deceased persons from the roll.
47.6 Additions to the roll.
47.7 Applications for enrollment.
47.8 Applications for minors and incompetents.
47.9 Application form.
47.10 Where application forms may be obtained.
47.11 Proof of relationship.
47.12 Enrollment Committee.
47.13 Tenure of Enrollment Committee.
47.14 Appeals.
47.15 Current membership roll.
47.16 Eligibility for enrollment of children born after August 21, 1957.
47.17 Relinquishment of membership.

AUTHORITY: §§ 47.1 to 47.17 issued under sec. 2, 71 Stat. 374.

§ 47.1 *Definitions.* As used in this part:

(a) "Band" means the Eastern Band of Cherokee Indians in North Carolina.

(b) "Reservation" means the lands of the Eastern Band of Cherokee Indians in the counties of Jackson, Swain, Graham, Cherokee and Haywood in North Carolina.

(c) "Tribal Council" means the Tribal Council of the Eastern Band of Cherokee Indians in North Carolina.

(d) "Announcement" means the announcement of the revision of the membership roll issued as required in § 47.3.

§ 47.2 *Purpose.* The regulations in this part are to govern the revision, as authorized by the Act approved August 21, 1957 (71 Stat. 374), of the membership roll of the Eastern Band of Cherokee Indians, North Carolina, prepared and approved in accordance with the Act of June 4, 1924 (43 Stat. 376), and the Act of March 4, 1931 (46 Stat. 1518).

§ 47.3 *Announcement of revision of roll.* When the Tribal Council has authorized the expenditure of tribal funds to supply sufficient staff to perform the work necessary to revise the membership roll of the Band and such staff has been employed and when the application forms and other necessary documents have been devised and printed, the Principal Chief, or in his absence the Vice Chief or the Chairman of the Tribal Council shall announce that a revision of the membership roll of the Band shall commence on a specified date. The date specified shall be not less than 15 days nor more than 30 days from the date of issuance of the announcement. A press release should be prepared announcing the date the revision of the roll shall begin, together with other pertinent information such as the membership requirements and where application forms may be obtained. The press release should be distributed to all newspapers and radio stations within the region of the Reservation with a request that it be given wide publicity. Copies of the press release should also be posted in the Agency Office and at various other public places throughout the Reservation as well as in Post Offices of the towns adjacent to the Reservation.

§ 47.4 *Basic membership roll.* All persons whose names appear on the roll of the Eastern Band of Cherokee Indians of North Carolina, prepared and approved pursuant to the act of June 4, 1924 (43 Stat. 376), and the act of March 4, 1931 (46 Stat. 1518), shall be members of the Band.

§ 47.5 *Removal of deceased persons from the roll.* The name of any person who was not alive as of midnight August 21, 1957, shall be stricken from the basic membership roll by the Enrollment Committee upon receipt of a death certificate or other evidence of death acceptable to the Committee.

§ 47.6 *Additions to the roll.* There shall be added to the roll of the Band the names of persons living on August 21, 1957, who meet the following qualifications:

(a) Persons born during the period, beginning on or after June 4, 1924, and ending midnight August 21, 1957, who are direct descendants of persons whose names appear on the roll prepared and approved pursuant to the act of June 4, 1924 (43 Stat. 376), and the act of March 4, 1931 (46 Stat. 1518); provided, such persons:

(1) Possess 1/32 degree of Eastern Cherokee Indian blood, except that persons who also possess Indian blood of another tribe shall not be enrolled if they are enrolled as members of the other tribe.

(2) Have actually lived at sometime during the period from June 4, 1924, through August 21, 1957, on the lands of the Eastern Band of Cherokee Indians in the counties of Swain, Jackson, Graham, Cherokee, and Haywood in North Carolina, except that this specific part of this section shall not apply to those persons and members of their families who were temporarily away from the Reservation due to one or both parents being in the United States Armed Services or who were employed by the United States Government and neither shall it apply to those individuals who were in mental or penal institutions during this period of time.

(3) Have filed an application for enrollment with the Band in accordance with the procedures set forth in this part.

(b) A child born out of wedlock to a mother who is either an enrolled member of the Band, or who meets the qualifications for enrollment as a member, may be enrolled if such child otherwise meets the requirements for enrollment as set forth in this section.

(c) A child born out of wedlock to a mother who is not a member of the Band may be enrolled if the mother files with the Enrollment Committee proof established in accordance with the laws of North Carolina as to the paternity of the child and the person adjudged to be the father is either an enrolled member of the Band, or meets the requirements for enrollment as a member, and if the child otherwise meets the requirements for enrollment as set forth in this section.

§ 47.7 *Applications for enrollment.* Each adult person who believes he meets the requirement for enrollment established herein may within one hundred twenty (120) days from the date specified in the announcement submit to the Enrollment Committee an application for enrollment as a member of the Eastern Band of Cherokee Indians, except that persons who are in the Armed Forces of the United States shall have one hundred twenty (120) days from the date of discharge from the Armed Forces to submit applications for enrollment.

§ 47.8 *Applications for minors and incompetents.* Applications for enrollment of minors may be filed within one hundred twenty (120) days from the date specified in the announcement, by the parent, next of kin, recognized guardian, or other person responsible for their care, except that applications for the enrollment of minor children of persons in the Armed Forces of the United States may be filed within one hundred twenty (120) days from the date of discharge of such persons from the Armed Forces. Applications for enrollment of persons known to be in mental or penal institutions may be filed by the Principal Chief of the Eastern Band of Cherokee Indians within one hundred twenty (120) days from the date specified in the announcement.

§ 47.9 *Application form.* The form of application for enrollment will be prepared by the Enrollment Committee and, in addition to whatever information the committee may deem necessary, shall contain the following:

(a) The name and address of the applicant. If the application is filed on behalf of a minor, the name and address of the person filing the application and his relationship to the minor.

(b) The name, relationship, tribe and roll number of the ancestor or ancestors through whom enrollment rights are claimed, and whether applicant is enrolled with another tribe.

(c) The date of the death of such ancestor, if deceased.

§ 47.10 *Where application forms may be obtained.* Application forms will be supplied by the Enrollment Committee of the Eastern Band of Cherokee Indians, Council House, Cherokee, North Carolina, upon request, either in person or by mail.

§ 47.11 *Proof of relationship.* If the applicant's parents or other Eastern Cherokee ancestors through whom the applicant claims enrollment rights are unknown to the Enrollment Committee, the Enrollment Committee may request the applicant to furnish such additional information and evidence as it may deem necessary to determine the applicant's eligibility for enrollment. Failure of the applicant to furnish the information requested may be deemed sufficient cause for rejection.

§ 47.12 *Enrollment Committee.* The Tribal Council shall appoint either from within or without the membership of the Council, but not from without the membership of the Band, a committee of three (3) persons to serve as the Enrollment Committee. The Enrollment Committee shall review all applications for enrollment filed in accordance with the regulations in this part and shall determine the qualifications of the applicant for enrollment with the Band. The Enrollment Committee may perform such other functions relating to enrollment and membership in the Band as the Tribal Council may from time to time direct.

§ 47.13 *Tenure of Enrollment Committee.* The members of the first Enrollment Committee after the approval and publication in the FEDERAL REGISTER of the regulations in this part shall be appointed to serve as follows: One member for one year, one member for two years, and one member for three years.

At the expiration of each term of office thereafter all appointments shall be made for three years.

§ 47.14 *Appeals.* Any person whose application for enrollment has been rejected by the Enrollment Committee shall have the right to appeal to the Tribal Council from the determination made by the Enrollment Committee: *Provided*, That such appeal shall be made in writing and shall be filed within sixty (60) days from the date on which the Enrollment Committee issues notice to the applicant of his rejection. The applicant may submit with his appeal any additional data to support his claim to enrollment not previously furnished. The decision of the Tribal Council as to whether the applicant meets the requirements for enrollment set forth in this part shall be final. The Tribal Council shall review no applications for enrollment except in those cases where the rejected applicant appeals to the Council in writing from the determination made by the Enrollment Committee.

§ 47.15 *Current membership roll.* The membership roll of the Eastern Band of Cherokee Indians shall be kept current by striking therefrom the names of persons who have relinquished their membership in the Band as provided in § 47.17 and of deceased persons upon receipt of a death certificate or other evidence of death acceptable to the Enrollment Committee, and by adding thereto the names of children who meet the qualifications for membership in the Band as set forth in this part.

§ 47.16 *Eligibility for enrollment of children born after August 21, 1957.* Children possessing 1/32 or more degree Eastern Cherokee Indian blood born between midnight August 21, 1957, and midnight of the date specified in the announcement may be enrolled as provided in § 47.8. Thereafter, children possessing 1/32 or more degree Eastern Cherokee Indian blood born to any member of the Eastern Band of Cherokee Indians may be enrolled: *Provided*, That the parent, next of kin, recognized guardian, or person responsible for their care indicates a willingness for the child to maintain tribal affiliation and to participate in tribal affairs by filing with the Enrollment Committee within ninety (90) days after the birth of the child an application to have the child enrolled. The application shall be accompanied by the child's birth certificate or by any other evidence as to the eligibility of the child for enrollment as the Enrollment Committee may require. If the certificate, other evidence, and application are not filed within the designated time the child shall not be enrolled.

§ 47.17 *Relinquishment of membership.* Any member of the Eastern Band of Cherokee Indians may relinquish his membership in the Band by filing notice in writing that he no longer desires to be enrolled as a member of the Band. On receipt of such notice the name of the member shall be stricken from the roll and he shall no longer be considered as a member of the Band and shall not be entitled to share in any use or in any distribution of tribal assets which may be made in the future to the enrolled members of the Band.

Fish and Wildlife Service

[50 CFR Part 31]

CHARLES SHELDON ANTELOPE RANGE, NEVADA

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add Subpart—Charles Sheldon Antelope Range, Nevada, and § 31.41 to Chapter I, Title 50, Code of Federal Regulations, as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of deer on certain lands of the Charles Sheldon Antelope Range under certain limitations and subject to compliance with the laws and regulations of the State of Nevada.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 27, 1958.

D. H. JANZEN,
Director,
Bureau of Sport
Fisheries and Wildlife.

§ 31.41 *Deer hunting permitted.* Subject to the provisions of Parts 18 and 20 of this chapter, deer may be taken by hunting on the hereinafter described lands of the Charles Sheldon Antelope Range, Nevada, subject to the following conditions, restrictions, and requirements:

(a) *Hunting area.* The following described area is open to hunting:

That part of the area lying south of Highways 8A and 34A except posted areas around the Dufurrena, McGee, and Thousand Creek ranch units.

(b) *State laws.* Strict compliance with all applicable State laws and regulations is required.

(c) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for the purpose of regulating the hunting.

(d) *State cooperation.* State cooperation may be enlisted in the regulation, management, and operation of the public hunting areas, and the State may promulgate such special regulations as may be necessary for these purposes. In the event such State regulations are issued, compliance therewith shall be a requisite to lawful entry for the purpose of hunting.

[50 CFR Part 35]

MONTEZUMA NATIONAL WILDLIFE REFUGE, NEW YORK

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add § 35.21 to Subpart—Montezuma National Wildlife Refuge, New York, Chapter I, Title 50, Code of Federal Regulations, as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of deer during a part of the 1958 State season on certain lands of the Montezuma National Wildlife Refuge, New York, under certain limitations and subject to compliance with the laws and regulations of the State of New York.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 27, 1958.

D. H. JANZEN,
Director,
Bureau of Sport
Fisheries and Wildlife.

§ 35.21 *Bow and arrow deer hunting permitted.* Subject to the provisions of Parts 18 and 21 of this chapter, the hunting of deer by means of bow and arrow only is permitted on November 8 and December 2, 1958, only on the hereinafter described lands of the Montezuma National Wildlife Refuge, New York, subject to the following conditions, restrictions, and requirements:

(a) *Hunting area.* Hunting is permitted on all of the lands of the Refuge except on posted lands in the immediate vicinity of the headquarters and subheadquarters of the Refuge.

(b) *State laws.* Strict compliance with all applicable State laws and regulations is required.

(c) *Firearms prohibited.* The possession or use of firearms on the Refuge is prohibited.

(d) *Dogs prohibited.* Dogs are not permitted on the Refuge for use in the hunting of deer.

(e) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for the purpose of regulating the hunting.

LARD SHORTENING

ADDITIONAL TIME ALLOWED FOR FILING COMMENTS ON PROPOSED STANDARD OF IDENTITY

On July 4, 1958, there was published in the FEDERAL REGISTER (23 F. R. 5128) a notice of the proposed amendment of the Federal meat inspection regulations to establish a standard of identity for lard shortening, to appear in 9 CFR Part 28. It has come to our attention that interested parties need additional time to submit comments. Accordingly, the time for filing comments on the proposal is hereby extended for 30 days after publication of this notice in the FEDERAL REGISTER. Within that time any interested person who wishes to submit comments on the proposal may do so by filing them with the Director, Meat Inspection Division, Agricultural Research Service, U. S. Department of Agriculture, Washington 25, D. C. In the interests of clarity the first sentence in § 17.9 and paragraph 17.9 (d) of the regulations (9 CFR 17.9, as amended) would be amended to except from their requirements products for which standards of identity have been prescribed in Part 28.

Done at Washington, D. C., this 28th day of August 1958.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 132]

[No. 32406]

POWER BRAKES AND DRAWBARS (RAILROAD)

INITIAL TERMINAL ROAD TRAIN AIR BRAKE TESTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 25th day of August A. D. 1958.

It appearing that pursuant to the provisions of the Power or Train Brake Safety Appliance Act of 1958, the Commission, complying with the directive of the Congress of the United States, entered an order on May 1, 1958, effective August 9, 1958, adopting the rules, standards and instructions for the installation, inspection, maintenance and repair of air brake equipment adopted by the Association of American Railroads in 1925, as amended;

It further appearing that petitions have been filed by the Northern Pacific Railway Company, the Southern Pacific Company and the Union Pacific Railroad Company for exception from the 500 mile requirement of § 132.12 of said rules, standards and instructions;

It further appearing that by a notice of proposed rule making and hearing entered in this proceeding on July 18,

1958, notice was given of a proposal to modify § 132.12 of 49 CFR Part 132, Power Brakes and Drawbars (Railroad), and assigned for hearing at Washington, D. C., on September 3, 1958, the petitions of the Association of American Railroads, The Atchison, Topeka and Santa Fe Railway, the Gulf Colorado and Santa Fe Railway Company, the Panhandle and Santa Fe Railway Company, and the Great Northern Railway Company for modification of said section;

And it further appearing that in the interest of expeditious handling and disposition of similar issues, the said petitions of the Northern Pacific Railway Company, the Southern Pacific Company and the Union Pacific Railroad Company should be assigned for hearing at the same time and place as the petitions of the Association of American Railroads, the Atchison, Topeka and Santa Fe Railway Company, the Gulf, Colorado and Santa Fe Railway Company, the Panhandle and Santa Fe Railway Company and the Great Northern Railway Company;

It is ordered, That the said petitions of the Northern Pacific Railway Company, the Southern Pacific Company and the Union Pacific Railroad Company be assigned for hearing at the office of the Interstate Commerce Commission in Washington, D. C., beginning at 10:00 a. m., September 3, 1958, before Commissioner Kenneth H. Tuggle and Examiner Henry J. Vinskey.

And it is further ordered, That pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003), notice of this proposal shall be given to the general public by depositing a copy therof in the Office of the Secretary of the Interstate Commerce Commission, Washington, D. C., and by filing a copy with the Director, Federal Register Division.

(Sec. 2, 32 Stat. 943, as amended; 45 U. S. C. 9)

By the Commission, Division 3.

[SEAL] HAROLD D. McCOY, *Secretary.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

NEW MEXICO GRAZING DISTRICT No. 1 (SAN ISIDRO)

SPECIAL RULE FOR ADMINISTRATION OF RANGE AREAS NOT HERETOFORE PROPERLY SERVICED BY PRIVATELY CONTROLLED STOCK WATER RECOGNIZED AS BASE PROPERTY FOR GRAZING LICENSES OR PERMITS

AUGUST 26, 1958.

Pursuant to the authority vested in the Secretary of the Interior by the Taylor Grazing Act of June 28, 1934 (48 Stat. 1270; 43 U. S. C. 315a), delegated to me by Departmental Order No. 2583 of August 16, 1950 (15 F. R. 5643), as amended, and to the provisions of § 161.16 of the Federal Range Code for Grazing Districts, 1956 Rev. (43 CFR 161.16), upon consideration of the recommendations of the district advisory board and of the showing of necessity made by the State Supervisor and the Area Administrator, the following special rule is hereby approved, to apply to the administration of those range areas in New Mexico Grazing District No. 1 not heretofore properly serviced by privately controlled stock water sources recognized as base property for grazing licenses or permits:

1. The district manager of New Mexico Grazing District No. 1 may enter into cooperative agreements with grazing licensees or permittees for the construction or development of permanent type full-time stock waters, or for reimbursement for the expense to the Government of stock waters already in place. Any such waters shall thereafter be recognized as base property for grazing privileges within the meaning of the Federal Range Code for Grazing Districts, subject to compliance with all of the terms of the agreement: *Provided*, That

(a) The cooperator is otherwise qualified to receive a grazing license or permit and has been issued a grazing license for a minimum of three full grazing seasons prior to the date of the agreement, and

(b) The recognition of the new base property service area and the granting of a license or permit therein will not adversely affect any other properly qualified licensee or permittee, including free use.

2. Such agreements shall be executed on behalf of the Bureau of Land Management only under the following terms:

(a) Cooperative agreements made under this special rule may provide for the development of such waters at an initial expense to the Government of not to exceed 90 percent of the total cost, 10 percent of the cost to be paid by the cooperator(s). The cost to the Government will be reimbursed by the cooperator(s) through contributions made under section 9 of the Taylor Grazing Act. The contributions received shall be deposited to Miscellaneous Receipts if the project was financed from other than Range Improvement funds. If the project was or is to be financed from Range Improvement funds, the contributions shall be deposited to the Range Improvement fund account. Such contributions shall be paid at least annually over a period of not to exceed 10 years and shall cover the cost to the Government of the original development less normal depreciation, but shall not be less than two-thirds of the original cost.

(b) The Bureau of Land Management shall execute agreements under this special rule for construction or development of new waters only after reference to the advisory board, and upon determination that the improvement is feasible and that the total costs are compatible with grazing privilege benefits or amount of Federal range to be serviced.

(c) Agreements shall be made pursuant to § 161.15 (f) of the Federal Range Code for Grazing Districts on prescribed Bureau forms, and shall contain the following information and provisions:

(1) Firm total cost of the improvement. For new developments such as wells for which an accurate estimate cannot be made, a preliminary agreement showing the estimated cost based upon geologic report, shall first be made and a final agreement executed upon completion of the project.

(2) The total amount of contributions to be made, considering depreciation, and the minimum annual contribution required.

(3) The service of the area of the water, described in accordance with the public land surveys or natural boundaries, or metes and bounds.

(4) The share or equity of the cooperator in the improvement, expressed in both dollars and animal units, the animal units to be based upon a moderate grazing capacity determined from an acceptable range survey or condition study, or both.

(5) The value of a single animal unit computed from the total contribution required and the estimated carrying capacity.

(d) Cooperative agreements may be entered into by the Bureau of Land Management with:

(1) Individual licensees or permittees, or

(2) Groups of licensees or permittees within community grazing allotments who have organized an association not for profit and such association has been recognized and approved pursuant to § 161.14 of the Federal Range Code for Grazing Districts.

(e) The charters or constitutions of associations organized to carry out agreements under this special rule shall provide for the method of making individual contributions, the allocation of shares, and the protection of interests of the members in case the association is dissolved, the grazing allotment divided, or for any other such contingency and such charter shall not be approved until such protection is assured.

(f) Upon full compliance with the terms of an agreement within the time specified or sooner, by an individual licensee or permittee, or by an association of the licensees or permittees in a community grazing allotment, the Bureau of Land Management will transfer all of its interest in the improvement to the cooperator or cooperators in proportion to their total contributions. Such transfer shall be accomplished by the issuance of a section 4 permit under § 161.15 of the Federal Range Code for Grazing Districts to maintain the improvement, issued individually or collectively to the cooperator or cooperators, as the case may be, and the project shall be removed from the listing of Bureau of Land Management projects.

(g) The failure of any cooperator to carry out the terms of the agreement annually at the level of annual contribution required shall result in termination of the agreement 30 days prior to the beginning of the next regular grazing season, unless at that time contribution is made for both the prior or delinquent year and the subsequent year. Whenever it is necessary to terminate an agreement pursuant to this paragraph, the cooperator shall thereafter be considered only for grazing privileges to the extent of the number of animal units for which contributions have actually been made, computed in accordance with paragraph 2 (c) (5) of this special rule.

(h) In community grazing allotments, no cooperator may make contributions in a greater amount than the total called for in a cooperative agreement, made under this special rule, and new applicants will not be allowed to enter into cooperative agreements for any particular water development so long as other agreements in connection with the same water or service area are in good standing, unless there is unused Federal range available. In case of more than one application for any additionally available Federal range, the applicants shall each be allowed a part of the additional available forage on an equal basis or in proportion to their tendered contributions if any such contributions should be less than required for an equal share.

(i) All other actions in the administration of regular grazing licenses or permits issued in connection with any water base property constructed or developed under this special rule shall be taken in the usual manner under the appropriate sections of the Federal Range Code for Grazing Districts.

EARL J. THOMAS, *Acting Director.*

[F. R. Doc. 58-7072; Filed, Sept. 2, 1958; 8:45 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G-16081]

UNION OIL COMPANY OF CALIFORNIA

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

Union Oil Company of California (Union Oil) on July 29, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

No. 172——2

Description: Notice of Change, undated.
Purchaser: Kansas-Nebraska Natural Gas Company, Inc.
Rate schedule designation: Supplement No. 1 to Union Oil's FPC Gas Rate Schedule No. 20.
Effective date: September 1, 1958 (effective date is the effective date proposed by Union Oil).

In support of the proposed periodic rate increase, Union Oil states that the proposed price results from a contractual division of the entire contract price, the increase is fixed and determined, is not dependent upon extraneous occurrences and its effect is readily calculable. Union Oil further states that such periodic increase provisions are common in long-term contracts and result in low initial prices during the time the buyer's unamortized capital costs are high, and that the increased price is not in excess of the range of prices for like gas in the area and is not sufficient to offset the effects of inflation.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to Union Oil's FPC Gas Rate Schedule No. 20 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to Union Oil's FPC Gas Rate Schedule No. 20.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[Docket No. G-16086]

N. B. HUNT

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

N. B. Hunt (Hunt) on August 1, 1958, tendered for filing a proposed change in his presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: Texas Illinois Natural Gas Pipeline Company.
Rate schedule designation: Supplement No. 10 to Hunt's FPC Gas Rate Schedule No. 8.
Effective date: September 1, 1958 (effective date is the effective date proposed by Hunt).

In support of the proposed redetermined rate increase, Hunt states that the contract was negotiated at arm's length and the increased price is fair, just and reasonable. Hunt also states that the increased price merely fulfills the contractual obligation and to deny same would be a deprivation of property without due process of law.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 10 to Hunt's FPC Gas Rate Schedule No. 8 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 10 to Hunt's FPC Gas Rate Schedule No. 8.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

[1] Present rate previously suspended and is in effect subject to refund in Docket No. G-12995.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. E-6838]

NORTHWESTERN PUBLIC SERVICE CO.

NOTICE OF APPLICATION

AUGUST 27, 1958.

Take notice that on August 21, 1958, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Northwestern Public Service Company ("Applicant"), a corporation organized under the laws of the State of Delaware and doing business in the States of South Dakota and Nebraska with its principal business office at Huron, South Dakota, seeking an order authorizing the issuance of not to exceed $1,200,000 of short-term bank notes. The aforesaid notes are to be issued and delivered to the bank or banks making the loan or loans to be evidenced by such notes with the interest rate expected to be ¼ of 1 percent above the prime commercial rate in New York in effect at the date of each note. Applicant proposes to issue the notes on or about September 22, 1958, and in no event later than October 20, 1958. Each note will be dated as of the date of issuance and delivery thereof and will mature not more than 360 days from said date. The funds received from the bank loans of $1,200,000 will be used by Applicant to pay an outstanding short-term bank loan due November 24, 1958, and the balance of the net proceeds will be applied to Applicant's 1958 construction program.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 17th day of September, 1958, file with the Federal Power Commission, Washington 25, D. C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 28, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34928: *Diethylene glycol—Texas points to Chicago, Ill., and district.* Filed by Southwestern Freight Bureau, Agent (No. B-7364), for interested rail carriers. Rates on diethylene glycol, tank-car loads from Houston, North Seadrift, Texas City, Velasco, and Port Neches, Tex., to Chicago, Ill., and points in the inner and outer zones of the Chicago district.

Grounds for relief: Alleged market competition.

Tariff: Supplement 140 to Southwestern Freight Bureau tariff I. C. C. 4064.

FSA No. 34930: *Iron and steel articles to Baton Rouge and New Orleans, La.* Filed by Western Trunk Line Committee, Agent (No. A-2002), for interested rail carriers. Rates on iron and steel articles, carloads from Duluth and Steelton, Minn., Kansas City, Mo., and Minnequa, Colo., to Baton Rouge and New Orleans, La.

Grounds for relief: Market competition.

Tariffs: Supplement 157 to Western Trunk Lines tariff I. C. C. A-3883. Supplement 80 to Western Trunk Lines tariff I. C. C. A-4171.

AGGREGATE-OF-INTERMEDIATES

FSA No. 34929: *Diethylene glycol—Texas points to Chicago Ill., and district.* Filed by Southwestern Freight Bureau, Agent (No. B-7365), for interested rail carriers. Rates on diethylene glycol, tank-car loads from Houston, North Seadrift, Texas City, Velasco, and Port Neches, Tex., to Chicago, Ill., and points in the inner and outer zones of the Chicago district.

Grounds for relief: Maintenance of depressed rates not applicable in connection of combination rates from or to points beyond the described points.

Tariff: Supplement 140 to Southwestern Freight Bureau tariff I. C. C. 4064.

By the Commission.

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter D—Regulations Under Soil Bank Act

[Amdt. 20]

PART 485—SOIL BANK

SUBPART—CONSERVATION RESERVE PROGRAM

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture pursuant to the Soil Bank Act (70 Stat. 188) the regulations for the conservation reserve program issued August 16, 1956 (21 F. R. 6289), as amended, are hereby amended as follows:

1. Section 485.156 (d) (1) is amended by striking out in the second sentence the word "and" preceding subdivision (iv) and changing the period at the end of the sentence to a comma and adding the following: "and (v) to permit the producer to reduce the land in the conservation reserve at the regular rate in the case of a contract for which the first year of the contract period is 1956 or 1957 by not more than the amount of the acreage covered by the 1958 acreage reserve agreement(s) which is in excess of the Soil Bank base acreage minus the acreage in the conservation reserve at the regular rate."

2. Section 485.156 (d) (1) is amended by adding a new sentence prior to the last sentence thereof to read as follows: "In case of a modification under subdivision (v) of this subparagraph, cost-share payments paid or payable on land removed from the conservation reserve shall be forfeited or refunded."

3. Section 485.157 (b) (1) is amended by changing the period at the end of the first sentence to a colon and adding the following proviso: *"Provided further,* That with the approval of the county committee land in the conservation reserve may be devoted to fire lanes or fire breaks where these are determined to be necessary for the protection of the conservation reserve or the farm or ranch buildings."

4. Section 485.157 (b) (1) is amended further by changing the period at the end of the paragraph to a comma and adding the following: "except that destruction of the vegetative cover during the contract period for the purpose of planting during the last six months of the period orchard trees, nut trees or nursery stock, or a crop normally seeded during such period for harvest in a later year or destruction of the vegetative cover with the approval of the county committee for the purpose of establishing a fire lane or fire break, or changing to another approved conservation practice authorized by the county committee shall not be considered a violation of the contract."

5. Section 485.158 (a) (2) is amended by changing the second sentence to read as follows: "A soil bank base shall be established by the county committee for each farm on which land is placed in the conservation reserve except that where all the eligible land on the farm is placed in the conservation reserve for the same contract period and there is no other cropland on such farm, a soil bank base need not be established since the number of acres permitted to be devoted to soil bank base crops will be zero as long as the contract period remains the same for all the eligible land on such farm."

6. Section 485.158 (b) is amended by striking out in the last sentence "or a subsequent year" and by adding at the end thereof a new sentence to read as follows: "Notwithstanding any other provisions of this paragraph, beginning with contracts which include land for which the first year of the contract period is 1959 or a subsequent year, on any farm on which an acreage equal to the soil bank base is placed in the conservation reserve, any other eligible land may be placed in the conservation reserve at the non-diversion rate."

7. Section 485.162 (a) is amended by adding at the end thereof the following: "For practices A-2, A-4, A-7, A-8, B-7, C-14, D-1, and D-2, or components thereof approved for land for which 1959 or a subsequent year is the first year of the contract period the rates of cost-sharing at time of approval shall not exceed the applicable agricultural conservation program rates of cost-sharing for these practices or components thereof which are in effect, or which would be in

effect if the practices were offered under the agricultural conservation program in the county or area."

8. Section 485.162 (b) is amended to read as follows:

(b) *Maximum cost-share limitations for practices.* (1) The cost-share for a water storage facility, except a water storage facility constructed under practice B–7 or practice C–14 approved for use on land for which 1959 or a subsequent year is the first year of the contract period, shall not exceed the sum of (i) 80 per centum of that part of the cost of constructing the water storage facility which is not in excess of $625, (ii) 40 per centum of that part of the cost of constructing the water storage facility which is in excess of $625 but not in excess of $1,000, and (iii) 20 per centum of that part of the cost of constructing the water storage facility which is in excess of $1,000.

(2) Where the area covered by the water impounded by a water storage facility is not wholly within the conservation reserve on a farm, the cost-share for such water storage facility practice shall be limited to a percentage of the cost-share as computed under subparagraph (1) of this paragraph which is equal to the percentage which the area located on the conservation reserve covered by the impounded water is of the total area covered by the impounded water.

(3) In no case shall the cost-share for a water storage facility exceed $1,500.

(4) With respect to water storage facility practices approved on and after the date authorized as the beginning date for approving contracts starting with 1958, the total cost-share for all conservation reserve water storage facilities constructed on a farm including those previously approved shall not exceed the larger of $1,500 or $40 times the acreage in the conservation reserve on such farm.

(5) The cost-shares for practices A–2, A–4, A–7, A–8, B–7, C–14, D–1, and D–2 approved for use on land for which 1959 or a subsequent year is the first year of the contract period shall not exceed the applicable agricultural conservation program maximum cost-share limitations for these practices which are in effect, or which would be in effect if the practices were offered under the agricultural conservation program, in the county or area.

(6) The maximum cost-share for practice G–1 shall not exceed an amount determined by multiplying the number of acres devoted to the practice by the maximum amount per acre which would be approved for practice A–2, A–7, A–8, D–1, or D–2, whichever is the highest, if carried out on the same acreage. Where annual seedings or other measures are required to be performed under practice G–1, the total of all such payments on an acreage cannot exceed the maximum amount per acre which would be approved in carrying out practice A–2, A–7, D–1, or D–2, whichever is the highest, once on the same acreage.

(7) With respect to practices approved on and after the date authorized as the beginning date for approving contracts starting with 1958, the State committee shall establish a maximum cost-share limitation per acre for practices, other than those involving the construction of water storage facilities, in accordance with instructions issued by the Administrator, CSS.

(8) With respect to contracts entered into after September 6, 1957, no cost-share payment will be made for conservation practices carried out on land other than that for which an annual payment is payable.

9. A new § 485.185 is added immediately following § 485.184 to read as follows:

§ 485.185 *Awarding conservation reserve contracts in 1959 and subsequent years.* (a) No conservation reserve contract for which 1959 or a subsequent year is the first year of the contract period will be entered into unless the owner or operator of the farm has furnished the office of the county committee of the county in which the farm is located the following information on a form prescribed by the Administrator:

(1) The producer's estimated per acre value for agricultural purposes of the average eligible land on the farm; or

(2) If only a part of the eligible acres on the farm is to be placed in the conservation reserve, the producer's estimated per acre value for agricultural purposes of the part to be placed in the conservation reserve; and

(3) The acreage and yield of each of the 3 principal crops harvested on the farm during the 2 years preceding the first year of the contract period and the use made of the balance of the eligible land on the farm in the same period if the 3 principal harvested crops do not account for the use of the major part of the eligible land on the farm.

The value of the land for agricultural purposes as used herein shall be the value of the land for such purposes without regard to physical improvements thereon or location thereof.

(b) The county committee will establish two maximum annual per acre payment rates for each farm for which the information referred to in paragraph (a) of this section has been furnished to the county office. One maximum annual per acre payment rate will be the smallest of (1) the farm productivity index times 110 percent of the county payment rate, (2) 20 percent of the value for agricultural purposes of the eligible acreage on such farm as determined by the county committee (3) 20 percent of the value for agricultural purposes of such land as estimated by the applicant, (4) 150 percent of the county payment rate or (5) $25.00. This rate will be the maximum rate applicable where all the eligible land on the farm not covered by an existing conservation reserve contract, except land devoted to a home garden, and land approved by the county committee as needed for livestock lanes and/or farm roads is to be placed in the conservation reserve for at least a 5-year period and will be considered the maximum regular annual rate of payment in connection with such land. The second maximum annual per acre payment rate will be the first maximum rate divided by 110 percent. The second maximum annual per acre payment rate will be the maximum rate applicable where all the eligible land in a farm not covered by an existing conservation reserve contract, except land devoted to home gardens and land approved by the county committee as needed for livestock lanes and/or farm roads, is to be placed in the conservation reserve for less than a 5-year period and will be considered the maximum regular payment rate for such land. The second maximum annual per acre payment rate will also be the maximum regular payment rate applicable to the land placed in the conservation reserve at the regular payment rate where only a part of the eligible acres in a farm is placed in the conservation reserve and the productivity of such land is at least equal to that of the average eligible land in such farm. If the productivity of the land offered is significantly less than the productivity of the average of all eligible land on the farm the maximum annual rate for such land will be reduced by the percentage by which the productivity of the land offered is less than the productivity of the average of all eligible land on the farm. In establishing the maximum rates of payment for a farm the county committee shall take into consideration the information submitted by the producer as required in paragraph (a) of this section. The value for agricultural purposes of land shall be determined without regard to the physical improvements thereon or the location thereof. The productivity index for a farm will be the county committee's determination of the relative productivity of such farm as compared to the productivity of the average farm in the county.

(c) Contracts will be awarded to eligible producers who (1) file the information referred to in paragraph (a) of this section at the county office on the prescribed form not later than a date established by the State committee and (2) file an acceptable application at the county office on the prescribed form not later than a date established by the

State committee. The date established for filing the application referred to in this paragraph shall not be later than the fourth Friday in October of the year prior to the first year of the requested contract period. The date established for filing the information referred to in paragraph (a) of this section shall not be later than two weeks before the date established for filing the applications referred to in this section. If funds are available, a second sign-up period may be authorized by the State committee in which case contracts will be awarded in connection with the second sign-up period to eligible producers who file the information referred to in paragraph (a) of this section at the county office on the prescribed form not later than a date established by the State committee and file an acceptable application at the county office on the prescribed form not later than a date established by the State committee. The date established in connection with the second sign-up period for filing the applications referred to in this section shall not be later than the fourth Friday in February of the first year of the contract period requested. The date established in connection with the second sign-up period for filing the information referred to in paragraph (a) of this section shall not be later than two weeks before the date established for filing applications in connection with the second sign-up period. To be acceptable an application for a contract must show the acreage offered, the proposed conservation uses to which such acreage will be devoted and the annual rate of payment at which such acreage is offered.

(d) No contract shall be entered into at a rate higher than the applicable maximum rate of payment established for the land offered. If sufficient funds are not available to award contracts to all applicants, applications will be considered in the following order of priority:

(1) Applications offering the balance of the eligible land on a farm where a part of the eligible land is already in the conservation reserve under an existing contract and the balance being offered was designated as acreage reserve under a 1958 acreage reserve agreement and the farm was in compliance in 1958 with both the conservation reserve contract and all acreage reserve agreements applicable to the farm.

(2) Applications offering land at the lowest percentage of the maximum annual payment rate established for such land.

(3) In case there is more than one application offering land at the same percentage of the applicable maximum annual per acre payment rate, priority will be given to the applications offering land at the lowest regular annual payment rate.

(4) In case there is more than one application offering land at the same percentage of the applicable maximum annual per acre payment rate and at the same regular annual payment rate, priority will be given to the applications offering land which comprises all the eligible acreage on the farm.

(5) In case there is more than one application offering land at the same percentage of the applicable maximum annual per acre payment rate and the same regular annual payment rate, and such applications all offer land which comprises all the eligible acreage on the farm, priority shall be given to the applications offering land for the longest contract period.

(6) If, after applying the foregoing rules, priority has not been established for all applications, the county committee shall establish priority among the remaining applications by public drawing, by lot, of the names of the applicants. Notice of the drawing shall be given to all interested applicants.

(Sec. 124, 70 Stat. 198; 7 U. S. C. 1812. Interpret and apply secs. 107–113, 70 Stat. 191–195, 72 Stat. 194; 7 U. S. C. 1831–1837)

PART 485—SOIL BANK

SUBPART—ACREAGE RESERVE PROGRAM

FARM SOIL BANK BASE

The regulations governing the 1958 acreage reserve program, 22 F. R. 6397, as amended and supplemented, are hereby further amended by deleting the period at the end of § 485.313 (h) (3) (ii) and adding thereto the following: "or if the county committee determines that the crop has in fact been used as a nurse crop or cover crop, has not been harvested, and has been disposed of by the producer in such manner, or is in such condition, that no part of the crop can be harvested."

(Sec. 124, 70 Stat. 198; 7 U. S. C. 1812)

Issued at Washington, D. C., this 29th day of August, 1958.

PART 842—BEET SUGAR AREA

1958 AND SUBSEQUENT CROPS

Pursuant to the provisions of section 303 of the Sugar Act of 1948, as amended, subparagraph (6) of paragraph (a) of § 842.2, as issued April 23, 1957 (22 F. R. 2994) is revised to read as follows:

(6) The farm was located in a county or a local producing area in which the ASC County Committee determines for the applicable crop year that due to drought, flood, storm, disease, freeze, or insects, the actual yields of commercially recoverable sugar from the acreages planted to a crop of sugar beets on farms in such county or local producing area were below 80 percent of the applicable normal yields either for 10 percent or more or the number of such farms, or for those farms on which were planted 10 percent or more of the total acres of sugar beets planted on all farms in such county or local producing area. A farm shall be regarded as located in the State, county and local producing area in which the farm headquarters is situated, or if there is no farm headquarters, the farm shall be regarded as located in the State, county and local producing area in which the major portion of land in the farm suitable for the production of sugar beets is situated. For the purpose of this section, a local producing area shall mean a township, as established by Federal survey, in all States in the domestic beet sugar area except Texas and Utah. In Texas and Utah, a local producing area shall mean an ASC community with boundaries as fixed by the ASC State Committee at the time of issuance of this determination and as shown on maps available for inspection in the respective ASC county offices; and

This amendment shall be applicable to the 1958 and subsequent crops.

STATEMENT OF BASES AND CONSIDERATIONS

This amendment changes the language of the original determination relating to the establishment of the location of farms by States, counties and local producing areas. This matter is significant in the determination of performance, the establishment of proportionate shares and the consideration of eligibility for abandonment and crop deficiency payments and prevented acreage credits. The former language referred to the principal dwelling on the farm and the major portion of the land in the farm.

In a number of States, sugar beet production is a specialized business in which many farms comprise rented tracts of land devoid of dwellings. Also, many farms comprise land which is devoted regularly to sugar beet production, and also include large areas unsuited to the crop such as dry land adjacent to an irrigated area. Therefore, the substitution of "headquarters" and "land suitable for sugar beet production" for "principal dwelling" and "land in the farm" will provide better standards for use in this connection.

Accordingly, I hereby find and conclude that the aforestated amendment will effectuate the applicable provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 303, 61 Stat. 930; 7 U. S. C. 1133)

Issued this 29th day of August 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6994]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

WILLIAMSBURG ELECTRIC, INC. ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.15 *Business status, advantages, or connections:* Connections or arrangements with others; identity; § 13.95 *Identity of product;* § 13.130 *Manufacture or preparation.* Subpart—*Furnishing means and instrumentalities of misrepresentation or deception:* § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—*Misrepresenting oneself and goods*—Business status, advantages or connections; § 13.1395 *Connections and arrangements with others;* § 13.1440 *Identity;* [*Misrepresenting oneself and goods*]—Goods: § 13.1655 *Identity;* § 13.1680 *Manufacture or preparation.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Williamsburg Electric, Inc., et al., Willow Run, Mich., Docket 6994, July 26, 1958]

In the Matter of Williamsburg Electric, Inc., a Corporation, Fred H. Hogan and John E. Judycki, Individually and as Officers of Said Corporation, and Milton A. Hogan, Individually

This proceeding was heard by a hearing examiner on the complaint of the Commission charging manufacturers of electric trivets in Willow Run, Mich., with representing falsely on stuffers, counter cards, etc., distributed to resellers and in advertisements in newspapers of national circulation—simulating therein the script of Colonial Williamsburg, Incorporated, and depicting buildings and scenes of Williamsburg, Va., and the colonial era—that they were affiliated with Colonial Williamsburg, Incorporated, and Williamsburg Restoration, Incorporated; and that their trivets were authentic reproductions of originals displayed in Williamsburg, Va., and of the American colonial period, and were of wrought iron construction.

After acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 26 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Williamsburg Electric, Inc., a corporation, and its officers, and Fred H. Hogan and John E. Judycki, individually and as officers of said corporation, and Milton A. Hogan, individually, and respondents' agents, representatives and employees, directly or through any corporate or other device, and in connection with the offering for sale, sale or distribution of trivets and other products of Early American Design, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the word "Williamsburg" as a part of a corporate or trade name unless in direct connection therewith it is clearly disclosed that respondent Williamsburg Electric, Inc., has no connection with Williamsburg Restoration, Incorporated.

2. Using any word, term, statement, definition or simulation in any manner, the effect of which tends or may tend to convey the belief or impression, directly or indirectly, that respondents, or any of them, are affiliated or connected with, or are a representative, subsidiary or licensee of Williamsburg Restoration, Incorporated.

It is further ordered, That respondents Williamsburg Electric, Inc., a corporation, and its officers, and Fred H. Hogan and John E. Judycki, individually and as officers of said corporation, and Milton A. Hogan, individually, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of any product, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or indirectly:

1. That any product is an authentic reproduction of the original on display in the exhibition buildings in Williamsburg, Virginia, unless such is the fact.

2. That any product is an authentic representation of the American Colonial Period, unless such is the fact.

3. That any product is of wrought iron construction, unless such is the fact.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: July 25, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[Docket 7034]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

JACK J. BERLINER ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.15 *Business status, advantages, or connections:* Individual or private business as educational, religious or research institution; personnel or staff; qualifications and abilities. Subpart—*Using misleading name*—Vendor: § 13.2410 *Individual or private business being educational, religious or research institution or organization.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Jack J. Berliner et al. doing business as J. J. Berliner & Staff, etc., New York, N. Y., Docket 7034, July 26, 1958]

In the Matter of Jack J. Berliner and Sara Berliner Doing Business as J. J. Berliner & Staff and as the American Research Society for Better Management

This proceeding was heard by a hearing examiner on the complaint of the Commission charging operators of a New York City clipping service with representing falsely through use of their trade name and in advertising matter circulated to prospects that they were a society engaged in research, were experts in all management problems, and maintained an extensive research staff, supplying the latest information, domestic and foreign, in the fields of management, engineering, and chemistry; and that they authenticated all information they distributed.

After acceptance of an agreement for a consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 26 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Jack J. Berliner and Sara Berliner, individually and doing business as the American Research Society for Better Management, or under any other name, their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of their publications or printed matter, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using a trade, business or corporate name, that respondents, or either of them, engage in research or operate or maintain a society of any nature;

2. Using a trade, business or corporate name which includes the word "management", or representing in any manner, directly or by implication, through the use of any trade, business or corporate name, that respondents, or either of them, are experts in management problems or are qualified as management consultants.

It is further ordered, That respondents Jack J. Berliner and Sara Berliner, individually and doing business as J. J. Berliner & Staff, or under any other name, their agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of their publications or printed matter, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication:

(a) That they are engaged in any research other than the reading, indexing, selecting, editing and compiling of previously published articles or other works;

(b) That the information which they distribute contains the latest information, either domestic or foreign, unless such is the fact, in the fields of management, engineering or chemistry; or

(c) That they authenticate any of the information distributed by them.

2. Offering for sale, selling or distributing publications or printed matter previously published by others without clear and conspicuous disclosure of such fact in advertising and on the publications and printed matter themselves.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: July 25, 1958.

By the Commission.

PART 13—DIGEST OF CEASE AND DESIST ORDERS

CRAFTEX COMFORT PRODUCTS, INC. ET AL.

Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Wool Products Labeling Act. Subpart—*Misbranding or mislabeling:* § 13.1190 *Composition:* Wool Products Labeling Act; § 13.1212 *Formal regulatory and statutory requirements:* Wool Products Labeling Act; § 13.1235 *Indorsements, approval, or awards;* § 13.1280 *Price.* Subpart—*Misrepresenting oneself and goods*—Prices: § 13.1810 *Fictitious marking.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1852 *Formal regulatory and statutory requirements:* Wool Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, secs. 2-5, 54 Stat. 1128-1130; 15 U. S. C. 45, 68-68 (c)) [Cease and desist order, Craftex Comfort Products, Inc., Brooklyn, N. Y., Docket 7045, July 30, 1958]

In the Matter of Craftex Comfort Products, Inc., Purofied Down Products Corporation, Corporations, and Samuel Puro and Louis Puro, Individually and as Officers of Said Corporations

This proceeding was heard by a hearing examiner on the complaint of the Commission charging manufacturers in Brooklyn, N. Y., with violating the Wool Products Labeling Act by labeling as "Reprocessed All Wool" bed comforters which contained substantial amounts of fibers other than wool and by printing the word "reprocessed" in smaller and less conspicuous letters than the other words, and by failing to comply in other respects with the labeling requirements of the Act; and with violating the Federal Trade Commission Act by imprinting on the plastic covers of the bed comforters a fictitious price greatly in excess of the usual retail price and unauthorized facsimiles of "seals of approval" of Good Housekeeping and the American Medical Association; and by invoicing the bed comforters falsely as "wool".

After acceptance of an agreement for a consent order, the hearing examiner made his initial decision and order to cease and desist which became on July 30 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Craftex Comfort Products, Inc., and Purofied Down Products Corporation, corporations, and their respective officers and respondents Samuel Puro and Louis Puro, individually and as officers of said corporations, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or offering for sale, sale, transportation or distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act and the Wool Products Labeling Act of 1939, of wool bed comforters or other "wool products" as such products are defined in and subject to the Wool Products Labeling Act of 1939, which products contain, purport to contain, or in any way are represented as containing "wool", "reprocessed wool" or "reused wool", as those terms are defined in said Act, do forthwith cease and desist from misbranding such products by:

1. Falsely or deceptively stamping, tagging, labeling or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Minimizing or rendering inconspicuous the information required under the Wool Products Labeling Act on the stamp, tag, label or other mark of identification by the use of small type or by failing to use letters of equal size and conspicuousness.

3. Failing to securely affix to or place on each such product a stamp, tag, label or other means of identification showing in a clear and conspicuous manner:

(a) The percentage of the total fiber weight of such wool product, exclusive of ornamentation not exceeding five percentum of said total fiber weight, of (1) wool, (2) reprocessed wool, (3) reused wool, (4) each fiber other than wool where said percentage by weight of such fibre is five percentum or more, and (5) the aggregate of all other fibers;

(b) The maximum percentage of the total weight of such wool product, of any non-fibrous loading, filling, or adulterating matter;

(c) The name or the registered identification number of the manufacturer of such wool product or of one or more persons engaged in introducing such wool product into commerce, or in the offering for sale, sale, transportation, distribution or delivery for shipment thereof in commerce, as "commerce" is defined in the Wool Products Labeling Act of 1939.

It is further ordered, That Craftex Comfort Products, Inc., and Purofied Down Products Corporation, corporations, and their respective officers and respondents Samuel Puro and Louis Puro, individually and as officers of said corporations, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of wool bed comforters or any other products or materials in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from directly or indirectly:

1. Representing in any manner, that any amount is the retail value of an article of merchandise when it is in excess of the price at which said merchandise is usually and regularly sold at retail in the trade territory in which it is offered for sale.

2. Using the seals of either Good Housekeeping magazine or Today's Health magazine in connection with any product, or representing, in any manner, that a product has been approved by either of said magazines, or by any other magazine, unless such product has been approved for advertising in said magazines and the use of the seal has been duly authorized.

3. Misrepresenting the constituent fibers of which their products are composed, or the percentages or amounts thereof, in sales invoices, or in any other manner.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: July 30, 1958.

By the Commission.

Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.1865 *Manufacture or preparation:* Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Feldman & Lowe, Inc., et al., New York, N. Y., Docket 7107, August 2, 1958]

In the Matter of Feldman & Lowe, Inc., a Corporation, Max Feldman and Joseph Lowe, Individually and as Officers of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a furrier in New York City with violating the Fur Products Labeling Act by failing to reveal on labels and invoices that the fur in certain products was dyed, and to comply in other respects with the labeling requirements of the act.

Following acceptance of an agreement containing a consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 2 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Feldman & Lowe, Inc., a corporation, and its officers, and Max Feldman and Joseph Lowe, individually and as officers of said corporation, and their agents, representatives and employees, directly or through any corporate or other device, in connection with the introduction or manufacture for introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of any fur product, or in connection with the manufacture for sale, sale, advertising, offering for sale, transportation, or distribution of any fur product which has been made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur," and "fur products" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Falsely or deceptively labeling fur products by failing to reveal that such fur products are in fact bleached, dyed, or otherwise artificially colored.

B. Misbranding fur products by failing to affix labels to such fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is a fact;

(e) The name, or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product;

C. Falsely or deceptively invoicing fur products by failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is a fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is a fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is a fact;

(e) The name and address of the person issuing such invoice;

(f) The name of the country of origin of any imported furs contained in a fur product;

D. Falsely or deceptively invoicing fur products as being made of "Natural" furs when they are in fact bleached, dyed, or otherwise artificially colored.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 1, 1958.

MEYER'S FURRIERS, INC. AND MEYER EPSTEIN

Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Fur Products Labeling Act. Subpart—*Misbranding or mislabeling:* § 13.1212 *Formal regulatory and statutory requirements:* Fur Products Labeling Act. Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply Sec. 5, 38 Stat. 719, as amended; Sec. 8, 65 Stat. 179; 15 U. S C. 45, 69f) [Cease and desist order, Meyer's Furriers, Inc., et al., Binghamton, N. Y., Docket 7133, August 5, 1958]

In the Matter of Meyer's Furriers, Inc., a Corporation, and Meyer Epstein, Individually and as President of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a furrier in Binghamton, N. Y., with violating the Fur Products Labeling Act by naming on invoices an animal other than that which produced a particular fur, and by failing in other respects to comply with the labeling and invoicing requirements of the Act.

After acceptance of an agreement containing a consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 5 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Meyer's Furriers, Inc., a corporation, and its officers, and Meyer Epstein, individually and as an officer of said corporation, and respondents' representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or manufacture for introduction into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce of fur products, or in connection with the manufacture for sale, sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed, in whole or in substantial part, of paws, tails, bellies, or waste fur, when such is the fact;

(e) The name or other identification issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported or distributed it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product;

(g) The item number or mark assigned to a fur product.

2. Setting forth on labels attached to fur products:

(a) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations thereunder in abbreviated form.

(b) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations there-

under mingled with non-required information.

(c) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations thereunder in handwriting.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is the fact;

(e) The name and address of the person issuing such invoice;

(f) The name of the country of origin of any imported fur contained in a fur product;

(g) The item number or mark assigned to a fur product.

2. Setting forth on invoices the name or names of any animal or animals other than the name or names provided for in Paragraph B (1) (a) above.

3. Abbreviating on invoices information required under section 5 (b) (1) of the Fur Products Labeling Act and the rules and regulations thereunder.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 5, 1958.

By the Commission.

TITLE 20—EMPLOYEES' BENEFITS

Chapter V—Bureau of Employment Security, Department of Labor

PART 603—INSTRUCTIONS TO STATE AGENCIES FOR PREPARATION AND SUBMITTAL OF STATE PLAN OF OPERATION UNDER THE WAGNER-PEYSER ACT

Pursuant to section 12 of the Wagner-Peyser Act (48 Stat. 117, as amended, 29 U. S. C. 49k), Reorganization Plan No. 2 of 1949 (14 F. R. 5225; 63 Stat. 1065, 5 U. S. C. 133z-15), and by delegation from the Secretary of Labor, 20 CFR Part 603 is hereby revised to read as follows:

Sec.
603.1 Letter of transmittal.
603.2 Legal material.
603.3 Action taken to carry out United States employment service regulations.
603.4 Policies and operating instructions.
603.5 Employment service budget.

AUTHORITY: §§ 603.1 to 603.5 issued under sec. 12, 48 Stat. 117, as amended; 29 U. S. C. 49k. Interpret or apply 48 Stat. 113, as amended, 58 Stat. 293, as amended; 29 U. S. C. 49-491, 38 U. S. C. 695-695f.

§ 603.1 *Letter of transmittal.* All materials submitted to the Bureau by the State agency as part of its plan of operation—whether in the form of an original submittal or an amendment—should be accompanied by a letter of transmittal, prepared in accordance with the following provisions:

(a) *Request for approval.* The letter of transmittal should state that the accompanying statements and attachments are submitted as a plan of operation (or as amendments to a plan of operation) pursuant to the provisions of the Wagner-Peyser Act, as amended. The Director of the Bureau of Employment Security should be requested to approve the plan (or the amendments) as submitted.

(b) *List of documents.* The letter of transmittal should list each section of the plan being transmitted and the document being submitted thereunder.

(c) *Submittal of the plan and amendments.* (1) The original should state that the plan is submitted as a continuing plan; should designate the effective date; and should certify that the plan will be kept current by the submittal for incorporation in the plan of necessary amendatory materials.

(2) A similar letter of transmittal should accompany each amendment to the plan. The letter should request that the proposed amendments be incorporated in the plan, and should, if they are to be substituted for other provisions previously submitted and accepted, request that the substitution be made.

(d) *Signature.* The letter of transmittal should bear the signature and title of the State official or officials authorized under the State law to submit the plan of operation. If the State agency is a commission or other body, rather than a single official, the original letter of transmittal should be accompanied by a certified copy of the minutes of the commission or other body approving the plan and authorizing the signing official to submit the plan on behalf of the State agency.

§ 603.2 *Legal material.* Any newly adopted legal material and any rescission or amendment of legal material previously incorporated in the plan should be submitted currently for approval as a part of the plan. Each new item of legal material should be accompanied by a statement identifying the previously incorporated legal material—including the page and section of the plan where it occurs—which the new legal material amends or renders obsolete.

(a) *Opinion of State Attorney General.* The legal material must include an opinion of the State Attorney General or other appropriate State official stating that the State statutes authorize the State agency to submit the plan and administer the State Employment Service, in accordance with the Act of June 6, 1933 (48 Stat. 133), as amended, and Title IV of the Servicemen's Readjustment Act of 1944 as amended.

(b) *Legislative and executive promulgations.* Legislative and executive promulgations submitted as a part of the plan should include constitutional and statutory provisions, proclamations, executive orders, rules and regulations, and any other materials which constitute or determine the legal basis for the plan, or any materials having the force or effect of law and affecting in any respect the operation of the State Employment Service (other than those affecting only fiscal management or personnel administration). This material must include the State statute accepting the Wagner-Peyser Act and creating the State agency to administer the Statewide system of public employment offices in cooperation with the United States Employment Service. The material should also include legislation creating the department or agency of State government in which the State public employment office system is located. Organization and enabling laws to be submitted under this section of the plan include constitutional, statutory, and administrative legal materials relating to the establishment of the State agency and its program, accepting the provisions of the Wagner-Peyser Act, defining the relationships between the State agency and the department or other agency of State government in which it is located, and constituting the legal authority for the material required under all provisions of the plan.

(c) *Court decisions and legal opinions.* When any court decisions or legal opinions are rendered affecting any part of the plan or the operation of the State Employment Service, they should be submitted promptly. Opinions of appropriate State officials will be requested, for incorporation in the plan, when the intent of a statute or constitutional provision is not clear or if there is any question as to the authority of an agency to issue a rule or regulation or take any other action provided for in the plan.

§ 603.3 *Action taken to carry out United States Employment Service regulations.* Submit a statement that the State agency will comply with and carry out the regulation prescribed by the Secretary of Labor under the Wagner-Peyser Act and entitled "Cooperation of the United States Employment Service and States in Establishing and Maintaining a National System of Public Employment Offices."

§ 603.4 *Policies and operating instructions.* (a) Submit a statement that the State agency will adhere to the basic standards set forth as United States Employment Service policies and policies of the Secretary of Labor in the Employment Security Manual, and will maintain an organization and procedures necessary to carry out effectively such policies. The statement should indicate one of two types of action by the State agency to make such policies and procedures effective:

(1) The adoption of the Manual as issued by the Bureau of Employment Security as the vehicle for issuing instructions on employment service matters to local offices; or

(2) The issuance of instructions on employment service matters to local offices through a State agency manual or bulletin series.

(b) These policies shall not be repeated in the plan of operation for each State agency but shall be incorporated therein by reference.

§ 603.5 *Employment service budget.* Submit a statement that, upon final approval by the Director of the Bureau of Employment Security, each budget request involving expenditures for employment service purposes and any change or adjustment in such a budget is to be incorporated as a part of the State plan of operation.

This revision of Part 603 relieves State agencies of the requirements for submittal of documents formerly contained in §§ 603.3, 603.6, 603.6a, 603.7, 603.9, and 603.10, and simplifies the requirements for submittal of documents formerly contained in § 603.5.

The revision shall become effective immediately upon publication in the FEDERAL REGISTER since this rule-making relates to public grants, and is, therefore, within the exception with respect to such grants contained in section 4 of the Administrative Procedure Act (60 Stat. 238, 5 U. S. C. 1003).

Signed at Washington, D. C., this 28th day of August 1958.

E. L. KEENAN,
Acting Director,
Bureau of Employment Security.

TITLE 22—FOREIGN RELATIONS

Chapter II—International Cooperation Administration, Department of State

PART 202—OCEAN SHIPMENTS OF SUPPLIES BY VOLUNTARY NONPROFIT RELIEF AGENCIES

MISCELLANEOUS AMENDMENTS

ICA Regulation 2 is amended as follows:

1. The authority citation to Part 202 (22 F. R. 8468) is amended to read as follows:

AUTHORITY: §§ 202.1 to 202.6 issued under sec. 521, 68 Stat. 855, as amended; 22 U. S. C. 1781. Interpret or apply sec. 203, 68 Stat. 485, as amended, secs. 409, 525, 68 Stat. 845, as amended, 856, as amended; 7 U. S. C. 1723, 22 U. S. C. 1929, 1785, E. O. 10575, 19 F. R. 7249, 3 CFR, 1954 Supp., E. O. 10610, 20 F. R. 3179, 3 CFR, 1955 Supp.

2. Section 202.3 (a) is amended to read as follows:

(a) An agreement for duty-free entry and defrayment of inland transportation costs of supplies within the scope of the regulations in this part has been concluded between the United States and the recipient country or the agency concerned has submitted evidence satisfactory to the Committee that the recipient country in fact accords duty-free entry and that the inland transportation costs of the supplies are defrayed by the recipient country or other non-U. S. Government source acceptable to the Committee.

Dated: August 22, 1958.

J. H. SMITH, Jr.,
Director, International Cooperation Administration.

[F. R. Doc. 58-7096; Filed, Sept. 3, 1958; 8:45 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

[T. D. 6307]

PART 170—MISCELLANEOUS REGULATIONS RELATING TO LIQUOR

EXTENSION OF BONDING PERIOD FOR DISTILLED SPIRITS AND MINGLING OF DISTILLED SPIRITS

The purpose of this Treasury decision is to provide regulations implementing sections 206 (a), (b), (c), and (f), and 210 (a) (2) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

PARAGRAPH 1. Section 206 (a), (b), (c), and (f) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) reads as follows:

SEC. 206. *Extension of bonding period.* (a) Section 5006 (a) (2) is amended to read as follows:

"(2) *Distilled spirits deposited in internal revenue bonded warehouses.* The tax on distilled spirits entered for deposit in internal revenue bonded warehouses shall be determined at the time the same are withdrawn therefrom and within 8 or 20 years from the date of original entry for deposit therein, whichever may be required by the bond covering such spirits (except that distilled spirits which on July 26, 1936, were 8 years of age or older and which were in bonded warehouses on that date, may remain therein)."

(b) Section 5232 (a) is amended to read as follows:

"(a) *General.* The Secretary or his delegate shall, by regulations, prescribe the form and penal sums of bonds covering distilled spirits in internal revenue bonded warehouses and in transit to and between such warehouses: *Provided*, That the penal sums of such bonds covering distilled spirits shall not exceed in the aggregate $200,000 for each such warehouse. Such bonds shall be conditioned (1) on the withdrawal of the spirits from the internal revenue bonded warehouse within 20 years (or, in the discretion of the person or persons furnishing any bond, within 8 years) from the date of original entry for deposit; (2) on payment of the tax on the spirits as determined on withdrawal from the internal revenue bonded warehouse; and (3) on compliance with all provisions of law and regulations relating to the business of warehousing distilled spirits."

(c) The last sentence of section 5243 (b) (relating to bottling requirements of certain distilled spirits known commercially as gin) is amended by striking out "at any time within 8 years after entry in bond".

(f) (1) The amendments made by this section shall apply with respect to—

(A) distilled spirits which on the date of the enactment of this Act are in internal revenue bonded warehouses or are in transit to or between such warehouses, and in respect of which the 8-year bonding period has not expired before the date of enactment of this Act; and

(B) distilled spirits which after the date of the enactment of this Act are entered for deposit in an internal revenue bonded warehouse.

(2) If the 8 years from the date of original entry of any distilled spirits for deposit in internal revenue bonded warehouses expires at any time during the 10-day period which begins on the date of the enactment of this Act, the amendments made by this section shall apply with respect to such spirits if (and only if) before the close of such 10-day period there is filed with the Secretary of the Treasury or his delegate either—

(A) a consent of surety which changes (for periods on and after the date of the enactment of this Act) the condition based on the withdrawal of spirits from the internal revenue bonded warehouse within 8 years from the date of original entry for deposit to a condition based on the withdrawal of spirits from the internal revenue bonded warehouse within 20 years from the date of original entry for deposit, or

(B) a bond which applies to periods on and after the date of the enactment of this Act and which satisfies the requirements of the Internal Revenue Code of 1954, as amended by this section, and is conditioned on the withdrawal of spirits from the internal revenue bonded warehouse within 20 years from the date of original entry for deposit.

Pursuant to the above provisions of law, the following new subpart, Subpart J, is added to 26 CFR Part 170:

SUBPART J—EXTENSION OF BONDING PERIOD AND RELATED CHANGES

Sec.
170.171 Scope of subpart.

DEFINITIONS

170.172 Meaning of terms.

EXTENSION OF BONDING PERIOD

170.173 General.

EXTENSION OF BONDING PERIOD DURING FIRST 10 DAYS OF THE ACT

170.174 Time limit.
170.175 Consents of surety.
170.176 New bond.

EXTENSION OF BONDING PERIOD AFTER THE FIRST 10 DAYS OF THE ACT

170.177 Filing of consent or bond and consent.

APPROVAL OF BONDS AND CONSENTS OF SURETY

170.178 Authority.

REMOVAL OF RESTRICTION ON BOTTLING OF GIN IN BOND FOR EXPORT

170.179 Bottling for export.

AUTHORITY: §§ 170.171 to 170.179, issued under sec. 7805, 68 Stat 917; 26 U. S. C. 7805.

§ 170.171 *Scope of subpart.* This subpart prescribes requirements pertaining to: The extension of the bonding period on distilled spirits stored in, or in transit to, internal revenue bonded warehouses on the date of enactment of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress); related changes in the conditions of the

transportation and warehousing bonds covering such premises affected by section 206 (a), (b), and (f) of such act; and the elimination from existing law of the provision in section 5243 (b), I. R. C., restricting the bottling in bond of gin for export to the period within 8 years after entry in bond.

DEFINITIONS

§ 170.172 *Meaning of terms.* When used in this subpart, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine as well. The terms "includes" and "including" do not exclude things not enumerated which are in the same general class.

Act. The Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

Assistant regional commissioner. An assistant regional commissioner (alcohol and tobacco tax) who is responsible to, and functions under the direction and supervision of, a regional commissioner of internal revenue.

Bonded warehouse or warehouse. An internal revenue bonded warehouse as defined in this section.

Director. The Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington 25, D. C.

Distilled spirits or spirits. A substance (except alcohol produced at an industrial alcohol plant operated under Part 182 of this chapter) produced by the distillation of fermented grain, molasses, fruit, or other materials, commonly known as spirits, whisky, brandy, rum, gin, vodka, etc.

Internal revenue bonded warehouse. A bonded warehouse established and operated under the provisions of 26 CFR Part 225.

I. R. C. The Internal Revenue Code of 1954.

Person. An individual, a trust, estate, partnership, association, company, or corporation.

Proprietor or warehouseman. The person operating an internal revenue bonded warehouse, unless otherwise indicated.

U. S. C. The United States Code.

EXTENSION OF BONDING PERIOD

§ 170.173 *General.* Notwithstanding the provisions of Part 225 of this chapter, the tax on distilled spirits entered for deposit in internal revenue bonded warehouses in respect of which the 8-year bonding period has not expired before the date of enactment of the act, shall be determined at the time the same are withdrawn therefrom and within 8 or 20 years from the date of original entry for deposit therein, whichever may be required by the bond covering such spirits (except that distilled spirits which on July 26, 1936, were 8 years of age or older and which were in bonded warehouses on that date, may remain therein).

EXTENSION OF BONDING PERIOD DURING FIRST 10 DAYS OF THE ACT

§ 170.174 *Time limit.* If the 8 years from the date of original entry for deposit of any distilled spirits on deposit in, or in transit to, any warehouse expires at any time during the 10-day period which begins on the date of the enactment of the act, the proprietor may have the bonding period for such spirits extended to 20 years if (and only if) he filed before the close of such 10-day period either a properly executed consent of surety, as provided in § 170.175, or a new bond, as provided in § 170.176.

§ 170.175 *Consents of surety.* Consents of surety filed pursuant to § 170.174 must be executed on Form 1533, in duplicate, by the proprietor of the internal revenue bonded warehouse and the surety (or sureties) on the proprietor's transportation and warehousing bond, Form 1571. The Form 1533 must properly identify the bond affected thereby and contain the following statement:

To change, for periods on and after the date of enactment of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress), the condition of said bond based on the withdrawal of distilled spirits from the internal revenue bonded warehouse within 8 years from the date of the first entry thereof in any internal revenue bonded warehouse to a condition based on the withdrawal of spirits from the internal revenue bonded warehouse within 20 years from the date of the original entry for deposit.

§ 170.176 *New bond.* Where, pursuant to the provisions of § 170.174, the proprietor desires to file a new bond which applies to periods on and after the date of the enactment of the act, he shall submit such bond on Form 1571, in duplicate. The new bond must be accompanied by a consent, as set forth in § 170.175, changing the condition that the tax will be paid within 8 years from the date of the first entry of the distilled spirits in an internal revenue bonded warehouse to a condition that the tax will be paid within 20 years from such date. The effective date of the bond must be the date of the enactment of the act. Where the proprietor has had the terms of the existing bond extended by approved consents of surety, and he desires to have the same terms apply under the new bond, he must at the time of filing the new bond execute and submit consent of surety which will extend the terms of the new bond to cover the same operations permitted under the superseded bond. The penal sum of the new bond shall be in accordance with the provisions of Part 225 of this chapter.

EXTENSION OF BONDING PERIOD AFTER THE FIRST 10 DAYS OF THE ACT

§ 170.177 *Filing of consent or bond and consent.* Where, after the 10-day period provided for in § 170.174, the proprietor desires to have the bonding period covering distilled spirits in his warehouse changed from an 8-year period to a 20-year period, he must file a consent, Form 1533, in duplicate, on his warehousing and transportation bond, Form 1571, or file a new bond, Form 1571 and proper consent, in duplicate. In such case the consent must be filed to take effect before the expiration of the 8-year bonding period in respect of any distilled spirits for which the extension of the bonding period is desired. The consent must identify the bond and contain the following statement:

To change the condition of said bond based on the withdrawal of distilled spirits from the internal revenue bonded warehouse within 8 years from the date of the first entry thereof in any internal revenue bonded warehouse to a condition based on the withdrawal of spirits from the internal revenue bonded warehouse within 20 years from the date of the original entry for deposit.

Where the proprietor has had the terms of the existing bond extended by approved consents of surety, and he desires to have the same terms apply under the new bond, he must at the time of filing the new bond execute and submit consent of surety which will extend the terms of the new bond to cover the same operations permitted under the superseded bond. The penal sum of the bond shall be in accordance with the provisions of Part 225 of this chapter.

APPROVAL OF BONDS AND CONSENTS OF SURETY

§ 170.178 *Authority.* All consents and bonds provided for in this subpart shall be submitted to the assistant regional commissioner. Assistant regional commissioners are authorized to approve all bonds and consents of surety submitted under the provisions of this subpart.

(68A Stat. 629, 630, 680; 26 U. S. C. 5176, 5177, 5551)

REMOVAL OF RESTRICTION ON BOTTLING OF GIN IN BOND FOR EXPORT

§ 170.179 *Bottling for export.* Notwithstanding the requirements of the distilled spirits warehousing regulations, § 225.953 of this chapter, gin reduced with pure water to not less than 80 proof may, at any time after entry in bond and before the expiration of the bonding period specified in the proprietor's bond, be bottled in bond for export: *Provided*, That gin which becomes 8 years of age in the 10-day period which begins on the date of enactment of the act may not be bottled for export unless the consent of surety or new bond provided for in § 170.174 is filed.

PAR. 2. Section 210 (a) (2) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) reads as follows:

SEC. 210 (a) (2) *Mingling of distilled spirits.* Provisions having the effect of—

(A) section 5025 (e) (7) (exemption from laws pertaining to rectification), and

(B) section 5234 (a) (2) (permitting the mingling of distilled spirits for further storage in bond)

of the Internal Revenue Code of 1954 (as such sections are included in chapter 51 of such Code as amended by section 201 of this Act) shall be deemed to be included in the Internal Revenue Code of 1954, effective on the day following the date of the enactment of this Act. In applying the provisions of such sections 5025 (e) (7) and 5234 (a) (2) during the period beginning on the day following the date of the enactment of this Act and ending at the close of June 30, 1959, references to bonded premises shall be treated as references to internal revenue bonded warehouses.

Sections 5025 (e) (7) and 5234 (a) (2) of the Internal Revenue Code of 1954 (as such sections are included in chapter 51 of such Code as amended by section 201 of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) read as follows:

SEC. 5025 (e) *Mingling of distilled spirits.* Sections 5021, 5061, and 5062 shall not apply to—

* * * * *

(7) the mingling on bonded premises of distilled spirits for further storage in bond as authorized by section 5234 (a) (2).

SEC. 5234 (a) (2) *Consolidation of packages for further storage in bond.* Under such regulations as the Secretary or his delegate shall prescribe, distilled spirits—

(A) of the same kind,

(B) distilled at the same distillery,

(C) distilled by the same proprietor (under his own or any trade name), and

(D) which have been stored in internal revenue bond in the same kind of cooperage for not less than 4 years (or 2 years in the case of rum or brandy),

may, within 8 years of the date of original entry for deposit of the spirits, be mingled on bonded premises for further storage in bond in as many as necessary of the same packages in which the spirits were stored before consolidation. Where distilled spirits produced in different distilling seasons are mingled under this paragraph, the mingled spirits shall consist of not less than 10 percent of spirits of each such season. No spirits mingled under the provisions of this paragraph shall be again mingled under the provisions thereof until at least one year has elapsed since the last prior mingling. For purposes of this chapter, the date of original entry for deposit of the spirits mingled under the provisions of this paragraph shall be the date of original entry for deposit of the youngest spirits contained in the mingled spirits, and the distilling season of such mingled spirits shall be the distilling season of the youngest spirits contained therein. Notwithstanding any other provisions of law, distilled spirits mingled under this paragraph may be bottled and labeled the same as if such spirits had not been so mingled. No statement claiming or implying age in excess of that of the youngest spirits contained in the mingled spirits shall be made on any stamp or label or in any advertisement.

Pursuant to the above provisions of law, the following new subpart, Subpart K, is added to 26 CFR Part 170:

SUBPART K—CONSOLIDATION OF PACKAGED DISTILLED SPIRITS

Sec.
170.185 Scope of subpart.
170.186 Authorized consolidation.
170.187 Consent of surety.
170.188 Equipment for mingling.
170.189 Application.
170.190 Dumping and gauging.
170.191 Determining date of original entry.
170.192 Filling and gauging consolidated packages.
170.193 Numbering, marking, and branding consolidated packages
170.194 Withdrawal, bottling, and labeling of mingled spirits.
170.195 Restriction on age statement.
170.196 Monthly report.

AUTHORITY: §§ 170.185 to 170.196, issued under sec. 7805, 68 Stat. 917; 26 U. S. C. 7805.

§ 170.185 *Scope of subpart.* This subpart prescribes the requirements for consolidation of packages of spirits for further storage in bond pursuant to section 210 (a) (2) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress).

§ 170.186 *Authorized consolidation.* Within 8 years of the date of original entry for deposit, and with the prior approval of the internal revenue officer in charge, packages of spirits of the same kind, distilled by the same proprietor (under his own or any trade name) at the same distillery, and which have been stored in internal revenue bond in the same kind of cooperage for not less than 4 years (or 2 years in the case of rum or brandy) may, as provided in this subpart, be dumped and mingled in a warehouse tank, and immediately repackaged, in as many as necessary of the packages from which dumped, for further storage in bond. Where spirits produced in different distilling seasons are mingled under this subpart, the mingled spirits shall consist of not less than 10 percent of spirits of each such season. No spirits mingled under this subpart shall again be mingled under this subpart until at least one year has elapsed since the last prior mingling.

§ 170.187 *Consent of surety.* Where a proprietor desires to mingle spirits under this subpart, he shall first file with the assistant regional commissioner a properly executed consent of surety, Form 1533, in duplicate, which shall identify the bond affected and contain the following statement:

To extend the terms of the bond to cover any tax liability with respect to spirits mingled in accordance with provisions having the effect of the provisions of section 5284 (a) (2), of the Internal Revenue Code of 1954 (as such section is included in section 201 of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress)).

Consents given under this section shall be in accordance with Part 225 of this chapter.

§ 170.188 *Equipment for mingling.* Bulk gauging tanks or storage tanks may be used in mingling and consolidation operations. Where such tanks are not to be so used, other suitable tanks must be provided.

§ 170.189 *Application.* When it is desired to mingle spirits for further storage in packages, application for such mingling must be submitted on Form 2323, in triplicate, to the internal revenue officer. Where the warehouseman desires to subsequently withdraw such spirits on the original gauge of the consolidated packages he shall note on all copies of the application, "Withdraw on original gauge". If the internal revenue officer approves the application he will date and sign the application, return one copy to the proprietor, and retain the remaining two copies.

§ 170.190 *Dumping and gauging.* When spirits in packages are to be dumped for mingling, the internal revenue officer will examine them. He will detain any package bearing evidence of unusual loss that cannot be satisfactorily explained, or of tampering, pending further investigation in accordance with the applicable provisions of Part 225 of this chapter, and will supervise the dumping of the spirits. All packages must be drained and packages which are not to be refilled as consolidated packages must be thoroughly rinsed. The proof of the spirits in the tank shall be adjusted to a whole degree of proof and such adjusted proof shall be regarded as the proof of the spirits run into all packages filled from the tank. Rinse water not used in reducing the proof of the spirits must, in each instance, be destroyed, or disposed of as prescribed in Part 225 of this chapter. All marks and brands must be obliterated from the empty packages: *Provided*, That appropriate marks may be left on packages that are to be used for storage of the spirits. Empty packages not needed for storage of the mingled spirits shall be promptly removed from the warehouse. In all cases the internal revenue officer shall verify the proof, see that all outlets in the tank are locked, determine (volume or weight) the quantity of spirits in the tank, and report the gauge on all copies of the application.

§ 170.191 *Determining date of original entry.* Where spirits are mingled under this subpart, the date of original entry for deposit of the youngest spirits in the lot shall, for the purposes of chapter 51, I. R. C., be the date of original entry for deposit for all the spirits in the lot, and the distilling season of such mingled spirits shall be the distilling season of the youngest spirits contained therein.

§ 170.192 *Filling and gauging consolidated packages.* At the time the mingled spirits are to be drawn into packages, the internal revenue officer shall see that all valves and openings of the tank other than the necessary outlet valves are closed and locked. All spirits drawn from the tank will be carefully gauged by the warehouseman, under the supervision of the internal revenue officer, and the details thereof will be entered by the warehouseman on Form 1520, in triplicate: *Provided*, That where the warehouseman has indicated on his application, Form 2323, that the consolidated packages are to be withdrawn on the original gauge, the internal revenue officer shall, unless the packages are to be withdrawn without payment of tax for use in wine production, make such gauge and report the details thereof on Form 1520, noting on Form 1520, "Withdraw on original gauge". There shall be noted on Form 1520 the date of the original entry for deposit of the youngest spirits mingled in the tank. Weights shall be determined in pounds and one-half pounds. Where the gauge is performed and reported by the warehouseman, the internal revenue officer shall, from time to time, verify the tares, gross weights, and tax gallonages. Where the internal revenue officer finds significant discrepancies in the warehouseman's report of gauge, or in the marks and brands required to be placed on any container, the warehouseman shall make such corrections as may be required by the internal revenue officer. Where a remnant package results, because of insufficient spirits remaining in

the tank to fill the last package, such package shall be gauged and marked in the same manner as the other consolidated packages. Losses or gains of spirits resulting from the repackaging operation shall be reported by the internal revenue officer on the application, Form 2323, by indicating the difference between the total quantity in the tank prior to repackaging and the total quantity repackaged. On completion of the gauging and the preparation of the gauge report, one copy of the approved Form 2323 and one copy of the Form 1520 will be forwarded to the assistant regional commissioner by the internal revenue officer, one copy of each will be retained by the proprietor, and one copy of each will be placed in the appropriate file in the Government office.

§ 170.193 *Numbering, marking, and branding consolidated packages.* Packages of spirits mingled under this subpart shall be marked and branded in accordance with § 225.417f of this chapter, except that such packages shall be serially numbered, beginning with the number "1" preceded by the letters "CS" (Consolidated for Storage). The symbol "CS" and the number and State shall be considered a part of the serial number and must be shown on all official forms and records.

§ 170.194 *Withdrawal, bottling, and labeling of mingled spirits.* Packaged spirits which have been mingled under this subpart may be withdrawn, pursuant to the applicable provisions of Part 225 of this chapter, for any purpose for which the spirits could have been withdrawn before mingling. Distilled spirits mingled under this subpart may be bottled and labeled the same as if such spirits had not been so mingled.

§ 170.195 *Restriction on age statement.* No statement claiming or implying age in excess of that of the youngest spirits contained in spirits mingled under this subpart shall be made on any stamp or label or in any advertisement.

§ 170.196 *Monthly report.* Proprietors shall submit a monthly report on Form 2546 of mingling and consolidation operations under this subpart. The report shall be prepared in duplicate and submitted to the internal revenue officer on or before the 10th day of the month following that for which the report is submitted. All of the information called for shall be furnished in accordance with the instructions on the form or issued in respect thereto.

Because sections 206 (f) and 210 (a) (2) of the Excise Tax Technical Changes Act of 1958 (H. R. 7125—85th Congress) are effective on the date of enactment of the act, and on the day following the date of enactment of the act, respectively, it is found that it is impractical and contrary to the public interest to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) or subject to the effective date limitation of section 4 (c) of such Act. Accordingly, paragraph 1 of this Treasury decision shall be effective on the date of enactment of the Excise Tax Technical Changes Act (H. R. 7125—85th Congress) and paragraph 2 of this Treasury decision shall be effective on the day following the date of enactment of said act.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: August 26, 1958.

DAN THROOP SMITH,
Deputy to the Secretary.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Department of the Navy

Subchapter E—Claims

PART 750—NAVY GENERAL CLAIMS

SUBPART C—GENERAL PROVISIONS; INVESTIGATION AND PROCEDURE

Section 750.41 (a) (6) is revised to read, as follows:

(6) Such other officers as may be designated by the Secretary of the Navy.

Section 750.41 (b) (6) is revised to read, as follows:

(6) Such other officers as may be designated by the Secretary of the Navy.

(Sec. 6011, 70A Stat. 375; 10 U. S. C. 6011. Interprets or applies secs. 2671-2680, 62 Stat. 982-984, as amended, secs. 2671-2680, 62 Stat. 982-984, as amended, secs. 2733, 7625, 70A Stat. 153, 473; 28 U. S. C. 2671-2680; 10 U. S. C. 2733, 7625)

By direction of the Secretary of the Navy.

Dated: August 27, 1958.

[SEAL] WILFRED HEARN,
Captain, U. S. Navy, Acting Judge Advocate General of the Navy.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 92—TRANSPORTATION OF MAIL BY RAILROADS

APPLICABILITY OF COMPREHENSIVE PLAN A; RAILROADS COVERED

Effective October 1, 1958, § 92.12 *Applicability of Comprehensive Plan A; railroads covered* (23 F. R. 218) is amended to read as follows:

§ 92.12 *Applicability of Comprehensive Plan A; railroads covered.* Sections 92.1 to 92.11 shall apply to the following railroads:

Alabama Great Southern Railroad Co. (The).
Albany & Northern Railway Co.
Atchison, Topeka & Santa Fe Railway Co. (The).
Atlantic Coast Line Railroad Co.
Baltimore & Ohio Railroad Company (The).
Bangor and Aroostook Railroad Company.
Canadian National Railway Company.
Canadian National Railway Co.—Lines in Minnesota.
Canadian Pacific Railway Company.
Carolina, Clinchfield & Ohio Railway, Lessees: Atlantic Coast Line Railroad Co.; Louisville & Nashville Railroad Co.
Central of Georgia Railway Co.
Central Railroad Company of New Jersey (The).
Central Vermont Railway, Inc.
Chesapeake and Ohio Railway Co. (The).
Chicago & North Western Railway Co.
Chicago, Burlington & Quincy Railroad Co.
Chicago Great Western Railway Co.
Chicago, Milwaukee, St. Paul & Pacific Railroad Co.
Chicago, Rock Island & Pacific Railroad Co.
Cincinnati, New Orleans & Texas Pacific Railway Co. (The).
Colorado & Southern Railway Co. (The).
Delaware and Hudson R. R. Corp. (The).
Delaware, Lackawanna and Western Railroad Company (The).
Denver & Rio Grande Western Railroad Co. (The).
Duluth, Missabe & Iron Range Railway Co.
Duluth, South Shore & Atlantic Railroad Co.
Duluth, Winnipeg & Pacific Railway Co.
Erie Railroad Company.
Florida East Coast Railway Co.
Fort Worth and Denver Railway Co.
Georgia Northern Railway Co. (The).
Georgia Railroad.
Georgia Southern & Florida Railway Co.
Grand Trunk Western Railroad Company.
Great Northern Railway Co.
Gulf, Colorado & Santa Fe Railway Co.
Gulf, Mobile & Ohio Railroad Co.
Illinois Central Railroad Co.
Kansas City Southern Railway Co. (The).
Lehigh Valley Railroad Company.
Long Island Rail Road Company (The).
Louisiana & Arkansas Railroad Co.
Louisville & Nashville Railroad Co.
Minneapolis & St. Louis Railway Co. (The).
Minneapolis, St. Paul & Sault Ste. Marie Railroad Co.
Missouri-Kansas-Texas Railroad Co.
Missouri-Kansas-Texas Railroad Co. of Texas.
Missouri-Pacific Railroad Co.
New Orleans and Northeastern Railroad Co.
New York Central Railroad Company (The).
New York, Chicago and St. Louis Railroad Company (The).
New York, New Haven & Hartford Railroad Company (The).
Norfolk and Western Railway Company.

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 32]

HAVASU LAKE NATIONAL WILDLIFE REFUGE, ARIZONA AND CALIFORNIA

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to revise the description of Area No. 4 as it appears in § 32.72 of Subpart—Havasu Lake National Wildlife Refuge, Arizona and California, Chapter I, Title 50, Code of Federal Regulations, as set forth in tentative form below. The purpose of the proposed revision is to reduce the extent of Area No. 4 so as to provide additional protection to the Great Basin Canada goose of the Havasu Lake National Wildlife Refuge.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 28, 1958.

D. H. JANZEN,
Director, Bureau of Sport Fisheries and Wildlife.

Area No. 4. That part of the refuge lying south of an east-west line at the approximate location of Island-Castle Rock Area, more particularly described as an eastward extension of the line between Townships 5 and 6 North, Range 24 East, San Bernardino Meridian, and lying north of an east-west line starting approximately at the Black Meadow Wash, more particularly described as the westward extension of the line between Townships 12 North and 11 North, Range 18 West, Gila and Salt River Meridian.

[F. R. Doc. 58-7093; Filed, Sept. 3, 1958; 8:45 a. m.]

[50 CFR Part 32]

MONTE VISTA NATIONAL WILDLIFE REFUGE, COLORADO

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add §§ 32.109 and 32.110 to Subpart—Monte Vista National Wildlife Refuge, Colorado, Title 50, Code of Federal Regulations, to read as set forth in tentative form below. The purpose of this amendment is to provide for the hunting of migratory game birds, pheasants, and rabbits on certain lands of the Monte Vista National Wildlife Refuge under certain limitations and subject to compliance with the laws and regulations of the State of Colorado.

This proposed amendment relates to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U. S. C. 1003); however, it is the policy of the Department of the Interior that, wherever practicable, the rule making requirements be observed voluntarily. Accordingly, interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed amendment to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 28, 1958.

A. V. TUNISON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

§ 32.109 *Hunting of migratory game birds permitted.* Subject to compliance with the provisions of Parts 6, 18, and 21 of this chapter, the hunting of migratory game birds is permitted on the hereinafter described lands of the Monte Vista National Wildlife Refuge, Colorado, subject to the following conditions, restrictions, and requirements:

(a) *Hunting area.* The following described area is open to hunting:

Those lands of the Monte Vista National Wildlife Refuge lying east of the east line of Sec. 6, T. 37 N., R. 8 E., bounded on the north by Spring Creek, on the east by the Empire Canal, and on the south by the Resettlement Ditch; and that portion of Sec. 9, T. 37 N., R. 8 E., lying south of the Resettlement Ditch, more particularly described as those lands in Secs. 27, 28, 32, 33, and 34, T. 38 N., R. 8 E., lying south of Spring Creek and west of the Empire Canal; those lands in Secs. 2, 3, 4, 5, 8, 9, and 10, T. 37 N., R. 8 E., lying north of the Resettlement Ditch and west of the Empire Canal; and those lands in Sec. 9, T. 37 N., R. 8 E., lying south of the Resettlement Ditch.

(b) *State laws.* Strict compliance with all State laws and regulations is required.

(c) *Hunting dogs.* Hunting dogs, not to exceed two per hunter, may be used for the purpose of hunting and retrieving, but such dogs shall not be permitted to run at large on the refuge.

(d) *Boats prohibited.* The use of boats is prohibited.

(e) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for regulating the hunting.

§ 32.110 *Hunting of pheasants and rabbits permitted.* Subject to compliance with the provisions of Parts 18 and 21 of this chapter, the hunting of designated species of wild animals is permitted on a portion of the Monte Vista National Wildlife Refuge, Colorado, as follows:

(a) *Hunting area.* The hunting of pheasants and rabbits is permitted on the following described area:

Those lands of the Monte Vista National Wildlife Refuge lying east of the east line of Sec. 6, T. 37 N., R. 8 E., bounded on the north by Spring Creek, on the east by the Empire Canal, and on the south by the Resettlement Ditch; and that portion of Sec. 9, T. 37 N., R. 8 E., lying south of the Resettlement Ditch, more particularly described as those lands in Secs. 27, 28, 32, 33, and 34, T. 38 N., R. 8 E., lying south of Spring Creek and west of the Empire Canal; those lands in Secs. 2, 3, 4, 5, 8, 9, and 10, T. 37 N., R. 8 E., lying north of the Resettlement Ditch and west of the Empire Canal; and those lands in Sec. 9, T. 37 N., R. 8 E., lying south of the Resettlement Ditch.

(b) *State laws.* Strict compliance with all State laws and regulations is required and the period during which hunting is permitted shall not extend beyond the first 3 days of any annual season prescribed by the State.

(c) *Hunting dogs.* Hunting dogs, not to exceed two per hunter, may be used for the purpose of hunting and retrieving, but such dogs shall not be permitted to run at large on the refuge.

[F. R. Doc. 58-7094; Filed, Sept. 3, 1958; 8:45 a. m.]

[50 CFR Part 33]

MARK TWAIN NATIONAL WILDLIFE REFUGE, ILLINOIS, IOWA, AND MISSOURI

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 10 of the Migratory Bird Conservation Act of February 18, 1929 (45 Stat. 1224; 16 U. S. C. 715i), and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to add to Chapter I, Title 50, Code of Federal Regulations, a new subpart entitled "Mark Twain National Wildlife Refuge, Illinois, Iowa, and Missouri," and § 33.106 as set forth in tentative form below. The purpose of the proposed regulation is to permit the hunting of game birds and mammals on certain lands of the Mark Twain National Wildlife Refuge under certain limitations and subject to compliance with the laws and regulations of the respective States.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 28, 1958.

D. H. JANZEN,
Director, Bureau of Sport Fisheries and Wildlife.

SUBPART—MARK TWAIN NATIONAL WILDLIFE REFUGE, ILLINOIS, IOWA, AND MISSOURI

HUNTING

§ 33.106 *Hunting permitted.* Subject to the provisions of Parts 6, 18, and 21 of this chapter, the hunting of upland game birds, game mammals, and migratory game birds is permitted on the hereinafter described lands of the Mark Twain National Wildlife Refuge, Illinois and Iowa, subject to the following conditions, restrictions, and requirements:

(a) *Hunting area.* The following described areas are open to hunting:

STATE OF ILLINOIS

POOL 25 (CALHOUN COUNTY)

T. 12 S., R. 2 W., 4th P. M.,
Sec. 18, S½;
Sarah Ann Island and small island (Tract C–205C) lying in secs. 18 and 19.
T. 10 S., R. 3 W., 4th P. M.,
Island No. 54 and Tracts C–275B and C–275C lying in secs. 2, 11, and 12;
Secs. 13, 24, and 25 less exceptions.
T. 12 S., R. 3 W., 4th P. M.,
Turner Island and 3 small islands (Tracts C–222B and C–228), lying in sec. 1 and partly in T. 11 S., R. 3 W., sec. 36.

STATE OF IOWA

POOL 17 (LOUISA COUNTY)

T. 74 N., R. 2 W., 5th P. M.,
Turkey Island and that part of Otter Island 1,500 feet north of the centerline of Dam No. 17 in secs. 15, 16, 21, and 22.
T. 75 N., R. 2 W., 5th P. M.,
Island No. 343 lying in secs. 9, 10, 15, and 16; secs. 9 (portion of Tract IFa–73), 16 (less 300' strip along Mississippi River), 17, 20, 21, 29 (less exception along west boundary), and 32 (Tract IFa–14), and including Ramsey Island.

POOL 18 (DES MOINES AND LOUISA COUNTIES)

T. 71 N., R. 1 W., 5th P. M.,
Secs. 3 (part of Nigger Island), 10 (S½), 15, 21, 22, 27, 28, 29, 31, and 32, and including Eagle Island, Furnald Island, Long Island, Oquawka Island, and Islands IaFs–3, 9, and 10.
T. 72 N., R. 1 W., 5th P. M.,
In secs. 3, 9, 10, 15, 16, 21, 22, 23, 25, 27, and 34 the following islands: Huron, Garner, Garner No. 2, Big Cody, 359, 360 (part), Little Cody or 361, Penn, 362 (less north end), Johnson, Camp, Nigger (part), Little Nigger, IaIs–17, 18, 19, 21, 23, 26A, 30, and 37.
T. 73 N., R. 1 W., 5th P. M.,
Secs. 5, 6 (part), 8 (part), 16 (part), 21, 28 (part). In secs. 5, 6, 8, 9, 16, 21, 22, 27, 28, and 34 the following islands: Blackhawk, Horseshoe, IaIs–48 to 50, 53 to 55, 57 to 60, 62 to 70, 73, and 74.
T. 74 N., R. 1 W., 5th P. M.,
Sec. 32 (part). In secs. 31 and 32 the following islands: Brass, IaIs–70, 71.

POOL 16 (MUSCATINE COUNTY)

T. 77 N., R. 1 W., 5th P. M.,
Tracts IFa–1, 2, 3, 5; Geneva Island, part of Hog Island, 1,400 to 2,000 feet east of centerline of Dam No. 16, Long Island, Island No. 329 less exception, Goose Island; Tracts IaIs–2, 29, 50, 51, 52, 53, all lying in secs. 28, 29, 30, 31, 32, 33, 34, 35, and 36.

(b) *State laws.* Strict compliance with all applicable State laws and regulations is required.

(c) *Dogs.* Hunting dogs, not to exceed two per hunter, may be used for the purpose of retrieving dead or wounded birds, but such dogs shall not be permitted to run at large on the public shooting grounds or elsewhere on the refuge.

(d) *Boats.* The use of boats for the purpose of hunting is permitted.

(e) *Checking stations.* Hunters, upon entering or leaving the hunting area, shall report at such checking stations as may be established for the purpose of regulating the hunting.

(f) *State cooperation.* State cooperation may be enlisted in the regulation, management, and operation of the public hunting areas, and the State may promulgate such special regulations as may be necessary for these purposes. In the event such State regulations are issued, compliance therewith shall be a requisite to lawful entry for the purpose of hunting.

[50 CFR Part 33]

UPPER MISSISSIPPI RIVER WILD LIFE AND FISH REFUGE, ILLINOIS, IOWA, MINNESOTA, AND WISCONSIN

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that pursuant to the authority contained in section 6 of the Upper Mississippi River Wild Life and Fish Refuge Act (43 Stat. 650) as amended, and under authority delegated by Commissioner's Order 4 (22 F. R. 8126), it is proposed to modify the boundaries of La Crosse and Elk River closed areas described in § 33.275 of Subpart—Upper Mississippi River Wild Life and Fish Refuge, Illinois, Iowa, Minnesota, and Wisconsin, Chapter I, Title 50, Code of Federal Regulations, as set forth in tentative form below. The purpose of the proposed modification is to make minor adjustments so as to establish more logical boundaries of these closed areas. Only the areas hereinafter described are intended to be modified and all other closed areas will remain unchanged.

Interested persons may submit in duplicate written comments, suggestions, or objections with respect to the proposed regulation to the Director, Bureau of Sport Fisheries and Wildlife, Washington 25, D. C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

Dated: August 28, 1958.

A. V. TUNISON,
Acting Director, Bureau of Sport Fisheries and Wildlife.

WISCONSIN

LA CROSSE COUNTY

La Crosse closed area. All lands and waters, now or hereafter owned or controlled by the United States and administered by the U. S. Fish and Wildlife Service (excluding lands under the sole jurisdiction of the Corps of Engineers) and lying and being in secs. 1, 2, 3, 4, 10, 11, 12, 13, and 14, T. 16 N., R. 8 W.; and secs. 21, 22, 23, 25, 26, 27, 28, 29, 33, 34, 35, and 36, T. 17 N., R. 8 W., 4th P. M., La Crosse County, Wisconsin, which are enclosed by the following described boundaries: Beginning at the corner common to Tps. 16 and 17 N., Rs. 7 and 8 W., thence northerly with the line between Tps. 17 N., Rs. 7 and 8 W., to Project Boundary Pin No. 51 in the project boundary as established by the U. S. Corps of Engineers in the line between secs. 25 and 30, 928.0 feet northerly of the corner common to secs. 25, 30, 31, and 36; thence northwesterly with said project boundary through secs. 25, 26, and 23 to Project Pin No. 70, in Lot 3, sec. 23; thence southwesterly approximately 850 feet to the southeast corner of lot 7, sec. 22; thence westerly with the south boundaries of lots 7 and 6, and the N½SW¼, sec. 22, to the southeast corner of lot 4, sec. 21; thence along the south boundary of said lot 4 to where said boundary intersects the south fork of Gibbs Chute in the southeast corner of lot 3, sec. 21; thence along the southerly or left bank of the south fork of Gibbs Chute in sec. 21, T. 17 N., R. 8 W.; thence along south bank of said south fork of Gibbs Chute through secs. 21, 28, and 29 to the east or left bank of the Mississippi River; thence southerly down the east or left bank of the Mississippi River with the southwesterly boundaries of fractional secs. 29, 28, and 33, T. 17 N., R. 8 W., and secs. 4, 9, 10, 11, and 14, T. 16 N., R. 8 W., to an intersection with the southerly construction-limit boundary of the earth dike of Lock and Dam No. 7; thence easterly across secs. 14 and 13, with said construction-limit boundary approximately 400 feet normally distant south of the north boundary of said sections, approximately 8,000 feet to Project Boundary Pin No. 1 at the southeast corner of said construction limits in lot 3 of sec. 18, T. 16 N., R. 8 W.; thence N. 5°04' W., 400.3 feet to Project Boundary Pin No. 1A in the line between secs. 12 and 13; N. 7°28' W., 185.0 feet to Project Pin No. 1B; thence northwesterly across the construction area for Lock and Dam No. 7, approximately 178 feet to Project Boundary Pin No. 1C, in the project boundary as established by the U. S. Corps of Engineers; thence northerly and easterly with said Project Boundary in secs. 12 and 1 of T. 16N, R. 8 W., to Project Boundary Pin No. 18 at the north one-sixteenth corner common to sec 1, T. 16 N., R. 8 W., and sec. 6, T. 16 N., R. 7 W.; thence northerly with the line common to said sections, approximately 1,320 feet to the Place of Beginning.

IOWA

CLINTON COUNTY

Elk River closed area. All the lands and waters now or hereafter owned or controlled by the United States and administered by the U. S. Fish and Wildlife Service and lying and being in secs. 4, 5, 8, 9, 16, 17, 20, 21, and 29, T. 83 N., R. 7 E., 5th P. M., Clinton County, Iowa, which are enclosed by the following described boundaries: Beginning at the point where the south line of N½NE¼ of sec. 5 intersects the 583.0-foot contour; thence southerly with the 583.0-foot contour through secs. 5 and 8 to an intersection with the easterly right-of-way boundary of the Chicago, Milwaukee, St. Paul, and Pacific Railway between secs. 8 and 9; thence southwesterly with the Chicago, Milwaukee, St. Paul, and Pacific right-of-way boundary through secs. 9, 16, 17, and 20 to an intersection with the northeast bank of Elk River; thence southeasterly with the northeast bank of Elk River to an intersection with the westerly bank of Elk River Slough; thence northeasterly with the westerly bank of Elk River Slough in secs. 29, 20, and 21 to an intersection with the westerly or right bank of the main channel of the Mississippi River; thence northerly with the westerly bank of the Mississippi River in secs. 21, 16, 9, and 4 to the southwesterly bank of the mouth of Dark Slough; thence northwesterly with the southwesterly bank of Dark Slough in secs. 4 and 5 to the point where it intersects the south line of N½NE¼ of sec. 5, T. 83 N., R. 7 E.; thence westerly with the south line of N½NE¼ of sec. 5 to the Place of Beginning.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

SUGARCANE MOLASSES

U. S. STANDARDS FOR GRADES[1]

Notice is hereby given that the United States Department of Agriculture is considering the revision of United States Standards for Grades of Sugarcane Molasses, pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., as amended; 7 U. S. C. 1621 et seq.). These standards, if made effective will be the second issue by the Department of grade standards for this product.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards should file the same with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than March 15, 1959.

The proposed revision is as follows:

PRODUCT DESCRIPTION AND GRADES

Sec.
52.3651 Product description.
52.3652 Grades of sugarcane molasses.

FILL OF CONTAINER

52.3653 Recommended fill of container.

FACTORS OF QUALITY

52.3654 Ascertaining the grade.
52.3655 Compliance with the recommended minimum Brix solids and total sugar and the maximum ash content.
52.3656 Ascertaining the rating for the factors which are scored.
52.3657 Color.
52.3658 Flavor.
52.3659 Defects.

DEFINITIONS AND METHODS OF ANALYSIS

52.3660 Color of sugarcane molasses.
52.3661 Application of U. S. D. A. permanent glass color standards in classifying the color of sugarcane molasses.
52.3662 Brix solids.
52.3663 Ash.
52.3664 Sulfur dioxide, p. p. m.
52.3665 Reducing sugars.
52.3666 Sucrose.
52.3667 Total sugar.
52.3668 Methods of analysis.

LOT INSPECTION AND CERTIFICATION

52.3669 Ascertaining the grade of a lot.

SCORE SHEET

52.3670 Score sheet for sugarcane molasses.

AUTHORITY: §§ 52.3651 to 52.3670 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

PRODUCT DESCRIPTION AND GRADES

§ 52.3651 *Product description.* (a) Sugarcane molasses is the clean, sound, liquid product obtained by evaporating the juice of sugarcane and the removal of all or any part of the commercially crystallizable sugar.

§ 52.3652 *Grades of sugarcane molasses.* (a) "U. S. Grade A" (or "U. S. Fancy") is the quality of sugarcane molasses that possesses a good color; that possesses a good flavor; that is practically free from defects; and that scores not less than 90 points when rated in accordance with the scoring system outlined in this subpart.

(b) "U. S. Grade B" (or "U. S. Choice") is the quality of sugarcane molasses that possesses a reasonably good color; that possesses a reasonably good flavor; that is reasonably free from defects; and that scores not less than 80 points when rated in accordance with the scoring system outlined in this subpart.

(c) "U. S. Grade C" (or "U. S. Standard") is the quality of sugarcane molasses that possesses a fairly good color; that possesses a fairly good flavor; that is fairly free from defects; and that scores not less than 70 points when rated in accordance with the scoring system outlined in this subpart.

(d) "Substandard" is the quality of sugarcane molasses that fails to meet the requirements of U. S. Grade C.

FILL OF CONTAINER

§ 52.3653 *Recommended fill of container.* The recommended fill of container is not incorporated in the grades of the product since fill of container, as such, is not a factor of quality for the purpose of the grades in this subpart. It is recommended that each container be filled with molasses as full as practicable.

FACTORS OF QUALITY

§ 52.3654 *Ascertaining the grade*—(a) *General.* In addition to considering other requirements outlined in the standards, the following quality factors are evaluated in ascertaining the grade of the product:

(1) Factors not rated by score points:
(i) Brix solids.
(ii) Total sugar.
(iii) Ash.
(iv) Total sulfites.

(2) Factors rated by score points: The relative importahce of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given each such factor is:

Factors:	Points
Color	40
Flavor	40
Defects	20
Total score	100

(3) The recommended minimum Brix solids and total sugar and the recommended maximum ash content and total sulfites for the respective grade of sugarcane molasses are given in Table No. 1 of this subpart.

TABLE NO. 1—RECOMMENDED MINIMUM BRIX SOLIDS AND TOTAL SUGAR AND MAXIMUM ASH AND TOTAL SULFITES

Grade designation	Brix solids	Total sugar	Ash	Total sulfites
	Percent	*Percent*	*Percent*	*p. p. m.*
U. S. Grade A	79	68.5	5.00	200
U. S. Grade B	79	61.5	7.00	250
U. S. Grade C	79	58.0	9.00	350
Substandard			Over 9.00	Over 350

§ 52.3655 *Compliance with the recommended minimum Brix solids and total sugar and the maximum ash content.* Compliance with the recommended minimum Brix solids and total sugar and the maximum ash content is determined by averaging the results of the respective determination for all of the containers which are representative of a specific lot. Such lot is considered as meeting the recommendations if:

(a) The average of the respective Brix, sugar, and ash values of all the containers meet the recommendations in Table No. 1 of this subpart for the respective grade;

(b) None of the containers has a Brix or sugar value less than the lower limits nor an ash value more than the upper limits indicated in Table No. 2 of this subpart; and

(c) The number of containers falling within the applicable range indicated in Table No. 2 of this subpart for Brix, sugar, or ash values does not exceed the number of deviants allowable in ascertaining the grade of a lot.

TABLE NO. 2—BRIX SOLIDS, TOTAL SUGAR, AND ASH RANGE

Grade designation	Brix solids	Total sugar	Ash
	(Percent)	*(Percent)*	*(Percent)*
U. S. Grade A.	Less than 79 but not less than 78.5.	Less than 68.5 but not less than 68.0.	More than 5.00 but not more than 5.25.
U. S. Grade B.	...do.....	Less than 61.5 but not less than 61.0.	More than 7.00 but not more than 7.25.
U. S. Grade C.	...do.....	Less than 58.0 but not less than 57.0.	More than 9.00 but not more than 10.0.

§ 52.3656 *Ascertaining the rating for the factors which are scored.* The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.3657 *Color*—(a) *General.* Color has reference to the color of sugarcane molasses when examined by means of the U. S. D. A. permanent glass color standards for sugarcane molasses. Information regarding these color standards may be obtained by writing to the Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, U. S. Department of Agriculture, Washington 25, D. C.

(b) *(A) classification.* Sugarcane molasses that possesses a good color may be given a score of 36 to 40 points. "Good

color" means that the color is bright and typical of molasses properly prepared and processed from sound, well matured sugarcane, and is equal to or lighter in color than U. S. D. A. permanent glass color standard No. 1 for sugarcane molasses.

(c) (*B*) *classification.* If the sugarcane molasses possesses a reasonably good color, a score of 32 to 35 points may be given. Sugarcane molasses that falls into this classification shall not be graded above U. S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the color is reasonably bright and is equal to or lighter in color than U. S. D. A. permanent glass color standard No. 2 for sugarcane molasses.

(d) (*C*) *classification.* Sugarcane molasses that possesses a fairly good color may be given a score of 28 to 31 points. Sugarcane molasses that falls into this classification shall not be graded above U. S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the color is equal to or lighter in color than U. S. D. A. permanent glass color standard No. 3 for sugarcane molasses.

(e) (*SStd.*) *classification.* Sugarcane molasses that fails to meet the requirements of paragraph (d) of this section may be given a score of 0 to 27 points and shall not be graded above substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.3658 *Flavor*—(a) *General.* The factor of flavor refers to the palatability of the sugarcane molasses.

(b) (*A*) *classification.* Sugarcane molasses that possesses a good flavor may be given a score of 36 to 40 points. "Good flavor" means that the product possesses a good, characteristic flavor and is free from objectionable flavors, including but not limited to objectionable flavors caused by scorching or fermentation or the presence of any foreign or disagreeable flavor or odor.

(c) (*B*) *classification.* If the sugarcane molasses possesses a reasonably good flavor, a score of 32 to 35 points may be given. Sugarcane molasses that falls into this classification shall not be graded above U. S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good flavor" means that the product possesses a reasonably good, characteristic flavor and is free from objectionable flavors, including but not limited to objectionable flavors caused by scorching or fermentation or by the presence of any foreign or disagreeable flavor or odor.

(d) (*C*) *classification.* Sugarcane molasses that possesses a fairly good flavor may be given a score of 28 to 31 points. Sugarcane molasses that falls into this classification shall not be graded above U. S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly good flavor" means that the product possesses a fairly good flavor and is free from objectionable flavors, including but not limited to objectionable flavors caused by scorching or fermentation or the presence of any foreign or disagreeable flavor or odor.

(e) (*SStd.*) *classification.* Sugarcane molasses that fails to meet the requirements of paragraph (d) of this section may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.3659 *Defects*—(a) *General.* Defects refers to the cleanliness of the product and the degree of freedom from harmless extraneous material.

(b) (*A*) *classification.* Sugarcane molasses that is practically free from defects may be given a score of 18 to 20 points. "Practically free from defects" means that the appearance and edibility of the product are not affected by the presence of harmless extraneous material which may be in suspension or deposited as sediment in the container.

(c) (*B*) *classification.* If the sugarcane molasses is reasonably free from defects, a score of 16 or 17 points may be given. Sugarcane molasses that falls into this classification shall not be graded above U. S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that the appearance and edibility of the product are not materially affected by the presence of harmless extraneous material which may be in suspension or deposited as sediment in the container.

(d) (*C*) *classification.* Sugarcane molasses that is fairly free from defects may be given a score of 14 or 15 points. Sugarcane molasses that falls into this classification shall not be graded above U. S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that the appearance and edibility of the product are not seriously affected by the presence of harmless extraneous material which may be in suspension or deposited as sediment in the container.

(e) (*SStd.*) *classification.* Sugarcane molasses that fails to meet the requirements of paragraph (d) of this section may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

DEFINITIONS AND METHODS OF ANALYSIS

§ 52.3660 *Color of sugarcane molasses.* (a) The color classification of sugarcane molasses is determined by means of the U. S. D. A. permanent glass color standards for sugarcane molasses as outlined in this subpart.

(b) Partially crystallized sugarcane molasses is liquefied by heating to approximately 54.4° C. (130° F.) and cooled to approximately 20° C. (68° F.) before ascertaining the color of the molasses by means of the U. S. D. A. permanent glass color standards for sugarcane molasses.

§ 52.3661 *Application of U. S. D. A. permanent glass color standards in classifying the color of sugarcane molasses.*—(a) *Sample containers.* The sample containers for use in making the visual color determination, as set forth in this subpart, are cells of colorless optical glass or plastic having an internal width of 0.100 inch with outside dimensions of approximately $1\frac{7}{16}$ inches by $3\frac{1}{2}$ inches.

(b) *Comparator; viewing box.* The comparator or viewing box for the entire color range in the visual comparison test is divided into five compartments. Each compartment is provided with openings approximately $1\frac{3}{16}$ inches square in the two parallel sides. The U. S. D. A. permanent glass color standards are mounted in a fixed position in the front openings of compartments 1, 3, and 5 of the comparator, compartments 2 and 4 being adapted to receive the sample containers.

(c) *Cloudy suspensions.* Three cloudy suspensions are required. These are referred to as "Cloudy A," "Cloudy B," and "Cloudy C," corresponding to varying degrees of cloudiness in sugarcane molasses. The cloudy suspensions are contained in capped square bottles of colorless, transparent glass having an internal width at the center of 3.15 centimeters (1.24 inches), with outside base dimensions of approximately $1\frac{7}{16}$ inches by $1\frac{7}{16}$ inches, having a capacity of two fluid ounces.

(d) *Visual comparison test.* The color of a sample of sugarcane molasses is compared with the U. S. D. A. permanent glass color standards in the following manner to determine its color classification:

(1) Place the sample of sugarcane molasses in a clean, dry sample container.

(2) Place the container filled with the sample successively in compartments 2 and 4 of the comparator and visually compare the color of the sample with that of each of the glass color standards by looking through them at a diffuse source of natural or artificial daylight.

(3) If the sample is appreciably cloudy in appearance, place a suspension of comparable cloudiness (cloudy A, cloudy B, or cloudy C) behind the permanent glass color standard to facilitate color classification.

§ 52.3662 *Brix solids.* Brix solids means the solids content of sugarcane molasses or the Brix value as determined by the double dilution method by means of a Brix hydrometer corrected to 20° C. (68° F.).

§ 52.3663 *Ash.* Percent ash means the ash content of sugarcane molasses determined as sulfated ash as outlined in the Official Methods of Analysis of the Association of Official Agricultural Chemists.

§ 52.3664 *Sulfur dioxide, p. p. m.* Sulfur dioxide, p. p. m., means the total sulfites determined by the Monier-Williams method calculated as parts per million of sulfur dioxide (SO_2).

§ 52.3665 *Reducing sugars.* The percent of reducing sugars is determined by the Lane-Eynon volumetric method for reducing sugars.

§ 52.3666 *Sucrose.* The percent of sucrose is determined by the Clerget or double polarization method, using invertase as the inverting agent.

§ 52.3667 *Total sugar.* The percent of total sugar is the sum of the percent of reducing sugars and the percent of sucrose.

§ 52.3668 *Methods of analysis.* The analyses indicated in this subpart shall be made in accordance with methods of analysis given in Official Methods of Analysis of the Association of Official Agricultural Chemists or by any other means which give equivalent results.

LOT INSPECTION AND CERTIFICATION

§ 52.3669 *Ascertaining the grade of a lot.* The grade of a lot of sugarcane molasses covered by the standards in this subpart is determined by the procedures set forth in the regulations governing inspection and certification of processed fruits and vegetables and processed products thereof and certain other processed products (§§ 52.1 to 52.87; 22 F. R. 3535).

HANDLING OF MILK IN SOUTHEASTERN NEW ENGLAND MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to a proposed marketing agreement and order regulating the handling of milk in the Southeastern New England marketing area, which was issued August 15, 1958 (23 F. R. 6465; F. R. Doc. 58-6755), is hereby further extended to September 19, 1958.

Dated: August 29, 1958.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

[7 CFR Part 728]

WHEAT MARKETING QUOTA REGULATIONS

NOTICE OF PROPOSED RULE MAKING

Pursuant to the authority contained in applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1335, 1373, 1375), the Secretary of Agriculture is preparing to amend regulations governing the provision in the wheat marketing quota regulations relative to § 728.879 (b). It is proposed that for the 1959 and subsequent crops that with respect to storage of farm marketing excess, the substitution of any stored excess wheat of a previous crop by wheat of a current crop will not be permitted.

Prior to issuing the regulations, consideration will be given to data, views and recommendations pertaining thereto which are submitted to the Director, Grain Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C. All written submissions must be postmarked not later than thirty days after the date of publication of this notice in the FEDERAL REGISTER.

Issued at Washington, D. C., this 28th day of August, 1958.

[SEAL] CLARENCE L. MILLER,
Acting Administrator.

[F. R. Doc. 58-7144; Filed, Sept. 3, 1958; 8:55 a. m.]

[7 CFR Part 730]

RICE

NOTICE OF FORMULATION OF PRODUCER AND FARM ACREAGE ALLOTMENT REGULATIONS FOR 1959 AND SUBSEQUENT CROP YEARS

Pursuant to the authority contained in the applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301, 1352, 1353, 1354, 1377), the Secretary is preparing to formulate and issue regulations for the establishment of producer and farm acreage allotments for the 1959 and subsequent crops of rice.

It is expected that the regulations referred to herein will be issued on a continuing basis and will be substantially the same as the regulations pertaining to producer and farm acreage allotments and normal yields for the 1958 crop of rice (22 F. R. 8477), and amendments thereto, except (1) changes which are necessary for further clarification; (2) omission of provisions for establishing normal yields, which are included in the rice marketing quota regulations for 1958 and subsequent crop years (23 F. R. 2897); and (3) changes which are necessary to incorporate the provisions of Public Law 85-443, approved June 4, 1958, which provides that the Secretary may determine that a State may be divided into two administrative areas to be designated "producer administrative area" and "farm administrative area," respectively, which areas shall be separated by a natural barrier which would prevent each from being readily accessible to rice producers in one area for producing rice in the other area, and each such area shall be composed of whole counties. The law provides that the part of the State acreage allotment apportioned to the producer administrative area shall be apportioned on the basis of the past production of rice by producers, and county allotments in the farm producer area shall be apportioned on the basis of the past production of rice on farms.

Because of the interest engendered as a result of the enactment of Public Law 85-443, a hearing will be conducted beginning promptly at 10:30 a. m. on September 18, 1958, in the Agricultural Auditorium, Rapides County (Parish) Courthouse, on Murray Street, in Alexandria, Louisiana, in order that interested persons may have an opportunity to express their views on the establishment of administrative areas within the State of Louisiana, and on any change in the regulations for establishing allotments for the 1958 crop of rice which may be necessary or desirable in the event administrative areas are established for 1959 in the State.

Prior to the issuance of the regulations referred to herein, and in addition to views expressed at the hearing, any data, views, or recommendations pertaining thereto which are submitted in writing to the Director, Grain Division, Commodity Stabilization Service, United States Department of Agriculture, Washington 25, D. C., will be given consideration, provided that such submissions are postmarked not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Issued this 28th day of August 1958.

[SEAL] CLARENCE L. MILLER,
Acting Administrator.

Social Security Administration

PAYMENT OF OLD-AGE, SURVIVOR, AND DISABILITY INSURANCE BENEFITS

TREATY OBLIGATIONS OF UNITED STATES

Section 202 (t) (1) of the Social Security Act (42 U. S. C. 402 (t) (1)) provides that, notwithstanding any other provision of title II of the act, no monthly benefits shall be paid under said title to any individual not a citizen or national of the United States for any month after the sixth consecutive month during all of which the Secretary of Health, Education, and Welfare, finds such individual is outside the United States and prior to the first month thereafter for all of which such individual has been in the United States.

Section 202 (t) (3) of the Act (42 U. S. C. 402 (t) (3)) provides that section 202 (t) (1) shall not apply in any case in which its application would be contrary to any treaty obligation of the United States in effect on August 1, 1956.

Pursuant to authority duly vested in him by the Secretary of Health, Education, and Welfare, the Commissioner of Social Security has considered treaties entered into between the United States and foreign countries together with information presented by the Department of State with respect to such treaties; and on the basis of such treaties and information the Commissioner of Social Security hereby finds and determines as follows:

1. That the Treaties of Friendship, Commerce, and Navigation now in force between the United States, on the one hand, and the Federal Republic of Germany, Greece, the Republic of Ireland, Israel, Italy, Japan, and Nicaragua, respectively, on the other, created treaty obligations in effect on August 1, 1956, precluding the application of section 202 (t) (1) of the Act to citizens of such countries;

2. That the Treaty of Friendship, Commerce, and Navigation now in force between the United States and the Kingdom of the Netherlands created treaty obligations in effect on August 1, 1956, precluding the application of section 202 (t) (1) of the Act to citizens of such country with respect to survivors benefits only;

3. That there was no treaty obligation in effect on August 1, 1956, that would preclude the application of section 202 (t) (1) of the Act to citizens of any country other than those listed above.

[SEAL] W. L. MITCHELL,
Acting Commissioner of Social Security.

Approved: August 26, 1958.

ARTHUR S. FLEMMING,
Secretary of Health, Education, and Welfare.

DIRECTOR OF THE FEDERAL BUREAU OF INVESTIGATION AND COMMISSIONER OF IMMIGRATION AND NATURALIZATION

DELEGATION OF AUTHORITY TO MAKE CERTAIN CERTIFICATES

By virtue of the authority vested in me by section 2 of Reorganization Plan No. 2 of 1950 (64 Stat. 1261; 3 CFR, 1950 Supp., p. 164), I hereby delegate to the Director of the Federal Bureau of Investigation and the Commissioner of Immigration and Naturalization the authority vested in the Attorney General by sections 5 and 6, respectively, of the act of July 28, 1950, 64 Stat. 380 (5 U. S. C. 341c and 341d), to make certificates with respect to expenses of unforeseen emergencies of a confidential character: *Provided*, That each such certificate made by the Director of the Federal Bureau of Investigation or by the Commissioner of Immigration and Naturalization shall be approved by the Attorney General.

Dated: August 25, 1958.

WILLIAM P. ROGERS,
Attorney General.

POST OFFICE DEPARTMENT

ORGANIZATION AND ADMINISTRATION

MISCELLANEOUS AMENDMENTS

Federal Register Document 58-4353, appearing on pages 4010 to 4018, inclusive, of the issue for June 7, 1958, as amended (23 F. R. 5278-5281), is further amended as follows:

a. Amend section 821.7, Judicial Officer, to read as follows:

821.7—JUDICIAL OFFICER

1. Amend section 821.7, Judicial Officer, the Postmaster General, who acts for the Postmaster General in the performance of quasi-judicial functions having delegated authority from the Postmaster General to—

(1) Execute final departmental decisions and orders in administrative proceedings arising from alleged violation of postal laws and disputes over second-class permits conducted in accordance with the rules of practice and procedures of the Department; and modify, suspend, or rescind any action heretofore taken or hereafter taken pursuant to a delegation of authority.

(2) Preside at the reception of evidence in proceedings where expedited hearings are requested by either party or provided in Rules of Practice.

(3) Revise or amend the Post Office Department Rules of Practice for administrative hearings.

b. Decisions and orders of the Judicial Officer made under the delegated authority are the final departmental action from which there is no further administrative remedy or appeal. The Judicial Officer does not supervise or exercise control over any officer, employee or organization in the Post Office Department except as provided in 821.7 (c). He is responsible only to the Postmaster General and the Deputy Postmaster General. The Office of the General Counsel and the Bureau of the Chief Postal Inspector do not participate in or advise as to the decisions of the Judicial Officer in any proceeding. The Judicial Officer may refer any proceeding to either the Postmaster General or the Deputy Postmaster General for final decision.

c. Exercises administrative supervision over the Division of Hearing Examiners and the Docket Clerk but does not direct or participate in the Initial Decision of the Hearing Examiner in any proceeding.

2. Amend section 821.8, Division of Hearing Examiners, to read as follows:

821.8—DIVISION OF HEARING EXAMINERS

a. Hearing examiners are appointed and qualified in the manner prescribed by law (5 U. S. C. 1010). They preside at administrative hearings in cases involving alleged violations of postal laws or conflicts arising over second-class mail permits.

b. Examiners prepare initial decisions in those cases which become final departmental decisions, unless an appeal is taken to the Judicial Officer.

c. The Division of Hearing Examiners and the Docket Clerk are under the jurisdiction of the Judicial Officer for administrative supervision in the same manner as are Hearing Examiners assigned to independent regulatory commissions.

3. Amend paragraph a of section 822.2, General Counsel, to read as follows:

a. Serves as legal adviser to the Postmaster General, the Deputy Postmaster General, and the entire Postal Establishment with respect to legal interpretations and opinions; drafting or approving legal documents; and conduct of administrative hearings before regulatory agencies of the Federal Government and court proceedings on behalf of the Department. He does not advise or consult with the Judicial Officer or the Hearing Examiners with respect to their performance of the duties and functions assigned to them under sections 821.7 and 821.8 except in the disposition of ex parte matters as authorized by law, nor does he participate in the decisions of the Judicial Officer or Hearing Examiners.

(R. S. 161, as amended, 396, as amended; sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 133z-15, 369)

LEO G. KNOLL,
Acting General Counsel.

The foregoing amendments to the Department's Organization are hereby adopted.

[SEAL] E. O. SESSIONS,
Acting Postmaster General.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

MISSOURI

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a-2 (a)), as amended, it has been determined that in the following counties in the State of Missouri a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

MISSOURI

Caldwell.	Livingston.
Camden.	Miller.
Charlton.	Montgomery.
Cedar.	Ralls.
Cole.	Randolph.
Dade.	St. Clair.
Linn.	Vernon.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after June 30, 1959, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 29th day of August 1958.

[SEAL] TRUE D. MORSE,
Acting Secretary.

FEDERAL HIGHWAY ADMINISTRATOR

AMENDED DELEGATION OF AUTHORITY WITH RESPECT TO NEGOTIATION OF CERTAIN CONTRACTS FOR SERVICES IN CONNECTION WITH BUREAU OF PUBLIC ROADS PROGRAMS

This material supersedes the materials on the same subject dated September 27, 1957 (22 F. R. 8071 of October 10, 1957) and October 9, 1956 (21 F. R. 8090 of October 20, 1956).

Pursuant to the authority vested in the Secretary of Commerce by Reorganization Plan No. 5 of 1950 and in accordance with delegations from the Administrator, General Services Administration to the Secretary of Commerce, on the above subject, the Federal Highway Administrator is hereby authorized to negotiate, without advertising, under sections 302 (c) (4) and (9) of the Federal Property and Administrative Services Act of 1949, as amended, contracts for professional engineering and accounting services and contracts with qualified individuals, or firms, for appraisal services deemed necessary by the Bureau of Public Roads in the administration of the accelerated highway program.

The authority delegated herein, which expires at the close of business on June 30, 1959, shall be exercised in accordance with applicable limitations and requirements of the Federal Property and Administrative Services Act of 1949, as amended, particularly Sections 304 and 307 thereof, and in accordance with policies, procedures and controls prescribed by the General Services Administration.

The authority delegated herein may be redelegated to such officers or employees as the Federal Highway Administrator may deem necessary.

Dated: August 26, 1958.

WALTER WILLIAMS,
Acting Secretary of Commerce.

FEDERAL POWER COMMISSION

[Docket No. G-3632 etc.]

KIRBY PETROLEUM CO. AND CONTINENTAL OIL CO.

NOTICE OF APPLICATIONS FOR CERTIFICATES OF PUBLIC CONVENIENCE AND NECESSITY, APPLICATIONS TO ABANDON SERVICE, AND DATE OF HEARING

AUGUST 28, 1958.

In the matters of Kirby Petroleum Company, Docket No. G-3632; Continental Oil Company, Docket Nos. G-6589 and G-8657.

Take notice that each of the above designated parties has filed applications for certificates of public convenience and necessity, and/or applications to abandon service pursuant to section 7 of the Natural Gas Act, authorizing the sale of natural gas or abandonment of service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open to public inspection.

Kirby Petroleum Company (Kirby) filed on September 29, 1954, an application in Docket No. G-3632 for a certificate of public convenience and necessity authorizing the continued sale of natural gas in interstate commerce for resale. The gas was produced from the Mary Hoffman lease in the Hope Field, Lavaca County, Texas and the gas produced was being sold to Tennessee Gas Transmission Company on June 7, 1954. Subsequently, by instrument executed on December 20, 1954, Kirby transferred the properties involved to Continental Oil Company (Continental), who took physical possession of said properties on January 1, 1955 subject to the existing sales contract.

Thereafter, on March 31, 1955, Continental Oil Company filed its application in Docket No. G-8657 for a certificate of public convenience and necessity authorizing Continental to make the sale formerly made by Kirby as described above. Continental adopted Kirby Petroleum Company's FPC Gas Rate Schedule No. 1 as its own, the Commission designating it as Continental Oil Company FPC Gas Rate Schedule No. 121. On October 29, 1956, Continental filed an amendment to its application requesting authority to abandon the service described above, reciting that the one well on the property involved was no longer capable of producing into the pipe line, that no other formation appeared productive and that on August 6, 1956 the well had been plugged and abandoned. Continental interpreted the lease as having expired by virtue of these circumstances.

On October 29, 1956 Continental also filed a notice of termination of its related Rate Schedule No. 121. By letter sent July 30, 1957, Continental was advised that said notice of termination was accepted for filing to be effective upon the date of issuance of abandonment authorization.

On November 30, 1954, Continental filed its application in Docket No. G-6589 for a certificate of public convenience and necessity authorizing the continued sale in interstate commerce for resale of natural gas produced from the Arcadia Guerro, et al., and the Richard King, et al., leases in the Los Indos Field, Hidalgo County, Texas, to Tennessee Gas Transmission Company. Thereafter, on September 15, 1955 Continental filed an amendment to its application requesting authority to abandon this service, reciting that all present producing wells had been plugged and abandoned, no further production was anticipated and that Continental interpreted the leases as having expired by virtue of these circumstances. On September 22, 1955 Continental filed its notice of termination for its related Continental Oil Company FPC Gas Rate Schedule No. 1, which covered such sale of gas from the two leases. By letter sent October 17, 1955, Continental was advised that said notice of termination was accepted for filing to be effective upon the date of issuance of abandonment authorization.

These related matters should be heard on a consolidated record and disposed of as rapidly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 23, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket No. G-6260]

EDWIN M. JONES OIL CO.

NOTICE OF HEARING

AUGUST 28, 1958.

In the matter of Henrietta Yerger Jones, d/b/a Edwin M. Jones Oil Company, Docket No. G-6260.

By notice dated March 2, 1955, the hearing in the above-designated matter was postponed without date, subject to further notice.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure thereunder, a hearing will be held on September 26, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C. concerning the matters involved in and the issues presented by the application in Docket No. G-6260.

Secretary.

[F. R. Doc. 58-7133; Filed, Sept. 3, 1958; 8:53 a. m.]

[Docket No. G-14230]

CONTINENTAL OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 28, 1958.

Take notice that Continental Oil Company (Applicant), filed an application on January 10, 1958 pursuant to section 7 (b) of the Natural Gas Act for permission and approval to abandon natural gas service, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant seeks permission and approval to abandon the sale of natural gas to Texas Gas Pipeline Corporation (Texas Gas), from Applicant's East Beaumont Townsite Company lease, located in the North Port Neches Field, Orange County, Texas, which sale was previously authorized on January 28, 1957, in Docket No. G-8601.

Applicant states that the only well on its subject lease was shut-in on November 23, 1956, due to salt water encroachment; that no economic recompletion possibilities were evident and abandonment procedures were completed August 19, 1957 and that it surrendered the lease by a release dated August 28, 1957.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-15292]

MISSISSIPPI RIVER FUEL CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 28, 1958.

Take notice that Mississippi River Fuel Corporation (Applicant), filed an application on June 13, 1958, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the sale of natural gas in interstate commerce as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority to sell natural gas in interstate commerce to Panhandle Eastern Pipeline Company, for resale from production in the Lerado Field, Reno County, Kansas, pursuant to a gas sales contract dated April 28, 1958.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-14842]

SUPERIOR OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 28, 1958.

In the matter of Superior Oil Company (by Operator, Pan American Petroleum Corporation), Docket No. G-14842.

Take notice that Pan American Petroleum Corporation (Operator) (Pan American), filed an application on April 7, 1958, on behalf of Superior Oil Company (non-operator), (Superior), for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the sale of natural gas in interstate commerce as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

By the application filed herein, Superior seeks authority to sell natural gas in interstate commerce to United Fuel Gas Company for resale from production of its interests in the Shallow Sands Gas Unit, South Pecan Lake Field, Cameron Parish, Louisiana, pursuant to a letter agreement dated December 28, 1956, to which it is a signatory party, dedicating its gas to a basic contract dated May 27, 1952, as amended, between Pan American, seller and United Fuel Gas Company, buyer.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

Secretary.

[F. R. Doc. 58-7136; Filed, Sept. 3, 1958; 8:54 a. m.]

[Docket No. G-13460]

ANDERSON-PRITCHARD OIL CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 28, 1958.

Take notice that Anderson-Pritchard Oil Corporation (Operator) (Applicant) filed an application on October 16, 1957, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the sale of natural gas in interstate commerce, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority to sell natural gas in interstate commerce to

Southern Union Gathering Company (Gathering Company) produced from its Sadie West #1 well in Blanco-Mesaverde Field, San Juan County, New Mexico.

Applicant's interest in the gas produced from the subject well will be sold pursuant to a gas sales contract dated September 9, 1957, executed by and between Southern Union Gas Company (Gas Company) and Applicant. By instrument executed November 5, 1957 by Gas Company, it assigned the September 9, 1957 contract to Gathering Company.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure hereinprovided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-16032 etc.]

JESSE M. BROOKS ET AL.

ORDER FOR HEARINGS, SUSPENDING PROPOSED CHANGES IN RATES, AND ALLOWING INCREASED RATES TO BECOME EFFECTIVE

AUGUST 27, 1958.

In the matters of Jesse M. Brooks, et al., Docket No. G-16032; R. S. Barnwell, Jr. (Operator), Docket No. G-16037; J. C. Trahan (Operator), et al., Docket No. G-16038; J. S. Rushing, Docket No. G-16045; M. P. O'Meara, et al., Docket No. G-16046; Max Pray (Operator), et al., Docket No. G-16056; H. S. Cole, Jr., et al., Docket No. G-16063.

The proposed changes hereinafter designated, which constitute increases of the rates and charges in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission, have been tendered for filing by the persons named above (Respondents). The effective date of the suspensions shall be August 1, 1958 (effective date is the date proposed by Respondents).

On July 31, 1958, Jesse M. Brooks, et al. tendered a Notice of Change, dated July 29, 1958, which was designated as Supplement No. 1 to Brooks' FPC Gas Rate Schedule No. 1. Arkansas Louisiana Gas Company is the purchaser under the schedule.

On July 31, 1958, R. S. Barnwell, Jr. (Operator) tendered a Notice of Change, dated July 29, 1958, which was designated as Supplement No. 2 to Barnwell's FPC Gas Rate Schedule No. 1. Arkansas Louisiana Gas Company is the purchaser under the schedule.

On July 31, 1958, J. C. Trahan (Operator), et al. tendered an undated Notice of Change which was designated as Supplement No. 4 to Trahan's FPC Gas Rate Schedule No. 3. Arkansas Louisiana Gas Company is the purchaser under the schedule.

On July 31, 1958, J. S. Rushing tendered an undated Notice of Change which was designated as Supplement No. 4 to Rushing's FPC Gas Rate Schedule No. 1. Arkansas Louisiana Gas Company is the purchaser under the schedule.

On July 31, 1958, M. P. O'Meara et al. tendered a Notice of Change, dated July 29, 1958, which was designated as Supplement No. 1 to O'Meara's FPC Gas Rate Schedule No. 2. Southern Natural Gas Company is the purchaser under the schedule.

On August 1, 1958, Max Pray (Operator), et al. tendered a Notice of Change, dated July 31, 1958, which was designated as Supplement No. 1 to Pray's FPC Gas Rate Schedule No. 1. Southern Natural Gas Company is the purchaser under the schedule.

On July 29, 1958, H. S. Cole, Jr., et al. tendered an undated Notice of Change, which was designated as Supplement No. 3 to Cole's FPC Gas Rate Schedule, No. 3. Texas Gas Transmission Corporation is the purchaser under the schedule.

The increased rates and charges proposed in each said Notice of Change are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill 303), as approved on July 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refunds in the event of said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rates and charges until August 2, 1958, and thereafter to permit them to become effective as of that date; provided, that within 20 days from the date of this order each Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refunds as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of each of the said proposed changes, and that the supplements herein designated be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rates be made effective as hereinafter provided and that each Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in each of the supplements to Respondents' FPC Gas Rate Schedules as herein designated.

(B) Pending such hearings and decisions thereon, each of said supplements be and each is hereby suspended and the use thereof deferred until August 2, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in each of the aforementioned supplements to Respondents' FPC Gas Rate Schedules shall be effective as of August 2, 1958: *Provided, however,* That within 20 days from the date of this order, each Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Each Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rates and charges and the proposed increased rates and charges hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondents herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts and in such manner as may be required by final order of the Commission. Respondents shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondents so elect, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the dates upon which the increased rates allowed by this order become effective, and under the rates allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, each Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of _____ to Comply with the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued _____, in Docket No. G-_____, hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and for said purpose has executed this agreement and undertaking this _____ day of _____

_____

Witness: By _____

_____

Unless a Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, his agreement and undertaking shall be deemed to have been accepted.

(F) Each Respondent who, in conformity with the terms and conditions of paragraph (D) of this order, makes such refunds as may be required by order of the Commission, shall be discharged of his undertaking; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspenison have expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL, *Acting Secretary.*

[F. R. Doc. 58-7098; Filed, Sept. 3, 1958; 8:46 a. m.]

[Docket No. G-16040 etc.]

M. ASCHER ET AL.

ORDER FOR HEARINGS, SUSPENDING PROPOSED CHANGES IN RATES, AND ALLOWING INCREASED RATES TO BECOME EFFECTIVE

AUGUST 27, 1958.

In the matters of M. Ascher, Docket No. G-16040; Sunray Mid-Continent Oil Company (Operator), et al., Docket No. G-16041; Rycade Oil Corporation, Docket No. G-16047; Austin E. Stewart, et al., Docket No. G-16048.

The proposed changes hereinafter designated, which constitute increases of the rates and charges in presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission, were tendered for filing on August 4, 1958, by the persons named above (Respondents). The effective date of the suspensions shall be September 4, 1958 (effective date is the first day after expiration of the required thirty days' notice).

Respondent: M. Ascher.
Description: Notice of Change, dated August 1, 1958.
Purchaser: Hassie Hunt Trust.
Rate schedule designation: Supplement No. 4 to Ascher's FPC Gas Rate Schedule No. 4.

Respondent: Sunray Mid-Continent Oil Company (Operator), et al.
Description: Notice of Change, dated July 29, 1958.
Purchaser; Arkansas Louisiana Gas Company.
Rate schedule designation: Supplement No. 4 to Sunray's FPC Gas Rate Schedule No. 46.

Respondent: Rycade Oil Corporation.
Description: Notice of Change, undated.
Purchaser: United Gas Pipe Line Company.
Rate schedule designation: Supplement No. 1 to Rycade's FPC Gas Rate Schedule No. 1.

Respondent: Austin E. Stewart, et al.
Description: Notice of Change, undated.
Purchaser: Arkansas Louisiana Gas Company.
Rate schedule designation: Supplement No. 5 to Stewart's FPC Gas Rate Schedule No. 2.

The increased rates and charges proposed are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refunds in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rates and charges until September 5, 1958, and thereafter to permit them to become effective as of that date: *Provided,* That within 20 days from the date of this order each Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon hearings concerning the lawfulness of each of the said proposed changes, and that the supplements herein designated be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondents' proposed increased rates be made effective as hereinafter provided and that each Respondent be required to File an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in each of the supplements to Respondents' FPC Gas Rate Schedules as herein designated.

(B) Pending such hearings and decisions thereon, each of said supplements be and each is hereby suspended and the use thereof deferred until September 5, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in each of the aforementioned supplements to Respondents' FPC Gas Rate Schedules shall be effective as of September 5, 1958: *Provided, however,* That within 20 days from the date of this order, each Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Each Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rates and charges and the proposed increased rates and charges hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondents herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts and in such manner as may be required by final order of the Commission. Respondents shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondents so elect, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the dates upon which the increased rates allowed by this order become effective, and under the rates allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, each Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers

under the rate schedule involved, as follows:

Agreement and Undertaking of _____ to Comply with the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes.

In conformity with the requirements of the order issued _____, in Docket No. G–_____, hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this _____ day of _____

_____
By _____

Attest:

_____
(Secretary)

Unless a Respondent is advised to the contrary 15 days after the date of filing such agreement and undertaking, his agreement and undertaking shall be deemed to have been accepted.

(F) Each Respondent who, in conformity with the terms and conditions of paragraph (D) of this order, makes such refunds as may be required by order of the Commission, shall be discharged of his undertaking: otherwise, it will remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the periods of suspension have expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. G–16080]

TIDEWATER OIL CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGES IN RATES

AUGUST 27, 1958.

Tidewater Oil Company (Tidewater) on July 29, 1958, tendered for filing proposed changes in its presently effective rate schedules [1] for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, dated July 28, 1958.

Purchaser: Texas Illinois Natural Gas Pipeline Company.

Rate schedule designation: Supplement No. 13 to Tidewater's FPC Gas Rate Schedule No. 5. Supplement No. 15 to Tidewater's FPC Gas Rate Schedule No. 18.

Effective date: September 1, 1958 (effective date is the effective date proposed by Tidewater).

In support of the proposed redetermined rate increases, Tidewater states that the contracts were negotiated at arm's length and the increased price is fair, just and reasonable. Tidewater further states that the price to be paid during each of the periods provided in the contracts is an integral part of the total consideration for committing the gas for the 20-year terms of such contracts.

The increased rates and charges so proposed have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that Supplement No. 13 to Tidewater's FPC Gas Rate Schedule No. 5, and Supplement No. 15 to Tidewater's FPC Gas Rate Schedule No. 18, be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement No. 13 to Tidewater's FPC Gas Rate Schedule No. 5, and Supplement No. 15 to Tidewater's FPC Gas Rate Schedule No. 18.

(B) Pending such hearing and decision thereon, said supplements be and they are each hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplements hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the periods of suspension have expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. G–16082]

KERR-MCGEE OIL INDUSTRIES, INC., ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

Kerr-McGee Oil Industries, Inc. (Operator), et al. (Kerr-McGee), on July 30, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 29, 1958.

Purchaser: Southern Natural Gas Company.

Rate schedule designation: Supplement No. 11 to Kerr-McGee's FPC Gas Rate Schedule No. 19.

Effective date: September 1, 1958 (effective date is the effective date proposed by Kerr-McGee).

In support of the proposed favored-nation rate increase, Kerr-McGee cites the contract favored-nation provision and submits a copy of a letter dated July 23, 1958, from the Southern Natural Gas Company advising that on September 1, 1958, the highest price at which it will purchase gas in the Breton Island Field, Louisiana, will be 20.25¢ per Mcf. Kerr-McGee also states that the contract was negotiated in good faith at arm's length, the increased price is just and reasonable and is designed to compensate seller for developing, drilling, equipping and operating the leases and provides for a fair rate of return on investment.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 11 to Kerr-McGee's FPC Gas Rate Schedule No. 19 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders: (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 11 to Kerr-McGee's FPC Gas Rate Schedule No. 19.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. G–16083]

PHILLIPS PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

Phillips Petroleum Company (Phillips) on July 31, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 29, 1958.

Purchaser: Southern Natural Gas Company.

Rate schedule designation: Supplement No. 11 to Phillips' FPC Gas Rate Schedule No. 219.

Effective date: September 1, 1958 (effective date is the effective date proposed by Phillips).

In support of the proposed favored-nation rate increase, Phillips cites the contract favored-nation provision and submits a copy of a letter dated July 23, 1958, from the Southern Natural Gas Company advising that on September 1, 1958, the highest price at which it will purchase gas in the Breton Island Field, Louisiana, will be 20.25¢ per Mcf. Phillips states that the increased price is not unjust nor unreasonable, that producers are entitled to rates which produce fair returns on investment and to allow less would be confiscatory. Phillips also states that the proposed rate compares favorably with other prices in the area and cites initial rates for other sales in the area.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 11 to Phillips' FPC Gas Rate Schedule No. 219 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 11 to Phillips' FPC Gas Rate Schedule No. 219.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58–7102; Filed, Sept. 3, 1958; 8:47 a. m.]

[Docket No. G–16084]

BRACKEN OIL CO. ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

Bracken Oil Company, (Operator), et al., (Bracken), on August 1, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated June 27, 1958.

Purchaser: Mississippi River Fuel Corporation.

Rate schedule designation: Supplement No. 8 to Bracken's FPC Gas Rate Schedule No. 1.

Effective date: September 1, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed two-step periodic rate increase, Bracken states that it would not have contracted its interests for such an extended term had it not been assured of a sliding scale of prices designed to afford a reasonably uniform net income during such term. Bracken also states that producers' costs increase with time and age of producing property and compression costs mount in geometrical proportion to depletion of reserves.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 8 to Bracken's FPC Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 8 to Bracken's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58–7103; Filed, Sept. 3, 1958; 8:47 a. m.]

WEIMER AND FITZHUGH

[Docket No. G–16085]

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

Weimer and Fitzhugh on August 1, 1958, tendered for filing a proposed change in their presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 28, 1958.

Purchaser: Lone Star Gas Company.

Rate schedule designation: Supplement No. 4 to Weimer and Fitzhugh's FPC Gas Rate Schedule No. 1.

[1] Present rates previously suspended and are in effect subject to refund in Docket No. G–12999.

[1] Supplement No. 10 to Kerr-McGee's FPC Gas Rate Schedule No. 19 was suspended for 1 day (until August 2, 1958) in Docket No. G–15668 (Louisiana gathering tax increase).

[1] Supplement No. 10 to Phillips' FPC Gas Rate Schedule No. 219 was suspended for 1 day (until August 2, 1958) in Docket No. G–15596 (Louisiana gathering tax increase).

[1] A previous increase was suspended in Docket No. G–11515 until April 25, 1957, but a motion to place the suspended rate into effect subject to refund was never filed by Bracken.

Effective date: September 1, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed favored-nation rate increase, Weimer and Fitzhugh submits a copy of a letter from the Lone Star Gas Company notifying that effective July 1, 1958, the price of gas it purchases from properties in Big Mineral Creek Field, Grayson County, Texas, would be increased from 12¢ per Mcf to 14¢ per Mcf. Weimer and Fitzhugh cite the contract provisions and state that denial of the increase would be inequitable.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 4 to Weimer and Fitzhugh's FPC Gas Rate Schedule No. 1 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 4 to Weimer and Fitzhugh's FPC Gas Rate Schedule No. 1.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. G-16087]

PAN AMERICAN PETROLEUM CORP.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

Pan American Petroleum Corporation (Pan American) on August 1, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 28, 1958.

Purchaser: Texas Illinois Natural Gas Pipeline Company.

Rate schedule designation: Supplement No. 9 to Pan American's FPC Gas Rate Schedule No. 51.

Effective date: September 1, 1958 (effective date is the effective date proposed by Pan American).

In support of the proposed redetermined rate increase, Pan American states that the contract was negotiated at arm's length and the increased price is fair, just and reasonable, and that denial thereof would be inequitable, unfair and confiscatory. Pan American cites inflation, the increased costs of labor and material, increases in drilling costs, and prices under recently negotiated gas sales contracts of other producers in the area.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 9 to Pan American's FPC Gas Rate Schedule No. 51 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 9 to Pan American's FPC Gas Rate Schedule No. 51.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[1] Present rate previously suspended and is in effect subject to refund in Docket No. G-13063.

[Docket No. G-16088]

PAN AMERICAN PETROLEUM CORP. (OPERATOR) ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

Pan American Petroleum Corporation, (Operator), et al., (Pan American), on August 1, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 28, 1958.

Purchaser: Texas Illinois Natural Gas Pipeline Company.

Rate schedule designation: Supplement No. 14 to Pan American's FPC Gas Rate Schedule No. 60.

Effective date: September 1, 1958 (effective date is the effective date proposed by Pan American).

In support of the proposed redetermined rate increase, Pan American states that the contract was negotiated at arm's length and the increased price is fair, just and reasonable, and that denial thereof would be inequitable, unfair and confiscatory. Pan American cites inflation, the increased costs of labor and material, increases in drilling costs, and prices under recently negotiated gas sales contracts of other producers in the area.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 14 to Pan American's FPC Gas Rate Schedule No. 60 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 14 to Pan American's FPC Gas Rate Schedule No. 60.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[1] Present rate previously suspended and is in effect subject to refund in Docket No. G-13064.

[Docket No. G-16089]

GENERAL CRUDE OIL CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 27, 1958.

General Crude Oil Company (General Crude) on August 1, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.

Purchaser: West Lake Natural Gasoline Company.

Rate schedule designation: Supplement No. 1 to General Crude's FPC Gas Rate Schedule No. 8.

Effective date: September 1, 1958 (effective date is the first day after expiration of the required thirty days' notice).

In support of the proposed periodic rate increase, General Crude states that the contract was negotiated at arm's length, the increased price is an integral part of such contract, is not in excess of the going price under similar contracts in the same locale and will, in effect, bring the existing price up to par with similar prices of other producers in the area.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 1 to General Crude's FPC Gas Rate Schedule No. 8 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 1 to General Crude's FPC Gas Rate Schedule No. 8.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until September 2, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Docket No. G-16111]

SOHIO PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATE

AUGUST 27, 1958.

Sohio Petroleum Company (Sohio), on July 28, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.

Purchaser: Texas Illinois Natural Gas Pipeline Company.

Rate schedule designation: Supplement No. 6 to Sohio's FPC Gas Rate Schedule No. 19.

Effective date: September 1, 1958 (effective date is the effective date proposed by Sohio).

In support of the proposed periodic rate increase, Sohio submits a copy of a letter from Texas Illinois Natural Gas Pipeline Company notifying Sohio that in accordance with the contract the price for the second five-year period has been redetermined to consist of a base price of 16.99 cents per Mcf plus applicable tax reimbursement (0.1631 cent). Also, in support of the proposed increase Sohio states that the contract provisions were the result of arm's-length bargaining, the proposed price is not in excess of the current commodity value of the gas and is a just and reasonable price.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided in §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58-7108; Filed, Sept. 3, 1958; 8:48 a. m.]

[1] Present rate previously suspended and is in effect subject to refund in Docket No. G-11512.

OFFICE OF DEFENSE AND CIVILIAN MOBILIZATION

ASSOCIATE DIRECTOR, ADMINISTRATION

DELEGATION OF AUTHORITY TO NEGOTIATE CONTRACTS

1. Pursuant to the authority vested in me by General Services Administration Delegation of Authority No. 349 from the Administrator, General Services Administration, dated July 30, 1958, authority is hereby delegated to the Associate Director, Administration (Contracting Officer for the Office of Defense and Civilian Mobilization) to negotiate purchases and contracts for supplies and services without advertising under sections 302 (c) (4), (5), (9), (10), (11), and (12) of the Federal Property and Administrative Services Act of 1949, as amended (41 U. S. C. 252), except the power to make the determinations or decisions specified in paragraphs (11) and (12) of section 302 (c).

2. This authority shall be exercised only with respect to the procurement of those supplies and services which are required in connection with authorized activities, other than administrative programs, conducted by the Office of Defense and Civilian Mobilization.

3. This delegation of authority shall be subject to all limitations and requirements of Title III of the Federal Property and Administrative Services Act of 1949 with respect to negotiated contracts, particularly sections 304, 305 and 307, and shall be exercised in accordance with policies, procedures and controls prescribed by the General Services Administration.

4. The authority herein delegated under section 302 (c) (10) may be exercised only with respect to contracts which will not require expenditure of more than $25,000, and may not be redelegated.

5. Subject to the provisions of section 4 above, the authority herein delegated may be redelegated to a designee of the Associate Director, Administration.

6. The Delegation of Authority, dated July 1, 1958 (23 F. R. 5050) is hereby rescinded.

This delegation shall be effective as of July 1, 1958 and shall expire December 31, 1959.

Dated: July 30, 1958.

LEO A. HOEGH,
Director.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24FW-1143]

MISSILE OIL CORP.

ORDER WITHDRAWING REQUEST FOR HEARING AND CANCELLING HEARING

AUGUST 28, 1958.

The Commission by order dated August 12, 1958, having ordered that a hearing in the above-entitled matter, pursuant to section 3 (b) of the Securities Act of 1933, as amended, and Rule 261 thereunder, commence on September 4, 1958, at 10:00 a. m., at the San Francisco Regional Office of the Commission, Pacific Building, 821 Market Street, San Francisco 3, California, and

The Company having requested a withdrawal of its request for a hearing and the Division of Corporation Finance not objecting thereto;

It is ordered, That the request for hearing be and it hereby is deemed withdrawn.

It is further ordered, That the order dated August 12, 1958, scheduling a hearing for September 4, 1958, be and it hereby is rescinded.

Pursuant to the provisions of Rule 261 (b) of Regulation A, the suspension of the Regulation A exemption from registration under the Securities Act of 1933, as amended, with respect to the proposed public offering of securities by the Company becomes permanent.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 58-7115; Filed, Sept. 3, 1958; 8:49 a. m.]

[File No. 24FW-1084]

MASTEX OIL CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 28, 1958.

I. Mastex Oil Corp. ("Mastex"), a Massachusetts corporation, 473 Dwight Street, Holyoke, Massachusetts, filed with the Commission on March 1, 1957, a notification on Form 1-A and an offering circular relating to an offering of 9,500 shares of its no par value common capital stock at $15.00 per share for an aggregate of $142,500.00, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission has reasonable cause to believe that no exemption is available under Regulation A for the securities purported to be offered thereunder by Mastex in that John J. Broderick, president, director and promoter of Mastex was permanently enjoined on June 24, 1958, by the Supreme Court, New York County, from engaging in securities transactions within the State of New York.

III. It is ordered, pursuant to Rule 261 of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given to Mastex Oil Corp. and to any persons having any interest in the matter that this order has been entered, that the Commission upon receipt of a written request within thirty days after entry of this order will, within twenty days after the receipt of such request, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether to vacate the order or to enter an order permanently suspending the exemption without prejudice, however, to the consideration and presentation of additional matters at the hearing, that if no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission, and that notice of the time and place for any hearing will promptly be given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 70-3719]

COLUMBIA GULF TRANSMISSION CO. AND COLUMBIA GAS SYSTEM, INC.

NOTICE OF FILING AND ORDER FOR HEARING WITH RESPECT TO ACQUISITION OF PIPELINE FACILITIES AND RELATED TRANSACTIONS

AUGUST 26, 1958.

Notice is hereby given that The Columbia Gas System, Inc. ("Columbia"), a registered holding company, and Columbia Gulf Transmission Company ("Pipeline"), a newly organized Delaware Corporation with an authorized capital stock of 6,000,000 shares of common stock, par value $25 per share, none of which has yet been issued, have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6 (a), 7, 9 (a), 10, 12 (d), 12 (f), and 12 (g) thereof, and Rules 43 and 50 thereunder as applicable to the proposed transactions, by which Pipeline will acquire the facilities of Gulf Interstate Gas Company ("Gulf Interstate"), until recently a non-affiliate natural gas pipeline company.

The Columbia holding company system consists of Columbia, 14 operating subsidiaries, and a subsidiary service company. The operating subsidiaries are engaged in the production, purchase, storage, transmission and distribution of natural gas. Certain subsidiaries also produce and sell gasoline and other hydrocarbons, and one subsidiary produces and sells oil. Natural gas is distributed at retail by the system in the States of Ohio, Pennsylvania, West Virginia, Kentucky, New York, Maryland, and Virginia. In addition, the system sells natural gas for resale to associate and non-associate public-utility companies, to a non-affiliate pipeline company, and to municipalities. The consolidated net plant of the system at April 30, 1958, was approximately $718,000,000, and the consolidated gross operating revenues for the twelve months ended April 30, 1958, were approximately $405,000,000.

United Fuel Gas Company ("United Fuel"), one of Columbia's subsidiaries, is the principal supplier of gas for the system. Within recent years United Fuel has had to obtain an increasing part of its gas supply from southern Louisiana and the southwest. In 1953 it entered into a 20-year contract with Gulf Interstate whereby the latter built and now operates a pipeline which transports the natural gas purchased by United Fuel in Louisiana to a point in West Virginia near the Kentucky line where the gas is redelivered to United Fuel for storage and distribution throughout Columbia's gas service area.

The Gulf Interstate pipeline, completed in 1954, consists of a main line 30 inches in diameter and 845 miles long, with about 389 miles of gathering lines. As of April 30, 1958, Gulf Interstate had net gas plant of about $151,000,000 and it is expected that this figure will be increased by about $50,000,000 during the current year. It now has outstanding $83,000,000 principal amount of first mortgage bonds, which amount may be increased to $143,300,000 by December

1958; $13,792,100 aggregate par value of 6 percent cumulative preferred stock; $17,300,000 par value of 5¾ percent cumulative preferred stock; and 3,880,100 shares of common stock, including 200 treasury shares and 34,965 shares reserved under employees' options, with an aggregate par value of $19,400,500. Columbia now holds the $17,300,000 par value of 5¾ percent cumulative preferred stock, and 225,000 shares of the common stock, of Gulf Interstate.

In connection with the proposed transactions, Gulf Interstate will issue and sell to one or more underwriters $14,000,000 aggregate par value of a new series of preferred stock and will use the proceeds from such sale to redeem its presently outstanding 6 percent cumulative preferred stock, having an aggregate par value of $13,792,100 and a redemption price of $14,204,740. Such underwriters have agreed that, upon the liquidation of Gulf Interstate, they will accept the par amount of such new preferred stock as the liquidation value thereof, payment to be made by the delivery of such number of shares of common stock of Columbia as will have a fair market value, as of the date of closing, equal to $14,000,000.

Pipeline proposes to acquire substantially all of the properties and assets of Gulf Interstate in exchange for (a) the delivery by Pipeline to Gulf Interstate of an estimated 4,818,717 shares of Columbia's common stock, and (b) the assumption by Pipeline of substantially all of Gulf Interstate's liabilities, estimated at $151,740,000. The shares of Columbia's common stock required by Pipeline for delivery to Gulf Interstate will be obtained by Pipeline by the issue and sale by it to Columbia of an estimated 2,271,605 shares of Pipeline's common stock having an aggregate par value of $56,790,120.

The estimated 4,818,717 shares of Columbia's common stock to be delivered by Pipeline to Gulf Interstate will be used by the latter company as follows: (1) 3,079,829 shares will be exchanged for its own 3,880,100 common shares, or on the basis of 0.79375 of a Columbia share for each Gulf Interstate common share; and (2) 1,738,888 shares (estimated) will be exchanged for its own preferred stock, having an aggregate par value of $31,300,000, of which $17,300,000 is owned by Columbia and $14,000,000 will be owned by underwriters.

Upon the transfer to Pipeline of substantially all of the Gulf Interstate properties and assets in consideration of the assumption by Pipeline of Gulf Interstate's liabilities and the delivery to Gulf Interstate of the Columbia common stock, Gulf Interstate will liquidate and dissolve.

The total number of Columbia's common shares to be issued to Gulf Interstate in carrying out the above proposed transactions is, as indicated, estimated to be 4,818,717. Such estimate assumes that the "fair market value" of such stock on the closing date will be $18 per share. Of this number, 1,139,705 shares will be returned to Columbia in exchange for the common and preferred shares of Gulf Interstate which Columbia now holds, and 3,679,012 shares will be distributed to others. At the estimated fair market value of $18 per share, the shares to be distributed to others would have an aggregate value of $66,222,216, which amount plus the $20,000,000 already invested by Columbia in the aforesaid shares of Gulf Interstate would total $86,222,216, or $29,218,096 in excess of the pro forma book value of the net assets being acquired.

As an integral part of the program, Pipeline will issue and sell to Columbia, and Columbia will purchase for cash, 840,000 shares of Pipeline's common stock at its aggregate par value of $21,000,000. Pipeline will use this money, together with treasury cash, to retire such part of the assumed Gulf Interstate indebtedness as may be necessary to bring Pipeline's capital structure into conformity with the requirements of the Indenture covering Columbia's senior debentures.

The consummation of the foregoing proposals is subject to the following conditions, among others: (1) Receipt of the necessary orders from this Commission and from the Federal Power Commission; (2) an opinion of counsel that the transactions will be in compliance with the requirements of Gulf Interstate's mortgage; and (3) receipt of a tax ruling from the Commissioner of Internal Revenue that the proposed transactions may be carried out as a tax-free reorganization.

Columbia requests an exception from the requirements of Rule 50 with respect to the issuance and sale of its common stock.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a public hearing be held with respect to the proposed transactions and that such joint application-declaration should not be granted or permitted to become effective except pursuant to the further order of the Commission:

It is ordered, That a hearing be held on said matter on September 23, 1958 at 10:00 a. m. at the office of the Commission, 425 Second Street, NW., Washington 25, D. C. Any person desiring to be heard in connection with this proceeding shall file with the Secretary of the Commission on or before September 19, 1958 a request relative thereto, as provided in Rule XVII of the Commission's rules of practice.

It is further ordered, That James G. Ewell or any other officer or officers of the Commission designated by it for that purpose shall preside at said hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation of the Commission having advised the Commission that it has made a preliminary examination of the joint application-declaration and that, upon the basis thereof, the following matters and questions are presented for consideration, without prejudice, however, to the presentation of additional matters and questions upon further examination:

(1) Whether the acquisition by Pipeline of the assets of Gulf Interstate, and the acquisition by Columbia of the common stock proposed to be issued by Pipeline, are detrimental to the carrying out of the provisions of Section 11 of the Act.

(2) Whether the consideration to be paid by Pipeline for the assets of Gulf Interstate, including all fees and expenses, is unreasonable.

(3) Whether the acquisition by Columbia of the common stock of Pipeline, together with the assumption by Pipeline of the liabilities of Gulf Interstate, will unduly complicate the capital structure of the Columbia holding-company system or will be detrimental to the public interest or the interest of investors or consumers or the proper functioning of such holding-company system.

(4) Whether the securities proposed to be issued by Columbia and Pipeline are reasonably adapted to the security structures of Columbia and of Pipeline, respectively, and of other companies in the same holding-company system, and whether such securities are reasonably adapted to the earning power of the declarant.

(5) Whether the assumption by Pipeline of the liabilities of Gulf Interstate constitutes an improper risk for Pipeline.

(6) Whether compliance with the competive bidding requirements of Rule 50 promulgated under the Act with respect to the sale by Pipeline of the common stock of Columbia is not necessary or appropriate in the public interest or for the protection of investors or consumers to assure the maintenance of competitive conditions, the receipt of adequate consideration, or the reasonableness of any fees or commissions to be paid.

(7) Whether the proposed accounting treatment of the several transactions is appropriate and in accordance with the regulations of the Commission.

(8) Generally, whether the proposed transactions are in all respects compatible with the provisions and standards of the applicable sections of the Act and of the rules and regulations promulgated thereunder.

(9) What, if any, terms and conditions the Commission should prescribe in connection with its order or orders issued hereunder.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary*.

[F. R. Doc. 58-7117; Filed, Sept. 3, 1958; 8:49 a. m.]

[File No. 812-1169]

ONE WILLIAM STREET FUND, INC.

NOTICE OF FILING OF APPLICATION

AUGUST 26, 1958.

Notice is hereby given that One William Street Fund, Inc. ("William Street").

a registered open-end investment company has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 ("Act") for an order of the Commission exempting from the provisions of section 22 (d) of the Act the proposed issuance of its shares at net asset value for substantially all of the cash and securities of Louetta Investment Company ("Louetta").

The amended application contains the following representations:

William Street, a Maryland corporation, is an open-end investment company, whose shares are offered to the public on a continuous basis at net asset value plus varying sales charges dependent on the amount purchased. As of July 31, 1958 the net assets of William Street amounted to $240,673,874, and there were outstanding 20,500,330 shares of stock.

Louetta, a Missouri corporation, is a personal holding company with 10 stockholders and since April 1956, has been engaged in the business of investing and reinvesting its funds. Louetta is exempt from registration under the Act by reason of the provisions of section 3 (c) (1) thereof. Pursuant to an Agreement and Plan of Reorganization ("Agreement") between William Street, Louetta and the latter's stockholders, substantially all of the cash and securities owned by Louetta, with a total value of about $1,230,000 as of July 31, 1958, will be transferred to William Street in exchange for shares of stock of William Street. The number of shares of William Street to be delivered to Louetta will be determined by dividing the net asset value per share of William Street in effect at the close of business on the day preceding the closing date into the value of the Louetta assets to be exchanged. The shares acquired by Louetta are to be distributed immediately to its shareholders who have agreed to take such shares for investment and not for distribution to the public.

The value of the Louetta assets will be determined in substantially the same manner as used for calculating net asset value for the purpose of issuance of William Street's shares, except that if the percentage of the value of Louetta's portfolio securities representing unrealized appreciation is greater than the percentage of the value of William Street's portfolio securities representing unrealized appreciation, there will be deducted from the value of Louetta's assets 12½ percent of the amount of such excess unrealized appreciation. This adjustment is intended to safeguard the present stockholders of William Street from bearing a greater capital gains tax on the subsequent sale by William Street of the Louetta assets than they would bear on the sale of the securities presently in its portfolio. Since the average capital gains tax rate that would have to be paid by William Street's shareholders cannot be exactly calculated, 12½ percent was arrived at as a fair compromise between 0 and the maximum long term capital gains tax of 25 percent. This premium was deemed adequate protection to the shareholders of William Street since immediate redemption by the Louetta stockholders is not a likely prospect, and the amounts involved are de minimis. As of July 31, 1958, net unrealized appreciation on the Louetta securities amouted to $28,465 or 2.32 percent of the value of all securities held, as compared with net unrealized appreciation of $2,993,876, or 1.24 percent for William Street's portfolio. If the transaction had been consummated on August 1, 1958, Louetta would have received 108,000 shares of stock of William Street representing less than ½ of 1 percent of the total shares outstanding.

The terms of the entire transaction including the adjustment of 12½ percent were arrived at through arm's-length bargaining between the officers of William Street and Louetta. There is no affiliation or relationship of any kind between the officers and directors of William Street and the officers, directors, and stockholders of Louetta. Lehman Brothers, the investment adviser of William Street, has never acted as investment adviser to Louetta.

Section 22 (d) of the Act provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current offering price described in the prospectus, with certain exceptions not applicable here. Under the terms of the Agreement, however, the shares of William Street are to be issued to Louetta at a price other than the public offering price stated in the prospectus, which lists a sales charge of 1 percent for sales of $500,000 or over.

Section 6 (c) of the Act authorizes the Commission by order upon application to exempt, conditionally or unconditionally, any transaction from any provision of the Act or of any rule or regulation thereunder, if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than September 11, 1958 at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N–5 of the rules and regulations promulgated under the Act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 58–7118; Filed, Sept. 3, 1958; 8:50 a. m.]

[File No. 7–1933]

GEORGIA-PACIFIC CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

AUGUST 27, 1958.

In the matter of application by the Pacific Coast Stock Exchange for unlisted trading privileges in Georgia-Pacific Corporation, Common Stock; File No. 7–1933.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X–12F–1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before September 12, 1958, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[F. R. Doc. 58–7119; Filed, Sept. 3, 1958; 8:50 a. m.]

TARIFF COMMISSION

DRIED FIGS

REPORT TO PRESIDENT

AUGUST 29, 1958.

The United States Tariff Commission today submitted to the President its fifth periodic report on the developments in the trade in dried figs since the "escape clause" action of August 30, 1952. That action modified the concession granted in the General Agreement on Tariffs and Trade on dried figs classifiable under paragraph 740 of the Tariff Act of 1930. This report was made pursuant to paragraph 1 of Executive Order 10401 of October 14, 1952 (3 CFR, 1952 Supp., p. 105), which order prescribes procedures for the periodic review of escape-clause actions. Such review is limited to the determination of whether a concession that has been modified or withdrawn can be restored in whole or in part without causing or threatening serious injury to the domestic industry concerned.

In submitting the present report, the Commission advised the President that the conditions of competition between imported and domestic dried figs had not

so changed as to warrant the institution of a formal investigation under the provisions of paragraph 2 of Executive Order 10401. This means that, in the Commission's view, the developments in the trade in dried figs do not warrant a formal inquiry into the question of whether a reduction in the duty on such figs could be made without resulting in serious injury to the domestic industry.

Copies of the Commission's report are available upon request as long as the limited supply lasts. Requests should be addressed to the U. S. Tariff Commission, 8th and E Streets NW., Washington 25, D. C.

[SEAL] DONN N. BENT, *Secretary.*

INTERSTATE COMMERCE COMMISSION

[Notice 80]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

AUGUST 29, 1958.

The following letter-notices of proposals to operate over deviation routes for operating convenience only with no service at intermediate points have been filed with the Interstate Commerce Commission, under the Commission's Special Rules Revised, 1957 (49 CFR 211.1 (c) (8)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 211.1 (d) (4)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 211.1 (e)) at any time but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Deviation Rules Revised, 1957, will be numbered consecutively for convenience in identification and protests if any should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC 504 (Sub No. 1) (Deviation No. 1), HARPER MOTOR LINES, INC., 213 Long Ave., P. O. Box 781, Elberton, Ga., filed August 18, 1958. Attorney for said carrier, Guy H. Postell, 805 Peachtree Street Bldg., Atlanta 8, Ga. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Atlanta, Ga., and Athens, Ga., as follows: From junction U. S. Highway 78 and the Northeast Expressway at North Avenue, N. E., at Atlanta over the Northeast Expressway to junction Georgia Highway 120, thence over Georgia Highway 120 to junction U. S. Highway 29, thence over U. S. Highway 29 to junction U. S. Highway 78 at Athens and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Atlanta, Ga., and Athens, Ga., over U. S. Highway 78.

No. MC 906 (Deviation No. 1), CONSOLIDATED FORWARDING CO., INC., 1300 N. 10th Street, St. Louis, Mo., filed August 18, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Joplin, Mo., and Tulsa, Okla., as follows: from Joplin over the Will Rogers Turnpike and access routes to Tulsa and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Joplin, Mo., and Tulsa, Okla., over the following pertinent route: From Joplin over Missouri Highway 43 to the Missouri-Oklahoma State line, thence over Oklahoma Highway 10 to Miami, Okla., thence over U. S. Highway 69 to junction U. S. Highway 66, thence over U. S. Highway 66 to Tulsa, Okla.

No. MC 8999 (Deviation No. 1), ZENO FREIGHTWAYS, INC., R. D. #5, Irwin, Pa., filed August 15, 1958. Attorney for said carrier, John A. Vpono, 1211 Berger Building, Pittsburgh 19, Pa. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Akron, Ohio, and Massillon, Ohio, as follows: From Akron over U. S. Highway 21 via Barberton, Ohio to Massillon and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Akron, Ohio, and Massillon, Ohio over U. S. Highway 241.

No. MC 29250 (Deviation No. 2), NEW ENGLAND TRANSPORTATION COMPANY, 402 Congress St., Boston, Mass., filed August 22, 1958. Attorney for said carrier, Carl A. Horne, 54 Meadow Street, New Haven, Conn. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between the eastern terminus of the Massachusetts Turnpike (Interchange No. 14) in Weston, Mass., and Interchange No. 1 of the said Turnpike in West Stockbridge, Mass., as follows: From the eastern terminus of the Massachusetts Turnpike over the Massachusetts Turnpike and access routes to Interchange No. 1 of the said Turnpike and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities over the following pertinent routes: Between Boston, Mass., and New York, N. Y., as follows: From Boston over Massachusetts Highway 9 to Worcester, Mass., thence over Massachusetts Highway 12 to junction U. S. Highway 20 at Auburn, Mass., thence over U. S. Highway 20 through Sturbridge and Palmer, Mass., to Springfield, Mass., thence over U. S. Highway 5 through Hartford, Conn., to New Haven, Conn., thence over U. S. Highway 1 through Milford, Conn., and Port Chester, N. Y., to New York; and between Springfield, Mass., and Lenox, Mass., as follows: From Springfield over U. S. Highway 20 to Lenox.

No. MC 35320 (Deviation No. 1), T. I. M. E. INCORPORATED, P. O. Box 1120, Lubbock, Tex., filed August 15, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Louisville, Ky., and junction U. S. Highway 31W and the Kentucky Turnpike near Elizabethtown, Ky., as follows: From Louisville over city streets to the Kentucky Turnpike, thence over the Kentucky Turnpike to junction U. S. Highway 31W and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Louisville, Ky., and Elizabethtown, Ky., over the following pertinent route: From Louisville over U. S. Highway 42 to junction U. S. Highway 31W, thence over U. S. Highway 31W to Elizabethtown.

No. MC 114529 (Deviation No. 1), TRAVELERS MOTOR FREIGHT, INC., 42 38th Street, Wheeling, W. Va., filed August 19, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *general commodities*, with certain exceptions, over a deviation route, between Parkersburg, W. Va., and Wheeling, W. Va., as follows: From Parkersburg over West Virginia Highway 2 to Wheeling and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport the same commodities between Parkersburg, W. Va., and Wheeling, W. Va., over the following pertinent route: From Parkersburg over U. S. Highway 50 to Belpre, Ohio, thence over Ohio Highway 7 to Bridgeport, Ohio, thence over U. S. Highway 40 to Wheeling.

MOTOR CARRIERS OF PASSENGERS

No. MC 1501 (Deviation No. 15), THE GREYHOUND CORPORATION (CENTRAL GREYHOUND LINES), 509 6th Avenue North, Minneapolis 5, Minn., filed August 26, 1958. Carrier proposes to operate as a *common carrier* by motor vehicle of *passengers* over a deviation route, between Three Rivers, Mich., and Roseland, Ind., as follows: From Three Rivers over U. S. Highway 131 to White Pigeon, Mich., thence over Michigan Highway 103 to the Michigan-Indiana State line, thence over Indiana Highway 13 to Interchange No. 8 of the Indiana East-West Toll Highway, thence over the East-West Toll Highway and access routes to Roseland and return over the same route, for operating convenience only, serving no intermediate points. The notice indicates that the carrier is presently authorized to transport passengers over the following pertinent routes: From Detroit, Mich., over U. S. Highway 112 to junction Michigan Highway 205, thence over Michigan Highway 205 to Michigan-Indiana State line, thence over Indiana Highway 19 to Elkhart, Ind., thence over U. S. Highway 33 to South Bend, Ind., thence over Indiana Highway 2 to Rolling Prairie, Ind., thence over U. S. Highway 20 to Gary, Ind., and

various routes into Chicago, Ill. (also via aforementioned route to Sturgis, Mich.), thence over Michigan Highway 78 to the Michigan-Indiana State line, thence over Indiana Highway 9 to the Indiana East-West Toll Road, thence over the East-West Toll Road to Chicago, Ill.; and from Detroit over U. S. Highway 12 to Jackson, Mich., thence over Michigan Highway 60 to Niles, Mich., thence over U. S. Highway 31 to Roseland, Ind., thence over the Indiana East-West Toll Highway to Chicago; and return over the same routes.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[Notice 232]

MOTOR CARRIER APPLICATIONS

AUGUST 29, 1958.

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers and by brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other procedural matters with respect thereto (49 CFR 1.241).

All hearings will be called at 9:30 o'clock a. m., United States standard time (or 9:30 o'clock a. m., local daylight saving time), unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 427 (Sub No. 4), filed August 4, 1958. Applicant: GEORGE NEDDERSEN, doing business as NEDDERSEN TRANSIT, 5259 Morgan Avenue North, Minneapolis 12, Minn. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul 14, Minn. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale and retail grocery, fruit and bakery business houses, from Chaska, Minn., to Fargo, N. Dak., and *empty containers or other such incidental facilities* (not specified), used in transporting the above-specified commodities on return. Applicant is authorized to transport similar commodities, over regular routes, in Minnesota and North Dakota.

NOTE: Any duplication with present authority to be eliminated.

HEARING: October 10, 1958, in Room 926, Metropolitan Building, Second Avenue, South, and Third Street, Minneapolis, Minn., before Joint Board No. 24, or, if the Joint Board waives its right to participate, before Examiner Leo W. Cunningham.

No. MC 8681 (Sub No. 67), filed July 3, 1958. Applicant: WESTERN AUTO TRANSPORTS, INC., 430 South Navajo Street, Denver, Colo. Applicant's attorney: Louis E. Smith, Suite 503, 1800 N. Meridian St., Indianapolis 2, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trucks*, in secondary movements, in truckaway service (1) between points in California, Colorado, Idaho, Iowa, Nevada, Utah, Washington and Wyoming (except shipments moving from Ames, Clinton and DeWitt, Iowa to points in California, Colorado, Idaho, Washington and Wyoming); (2) from points in Wayne County, Mich., to points in California, Colorado, Idaho, Iowa, Utah, Washington and Wyoming (except from Detroit, Mich., to points in Utah and Nevada and points within 10 miles of Detroit, Mich. to points in Nevada); and *rejected and/or damaged shipments* of the above-described units to shipper for repairing. Applicant is authorized to conduct operations throughout the United States.

HEARING: October 15, 1958, in Room 226, Old Mint Bldg., Fifth and Mission Streets, San Francisco, Calif., before Examiner F. Roy Linn.

No. MC 8989 (Sub No. 173), filed August 8, 1958. Applicant: HOWARD SOBER, INC., 2400 West St. Joseph St., Lansing, Mich. Applicant's attorney: Thomas A. Graham, Suite 1149, 10 S. LaSalle St., Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles, chassis, busses*, and *parts, tools, accessories thereof*, in secondary movements, in truckaway service, from points in New York, New Jersey, Massachusetts, Maryland, Michigan, Illinois and Wisconsin to points in Minnesota, and *damaged, rejected* or *returned shipments* of the above-named commodities on return. Applicant is authorized to perform secondary truckaway service between points in North Dakota, South Dakota, Nebraska, Kansas, Iowa, Oklahoma, Missouri, Arkansas, Wisconsin, Illinois, Michigan, Indiana, Ohio, Kentucky, Tennessee, West Virginia, Virginia, Pennsylvania, New York, New Jersey, Rhode Island, Maryland, District of Columbia, Connecticut, Vermont, Massachusetts, New Hampshire and Texas.

HEARING: October 13, 1958, in Room 852, U. S. Custom House, 610 South Canal St., Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 17226 (Sub No. 15) (CORRECTION), filed July 30, 1958, published issue of August 20, 1958, at page 6389. Applicant: FRUIT BELT MOTOR SERVICE, INC., 3909 West Harrison St., Chicago 24, Ill. Applicant's attorneys: Eugene L. Cohn, One North LaSalle St., Chicago 2, Ill., and Beverley S. Simms, 1624 Eye St., NW., Washington, D. C. The purpose of this notice is to correctly set forth the commodities proposed to be transported in paragraph (1). Correctly stated (1) should read: *Machinery and parts, materials, and supplies*, used in the manufacture, shipping or operation of refrigerators, freezers, refrigerator-freezers, ice cube makers, air conditioners, and dehumidifiers.

HEARING: Remains as assigned October 17, 1958, in Room 852, U. S. Custom House, 610 South Canal St., Chicago, Ill., before Examiner Harold P. Boss.

No. MC 35396 (Sub No. 27), filed August 20, 1958. Applicant: ARNOLD LIGON, doing business as ARNOLD LIGON TRUCK LINE, Madisonville, Ky. Applicant's attorney: Henry McChesney, Jr., 7th Floor McClure Bldg., Frankfort, Ky. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Radioactive semi-processed feed material*, in granular form, in hopper-type containers and *empty containers* used in transporting same, between Weldon Springs, Mo., Kevil, Ky., Sargents and Fernald, Ohio, and Oak Ridge, Tenn. Applicant is authorized to conduct operations in Indiana, Kentucky, Illinois, Tennessee, Ohio, Pennsylvania, West Virginia, New York, New Jersey, Michigan, Alabama, Arkansas, Georgia, Mississippi, Louisiana, Minnesota, Connecticut, Massachusetts, Wisconsin, Iowa, Kansas, Missouri, North Carolina and Virginia.

NOTE: Applicant states the authority sought should exclude the duplicating authority held by it in Certificate MC 25396 Sub 24, from Oak Ridge to Fernald.

HEARING: September 29, 1958, at the Missouri Public Service Commission, Jefferson City, Mo., before Examiner Leo W. Cunningham.

No. MC 38588 (Sub No. 14), filed August 18, 1958. Applicant: ARIZONA-NEVADA EXPRESS, a Corporation, P. O. Box 4306, Phoenix, Ariz. Applicant's attorney: O. Russell Jones, P. O. Box 1437, Santa Fe, N. Mex. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving Deer Valley Park (located approximately fourteen (14) miles north of Phoenix, Ariz., near Arizona Highway 69), and points within three (3) miles thereof, as off-route points in connection with applicant's authorized regular route operations between Phoenix, Ariz., and Kingman, Ariz. Applicant is authorized to conduct regular and irregular route operations in Arizona and Nevada.

HEARING: September 19, 1958, at the Arizona Corporation Commission, Phoenix, Ariz., before Joint Board No. 240, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 41406 (Sub No. 4) (REPUBLICATION), filed April 30, 1958. Applicant: J. ARTIM & SONS, INC., 7105 Kennedy Ave., Hammond, Ind. Applicant's attorney: David Axelrod, 39 South LaSalle St., Chicago 3, Ill. Notice of the filing of the above-numbered form BMC 78 application was originally published in the FEDERAL REGISTER at page 3949 under date of June 5, 1958. That notice did not correctly set forth the proposed operations. The purpose of this republication is to correctly describe the authority sought in the subject proceeding, which is as follows: (1) *Fabricated structural iron or steel and contractors' machinery, tools, equipment, materials and supplies*, from Chicago and points in the Chicago, Ill., Commercial Zone as defined by the Commission in 1 M. C. C. 673, to points in Illinois, Indiana, Ohio, Michigan (upper and lower peninsula), Wis-

consin, Minnesota, Iowa, Missouri, and Kentucky, and (2) *Contractors' machinery, tools, equipment, materials and supplies*, and also *damaged or rejected shipments of fabricated structural iron or steel*, from points in Illinois, Indiana, Ohio, Michigan (upper and lower peninsula), Wisconsin, Minnesota, Iowa, Missouri, and Kentucky, to Chicago and points in the Chicago, Ill., Commercial Zone as defined by the Commission in 1 M. C. C. 673. Any person or persons who may have been prejudiced by failure of the first publication of the notice of filing of the subject application to correctly reflect the authority sought may file a protest in accordance with the Commission's general rules of practice. Those persons who have filed a protest to the application as originally published, or have indicated an interest in the proceeding, need not refile.

NOTE: Applicant's attorney advised in a letter dated August 14, 1958, that the proposed transportation of the commodities in (1) above will be conducted from the plant sites of the American Bridge Division of the United States Steel Corporation, Gary, Ind., and the Midland Structural Steel Division of the Allied Steel Corporation, Hammond, Ind., to construction sites in the above-named states, and also the commodities named in (2) above will be transported from construction sites in the above-named states to the plant sites of the above-named steel corporations.

CONTINUED HEARING: To be assigned at a time and place to be hereafter designated.

No. MC 42487 (Sub No. 371), filed July 28, 1958. Applicant: CONSOLIDATED FREIGHTWAYS, INC., 2116 N. W. Savier Street, Portland, Oreg. Applicant's attorneys: Donald A. Schafer, 1026 Public Service Bldg., Portland 4, Oreg., and Ronald E. Poelman, Consolidated Freightways, Inc., 431 Burgess Drive, Menlo Park, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over an alternate route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Madison, Wis., and Wells, Nev., from Madison over U. S. Highway 151 to Cedar Rapids, Iowa, thence over U. S. Highway 30 to junction U. S. Highway 30–S at or near Little America, Wyo., thence over U. S. Highway 30–S to junction U. S. Highway 189 at or near Echo, Utah, thence over U. S. Highway 189 to junction U. S. Highway 40 (Kimball Junction), thence over U. S. Highway 40 to Wells, and return over the same route, serving no intermediate points, as an alternate route for operating convenience only, in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Arizona, California, Idaho, Illinois, Indiana, Iowa, Michigan, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wisconsin and Wyoming.

HEARING: October 23, 1958, in Room 226, Old Mint Building, Fifth and Mission Streets, San Francisco, Calif., before Examiner F. Roy Linn.

No. MC 50069 (Sub No. 203), filed August 7, 1958. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 2111 Woodward Avenue, Detroit, Mich. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid or dry commodities* in bulk, in tank vehicles or other specialized vehicles (including hopper trucks), between Joliet, Ill., and points within five miles thereof, on the one hand, and, on the other, points in the United States, including all ports of entry on the International Boundary line between the United States and Canada. Applicant is authorized to conduct operations in Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Dakota, Tennessee, Vermont, Virginia, West Virginia and Wisconsin.

HEARING: October 8, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 58948 (Sub No. 80), filed August 22, 1958. Applicant: UNION TRANSFER COMPANY, doing business as UNION FREIGHTWAYS, a Corporation, 720 Leavenworth St., Omaha 8, Nebr. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities, including Class A and B explosives and commodities requiring special equipment*, but excluding those of unusual value, livestock, household goods as defined by the Commission and commodities in bulk, serving intercontinental ballistics missiles testing and launching sites, access roads thereto and supply points therefor, within a 50-mile radius of Cheyenne, Wyo., as off-route points in connection with applicant's authorized regular-route operations to and from Cheyenne, Wyo. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Kansas, Colorado, Minnesota, Missouri, Nebraska, and Wyoming.

HEARING: September 26, 1958, at the New Customs House, Denver, Colo., before Joint Board No. 198, or, if the Joint Board waives its right to participate, before Examiner Leo A. Riegel.

No. MC 59310 (Sub No. 48), filed July 31, 1958. Applicant: SPROUT & DAVIS, INC., 2500 Indianapolis Blvd., Whiting, Ind. Applicant's attorney: Howell Ellis, 520 Illinois Bldg., Indianapolis, Ind. Authority sought to operate as a *common or contract carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles or other specialized vehicles, including hopper trucks, between Joliet, Ill., and points within five (5) miles thereof, on the one hand, and, on the other, points in the United States, including all Ports of Entry on the boundary between the United States and Canada. Applicant is authorized to conduct operations as a contract carrier in Indiana, Illinois, Missouri, Iowa, Michigan, Wisconsin, Minnesota, Ohio, Kansas, Oklahoma, Nebraska, and Kentucky.

NOTE: A proceeding has been instituted under section 212(c) in No. MC 59310 (Sub No. 46), to determine whether applicant's status is that of a contract or common carrier.

HEARING: October 8, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 61403 (Sub No. 31), filed August 11, 1958. Applicant: ROBINSON TRANSFER MOTOR LINES, INC., Wilcox Drive, Kingsport, Tenn. Applicant's representative: S. S. Eisen, 140 Cedar Street, New York 6, N. Y. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: *Acids* and *chemicals*, in bulk, in tank and hopper-type vehicles, (1) between points in Kanawha County, W. Va.; and (2) between points in Kanawha County, W. Va. on the one hand, and, on the other, points in Georgia, Florida, and South Carolina. Applicant is authorized to conduct operations in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

HEARING: October 7, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Lucian A. Jackson.

No. MC 64932 (Sub No. 245), filed August 6, 1958. Applicant: ROGERS CARTAGE CO., a Corporation, 1934 S. Wentworth Avenue, Chicago, Ill. Applicant's attorney: David Axelrod, 39 South La Salle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machine tool lubricants* used in metal cutting, grinding, drawing, drilling, and broaching operations, in bulk, in tank vehicles, from North Aurora, Ill., to points in New York. Applicant is authorized to conduct operations in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, West Virginia, and Wisconsin.

HEARING: October 7, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 65525 (Sub No. 11), filed July 31, 1958. Applicant: WHITE BROTHERS TRUCKING CO., a Corporation, Wasco, Ill. Applicant's representative: George S. Mullins, 4704 W. Irving Park Road, Chicago 41, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prestressed concrete structural members, slabs and shapes*, (1) from Dayton, Ohio, to points in Indiana and Kentucky; (2) from Waukesha, Wis., to points in Illinois; and (3) from Algonquin, Franklin, Hodgkins, Lemont, McCook and Piano, Ill., to points in

Indiana and Wisconsin. Applicant is authorized to conduct operations in Illinois, Indiana, Wisconsin, Iowa, Michigan, Ohio, Kentucky, West Virginia, Pennsylvania, New York, Mississippi, Arkansas, Alabama, Florida, Georgia, Louisiana, Tennessee, Minnesota, and Missouri.

HEARING: October 6, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 87231 (Sub No. 10), filed July 16, 1958. Applicant: BAY & BAY TRANSFER CO., INC., 315 Ninth Ave. North, Minneapolis, Minn. Applicant's attorney: Donald A. Morken, 1100 First National-Soo Line Bldg., Minneapolis 2, Minn. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, in bulk, in tank or hopper vehicles, from Minneapolis and St. Paul, Minn., and points within ten (10) miles of each, to points in Wisconsin and Iowa. Applicant is authorized to conduct operations in Minnesota, Iowa, South Dakota, North Dakota, and Wisconsin.

HEARING: October 9, 1958, in Room 926, Metropolitan Building, Second Avenue, South, and Third Street, Minneapolis, Minn., before Joint Board No. 181, or, if the Joint Board waives its right to participate, before Examiner Leo W. Cunningham.

No. MC 89778 (Sub No. 71), filed August 12, 1958. Applicant BAGGETT TRANSPORTATION COMPANY, a Corporation, 2 South 32d Street, Birmingham, Ala. Applicant's attorney: Harold G. Hernly, 1624 Eye Street NW., Washington 6, D. C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Explosives* and *blasting supplies*, from Springville, Utah, and points within fifteen miles thereof, on the one hand, and, on the other, points in Arkansas, Louisiana, Mississippi, and Nebraska. Applicant is authorized to conduct operations throughout the United States except Arizona, California, Idaho, Nevada, Oregon, and Washington.

NOTE: A proceeding has been instituted under section 212 (c) of the Interstate Commerce Act to determine whether applicant's status is that of a contract or common carrier, assigned Docket No. MC 89778 (Sub No. 69).

HEARING: October 9, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner James H. Gaffney.

No. MC 101458 (Sub No. 23), filed August 14, 1958. Applicant: NATIONAL CARTAGE CO., a Corporation, 2850 Sheffield Avenue, Hammond, Ind. Applicant's attorney: Ferdinand Born, 1017–19 Chamber of Commerce Bldg., Indianapolis 4, Ind. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, or other specialized vehicles (including hopper-type vehicles), between Joliet, Ill., and points within five (5) miles thereof, on the one hand, and, on the other, points in the United States, including all ports of entry on the International Boundary line between the United States and Canada. Applicant is authorized to conduct regular and irregular operations in Illinois, Indiana, Michigan, and Wisconsin.

HEARING: October 8, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 109947 (Sub No. 23) filed July 30, 1958. Applicant: WARSAW TRUCKING CO., INC., Warsaw, Indiana. Applicant's attorney: Robert A. Sullivan, 2606 Guardian Bldg., Detroit 26, Mich. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Rough iron or machine castings*, from Warsaw, Ind., to points in Wisconsin, Illinois, New York, Ohio, Pennsylvania, North Carolina and Nebraska; and *rejected or damaged shipments* of rough iron or machine castings, on return. Applicant is authorized to conduct similar operations in Illinois, Indiana, Ohio and Pennsylvania.

NOTE: Applicant states it is agreeable to eliminating any duplicating authority. A proceeding has been instituted under section 212 (c) in No. MC 109947 (Sub No. 22) to determine whether applicant's status is that of a contract or common carrier.

HEARING: October 6, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 110353 (Sub No. 8), filed August 8, 1958. Applicant: GARNET O. NEWTON, R. D. 6, York, Pa. Applicant's attorney: John M. Musselman, State Street Bldg., Harrisburg, Pa. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ser–X, sericite, microcite*, and *by-products* thereof and minerals relating thereto, from points in Adams County, Pa., to points in Delaware, New Jersey, Maryland, New York, Ohio and Pennsylvania; and *empty containers* used in transporting the above-described commodities, and *pallets*, on return.

NOTE: Applicant is authorized in Certificates MC 110353 Subs 5 and 6 to transport pyrophyllite, which includes the above origin and destination areas; this application is filed to request a more exacting commodity description. Applicant states that the proposed transportation under the trade name "Ser–X" is the same as for sericite et al.

HEARING: October 3, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner David Waters.

No. MC 110420 (Sub No. 194), filed August 6, 1958. Applicant: QUALITY CARRIERS, INC., Calumet Street, Burlington, Wis. Applicant's attorney: Paul F. Sullivan, 1821 Jefferson Place, NW., Washington 6, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Resins*, in bulk, in tank vehicles, from Browntown, Wis., to points in Minnesota, Iowa, Illinois, Indiana, Ohio, Kentucky, Michigan, Illinois, Texas, Oklahoma, and Wisconsin; (2) *Animal fats, vegetable oils*, and *blends* thereof, in bulk, in tank vehicles, from Waterloo, Iowa, to points in Indiana, Ohio, Kentucky, Michigan, Illinois, Texas, Oklahoma, and Wisconsin; (3) *Liquid sugar*, in bulk, in tank vehicles, from Chicago, Ill., to points in Ohio; (4) *Steepwater*, in bulk, in tank vehicles, from Clinton, Iowa, to Chicago and Hampshire (Kane County), Ill.; (5) *Salts of gluconic acid*, in bulk, in tank vehicles, from Newaygo, Mich., to Kansas City, Mo.; (6) *Spent brewers yeast*, in bulk, in tank vehicles, from Terre Haute, and Fort Wayne, Ind., to Chicago, Ill.; (7) *Tallow*, in bulk, in tank vehicles, from Elburn (Kane County), Ill., to Battle Creek, Mich.; (8) *Vegetable oils, animal fats*, and *blends* thereof, in bulk, in tank vehicles, from Chicago, Ill., to Lititz, Pa., and Charlotte, N. C.; (9) *Liquid cocoa and chocolate coating*, in bulk, in tank vehicles, from Chicago, Ill., to Grand Rapids, Mich., and Kansas City, Mo.; (10) *Tanning extract*, in bulk, in tank vehicles, from Chicago, Ill., to Red Wing, Minn.; (11) *Size, liquid plastic material*, and *synthetic resin*, in bulk, in tank vehicles, from Milwaukee, Wis., to points in Minnesota, Illinois, Indiana, Michigan, and Ohio; (12) *Liquid adhesives*, in bulk, in tank vehicles, from Milwaukee, Wis., to points in Kentucky, Ohio, Indiana, Minnesota, Iowa, Illinois, Missouri, Michigan, and Tennessee; (13) *Tallow*, in bulk, in tank vehicles, from points in the Chicago, Ill., Commercial Zone, as defined by the Commission, to Buffalo, N. Y.; (14) *Liquid cocoa butter*, in bulk, in tank vehicles, from Milwaukee, Wis., to Chicago, Ill.; and (15) *Animal fats, vegetable oils*, and *blends* thereof, in bulk, in tank vehicle, from Cudahy, Wis., to points in Ohio and Portland, Maine. Applicant is authorized to conduct operations in Alabama, Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Tennessee, Texas, Virginia, West Virginia, and Wisconsin.

HEARING: October 15, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 110988 (Sub No. 52), filed July 28, 1958. Applicant: KAMPO TRANSIT, INC., 200 Cecil Street, Neenah, Wis. Applicant's attorney: Adolph E. Solie, 715 First National Bank Bldg., Madison 3, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Adhesives* and *glues*, liquid, in bulk, in tank vehicles, from Cicero, Ill., to points in Alabama, Arkansas, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Ohio, Pennsylvania, Tennessee, West Virginia, and Wisconsin. Applicant is authorized to conduct operations in Arkansas, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, Tennessee, Texas, and Wisconsin.

HEARING: October 22, 1958, at Wisconsin Public Service Commission, Madison, Wis., before Examiner Michael B. Driscoll.

No. MC 110988 (Sub No. 53), filed August 18, 1958. Applicant: KAMPO TRANSIT, INC., 200 Cecil Street, Neenah, Wis. Applicant's representative: Adolph E. Solie, 715 First National Bank Bldg., Madison 3, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Phosphoric acid*, in bulk, in tank vehicles, from points in Polk and Hillsborough Counties, Fla., to points in Illinois, Indiana, Iowa, Michigan, Minnesota, Ohio, and Wisconsin. Applicant is authorized to conduct operations in Wisconsin, Illinois, Georgia, Louisiana, Missouri, Oklahoma, Texas, Nebraska, Minnesota, Iowa, Indiana, Michigan, Ohio, Kentucky, Arkansas, Kansas, and Tennessee.

HEARING: October 22, 1958, at the Wisconsin Public Service Commission, Madison, Wis., before Examiner Michael B. Driscoll.

No. MC 111472 (Sub No. 58), filed August 11, 1958. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 1919 Hamilton, Racine, Wis. Applicant's attorney: Glenn W. Stephens, 121 West Doty Street, Madison 3, Wis. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Power vehicle-unloading equipment*, from Crown Point, Ind., to points in the United States except to points in Florida, Louisiana, the District of Columbia, and Texas. Applicant is authorized to conduct operations in all states in the United States except Nevada and the District of Columbia.

NOTE: A proceeding has been instituted under section 212 (c) in No. MC 111472 Sub-53 to determine whether applicant's status is that of a contract or common carrier.

HEARING: October 14, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 112713 (Sub No. 77), filed August 25, 1958. Applicant: YELLOW TRANSIT FREIGHT LINES, INC., 1626 Walnut Street, Kansas City, Mo., Applicant's attorney: John M. Records, same address as applicant. Authority sought to operate as a *common carrier*, by motor vehicle, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the site of the Forest Products Division of Olin Mathieson Chemical Corporation plant located approximately 4 miles southeast of the Junction of U. S. Highways 6 and 66 as an off-route point in connection with applicant's authorized regular route operations between Chicago, Ill., and Peoria, Ill. Applicant is authorized to conduct operations in Illinois, Kansas, Oklahoma, Missouri, Texas, Indiana, Kentucky, Michigan and Ohio.

HEARING: September 11, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Joint Board No. 149.

No. MC 114714 (Sub No. 3), filed August 11, 1958. Applicant: C. E. LECHLEITNER, Route 2, Siren, Wis. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul 14, Minn. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fencing* (wood slat and wire combined), from Grantsburg and Rice Lake, Wis., to points in Minnesota, Iowa, Nebraska, Illinois, North Dakota and South Dakota. Applicant is authorized to conduct operations in Wisconsin, Minnesota, Iowa, Nebraska, Illinois, North Dakota and South Dakota.

HEARING: October 9, 1958, in Room 926, Metropolitan Bldg., Second Avenue, South, and Third Street, Minneapolis, Minn., before Examiner Leo W. Cunningham.

No. MC 114789 (Sub No. 1), filed July 21, 1958. Applicant: NATIONWIDE CARRIERS, INC., 2200 University Avenue, St. Paul, Minn. Applicant's attorney: Lee Loevinger, Midland Bank Bldg., Minneapolis 1, Minn. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, as described in Section B of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M. C. C. 209, *dried milk products* and *animal and poultry feed*, from points in Minnesota and Marshfield, Plymouth, Sauk City and Greenwood, Wis., to points in Texas, and *empty containers or other such incidental facilities* (not specified) used in transporting the above commodities on return. Applicant is authorized to transport the above commodities from points in Minnesota and Marshfield, Plymouth and Sauk City, Wis., to points in that part of Texas on and east of U. S. Highway 281.

NOTE: Applicant states that the purpose of this application is to seek additional authority which was excluded from the authorized destination territory in the original permit. The above requested authority will be performed under a continuing contract or contracts with Land O'Lakes Creameries, Inc.

HEARING: October 8, 1958, at Room 926, Metropolitan Bldg., Second Avenue, South, and Third Street, Minneapolis, Minn., before Examiner Leo W. Cunningham.

No. MC 115841 (Sub No. 32), filed August 14, 1958. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Bankhead Highway West, P. O. Box 2169, Birmingham, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products*, and *meat by-products*, fresh and frozen, from Washington, D. C., to points in Alabama, Georgia, Louisiana, Mississippi, South Carolina, Tennessee, Texas, and Arkansas, and Charlotte, N. C. Applicant is authorized to conduct operations in Maine, Massachusetts, Rhode Island, Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Connecticut, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, Wisconsin, the District of Columbia, Delaware, and Arkansas.

HEARING: October 8, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Alton R. Smith.

No. MC 115841 (Sub No. 33), filed August 14, 1958. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Bankhead Highway West, P. O. Box 2169, Birmingham, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in New Jersey, to points in Maine, New Hampshire and Vermont. Applicant is authorized to conduct operations in Maine, Massachusetts, Rhode Island, Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Connecticut, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, Wisconsin, the District of Columbia, Delaware and Arkansas.

HEARING: October 9, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner John P. McCarthy.

No. MC 115841 (Sub No. 34), filed August 14, 1958. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Bankhead Highway West, P. O. Box 2169, Birmingham, Ala. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products*, and *meat by-products*, and *frozen foods*, from points in Maryland, Delaware and New Jersey, to points in California, Oregon and Washington. Applicant is authorized to conduct operations in Maine, Massachusetts, Rhode Island, Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Connecticut, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, Wisconsin, the District of Columbia, Delaware, and Arkansas.

HEARING: October 15, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Donald R. Sutherland.

No. MC 116487 (Sub No. 3), filed July 23, 1958. Applicant: SULLIVAN'S MOTOR DELIVERY, INC., 134 North Young Street, Milwaukee, Wis. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fresh and frozen bakery products*, in shipper-owned wire baskets and boxes and *such merchandise* as the shipper (Omar, Inc.) gives to its patrons as premiums, from Milwaukee, Wis., to Chicago, Ill., Omaha, Nebr., and Indianapolis, Ind.; and (2) *Empty shipper-owned wire baskets and boxes* and *such returned or excess bakery products and premiums*, from the above-specified destination points to Milwaukee, Wis. Applicant is authorized to conduct operations in Illinois, Iowa, and Wisconsin.

HEARING: October 20, 1958, at the Wisconsin Public Service Commission, Madison, Wis., before Examiner Michael B. Driscoll.

No. MC 116562 (Sub No. 2), filed July 24, 1958. Applicant ARTHUR W. COULTER, 2291 Crater Lake Avenue, Medford, Oreg. Applicant's representative: T. R. Perry, P. O. Box 594, Grants Pass, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, including plywood and box shooks*, from points in Lane and Douglas Counties, Oreg., to points in California and Nevada.

HEARING: October 27, 1958, in Room 216, Douglas County Courthouse, Roseburg, Oreg., before Joint Board No. 151.

No. MC 116628 (Sub No. 3), filed August 14, 1958. Applicant: SUBURBAN TRANSFER SERVICE, INC., P. O. Box 11, 383 Washington Avenue, Belleville, N. J. Applicant's representative: Jacob Polin, 314 Old Lancaster Road, Merion, Pa. (P. O. Box 317, Bala-Cynwyd, Pa.) Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail department stores, between New York, N. Y., Wilmington, Del., Philadelphia and Willow Grove, Pa., East Orange, Hackensack, Haddonfield, Morristown and Paramus, N. J., and points in Maryland. Applicant indicates the above-described operations are limited to a transportation service to be performed, under a continuing contract, with Oppenheim-Collins, of New York, N. Y. Applicant is authorized to conduct operations in Delaware, New Jersey, New York and Pennsylvania.

HEARING: October 8, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner William J. Cave.

No. MC 117109 (Sub No. 1), filed August 7, 1958. Applicant: SYKES TRANSPORT COMPANY, a Corporation, Ironton, Mo. Applicant's attorney: David Axelrod, 39 South LaSalle Street, Chicago 3, Ill. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from points in Virginia and North Carolina to points in Ohio, Michigan, Indiana, Illinois, Wisconsin, Iowa, and Missouri.

HEARING: October 9, 1958, in Room 852, U. S. Custom House, 610 South Canal Street, Chicago, Ill., before Examiner Michael B. Driscoll.

No. MC 117136 (Sub No. 7), filed June 2, 1958. Applicant: CAVEMAN TRANSPORT, INC., 2000 S. W. "G" Street, Grants Pass, Oreg. Applicant's representative: I. R. Perry, P. O. Box 594, Grants Pass, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, including *plywood*, from points in Douglas and Lane Counties, Oreg., to points in California and Nevada. Applicant is authorized to transport similar commodities in Arizona, California, Nevada, and Oregon.

HEARING: October 27, 1958, in Room 216, Douglas County Courthouse, Roseburg, Oreg., before Joint Board No. 151.

No. MC 117251 (Sub No. 1), filed May 26, 1958. Applicant: WESTERN STATES PARCEL SYSTEM, a Corporation, 332 East McDowell Road, Phoenix, Ariz. Applicant's attorney: Donald Murchison, 211 South Beverly Drive, Beverly Hills, Calif. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Packages* (parcels), weighing one to fifty pounds, and not over 108 inches overall length and girth, between points in that part of Los Angeles, Calif., bounded on the north by Devonshire Street (California Highway 118), Balboa Boulevard, Foothill Boulevard (California Highway 118), Washington Street, Foothill Boulevard, and Huntington Drive (U. S. Highway 66); on the east by California Highways 39 and 35, and Norwalk Boulevard; on the south by California Highway 10 and Imperial Highway; and on the west by the Pacific Ocean (as more fully described in the application), on the one hand, and, on the other, Ajo, Ashfork, Avondale, Benson, Bisbee, Buckeye, Casa Grande, Chandler, Chandler Heights, Clarkdale, Clifton, Congress, Coolidge, Cottonwood, Douglas, El Mirage, Eloy, Flagstaff, Florence, Fort Huachuca, Gadsden, Gila Bend, Gilbert, Glendale, Globe, Goodyear, Hayden, Higley, Holbrook, Jerome, Kingman, Litchfield Park, Marinette, Mesa, Miami, Nogales, Page, Peoria, Phoenix, Prescott, Safford, Scottsdale, Seligman, Somerton, Sonora, Sunnyslope, Superior, Tempe, Tolleson, Tombstone, Tucson, Warren, Wickenberg, Wilcox, Williams, Winkelman, Winslow, and Yuma, Ariz.

HEARING: October 13, 1958, at the Arizona Corporation Commission, Phoenix, Ariz., before Joint Board No. 47.

No. MC 117281 (Sub No. 1), filed August 4, 1958. Applicant: ROBERT J. KLINKEL AND GROVER R. DENMAN, doing business as DENMAN AND KLINKEL, De Smet, S. Dak. Applicant's attorney: Ellsworth F. Wilkinson, Warren-Eggen Bldg., De Smet, S. Dak. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cracklings* (a meat and bone product derived from the rendering of dead animals), and *coal*, between Minneapolis, Minn., and De Smet, S. Dak.

HEARING: October 10, 1958, in Room 926, Metropolitan Bldg., Second Avenue, South, and Third Street, Minneapolis, Minn., before Joint Board No. 26, or, if the Joint Board waives its right to participate, before Examiner Leo W. Cunningham.

No. MC 117377 (Sub No. 1), filed August 11, 1958. Applicant: WILLIAM D. PERRYMAN, doing business as CAPITOL TRUCKING CONTRACTORS, 4620 Randolph Road, Rockville, Md. Applicant's attorney: P. Bateman Ennis, Shoreman Building, Washington 5, D. C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Crushed stone*, from the quarry of C. J. Langenfelder & Son, Inc. located at Trivilah Road and Piney Meeting House Road, Montgomery County, Md., to points in the District of Columbia.

HEARING: October 3, 1958, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Joint Board No. 68.

No. MC 117539, filed July 21, 1958. Applicant: GEORGE H. SHELTON, doing business as SHELTON PRODUCE CO., 2401 Girard Avenue No., Minneapolis 11, Minn. Applicant's representative: A. R. Fowler, Agent, Associated Motor Carriers Tariff Bureau, 2288 University Avenue, St. Paul 14, Minn. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Bakery goods*, from Carrollton, Mo., to Denver and Pueblo, Colo., Champaign, Decatur and Milan, Ill., Davenport and Des Moines, Iowa, Hopkins and Minneapolis, Minn., Norfolk and Omaha, Nebr., Bismarck and Fargo, N. Dak., Aberdeen, S. Dak., and Green Bay and Milwaukee, Wis.

NOTE: Applicant states the proposed service is under a contract with Banner Cando Co., of Carrollton, Mo. On return trips applicant states he will transport commodities covered by section 203 (b) (6) of the Interstate Commerce Act.

HEARING: October 8, 1958, in Room 926, Metropolitan Bldg., Second Avenue South, and Third Street, Minneapolis, Minn., before Examiner Leo W. Cunningham.

No. MC 117543, filed July 24, 1958. Applicant: BENDER TRUCKING CO., INC., P. O. Box 274, Schofield, Wis. Applicant's representative: Adolph E. Solie, 715 First National Bank Bldg., Madison 3, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mink food* (inedible packing-house by-products), from Ottumwa, Iowa and Sioux Falls, S. Dak., to points in Adams, Buffalo, Chippewa, Clark, Eau Claire, Jackson, Juneau, La Crosse, Langlade, Lincoln, Marathon, Monroe, Portage, Richland, Sauk, Taylor, Trempealeau, Vernon and Wood Counties, Wis.

HEARING: October 20, 1958, at the Wisconsin Public Service Commission, Madison, Wis., before Examiner Michael B. Driscoll.

No. MC 117544, filed July 24, 1958. Applicant: LUMBER HAULERS, INC., 316 S. W. "K" St., Grants Pass, Oreg. Applicant's representative: I. R. Perry, P. O. Box 594, Grants Pass, Oreg. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, including plywood and box shooks*, from points in Lane and Douglas Counties, Oreg., to points in California and Nevada.

HEARING: October 27, 1958, in Room 216, Douglas County Courthouse, Roseburg, Oreg., before Joint Board No. 151.

No. MC 117553, filed July 28, 1958. Applicant: WILLIAM ABRAHAM, doing business as SHEBOYGAN PRODUCE COMPANY, 1226 Jefferson Ave., Sheboygan, Wis. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Butter* and *cheese*, from points in Wisconsin to New York, N. Y., Baltimore, Md., Washington, D. C., Boston, Mass., Providence, R. I., and Philadelphia and Pittsburgh, Pa.; and (2) *Sugar*, in bags, bundles, and containers, from Boston, Mass., Brooklyn, N. Y., Baltimore, Md., and Philadelphia, Pa., to points in Wisconsin and the Upper Peninsula of Michigan.

HEARING: October 21, 1958, at the Wisconsin Public Service Commission, Madison, Wis., before Examiner Michael B. Driscoll.

No. MC 117590, filed August 19, 1958. Applicant: WOOD BY-PRODUCTS, INC., 420 28th Street, North Lewiston, Idaho. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips* and *sawdust*, from Lincoln, Wash., and Potlatch, Idaho to Lewiston, Idaho.

HEARING: October 8, 1958, at the Idaho Public Utilities Commission, State House, Boise, Idaho, before Joint Board No. 109.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING IS REQUESTED

MOTOR CARRIERS OF PROPERTY

No. MC 42065 (Sub No. 10), filed August 15, 1958. Applicant: ALEX MANCULICH, ANNA MANCULICH, EXECUTRIX, doing business as SANITARY TRANSFER, 4808 Penn Avenue, Pittsburgh 24, Pa. Applicant's attorney: John A. Vuono, 1211 Berger Building, Pittsburgh 19, Pa. Authority sought to operate as a *contract or common carrier*, by motor vehicle, over irregular routes, transporting: *Bakery products* and *empty containers therefor*, between Pittsburgh, Pa., and Uhrichsville, Ohio. Applicant is authorized to conduct regular and irregular operations in Maryland, Ohio, Pennsylvania, and West Virginia.

NOTE: A proceeding has been instituted under section 212 (c) in No. MC 42065 (Sub No. 8) to determine whether applicant's status is that of a contract or common carrier.

No. MC 45158 (Sub No. 16), filed August 15, 1958. Applicant: KILLION MOTOR EXPRESS, INC., 1417 Magazine Street, Louisville, Ky. Applicant's attorney: Harry McChesney, Jr., 7th Floor McClure Bldg., Frankfort, Ky. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment, between junction of U. S. Highway 27 with Tennessee Highway 63, near Helenwood, Tenn., and Caryville, Tenn.: from junction U. S. Highway 27 and Tennessee Highway 63 over Tennessee Highway 63 to Caryville, Tenn., and return over the same route, serving no intermediate points, and serving Caryville for purpose of joinder (with applicant's present alternate route between Stanford, Ky., and Clinton, Tenn.), only, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations. Applicant is authorized to conduct operations in Kentucky, Missouri, Tennessee, Indiana and Illinois.

No. MC 66562 (Sub No. 1447), filed August 20, 1958. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 East 42nd Street, New York 17, N. Y. Applicant's attorney: William H. Marx, Law Department, Railway Express Agency, Incorporated, (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over a regular route, transporting: *General commodities, including Class A and B explosives*, moving in express service, between Houston, Tex., and San Antonio, Tex., from Houston over U. S. Highway 90 to Seguin, Tex., thence over Texas Highway 78 to junction Farm Road 1516, thence over Farm Road 1516 to junction U. S. Highway 90, and thence over U. S. Highway 90 to San Antonio, and return over the same route, serving the intermediate or off-route points of Katy, Brookshire, Columbus, Weimar, Schulenburg, Flatonia, Waelder, Luling, Seguin, and Randolph Field, Tex. Applicant indicates the proposed transportation service will be subject to the following conditions: The service to be performed will be limited to that which is auxiliary to or supplemental of express service, and the shipments transported by applicant will be limited to those moving on a through bill of lading or express receipt, covering, in addition to the motor carrier movement by applicant, an immediately prior or an immediately subsequent movement by rail or air. Applicant is authorized to conduct operations throughout the United States.

No. MC 66562 (Sub No. 1448), filed August 25, 1958. Applicant: RAILWAY EXPRESS AGENCY, INCORPORATED, 219 E. 42d Street, New York 17, N. Y. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities including Class A and B explosives*, moving in express service, (1) between Janesville, Wis., and Monroe, Wis., from Janesville, over Wisconsin Highway 11 to Shullsburg, thence return over Wisconsin Highway 11 to junction of Wisconsin Highway 23, thence over Wisconsin Highway 23 to junction Wisconsin Highway 81, thence over Wisconsin Highway 81 to Darlington, thence return over Wisconsin Highway 81 to the junction of Wisconsin Highway 126, thence over Wisconsin Highway 126 to Belmont, thence over U. S. Highway 151 to Mineral Point, thence over Wisconsin Highway 39 to junction of Wisconsin Highway 59, thence over Wisconsin Highway 59 to Albany, thence return over Wisconsin Highway 59 to Monroe, thence over Wisconsin Highway 11 to Janesville, serving the intermediate or off-route points of Footville, Orfordville, Brodhead, Juda, Browntown, South Wayne, Gratiot, Belmont, Mineral Point, New Glarus, Monticello, Shullsburg, Darlington and Albany; (2) between Monticello, Wis., and Monroe, Wis., over Wisconsin Highway 69, serving no intermediate points, as an alternate route for operating convenience only. Applicant is authorized to conduct operations throughout the United States.

NOTE: Applicant states that the service to be performed will be limited to such as is auxiliary to or supplemental of rail or air express service. All shipments to be transported will be limited to those moving under Railway Express Agency tariffs on a Railway Express Agency receipt or waybill covering in addition to motor carrier movements an immediately prior or immediately subsequent movement by rail or air.

No. MC 69281 (Sub No. 36), filed August 21, 1958. Applicant: THE DAVIDSON TRANSFER & STORAGE CO., 6301 Pulaski Highway, Baltimore, Md. Applicant's attorney: Roland Rice, Suite 618 Perpetual Bldg., 1111 E. St. NW., Washington 4, D. C. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, comodities in bulk, and those requiring special equipment, over the following alternate routes for operating convenience only, serving no intermediate points: (1) Between the junction of U. S. Highways 122 and 30, north of Parkersburg, Pa., and Lancaster, Pa., over U. S. Highway 30; (2) between the junction of U. S. Highway 30 and Pennsylvania Highway 41, near Gap, Pa., and Wilmington, Del., from the junction of U. S. Highway 30 and Pennsylvania Highway 41 over Pennsylvania Highway 41 to the junction of Delaware Highway 41, thence over Delaware Highway 41 to the junction of Delaware Highway 48, thence over Delaware Highway 48 to Wilmington, and return over the same route; (3) between the junction of U. S. Highways 40 and 13 at or near State Roads, Del., and Norfolk, Va., over U. S. Highway 13 and via the Kiptopeka Ferry. Applicant is authorized to conduct operations in Maryland, New York, New Jersey, Delaware, Pennsylvania, Virginia, District of Columbia, Massachusetts, Rhode Island, Maine, Connecticut, New Hampshire, Vermont, Ohio, Illinois, Indiana, Michigan, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Kentucky and Tennessee.

No. MC 79013 (Sub No. 2), filed August 18, 1958. Applicant: WALTER BAKER, doing business as ARROW TRANSPORTATION CO., 200 Third Street, Brooklyn, N. Y. Applicant's representative: Bert Collins, 140 Cedar Street, New York 6, N. Y. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Brick, tile* and *clay products*, between points in Connecticut, New Jersey, New York and Pennsylvania within 100 miles of New York, N. Y. Applicant indicates the proposed service to be restricted to shipments removed from rail cars having an immediately prior movement in interstate commerce. Applicant is authorized to conduct operations in Connecticut, New Jersey, New York and Pennsylvania.

No. MC 99230 (Sub No. 4), filed August 1, 1958. Applicant: PIONEER FREIGHT, INC., 1015 S. W. Second Street, Oklahoma City 4, Okla. Applicant's attorney: Louis Tarlowski, Rector Building, Little Rock, Ark. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities, including Class A and B explosives*, but excepting those of unusual value, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, A. Between points in Oklahoma as follows: (1) "Between Oklahoma City and Chickasha by U. S. Highway 277; Between Oklahoma City and Tulsa by U. S. Highway 77, State Highway 9 and/or U. S. Highways 270 and 75; Between Norman and Stratford by U. S. Highway 77, State Highways 59 and 18; Between Blanchard and Wetumka by State Highway 9, serving to, from and between the following cities and towns; Beggs, Blanchard, Bowden, Chickasha, Earlsboro, Henryetta, Holdenville, Keifer, Mounds, Oklahoma City, Okmulgee, Preston,

Sapulpa, Schulter, Seminole, Shawnee, Springhill, Stratford, Tecumseh, Tulsa, Weleetka, Wetumka, Wewoka, authorizing service to, from and/or between any and all points on the above described routes with the following restrictions imposed: 1. Shipments originating in Oklahoma City shall not be transported to Henryetta nor shall shipments originating at Henryetta be transported to Oklahoma City. 2. Shipments originating in Oklahoma City shall not be transported to Okmulgee, nor shall shipments originating in Okmulgee be transported to Oklahoma City. 3. Shipments originating or interlined at Oklahoma City shall not be transported to Sapulpa nor shall shipments originating or interlined at Sapulpa be transported to Oklahoma City. 4. Shipments originating or interlined at Oklahoma City shall not be transported to Tulsa nor shall shipments originating or interlined at Tulsa be transported to Oklahoma City." (2). "For the transportation of freight between Oklahoma City, Okla., Stratford, Ada, Stonewall, Tupelo, Centrahoma, Coalgate, Phillips, Lehigh, Atoka, over highways as follows: U. S. Highway 270, State Highways Nos. 18 and 19, State Highway No. 3, and U. S. Highway 75 from intersection of State Highway No. 3, serving to, from and between only the points named; between Shawnee, Oklahoma, Stratford, Ada, Stonewall, Tupelo, Centrahoma, Coalgate, Phillips, Lehigh and Atoka, over the following highways: State Highways Nos. 18 and 19, State Highway No. 3 and U. S. Highway 75 from intersection of State Highway No. 3; Fittstown, Pontotoc, Connerville, and Tishomingo over highways as follows: State Highway No. 99 and State Highway No. 3, serving to, from and between only the points named." (3) "Between Oklahoma City, Oklahoma, and McAlester, Oklahoma, via State Highway No. 3 from Oklahoma City to intersection of said State Highway No. 3 and U. S. Highway No. 270 (said intersection being located approximately 4 miles west of McLoud) thence via U. S. Highway No. 270 to McAlester, serving all points on route in either direction, conditioned, however, that on east bound movements applicant shall operate with closed doors upon leaving Oklahoma City until reaching McAlester". (4) "Between McAlester and the Oklahoma-Arkansas State line near Arkoma via Hartshorne, Wilburton, Red Oak, Wister, Poteau and Spiro, Oklahoma, over U. S. Highways 270, 59 and 271"; "to, from and between all points located on any of the following routes as a consolidated unit certificate with the specific right to transport such freight from any point on any route to any point on that or any other route; from McAlester, Oklahoma, over U. S. Highway 69 to Colbert, Oklahoma, and returning over the same route serving all intermediate points in both directions." (5) between Muskogee and Oklahoma City, via U. S. Highway 62, serving said points and all intermediate points on said route, specifically restricted against service either way from Oklahoma City to Harrah and Choctaw. B. Between Arkoma, Okla. and points in the Commercial Zone of Fort Smith, Ark.

NOTE: This application is filed in part to obtain a Certificate of Public Convenience and Necessity authorizing continuance of interstate operations conducted under the second proviso of section 206 (a) (1) of the Interstate Commerce Act, in lieu of intrastate certificates on file with this Commission.

No. MC 114621 (Sub No. 3), filed August 22, 1958. Applicant: CALVIN KAUFMAN, doing business as KAUFMAN GRAIN ELEVATOR, Cissna Park, Ill. Applicant's attorney: Thomas A. Graham, Suite 1149, 10 S. La Salle St., Chicago 3, Ill. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk, form Buffington, Ind., to Cissna Park, Ill. Applicant is authorized to transport cement, in bags, from Buffington, Ind., to Cissna Park, Ill.

No. MC 114917 (Sub No. 1), filed August 15, 1958. Applicant: DART TRANSPORTATION SERVICE, A Corporation, 3758 Fruitland Avenue, Maywood, Calif. Applicant's attorney: Elmer P. Bromley, 3946 Wilshire Blvd., Los Angeles 5, Calif. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by mail-order and chain retail department business houses, from points in the Los Angeles Commercial Zone and the Los Angeles Harbor Commercial Zone, as these zones are defined in Los Angeles, Calif., Commercial Zone, 3 M. C. C. 248, to Antioch, Bakersfield, Berkeley, Emeryville, Fresno, Hanford, Hayward, Marysville, Modesto, Oakland, Sacramento, San Francisco, San Mateo, Stockton, Santa Rosa, Vallejo, Visalia, Walnut Creek and Willows, Calif. Applicant is authorized to conduct operations in California.

NOTE: Duplication should be eliminated.

No. MC 116628 (Sub No. 2), (CORRECTION) filed August 1, 1958, published issue August 13, 1958, at page 6223. Applicant: SUBURBAN TRANSFER SERVICE, INC., P. O. Box 11, 383 Washington Avenue, Belleville, N. J. Applicant's representative: Jacob Polin, 314 Old Lancaster Road, Merion, Pa. The previous notice incorrectly spelled *Bala-Cynwyd, Pa.*, one of the points involved, as Bala-Cynwood, Pa. The correct spelling is *Bala-Cynwyd*.

No. MC 117304 (Sub No. 2), filed August 18, 1958. Applicant: DON PAFFILE, doing business as PAFFILE TRUCK LINES, 2906 9th Ave., N., Lewiston, Idaho. Applicant's attorney: John H. Bengtson, Weisgerber Bldg., Lewiston, Idaho. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips*, in bulk, from Coeur d'Alene, Idaho, to Lewiston, Idaho, and *empty containers or other such incidental facilities* (not specified) used in transporting wood chips, on return.

MOTOR CARRIERS OF PASSENGERS

No. MC 107583 (Sub No. 9), filed August 18, 1958. Applicant: SALEM TRANSPORTATION CO., INC., doing business as ATLANTIC CITY TRIPS, 291 Broadway, Suite 504, New York 7, N. Y. Applicant's attorney: George H. Rosen, 291 Broadway, New York 7, N. Y. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in special operations, in non-scheduled door-to-door service, limited to the transportation of not more than seven passengers in any one vehicle, not including the driver thereof, and not including children under ten years of age who do not occupy a seat or seats, between Philadelphia International Airport, Philadelphia, Pa., and Lakehurst Naval Air Station, Lakehurst, N. J. Applicant is authorized to conduct operations in Delaware, Maryland, New Jersey, New York, Pennsylvania and the District of Columbia.

APPLICATIONS UNDER 212 (c) CONVERSION PROCEEDINGS

No. MC 2592 (Sub No. 2). Applicant: D. A. BROWN, doing business as BROWN MOTOR LINES AND STORAGE COMPANY, Greenville, S. C. Carrier filed an application, under section 212 (c) of the Interstate Commerce Act, for a determination of its status pertaining to contract carrier authority issued on or before August 22, 1957. On July 21, 1958, the carrier requested dismissal of the application, and an order was entered on August 5, 1958, effective September 22, 1958, dismissing the application and discontinuing the proceeding.

No. MC 52676 (Sub No. 5). Applicant: T. E. FLETCHER, doing business as FLETCHER TRUCK LINE, Hadley, Pennsylvania. Carrier filed an application on February 12, 1958, under section 212 (c) of the Interstate Commerce Act, for a determination of its status pertaining to contract carrier authority issued on or before August 22, 1957. Pursuant to order of the Commission in No. MC–FC 60821, entered January 15, 1958, and consummated February 10, 1958, the operating rights of T. E. Fletcher were transferred to Richard A. Johnson. The operations conducted pursuant to said proceeding are, and continue to be those of a contract carrier as defined in section 203 (a) (15). Inasmuch as T. E. Fletcher holds no authority from this Commission to conduct interstate motor carrier operations the order entered February 15, 1958, instituting a proceeding is hereby vacated and set aside as of September 29, 1958.

No. MC 116980, (REPUBLICATION). Applicant: F. P. NEILSON, WILLIS F. NEILSON, IVAN R. NEILSON AND LARS P. NEILSON, doing business as ARIZONA SALES COMPANY, P. O. Box 787, 116 W. 4th Avenue, Mesa, Ariz. Applicant's attorney: James F. Haythornewhite, 703 Luhrs Tower, Phoenix, Ariz. This publication covers an order of the Commission, Division 1, entered in the subject proceeding under date of August 4, 1958. The order vacates and sets aside the order entered herein April 23, 1958, which provided for the issuance, upon certain conditions, of a permit to conduct operations as a contract carrier, and finds;

That the operations to be conducted pursuant to the grant of authority herein will not conform with the definition of a contract carrier as set forth in

section 203 (a) (15) of the Interstate Commerce Act, as amended, but will be those of a common carrier by motor vehicle;

That the present and future public convenience and necessity require operation by applicants as a common carrier by motor vehicle, in interstate or foreign commerce, of chemical fertilizers, in bulk, from Fontana, Brea, Nitroshell, Vernon, and San Diego, Calif., and points in the Los Angeles Harbor commercial zone, as defined by the Commission, to points in Maricopa, Pinal, Cochise, Yuma, Pima, and Graham Counties, Ariz., over irregular routes, subject to the restriction that transportation of liquid chemical fertilizers is not authorized; that applicants are fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act, and our rules and regulations thereunder; and that applicants are in compliance with section 215 of the Interstate Commerce Act;

That upon full compliance by applicants with the requirements of sections 215, 217, and 221 (c) of the Interstate Commerce Act and with the rules and regulations thereunder, and upon the elapse of thirty days from the date of this publication in the FEDERAL REGISTER of notice of these modified findings, an appropriate certificate be issued to applicants, provided that no protests, or petitions, are received during the thirty (30) day period.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5, GOVERNED BY SPECIAL RULE 1.240 TO THE EXTENT APPLICABLE

MOTOR CARRIERS OF PROPERTY

No. MC 42487 (Sub No. 375), filed August 20, 1958. Applicant: CONSOLIDATED FREIGHTWAYS, INC., 431 Burgess Drive, Menlo Park, Calif. Applicant's attorney: Wyman C. Knapp, 727 West Seventh Street, Los Angeles 17, Calif.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment other than those requiring special handling because of weight or bulk, between points in the Los Angeles Harbor Commercial Zone, as defined in Los Angeles, Calif., Commercial Zone, 3 M. C. C. 248, on the one hand, and, on the other, points within 30 miles of the intersection of First and Main Streets, Los Angeles, Calif. Between points in the Los Angeles Metropolitan area, including the area east of a line extending in a generally northwesterly and northerly direction from the intersection of Inglewood Avenue and Redondo Beach Boulevard, along the eastern and northern corporate limits of Redondo Beach, Calif. to the eastern corporate limits of Manhattan Beach, Calif.; thence along the eastern and northern corporate limits of Manhattan Beach to the Pacific Ocean; thence along the shore line of the Pacific Ocean to the western corporate limits of Los Angeles at a point east of Topanga Canyon, and thence along the western corporate limits of Los Angeles to a point near Santa Susana Pass; south of a line extending in a generally easterly direction from a point near Santa Susana Pass along the northern corporate limits of Los Angeles to its intersection with State Highway 118, northeasterly and southeasterly along State Highway 118 to the westerly corporate limits of Pasadena, and thence along the western and northern corporate limits of Pasadena to the northeastern corner of Pasadena; west of a line extending in a generally southerly and southwesterly direction from the northeastern corner of Pasadena along the eastern and a portion of the southern corporate limits of Pasadena to the eastern corporate limits of San Marino, Calif., thence along the eastern corporate limits of San Marino to its intersection with U. S. Highway 66; thence easterly along U. S. Highway 66 to its junction with State Highway 71; thence southerly along State Highway 71 through and including the City of Pomona to its junction with U. S. Highway 60; westerly along U. S. Highway 60 to its junction with State Highway 35; southerly along State Highway 35 to Beverly Boulevard; southeasterly along Beverly Boulevard to Painter Avenue in the City of Whittier; southerly along Painter Avenue to Telegraph Road; westerly along Telegraph Road to the west bank of the San Gabriel River; southerly along the west bank of the San Gabriel River to Imperial Highway; westerly along Imperial Highway to State Highway 19; southerly along State Highway 19 to its intersection with the northern corporate limits of Long Beach, Calif.; thence north of a line extending in a generally westerly direction from said point of intersection along the northern corporate limits of Long Beach and the southern and a portion of the western corporate limits of Compton, Calif. to Olive Street; thence along Olive, Main, Walnut and 162nd Streets to the eastern corporate limits of Torrance; thence along a portion of the eastern and the northwestern corporate limits of Torrance to Redondo Beach Blvd.; and thence along Redondo Beach Boulevard to Inglewood Avenue. Between points in the San Francisco-East Bay Cartage Zone including that area embraced within the following boundaries: Beginning at the point where the San Francisco-San Mateo County Boundary Line meets the Pacific Ocean; thence easterly along said boundary line to Lake Merced Boulevard; thence southerly along said Lake Merced Blvd. and Lynnewood Drive to So. Mayfair Avenue; thence westerly along said South Mayfair Avenue to Crestwood Drive; thence southerly along Crestwood Drive to Southgate Avenue; thence westerly along Southgate Avenue to Maddux Drive; thence southerly and easterly along Maddux Drive to a point one mile west of Highway U. S. 101; thence southeasterly along an imaginary line one miles west of and paralleling Highway U. S. 101 (El Camino Real) to its intersection with the southerly boundary line of the City of San Mateo; thence northeasterly, northwesterly, northerly and easterly along said southerly boundary to Bayshore Highway (U. S. 101 Bypass); thence leaving said boundary line and continuing easterly along the projection of last said course to its intersection with Belmont (or Angelo) Creek; thence northeasterly along Belmont (or Angelo) Creek to Seal Creek; thence westerly and northerly to a point one mile south of Toll Bridge Road; thence easterly along an imaginary line one mile southerly and paralleling Toll Bridge Road and San Mateo Bridge and Mt. Eden Road to its intersection with State Sign Route 17; thence continuing easterly and northeasterly along an imaginary line one mile south and southeasterly of and paralleling Mt. Eden Road and Jackson Road to its intersection with an imaginary line one mile easterly of and paralleling State Sign Route 9; thence northerly along said imaginary line one mile easterly of and paralleling State Sign Route 9 to its intersection with "B" Street, Hayward; thence easterly and northely along "B" Street to Center Street; thence northerly along Center Street to Castro Valley Boulevard; thence westerly along Castro Valley Boulevard to Redwood Road; thence northerly along Redwood Road to William Street; thence westerly along William Street and 168th Avenue to Foothill Boulevard; northwesterly along Foothill Boulevard to the southerly boundary line of the City of Oakland; thence easterly and northerly along the Oakland Boundary line to its intersection with the Alameda-Contra County Boundary Line; thence northwesterly along last said line to its intersection with Arlington Avenue (Berkeley); thence northwesterly along Arlington Avenue to a point one mile northeasterly of San Pablo Avenue (Highway U. S. 40); thence northwesterly along an imaginary line one mile easterly of and paralleling San Pablo Avenue (Highway U. S. 40) to its intersection with County Road 20 (Contra Costa County); thence westerly along County Road 20 to Broadway Avenue (also known as Balboa Road); thence northerly along Broadway Avenue (also known as Balboa Road) to Highway U. S. 40; thence northerly along Highway U. S. 40 to Rivers Street; thence westerly along Rivers Street to 11th Street; thence northerly along 11th Street to Johns Avenue; thence westerly along Johns Avenue to Collins Avenue; thence northerly along Collins Avenue to Morton Avenue; thence westerly along Morton Avenue to the Southern Pacific Company right of way and continuing westerly along the prolongation of Morton Avenue to the shore line of San Pablo Bay; thence southerly and westerly along the shore line and waterfront of San Pablo Bay to Point San Pablo; thence southerly along an imaginary line from Point San Pablo to the San Francisco Waterfront at the foot of Market Street; thence westerly along said waterfront and shore line to the Pacific Ocean; thence southerly along the shore line of the Pacific Ocean to the point of beginning. The foregoing description includes the following points or portions thereof: Alameda, Alameda

Pier, Albany, Baden, Bay Farm Island, Bayshore, Berkeley, Bernal, Brisbane, Broadway, Burlingame, Camp Knight, Castro Valley, Colma, Daly City, East Oakland, El Cerrito, Elkton, Elmhurst, Emeryville, Ferry Point, Fruitvale, Government Island, Hayward, Lawndale, Limita Park, Melrose, Millbrae, Hills Field, Mt. Eden, Oakland, Oakland Municipal Airport, Oakland Pier, Ocean View, Piedmont, Point Castro, Point Fleming, Point Isabel, Point Molate, Point Orient, Point Potrero, Point Richmond, Point San Pablo, Richmond, Russell City, San Bruno, San Francisco, San Francisco International Airport, San Leandro, San Lorenzo, San Mateo, San Pablo, South San Francisco, Stege, Tanforan, Treasure Island, Union Park, Visitacion, Westlake, Winehaven, Yerba Buena Island. Applicant is authorized to conduct operations in Arizona, California, Idaho, Illinois, Indiana, Iowa, Michigan, Minnesota, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, Wisconsin and Wyoming.

NOTE: This matter is directly related to MC–F 6987, which was published in the FEDERAL REGISTER August 27, 1958. Duplication should be eliminated.

APPLICATIONS UNDER SECTIONS 5 AND 210a (b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5 (a) and 210a (b) of the Interstate Commerce Act and certain other procedural matters with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F 6988. Authority sought for purchase by J. K. WYATT, Gatesville, N. C., of the operating rights of ARMSTRONG FREIGHT LINES, INC., Sunbury, N. C. Applicants' attorney: James E. Wilson, 716 Perpetual Building, 1111 E Street NW., Washington, D. C. Operating rights sought to be transferred: *Hay balers, hay baler motors, fertilizer, potatoes, logs, seed, coal, lime, lumber, wood shingles, barrel staves, wooden staves, sawdust, sawmill machinery, steel stove hoops, tobacco harvesters, cotton harvesters,* and *materials and supplies* used in the manufacture of tobacco harvesters and cotton harvesters, as a *common carrier* over irregular routes, from, to, or between points and areas, varying with the commodity transported, in North Carolina, Alabama, Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, South Dakota, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, Florida, Georgia, South Carolina, Texas, Louisiana, and the District of Columbia; *agricultural machinery and implements (other than hand)* and *agricultural machinery and implements parts (other than hand)*, as described in Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M. C. C. 209, moving in foreign commerce only, from ports of entry on the United States-Canada Boundary line at or near Niagara Falls and Buffalo, N. Y., to points in Ohio. Vendee is authorized to operate as a *contract carrier* in New York, Connecticut and North Carolina. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6989. Authority sought for purchase by F & W EXPRESS, INC., 678 Louisiana Street, Memphis, Tenn., of a portion of the operating rights and certain property of THE INTER-CITY TRUCKING COMPANY, 132 Legion Street, Johnson City, Tenn., and for acquisition by C. N. FINLEYSON and HENRY B. WILLARD, both of Memphis, of control of such rights and property through the purchase. Applicants' attorneys: James H. Epps, Jr., Thad A. Cox Building, Johnson City, Tenn., and Ramsay Wall, First National Bank Building, Memphis, Tenn. Operating rights sought to be transferred: *General commodities*, with certain exceptions including commodities in bulk and excluding household goods, as a *common carrier* over a regular route between Memphis, Tenn., and Dyersburg, Tenn., serving all intermediate points. Vendee is authorized to operate as a *common carrier* in Tennessee and Mississippi. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6990. Authority sought for purchase by CLARK TANK LINES COMPANY, 1450 North Beck Street, Salt Lake City, Utah, of a portion of the operating rights of INTERSTATE MOTOR LINES, INC., 235 West Third South, Salt Lake City 1, Utah, and for acquisition by BOYCE R. CLARK, also of Salt Lake City, of control of such rights through the purchase. Applicants' attorney: Berol and Silver, 100 Bush Street, San Francisco 4, Calif. Operating rights sought to be transferred: *Liquid petroleum products*, in tank vehicles, as a *common carrier* over regular routes, between Salt Lake City, Utah, and Elko, Nev., and between Salt Lake City, Utah, and Ely, Nev., serving all intermediate and certain off-route points; *petroleum products*, in bulk, in tank vehicles, over an alternate route for operating convenience only between Salt Lake City, Utah, and Ely, Nev. Vendee is authorized to operate as a *common carrier* in Utah, Idaho and Oregon. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6991. Authority sought for purchase by POINT EXPRESS, INC., 3735—7th Avenue, Charleston, W. Va., of a portion of the operating rights of THE OVERLAND TRANSPORTATION COMPANY, 184 Massillon Road, Akron 5, Ohio, and for acquisition by PAUL F. YOUNGBLOOD, HARLEY H. HARTLEY, VITUS HARTLEY, SR., WILLIAM P. FINNERAN, ART E. HARTLEY, VITUS HARTLEY, JR., WILLIAM H. HANKS and WILLIAM T. MALE, all of Charleston, of control of such rights through the purchase. Applicants' attorney: Francis W. McInerny, 504 Commonwealth Building, Washington 6, D. C. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes, between Chester, W. Va., and Charleston, W. Va., and between Akron, Ohio, and Charleston, W. Va., serving certain intermediate and off-route points; service at Charleston, W. Va., is restricted to traffic moving to or from Akron and Barberton, Ohio. Vendee is authorized to operate as a *common carrier* in West Virginia, Ohio, Kentucky, Pennsylvania, Indiana and Virginia. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6992. Authority sought for purchase by KEYSTONE EXPRESS AND STORAGE COMPANY, INC., 229 West James Street, Lancaster, Pa., of the operating rights of M. F. ROCKEY TRANSPORTATION COMPANY, 6th and P. R. R., New Cumberland, Pa., and for acquisition by GEORGE F. HOSTETTER and JOSEPH F. FRITZ, both of Lancaster, of control of such rights through the purchase. Applicants' attorney: Christian V. Graf, 11 North Front Street, Harrisburg, Pa. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over a regular route between Harrisburg, Pa., and York Haven, Pa., serving all intermediate points and the off-route point of Marysville, Pa.; *general commodities*, with certain exceptions including household goods and commodities in bulk, over irregular routes, between points west of the Susquehanna River within six miles of New Cumberland, Pa., including New Cumberland, on the one hand, and, on the other, points within 15 miles of New Cumberland. Vendee is authorized to operate as a *common carrier* in Pennsylvania, New Jersey, Maryland, Delaware, New York, Massachusetts, Connecticut, Rhode Island, New Hampshire, Virginia, West Virginia, Ohio, Indiana, Illinois, Georgia, North Carolina, South Carolina, Michigan and the District of Columbia. Application has not been filed for temporary authority under section 210a (b).

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

[F. R. Doc. 58–7129; Filed, Sept. 3, 1958; 8:52 a. m.]

PETITION TO REDEFINE COMMERCIAL ZONE LIMITS

AUGUST 29, 1958.

The following petition relative to the limits of the zone adjacent to and commercially a part of a municipality within the meaning of section 203 (b) (8) of the Interstate Commerce Act has been received and will be processed in the manner hereinafter indicated.

In Ex Parte No. MC–37, *Commercial Zones and Terminal Areas*, in addition to the five petitions previously filed, notice of which was published July 16, 1958, a petition has been filed by the Monsanto Chemical Company, on July 25, 1958, seeking redefinition of the limits of the commercial zone of New Orleans, La., in a manner to expand them. Petitioner's representative is Ford Maggard, Monsanto Chemical Company, St. Louis, Mo.

The limits of the commercial zone of New Orleans, La., are presently defined in Ex Parte No. MC–37, *Commercial Zones and Terminal Areas* (New Orleans, La., Commercial Zone), 66 M. C. C. 709 (49 CFR 170.27).

Petitioner seeks enlargement of the specifically described zone limits in the area west of Jefferson Parish, particularly to include its plant located between Luling and Boutte, La., in St. Charles Parish.

No oral hearing is contemplated with respect to this petition or the petitions previously filed, but an informal investigation with respect to redefinition of the zone limits as requested, and in other respects, will be conducted. Subsequent to such investigation the Commission will either (1) enter an order denying the petition or, (2) if any change is considered, a notice of proposed rule making will be published. Persons supporting or opposed to any change in the present zone limits, who desire to participate in future proceedings on this petition or be notified of any action taken thereon, should notify the Commission and the individual petitioner of their desire on or before 30 days from the date of this publication.

By the Commission.

[SEAL] HAROLD D. McCOY, *Secretary.*

FOURTH SECTION APPLICATIONS FOR RELIEF

AUGUST 29, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34931: *TOFC Service—Class rates—Between points in Missouri and points in Trunk Line Territory.* Filed by Southwestern Freight Bureau, Agent, for interested rail carriers. Rates on commodities moving on class rates in trailers loaded on railroad flat cars between specified points in Maryland, New Jersey, New York, and Pennsylvania, on the one hand, and specified points in Missouri, on the other.

Grounds for relief: Motor truck competition.

Tariff: Supplement 3 to Southwestern Freight tariff I. C. C. 4298 (SWFB No. B-7355).

FSA No. 34932: *Caustic soda from Baton Rouge and North Baton Rouge, La.* Filed by O. W. South, Jr., Agent (SFA No. A3720), for interested rail carriers. Rates on liquid caustic soda, in tank-car loads from Baton Rouge and North Baton Rouge, La., to Nashville and Old Hickory, Tenn.

Grounds for relief: Market competition with Texas producing points.

Tariff: Supplement 31 to Southern Freight Association tariff I. C. C. 452.

FSA No. 34933: *Caustic soda from Louisiana and Texas points.* Filed by Southwestern Freight Bureau, Agent (No. B–7362), for interested rail carriers. Rates on liquid caustic soda, tank-car loads from Lake Charles and Plaquemine, La., Corpus Christi, Houston, and Velasco, Tex., to Nashville and Old Hickory, Tenn.

Grounds for relief: Market competition with Evans and Redstone Arsenal, Ala.

Tariffs: Supplement 333 to Southwestern Freight Bureau tariff I. C. C. 4087. Supplement 506 to Southwestern Freight Bureau tariff I. C. C. 4139.

FSA No. 34934: *Iron and steel articles—Sand Springs, Okla., to Baton Rouge and New Orleans, La.* Filed by Southwestern Freight Bureau, Agent (No. B–7374), for interested rail carriers. Rates on iron and steel articles, carloads from Sand Springs, Okla., to Baton Rouge and New Orleans, La.

Grounds for relief: Market competition with Chicago, Ill.

Tariff: Supplement 217 to Southwestern Freight Bureau tariff I. C. C. 4170.

AGGREGATE-OF-INTERMEDIATES

FSA No. 34935: *Passenger fares from and to points on the N. Y., N. H. & H.* Filed by The New York, New Haven and Hartford Railroad Company (No. 1), for interested rail carriers, involving fares for transportation of person between specified points in Massachusetts, on the one hand, and specified points in Rhode Island, Connecticut, and New York, on the other, also stations on carriers west and south of New York, N. Y., as described in the application.

Grounds for relief: Maintenance of through one-factor fares higher than aggregate-of-intermediate fares.

By the Commission.

[Notice 21]

MOTOR CARRIER TRANSFER PROCEEDINGS

AUGUST 29, 1958.

Synopses of orders entered pursuant to section 212 (b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC 61285. By order of August 26, 1958, The Transfer Board approved the transfer to William F. Conrad, doing business as Hub City Transfer & Storage Co., 107 East Pine, Centralia, Wash., of Certificate No. MC 1798, issued June 9, 1949, to William F. Conrad and Robert W. Conrad, a partnership, doing business as Hub City Transfer & Storage Co., 107 East Pine, Centralia, Wash., authorizing the transportation of: General commodities, excluding household goods and other specified commodities, between Centralia, Wash., and Chehalis, Wash., and household goods, between points in Lewis and Thurston Counties, Wash., on the one hand, and, on the other, points in Oregon.

No. MC–FC 61319. By order of August 25, 1958, The Transfer Board approved the transfer to W. S. Willson, C. W. Bechberger, and D. W. Frederick, a Partnership, doing business as Bell Transit Company, Pittsburgh, Pennsylvania, of Permits Nos. MC 59527, MC 59527 Sub 4, and MC 59527 Sub 5, issued July 26, 1937, March 14, 1940, and August 2, 1949, respectively, to W. S. Willson and J. H. Tietz, a partnership, doing business as Bell Transit Company, Pittsburgh, Pennsylvania, authorizing the transportation of compressed gases and chemicals in steel cylinders, empty steel cylinders, and such materials, supplies, and equipment used in the production or consumption of such gases and chemicals, between Toledo, Youngstown, and Cleveland, Ohio, Detroit and Grand Rapids, Mich., Pittsburgh, Trafford, and Verona, Pa., Newark, N. J., and Fort Wayne, Ind., on the one hand, and, on the other, points in Ohio, West Virginia, Michigan, and a specified part of Pennsylvania; between points in Mifflin Township, Allegheny County, Pa., on the one hand, and, on the other, points in Ohio, West Virginia, and Michigan, and those in Allegheny County, Pa.; and between points in a designated portion of Armstrong County, Pa., on the one hand, and, on the other, points in Ohio, West Virginia, Michigan, and a designated portion of Pennsylvania. Robert B. McKinley, 1200 Standard Life Bldg., Pittsburgh 22, Pa., for applicants.

No. MC–FC 61388. By order of August 25, 1958, The Transfer Board approved the transfer to Edward M. Hentz, doing business as Point Roberts Auto Freight, Bellingham, Washington, of Certificate in No. MC 110429, issued April 6, 1950, to Charles W. Lutz, doing business as Point Roberts Auto Freight, Bellingham, Washington, authorizing the transportation of: General commodities, with no exceptions, over regular routes, between Bellingham, Wash., and the boundry of the United States and Canada, and between Point Roberts, Wash., and the boundary of the United States and Canada.

Joseph O. Earp, 1912 Smith Tower, Seattle 4, Wash., for applicants.

No. MC–FC 61401. By order of August 25, 1958, The Transfer Board approved the transfer to Augustus P. Whelen, Glen Head, N. Y., of certificate No. MC 85081, issued June 4, 1957, to Augustus P. Whelen and Augustus P. Whelen, Jr., a partnership, doing business as A. P.

Whelen & Son, Glen Head, N. Y., authorizing the transportation of: Household goods, as defined by the Commission, between New York, N. Y., points in Nassau and Westchester Counties, N. Y., and those in Bergen, Essex, Hudson, and Union Counties, N. J., on the one hand, and, on the other, points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvalia, Rhode Island, Vermont, Virginia, and the District of Columbia.

Arthur J. Piken, 160–16 Jamaica Avenue, Jamaica 32, N. Y., for applicants.

No. MC–FC 61406. By order of August 25, 1958. The Transfer Board approved the transfer to Tony G. Uguccioni Trucking, Inc., Somerville, Massachusetts, of Permit No. MC 70054, issued June 24, 1943, to Joseph R. Nottage, Cranston, Rhode Island, authorizing the transportation of such merchandise as is dealt in by wholesale, retail, and chain grocery and food business houses, and equipment, materials, and supplies used in the conduct of such business, between points in Connecticut, Massachusetts, and Rhode Island, as designated. Charles J. McGovern, 742 Hospital Trust Building, 15 Westminster Street, Providence, Rhode Island, for transferor. Joseph A. Kline, 185 Devonshire Street, Boston, Massachusetts, for transferee.

No. MC–FC 61429. By order of August 26, 1958. The Transfer Board approved the transfer to Michael Srein, Philadelphia, Pa., of Certificate No. MC 13825, issued January 27, 1955, to Theodore F. Reichenbach, authorizing the transportation of household goods and new furniture, between Philadelphia, on the one hand, and, on the other, points in New York, New Jersey, Delaware, and Maryland. John H. Derby, 816 Commonwealth Building, 1201 Chestnut Street, Philadelphia 7, Pa., for applicants.

No. MC–FC 61456. By order of August 26, 1958, The Transfer Board approved the Transfer to Bruns Transfer & Warehouse Co., Inc., 1731 Alabama Ave., Bessemer, Alabama, of certificates in Nos. MC 40382 Sub 1, MC 40382 Sub 4, and MC 40382 Sub 5, issued December 12, 1940, October 3, 1946, and September 19, 1950, to F. W. Bruns, doing business as Bruns Transfer Co., 1800 1st Ave., North, Bessemer, Alabama, authorizing the transportation of general commodities, over a regular route, between Birmingham, Ala., and Bessemer, Ala., and certain off-route points, and commodities classified as meats, meat products and meat by-products, dairy products and articles distributed by meat packinghouses, over irregular routes, from Bessemer, Ala., to points in Alabama within 50 miles of Bessemer, and empty containers on return, and the service is limited to pick-up and delivery service in connection with Illinois Central Railroad Company, and pool car distribution.

No. MC–FC 61460. By order of August 26, 1958, The Transfer Board approved the transfer to Clyde Miller, doing business as Clyde Miller Truck Line, Danville, Illinois, of permit in No. MC 11201, issued May 24, 1954, to Western Brick Company, a Corporation, Danville, Illinois, authorizing the transportation of brick and cement building blocks, over irregular routes, from Danville, Ill., to points in Indiana. John P. Meyer, Graham, Wise and Meyer, Suite 500 First National Bank Bldg., Danville, Illinois.

No. MC–FC 61470. By order of August 26, 1958, The Transfer Board approved the transfer to Meadors Freight Line, Inc., Covington, Georgia, of Certificate No. MC 60000, issued October 11, 1940, to T. Rucker Ginn, doing business as Meadors Freight Line, authorizing the transportation of general commodities, excluding household goods and other specified commodities, between Atlanta, Ga., and Covington, Ga. D. C. Hemrick, Jr., 504 Whitehead Building, Atlanta, Ga., for applicants.

TERMINATION ORDER

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "Act" and of the orders, as amended (7 CFR Parts 912, 931, 944, and 1005), regulating the handling of milk in the Dubuque, Iowa; Cedar Rapids-Iowa City; Quad Cities; and North Central Iowa, marketing areas, hereinafter referred to as the "orders", it is hereby found and determined that:

(a) The provision "Borden Company, Sterling, Illinois" in §§ 912.50 (b) (1), 931.50 (b), 944.50 (b), and 1005.50 (b) of the orders does not tend to effectuate the declared policy of the Act.

The specified sections of each of the aforesaid orders contain a reference to the prices reported to have been paid by seven manufacturing plants, which prices are utilized in calculating the Class II price in each of the orders.

The Department has been advised that one of the seven plants listed in each of the orders (Borden Company, Sterling, Illinois) is no longer in operation. Therefore, the provision "Borden Company, Sterling, Illinois" as it appears in the specified section of the aforesaid orders should be deleted.

(b) Notice of proposed rule making, public procedure thereon, and 30 days notice of the effective date hereof, are impracticable, unnecessary, and contrary to the public interest in that:

(1) The information upon which this action is based did not become available in time for such compliance.

(2) This termination order does not require persons affected substantial or extensive preparation prior to its effective date.

Therefore, good cause exists for making this order effective immediately.

It is therefore ordered, That the provision "Borden Company, Sterling, Illinois" be and is hereby deleted from §§ 912.50 (b) (1), 931.50 (b), 944.50 (b), and 1005.50 (b).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 2d day of September 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

[F. R. Doc. 58-7189; Filed, Sept. 4, 1958; 8:54 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 15]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Division, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be imprac-

ticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.13 *Green civil airway No. 3 (Oakland, Calif., to New York, N. Y.)* is amended between the Moline, Ill., radio range station and the Goshen, Ind., radio range station to read: "Moline, Ill., radio range station; Joliet, Ill., radio range station; the intersection of the west course of the Goshen, Ind., radio range and a 181° True bearing from the McCool, Ind., nondirectional radio beacon; Goshen, Ind., radio range station;"

2. Section 600.212 is amended to read:

§ 600.212 *Red civil airway No. 12 (Chicago, Ill., to Detroit, Mich.).* From

the intersection of the northeast course of the Joliet, Ill., radio range and the west course of the Chicago, Ill., radio range via the Chicago, Ill., radio range station; South Bend, Ind., radio range station to the Detroit, Mich., radio range station.

3. Section 600.214 is amended to read:

§ 600.214 *Red civil airway No. 14 (Milwaukee, Wis., to Indianapolis, Ind.).* From the intersection of the west course of the Milwaukee, Wis., radio range and the northwest course of the Chicago, Ill., radio range via the Chicago, Ill., radio range to the Indianapolis, Ind., radio range station.

4. Section 600.228 is amended to read:

§ 600.228 *Red civil airway No. 28 (Chicago, Ill., to Detroit, Mich.).* From the Chicago, Ill., radio range station via the intersection of the northeast course of the Chicago, Ill., radio range and the southwest course of the Grand Rapids, Mich., radio range to the Grand Rapids, Mich., radio range station. From the Lansing, Mich., radio range station to the intersection of a line bearing 127° True from the Lansing radio range station to its intersection with the west course of the Detroit, Mich., radio range.

5. Section 600.242 *Red civil airway No. 42 (Milwaukee, Wis., to Aurora, Ill.).* is revoked.

6. Section 600.249 *Red civil airway No. 49 (Elko, Nev., to Fort Bridger, Wyo.)* is amended by changing all after Salt Lake City, Utah, radio range station to read: "Salt Lake City, Utah, radio range station to the Fort Bridger, Wyo., radio range station."

7. Section 600.254 *Red civil airway No. 54 (Burley, Idaho, to Promontory Point, Utah)* is revoked.

8. Section 600.277 *Red civil airway No. 77 (Richmond, Va., to Atlantic City, N. J.)* is amended after Atlantic City, N. J., by deleting the word "(Navy)".

9. Section 600.298 *Red civil airway No. 98 (Vichy, Mo., to Belleville, Ill.)* is revoked.

10. Section 600.308 is amended to read:

§ 600.308 *Red civil airway No. 108 (Corinne, Utah, to Fort Bridger, Wyo.).* From the Corinne, Utah, nondirectional radio beacon to the Fort Bridger, Wyo., radio range station.

11. Section 600.605 is amended by changing the caption to read: *"Blue civil airway No. 5 (Waco, Tex., to Wichita, Kans.)"* and by changing all before Dallas, Tex., nondirectional radio beacon to read: "From the Waco, Tex., radio range station via the intersection of the northeast course of the Waco, Tex., radio range and a line bearing 185° True from the Dallas, Tex., nondirectional radio beacon; Dallas, Tex., nondirectional radio beacon;"

12. Section 600.606 is amended by changing the caption to read: *"Blue civil airway No. 6 (Belleville, Ill., to Muskegon, Mich.)* and by deleting the first portion which reads: "From the Abilene, Tex., radio range station via the Wichita Falls, Tex., radio range station to the intersection of the northeast course of the Wichita Falls, Tex., radio range and the south course of the Oklahoma City, Okla., radio range."

13. Section 600.609 is amended by changing the caption to read: *"Blue civil airway No. 9 (Rochester, Minn., to United States-Canadian Border)* and by deleting the first portion which reads: "From the Springfield, Mo., radio range station to the Columbia, Mo., radio range station."

14. Section 600.620 *Blue civil airway No. 20 (Millville, N. J., to Allentown, Pa.)* is amended after Atlantic City, N. J., by deleting the word: "(Navy)".

15. Section 600.631 is amended to read:

§ 600.631 *Blue civil airway No. 31 (Burlington, Iowa, to Moline, Ill.).* From the intersection of the west course of the Peoria, Ill., radio range and the south course of the Moline, Ill., radio range to the Moline, Ill., radio range station.

16. Section 600.652 is added to read:

§ 600.652 *Blue civil airway No. 52 (Tamiami, Fla., to West Palm Beach, Fla.).* From the Tamiami, Fla., nondirectional radio beacon to the West Palm Beach, Fla., radio range station.

17. Section 600.657 *Blue civil airway No. 57 (Elko, Nev., to Burley, Idaho)* is revoked.

18. Section 600.669 *Blue civil airway No. 69 (St. Louis, Mo., to Quincy, Ill.)* is revoket.

19. Section 600.678 *Blue civil airway No. 78 (Spring Bay, Utah, to Malad City, Utah)* is revoked.

20. Section 600.6006 *VOR civil airway No. 6 (Oakland, Calif., to New York, N. Y.)* is amended by changing the portion which reads: "Youngstown, Ohio, omnirange station; Philipsburg, Pa., omnirange station;" to read: "Youngstown, Ohio, omnirange station; Clarion, Pa., omnirange station; Philipsburg, Pa., omnirange station;"

21. Section 600.6007 *VOR civil airway No. 7 (Miami, Fla., to Green Bay, Wis.)* is amended by changing the portion which reads: "Terre Haute, Ind., omnirange station, including a west alternate; Lafayette, Ind., omnirange station, including a west alternate via the intersection of the Terre Haute omnirange 348° True and the Lafayette omnirange 213° True radials; Chicago Heights, Ill., omnirange station;" to read: "Terre Haute, Ind., omnirange station, including a west alternate; Westpoint, Ind., omnirange station, including a west alternate via the Terre Haute omnirange 348° and the Westpoint omnirange direct radial to the Vandalia, Ill., omnirange station; Lafayette, Ind., omnirange station; Chicago Heights, Ill., omnirange station;"

22. Section 600.6008 *VOR civil airway No. 8 (Long Beach, Calif., to Washington, D. C.)* is amended by changing all after "Mansfield, Ohio, omnirange station;" to read: "Mansfield, Ohio, omnirange station; Navarre, Ohio, omnirange station; point of intersection of the Navarre omnirange direct radial to the Wheeling, W. Va., omnirange station with the Imperial, Pa., omnirange direct radial to the Tiverton, Ohio, omnirange station; Pittsburgh, Pa., omnirange station; Martinsburg, W. Va., omnirange station; to the Washington, D. C., terminal omnirange station. The portion of this airway which lies within the geographic limits of, and between the designated altitude of, the Bullion Mountains Restricted Area (R-344) is excluded during its time of designation."

23. Section 600.6009 *VOR civil airway No. 9 (New Orleans, La., to Green Bay, Wis.)* is amended by changing all before "Jackson, Miss., omnirange station including an east alternate;" to read: "From the New Orleans, La., omnirange station via the McComb, Miss., omnirange station, including a west alternate via the intersection of the New Orleans omnirange 326° and the McComb omnirange 197° radials and also an east alternate from the New Orleans omnirange station to the McComb omnirange station via the Picayune, Miss., omnirange station; Jackson, Miss., omnirange station, including an east alternate;" and by adding a last sentence to read: "The portion of this airway which lies within the geographic limits of, and between the designated altitudes of, the Camp Villere Restricted Area (R-440) is excluded during its time of designation."

24. Section 600.6010 *VOR civil airway No. 10 (Pueblo, Colo., to New York, N. Y.)* is amended by changing the portion which reads: "Youngstown, Ohio, omnirange station; Philipsburg, Pa., omnirange station;" to read: "Youngstown, Ohio, omnirange station; Clarion, Pa., omnirange station; Philipsburg, Pa., omnirange station;"

25. Section 600.6011 *VOR civil airway No. 11 (Memphis, Tenn., to Detroit, Mich.)* is amended by changing the portion which reads: "intersection of the Indianapolis omnirange 021° and the Fort Wayne VORTAC 232° radials;" to read: "intersection of the Indianapolis omnirange 022° and the Fort Wayne VORTAC 232° radials;"

26. Section 600.6012 *VOR civil airway No. 12 (Santa Barbara, Calif., to Philadelphia, Pa.)* is amended by changing the portion which reads: "Zuni, N. Mex., omnirange station, including a north alternate via the intersection of the Winslow omnirange 076° True and the Zuni omnirange 287° True radials;" to read: "Zuni, N. Mex., omnirange station, including a north alternate via the intersection of the Winslow omnirange 076° and the Zuni omnirange 287° radials and also a south alternate;"

27. Section 600.6014 *VOR civil airway No. 14 (Roswell, N. Mex., to Boston, Mass.)* is amended by changing the portion which reads: "Oklahoma City, Okla., omnirange station;" to read: "Oklahoma City, Okla., omnirange station, including a south alternate via the intersection of the Hobart, Okla., omnirange 076° and the Oklahoma City, Okla., omnirange 202° radials;"

28. Section 600.6019 *VOR civil airway No. 19 (El Paso, Tex., to Great Falls, Mont.)* is amended by changing the portion which reads: "Kiowa, Colo., omnirange station, including an east alternate via the intersection of the Pueblo omnirange 018° True and the Kiowa omnirange 167° True radials;" to read: "Kiowa, Colo., omnirange station, including an east alternate;"

29. Section 600.6020 *VOR civil airway No. 20 (Laredo, Tex., to Richmond, Va.)* is amended by changing all before "Montgomery, Ala., omnirange station," to read: "From the Laredo, Tex., omnirange station via the Alice, Tex., omnirange station; Corpus Christi, Tex., omnirange station, Palacios, Tex., omnirange station; Houston, Tex., omnirange station, including a north alternate via the intersection of the Palacios omnirange 016° and the Houston omnirange 255° radials; Beaumont, Tex., omnirange station, including a north alternate via the intersection of the Houston omnirange 044° and the Beaumont omnirange 273° radials; Lake Charles, La., omnirange station, including a north alternate via the intersection of the Beaumont omnirange 060° and the Lake Charles omnirange 271° radials and also a south alternate from the Houston omnirange station to the Lake Charles omnirange station via the intersection of the Houston omnirange 090° and the Lake Charles omnirange 241° radials; Lafayette, La., omnirange station, including a north alternate via the intersection of the Lake Charles omnirange 058° and the Lafayette 287° radials and also a south alternate via the intersection of the Lake Charles omnirange 119° and the Lafayette omnirange 255° radials; New Orleans, La., omnirange station, including a south alternate via the intersection of the Lafayette omnirange 109° and the New Orleans omnirange 226° radials; intersection of the New Orleans omnirange 070° and the Gulfport omnirange 247° radials; Gulfport, Miss., omnirange station; Mobile, Ala., omnirange station, including a north alternate from the New Orleans omnirange station to the Mobile omnirange station via the Picayune, Miss., omnirange station; Evergreen, Ala., omnirange station, including a north alternate via the intersection of the Mobile omnirange 005° radial with the Evergreen omnirange direct radial to the Picayune omnirange station; Montgomery, Ala., omnirange station;"

30. Section 600.6022 *VOR civil airway No. 22 (New Orleans, La., to Jacksonville, Fla.)* is amended by changing all before "Brookley AFB, Ala., terminal omnirange station;" to read: "From the New Orleans, La., omnirange station via the intersection of the New Orleans omnirange 085° and the Brookley AFB omnirange 238° radials; Brookley AFB, Ala., terminal omnirange station;"

31. Section 600.6023 *VOR civil airway No. 23 (San Diego, Calif., to Bellingham, Wash.)* is amended by changing the portion which reads: "Eugene omnirange 341°" to read: "Eugene omnirange 346°".

32. Section 600.6030 *VOR civil airway No. 30 (Milwaukee, Wis., to Nantucket, Mass.)* is amended by changing the portion which reads: "Youngstown, Ohio, omnirange station; Philipsburg, Pa., omnirange station;" to read: "Youngstown, Ohio, omnirange station; Clarion, Pa., omnirange station; Philipsburg, Pa., omnirange station;"

33. Section 600.6035 *VOR civil airway No. 35 (Key West, Fla., to Syracuse, N. Y.)* is amended by changing the portion between "Tampa, Fla., omnirange station;" and "Tallahassee, Fla., omnirange station;" to read: "Tampa, Fla., omnirange station; Cross City, Fla., omnirange station, including an east alternate from the point of intersection of the Tampa omnirange 153° radial and the Tampa International Airport ILS localizer south course to the Cross City omnirange station via the Tampa International Airport ILS localizer, the intersection of the Tampa International Airport ILS localizer north course and the Gainesville omnirange 190° radial, and the Gainesville, Fla., omnirange station and also a west alternate from the Tampa omnirange station to the Cross City omnirange station via the intersection of the Tampa omnirange 335° and the Cross City omnirange 185° radials; intersection of the Cross City omnirange 316° and the Tallahassee omnirange 132° radials; Tallahassee, Fla., omnirange station;"

34. Section 600.6038 *VOR civil airway No. 38 (Iowa City, Iowa, to Elkins, W. Va.)* is amended by changing the portion which reads: "Fort Wayne, Ind., omnirange station; intersection of the Fort Wayne omnirange 099° True and the Findlay omnirange 276° True radials; Findlay, Ohio, omnirange station;" to read: "Fort Wayne, Ind., omnirange station; Findlay, Ohio, omnirange station;"

35. Section 600.6040 is amended to read:

§ 600.6040 *VOR civil airway No. 40 (Cleveland, Ohio, to Pittsburgh, Pa.)*. From the Cleveland, Ohio, omnirange station via the Navarre, Ohio, omnirange station; point of intersection of the Navarre omnirange direct radial to the Wheeling, W. Va., omnirange station with the Imperial, Pa., omnirange direct radial to the Tiverton, Ohio, omnirange station; to the Pittsburgh, Pa., omnirange station.

Y., omnirange station; Elmira, N. Y., omnirange station; Binghamton, N. Y., omnirange station; Rockdale, N. Y., omnirange station; to the Albany, N. Y., omnirange station.

39. Section 600.6074 is amended to read:

§ 600.6074 *VOR civil airway No. 74 (Hugo, Colo., to Pine Bluff, Ark.)*. From the Hugo, Colo., omnirange station via the intersection of the Hugo omnirange 112° and the Garden City VORTAC 296° radials; Garden City VORTAC; Dodge City, Kans., omnirange station; Anthony, Kans., omnirange; Ponca City, Okla., omnirange station; Tulsa, Okla., omnirange station; Fort Smith, Ark., omnirange station, including a north alternate from the Tulsa omnirange station to the Fort Smith omnirange station via the point of intersection of the Tulsa omnirange 088° and the Neosho, Mo., omnirange 223° radials and also a south alternate from the Ponca City omnirange station to the Fort Smith omnirange station via the Okmulgee, Okla, omnirange station; intersection of the Fort Smith omnirange 098° and the Little Rock omnirange 302° radials; Little Rock, Ark., omnirange station; intersection of the Little Rock omnirange 141° and the Pine Bluff omnirange 007° radials; to the Pine Bluff, Ark., omnirange station.

40. Section 600.6075 is amended to read:

§ 600.6075 *VOR civil airway No. 75 (Petersburg, W. Va., to Cleveland, Ohio)*. From the point of intersection of the Morgantown, W. Va., omnirange 134° and the Elkins, W. Va., omnirange 083° radials via the Morgantown, W. Va., omnirange; Wheeling, W. Va., omnirange station; Navarre, Ohio, omnirange station; to the Cleveland, Ohio, omnirange station.

41. Section 600.6091 *VOR civil airway No. 91 (New York, N. Y., to Montreal, Quebec)* is amended by changing the portion which reads: "Albany, N. Y., omnirange station, including an east alternate via the intersection of the Poughkeepsie omnirange 007° True and the Albany omnirange 140° True radials and also a west alternate; Plattsburgh, N. Y., omnirange station;" to read: "Albany, N. Y., omnirange station, including an east alternate via the intersection of the Poughkeepsie omnirange 007° and the Albany omnirange 140° radials and also a west alternate; Benson, Vt., omnirange station; Burlington, Vt., omnirange station; Plattsburgh, N. Y., omnirange station;"

42. Section 600.6092 is amended to read:

§ 600.6092 *VOR civil airway No. 92 (Chicago, Ill., to Washington, D. C.)*. From the Joliet, Ill., omnirange station

via the Chicago Heights, Ill., omnirange station; Goshen, Ind., omnirange station; Waterville, Ohio, omnirange station; Mansfield, Ohio, omnirange station; Navarre, Ohio, omnirange station; Wheeling, W. Va., omnirange station; Grantsville, Md., omnirange station; Front Royal, Va., omnirange station; intersection of the Front Royal omnirange 112° and the Washington terminal omnirange 245° radials; to the Washington, D. C., terminal omnirange station.

43. Section 600.6096 is amended to read:

§ 600.6096 *VOR civil airway No. 96 (Kokomo, Ind., to Waterville, Ohio).* From the intersection of the Indianapolis, Ind., omnirange 022° and the Fort Wayne VORTAC 232° radials via the Fort Wayne, Ind., VORTAC to the Waterville, Ohio, omnirange station.

44. Section 600.6097 *VOR civil airway No. 97 (Miami, Fla., to Minneapolis, Minn.)* is amended by changing the portion which reads: "Tallahassee, Fla., omnirange station; Albany, Ga., omnirange station;" to read: "Tallahassee, Fla., omnirange station, including an east alternate from the Tampa omnirange station to the Tallahassee omnirange station via the point of intersection of the Tampa omnirange 335° with the Cross City omnirange 207° radials; the Cross City, Fla., omnirange station and the intersection of the Cross City omnirange 316° with the Tallahassee 132° radials; Albany, Ga., omnirange station;" by changing the portion which reads: "Knoxville, Tenn., omnirange station, including an east alternate from the Atlanta omnirange station to the Knoxville omnirange station via the Norcross, Ga., omnirange station and the intersection of the Norcross omnirange 014° True and the Knoxville omnirange 175° True radials; Lexington, Ky., omnirange station;" to read: "Knoxville, Tenn., omnirange station, including an east alternate from the Atlanta omnirange station to the Knoxville omnirange station via the Norcross, Ga., omnirange station and the intersection of the Norcross omnirange 014° and the Knoxville omnirange 175° radials; London, Ky., omnirange station; Lexington, Ky., omnirange station;" by changing the portion which reads: "Lafayette, Ind., omnirange station, including a west alternate from the Shelbyville omnirange station to the Lafayette omnirange station via the Indianapolis omnirange station and the intersection of the Indianapolis omnirange 344° True and the Lafayette omnirange 133° True radials; to the Chicago Heights, Ill., omnirange station." to read: "Lafayette, Ind., omnirange station, including a west alternate from the Shelbyville omnirange station to the Lafayette omnirange station via the Indianapolis, Ind., omnirange station and the intersection of the Indianapolis omnirange 344° radial with the Lafayette omnirange direct radial to the Shelbyville omnirange staton; to the Chicago Heights, Ill., omnirange station." and by adding a last sentence to read: "The portion of this airway which lies within the geographic limits of, and between the designated altitudes of, the Dawsonville Restricted Area (R–534) is excluded during its time of designation."

45. Section 600.6103 is amended to read:

§ 600.6103 *VOR civil airway No. 103 (Greensboro, N. C., to Windsor, Ont.).* From the Greensboro, N. C., omnirange station via the Roanoke, Va., terminal omnirange station; Elkins, W. Va., omnirange station; Clarksburg, W. Va., omnirange station; Wheeling, W. Va., omnirange station; Navarre, Ohio, omnirange station; Cleveland, Ohio, omnirange station; point of intersection of the Carleton, Mich., omnirange 097° and the Windsor omnirange 121° radials; to the Windsor, Ont., omnirange station.

46. Section 600.6106 *VOR civil airway No. 106 (Charleston, W. Va., to Kennebunk, Maine)* is amended by changing the portion which reads: "From the Charleston, W. Va., omnirange station via the Morgantown, W. Va., omnirange station;" to read: "From the Charleston, W. Va., omnirange station via the intersection of the Charleston omnirange 049° and the Elkins omnirange 264° radials; Clarksburg, W. Va., omnirange station; Morgantown, W. Va., omnirange station;"

47. Section 600.6114 *VOR civil airway No. 114 (Amarillo, Tex., to New Orleans, La.)* is amended by changing the portion which reads: "to the New Orleans, La., omnirange station." to read: "to the New Orleans, La., omnirange station, including a north alternate via the intersection of the Alexandria omnirange 105° and the New Orleans omnirange 326° radials."

48. Section 600.6119 is amended to read:

§ 600.6119 *VOR civil airway No. 119 (Huntington, W. Va., to Rochester, N. Y.).* From the Huntington, W. Va., nondirectional radio beacon via the Henderson, W. Va., omnirange station; Parkersburg, W. Va., omnirange station; Wheeling, W. Va., omnirange station; Imperial, Pa., omnirange station; Clarion, Pa., omnirange station; Fitzgerald, Pa., omnirange station; Bradford, Pa., omnirange station; Wellsville, N. Y., omnirange station; Geneseo, N. Y., omnirange station; to the Rochester, N. Y., omnirange station.

49. Section 600.6128 *VOR civil airway No. 128 (Chicago, Ill., to Charleston, W. Va.)* is amended by changing all before "Indianapolis, Ind., omnirange station;" to read: "From the point of intersection of the Joliet, Ill., omnirange 056° and the Peotone omnirange 003° radials via the Peotone, Ill., omnirange station; intersection of the Peotone omnirange 153° and the Westpoint omnirange 326° radials; Westpoint, Ind., omnirange station; Indianapolis, Ind., omnirange station;"

50. Section 600.6141 is amended to read:

§ 600.6141 *VOR civil airway No. 141 (Nantucket, Mass., to Massena, N. Y.).* From the Nantucket, Mass., omnirange station via the intersection of the Nantucket omnirange 339° and the Boston omnirange 133° radials; Boston, Mass., omnirange station; Concord, N. H., omnirange station; Lebanon, N. H., nondirectional radio beacon; Burlington, Vt., omnirange station; to the Massena, N. Y., omnirange station.

51. Section 600.6144 *VOR civil airway No. 144 (Chicago, Ill., to Washington, D. C.)* is amended by changing the portion which reads: "Fort Wayne, Ind., omnirange station; intersection of the Fort Wayne omnirange 099° True and the Findlay omnirange 276° True radials; Findlay, Ohio, omnirange station;" to read: "Fort Wayne, Ind., omnirange station; Findlay, Ohio, omnirange station;"

52. Section 600.6146 is amended to read:

§ 600.6146 *VOR civil airway No. 146 (Wilkes-Barre, Pa., to Providence, R. I.).* From the Wilkes-Barre-Scranton, Pa., omnirange station via the Huguenot, N. Y., omnirange station; point of intersection of the Wilton, Conn., omnirange 295° and the Poughkeepsie omnirange 236° radials; Poughkeepsie, N. Y., omnirange station; Putnam, Conn., omnirange station; to the Providence, R. I., omnirange station.

53. Section 600.6196 is added to read:

§ 600.6196 *VOR civil airway No. 196 (Tupper Lake, N. Y., to Plattsburgh, N. Y.).* From the point of intersection of the Plattsburgh, N. Y., omnirange station 236° with the Massena, N. Y., omnirange direct radial to the Albany, N. Y., omnirange station to the Plattsburgh, N. Y., omnirange station.

54. Section 600.6209 is added to read:

§ 600.6209 *VOR civil airway No. 209 (Mobile, Ala., to Tuscaloosa, Ala.).* From the Mobile, Ala., omnirange station via the intersection of the Mobile 005° and the Meridian, Miss., omnirange 089° radials; to the Tuscaloosa, Ala., omnirange station.

55. Section 600.6210 *VOR civil airway No. 210 (Los Angeles, Calif., to Wheeling, W. Va.)* is amended by changing the portion which reads: "to the Pueblo, Colo., omnirange station, including a south alternate via the point of intersection of the Alamosa omnirange direct radial to the Lamar, Colo., omnirange station with the Las Vegas, N. Mex., omnirange direct radial to the Pueblo omnirange station." to read: "to the Pueblo, Colo., VORTAC, including a south alternate via the intersection of the Alamosa omnirange 075° and the Pueblo VORTAC 203° radials."

56. Section 600.6227 is amended to read:

§ 600.6227 *VOR civil airway No. 227 (Louisville, Ky., to Peotone, Ill.).* From the Louisville, Ky., omnirange station via the intersection of the Louisville omnirange 310° and the Indianapolis omnirange 185° radials; Indianapolis, Ind., omnirange station; point of intersection of the Indianapolis omnirange direct radial to the Westpoint, Ind., omnirange station with the Lafayette omnirange 159° radial; Lafayette, Ind., omnirange station; intersection of the Lafayette 313° and the Peotone omni-

range 153° radials; to the Peotone, Ill., omnirange station.

57. Section 600.6240 is amended to read:

§ 600.6240 *VOR civil airway No. 240 (New Orleans, La., to Mobile, Ala.).* From the New Orleans, La., omnirange station via the intersection of the New Orleans omnirange 100° and the Mobile omnirange 224° radials to the Mobile, Ala., omnirange station.

58. Section 600.6250 is amended to read:

§ 600.6250 *VOR civil airway No. 250 (Imperial, Pa., to Clarion, Pa.).* From the Imperial, Pa., omnirange station via the Ellwood City, Pa., omnirange station to the Clarion, Pa., omnirange station.

59. Section 600.6260 is amended by changing the caption to read: "*VOR civil airway No. 260 (Charleston, W. Va., to Richmond, Va.).*"

60. Section 600.6276 is amended by changing the caption to read: "*VOR civil airway No. 276 (Navarre, Ohio, to Monmouth, N. J.)*" and by changing all before "Tyrone, Pa., omnirange station;" to read: "From the Navarre, Ohio, omnirange station via the Ellwood City, Pa., omnirange station; the point of intersection of the Ellwood City omnirange 102° and the Fitzgerald, Pa., omnirange 191° radials; Tyrone, Pa., omnirange station;"

61. Section 600.6292 is added to read:

§ 600.6292 *VOR civil airway No. 292 (Hartford, Conn., to Boston, Mass.).* From the Hartford, Conn., omnirange station via the Putnam, Conn., omnirange station; to the point of intersection of the Putnam omnirange 043° with the Boston, Mass., omnirange 256° radial.

62. Section 600.6426 is added to read:

§ 600.6426 *VOR civil airway No. 426 (Unassigned).*

63. Section 600.6427 is added to read:

§ 600.6427 *VOR civil airway No. 427 (Newcomerstown, Ohio, to Navarre, Ohio).* From the Newcomerstown, Ohio, omnirange station to the Navarre, Ohio, omnirange station.

64. Section 600.6604 *VOR civil airway No. 1504 (San Francisco, Calif., to Washington, D. C.)* is amended by changing all after "Cleveland, Ohio, omnirange station;" to read: "Cleveland, Ohio, omnirange station; Navarre, Ohio, omnirange station; Wheeling, W. Va., omnirange station; Grantsville, Md., omnirange station; Front Royal, Va., omnirange station; intersection of the Front Royal omnirange 112° and the Washington terminal omnirange 245° radials; to the Washington, D. C., terminal omnirange station."

65. Section 600.6610 *VOR civil airway No. 1510 (Los Angeles, Calif., to New York, N. Y.)* is amended by changing the portion which reads: "Youngstown, Ohio, omnirange station; Philipsburg, Pa., omnirange station;" to read: "Youngstown, Ohio, omnirange station; Clarion, Pa., omnirange station; Philipsburg, Pa., omnirange station;"

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. September 25, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

AUGUST 28, 1958.

[F. R. Doc. 58-7153; Filed, Sept. 4, 1958; 8:46 a. m.]

[Amdt. 17]

PART 601—DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, AND POSITIVE CONTROL ROUTE SEGMENTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Division, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.212 is amended by changing the caption to read: "*Red civil airway No. 12 control areas (Chicago, Ill., to Detroit, Mich.).*"

2. Section 601.214 is amended by changing the caption to read: "*Red civil airway No. 14 control areas (Milwaukee, Wis., to Indianapolis, Ind.).*"

3. Section 601.228 is amended by changing the caption to read: "*Red civil airway No. 28 control areas (Chicago, Ill., to Detroit, Mich.).*"

4. Section 601.242 *Red civil airway No. 42 control areas (Milwaukee, Wis., to Aurora, Ill.)* is revoked.

5. Section 601.254 *Red civil airway No. 54 control areas (Burley, Idaho, to Promontory Point, Utah)* is revoked.

6. Section 601.298 *Red civil airway No. 98 control areas (Vichy, Mo., to Belleville, Ill.)* is revoked.

7. Section 601.308 is amended by changing the caption to read: "*Red civil airway No. 108 control areas (Corinne, Utah, to Fort Bridger, Wyo.).*"

8. Section 601.605 is amended by changing the caption to read: "*Blue civil airway No. 5 control areas (Waco, Tex., to Wichita, Kans.).*"

9. Section 601.606 is amended by changing the caption to read: "*Blue civil airway No. 6 control areas (Belleville, Ill., to Muskegon, Mich.)*"

10. Section 601.609 is amended by changing the caption to read: "*Blue civil airway No. 9 control areas (Rochester, Minn., to United States-Canadian Border).*"

11. Section 601.631 is amended by changing the caption to read: "*Blue civil airway No. 31 control areas (Burlington, Iowa, to Moline, Ill.)*"

12. Section 601.652 is added to read:

§ 601.652 *Blue civil airway No. 52 control areas (Tamiami, Fla., to West Palm Beach, Fla.).* All of Blue civil airway No. 52.

13. Section 601.657 *Blue civil airway No. 57 control areas (Elko, Nev., to Burley, Idaho)* is revoked.

14. Section 601.669 *Blue civil airway No. 69 control areas (St. Louis, Mo., to Quincy, Ill.)* is revoked.

15. Section 601.678 *Blue civil airway No. 78 control areas (Spring Bay, Utah, to Malad City, Utah)* is revoked.

16. Section 601.1003 is amended to read:

§ 601.1003 *Control area extension (Corinne, Utah).* Within 5 miles either side of a line bearing 289° True extending from the Corinne nondirectional radio beacon to VOR civil airway No. 101.

17. Section 601.1022 is amended to read:

§ 601.1022 *Control area extension (West Palm Beach, Fla.).* The airspace northwest of West Palm Beach bounded on the south by VOR civil airway No. 293, on the east by VOR civil airway No. 3, and on the west and northwest by Blue civil airway No. 19 and VOR civil airway No. 51.

18. Section 601.1029 is amended to read:

§ 601.1029 *Control area extension (Corpus Christi, Tex.).* The airspace north of Corpus Christi bounded on the southeast by VOR civil airway No. 20, on the southwest by VOR civil airway No. 68, on the northwest by the San Antonio control area extension (§ 601.1180), on the north by latitude 29°00'00", and on the northeast by the Victoria, Tex., control area extension (§ 601.1376).

19. Section 601.1043 is amended to read:

§ 601.1043 *Control area extension (Bowling Green, Ky.).* The airspace within a 15-mile radius of the Bowling Green omnirange station and within 5 miles either side of the northwest and southeast courses of the Bowling Green radio range extending from the radio range station to a point 25 miles northwest and to a point 20 miles southeast of the radio range station, including the airspace west of Bowling Green bounded on the north by latitude 37°00'00", on the west by VOR civil airway No. 7 and on the southeast by VOR civil airway No. 57.

20. Section 601.1104 *Control area extension (Rockford, Ill.)* is revoked.

21. Section 601.1128 is added to read:

§ 601.1128 *Control area extension (Alexandria, La.).* The airspace within a 40-mile radius of the Alexandria, La., omnirange station, including the airspace south of Alexandria bounded on the northeast by VOR civil airway No. 114, on the southeast by VOR civil airway No. 222, on the south and southwest by

the Lake Charles control area extension (601.1006), and on the northwest by a line 5 miles northwest of and parallel to the Alexandria omnirange 232° True radial, excluding the portion which lies within Camp Polk Restricted Areas (R–229) and (R–230). The portion of this control area which lies within the Camp Claiborne Restricted Area (R–431) shall be used only after obtaining prior approval from Civil Aeronautics Administration Air Traffic Control.

22. Section 601.1183 *Control area extension (Seattle, Wash.)* is amended by deleting the last sentence which reads: "that airspace north of Seattle bounded on the south by Red civil airway No. 79, on the east by Green civil airway No. 10, and on the northwest by a line extending from a point at latitude 48°02'00", longitude 122°26'00" to a point at latitude 47°55'00", longitude 122°32'00"." and by adding a last portion to read: "the airspace northwest of Seattle bounded on the northeast by Amber civil airway No. 1, on the north by Red civil airway No. 79, on the west by longitude 123°15'00", and on the south by VOR civil airway No. 27, excluding the portion overlapping Hood Canal Caution Area (C–243)."

23. Section 601.1178 *Control area extension (Honolulu, T. H.)* is amended by adding the following portion to present control area extension: "also, the airspace within 5 miles either side of the north course of the Honolulu radio range extending from the radio range station to the southern boundary of the Kaneohe, T. H., control area extension (§ 601.1380)."

24. Section 601.1193 *Control area extension (Monterey Calif.)* is amended by changing the words which read: "the 229° True radial of the Salinas VOR radio range" to read: "the 241° True radial of the Salinas omnirange".

25. Section 601.1236 is amended to read:

§ 601.1236 *Control area extension (Seattle, Wash.)*. The airspace northeast of Seattle bounded on the south by VOR civil airway No. 2–N, on the east by longitude 121°35'00", on the north by latitude 48°55'00", and on the west by VOR civil airway No. 23.

26. Section 601.1258 is amended to read:

§ 601.1258 *Control area extension (Lafayette, Ind.)*. The airspace within a 25-mile radius of Purdue University Airport, Lafayette, Ind., including the airspace bounded on the south by a line 5 miles south of and parallel to a direct line from the Westpoint, Ind., omnirange station to the Kokomo, Ind., omnirange station, on the north by a line 5 miles north of and parallel to the 59° True radial of the Lafayette omnirange and on the northeast by the Peru, Ind., control area extension (§ 601.1405).

27. Section 601.1286 *Control area extension (Fort Worth, Tex.)* is amended by changing the words which read: "on the northwest by Blue civil airway No. 6," to read: "on the northwest by VOR civil airway No. 77," and by changing the words which read: "on the west by Blue civil airway No. 6," to read: "on the west by VOR civil airway No. 77,"

28. Section 601.1294 *Control area extension (Everett, Wash.)* is revoked.

29. Section 601.1369 is amended to read:

§ 601.1369 *Control area extension (Myrtle Beach, S. C.)*. The airspace within a 25-mile radius of the Myrtle Beach AFB bounded on the southeast by Warning Area (W–177); the airspace bounded on the north by a line 5 miles north of and parallel to the 96° True radial of the Florence, S. C., omnirange, on the west by VOR civil airway No. 3–E, and on the southeast by VOR civil airway No. 1.

30. Section 601.1389 *Control area extension (Miami, Fla.)* is amended by changing the words which read: "extending from Amber civil airway No. 7 and VOR civil airway No. 3" to read: "extending from VOR civil airway No. 3".

31. Section 601.1395 *Control area extension (Plattsburg, N. Y.)* is amended by deleting the portion which reads: "that airspace south of Plattsburg bounded on the west by VOR civil airway No. 91, on the southeast by Blue civil airway No. 18 and on the northeast by Blue civil airway No. 4;"

32. Section 601.1408 *Control area extension (Miami, Fla.)* is amended by adding the following to present control area extension: "the airspace west of Miami bounded on the north by Miami control area extension (601.1230), on the southeast by Key West control area extension (§ 601.1434), and on the southwest by a line 3 miles southwest of and parallel to the coastline."

33. Section 601.1984 *Five mile radius zones* is amended by deleting the following airports:

Greenville, Miss.: Greenville AFB.
New Orleans, La.: New Orleans Airport.
Seattle, Wash.: Boeing Field.
Seattle, Wash.: Seattle-Takoma International Airport.

34. Section 601.2024 *Amarillo, Tex., control zone* is amended by changing the name "Amarillo Air Terminal," to read: "Amarillo AFB,"

35. Section 601.2035 is amended to read:

§ 601.2035 *New Orleans, La., control zone*. Within a 5-mile radius of New Orleans Airport and within a 5-mile radius of Moisant International Airport, within 2 miles either side of the east and west courses of the New Orleans radio range extending from the New Orleans Airport 5-mile radius zone to a point 17¼ miles west of the radio range station, within 2 miles either side of the 242° and 62° True radials of the New Orleans omnirange extending from the Moisant International Airport 5-mile radius zone to a point 10 miles northeast of the omnirange station, and within 2 miles either side of the ILS localizer course extending from the localizer to a point 14½ miles west.

36. Section 601.2054 *Hutchinson, Kans., control zone* is amended by changing the name "Hutchinson Naval Air Station," to read: "Hutchinson ANG Field,".

37. Section 601.2066 *Pueblo, Colo., control zone* is amended by changing the words which read: "271° and 91° True radials of the Pueblo omnirange" to read: "267° and 87° True radials of the Pueblo omnirange".

38. Section 601.2109 is amended to read:

§ 601.2109 *Lafayette, Ind., control zone*. Within a 5-mile radius of Purdue University Airport, within 2 miles either side of the 38° and 218° True radials of the Westpoint, Ind., omnirange extending from the 5-mile radius zone to a point 12 miles southwest of the Westpoint omnirange station, and within 2 miles either side of the 144° and 324° True radials of the Lafayette omnirange extending from the 5-mile radius zone to a point 12 miles northwest of the Lafayette omnirange station.

39. Section 601.2121 is amended to read:

§ 601.2121 *Rockford, Ill., control zone*. Within a 5-mile radius of Greater Rockford Airport, within 2 miles either side of a line extending from Greater Rockford Airport through the Rockford nondirectional radio beacon to a point 12 miles south of the nondirectional radio beacon, and within 2 miles either side of the 112° and 292° True radials of the Rockford omnirange extending from the 5-mile radius zone to a point 12 miles northwest of the omnirange station.

40. Section 601.2133 is amended to read:

§ 601.2133 *Birmingham, Ala., control zone*. Within a 5-mile radius of Birmingham Airport, within 2 miles either side of the north course of the Birmingham radio range extending from the radio range station to a point 10 miles north, and within 2 miles either side of the ILS southwest localizer course extending from the localizer to the ILS outer marker.

41. Section 601.2314 *Bryan, Tex., control zone* is revoked.

42. Section 601.2314 is added to read:

§ 601.2314 *College Station, Tex., control zone*. Within a 3-mile radius of Easterwood Airport, College Station, Tex., and within 2 miles either side of the 107° and 287° True radials of the College Station omnirange extending to points 12 miles northwest and southeast of the omnirange station.

43. Section 601.2436 is added to read:

§ 601.2436 *New Orleans, La., control zone*. Within a 5-mile radius of a point centered on Alvin Callender NAS, and within 2 miles either side of a 226° True bearing extending from this point to a point 13 nautical miles southwest.

44. Section 601.2437 is added to read:

§ 601.2437 *London, Ky., control zone*. Within a 3-mile radius of London Airport and within 2 miles either side of the 27° and 207° True radials of the London omnirange extending from the 3-mile radius zone to a point 10 miles southwest of the omnirange station.

45. Section 601.2438 is added to read:

§ 601.2438 *Greenville, Miss., control zone.* Within a 5-mile radius of Greenville AFB and within 2 miles either side of a direct line extending from the AFB through the AFB terminal omnirange station to a point 2 miles north of the terminal omnirange station.

46. Section 601.2427 *Champaign, Ill., control zone* is revoked.

47. Section 601.2439 is added to read:

§ 601.2439 *Santa Maria, Calif., control zone.* Within a 5-mile radius of Santa Maria Airport excluding the portion which lies within Camp Cooke Restricted Area (R–531).

48. Section 601.2440 is added to read:

§ 601.2440 *Seattle, Wash., control zone (Seattle-Tacoma International Airport).* The airspace bounded by a line beginning at a point at latitude 47°29'20", longitude 122°13'50", thence extending south to a point at latitude 47°28'20", longitude 122°13'50", thence southeast to a point at latitude 47°27'00", longitude 122°11'50", thence clockwise along the circumference of a circle 5 miles in radius and centered on the Seattle-Tacoma International Airport to a point at latitude 47°29'20", longitude 122°23'10" thence east to point of beginning.

49. Section 601.2441 is added to read:

§ 601.2441 *Seattle, Wash., control zone. (Boeing Airport).* The airspace bounded by a line beginning at a point at latitude 47°31'55", longitude 122°11'40", thence extending southwest to a point at latitude 47°30'45", longitude 122°13'50", thence south to a point at latitude 47°29'20", longitude 122°13'50", thence west to a point at latitude 47°29'20", longitude 122°23'10" thence clockwise along the circumference of a circle 5 miles in radius and centered on the Boeing Airport, Seattle, Wash., to the point of beginning.

50. Section 601.2442 is added to read:

§ 601.2442 *Renton, Wash., control zone. (Renton Airport).* The airspace bounded by a line beginning at a point at latitude 47°31'55", longitude 122°11'40", thence clockwise via the circumference of a circle 3 miles in radius centered on Renton Airport to a point at latitude 47°27'00", longitude 122°11'50", thence extending northwest to a point at latitude 47°28'20", longitude 122°13'50", thence north to a point at latitude 47°30'45", longitude 122°13'50" thence northeast to point of beginning.

51. Section 601.4013 *Green civil airway No. 3 (Oakland, Calif., to New York, N. Y.)* is amended by deleting the following reporting point: "the intersection of the southeast course of the Rockford, Ill., radio range and the west course of the Chicago, Ill., radio range;" and by changing the reporting point which reads: "the intersection of the southeast course of the Chicago, Ill., radio range and the west course of the Goshen, Ind., radio range;" to read: "the intersection of the southeast course of the Chicago, Ill., radio range and the east course of the Joliet, Ill., radio range;"

52. Section 601.4105 *Amber civil airway No. 5 (Grand Isle, La., to Milwaukee, Wis.)* is amended before "Greenwood, Miss., radio range station;" by adding the following reporting point: "Grand Isle, La., nondirectional radio beacon;"

53. Section 601.4212 is amended by changing the caption to read: "*Red civil airway No. 12 (Chicago, Ill., to Detroit, Mich.).*"

54. Section 601.4214 is amended to read:

§ 601.4214 *Red civil airway No. 14 (Milwaukee, Wis., to Indianapolis, Ind.).* Chicago, Ill., radio range station.

55. Section 601.4228 is amended to read:

§ 601.4228 *Red civil airway No. 28 (Chicago, Ill., to Detroit, Mich.).* The intersection of the northeast course of the Chicago, Ill., radio range and the north course of the South Bend, Ind., radio range.

56. Section 601.4242 *Red civil airway No. 42 (Milwaukee, Wis., to Aurora, Ill.)* is revoked.

57. Section 601.4254 *Red civil airway No. 54 (Burley, Idaho, to Promontory Point, Utah)* is revoked.

58. Section 601.4289 is amended to read:

§ 601.4289 *Red civil airway No. 89 (Quincy, Ill., to Peoria, Ill.).* Quincy, Ill., nondirectional radio beacon; Peoria, Ill., radio range station.

59. Section 601.4298 *Red civil airway No. 98 (Vichy, Mo., to Belleville, Ill.)* is revoked.

60. Section 601.4308 is amended by changing the caption to read: "*Red civil airway No. 108 (Corinne, Utah, to Fort Bridger, Wyo.).*"

61. Section 601.4605 is amended to read:

§ 601.4605 *Blue civil airway No. 5 (Waco, Tex., to Wichita, Kans.).* No reporting point designation.

62. Section 601.4606 is amended by changing the caption to read: "*Blue civil airway No. 6 (Belleville, Ill., to Muskegon, Mich.).*"

63. Section 601.4609 is amended by changing the caption to read: "*Blue civil airway No. 9 (Rochester, Minn., to United States-Canadian Border).*"

64. Section 601.4631 is amended by changing the caption to read: "*Blue civil airway No. 31 (Burlington, Iowa, to Moline, Ill.).*"

65. Section 601.4652 is added to read:

§ 601.4652 *Blue civil airway No. 52 (Tamiami, Fla., to West Palm Beach, Fla.).* No reporting point designation.

66. Section 601.4657 *Blue civil airway No. 57 (Elko, Nev., to Burley, Idaho)* is revoked.

67. Section 601.4667 is amended to read:

§ 601.4667 *Blue civil airway No. 67 (Yuma, Ariz., to Las Vegas, Nev.).* No reporting point designation.

68. Section 601.4669 *Blue civil airway No. 69 (St. Louis, Mo., to Quincy, Ill.)* is revoked.

69. Section 601.4678 *Blue civil airway No. 78 (Spring Bay, Utah, to Malad City, Utah)* is revoked.

70. Section 601.5001 *Other reporting points* is amended as follows: In "South Island Intersection" delete the word "(Navy)"; in "South Millville Intersection" delete the word "(Navy)".

by adding the following reporting points:

Nan-Love 1 Intersection: The intersection of a 103° True bearing from the Grand Isle, La., nondirectional radio beacon and a 179° True bearing from the Pensacola, Fla. (PNS) radio range station.

Nan-Love 2 Intersection: The intersection of a 285° True bearing from the Egmont Key, Fla., nondirectional radio beacon and a 229° True bearing from the Cross City, Fla., radio range station.

by changing the reporting point which reads: "Anchorage-Sandspit route: The Middleton Island, Alaska, nondirectional radio beacon." to read: "Middleton Island, Alaska: Middleton Island radio range station."

and by deleting the following reporting joint:

Domestic Yakataga Intersection: The intersection of the centerline of the Anchorage-Sandspit route and a line bearing 90° therefrom and lying over the Yakataga, Alaska, radio range station.

71. Section 601.6002 is amended to read:

§ 601.6002 *VOR civil airway No. 2 control areas (Seattle, Wash., to Boston, Mass.).* All of VOR civil airway No. 2 including north and south alternates but excluding the airspace between the main airway and its north alternate between the Helena, Mont., omnirange station and the Billings, Mont., omnirange station.

72. Section 601.6040 is amended to read:

§ 601.6040 *VOR civil airway No. 40 control areas (Cleveland, Ohio to Pittsburgh, Pa.).* All of VOR civil airway No. 40.

73. Section 601.6058 is amended to read:

§ 601.6058 *VOR civil airway No. 58 control areas (Ellwood City, Pa., to Hartford, Conn.).* All of VOR civil airway No. 58.

74. Section 601.6096 is amended to read:

§ 601.6096 *VOR civil airway No. 96 control areas (Kokomo, Ind., to Waterville, Ohio).* All of VOR civil airway No. 96.

75. Section 601.6141 is amended to read:

§ 601.6141 *VOR civil airway No. 141 control areas (Nantucket, Mass., to Massena, N. Y.).* All of VOR civil airway No. 141.

76. Section 601.6196 is added to read:

§ 601.6196 *VOR civil airway No. 196 control areas (Tupper Lake, N. Y., to Plattsburgh, N. Y.).* All of VOR civil airway No. 196.

77. Section 601.6209 is added to read:

§ 601.6209 *VOR civil airway No. 209 control areas (Mobile, Ala., to Tuscaloosa, Ala.).* All of VOR civil airway No. 209.

78. Section 601.6250 is amended to read:

§ 601.6250 *VOR civil airway No. 250 control areas (Imperial, Pa., to Clarion, Pa.).* All of VOR civil airway No. 250.

79. Section 601.6260 is amended to read:

§ 601.6260 *VOR civil airway No. 260 control areas (Charleston, W. Va., to Richmond, Va.).* All of VOR civil airway No. 260.

80. Section 601.6276 is amended to read:

§ 601.6276 *VOR civil airway No. 276 control areas (Navarre, Ohio, to Monmouth, N. J.).* All of VOR civil airway No. 276.

81. Section 601.6292 is added to read:

§ 601.6292 *VOR civil airway No. 292 control areas (Hartford, Conn., to Boston, Mass.).* All of VOR civil airway No. 292.

82. Section 601.6300 is amended to read:

§ 601.6300 *VOR civil airway No. 300 control areas (Sault Ste. Marie, Mich., to Toronto, Ont.).* All of VOR civil airway No. 300, including a north alternate.

83. Section 601.6427 is added to read:

§ 601.6427 *VOR civil airway No. 427 control areas (Newcomerstown, Ohio, to Navarre, Ohio).* All of VOR civil airway No. 427.

84. Section 601.6426 is added to read:

§ 601.6426 *VOR civil airway No. 426 control areas (Unassigned).*

85. Section 601.7001 *VOR domestic reporting points* is amended by adding the following reporting points to read:

Barstow Intersection: The intersection of the Hector, Calif., omnirange 265° T and the Daggett, Calif., omnirange 235° T radials.

Greentown Intersection: The intersection of the Indianapolis, Ind., omnirange 021° T and the Kokomo, Ind., omnirange 143° T radials.

Brookley AFB, Ala., omnirange station.
Hector, Calif., omnirange station.
McAlester, Okla., omnirange station.
Okmulgee, Okla., omnirange station.
Westpoint, Ind., omnirange station.

by changing the following reporting points to read:

Bradley Intersection: The intersection of the Poughkeepsie, N. Y., omnirange 061° T and the Hartford, Conn., omnirange 320° T radials.

Edgerton Intersection: The intersection of the Fort Wayne, Ind., omnirange 031° T and the Goshen, Ind., omnirange 092° T radials.

Palestine Intersection: The intersection of the Imperial, Pa., omnirange 226° T and the Ellwood City, Pa., omnirange 265° T radials.

Power Point Intersection: The intersection of the Imperial, Pa., omnirange 305° T and the Youngstown, Ohio, omnirange 190° T radials.

and by revoking the following reporting points:

Apple Intersection: The intersection of the Palmdale, Calif., omnirange 006° T and the Daggett, Calif., omnirange 235° T radials.

Kokomo Intersection: The intersection of the Lafayette, Ind., omnirange 089° T and the Indianapolis, Ind., omnirange 021° T radials.

Maxwell Intersection: The intersection of the Indianapolis, Ind., omnirange 084° T and the Lafayette, Ind., omnirange 122° T radials.

Radnar Intersection: The intersection of the Lafayette, Ind., omnirange 089° T and the Indianapolis, Ind., omnirange 341° T radials.

Daggett, Calif., omnirange station.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t., September 25, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, Helen L. Siegel et al. trading as Siegel's, San Antonio, Tex., Docket 7071, August 6, 1958]

In the Matter of Helen L. Siegel and Morris E. Siegel, Individually and as Copartners Trading as Siegel's

This proceeding was heard by a hearing examiner on the complaint of the Commission charging furriers in San Antonio, Tex., with violating the Fur Products Labeling Act by falsely identifying on labels the fur contained in certain products, by affixing labels containing fictitious prices and falsely representing excessive amounts as the regular retail prices of fur products; by failing in other respects to conform with the labeling and invoicing requirements of the Act; by advertising in newspapers which failed to disclose the names of animals producing certain furs, that certain products were artificially colored or were composed of cheap or waste fur, and which represented prices as reduced from regular prices which were in fact fictitious; and by failing to maintain adequate records as a basis for such pricing claims.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 6 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents, Helen L. Siegel and Morris L. Siegel, individually and as copartners, trading as Siegel's, or under any other name, and respondents' agents, representatives, and employees, directly or through any corporate or other device, in connection with the introduction into commerce or the sale, advertising, offering for sale, transportation or distribution of fur products, in commerce, or in connection with the sale, advertising, offering for sale, transportation or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce, as "commerce," "fur," and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Representing on labels attached to fur products, or in any other manner, that certain amounts are the regular and usual prices of fur products when such amounts are in excess of the prices at which such products are usually and customarily sold by respondents in the recent regular course of their business.

2. Falsely or deceptively labeling or otherwise identifying any such product as to the name or names of the animal or animals that produced the fur from which such product was manufactured.

3. Failing to affix labels to fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed by the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed, or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is the fact;

(e) The name, or other identification, issued and registered by the Commission, of one or more persons who manufactured such fur product for introduction into commerce, introduced it into

commerce, sold it in commerce, advertised or offered it for sale in commerce, or transported it in commerce;

(f) The name of the country of origin of any imported furs used in the fur product.

4. Setting forth on labels attached to fur products:

(a) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder mingled with non-required information;

(b) Information required under section 4 (2) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in handwriting.

B. Falsely or deceptively invoicing fur products by:

1. Failing to furnish invoices to purchasers of fur products showing:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur product contains or is composed of used fur, when such is the fact;

(c) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is the fact;

(d) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is the fact;

(e) The name and address of the person issuing such invoice;

(f) The name of the country of origin of any imported furs contained in the fur product;

(g) The item number or mark assigned to a fur product.

2. Setting forth on invoices pertaining to fur products information required under section 5 (b) (1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

C. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products and which:

1. Fails to disclose:

(a) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(b) That the fur products contain or are composed of bleached, dyed or otherwise artifically colored fur, when such is the fact;

(c) That the fur product is composed in whole or in substantial part of paws, tails, bellies or waste fur, when such is the fact.

2. Represents directly or by implication that respondents' regular price of any fur product is any amount which is in excess of the price at which respondents have regularly or customarily sold such products in the recent regular course of their business.

D. Making claims and representations in advertisements respecting comparative prices, percentage savings claims, or claims that prices are reduced from regular or usual prices, unless there is maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the above-named respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 6, 1958.

By the Commission.

[Docket 7063]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

WHITE FRONT STORES, INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 13.70 *Fictitious or misleading guarantees;* § 13.75 *Free goods or services;* § 13.155 *Prices:* Percentage savings; sales below cost; § 13.285 *Value.* Subpart—*Invoicing products falsely:* § 13.1108 *Invoicing products falsely:* Fur Products Labeling Act. Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1852 *Formal regulatory and statutory requirements:* Fur Products Labeling Act; § 13.1880 *Old, used, reclaimed, or reused as unused or new:* Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U. S. C. 45, 69f) [Cease and desist order, White Front Stores, Inc., et al., Los Angeles, Calif., Docket 7063, August 7, 1958]

In the Matter of White Front Stores, Inc., a Corporation, and Harry Blackman, Individually and as an Officer of Said Corporation

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a furrier in Los Angeles, Calif., with violating the Fur Products Labeling Act by failing to invoice as "secondhand used fur" where required and to comply with other requirements of the Act with respect to invoicing; by advertising in newspapers which represented prices of fur products falsely as "way below cost", which failed to specify the nature and extent of a purported "three year guarantee" and the manner in which respondent would perform thereunder, which falsely advertised "free Storage", "40% to 60% off" regular prices, and "spectacular buy out values from Fellman Furs of L. A."; and by failing to maintain adequate records on which the savings claims were based.

After acceptance of an agreement containing a consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 7 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent White Front Stores, Inc., a corporation, and its officers, and respondent Harry Blackman, as an individual and as an officer of said corporation; and respondents' representatives, agents and employees, directly or through any corporate or other device, lease, assignment, or agreement, in connection with the introduction into commerce, or the sale, advertisement, offer for sale, transportation, or distribution in commerce of any fur product, or in connection with the sale, advertisement, offer for sale, transportation, or distribution of any fur product which is made in whole or in part of fur which has been shipped and received in commerce, as "commerce", "fur" and "fur product" are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Falsely or deceptively invoicing fur products by:

A. Failing to furnish invoices to purchasers of fur products showing:

(1) The name or names of the animal or animals producing the fur or furs contained in the fur product as set forth in the Fur Products Name Guide and as prescribed under the rules and regulations;

(2) That the fur product contains or is composed of used fur when such is a fact;

(3) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is a fact;

(4) That the fur product is composed in whole or in substantial part of paws, tails, bellies, or waste fur, when such is a fact;

(5) The name and address of the person issuing such invoice;

(6) The name of the country of origin of any imported fur contained in a fur product.

B. Setting forth on invoices pertaining to fur products the name of an animal other than the name or names of the animal or animals producing the fur or furs contained in such fur products.

C. Setting forth information required under section 5 (b) (1) of the Fur Products Labeling Act and the rules and regulations promulgated thereunder in abbreviated form.

D. Failing to set forth, on invoices pertaining to fur products, the term "secondhand used fur" when required by the rules and regulations.

2. Falsely or deceptively advertising fur products, through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote, or assist, directly or indirectly, in the sale or offering for sale of fur products, and which:

A. Represents, directly or by implication, where contrary to the facts, that such fur products:

(1) Are being offered for sale at or below respondents' wholesale costs.

(2) Are guaranteed, unless the nature and extent of such guarantee, and the manner in which the guarantor will perform thereunder, are clearly and conspicuously set forth.

(3) May be stored for the purchaser at his option and without charge, by respondents;

(4) Were secured by respondents from a source that is in financial or other distress.

B. Represents, through percentage savings claims or otherwise, that the regular or usual retail prices charged by respondents for fur products of similar grade or quality in the recent regular course of business have been reduced in direct proportion to such savings claims.

3. Setting forth savings claims, or representations as to selling or offering to sell at or below cost, unless there are maintained by respondents full and adequate records disclosing the facts upon which such claims and representations are based, as required by Rule 44 (e) of the rules and regulations.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 7, 1958.

By the Commission.

[Docket 6837]

PART 13—DIGEST OF CEASE AND DESIST ORDERS

WAREHOUSE DISTRIBUTORS, INC., ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Knowingly inducing or receiving discriminating price under 2 (f): § 13.850 *Inducing and receiving discriminations.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interprets or applies sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Warehouse Distributors, Inc. (Atlanta, Ga.), et al., Docket 6837, August 14, 1958]

In the matter of Warehouse Distributors, Inc., a corporation, and Charles A. Cole, individually and as manager; Alexander-Seewald Co., Inc., a corporation, and R. Jackson Alexander, individually and as an officer; Automotive Supply Co., a corporation, and Frank McKenzie, individually and as an officer; Auto Specialty Co., Inc., a corporation, and H. Edgar Allen, Jr., individually and as an officer; Auto Spring & Bearing Co., Inc., a corporation, and Gordon E. Johnson, individually and as an officer; Black & Company, Inc., a corporation, and Jack F. Black, individually and as an officer; A. C. Broyles, Jr., doing business under the firm name and style of Broyles Rubber Oil Company, a sole proprietorship; Butler Supply Company, Inc., a corporation, and Milton E. Butler, individually and as an officer; C & B Parts Service, Inc., a corporation, and Benjamin T. Brooks, Sr., individually and as an officer; Consolidated Automotive Company, a corporation, and Edgar H. Rogers, Jr., individually and as an officer; Craig Motor Service Co., Inc., a corporation, and Wallace D. Craig, individually and as an officer; General Automotive Supply Co., Inc., a corporation, and William P. Butt, individually and as an officer; Hart's Automotive Parts Co., a corporation, and R. Henry Hart, Jr., and W. Russell Johnson, individually and as officers; Billie Bruce Jones, doing business under the firm name and style of Bruce Jones Company, a sole proprietorship; Motor Bearings & Parts Co., of Raleigh, Inc., a corporation, and Lorentz T. White, Lorentz T. White, Jr., and Sydnor M. White, individually and as officers; Motor Car Supply Company, a corporation, and Emory R. Young and Hoke J. Monroe, individually and as officers; Motor & Electric Supply Co., Inc., a corporation, and J. A. Bryant, individually and as an officer; The Parts Company, a corporation, and Walton H. Rockafellow, individually and as an officer; Parts Service Company, Inc., a corporation, and Claude R. Kirk and Samuel R. Meadows, individually and as officers; Phelps-Roberts Corporation, a corporation, and Robert E. Phelps, individually and as an officer; Richmond Auto Parts Company, Inc., a corporation, and Hansford B. Truslow, individually and as an officer; Scurry & Nixon, Inc., a corporation, and James A. Brown, individually and as an officer; Southern Bearings & Parts Co., Inc., a corporation, and Clarence E. Beeson and O. Harold Hamby, individually and as officers; Southern Parts & Bearing Co., Inc., a corporation, and Randolph M. Myers and H. Ival Slaydon, individually and as officers; Spartan Automotive, Inc., a corporation, and Theodore R. Garrison, individually and as an officer; H. Steenken & Co., a corporation, and Frank E. Condon and F. Raymond O'Keefe, individually and as officers; United Service Co., a corporation, and John H. Yellman and Oliver A. Bakhaus, individually and as officers; Valley Distributors, Inc., a corporation, and Dudley C. Lichliter and C. F. Staples, individually and as officers; Womwell Automotive Parts Co., Inc., a corporation, and Barclay A. Storey, individually and as an officer.

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a group of 28 southeastern jobbers of automotive parts and supplies, acting through the medium of their corporate buying organization, with violating section 2 (f) of the Clayton Act by inducing and accepting illegal price discriminations from their suppliers through such practices as (1) requiring suppliers who sold on a quantity discount schedule to base their discounts on the combined purchases of all group members; (2) requiring suppliers who did not give trade discounts to competing customers to give them to members; and (3) replacing suppliers who did not grant discriminatory terms to the group by others who did.

Following acceptance of an agreement containing consent order, the hearing examiner made his initial decision and order to cease and desist which became on August 14 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Warehouse Distributors, Inc., a corporation, and Charles A. Cole, individually and as manager; Alexander-Seewald Co., Inc., a corporation, and R. Jackson Alexander, individually and as an officer; Automotive Supply Co., a corporation, and Frank McKenzie, individually and as an officer; Auto Specialty Co., Inc., a corporation, and H. Edgar Allen, Jr., individually and as an officer; Auto Spring & Bearing Co., Inc., a corporation, and Gordon E. Johnson, individually and as an officer; Black & Company, Inc., a corporation, and Jack F. Black, individually and as an officer; A. C. Broyles, Jr., doing business under the firm name and style of Broyles Rubber Oil Company, a sole proprietorship; Butler Supply Company, Inc., a corporation, and Milton E. Butler, individually and as an officer; C & B Parts Service, Inc., a corporation, and Benjamin T. Brooks, Sr., individually and as an officer; Consolidated Automotive Company, a corporation, and Edgar H. Rogers, Jr., individually and as an officer; Craig Motor Service Co., Inc., a corporation, and Wallace D. Craig, individually and as an officer; General Automotive Supply Co., Inc., a corporation, and William P. Butt, individually and as an officer; Hart's Automotive Parts Co., a corporation, and R. Henry Hart, Jr., and W. Russell Johnson, individually and as officers; Billie Bruce Jones, doing business under the firm name and style of Bruce Jones Company, a sole proprietorship; Motor Bearings & Parts Co. of Raleigh, Inc., a corporation, and Lorentz T. White, Lorentz T. White, Jr., and Sydnor M. White, individually and as officers; Motor Car Supply Company, a corporation, and Emory R. Young and Hoke J. Monroe, individually and as officers; Motor & Electric Supply Co., Inc., a corporation, and J. A. Bryant, individually and as an officer; The Parts Company, a corporation, and Walton H. Rockafellow, individually and as an officer; Parts Service Company, Inc., a corporation, and Claude R. Kirk and Samuel R. Meadows, individually and as officers; Phelps-Roberts Corporation, a corporation, and Robert E. Phelps, individually and as an officer; Richmond Auto Parts Company, Inc., a corporation, and Hansford B. Truslow, individually and as an officer; Scurry & Nixon, Inc., a corporation, and James A. Brown, individually and as an officer; Southern Bearings & Parts Co., Inc., a corporation, and Clarence E. Beeson and O. Harold Hamby, individually and as officers; Southern Parts & Bearing Co., Inc., a corporation, and Randolph M. Myers and H. Ival Slaydon, individually and as off-

cers; Spartan Automotive, Inc., a corporation, and Theodore R. Garrison, individually and as an officer; H. Steenken & Co., a corporation, and Frank E. Condon and F. Raymond O'Keefe, individually and as officers; United Service Co., a corporation, and John H. Yellman and Oliver A. Bakhaus, individually and as officers; Valley Distributors, Inc., a corporation, and Dudley C. Lichliter and C. F. Staples, individually and as officers; Womwell Automotive Parts Co., Inc., a corporation, and Barclay A. Storey, individually and as an officer, their officers, agents, representatives and employees in connection with the offering to purchase or purchase of any automotive products or supplies in commerce, as "commerce" is defined in the Clayton Act, do forthwith cease and desist from: Knowingly inducing or knowingly receiving or accepting any discrimination in the price of such products and supplies, by directly or indirectly inducing, receiving, or accepting from any seller a net price known by respondents to be below the net price at which said products and supplies of like grade and quality are being sold by such seller to other customers, where the seller is competing with any other seller for respondents' business, or where respondents are competing with other customers of the seller.

For the purpose of determining "net price" under the terms of this order, there shall be taken into account discounts, rebates, allowances, deductions or other terms and conditions of sale by which net prices are effected.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: August 14, 1958.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

DISPOSITION OF INCUBATOR REJECT EGGS

Under the authority vested in the Secretary of Health, Education, and Welfare by the Federal Food, Drug, and Cosmetic Act (sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371) and delegated to the Commissioner of Food and Drugs by the Secretary (22 F. R. 1045) and pursuant to the provisions of the Administrative Procedure Act (sec. 3, 60 Stat. 237, 238; 5 U. S. C. 1002) the following statement of policy is issued:

§ 3.5 *Disposition of incubator reject eggs.* (a) Investigations by the Food and Drug Administration and a number of State regulatory agencies have revealed that incubator reject eggs, removed as infertile or otherwise unhatchable during hatching operations, are being diverted for human food use. Such eggs are regarded as adulterated within the meaning of section 402 (a) (3) of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1046; 21 U. S. C. 342 (a) (3)) because they are unfit for food.

(b) The introduction or delivery for introduction into interstate commerce of adulterated eggs is prohibited under section 301 (a) of the aforesaid act (52 Stat. 1042; 21 U. S. C. 331 (a) unless they have been broken, crushed, or smashed and then denatured with kerosene, creolin, or other suitable denaturant to preclude their diversion to human food channels.

(Sec. 701, 52 Stat. 1055, as amended; 21 U. S. C. 371. Interprets or applies secs. 301, 402, 52 Stat. 1042, 1046; 21 U. S. C. 331, 342)

Dated: August 28, 1958.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—VETERANS CLAIMS

CHRONIC AND TROPICAL DISEASES

In § 3.86, the headnote, the introductory paragraphs of paragraphs (a) and (b), and paragraphs (c), (d) (2), (e), (h), (i), and (j) are amended; paragraph (d) (3) is canceled; and former paragraph (d) (4) is redesignated paragraph (d) (3) to read as follows:

§ 3.86 *Chronic and tropical diseases under Public Law 2, 73d Congress, as amended, or Public Law 85-56.* (a) The service connection of chronic diseases under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, pursuant to Public Law 2, 73d Congress, or sections 301 and 313, Public Law 85-56, is restricted to the following:

• • • • •

(b) The service connection of tropical diseases under Veterans Regulation 1 (a), Part I, paragraph I (c), and Part II, paragraph I (d), or sections 301, 312 and 334 (a), Public Law 85-56, is restricted to the following: (Effective June 24, 1948, unless otherwise indicated.)

• • • • •

(c) No conditions other than those listed in paragraph (a) of this section will be considered chronic diseases except upon approval by the Administrator of Veterans Affairs. For the purposes of determining the existence of a compensable degree of active tuberculosis within 3 years of discharge or the date prior to which a disability must have been incurred as provided in Veterans Regulation 1 (a), as amended, or sections 101 (6), (7), (8), and (9) and 301 (2), Public Law 85-56, whichever is the earlier, active pulmonary tuberculosis diagnosticated by approved methods during the fourth year will be held to have preexisted the diagnosis 6 months in minimal (incipient) cases; 9 months in moderately advanced cases; and 12 months in far advanced cases.

(d) • • •

(2) Tuberculous pleurisy and endobronchial tuberculosis fall within the category of pulmonary tuberculosis. Either will be held incurred in service as provided by paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, or section 313, Public Law 85-56, when initially manifested within 36 months after discharge from service during a war period; or, when service continued after a war period, within 36 months after ending date of the war period concerned. Active tuberculous pleurisy or endobronchial tuberculosis diagnosed by approved methods during the fourth year will be held to have preexisted the diagnosis 6 months. As to tuberculous pleurisy, the effective date of the extension of presumption 6 months beyond the 3-year period will be September 5, 1958, the date of approval of this subparagraph.

(3) When, in a case in which prior activity of pulmonary or nonpulmonary tuberculosis has been satisfactorily established in accordance with § 3.133, with evidence as to the present condition establishing inactivity or arrest, without, however, evidence to establish activity or inactivity over the intervening period, activity of the disease will be presumed for 1 year only, following the last date of activity established by the evidence. This subparagraph is not for application to running awards, but is intended to apply only to new claims filed after the period of activity, and reopened claims. The beginning date of graduated ratings for arrested tuberculosis will be the day following expiration of this 1-year period.

(e) Unstable lesions on comparative study of X-ray films within the presumptive period for the degree of advancement (paragraph (c) of this section) will be taken as establishing service connection for active pulmonary tuberculosis subsequently diagnosed by approved methods, including physical examination: *Provided*, That no percentage evaluation will be assigned prior to the date of such subsequent diagnosis or other evidence of clinical activity: *Provided further*, That as to active pulmonary tuberculosis service-connected

under this paragraph, the evaluation will not be prior to February 26, 1951.

• • • • •

(h) Where service connection is granted under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, or section 313, Public Law 85–56, the effective date of evaluation of disability will be in accordance with § 3.148 (a). When a claim is filed more than 1 year after date of separation (2 years for multiple sclerosis; 3 years for tuberculosis) from active service during a period of war, a notation will be made of items of evidence showing the existence of the disease within the 1-, 2-, or 3-year period applicable to the particular disease. When the veteran's service continued after the war period, and he filed claim after the applicable 1-, 2-, or 3-year period past the ending date of the war period concerned, a similar notation of items of evidence showing date of existence of disease will be made.

(i) When service connection is granted under paragraph I (d), Part II, Veterans Regulation 1 (a), as amended, or section 334, Public Law 85–56, for the tropical diseases, resultant disorders, or diseases originating because of therapy administered in connection with such diseases or as a preventative thereof, listed in paragraph (b) of this section, the effective date of evaluation of the disability will be in accordance with § 3.148 (a) but not prior to June 24, 1948, where service connection is granted pursuant to paragraph I (d), Part II, Veterans Regulation 1 (a), as amended, or not prior to January 1, 1958, where service connection is granted pursuant to Public Law 85–56, and when claim is filed more than 1 year after date of separation from service, notation will be made of the items of evidence showing the existence of the disease within the 1-year period.

(j) The effective date of an award based upon the foregoing provisions will be in accordance with § 3.212: *Provided*, That no award for bronchiectasis, calculi of the kidney, bladder, or gallbladder, cirrhosis of the liver, coccidioidomycosis, osteomalacia, Raynaud's disease, scleroderma, tumors of the peripheral nerves, peptic ulcers (gastric or duodenal), service connected under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended, or section 313, Public Law 85–56, or the tropical diseases and resultant disorders or diseases originating because of therapy administered in connection with such diseases or as a preventative thereof, listed in paragraph (b) of this section, service connected under paragraph I (c), Part I, or paragraph I (d), Part II, Veterans Regulation 1 (a), as amended, or section 313 or section 334, Public Law 85–56, shall be effective prior to June 24, 1948, or January 1, 1958, where service connection is granted pursuant to Public Law 85–56: *Provided further*, That no award for active pulmonary tuberculosis, multiple sclerosis, or nonpulmonary tuberculosis, service connected under paragraph I (c), Part I, Veterans Regulation 1 (a), as amended by Public Laws 573, 81st Congress, 174, 82d Congress, and 241, 83d Congress, now section 313, Public Law 85–56, shall be made effective prior to June 23, 1950, October 12, 1951, or August 8, 1953, respectively.

(Secs. 101, 301, 313, 334, 71 Stat. 88, 94, 97, 100; 38 U. S. C. 2101, 2301, 2313, 2334)

(Sec. 210, 71 Stat. 91; 38 U. S. C. 2210)

This regulation is effective September 5, 1958.

[SEAL] ROBERT J. LAMPHERE,
Acting Deputy Administrator.

[F. R. Doc. 58-7180; Filed, Sept. 4, 1958; 8:51 a. m.]

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

Subchapter O—Regulations Applicable to Certain Vessels During Emergency

[CGFR 58-32]

PART 154—WAIVERS OF NAVIGATION AND VESSEL INSPECTION LAWS AND REGULATIONS[1]

VESSELS OPERATED BY OR CHARTERED TO MILITARY SEA TRANSPORTATION SERVICE

The Deputy Secretary of Defense in a letter to the Secretary of the Treasury dated August 6, 1958, requested, in the interest of national defense, a waiver of the navigation and vessel inspection laws and regulations to the extent considered necessary by Commander, Military Sea Transportation Service, or his duly designated representatives, to permit vessels operated by or chartered on a time or voyage basis to the Military Sea Transportation Service to carry out their assigned missions in support of troops deployed under emergency conditions.

Section 1 of the Act of December 27, 1950 (64 Stat. 1120; 46 U. S. C., note preceding 1), states in part as follows:

> That the head of each department or agency responsible for the administration of the navigation and vessel inspection laws is directed to waive compliance with such laws upon the request of the Secretary of Defense to the extent deemed necessary in the interest of national defense by the Secretary of Defense. • • •

In a document published in the FEDERAL REGISTER dated October 12, 1957 (22 F. R. 8125), the Secretary of Defense, the Honorable Neil McElroy, delegated to the Deputy Secretary of Defense, the Honorable Donald A. Quarles, full power and authority to act for and in the name of the Secretary of Defense and to exercise the powers of the Secretary of Defense upon any and all matters concerning which the Secretary of Defense is authorized to act pursuant to law.

The purpose for the following waiver order designated § 154.06, as well as 33 CFR 19.06, is to waive the navigation and vessel inspection laws and regulations issued pursuant thereto which are administered by the United States Coast Guard as requested by the Deputy Secretary of Defense and to publish this waiver in the FEDERAL REGISTER. It is hereby found that compliance with the Administrative Procedure Act, respecting notice of proposed rule making, public rule making procedure thereon, and effective date requirements thereof, is impracticable and contrary to the public interest.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by an order of the Acting Secretary of the Treasury dated January 23, 1951, identified as CGFR 51-1, and published in the FEDERAL REGISTER dated January 26, 1951 (16 F. R. 731), the following waiver order is promulgated and shall be in effect indefinitely and until terminated by proper authority:

§ 154.06 *Vessels operated by or chartered to Military Sea Transportation Service.* (a) Pursuant to the request of the Deputy Secretary of Defense, dated August 6, 1958, made under the provisions of section 1 of Public Law 891, 81st Congress, approved December 27, 1950 (64 Stat. 1120; 46 U. S. C., note preceding 1), and his finding that a waiver is necessary in the interest of national defense, compliance with the provisions of the navigation and vessel inspection laws administered by the United States Coast Guard, as well as the regulations issued thereunder and contained in 33 CFR Chapter I, or in this chapter, is hereby waived to the extent and upon the terms and conditions as set forth in this section, in order to permit vessels operated by or chartered on a time or voyage basis to the Military Sea Transportation Service to carry out their assigned missions in support of troops deployed under emergency conditions.

(b) An application requesting that this waiver be made effective with respect to a particular vessel may be made by the Commander, Military Sea Transportation Service, or any one of his duly designated representatives. Except as provided in paragraph (e) of this section, the application shall be in writing. The application shall be delivered to the Coast Guard District Commander or to his designated representative at the port or place where the vessel is located. In the case of a vessel in any foreign port or place, the application shall be made to the designated representative of the Commandant at such port or place, or if the Coast Guard has not established facilities in such port or place, to the nearest designated representative of the Commandant at a port or place where such facilities have been established, or to the Commandant, U. S. Coast Guard, Washington, D. C. Every application shall:

(1) Describe the laws and/or regulations by appropriate references and/or subjects with respect to which the waiver of compliance is desired;

(2) Contain a certification that the waiver of compliance with such laws and/or regulations with respect to the vessel involved is necessary in the interest of national defense and is necessary by the Military Sea Transportation Service to carry out an assigned mission in support of troops deployed under emergency conditions;

(3) The name and official number of the vessel involved (including the names of master, agent, and owner of the vessel involved); and,

(4) For how long the waiver is needed.

[1] This is also codified as 33 CFR Part 19.

(c) The Coast Guard officer making the waiver in paragraph (a) of this section effective for a particular vessel shall immediately prepare, in quadruplicate, an order setting forth:

(1) The name and official number of the vessel involved;

(2) The laws and/or regulations with respect to which the waiver is effective;

(3) The extent to which compliance with such laws and/or regulations is waived; and,

(4) The period for which the waiver shall be effective.

(d) If practicable, one copy of this waiver order shall be delivered to the master of the vessel involved before such vessel sails. In any case where the waiver order is not delivered to the master, it shall be delivered to the owner, operator, or agent of the vessel without delay. One copy of the waiver order shall be delivered to the Commander, Military Sea Transportation Service, or his duly designated representative, who submitted the application. One copy of the waiver order shall be transmitted to the Commandant (MVI) and the remaining copy kept on file.

(e) In any case of extreme urgency, the application for a waiver order may be made orally and if the Coast Guard District Commander (or his designated representative, or the designated representative of the Commandant, or the Commandant, as the case may be), determines that the conditions in this section have been met, the waiver order shall be made effective without further delay, subject to the condition that the application be reduced to writing and delivered within such period after the date of the oral request as the Coast Guard officer making the waiver effective shall specify in the confirming written waiver order.

(f) No penalty shall be imposed because of failure to comply with any provision of law and/or regulation, the waiver of which has been made effective pursuant to the requirements of this section.

(g) This waiver order shall remain in effect until terminated by proper authority and notice of cancellation is published in the FEDERAL REGISTER.

(Sec. 1, 64 Stat. 1120; 46 U. S. C., note prec. 1)

Dated: August 29, 1958.

[SEAL] J. A. HIRSHFIELD,
Rear Admiral, U. S. Coast Guard, Acting Commandant.

[F. R. Doc. 58-7184; Filed, Sept. 4, 1958; 8:53 a. m.]

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

PART 115—SOUTHEASTERN ALASKA AREA SALMON FISHERIES, GENERAL REGULATIONS

RELAXATION OF WEEKLY CLOSED PERIODS

Basis and purpose. On the basis of a good showing of chum salmon in the Taku section of the Eastern District and a good showing of coho salmon in the Stikine District, it has been determined that the weekly closed periods can be relaxed for the remainder of the season.

1. Section 115.5 is amended in subparagraph (1) of paragraph (c) by deleting "12 noon Thursday" and substituting in lieu thereof "12 noon Friday, 1958."

2. Section 115.5 is amended in subparagraph (2) of paragraph (d) by deleting "12 noon Thursday" and substituting in lieu thereof "12 noon Friday, 1958."

In order to permit maximum utilization of the runs, these relaxations will not permit notice and public procedure and, therefore, they shall become effective immediately upon publication in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.).

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

DONALD L. MCKERNAN,
Director, Bureau of Commercial Fisheries.

SEPTEMBER 4, 1958.

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 29]

FRUIT BUTTERS, FRUIT JELLIES, FRUIT PRESERVES, AND RELATED PRODUCTS; DEFINITIONS AND STANDARDS OF IDENTITY

PROPOSAL TO AMEND STANDARD OF IDENTITY FOR FRUIT JELLY

Notice is hereby given that a petition has been filed by the National Preservers Association, 1346 Connecticut Avenue NW., Washington, D. C., whose members are manufacturers and distributors of fruit jellies, setting forth a proposed amendment to the regulations fixing and establishing a definition and standard of identity for fruit jelly (21 CFR 29.2 (23 F. R. 1919)).

Pursuant to the authority of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919; 21 U. S. C. 341, 371) and in accordance with the authority delegated to the Commissioner of Food and Drugs by the Secretary of Health, Education, and Welfare (22 F. R. 1045), all interested persons are hereby invited to present their views in writing regarding the proposals published below. Such views and comments should be submitted in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER.

It is proposed that § 29.2 be amended as follows:

1. By adding the following new subparagraph to paragraph (a):

(7) Cinnamon flavoring, other than artificial flavoring, and harmless artificial red coloring in case the fruit juice ingredient or combination of fruit juice ingredients is extracted from apple or crabapple, or both such fruits.

2. By adding the following new subparagraph to paragraph (g):

(7) When optional ingredient (a) (7) is used, the label shall bear the statement "flavoring and artificial coloring added" or "with added flavoring and artificial coloring." The word "flavoring" in such statement may be preceded by the word "cinnamon."

Dated: August 28, 1958.

[SEAL] JOHN L. HARVEY,
Deputy Commissioner of Food and Drugs.

[F. R. Doc. 58-7155; Filed, Sept. 4, 1958; 8:46 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41, 42]

[Draft Release No. 58-16]

CARRIAGE OF PERSONS OTHER THAN "CREW MEMBERS" AND "PASSENGERS" ABOARD ALL-CARGO AIRCRAFT

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety, notice is hereby given that the Bureau will propose to the Board amendments to Parts 40, 41, and 42 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by Nov. 5, 1958. Copies of such communications will be available after Nov. 10, 1958, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Sections 40.356, 41.121, and 42.51 (g) presently authorize the admittance of certain persons to the flight deck of an airplane operated under the provisions of Parts 40, 41, and 42, respectively, of the Civil Air Regulations. However, seats in the passenger compartment must be available for the use of all persons admitted to the flight deck except authorized representatives of the Civil Aeronautics Administration or the Board engaged in checking flight operations, certain operations personnel of the air carrier, and certain technical representatives of the manufacturer of the airplane or its components.

In recent years, developments within the air cargo industry have indicated an increasing use of air transportation for the shipment of classified or special cargo, particularly the shipment of valuable animals. Such transportation frequently requires the presence of individuals such as couriers, guards, or attendants aboard the airplane for the purposes of maintaining security requirements with respect to certain classified cargo, safeguarding the transportation en route of special cargo (such as machinery), or attending animals in the interest of safety of the airplane and cargo.

For a number of years, it has been the general practice in cargo operations to carry animal attendants as crew members while in the performance of their duties. However, other cargo attendants or couriers are considered as passengers since their presence is not necessary for the safe operation of the airplane being used for the carriage of the particular cargo. Similarly, when animal attendants are carried aboard the cargo airplane to or from their specific duty assignments, they are in the category of passengers. As a consequence, the cargo airplane becomes subject to the passenger operation rules which differ from the cargo operation rules primarily with respect to fire prevention requirements, allowable weights, and performance limitations.

The classification as passengers of individuals assigned such specific duties in connection with cargo on all-cargo aircraft is believed to be unnecessary in the interest of safety and, therefore, an unreasonable burden upon air carriers engaging in such operation. In this type of operation, such individuals do not readily fall within the normally accepted category of air carrier passengers. Furthermore, it is apparent that cargo compartments generally, due to their design and intended function, are not suitable for extended occupancy by individuals performing these duties in connection with cargo. Accordingly, it is proposed to amend Parts 40, 41, and 42 of the Civil Air Regulations to exclude from the passenger category an individual authorized by an air carrier, the Administrator, or the Board to perform a specific duty in connection with cargo being carried aboard a cargo airplane while in the performance of such duty or traveling to or from such duty assignment aboard such cargo airplane.

The seat now required under § 40.174 for each person need not be available for such individual elsewhere in the cargo airplane when he is permitted by appropriate authority to occupy an approved seat on the flight deck since there is no passenger compartment, as such, in an all-cargo airplane. Of course, if a seat on the flight deck is not available, the individual authorized to perform a specific duty in connection with cargo must have a seat available elsewhere in the cargo airplane. It should be clearly understood, however, that there is no intent to compromise in any way the authority of the pilot in command to refuse such individual admission to the flight deck in the interest of safety.

While many of the cargo-only operations are conducted under the provisions of Part 42 of the Civil Air Regulations, an air carrier authorized by the Board pursuant to Title IV of the Civil Aeronautics Act of 1938, as amended, to engage in scheduled air transportation of cargo may prefer to conduct such operations under the provisions of Part 40 or 41 of the Civil Air Regulations, as appropriate. Accordingly, it is proposed to amend these parts of the Civil Air Regulations, as well as Part 42.

It will be noted that the scope of the proposed amendment with respect to admission to the flight deck is restricted to animal attendants and individuals especially designated by an appropriate Government agency, such as the Atomic Energy Commission or the military departments of the Department of Defense, to perform essential security functions in connection with the transportation of radioactive materials or classified cargo. The Board may authorize other individuals to be carried aboard a cargo airplane when their presence is essential for the safeguarding of other types of special cargo while en route, and may authorize such an individual to occupy a seat on the flight deck without the need for a seat being available for his use elsewhere in the airplane. In such cases, a request for authorization should be submitted to the Board, with all the facts and circumstances pertinent thereto.

In consideration of the foregoing, notice is hereby given that it is proposed to recommend to the Board that Parts 40, 41, and 42 of the Civil Air Regulations be amended as follows:

1. By amending § 40.5 of Part 40 by adding the following definitions in alphabetical order:

§ 40.5 *Definitions.* * * *

Cargo airplane. A cargo airplane is an airplane which is not a passenger-carrying airplane and which is used for the carriage of property or goods.

* * * * *

Passenger-carrying airplane. A passenger-carrying airplane is an airplane carrying any individual other than a crew member, a company employee, an authorized Government representative, or an individual appropriately authorized by the air carrier, the Administrator, or the Board in connection with a specific duty assignment aboard the airplane, or while traveling to or from such duty assignment.

2. By amending § 40.356 (b) by changing present subparagraph (2) to subparagraph (3) and adding a new subparagraph (2) to read as follows:

§ 40.356 *Admission to flight deck.* * * *

(b) * * *

(2) An individual engaged in performing specific duties aboard a cargo airplane in connection with the safe carriage of animals, the shipment of radioactive materials within the meaning of and subject to the requirements of § 49.2 (b) of this subchapter, or the security of classified Government cargo or while traveling to or from such assignment, when specifically authorized in writing by a responsible supervisor in the operations department of the air carrier who is listed in the Operations Manual as having such authority: *Provided*, That the air carrier insures that the person authorized to be carried is necessary for the safety of the flight or cargo and is seated so as to preclude interference with the control of the airplane; or

3. By amending §§ 41.137 and 41.121 (b) of Part 41 and §§ 42.1 and 42.51 (g) (2) of Part 42 similarly.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601-610, 52 Stat. 1007-1012, as amended; 49 U. S. C. 551-560)

Dated at Washington, D. C., August 29, 1958.

By the Bureau of Safety.

[Draft Release No. 98]

REINVESTMENT OF GAINS DERIVED FROM SALE OR OTHER DISPOSITION OF FLIGHT EQUIPMENT; UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

NOTICE OF PROPOSED RULE MAKING

SEPTEMBER 2, 1958.

Notice is hereby given that the Civil Aeronautics Board has under consideration the adoption of a new Part 235 of the Economic Regulations designed to implement the amendment made to section 406 of the Act which exempts flight equipment capital gains from offset against subsidy where such gains are reinvested in other flight equipment in accordance with the statute and Board regulations.

The principal features of the proposed regulation are explained and the proposed new Part 235 is set forth below.

Interested persons may participate in the proposed rule making through submission of written data, views or arguments pertaining thereto, in quintuplicate, addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All relevant matter in communications received on or before October 7, 1958, will be considered by the Board before taking final action on the proposed rule.

This regulation is proposed under the authority of sections 205 (a) and 406 of the Act (52 Stat. 984, 998, Public Law 85-373, dated April 9, 1958, 49 U. S. C. 425, 486).

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART, *Acting Secretary.*

Section 406 (b) of the Civil Aeronautics Act of 1938, as amended by Public Law 85-373, approved April 9, 1958,

exempts flight equipment capital gains from offset against subsidy: *Provided*, That such gains are reinvested in other flight equipment in accordance with Board regulations. In order to obtain the benefits of this amendment, an air carrier is required to notify the Board that it has "invested or intends to reinvest" the net gains and submit evidence that an amount equal to the net gains has been expended for the purchase of flight equipment or has been deposited in a special re-equipment fund. The amendment leaves to the Board the determination of the form of notice, the evidence to be submitted, and the period within which the reinvestment must occur. Accordingly, there is proposed herein a regulation which sets forth the circumstances under which air carriers may avail themselves of the benefits of this exemption.

Under the proposed regulation, an air carrier would be expected to make a prompt determination of the use which is to be made of flight equipment capital gains. The carrier would have the choice of applying all or any part of the gain to the purchase of flight equipment (including retirement of debt incurred therefor) or of depositing such amounts in a special re-equipment fund. The carrier would be required to take one of these actions within 60 days after the date of the sale or other disposition of the flight equipment and before it files with the Board the required notice that it has invested or intends to reinvest the gains.

Notice that the carrier has invested or intends to reinvest the gains in flight equipment would be fileable within 60 days after the date of the sale or other disposition from which the carrier derived the gain. This notice would consist of two schedules relating respectively to the disposition transaction and to the acquisition of flight equipment or retirement of debt. Proposed Form 41 Schedule B–8 (a) would be used for detailing information with respect to the disposition transaction. Unless the gain is already reinvested in flight equipment, Schedule B–8 (a) also would contain information with respect to the re-equipment fund and the execution of a surety bond. Specifically, Schedule B–8 (a) would identify the items of flight equipment involved in the gain and other parties to the transaction, state the date of the sale or other disposition, the depreciated cost of each such item and the value received therefor, the applicable expenses, taxes, and the net gain, a description of the re-equipment fund, the amount of the surety bond and name of the surety company. Within 10 days after any change in the assets making up the re-equipment fund, the carrier would have to report the change in an amended Schedule B–8 (a).

Where the gain has been applied either through acquisition of flight equipment or retirement of an existing debt (incurred in the purchase or construction of flight equipment), proposed Form 41 Schedule B–7 (a) would be fileable, in addition to Schedule B–8 (a), giving the details of the expenditure. This schedule would describe the equipment purchased or the debt liquidated, give the names of parties to the transaction, the date of the application of the gain, the method and terms of payment, and the cost of each item of equipment. Proposed Schedule B–7 (a) likewise would be fileable within 60 days after the expenditure of amounts which had been deposited in a re-equipment fund.

This regulation fixes a period of two years after the date of the transaction which yielded the gain as a reasonable time for the reinvestment in flight equipment of gains placed in a special re-equipment fund. An extension of this time limitation may be granted by the Board where good cause is shown by the air carrier.

Since, for the purpose of this regulation, it will be sufficient if a carrier invests an "amount equal to the gain", rather than the gain itself, a physical tracing of the gains into new equipment will not be necessary where there is an immediate application of the gains. Where the gains are deposited in a re-equipment fund, the proof would be the same as in the case of a direct expenditure, i. e. that the carrier show that an "amount equal to the gain" has been deposited in a special re-equipment fund. However, the language of the statute conveys the Congressional intent that such fund be segregated and not be used for the carrier's general purposes. A "deposit" connotes a physical fund such as a bank account, negotiable securities, and not a mere reserve on the carrier's books. Thus, for the purposes of this regulation, any re-equipment fund which is established must itself be capable of physical identification, and the amounts deposited must be traceable to the subsequent expenditures for equipment or for the retirement of a debt. To assure the proper use of gains deposited in a special re-equipment fund, the carrier will be required to furnish a surety bond in an amount equal to the gain in order to cover the amount of subsidy which would be refundable by the carrier if the gains are not reinvested in accordance with the regulation.

Where an air carrier has acquired flight equipment prior to the materialization of a gain from the disposition of other flight equipment and no debt contracted for the acquisition of such equipment is outstanding, the gain from the disposition is not eligible for the benefit of the statute as written because a carrier cannot be said to have invested a gain prior to its materialization. On the other hand, flight equipment capital gains, when realized, would be permitted to be applied against the amortization of debt incurred in the purchase or construction of flight equipment prior to the realization of the gain. This is not to say that the mere substitution of new debt, i. e. by using the gains to momentarily retire an existing debt and borrowing on the same flight equipment in order to free the gain for other uses—would be regarded as a bona fide expenditure which would be a basis for exempting such gains from offset. However, a carrier would be permitted to make an immediate application of the gains to the actual retirement of a debt without going through the formality of establishing a re-equipment fund.

In accordance with established Board practice,[1] this regulation provides that where an air carrier exchanges flight equipment for like equipment or applies the retirement proceeds to the purchase of like equipment, the transaction will be regarded as a substitution of assets and the gain shall be offset against the purchase price of the new equipment.

§ 235.1 *Definitions.* For the purposes of this part:

(a) "Applicable Expenses" means all direct and indirect expenses attributable to the offering, preparation or presentation of the flight equipment for sale or delivery, including, but not limited to:

(1) Advertising expense.

(2) Broker's and salesmen's expense and commissions.

(3) Packaging expense and other costs incident to preparation for shipment.

(4) Reconditioning, refurnishing painting and other similar expenses.

(6) Transportation and shipping expenses.

(7) Overhaul expense.

(8) Legal fees and other administrative expenses.

(b) "Date of sale or other disposition" means the date on which the transfer or disposition of the flight equipment is final and complete and nothing remains to be done by the air carrier selling or disposing of the flight equipment to entitle it to payment of the consideration or value, regardless of the period over which actual payments are to be made.

(c) "Flight Equipment" means airframes, aircraft engines, aircraft propellers, aircraft communications and navigational equipment, miscellaneous flight equipment, improvements to leased flight equipment and flight equipment rotatable parts and assemblies wthin the meaning of Part 241 (Accounts 1601 through 1608) of this subchapter.

(d) "Gain" means the amount by which the total proceeds (less applicable expenses and taxes) realized from the sale or other disposition of one or more units of flight equipment in a single transaction exceeds the total depreciated cost of the units of flight equipment sold or disposed of in that transaction.

(e) "Re-equipment fund" means cash or its equivalent and other liquid assets segregated from the general assets of the air carrier for the exclusive purposes of purchasing or constructing flight equipment or retiring debt contracted for the purchase or construction of flight equipment, such as a special bank deposit or an investment in securities.

(f) "Sale or other disposition" means the retirement of flight equipment by any means,[2] including sale, exchange, abandonment, demolition, or an insured

---

[1] Northeast Airlines Mail Rates, 9 C. A. B. 291, 306, 307 (1948).

[2] Where an air carrier exchanges flight equipment for like equipment or applies retirement gains to the purchase of like equipment, the transaction will be regarded as a substitution of assets and the "gain" shall be offset against the purchase price of the new equipment.

upon settlement of which the air carrier has the option to select between replacement in kind and cash or its equivalent.

§ 235.2 *Eligibility for benefits of Public Law 85–373.* Air carriers seeking to obtain the benefits of Public Law 85–373, with respect to all or part of any gain derived from the sale or other disposition of flight equipment, shall comply with the statutory requirements in the manner provided in this part.

§ 235.3 *Reinvestment of gains.* An amount not in excess of the gain from the sale or other disposition of flight equipment shall be applied to the purchase or construction, or to the retirement of debt contracted for the purchase or construction, of flight equipment, or shall be deposited for such purposes in a re-equipment fund, within 60 days after the date of such sale or other disposition and before the date on which the air carrier files the schedules required by § 235.4. The gain may not be invested in flight equipment delivered to the carrier prior to April 6, 1956.

§ 235.4 *Notice to Board.* Form 41 Schedule B–8 (a) shall be filed by the air carrier, in triplicate, with the Board within 60 days after the date of the sale or other disposition of flight equipment from which the air carrier derived a gain. Form 41 Schedule B–7 (a) shall also be filed, in triplicate, within the same period, if the carrier has applied the gain to the purchase or construction, or to the retirement of debt contracted for the purchase or construction, of flight equipment. If the date of the sale or other disposition was on or after April 6, 1956, but prior to the date of the adoption of this part, the appropriate schedule(s) shall be filed not later than 60 days after the adoption of this part.

§ 235.5 *Re-equipment fund.* (a) Any gains deposited in a re-equipment fund shall be applied to the purchase or construction, or to the retirement of debt contracted for the purchase or construction of, flight equipment within two years after the date of the sale or other disposition of flight equipment from which the air carrier derived the gain, unless the Board, for good cause shown, grants an extension of such time limitation. The gain may not be invested in flight equipment delivered to the carrier prior to April 6, 1956.

(b) Within 10 days after and change in the assets making up the re-equipment fund, the air carrier shall report such change in an amended Schedule B–8 (a). Within 60 days after the application of the gain deposited in a re-equipment fund, the air carrier shall file Form 41 Schedule B–7 (a).

§ 235.6 *Security for overpayment of subsidy.* With respect to the gain deposited in a re-equipment fund, each air carrier shall furnish the Board with a bond executed by a surety company, in an amount equal to such gain; *Provided*, That, upon application therefor, the Board may grant an air carrier permission to furnish a surety bond in an amount less than the gain upon a showing that such amount will cover the foreseeable amount of subsidy that would be refundable by the air carrier if the gain deposited in the re-equipment fund is not reinvested in accordance with this part.

In conjunction with the foregoing proposed adoption of a new Part 235, notice is hereby given that the Board proposes to amend Part 241 of the Economic Regulations as follows:

1. By amending the list of schedules in § 241.22 of Part 241 by redesignating footnote [1] as footnote [2] and adding the following schedules and footnote:

Schedule No.	Title	Frequency	Postmark interval (days)
B–7 (a)	Reinvestment of Flight Equipment Capital Gains.	(1)	(1)
B–8 (a)	Flight Equipment Capital Gains Invested or Deposited for Reinvestment in Flight Equipment.	(1)	(1)

[1] In accordance with the provisions of § 235.4 of this subchapter.

2. By amending § 241.23 of Part 241 by adding the following instructions:

SCHEDULE B–7 (a)—REINVESTMENT OF FLIGHT EQUIPMENT CAPITAL GAINS [3]

(a) This schedule shall be filed by each carrier which has filed Schedule B–8 (a) notifying the Board that it has reinvested the capital gains reported thereon in flight equipment and/or used the capital gains in retirement of debt contracted for the purchase or construction of flight equipment.

(b) Column (1) "Description of Flight Equipment Acquired and Debt Retired" shall identify the specific items of flight equipment acquired, the applicable account number and the particular issue of debt being retired including a description of the flight equipment for which such debt was contracted, the type of obligation, date of maturity, interest rate, commitment fees, and, if applicable, name of lender.

(c) Column (2) "Date of Application of Gain" shall include the day, month and year on which the gain was applied to each item of flight equipment or to liquidation of debt.

(d) Column (3) "Cost" shall include the total amount of cash or its equivalent actually paid to acquire each item of equipment or to liquidate debt incurred in the purchase or construction of flight equipment.

(e) Column (5) "Source of Gains" shall identify the gain, reported on Schedule B–8 (a), which has been reinvested.

SCHEDULE B–8 (a)—FLIGHT EQUIPMENT CAPITAL GAINS INVESTED OR DEPOSITED FOR REINVESTMENT IN FLIGHT EQUIPMENT [3]

(a) This schedule shall be filed by each carrier who has reinvested or intends to reinvest gains derived from the sale or other disposition of flight equipment pursuant to Part 235 of this subchapter.

(b) Column (1) "Description of Flight Equipment Retired" shall identify the specific items of flight equipment retired including the applicable account number.

(c) Column (2) "Date of Sale or Other Disposition" shall include the day, the month and the year on which each item was sold or otherwise disposed of within the meaning of § 235.1 (b) of this subchapter.

(d) Column (8) "Net Amount of Gain" shall reflect the net of column (5) minus columns (6) and (7); an entry shall be made transferring an amount equal to the amount in column (8) from account 2940 Unappropriated Retained Earnings to account 2930 Other Appropriations of Retained Earnings.

(e) Column (9) "Disposition" shall reflect the name of the person or organization to which the flight equipment is sold or a notation as to the nature of the disposition if not sold.

(f) Columns (10) and (11) shall reflect the date and amount of each gain deposited in a re-equipment fund for reinvestment in flight equipment. Such deposits shall be recorded in account 1550 Special Funds—Other.

(g) Column 12 shall identify the assets in the fund and shall indicate the location of the fund if not in immediate physical possession of the air carrier.

[F. R. Doc. 58–7186; Filed, Sept. 4, 1958; 8:53 a. m.]

[3] The proposed form of this schedule is filed as part of original document.

NOTICES

DEPARTMENT OF DEFENSE

Office of the Secretary

SECRETARIES OF THE ARMY, NAVY AND AIR FORCE

DELEGATION OF AUTHORITY CONCERNING SETTLEMENT OF FOREIGN CLAIMS

Settlement of claims under the Foreign Claims Act of January 2, 1942, The Acts of July 3, 1943, and of August 31, 1954, and 10 U. S. C. 2733 and 2734, as amended.

The Deputy Secretary of Defense approved the following on August 22, 1958:

The authority vested in the Secretary of Defense under the act of August 31, 1954, chapter 1152 (68 Stat. 1006; 31 U. S. C. 224i–2—224i–5), is delegated to the Secretaries of the Army, Navy and Air Force.

When one military department has been or may be assigned responsibility for claims in a particular country or area, that department shall make all reimbursements and payments under the cited act.

Regulations of each military department will provide that all claims arising in such country or area under the following statutes shall normally be settled and paid by claims commissions appointed by, or by a designee of, the Secretary of the military department which has been assigned the responsibility for claims arising there, in accordance with the regulations of that department: The Foreign Claims Act of January 2, 1942 (55 Stat. 880), as amended (31 U. S. C. 224d), and the Act of July 3, 1943, chapter 189 (57 Stat. 372), as amended (31 U. S. C. 223b), and sections 2733 and 2734 of Title 10, United States Code, as amended.

The document entitled "Settlement of Claims Under the Provisions of the Foreign Claims Acts of January 2, 1942 (55 Stat. 880), of July 3, 1943 (57 Stat. 372), and of August 31, 1954 (68 Stat. 1006)", published at 20 F. R. 775, is hereby superseded.

MAURICE W. ROCHE,
Administrative Secretary,
Office of the Secretary of Defense.

Bureau of Land Management

NEVADA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS; CORRECTION

AUGUST 29, 1958.

The Notice of Proposed Withdrawal and Reservation of Lands in Nevada, identified as F. R. Doc. 58-5247; filed July 9, 1958, 8:46 a. m., and appearing in FEDERAL REGISTER of July 10, 1958, page 5262, is corrected to change the name of the National Forest in which the lands lie from Nevada National Forest to Toiyabe National Forest.

E. J. PALMER,
State Supervisor.

[F. R. Doc. 58-7159; Filed, Sept. 4, 1958; 8:47 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Department of the Air Force has filed an application, Serial Number 020729, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining and mineral leasing laws. The applicant desires the land for the maintenance and improvement of the existing airstrip utilized in transporting military personnel and materials to the area, and also for storage adjacent to the airstrip.

For a period of sixty days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, P. O. Box 1050, Fairbanks, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

INDIAN MOUNTAIN AREA

TRACT A

A parcel of land situated within the Fourth Judicial Division, Territory of Alaska, and being approximately 195 miles northwest of the City of Fairbanks. Said parcel being more particularly described as follows:

Commencing at Triangulation Station "Indian" as established in 1954 by the Corps of Engineers, Alaska District, said station being at Latitude 66°04'09" North and Longitude 153°41'12" W., thence S. 51°57' W., 9,804 feet to Corner No. 1 and the True Point of Beginning for this description; thence North 11,200 feet, more or less to Corner No. 2, a point on Latitude 66°05' N.; thence East along said Latitude 66°05' N., 11,858 feet to Corner No. 3; thence South 11,950 feet, more or less to Corner No. 4; thence N. 86°36'54" W., 11,902 feet to the Point of Beginning. Containing 3,136 acres, more or less.

TRACT D

A parcel of land situated between Indian Creek and Utopia Creek, approximately 195 miles west of the Townsite of Fairbanks, in the Fourth Judicial Division, Territory of Alaska, said parcel being more particularly described as follows:

Beginning at the southwest corner of Claim No. 5 Below Lower Discovery on Indian Creek; thence N. 19°30'48" E., 232 feet, more or less to the Point of Beginning for this description; thence N. 76°56' E., 145 feet, more or less; thence S. 33°37' E., 299.93 feet; thence S. 80° E., 281 feet, more or less; thence S. 6°41' E., 547.08 feet; thence S. 56°42' W., 570 feet, more or less; thence S. 78° W., 3,812 feet, more or less; thence S. 2°30' E., 94.56 feet; thence S. 32° W., 225.68 feet; thence N. 76°30' W., 310.40 feet; thence N. 2°45' W., 145.33 feet; thence N. 82° W., 293.59 feet; thence N. 8°02' E., 556.01 feet; thence N. 41° E., 238.06 feet; thence N. 25°13' E., 526.32 feet; thence N. 79°39' E., 497 feet, more or less; thence N. 42°22' W., 985 feet, more or less; thence N. 47°38' E., 200 feet; thence S. 42°22' E., 1,120 feet, more or less; thence N. 79°39' E., 2,270 feet, more or less; thence N. 76°56' E., 880 feet, more or less, to the point of beginning for this description. Containing 130 acres, more or less.

RICHARD L. QUINTUS,
Operations Supervisor, Fairbanks.

[F. R. Doc. 58-7160; Filed, Sept. 4, 1958; 8:48 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The U. S. Atomic Energy Commission has filed an application, Serial Number 019746, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining and mineral leasing laws. The applicant desires the land for a buffer zone for detonation of a nuclear charge for excavation of a harbor.

For a period of sixty days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, P. O. Box 1050, Fairbanks, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

POINT HOPE-TIGERA AREA, NORTHWEST ALASKA

The lands and water areas bounded by lines between the following points:

Point A—Longitude 166°43' W., Latitude 68°20½' N.
Point B—Longitude 166°19' W., Latitude 68°29' N.
Point C—Longitude 166°30' W., Latitude 68°31' N.
Point D—Longitude 164°22' W., Latitude 68°18' N.
Point E—Longitude 164°03' W., Latitude 68°00' N.
Point F—Longitude 164°35' W., Latitude 67°45' N.

Containing approximately 40 square miles.

RICHARD L. QUINTUS,
Operations Supervisor, Fairbanks.

CALIFORNIA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

AUGUST 27, 1958.

The Bureau of Reclamation, Department of the Interior has filed an application, Serial No. Los Angeles 0156728, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining laws but not the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for several proposed reservoir sites. It is intended that the following described lands continue to be administered by the Forest Service consistent with the reclamation purposes to be served which will require certain restrictions such as control of grazing, institution of effective fire prevention and erosion control measures, and prevention of pollution of the water entering the several proposed reservoirs from any source or in any manner. No oil drilling or mining shall be permitted within the areas of the proposed reservoirs or within the 300-foot protection strip extending around and above the maximum water surface of such reservoirs.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 215 West Seventh Street, Los Angeles 14, California.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

[Montana 030966]

MONTANA

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LAND

AUGUST 29, 1958.

A plat of survey of the land described below will be officially filed in the Land Office at Billings, Montana, effective at 10:00 a. m. on October 4, 1958.

MONTANA PRINCIPAL MERIDIAN

T. 27 N., R. 54 E.,
Tract 37—30.14 acres;
Tract 38—74.24 acres;
Tract 39—98.19 acres;
Tract 40—8.29 acres.

Total area included—210.86 acres.

The above-described land was formed by accretion along the right bank of the Missouri River, fronting lots 1, 2, and 3 of Section 11 and lot 15 of Section 12, T. 27 N., R. 54 W. The land is level with a somewhat dissected surface. The tracts have a deep, sandy, loam soil, scattered trees and brush, and some portions are suitable for cultivation.

No application for these lands will be allowed under the homestead, desert land, small tract, or any other nonmineral public land law, unless the lands have already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands described above are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on October 4, 1958, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on January 3, 1959, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on January 3, 1959, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, beginning 10:00 a. m. on January 3, 1959.

Persons claiming veteran's preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

R. D. NIELSON,
State Supervisor.

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

AUGUST 27, 1958.

The U. S. Forest Service of the Department of Agriculture has filed an application, Serial Colorado 023168, for withdrawal of the lands described below from location and entry under the General Mining Laws, subject to existing valid claims.

The applicant desires the land for use as an administrative site.

For a period of thirty days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, 339 New Custom House, P. O. Box 1018, Denver 1, Colorado.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, COLORADO

ROUTT NATIONAL FOREST

Summit Lake Administrative Site

T. 7 N., R. 83 W. Unsurveyed,
In approximate section 35, beginning from corner No. 1 from which the westerly most point of Summit Lake bears N. 20° W. a distance of 36 chains, due south 20 chains to corner No. 2; thence due west 20 chains to corner No. 3; thence due north 20 chains to corner No. 4; thence due east 20 chains to corner No. 1, the point of beginning.

The above described area totals 40 acres.

J. ELLIOTT HALL,
Lands and Minerals Officer.

[Docket No. G-16027]

MISSISSIPPI RIVER FUEL CORP.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGES IN RATES, AND ALLOWING INCREASED RATES TO BECOME EFFECTIVE

AUGUST 29, 1958.

Mississippi River Fuel Corporation (Mississippi), on July 31, 1958, tendered for filing two tariff sheets[1] to its FPC Gas Tariff, Original Volume No. 2 by which Mississippi proposes to increase its rate for sale of gas in the amount of $5,253 annually to Texas Eastern Transmission Corporation for gas produced or gathered by Mississippi in the State of Louisiana and sold under Mississippi's FPC Gas Rate Schedule No. 7.

The clause in the contract between Mississippi and Texas Eastern provides generally that Texas Eastern will reimburse Mississippi for 87½ percent of any additional taxes over these presently paid by Mississippi.

The increased rates and charges so proposed are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rates and charges until August 2, 1958, and thereafter to permit them to become effective as of that date; provided, that within 20 days from the date of this order Mississippi shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered. Due to the nature of the filing, it is deemed advisable to waive the requirements of §§ 154.22 and 154.63 of the Commission's regulations and permit the sheets to become effective following a suspension of one day.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of said proposed changes, and that the above-designated tariff sheets be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Mississippi's proposed increased rates be made effective as hereinafter provided and that Mississippi be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in the above-designated revised tariff sheets.

(B) Pending such hearing and decision thereon, said Second Revised Sheet No. 2-a and Original Sheet No. 2-aa, are each hereby suspended and the use thereof deferred until August 2, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rates, charges, and classifications set forth in the above-designated filings shall be effective as of August 2, 1958: *Provided, however,* That within 20 days from the date of this order Mississippi shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Mississippi shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rates and charges and the proposed increased rates and charges hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by Mississippi herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Mississippi shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Mississippi so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the date upon which the increased rates allowed by this order become effective, and under the rates allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Mississippi shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies

[1] Second Revised Sheet No. 2-a and Original Sheet No. 2-aa.

thereof upon all purchasers under the revised tariff sheets involved, as follows:

Agreement and Undertaking of Mississippi River Fuel Corporation to Comply with the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G-16027, Mississippi River Fuel Corporation hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused the agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this --- day of----------.

Mississippi River Fuel Corporation
By ----------
Attest:

(Secretary)

Unless Mississippi is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Mississippi shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) The revised tariff sheets hereby suspended shall not be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7167; Filed, Sept. 4, 1958; 8:49 a. m.]

[Docket No. G-15431]

SUPERIOR OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 29, 1958.

Take notice that Superior Oil Company (Superior), an independent producer of natural gas, filed an application on July 7, 1958, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the sale of natural gas in interstate commerce as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Superior seeks authority to sell natural gas in interstate commerce to El Paso Natural Gas Company for resale from production in the Aneth Field, San Juan County, Utah, pursuant to a gas sales contract dated June 11, 1958.

Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held on September 24, 1958, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), on or before September 22, 1958.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58-7168; Filed, Sept. 4, 1958; 8:49 a. m.]

[Docket No. G-15445]

TRANSCONTINENTAL GAS PIPELINE CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 29, 1958.

Take notice that Transcontinental Gas Pipeline Corporation (Applicant), a Delaware corporation, with its principal place of business in Houston, Texas, filed an application on July 9, 1958, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of natural gas facilities and the sale of additional gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority to construct and operate a sales meter station with the pertinent equipment at the site of its existing compressor station No. 14 in Spartanburg County, South Carolina. The application states that the proposed meter station will be used as an additional delivery point to provide gas service to Piedmont Natural Gas Company, Inc. (Piedmont), an existing customer for resale.

Applicant states that Piedmont has requested that it provide the proposed new delivery point in order that it might serve Startex Mill, a new industrial customer on an interruptible basis, which Piedmont would be unable to serve from its existing facilities. Piedmont will construct and operate the required facilities between the proposed meter station and Startex Mill, and such service will be made from authorized allocation of gas from Applicant.

The proposed facilities are estimated to cost approximately $19,000 and will be initially financed by Applicant from its general funds. Piedmont has agreed to reimburse Applicant in full for the entire cost of the facilities.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 7, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[Docket Nos. G–12543, G–13198]

DELTA DRILLING CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 29, 1958.

Take notice that Delta Drilling Company (Operator) et al. (Applicant), filed applications pursuant to section 7 of the Natural Gas Act, for permission and approval to abandon service and for a certificate of public convenience and necessity authorizing the sale of natural gas in interstate commerce, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully described in the respective applications which are on file with the Commission and open to public inspection.

In its application filed on May 6, 1957, in Docket No. G–12543, Applicant seeks permission and approval to abandon the sale of natural gas to Manufacturers Light and Heat Company (Manufacturers) from the Bear Paw No. 1 and the Caldwell No. 1 wells, Driftwood Field, Cameron County, Pennsylvania, covered by a contract dated April 11, 1951 and previously authorized in Docket No. G–6333.

In the application filed on August 30, 1957, in Docket No. G–13198, Applicant seeks a certificate of public convenience and necessity authorizing the sale of natural gas from the subject wells to New York State Natural Gas Corporation (New York Natural), pursuant to a gas sales contract dated May 16, 1957. The application in Docket No. G–13198 states that the gas supply involved has depleted to the extent that there no longer is sufficient pressure to make an economic sale to Manufacturers and therefore Applicant has sold its previous facilities and at the request of Manufacturers, has discontinued deliveries of gas. The application further states that Applicant has contracted to sell the remaining supply of gas at a lower pressure to New York Natural.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 7, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58–7172; Filed, Sept. 4, 1958; 8:50 a. m.]

[Docket No. G–16112]

PHILLIPS PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 29, 1958.

Phillips Petroleum Company (Operator) (Phillips), on July 30, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes increased rates and charges, is contained in the following designated filing:

Description: Notice of Change, dated July 29, 1958.

[1] Present rate previously suspended and is in effect subject to refund in Docket No. G–10883.

Purchaser: Panhandle Eastern Pipe Line Company.

Rate schedule designation: Supplement No. 24 to its FPC Gas Rate Schedule No. 5.

Effective date: September 1, 1958 (effective date is the effective date proposed by Phillips).

In support of the proposed increase Phillips refers to the pertinent contract provision to the effect that Phillips is contractually entitled to an increase in its price in proportion to any general rate increase which Panhandle is granted by the Commission. Phillips states in effect that Panhandle Eastern has received a rate increase (in effect subject to refund in Docket No. G–14755)[1] of 12.69 percent and Phillips is entitled to the same percentage increase. Phillips also states that the proposed price is not unjust nor unreasonable; is less than any rate which would be established by any reasonable standard (cost of service or fair market value, for example); is less than the reasonable market price in the area; in an instance such as this where the proposed price is so small, the economic life of the properties cannot of necessity be as long as where the price is greater and it is in the public interest to continue production from a property as long as possible.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 24 to Phillips' FPC Gas Gate Schedule No. 5 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 24 to Phillips' FPC Gas Rate Schedule No. 5.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58–7173; Filed, Sept. 4, 1958; 8:50 a. m.]

[1] Motion to place increased rates in effect September 1, 1958, has been filed.

[Docket No. G–4771 etc.]

AMERADA PETROLEUM CORP. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 29, 1958.

In the matters of Amerada Petroleum Corporation, Docket No. G–4771; Southland Royalty Company, Docket No. G–10304; J. N. Huttig, Docket No. G–10701; Walter Doane Randal, Docket No. G–10702; George W. Johnson, Docket No. G–10703; Martin Anderson, Docket No. G–10704.

Take notice that Amerada Petroleum Corporation (Amerada) filed on November 5, 1956, pursuant to section 16 of the Natural Gas Act (Act), two petitions to amend the certificate of public convenience and necessity issued it on September 21, 1956, in Docket No. G–4771, In the Matters of Ray London and/or D. E. London et al., Docket No. G–2864 et al. These petitions seek deletion of the authorization granted Amerada in said certificate to sell natural gas to El Paso Natural Gas Company (El Paso) from production of a part of the acreage in the Spraberry Field, Reagan C... Texas, dedicated to El Paso under a ... tract dated April 12, 1954, as amended, which part of said acreage, down to ... depth of 8100 feet below the surface, ... assigned by Amerada, subject to ... contract, to others as follows:

(1) By instrument dated October ... 1954, the E½ of Sections 35 and ... Block C, L. & S. V. Ry. Co. Survey, Reagan County, Texas, was assigned by Amerada to D. D. Strong and subsequently further assigned to J. N. Huttig, Walter Doane Randall, George W. Johnson, and Martin Anderson.

(2) By instrument dated May 8, 1956, the NE¼ of Section 38, Block C, L. & S. V. Ry. Co. Survey, Reagan County, Texas, was assigned by Amerada to Southland Royalty Company.

Amerada states that it has not drilled any wells on the lands described in (1) and (2) and has not sold any gas produced from said lands.

Take notice that the parties listed below (Applicants) filed applications for certificates of public convenience and necessity, pursuant to section 7 (c) of the act, authorizing Applicants to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicants propose to sell natural gas in interstate commerce from the aforesaid assigned acreage to El Paso for resale as tabulated below.

Docket No.	Date filed	Applicants and addresses	Source of gas
G–10304	Apr. 23, 1956	Southland Royalty Co., Fort Worth National Building, Fort Worth, Tex.	From acreage described in (2) above.
G–10701	July 2, 1956	J. N. Huttig, 131 Central Building, Midland, Tex.	From acreage described in (1) above.
G–10702	July 2, 1956	Walter Doane Randall, 131 Central Building, Midland, Tex.	From acreage described in (1) above.
G–10703	July 2, 1956	George W. Johnson, 131 Central Building, Midland, Tex.	From acreage described in (1) above.
G–10704	July 2, 1956	Martin Anderson, 131 Central Building, Midland, Tex.	From acreage described in (1) above.

The related matters in Docket Nos. G–10304 and G–10701 through G–10704, inclusive, should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the applications in Docket Nos. G–10304 and G–10701 through G–10704, inclusive: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G–11807 etc.]

OHIO OIL CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 29, 1958.

In the matter of the Ohio Oil Company, Docket Nos. G–11807, G–11813, G–11821, G–11826, G–11829.

Take notice that The Ohio Oil Company (Applicant), an Ohio corporation with principal place of business at Findlay, Ohio, filed in the above-captioned proceedings as hereinafter tabulated separate applications for certificates of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant proposes to sell or continue the sale of natural gas in interstate commerce from production of certain units, leases, or acreage to various purchasers for resale as tabulated below.

Docket No.	Date filed	Source of gas	Purchaser
G-11807	Jan. 25, 1957	Garland Field, Park and Big Horn Counties, Wyo.	Montana-Dakota Utilities Co.
G-11813	Jan. 25, 1957	Nelsonville Field, Austin County, Tex.	Tennessee Gas Transmission Co.
G-11831	Jan. 25, 1957 as amended	Maxie and Pistol Ridge Fields, Forrest County, Miss.	United Gas Pipe Line Co.
G-11838	Jan. 25, 1957	Rush Creek Field, Weld County, Colo.	Kansas-Nebraska Natural Gas Co., Inc.
G-11839	Jan. 25, 1957	Ada Field, Bienville Parish, La.	Arkansas Louisiana Gas Co.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58-7175; Filed, Sept. 4, 1958; 8:51 a. m.]

[Docket Nos. G-15205, G-15238]

RALPH R. GILSTER ET AL. AND TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

AUGUST 29, 1958.

Take notice that on June 2, 1958, Ralph R. Gilster (Operator) et al. (Gilster), in Docket No. G-15205 and on June 5, 1958, Texas Eastern Transmission Corporation (Texas Eastern) in Docket No. G-15238 (hereinafter referred to as Applicants), filed their respective applications for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act for authority to sell natural gas in interstate commerce as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the respective applications, which are on file with the Commission and open to public inspection.

Applicants seek authority to sell natural gas in interstate commerce to United Gas Pipe Line Company for resale, which gas is produced from the Blocker (Pettit) Field, Harrison County, Texas, pursuant to a gas sales contract dated April 14, 1958, as supplemented by letter agreements of the same date.

Gilster filed on its own behalf and as operator for all the coowners of the two subject units, as listed in Exhibit C to the application in Docket No. G-15205, except Texas Eastern.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on September 30, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however*, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of §§ 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 22, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

SEPTEMBER 2, 1958.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 34936: *Styrene—New Orleans, La., to Wallingford, Conn.* Filed by O. W. South, Jr., Agent (SFA No. A3721), for interested rail carriers. Rates on styrene, tank-car loads from New Orleans, La., to Wallingford, Conn.

Grounds for relief: Water-truck competition.

Tariff: Supplement 32 to Southern Freight Association tariff I. C. C. 452.

FSA No. 34937: *Petroleum oil—Oak Point, La., to Paulsboro, N. J.* Filed by Southwestern Freight Bureau, Agent (SWFB No. B-7368), for interested rail carriers. Rates on petroleum oil, noibn, tank-car loads from Oak Point, La., to Paulsboro, N. J.

Grounds for relief: Commercial competition with other destinations in New Jersey and Pennsylvania.

Tariff: Supplement 156 to Southwestern Freight Bureau tariff I. C. C. 4150.

FSA No. 34938: *Substituted service—Rail-for-motor—B&M, D&H, and Pennsylvania Railroads.* Filed by Middle Atlantic Conference, Agent (No. 15), for interested carriers. Rates on property loaded in highway trailers and transported in substituted service on railroad flat cars between Pittsburgh, Pa., on the one hand, and East Cambridge, Holyoke, and Worcester, Mass., on the other, on traffic moving via motor-rail-motor routes between points in specified territories.

Grounds for relief: Motor truck competition on basis of changed compensation for rail carriers' hauls.

By the Commission.

[SEAL] HAROLD D. McCOY,
Secretary.

OFFICE OF DEFENSE AND CIVILIAN MOBILIZATION

KANSAS

NOTICE OF MAJOR DISASTER

Pursuant to the authority vested in me by the President under Executive Order

10427, dated January 16, 1953, Executive Order 10737, dated October 29, 1957, and Executive Order 10773, dated July 1, 1958 (18 F. R. 407; 22 F. R. 8799; 23 F. R. 5061), by virtue of the Act of September 30, 1950 entitled "An Act to authorize Federal assistance to States and local governments in major disasters, and for other purposes" (42 U. S. C. 1855–1855g), as amended, notice is hereby given of a declaration by the President, dated August 5, 1958, reading in part as follows:

I hereby determine the City of Atchison, Kansas, to be a "major disaster" area, as a result of damage caused by recent floods.

This determination is made for the sole purpose of activating the disaster assistance authority of the Housing and Home Finance Administrator under the Urban Renewal Program (42 U. S. C. 1462).

Dated: August 26, 1958.

LEO A. HOEGH,
Director, Office of Defense and Civilian Mobilization.

TITLE 2—THE CONGRESS

ACTS APPROVED BY THE PRESIDENT

EDITORIAL NOTE: After the adjournment of the Congress *sine die*, and until all public acts have received final Presidential consideration, a listing of public laws approved by the President subsequent to adjournment will appear in the daily FEDERAL REGISTER under *Title 2, The Congress*. A consolidated listing of the new acts approved by the President will appear in the Daily Digest in the final issue of the Congressional Record covering the 85th Congress, Second Session.

Laws Approved September 2, 1958

S. J. Res 135.....Public Law 85–883
Joint Resolution providing for the construction of demonstration plants for the production, from saline or brackish waters, of water suitable for agricultural, industrial, municipal, and other beneficial consumptive uses.

S. 25.....Public Law 85–872
An Act relating to effective dates of increases in compensation granted to wage board employees.

S. 1438.....Public Law 85–856
An Act to amend Section 544 of title 28, United States Code, relating to the bonds of United States Marshals.

S. 1764.....Public Law 85–901
An Act to amend the District of Columbia Public School Food Services Act.

S. 1903.....Public Law 85–858
An Act to amend section 7 of the Administrative Expenses Act of 1946, as amended, relating to travel expenses of civilian officers and employees assigned to duty posts outside the continental United States.

S. 2006.....Public Law 85–881
An Act to relieve the Surgeons General of the Army and Navy of certain responsibilities outside the Department of Defense.

S. 2039.....Public Law 85–876
An Act to clarify the requirements with respect to the performance of labor imposed as a condition for the holding of mining claims on Federal lands pending the issuance of patents therefor.

S. 2114.....Public Law 85–890
An Act to amend the Act of March 3, 1901 (31 Stat. 1449) as amended, to incorporate in the Organic Act of the National Bureau of Standards the authority to acquire land for field sites, to undertake construction and improvement of buildings and for other activities.

S. 2117.....Public Law 85–860
An Act directing the Secretary of the Army to transfer certain buildings to the Crow Creek Sioux Indian Tribe.

S. 2719.....Public Law 85–887
An Act authorizing and directing the Secretary of the Interior to investigate and eradicate the predatory dogfish sharks to control the depredations of this species on the fisheries of the Pacific coast, and for other purposes.

S. 3142.....Public Law 85–886
An Act to amend the Federal Property and Administrative Services Act of 1949 to extend the authority to lease out Federal building sites until needed for construction purposes and the Act of June 24, 1948 (62 Stat. 644), and for other purposes.

S. 3295.....Public Law 85–888
An Act to amend the Fish and Wildlife Act of 1956 in order to increase the authorization for the fisheries loan fund established under such Act.

S. 3335.....Public Law 85–874
An Act to provide for a National Cultural Center which will be constructed, with funds raised by voluntary contributions, on a site made available in the District of Columbia.

S. 3379.....Public Law 85–882
An Act to provide for adjustments in the annuities under the Foreign Service retirement and disability system.

S. 3680.....Public Law 85–880
An Act to provide for participation of the United States in the World Science-Pan Pacific Exposition to be held at Seattle, Washington, in 1961, and for other purposes.

S. 3712.....Public Law 85–885
An Act to authorize appropriations for continuing the construction of the Rama Road in Nicaragua.

S. 3728.....Public Law 85–870
An Act to incorporate the Big Brothers of America.

S. 3741.....Public Law 85–862
An Act to facilitate administration and management by the Secretary of Agriculture of certain lands of the United States within national forests.

S. 3754.....Public Law 85–868
An Act to provide for the exchange of lands between the United States and the Navajo Tribe, and for other purposes.

S. 3942.....Public Law 85–892
An Act for the relief of certain distressed aliens.

S. 3944.....Public Law 85–877
An Act to authorize the negotiation of a compact between the State of Minnesota and the Province of Manitoba, Canada, for the development of a highway to provide access to the northwest angle in such State.

S. 4088.....Public Law 85–889
An Act to approve a repayment contract negotiated with the Heart Mountain Irrigation District, Wyoming, and to authorize its execution.

S. 4249.....Public Law 85–891
An Act to authorize a program for the conservation, restoration, and management of the rare Hawaiian Nene goose.

H. J. Res. 546.....Public Law 85–904
Joint Resolution Designating the week of November 21–27, 1958, as National Farm-City Week.

H. J. Res. 557.....Public Law 85–918
Joint Resolution to amend the Act of September 7, 1957 (71 Stat. 626), providing for the establishment of a Civil War Centennial Commission.

H. J. Res. 658.....Public Law 85–[illegible]
Joint Resolution authorizing and requesting the President to invite the countries of the free world to participate in the California International Trade Fair and Industrial Exposition to be held in Los Angeles, California, from April 1, to 12, 1959.

H. R. 109.....Public Law 85–[illegible]
An Act to incorporate the Jewish War Veterans, U. S. A., National Memorial, Inc.

H. R. 469.....Public Law 85–[illegible]
An Act to protect producers and consumers against misbranding and false advertising of the fiber content of textile fiber products, and for other purposes.

H. R. 3366.....Public Law 85–[illegible]
An Act to validate overpayments of pay and allowances made to certain officers of the Army, Navy, Naval Reserve, and Air Force, while undergoing training at civilian hospitals, and for other purposes.

H. R. 4642.....Public Law 85–[illegible]
An Act to establish a Commission and Advisory Committee on International Rules of Judicial Procedure.

H. R. 5497.....Public Law 85–[illegible]
An Act to amend the Watershed Protection and Flood Prevention Act.

H. R. 6238.....Public Law 85–[illegible]
An Act to amend section 1292 of title 28 of the United States Code relating to appeals from interlocutory orders.

H. R. 7125.....Public Law 85–[illegible]
An Act to make technical changes in the Federal excise tax laws, and for other purposes.

H. R. 7544.....Public Law 85–[illegible]
An Act to amend the Act entitled "An Act to recognize the high public service rendered by Major Walter Reed and those associated with him in the discovery of the cause and means of transmission of yellow fever", approved February 25, 1929, by including therein the name of Roger P. Ames.

H. R. 7710.....Public Law 85–[illegible]
An Act to provide for the lump-sum of all accumulated and current accrued annual leave of deceased employees.

H. R. 7860.....Public Law 85–[illegible]
An Act to amend section 1 of the Act of July 24, 1956 (70 Stat. 625), entitled "To provide that payments be made to certain members of the Pine Ridge Sioux Tribe of Indians as reimbursement for damages suffered as the result of the establishment of the Pine Ridge aerial gunnery range."

H. R. 8381.....Public Law 85–[illegible]
An Act to amend the Internal Revenue Code of 1954 to correct unintended benefits and hardships and to make technical amendments, and for other purposes.

H. R. 8735.....Public Law 85–[illegible]
An Act to increase annuities payable to certain annuitants from the District of Columbia teachers retirement and annuity fund, and for other purposes.

H. R. 8943.....Public Law 85–[illegible]
An Act to amend titles 10, 14, and 32, United States Code, to codify recent military law, and to improve the Code.

H. R. 9020.....Public Law 85-909
An Act to amend the Packers and Stockyards Act, 1921, as amended, and for other purposes.

H. R. 9147.....Public Law 85-900
An Act to provide for the disposal of certain Federal property in the Boulder City area, to provide assistance in the establishment of a municipality incorporated under the laws of Nevada, and for other purposes.

H. R. 9370.....Public Law 85-921
An Act to permit illustrations and films of United States and foreign obligations and securities under certain circumstances, and for other purposes.

H. R. 9700.....Public Law 85-857
An Act to consolidate into one Act all of the laws administered by the Veterans' Administration, and for other purposes.

H. R. 9817.....Public Law 85-920
An Act relating to venue in tax refund suits by corporations.

H. R. 9822.....Public Law 85-908
An Act to provide for holding a White House Conference on Aging to be called by the President of the United States in January 1961, to be planned and conducted by the Secretary of Health, Education, and Welfare with the assistance and cooperation of other departments and agencies represented on the Federal Council on Aging; to assist the several States in conducting similar conferences on aging prior to the White House Conference on Aging; and for related purposes.

H. R. 9833.....Public Law 85-902
An Act to amend section 27 of the Merchant Marine Act of 1920.

H. R. 10495.....Public Law 85-893
An Act to amend that part of the Act of June 9, 1896 (29 Stat. 313), relating to the establishment of postal stations and branch post offices, so as to permit them to be established within ten miles of the boundary of the adjoining city

H. R. 11009.....Public Law 85-910
An Act to provide for the establishment of Grand Portage National Monument in the State of Minnesota, and for other purposes.

H. R. 11078.....Public Law 85-911
An Act to promote boating safety on the navigable waters of the United States, its Territories, and the District of Columbia; to provide coordination and cooperation with the States in the interest of uniformity of boating laws; and for other purposes.

H. R. 11382.....Public Law 85-896
An Act to amend title 38 of the United States Code to authorize the conversion or exchange, under certain conditions, of term insurance issued under section 621 of the National Service Life Insurance Act of 1940, and for other purposes.

H. R. 11456.....Public Law 85-873
An Act to authorize the exchange of certain real property heretofore conveyed to the city of El Paso, Texas, by the United States, for other real property of equal value, and for other purposes.

H. R. 11668.....Public Law 85-884
An Act to amend section 39 of the Trading With the Enemy Act of October 6, 1917, as amended.

H. R. 11889.....Public Law 85-925
An Act to permit articles imported from foreign countries for the purpose of exhibition at the Minnesota State Fair and Centennial Exposition to be held at Saint Paul, Minnesota, to be admitted without payment of tariff, and for other purposes.

H. R. 12126.....Public Law 85-867
An Act to provide further protection against the introduction and dissemination of livestock diseases, and for other purposes.

H. R. 12212.....Public Law 85-907
An Act for the relief of certain employees of the Department of the Navy.

H. R. 12226.....Public Law 85-913
An Act to amend the Virgin Islands Corporation Act (63 Stat. 350), and for other purposes.

H. R. 12662.....Public Law 85-915
An Act to provide for the acquisition of lands by the United States required for the reservoir created by the construction of Oahe Dam on the Missouri River and for rehabilitation of the Indians of the Standing Rock Sioux Reservation in South Dakota and North Dakota, and for other purposes.

H. R. 12663.....Public Law 85-923
An Act to provide for additional payments to the Indians of the Lower Brule Sioux Reservation, South Dakota, whose lands have been acquired for the Fort Randall Dam and Reservoir project, and for other purposes.

H. R. 12670.....Public Law 85-916
An Act to provide for additional payments to the Indians of the Crow Creek Sioux Reservation, South Dakota, whose lands have been acquired for the Fort Randall Dam and Reservoir project, and for other purposes.

H. R. 12281.....Public Law 85-922
An Act to authorize the Secretary of the Interior to provide an administrative site for Yosemite National Park, California, on lands adjacent to the park, and for other purposes.

H. R. 12808.....Public Law 85-899
An Act to amend the Federal-Aid Highway Acts of 1956 and 1958 by advancing the date for submission of the revised estimate of cost of completing the Interstate System and to extend the approval of such estimate for an additional year.

H. R. 12858.....Public Law 85-863
An Act making appropriations for civil functions administered by the Department of the Army, certain agencies of the Department of the Interior, and the Tennessee Valley Authority, for the fiscal year ending June 30, 1959, and for other purposes.

H. R. 12883.....Public Law 85-895
An Act to provide for certain improvements relating to the Capitol Power Plant and its distribution systems.

H. R. 13191.....Public Law 85-875
An Act to require the Commissioner of Education to encourage, foster, and assist in the establishment of clubs for boys and girls especially interested in science.

H. R. 13247.....Public Law 85-864
An Act to strengthen the national defense and to encourage and assist in the expansion and improvement of educational programs to meet critical national needs; and for other purposes.

H. R. 13475.....Public Law 85-898
An Act to authorize an exchange of lands at the Rochester Fish-Cultural Station, Indiana.

H. R. 13559.....Public Law 85-871
An Act to amend the War Orphans' Educational Assistance Act of 1956 to permit the Administrator of Veterans' Affairs to make payments with respect to special restorative training, or specialized courses of vocational training, for younger persons than those with respect to whom the Administrator may now make such payments, and for other purposes.

H. R. 13580.....Public Law 85-912
An Act to increase the public debt limit.

H. R. 13666.....Public Law 85-894
An Act to amend title 32 of the United States Code to permit the appointment of the Adjutant General of Puerto Rico as provided by the laws of the Commonwealth of Puerto Rico.

H. R. 13678.....Public Law 85-905
An Act to provide in the Department of Health, Education, and Welfare for a loan service of captioned films for the deaf.

VOLUME 23 NUMBER 175

Washington, Saturday, September 6, 1958

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10780

SUSPENSION OF CERTAIN PROVISIONS OF SECTION 5762 (a) OF TITLE 10 OF THE UNITED STATES CODE WHICH RELATE TO THE PROMOTION OF OFFICERS OF THE SUPPLY CORPS, CHAPLAIN CORPS, CIVIL ENGINEER CORPS, AND MEDICAL SERVICE CORPS OF THE NAVY

By virtue of the authority vested in me by section 5785 (b) of title 10 of the United States Code, it is ordered as follows:

Except as to the provision which, as amended by section 201 (9) (A) of the act of August 21, 1957, 71 Stat. 383, reads,

> The Secretary of the Navy shall furnish the appropriate selection board convened under chapter 543 of this title with the number of officers, not restricted in the performance of duty, other than women officers appointed under section 5590 of this title, that may be recommended for promotion to the grade of captain or commander in the Medical Corps, the Supply Corps, the Chaplain Corps, the Civil Engineer Corps, Dental Corps, or the Medical Service Corps,

the provisions of section 5762 (a) of title 10 of the United States Code, to the extent that such provisions are applicable to promotions to the grade of commander in the Supply Corps, the Chaplain Corps, the Civil Engineer Corps, and the Medical Service Corps, are hereby suspended until June 30 of the fiscal year following that in which the national emergency proclaimed by Proclamation No. 2914 of December 16, 1950, shall end.

EXECUTIVE ORDER 10781

SUSPENSION OF CERTAIN PROVISIONS OF SECTION 5764 (a) OF TITLE 10 OF THE UNITED STATES CODE WHICH RELATE TO THE ESTABLISHMENT OF ZONES FOR THE PROMOTION OF MALE OFFICERS OF THE NAVY

By virtue of the authority vested in me by section 5785 (b) of title 10 of the United States Code, it is ordered as follows:

Except as to the provisions which read,

> The Secretary of the Navy shall establish a promotion zone in each grade for male officers in the line of the Navy not restricted in the performance of duty when he convenes a selection board under chapter 543 of this title to consider officers in that grade for recommendation for promotion to the next higher grade. The promotion zone in each grade shall be composed of that number of the most senior such officers under consideration, who are eligible for selection for promotion to the next higher grade and who have not previously failed of such selection, that must either be selected for promotion by the particular board or be considered as having failed of such selection, in order to maintain a flow of promotion consistent with the terms of service set out in section 5768 of this title and in order best to assure to individuals in succeeding years equality of opportunity for promotion,

the provisions of section 5764 (a) of title 10 of the United States Code are hereby suspended until June 30 of the fiscal year following that in which the national emergency proclaimed by Proclamation No. 2914 of December 16, 1950, shall end.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
September 2, 1958.

Subchapter B—Farm Ownership Loans

[FHA Instruction 428.1]

PART 331—POLICIES AND AUTHORITIES

AVERAGE VALUES OF FARMS; WEST VIRGINIA

On August 27, 1958, for the purposes of Title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units for the counties identified below were determined to be as herein set forth. The average values heretofore established for said counties, which appear in the tabulations of average values under § 331.17, Chapter III, Title 6 of the Code of Federal Regulations, are hereby superseded by the average values set forth below for said countries.

West Virginia	Average value
County:	
Braxton	$20,000
Doddridge	20,000
Gilmer	20,000
Grant	25,000
Greenbrier	30,000
Hampshire	25,000
Hardy	25,000
Harrison	30,000
Lewis	25,000
Marion	25,000
Marshall	30,000
Mercer	20,000
Mineral	25,000
Monongalia	25,000
Monroe	25,000
Morgan	20,000
Nicholas	20,000
Ohio	30,000
Pendleton	25,000
Pleasants	20,000
Pocahontas	25,000
Preston	25,000
Randolph	25,000
Ritchie	25,000
Summers	20,000
Tucker	18,000
Tyler	20,000
Wetzel	20,000
Wirt	18,000
Wood	25,000

(Sec. 41, 50 Stat. 528, as amended; 7 U. S. C. 1015)

Dated: September 2, 1958.

[SEAL] H. C. SMITH,
Acting Administrator,
Farmers Home Administration.

[F. R. Doc. 58-7238; Filed, Sept. 5, 1958; 8:54 a. m.]

TITLE 7—AGRICULTURE

Chapter IV—Federal Crop Insurance Corporation

[Amdt. 5]

PART 401—FEDERAL CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1958 AND SUCCEEDING CROP YEARS

MISCELLANEOUS AMENDMENTS

The above-identified regulations, as amended (22 F. R. 6557, 7210, 8473, 9515, 11024; 23 F. R. 289, 869, 1943, 2373, 2481, 2586, 2635, 2769, 3143, 5114, 5183, 5949), are hereby amended, effective beginning with the 1959 crop year as follows: *Provided, however,* That section 2 of this amendment shall not become effective with respect to barley or wheat crop insurance in counties with a March 15 cancellation date until the beginning of the 1960 crop year.

1. Section 2 of the policy shown in § 401.11 is amended by changing the last sentence to read as follows: "The insured shall also be privileged to file a separate acreage report for each crop and if he fails to file an acreage report within 30 days after the planting of such insured crop is generally completed in the county, the Corporation may elect to determine the insured acreage and the interest or declare the insured acreage to be 'zero' with respect to the crop for which the acreage report was not filed."

2. Subsection (c) of section 4 of the policy shown in § 401.11 is amended to read as follows:

(c) The insured's annual premium for an insured crop shall be reduced 5 percent if he has had three consecutive years of insurance on such crop (immediately preceding the current crop year and eliminating any year in which a premium was not earned) without a loss for which an indemnity was paid. For each such additional consecutive year of insurance on such crop without a loss for which an indemnity was paid, the insured's annual premium shall be reduced an additional 5 percent, except that the total reduction shall not exceed 25 percent. If an insured has a loss on a crop for which an indemnity is paid, the number of such consecutive years of insurance on such crop without a loss for which an indemnity was paid shall be reduced by 3 years: *Provided,* That, where the insured has 7 or more such years, a reduction to 4 shall be made and where the insured has 3 or less such years, a reduction to zero shall be made.

3. Section 4 of the policy shown in § 401.11 is further amended by adding a subsection (e) to read as follows:

(e) If, for any crop except peaches and all citrus, the insured pays the premium for that crop at the same time he files his acreage report and further providing that it be filed within 30 days after the planting of such crop is generally completed in the county, as determined by the Corporation, the premium which would otherwise be payable for the crop shall be reduced 5 percent.

4. Section 5 of the policy shown in § 401.11 is amended to read as follows:

5. *Minimum premium.* If in any year a premium is earned for any crop and the net premium totals less than $10.00 the amount shall be increased to $10.00.

5. Section 3 of the dry edible bean endorsement shown in § 401.18 is amended to read as follows:

3. *Annual premium.* Whether or not the insured is eligible for the reduction provided in section 4 (c) of the policy, the insured's annual dry edible bean premium may be reduced 25 percent in lieu thereof for any year if it is determined by the Corporation that the accumulated balance (expressed in dollars) of premiums over indemnities on consecutively insured dry edible bean crops preceding the current crop year exceeds his total coverage computed on a threshed coverage basis.

6. Section 3 of the corn endorsement shown in § 401.19 is amended to read as follows:

3. *Annual premium.* Whether or not the insured is eligible for the reduction provided in section 4 (c) of the policy, the insured's annual corn premium may be reduced 25 percent in lieu thereof for any year if it is determined by the Corporation that the accumulated balance (expressed in dollars) of premiums over indemnities on consecutively insured corn crops preceding the current crop year exceeds his total coverage computed on a harvested coverage basis.

7. Subsection (b) of section 3 of the cotton endorsement shown in § 401.20 is amended to read as follows:

(b) Whether or not the insured is eligible for the reduction provided in section 4 (c) of the policy, the insured's annual cotton premium may be reduced 25 percent in lieu thereof for any year if it is determined by the Corporation that the accumulated balance (expressed in pounds) of premiums over indemnities on consecutively insured cotton crops preceding the current crop year exceeds his total coverage computed on a harvested acreage basis.

8. Section 3 of the flax endorsement shown in § 401.21 is amended to read as follows:

3. *Annual premium.* Whether or not the insured is eligible for the reduction provided in section 4 (c) of the policy, the insured's annual flax premium may be reduced 25 percent in lieu thereof for any year if it is determined by the Corporation that the accumulated balance (expressed in bushels) of premiums over indemnities on consecutively insured flax crops preceding the current crop year exceeds his total coverage computed on a harvested coverage basis.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73, as amended, 74, as amended, 75; 7 U. S. C. 1507, 1508, 1509)

Adopted by the Board of Directors on August 18, 1958.

[SEAL] F. N. MCCARTNEY,
Secretary,
Federal Crop Insurance Corporation.

Approved: September 2, 1958.

MARVIN L. MCLAIN,
Assistant Secretary.

[Amdt. 6]

PART 401—FEDERAL CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1958 AND SUCCEEDING CROP YEARS

OAT ENDORSEMENT

The above-identified regulations, as amended (22 F. R. 6557, 7210, 8473, 9515, 11024; 23 F. R. 289, 869, 1943, 2373, 2481, 2586, 2635, 2769, 3143, 5114, 5949), are hereby amended effective beginning with the 1959 crop year as follows:

1. The table following paragraph (a) of § 401.3, as amened, is amended by establishing a closing date of March 31 for oats in all states.

2. The following section is added:

§ 401.26 *The oat endorsement.* The provisions of the oat endorsement for the 1959 and succeeding crop years are as follows:

1. *Causes of loss insured against.* The insurance provided is against unavoidable loss of production due to wildlife, insect infestation, plant disease, earthquake, drought, flood, hail, wind, frost, freeze, lightning, fire, excessive rain, snow, hurricane, tornado, and any other unavoidable cause of loss due to adverse weather conditions.

2. *Insured crop.* Insurance shall not attach on acreage on which it is determined by the Corporation that oats are seeded with flax or other small grains or vetch, and no insurance shall attach to any acreage not seeded to oats for harvest as grain as determined by the Corporation.

3. *Coverage per acre.* The coverage per acre is progressive depending upon whether the acreage is (a) First Stage—seeded to a substitute crop when the Corporation has consented that the acreage be put to another use, (b) Second Stage—not harvested and not seeded to a substitute crop, or (c) Third Stage—harvested.

4. *Insurance period.* Insurance on any insured acreage shall attach at the time the oats are seeded and shall cease upon threshing or removal from the field, whichever occurs first, but in no event shall insurance remain in effect later than October 31 of the calendar year in which the oats are normally harvested.

5. *Claims for loss.* (a) The total production to be counted shall include any harvested production from acreage initially seeded for purposes other than for harvest as grain as determined by the Corporation.

(b) In determining total production volunteer small grains and volunteer vetch growing with the seeded oat crop, and small grains seeded in the growing oat crop on acreage on which the Corporation has not given its consent to be put to another use, shall be counted as oats on a weight basis.

(c) In determining any loss under the contract, production shall be valued at the fixed price. However, any threshed oats which (1) do not grade No. 3 or better (determined in accordance with Official Grain Standards of the United States) because of poor quality due to insurable causes occurring within the insurance period and would not meet these grade requirements if properly handled, and (2) have a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 3 oats, shall be valued by the Corporation at a price not in excess of the fixed price: *Provided,* When the Commodity Credit Corporation county loan rate for No. 3 oats is less than the fixed price, the total value of such threshed oats, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

6. *Meaning of terms.* For purposes of insurance on oats the term: (a) "Harvest" means the mechanical severance from the land of matured oats for threshing where the oat crop has not been destroyed.

7. *Cancellation, termination for indebtedness and discount dates.* (a) For each year of the contract the cancellation date shall be the December 31 and the termination date for indebtedness shall be the March 31 immediately preceding the beginning of the crop year for which the cancellation or the termination is to become effective.

(b) For each crop year of the contract the discount date shall be the November 30 of the calendar year in which the oat crop is normally harvested.

(Secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1508, 1509)

Adopted by the Board of Directors on August 18, 1958.

[SEAL] F. N. MCCARTNEY,
Secretary,
Federal Crop Insurance Corporation.

Approved: September 2, 1958.

MARVIN L. MCLAIN,
Assistant Secretary.

[Amdt. 7]

PART 401—FEDERAL CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1958 AND SUCCEEDING CROP YEARS

GRAIN SORGHUM ENDORSEMENT

The above-identified regulations, as amended (22 F. R. 6557, 7210, 8473, 9515, 11024; 23 F. R. 289, 869, 1943, 2373, 2481, 2586, 2635, 2769, 3143, 5114, 5183, 5949), are hereby amended effective beginning with the 1959 crop year as follows:

1. The table following paragraph (a) of § 401.3, as amended, is amended by establishing a closing date of April 30 for grain sorghum in all states.

2. The following section is added:

§ 401.27 *The grain sorghum endorsement.* The provisions of the grain sorghum endorsement for the 1959 and succeeding crop years are as follows:

1. *Causes of loss insured against.* The insurance provided is against unavoidable loss of production due to wildlife, insect infestation, plant disease, earthquake, drought, flood, hail, wind, frost, freeze, lightning, fire, excessive rain, snow, hurricane, tornado, and any other unavoidable cause of loss due to adverse weather conditions.

2. *Insured crop.* Insurance shall not attach on acreage on which it is determined by the Corporation that the sorghum is (a) not a combine type grain sorghum, (b) a forage sorghum or thick planted sorghum for silage or fodder purposes, (c) planted in rows too close for cultivation, (d) planted for the development of hybrid seed, or (e) planted on acreage which was seeded to wheat the previous fall, and no insurance shall attach to any acreage not planted to a combine type grain sorghum for harvest as grain as determined by the Corporation.

3. *Coverage per acre.* The coverage per acre is progressive, depending upon whether the acreage is (a) First Stage—unharvested, or (b) Second Stage—harvested.

4. *Insurance period.* Insurance on any insured acreage shall attach at the time the grain sorghum is planted and shall cease upon threshing or removal from the field, whichever occurs first, but in no event shall insurance remain in effect later than December 31 of the calendar year in which the grain sorghum is normally harvested.

5. *Claims for loss.* (a) The total production to be counted shall include any harvested production from acreage initially planted for purposes other than for harvest as grain as determined by the Corporation.

(b) In determining any loss under the contract, production shall be valued at the fixed price, except that any threshed grain sorghum which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes occurring within the insurance period and would not meet these requirements if properly handled, shall be valued by the Corporation at a price not in excess of the fixed price: *Provided,* When the Commodity Credit Corporation county loan rate for No. 4 grain sorghum is less than the fixed price, the total value of such threshed grain sorghum, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

6. *Meaning of terms.* For purposes of insurance on grain sorghum the term: (a) "Harvest" means the mechanical severance from the land of matured grain sorghum for threshing where the grain sorghum crop has not been destroyed.

7. *Cancellation, termination for indebtedness and discount dates.* (a) For each year of the contract the cancellation date shall be the December 31 and the termination date for indebtedness shall be the April 30 immediately preceding the beginning of the crop year for which the cancellation or the termination is to become effective. (b) For each crop year of the contract the discount date shall be the December 31 of the calendar year in which the grain sorghum crop is normally harvested.

(Sec. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply sec. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1509)

Adopted by the Board of Directors on August 18, 1958.

[SEAL] F. N. MCCARTNEY,
Secretary,
Federal Crop Insurance Corporation.

Approved: September 2, 1958.

MARVIN L. MCLAIN,
Assistant Secretary.

PART 401—FEDERAL CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1958 AND SUCCEEDING CROP YEARS

PEACHES

The above-identified regulations, as amended (22 F. R. 6557, 7210, 8473, 9515, 11024; 23 F. R. 289, 869, 1943, 2373, 2481, 2586, 2635, 2769, 3143, 5114, 5183, 5949), are hereby amended effective beginning with the 1959 crop year as follows:

1. The table following paragraph (a) of § 401.3, as amended, is amended by establishing a closing date of January 15 for peaches in all states.

2. Section 401.3, as amended, is further amended by adding paragraph (h) to read as follows:

(h) Notwithstanding any other provisions of this section, all applications for peach crop insurance shall be on the following form:

APPLICATION
FORM FCI-812-Special

UNITED STATES DEPARTMENT OF AGRICULTURE
FEDERAL CROP INSURANCE CORPORATION

(State and County Code and Contract Number)

Application for Crop Insurance for 19__ and Succeeding Crop Years in _____
(County) (State)

(Please print or type)

Name _____
Address _____

A. The undersigned applicant hereby applies under the applicable regulations to the Federal Crop Insurance Corporation (herein called the Corporation) for insurance on his interest in the crop(s) listed below on acreage included in the crop insurance program of the Corporation for the county designated above.

This application, when executed by a person as an individual, shall not cover his interest(s) in a crop produced by a partnership. Any application on this form signed by two or more persons shall cover only that acreage in which all of the applicants have an interest, and such acreage shall not be covered by any other insurance contract any of the applicants may have with the Corporation.

B. This application, upon acceptance by the Corporation, and the applicable insurance policy, endorsement(s), and actuarial table on file in the county office of the Corporation for the crop(s) designated above shall constitute the contract. The contract shall be in effect for the crop year specified above and shall continue for each succeeding crop year until cancelled or terminated in accordance with the provisions of the contract.

Adopted by the Board of Directors on August 18, 1958.

[SEAL] F. N. MCCARTNEY,
Secretary,
Federal Crop Insurance Corporation.

Approved: September 2, 1958.

MARVIN L. MCLAIN,
Assistant Secretary.

[F. R. Doc. 58-7213; Filed, Sept. 5, 1958; 8:49 a. m.]

C. For the first crop year of the contract the coverage(s) and premium rate(s) shall be those for that crop year which are on file in the county office. For each subsequent crop year the coverage(s) and premium rate(s) together with any changes in the contract shall be on file in the county office at least 15 days prior to the applicable cancellation date. For each crop year of the contract any acreage is insurable only if a coverage for such acreage is shown on the county actuarial table for that crop year.

D. The Corporation reserves the right to reject this application in its entirety.

E. Coverage per acre applied for: _____

3. The following section is added:

§ 401.28 *The peach endorsement.* The provisions of the peach endorsement for the 1959 and succeeding crop years are as follows:

1. *Causes of loss insured against.* The insurance provided is against unavoidable loss of production on the insured peach crop due to frost, freeze, hurricane, tornado, hail, or windstorm when accompanied by hail.

2. *Insured crop.* In lieu of all of section 1 of the policy except the first and last sentence thereof, the following shall apply:

(a) The insured acreage for each crop year shall be that acreage of peaches in the county for which coverage is shown on the county actuarial table and in which the insured had an interest on the January 15 immediately preceding the beginning of the crop year and the interest insured shall be the interest of the insured in such acreage at that time, as reported by the insured or as determined by the Corporation, whichever the Corporation shall elect.

(b) Any acreage of peaches which has not reached the fourth growing season or any acreage having a potential production of less than 100 bushels per acre for any crop year is uninsurable for that crop year.

3. *Responsibility of the insured to report acreage and interest.* In lieu of section 2 and subsection 21 (a) of the policy, the insured shall report on a form prescribed by the Corporation, at the time the application for peach crop insurance is filed, all of the acreage of peaches (including a designation of any acreage of peaches to which insurance does not attach) in the county in which he has an interest and his interest therein. If the actual acreage of peaches or interest therein shown on such form changes prior to the date insurance attaches for any crop year, the insured shall submit a report to the county office of such changes, on a form prescribed by the Corporation, prior to the date insurance attaches for that crop year.

4. *Annual premium.* In lieu of subsection 4 (a) and 4 (b) of the policy, the annual premium for peach insurance shall be considered as earned on the date insurance attaches and for any crop year must be paid on or before the January 15 immediately preceding the beginning of that crop year.

5. *Minimum premium.* In lieu of section 5 of the policy, if in any year a premium is earned for peaches and the net premium totals less than $50.00 the amount shall be increased to $50.00.

6. *Insurance period.* Insurance on any insured acreage shall attach on the January 16, at the beginning of each crop year and with respect to any portion of the crop shall cease upon harvest, but in no event shall insurance remain in effect later than September 15 of the calendar year in which the peaches are normally harvested.

7. *Notice of loss—Inspection of orchards.* (a) In lieu of subsection 8 (a) of the policy, if at any time during the insurance period the peach crop on any insurance unit is damaged by an insured cause, the insured shall give written notice of the date, cause, and estimated extent of damage to the Corporation at the county office within seven days.

(b) In lieu of subsection 8 (b) of the policy, notice of the time of intended harvesting shall be given at least seven days before the beginning of harvest if a loss is to be claimed, and final adjustment has not been made by that time. Provided, however, if damage occurs within the seven-day period before the beginning of harvest, or during harvest, and a loss is to be claimed, notice shall be given immediately.

8. *Abandonment of crop.* In lieu of section 9 of the policy, there shall be no liability under the contract on any peach crop or part thereof which is abandoned by the insured without the written consent of the Corporation. There shall be no abandonment of any crop or portion thereof to the Corporation.

9. *Claims for loss.* (a) In lieu of subsection 11 (a) of the policy, any claim for loss on an insurance unit shall be submitted to the Corporation on a form prescribed by the Corporation, promptly after the amount of loss can be determined, but not later than 30 days after the time of loss.

(b) In lieu of subsection 11 (c) of the policy, losses shall be determined separately for each insurance unit. The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insured acreage of peaches on the insurance unit by the applicable coverage per acre, (2) multiplying the result thus obtained by the average percent of damage for all of the peach crop on such unit, (3) deducting therefrom 30 percent of the amount obtained in (1) above, and (4) multiplying the remainder by the insured interest.

(c) The average percent of damage to peaches on an insurance unit shall be the ratio of the production of peaches lost from an insured cause of loss to the total production of peaches which was or would have been produced if the insured cause of loss had not occurred. The production of peaches which was or would have been produced shall include (1) peaches picked before the insured damage occurs, (2) peaches remaining on the trees after the damage occurs, (3) production of peaches lost from an insured cause of damage, and (4) any other peaches not included in items (1) through (4), including peaches lost from causes not insured against other than normal dropping. Peaches lost from an insured cause shall include any peaches which do not grade U. S. No. 2 or better (determined in accordance with U. S. Standards for Peaches, effective June 15, 1952 (17 F. R. 4473)) because of poor quality due to insurable causes occurring within the insurance period. The Corporation reserves the right to delay settlement until the amount of damage can be determined.

10. *Life of contract, cancellation or termination thereof.* In lieu of the proviso of the second paragraph of subsection 15 (a), insurance on peaches shall terminate as if cancelled by the Corporation prior to the cancellation date if on the January 15 immediately preceding the beginning of the crop year the premium for insurance on peaches for the crop year immediately following such date is unpaid.

11. *Meaning of terms.* For purposes of insurance on peaches the terms:

(a) "Crop year," in lieu of section 21 (e) of the policy, means the period beginning January 16 and extending through the following September 15.

(b) "Harvest" means any severance of peaches from the tree by picking or picking the marketable peaches from the ground.

(c) "Insurance unit," in lieu of section 21 (f) of the policy, means all insurable acreage of peaches in the county (1) in which the insured has 100 percent interest on the January 15 immediately preceding the beginning of the crop year that is located on contiguous land under the same ownership, or (2) in which two or more persons have 100 percent interest on the January 15 immediately preceding the beginning of the crop year that is located on contiguous land under the same ownership, excluding any other acreage of peaches in which such persons do not have 100 percent interest on such date. Land rented for cash or for a fixed commodity payment shall be considered as owned by the lessee. Contiguous land shall include only land that is touching at any point except that land that is separated only by a public or private way shall be considered contiguous.

12. *Cancellation date.* For each year of the contract the cancellation date shall be the December 15 immediately preceding the beginning of the crop year for which the cancellation is to become effective.

(Secs. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply secs. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1508, 1509)

Adopted by the Board of Directors on August 18, 1958.

[SEAL] F. N. McCARTNEY,
Secretary,
Federal Crop Insurance Corporation.

Approved: September 2, 1958.

PART 401—FEDERAL CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1958 AND SUCCEEDING CROP YEARS

CORN ENDORSEMENT

The above-identified regulations, as amended (22 F. R. 6557, 7210, 8473, 9515, 11024; 23 F. R. 289, 869, 1943, 2373, 2481, 2586, 2635, 2769, 3143, 5114, 5183, 5949), are hereby amended for all counties in Colorado, effective beginning with the 1960 crop year as follows:

1. Section 2 of the corn endorsement shown in § 401.19 is amended to read as follows:

2. *Insured crop.* Insurance shall not attach on acreage on which it is determined by the Corporation that the corn is sweet corn, popcorn, broom corn or corn planted for the development of hybrid seed corn, and no insurance shall attach to any acreage not planted to corn for harvest as grain, silage or fodder. *Provided, however,* That insurance shall not attach to any acreage planted to corn for harvest as fodder which is initially planted too late to be expected to mature as grain, as determined by the Corporation.

2. Subsection (a) of section 7 of the corn endorsement shown in § 401.19 is amended to read as follows:

7. *Claims for loss.* (a) In determining any loss under the contract, production shall be valued at the applicable fixed price, except that the production of any corn of a variety adapted to the production of corn for grain and harvested as grain or fodder which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes occurring within the insurance period and would not meet these requirements if properly handled, shall be valued by the Corporation at a price not in excess of the fixed price for grain.

3. Section 7 of the corn endorsement shown in § 401.19 is further amended by adding a subsection (c) to read as follows:

(c) In determining total production, any production of corn shall be counted as grain, except that the production from any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage.

(Sec. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply sec. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1509)

Adopted by the Board of Directors on August 18, 1958.

[SEAL] F. N. McCARTNEY,
Secretary,
Federal Crop Insurance Corporation.

Approved: September 2, 1958.

[Amdt. 10]

PART 401—FEDERAL CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1958 AND SUCCEEDING CROP YEARS

MISCELLANEOUS AMENDMENTS

The above-identified regulations, as amended (22 F. R. 6557, 7210, 8473, 9515, 11024; 23 F. R. 289, 869, 1943, 2373, 2481, 2586, 2635, 2769, 3143, 5114, 5183, 5949), are hereby amended effective beginning with the 1959 crop year as follows:

1. The first introductory paragraph, as amended, to the regulations is amended by striking the last sentence of that paragraph and adding the following: "These regulations shall apply in 1959 and succeeding crop years to all continuous multiple crop insurance contracts of the type in which the insured may not select the crops to be insured: *Provided, however,* That these regulations shall not apply until beginning with the 1960 crop year to multiple crop insurance contracts of the aforementioned type in counties which will be designated by appendixes to Part 420—Multiple Crop Insurance, Subpart—Regulations for the 1956 and Succeeding Crop Years, as amended (20 F. R. 3526, 5765, 8071; 21 F. R. 49, 1381, 4473, 5883, 6858, 7314, 7787, 8534, 9397; 22 F. R. 2076, 2796, 3284, 5855, 7019, 9383; 23 F. R. 1025, 1779), which regulations shall remain in full force and effect as to such counties through the 1959 crop year."

2. The second introductory paragraph to the regulations is amended by striking the following from item (6): "§ 420.6 (a) of".

3. Paragraph (a) of § 401.1 is amended by adding a last sentence to read as follows: "In addition to the lists of counties subsequently approved by the Board of Directors of the Corporation for combined crop insurance, the Manager of the Corporation may designate counties for combined crop insurance from lists of counties previously approved by the Board of Directors of the Corporation for multiple crop insurance."

4. The table following paragraph (a) of § 401.3, as amended, is amended by establishing the following closing dates for combined crop insurance:

State and County:	*Closing date*
Iowa:	
Delaware, Emmett, Howard, Humboldt and Ida Counties	March 31.
All other Iowa Counties	April 30.
Louisiana and Oregon	
Minnesota, North Dakota, South Dakota and Wisconsin	November 30.
Tennessee:	
Weakley County	March 31.
All other Tennessee Counties	September 30.
Wyoming	August 31.
All other States	September 30.

5. Section 401.6 is amended by adding a last sentence to read as follows: "For the purpose of combined crop insurance, the provisions of this section referring to individual crops shall be considered to mean all insurable crops for which coverages are shown on the county actuarial table for combined crop insurance."

6. The following section is added:

§ 401.29 *The combined crop endorsement.* The provisions of the combined crop endorsement for the 1959 and succeeding crop years are as follows:

1. *Causes of loss insured against.* The insurance provided is against unavoidable loss of production due to wildlife, insect infestation, plant disease, earthquake, drought, flood, hail, wind, frost, freeze, winter-kill, lightning, fire, excessive rain, snow, hurricane, tornado and any other unavoidable cause of loss due to adverse weather conditions.

2. *Insured crop.* (a) In lieu of the first sentence of section 1 of the policy, the following shall apply: "The crops insured are all of the crops (to the extent of interest of the insured therein as hereinafter set out) for which coverages and premium rates are shown on the county actuarial table for combined crop insurance, and which are grown on insured acreage."

(b) For the purpose of insurance under this endorsement, the provisions of section 4, as amended, and sections 5, 6, 13, 15 and 17 of the policy which refer to individual crops shall be considered to mean all insurable crops for which coverages are shown on the county actuarial table for combined crop insurance.

(c) Insurance shall not attach on any acreage of (i) barley, oats, rye or wheat on which it is determined by the Corporation that such grain is seeded with flax or other small grains (except insurable grain mixtures in Oregon), vetch, Austrian winter peas or seeded on new ground acreage in counties where the cancellation date is March 15; (ii) dry edible beans on which it is determined by the Corporation that beans are planted on new ground acreage; (iii) flax on which it is determined by the Corporation that the flax is seeded with any other crop except perennial grasses or legumes other than vetch; (iv) soybeans on which it is determined by the Corporation that soybeans are (1) planted for hay, (2) not planted in rows far enough apart to permit intertilling between the rows with a row cultivator, (3) planted for the development of hybrid seed, or (4) planted in the same row or interplanted in rows with corn; (v) sugar cane where the acreage on the insurance unit is less than one acre or on any acreage on which three successive crops have been harvested from one planting; (vi) Irish or sweet potatoes where the acreage on the insurance unit is less than one acre; (vii) rye in counties in North Dakota and South Dakota for the first crop year of the contract; or (viii) corn on which it is determined by the Corporation that the corn is sweet corn, popcorn, broom corn or corn planted for the development of hybrid seed corn. In counties where corn planted for harvest as grain only is insurable, insurance shall not attach to any acreage planted to a true type silage corn or thick planted for silage or fodder purposes or to any acreage not planted to corn for harvest as grain, as determined by the Corporation. In counties where corn planted for harvest as grain, silage or fodder is insurable, insurance shall not attach to any acreage not planted to corn for harvest as grain, silage or fodder: *Provided, however,* That insurance shall not attach to any acreage planted to corn for harvest as fodder which is initially planted too late to be expected to mature as grain, as determined by the Corporation.

(d) No insurance shall attach to any acreage of (i) barley, common rye grass, flax, oats, rye, rice, soybeans or wheat not planted to such crops for harvest as grain, seed or beans, (ii) dry edible beans not planted to a class shown on the county actuarial table, (iii) sugar beets not planted for the production of sugar, or (iv) red clover not planted for harvest as hay or seed.

3. *Coverage per acre.* The coverage per acre is progressive depending upon whether the acreage of (a) alfalfa, barley, common rye grass, flax, Irish potatoes, oats, sugar cane, rice, rye, sweet potatoes, red clover, vetch hay and mixture of oats or wheat with vetch or Austrian winter peas for hay or wheat is (1) First Stage—planted to a substitute crop when the Corporation has consented that the acreage be put to another use, (ii) Second Stage—not harvested and not planted to a substitute crop, or (iii) Third Stage—harvested; (b) dry edible beans is (1) First Stage—not pulled or cut, (ii) Second Stage—pulled or cut but not threshed, or (iii) Third Stage—threshed; (c) corn is (1) First Stage—planted to a substitute crop when the Corporation has consented that the acreage be put to another use, (ii) Second Stage—not harvested and not planted to a substitute crop or fed to livestock in the field after consent and appraisal by the Corporation in accordance with section 9 of the policy, or (iii) Third Stage—harvested or to be harvested; (d) soybeans is (1) First Stage—unharvested, or (ii) Second Stage—harvested; or (e) sugar beets is (1) First Stage—damaged prior to

thinning and consent given by the Corporation to put the acreage to another use, (ii) Second Stage—planted to a substitute crop when the Corporation has consented that the acreage be put to another use because of damage occurring after thinning, (iii) Third Stage—not lifted and topped and not planted to a substitute crop when the Corporation has consented that the acreage be put to another use because of damage occurring after thinning, or (iv) Fourth Stage—harvested.

4. *Insurance period.* Insurance on any insured acreage shall attach at the time the insurable crop is planted except in the case of common rye grass initially planted in the spring, alfalfa, red clover, and the second and third year crop of sugar cane, insurance shall attach on December 1 provided that there is a stand at that time sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the hay crops upon baling or stacking, and all other insured crops upon threshing (harvesting in the case of crops not normally threshed) or with respect to any portion of any crop upon removal from the field, whichever occurs first. Provided, however, That in no event shall insurance remain in effect later than October 31 for alfalfa, barley, corn (in North Dakota), flax, oats, soybeans (in North Dakota), red clover for hay or seed, rye, sweet potatoes, vetch hay and mixtures of oats or wheat with vetch or Austrian winter peas for hay and wheat; December 10 for corn (except North Dakota), common rye grass, rice, Irish potatoes, sugar beets and soybeans (except North Dakota); and December 15 for dry edible beans; of the calendar year in which the insured crop is normally harvested, and for sugar cane, January 31 following the normal time of harvest for that crop.

5. *Claims for loss.* (a) In counties where barley, oats, rye, soybeans or wheat are insurable, the total production to be counted shall include any harvested production from acreage initially planted to such crops for purposes other than for harvest as grain as determined by the Corporation.

(b) In determining total production, any volunteer small grains and any volunteer vetch growing with an insured small grain crop and any small grains seeded in an insured growing small grain crop on acreage on which the Corporation has not given its consent to be put to another use shall be counted as the applicable insured small grain crop on a weight basis. In determining total production in Oregon, any volunteer crop produced with an insured crop shall be included in determining the production of the insured crop.

(c) In determining total production on any acreage of sugar beets which the Corporation has consented to be put to another use prior to harvest, the Corporation may count as production any abandonment payment paid or to be paid to the insured with respect to such acreage under any act of Congress including the Sugar Act of 1948, as amended.

(d) In determining total production on any acreage of sugar cane, if any part of the sugar cane production from the insurance unit is processed for sugar, the total number of tons of sugar cane shall be adjusted to standard sugar cane (as determined in accordance with regulations issued by the U. S. Department of Agriculture for the crop year involved).

(e) In determining total production on any acreage of corn in those counties where corn silage is insurable, any production of corn shall be counted as grain, except that the production of any corn harvested for silage and the appraised production of any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. In North Dakota counties, the production from any acreage of corn which is not harvested or to be harvested as corn for grain, shall be the appraised production of corn for grain or the appraised or actual production of silage, whichever has the higher total value (on the basis of the price per bushel for corn as provided in subsection (j) of this section, or the value per ton for silage as determined by the Corporation): *Provided, however,* That if the appraised or actual production of corn which was or could have been used for silage is one ton or more of silage per acre, the value of such production shall not be less than $3.00 per acre.

(f) The Corporation reserves the right to determine the amount of production of any corn on the basis of an appraisal of unharvested corn standing in the field.

(g) Notwithstanding the provisions of subsection (c) of section 11 of the policy, in determining total production, any harvested production of insured hay destroyed prior to baling, stacking or removal from the field shall not be counted as production.

(h) In determining total production in Oregon where a grain mixture planted for harvest as grain is insurable, all production therefrom shall be counted on a weight basis as the applicable insured crop.

(i) In determining total production in counties where red clover planted for harvest as seed or hay is insurable, the Corporation may count the appraised production for seed in place of the hay production for any cutting and the appraisal for hay or the appraisal for seed or both, whichever the Corporation may elect for acreage pastured or production not harvested.

(j) In determining any loss under the contract any production shall be valued at the fixed price. However, (i) any threshed barley, flax, oats or soybeans which (1) does not grade No. 1, No. 2, No. 3, No. 4 or better respectively (determined in accordance with Official Grain Standards of the United States) because of poor quality due to insurable causes occurring within the insurance period and would not meet these grade requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price for that commodity or the Commodity Credit Corporation county loan rate for commodities of such grades, shall be valued by the Corporation at a price not in excess of the fixed price: *Provided,* When the Community Credit Corporation county loan rate for commodities of such grades is less than the fixed price, the total value of any threshed production, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the applicable fixed price; (ii) any threshed production of dry edible beans which will not meet any U. S. Grade or pick shown on the county actuarial table because of poor quality due to insurable causes occurring within the insurance period and would not meet these grade or pick requirements if properly handled, shall be valued at the lesser of the lowest price shown on the county actuarial table for that class of dry edible beans or the market value of such beans as determined by the Corporation. Any potential or unthreshed production of dry edible beans to be counted shall be valued at the fixed price shown on the county actuarial table for this purpose; (iii) any corn or Irish potatoes and any threshed rye, rice, or common rye grass seed which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes occurring within the insurance period and would not meet these requirements if properly handled shall be valued by the Corporation at a price not in excess of the fixed price. In order for corn to be evaluated for poor quality in those counties where corn silage is shown as an insurable crop on the county actuarial table, it must be a variety of corn adapted to the production of corn for grain and must be harvested for grain or fodder; (iv) any threshed wheat which (1) does not grade No. 3 or better and does not grade No. 4 or 5 on the basis of test weight only (determined in accordance with the Official Grain Standards of the United States) because of poor quality due to insurable causes occurring within the insurance period and would not meet these grade requirements if properly handled, and (2) has a value per bushel which is less than the lower of the fixed price or the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight, shall be valued by the Corporation at a price not in excess of the fixed price: *Provided,* When the Commodity Credit Corporation county loan rate for No. 5 wheat on the basis of test weight is less than the fixed price, the total value of such threshed wheat, as determined by the Corporation, shall be adjusted by dividing it by such loan rate and multiplying the result by the fixed price.

(k) No adjustment for quality shall be made for production from any acreage planted to insurable grain mixtures in Oregon.

6. *Acreage appraised to be put to another use.* Notwithstanding section 9 (a) of the policy in counties where corn planted for harvest as grain only is insurable, the corn crop on any insured acreage may be used for silage or fodder without an appraisal and consent by the Corporation to be put to another use, provided the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for use by the Corporation in appraising the production.

7. *Meaning of terms.* For purposes of combined crop insurance, the terms:

(a) "Harvest" means with respect to any acreage of (1) barley, common rye grass, flax, oats, rice, rye, soybeans or wheat, the mechanical severance from the land of the matured crop for threshing where such crop has not been destroyed; (ii) corn—the picking of the corn from the stalk either by hand or machine or cutting the corn for fodder or silage. For the purpose of determining the stage of coverage, any acreage (except in North Dakota) shall not be considered as harvested unless the harvested, or to be harvested, production therefrom is equal in value (determined in accordance with section 5 (j) of this endorsement) to 10 percent or more of the harvested coverage for such acreage; (iii) dry edible beans—the pulling or cutting the mature beans for threshing where the bean crop has not been destroyed; (iv) alfalfa or vetch hay and mixtures of oats or wheat with vetch or Austrian winter peas—the mechanical severance from the land of the crop for hay where the crop has not been destroyed; (v) Irish potatoes or sweet potatoes—digging the potatoes (by manual or mechanical means) where the crop has not been destroyed; (vi) red clover—the mechanical severance from the land of the crop for hay or seed where the crop has not been destroyed; (vii) sugar beets—lifting and topping the beets where the crop has not been destroyed or (viii) sugar cane—the cutting the cane (by manual or mechanical means) where the crop has not been destroyed.

(b) "Substitute crop," in lieu of section 21 (h) of the policy, means any crop planted, on acreage appraised by the Corporation to be put to another use, for harvest in the current crop year, other than an uninsured legume crop, except that soybeans, whether insured or uninsured, shall be considered a substitute crop.

(c) "Insurance unit," in lieu of section 21 (f) of the policy, means (1) all insurable acreage of all insured crops in the county in which one person at the time of planting has the entire interest in the crops, or (ii) all such insurable acreage in the county in which two or more persons at the time of planting have the entire interest in the crops, excluding any other acreage of crops in the county in which such persons together do not have the entire interest in the crops. Any share in an insured rice crop paid or to be paid for irrigation water shall be considered for purposes of determining insurance units only, as a part of the share of the insured.

(d) "New ground acreage" means any acreage which has not been planted to a crop in any one of the previous three crop years, except acreage in tame hay or rotation pasture during the previous crop year.

(e) "Pick" means with respect to dry edible beans, the defects consisting of splits, damaged beans, contrasting classes and foreign material included in net weight beans, and where used shall be expressed in terms of percent of net weight beans.

(f) "Time of planting" with respect to any acreage of alfalfa, common rye grass, red clover or sugar cane for harvest within the crop year, shall be considered to be the beginning of the insurance period for that crop year.

8. *Cancellation, termination for indebtedness and discount date.* (a) For each year of the contract the cancellation date and termination date for indebtedness are the following applicable dates immediately preceding the beginning of the crop year for which the cancellation or termination is to become effective.

State and county	Cancellation date	Termination date for indebtedness
Iowa:		
Delaware, Emmett, Howard, Humboldt and Ida Counties.	Dec. 31	Mar. 31.
All other Iowa counties	Dec. 31	Apr. 30.
Minnesota, North Dakota, South Dakota, and Wisconsin.	Dec. 31	Mar. 3.
Tennessee:		
Weakley County	Dec. 31	Mar. 31.
All other Tennessee counties.	Mar. 15	Mar. 15.
All other States	Mar. 15	Mar. 15.

(b) For each crop year of the contract the discount date shall be the November 30 of the calendar year in which the insured crops are normally harvested.

(Sec. 506, 516, 52 Stat. 73, 77, as amended; 7 U. S. C. 1506, 1516. Interpret or apply sec. 507, 508, 509, 52 Stat. 73, 74, 75, as amended; 7 U. S. C. 1507, 1509)

Adopted by the Board of Directors on August 18, 1958.

[SEAL] F. N. McCARTNEY,
Secretary,
Federal Crop Insurance Corporation.

Approved: September 2, 1958.

MARVIN L. McLAIN,
Assistant Secretary.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Oranges Reg. 152]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.452 *Valencia Orange Regulation 152*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said marketing agreement and order, as amended, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act by tending to establish and maintain such orderly marketing conditions for such oranges as will provide, in the interests of producers and consumers, an orderly flow of the supply thereof to market throughout the normal marketing season to avoid unreasonable fluctuations in supplies and prices, and is not for the purpose of maintaining prices to farmers above the level which it is declared to be the policy of Congress to establish under the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 4, 1958.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., September 7, 1958, and ending at 12:01 a. m., P. s. t., September 14, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 693,000 cartons;
(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 5, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 58-7312; Filed, Sept. 8, 1958; 11:45 a. m.]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF HANDLING

§ 953.862 *Lemon Regulation 755*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based becomes available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with

the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 3, 1958.

(b) *Order.* (1) The respective quantities of lemons grown in California and Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 7, 1958, and ending at 12:01 a. m., P. s. t., September 14, 1958, are hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 209,250 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 4, 1958.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

PART 1105—AGRICULTURAL CONSERVATION; HAWAII

SUBPART—1959

The protection and conservation of the soil and water resources of farm and ranch lands is essential in order that these lands will continue to produce sufficient food and other raw materials to meet future needs. All people, not farmers and ranchers alone, have a stake in, and a part of the responsibility for, protecting and conserving our farm and ranch lands. Recognizing this, the Congress appropriates funds to share with farmers and ranchers the cost of carrying out needed soil and water conservation measures. The Agricultural Conservation Program is a means of making this Federal cost-sharing available to farmers and ranchers.

INTRODUCTION

Sec.
1105.800 Introduction.

GENERAL PROGRAM PRINCIPLES

1105.801 General program principles.

DEFINITIONS

1105.802 Definitions.

ALLOCATION OF FUNDS

1105.803 Allocation of funds.

STATE AGRICULTURAL CONSERVATION PROGRAM

1105.804 Agencies participating in development of State program.

APPROVAL OF CONSERVATION PRACTICES

1105.805 Method and extent of approval.
1105.806 Selection of practices.
1105.807 Pooling agreements.
1105.808 Prior request for cost-sharing.
1105.809 Program year and technical aid.
1105.810 Practice specifications and approval.
1105.811 Completion of practices.
1105.812 Practices substantially completed during program year.
1105.813 Practices requiring more than one program year for completion.
1105.814 Initial establishment or installation of practices.
1105.815 Repair, upkeep, and maintenance of practices.

FEDERAL COST-SHARES

1105.817 Division of Federal cost-shares.
1105.818 Increase in small Federal cost-shares.
1105.819 Maximum Federal cost-share limitation.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

1105.821 Maintenance of practices.
1105.822 Practices defeating purposes of programs.
1105.823 Depriving others of Federal cost-share.
1105.824 Filing of false claims.
1105.825 Federal cost-shares not subject to claims.
1105.826 Assignments.
1105.827 Practices carried out with State or Federal aid.
1105.828 Compliance with regulatory measures.

APPLICATION FOR PAYMENT OF FEDERAL COST-SHARES

1105.830 Persons eligible to file application.
1105.831 Time and manner of filing application and required information.

APPEALS

1105.833 Appeals.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

1105.835 Authority.
1105.836 Availability of funds.
1105.837 Applicability.

CONSERVATION PRACTICES AND MAXIMUM RATES OF COST-SHARING

1105.841 Practice 1: Constructing terraces and/or diversion ditches to control the flow of runoff water and check soil erosion on sloping farmland.
1105.842 Practice 2: Constructing interception ditches and/or outlet channels for disposing of, diverting, or collecting water to control erosion or for impounding livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grazing land management as a means of protecting established vegetative cover, and for irrigation.
1105.843 Practice 3: Establishing a protective sod lining in waterways to dispose of excess water without causing erosion and establishing a protective cover on slopes of field road fills and cuts.
1105.844 Practice 4: Constructing erosion control dams, pits, ponds, or stone or vegetative barriers to prevent or heal the gullying of farmland or reduce runoff of water.
1105.845 Practice 5: Initial planting of orchards on the contour to help prevent erosion.
1105.846 Practice 6: Establishment of leguminous crops for use as stubble mulch, cover, or green manure for protection of soil from erosion.
1105.847 Practice 7: Establishment of adapted nonlegumes for stubble mulch, cover, filter strip, or green manure for protection of soil from erosion.
1105.848 Practice 8: Initial establishment of permanent pasture or initial improvement of an established permanent grass or grass-legume cover for soil or watershed protection by seeding, sodding, or sprigging adapted perennial grasses and/or legumes.
1105.849 Practice 9: Initial treatment of cropland, orchardland, or pasture with liming material for correction of soil acidity and addition of needed calcium to permit best use of legumes and/or grasses for soil improvement and protection.
1105.850 Practice 10: Initial controlling of competitive shrubs to permit growth of adequate grass cover for soil protection on range or pasture land by poisoning, rotary-mowing, shredding, clipping, or hand grubbing.
1105.851 Practice 11: Initial application of organic mulch material to any cropland, orchardland, or eroded pasture areas for soil protection and moisture conservation.
1105.852 Practice 12: Installation of pipelines for livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover or to make practicable the utilization of the land for vegetative cover.
1105.853 Practice 13: Construction of permanent catchment areas for accumulating water to be used to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover or to make practicable the utilization of the land for vegetative cover.
1105.854 Practice 14: Construction of permanent water tanks for accumulating water to be used to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover or to make practicable the utilization of the land for vegetative cover.
1105.855 Practice 15: Construction of permanent fences to obtain better distribution and control of livestock grazing on range or pastureland and to promote proper manangement for protection of established forage resources, or to protect farm woodland from grazing.
1105.856 Practice 16: Constructing or sealing dams, pits, or ponds for livestock water, including the enlargement of inadequate structures.
1105.857 Practice 17: Constructing or sealing dams, pits, or ponds for irrigation water.
1105.858 Practice 18: Constructing or enlarging permanent ditches, dikes, or laterals in reorganization of farm irrigation system to conserve water and prevent erosion.

Sec.
1105.859 Practice 19: Lining ditches in reorganization of farm irrigation system to conserve water and prevent erosion.
1105.860 Practice 20: Constructing or installing permanent structures such as siphons, flumes, drop boxes or chutes, weirs, diversion gates, and permanently located pipe in reorganization of farm irrigation water supply system to conserve water and prevent erosion.
1105.861 Practice 21: Installation of a water distribution system, including portable sprinklers and gated pipes, in reorganizing farm irrigation to conserve water and prevent erosion.
1105.862 Practice 22: Construction or enlargement of permanent open drainage systems or vertical drains to dispose of excess water on farmland under cultivation or on pastureland.
1105.863 Practice 23: Installing underground drainage systems to dispose of excess water.
1105.864 Practice 24: Initial establishment of a stand of trees or shrubs on farmland for purposes other than the prevention of wind or water erosion.
1105.865 Practice 25: Improvement of a stand of forest trees on farmland.
1105.866 Practice 26: Initial establishment of a stand of trees or shrubs to prevent wind or water erosion.
1105.867 Practice 27: Installation of facilities for sprinkler irrigation of permanent pasture for developing forage resources to encourage rotation grazing and better pasture management for protection of all grazing land in the farm against overgrazing and erosion.
1105.868 Practice 28: Constructing wells or developing seeps or springs for livestock water as a means of protecting established vegetative cover through proper distribution of livestock, rotation grazing, or better grassland management, or to make practicable the utilization of the land for vegetative cover.
1105.869 Practice 29: Shaping or land grading to permit effective surface drainage.
1105.870 Practice 30: Leveling or grading land for more efficient use of irrigation water and to prevent erosion.
1105.871 Practice 31: Streambank or shore protection, channel clearance, enlargement or realinement, or construction of floodways, levees, or dikes, to prevent erosion or flood damage to farmland.
1105.872 Practice 32: Initial establishment of contour operations on nonterraced unirrigated land to protect soil from wind or water erosion.
1105.873 Practice 33: Initial establishment of cross-slope strip-cropping to protect soil from water or wind erosion.
1105.874 Practice 34: Establishment of permanent vegetative strips between tree rows in young (less than 5 years old) coffee orchards as a protection against erosion.
1105.875 Practice 35: Subsurface tillage of cropland and/or orchardland protected by organic mulch, to avoid plowing under the surface cover of mulch which has been applied for soil protection and moisture conservation.
1105.876 Practice 36: Constructing channel lining, chutes, drop spillways, pipe drops, drop inlets, or similar structures for the protection of outlets and water channels that dispose of excess water.

AUTHORITY: §§ 1105.800 to 1105.876 issued under sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended, 72 Stat. 192; 16 U. S. C. 590g–590q.

INTRODUCTION

§ 1105.800 *Introduction.* (a) The United States Department of Agriculture offers every farmer and rancher in the Territory of Hawaii an opportunity to conserve and improve the productivity of their land through participation in the 1959 Agricultural Conservation Program.

(b) Under this program, part of the costs of the conservation practices is borne by the Government, and this represents the Nation's interest in what happens to its basic land and water resources.

(c) Costs will be shared on the performance of recommended practices at approved rates to the extent of available funds. Developed under the provisions of the Soil Conservation and Domestic Allotment Act, the program is designed to meet local conservation needs.

(d) The information contained in this subpart outlines the general provisions of the 1959 Agricultural Conservation Program for Hawaii and the general specifications and rates of Federal cost-sharing for practices.

GENERAL PROGRAM PRINCIPLES

§ 1105.801 *General program principles.* The 1959 Agricultural Conservation Program for Hawaii has been developed and is to be carried out on the basis of the following general principles:

(a) The program is confined to the conservation practices on which Federal cost-sharing is most needed in order to achieve the maximum conservation benefit in the Territory.

(b) The program is designed to encourage those soil and water conservation practices which provide the most enduring conservation benefits practicably attainable in 1959 on the lands where they are to be applied.

(c) Costs will be shared with a farmer or rancher only on satisfactorily performed soil and water conservation practices for which Federal cost-sharing was requested by the farmer or rancher before the conservation work was begun.

(d) Costs should be shared only on soil and water conservation practices which it is believed farmers or ranchers would not carry out to the needed extent without program assistance. In no event should costs be shared on practices, except those which are over and above those farmers or ranchers would be compelled to perform in order to secure a crop.

(e) The rates of cost-sharing in the program are to be the minimum required to result in substantially increased performance of needed soil and water conservation practices within the limits prescribed.

(f) The purpose of the program is to help achieve additional conservation on land now in agricultural production rather than to bring more land into agricultural production. The program is not applicable to the development of new or additional farmland by measures such as drainage, irrigation, and land clearing. Such of the available funds that cannot be wisely utilized for this purpose will be returned to the public treasury.

(g) If the Federal Government shares the cost of the initial application of soil and water conservation practices which farmers and ranchers otherwise would not perform but which are essential to sound soil and water conservation, the farmers and ranchers should assume responsibility for the upkeep and maintenance of those practices through their life spans. Cost-shares are not applicable, after they are initially utilized, to undertake a practice during its normal life span unless the practice has failed to serve for its normal life span due to conditions beyond the control of the farm or ranch operator.

DEFINITIONS

§ 1105.802 *Definitions.* For the purposes of the 1959 program:

(a) "Secretary" means the Secretary of the United States Department of Agriculture or any officer or employee of the Department to whom authority has been delegated, or to whom authority may hereafter be delegated, to act in his stead.

(b) "Administrator, ACPS," means the Administrator of the Agricultural Conservation Program Service.

(c) "State" means the Territory of Hawaii.

(d) "State Office" means the Hawaii Agricultural Stabilization and Conservation Office in Honolulu, Territory of Hawaii.

(e) "Person" means an individual, partnership, association, corporation, estate, or trust, or other business enterprise, or other legal entity (and, wherever applicable, the Territory of Hawaii or a political subdivision or agency thereof) that, as landlord, tenant, or sharecropper, participates in the operation of a farm or ranch.

(f) "Farm" or "ranch" means (1) all adjoining or nearby and easily accessible farm, wood, or range land under the same ownership which is operated by one person, and (2) all additional farm, wood, or range land under different ownership operated by such person which the State Office determines (i) is nearby and easily accessible, (ii) is approximately equally productive, and (iii) for the past 2 years has been operated by such person and will be so operated during the current year, or has been operated by such person for 1 year with proof satisfactory to the State Office that it will be operated by such person for at least 2 more years. Notwithstanding the conditions set forth in subparagraphs (1) and (2) of this paragraph, fields and subdivisions of fields which are part of a farm or ranch shall remain a part of such farm or ranch when operated under a short term agreement by another operator, unless and until such fields or subdivisions of fields may be properly constituted as a separate farm or ranch

or part of another farm or ranch under this definition. Land which is properly constituted as a farm or ranch shall not be reconstituted when a change of farm or ranch operators is the only basis for such action.

(g) "Cropland" means land which the State Office determines (1) was tilled in at least 1 of the 5 calendar years immediately preceding the crop year for which the determination is being made; or (2) was established in permanent vegetative cover within the 5 calendar years immediately preceding the crop year for which the determination is being made and was classified as cropland at the time of establishment; or (3) has been tilled but at the time of determination is in an established crop rotation pattern recognized in the community. Land planted to vineyards, orchards, or other trees which was classified as cropland at the time of planting shall retain the cropland classification only for the year of planting, except that portions of the land area within an orchard or vineyard not devoted to trees or vines shall be classified as cropland if such land area meets the requirements of the first sentence of this definition.

(h) "Orchardland" means the acreage in planted fruit trees, nut trees, coffee trees, papaya trees, banana plants, or vineyards.

(i) "Pastureland" means farmland, other than rangeland, on which the predominant growth is forage suitable for grazing and on which the spacing of any trees or shrubs is such that the land could not fairly be considered as woodland.

(j) "Rangeland" means land which produces, or can produce, forage suitable for grazing by range livestock without cultivation or general irrigation.

(k) "Merchantable timber" means any processed or unprocessed timber which is sold for cash by the producer.

(l) "Forest Service" means the Division of Forestry, Territorial Board of Agriculture and Forestry.

ALLOCATION OF FUNDS

§ 1105.803 *Allocation of funds.* The amount of funds available for conservation practices under this program is $186,000. This amount does not include the amount set aside for administrative expenses and the amount required for increases in small Federal cost-shares in § 1105.818.

STATE AGRICULTURAL CONSERVATION PROGRAM

§ 1105.804 *Agencies participating in development of State program.* This program was developed within the pattern of the national program authorized by the Congress under the provisions of the Soil Conservation and Domestic Allotment Act of 1938, as amended. Adaptation to Hawaii's needs has been accomplished over a period of years through the cooperative assistance and advice of interested farmers and ranchers, as well as Government agency representatives from the Extension Service, Farmers Home Administration, Soil Conservation Service, Board of Agriculture and Forestry, and Agricultural Stabilization and Conservation Office. The program has been approved by the Administrator, ACPS, in Washington.

APPROVAL OF CONSERVATION PRACTICES

§ 1105.805 *Method and extent of approval.* The State Office will determine the extent to which program funds will be made available to share the cost of each approved practice on each farm or ranch, taking into consideration the available funds, the conservation problems of the individual farm or ranch and other farms and ranches, and the conservation work for which requested Federal cost-sharing is considered as most needed in 1959. The notice of approval shall show for each approved practice the number of units of the practice for which the Federal Government will share in the cost and the amount of the Federal cost-share for the performance of that number of units of the practice. No practice may be approved for cost-sharing except as authorized by the program contained in this subpart, or in accordance with procedures incorporated therein. Available funds for cost-sharing shall not be allocated on a farm or acreage-quota basis, but shall be directed to the accomplishment of the most enduring conservation benefits attainable.

§ 1105.806 *Selection of practices.* (a) The practices included in the program are only those practices for which cost-sharing is essential to permit accomplishment of needed conservation work which would not otherwise be carried out.

(b) Each farmer or rancher shall be given an opportunity to request that the Federal Government share in the cost of those practices on which he considers he needs such assistance in order to permit their performance on his farm or ranch. The State Office, taking into consideration the farmer's or rancher's request and any conservation plan developed by the farmer or rancher with the assistance of any State or Federal agency, shall direct the available funds for cost-sharing to those farms and ranches and to those practices where cost-sharing is considered most essential to the accomplishment of the basic conservation objective of the Department—the use of each acre of agricultural land within its capabilities and the treatment of each acre in accordance with its needs for protection and improvement.

§ 1105.807 *Pooling agreements.* Farmers or ranchers in any local area may agree in writing, with the approval of the State Office, to perform designated amounts of practices which, by conserving or improving the agricultural resources of the community, will solve a mutual conservation problem on the farms or ranches of the participants. For purposes of eligibility for cost-sharing, practices carried out under such an approved written agreement will be regarded as having been carried out on the farms or ranches of the persons who performed the practices.

§ 1105.808 *Prior request for cost-sharing.* Costs will be shared only for those practices, or components of practices, for which cost-sharing is requested by the farmer or rancher before performance thereof is started. For practices for which (a) approval was given under the 1958 Agricultural Conservation Program, (b) performance was started but not completed during the 1958 program year, and (c) the State office believes the extension of the approval to the 1959 program is justified under the 1959 program regulations and provisions, the filing of the request for cost-sharing under the 1958 program may be regarded as meeting the requirement of the 1959 program that a request for cost-sharing be filed before performance of the practice is started.

§ 1105.809 *Program year and technical aid.* (a) Costs will be shared at the rates specified and within the limitations set forth in this subpart for carrying out during the period August 1, 1958, through December 31, 1959, the conservation practices, or components thereof, included in this subpart which are approved for a farm or ranch, except that for practices performed during the period August 1, 1958, through December 31, 1958, for which specifications and requirements are identical with those for comparable practices under the 1959 Agricultural Conservation Program, cost-share rates shall be those prescribed for the 1958 program.

(b) The Soil Conservation Service is responsible for the technical phases of the practices contained in §§ 1105.841, 1105.842, 1105.844, 1105.853, 1105.854, 1105.856 to 1105.863, 1105.866 to 1105.872, 1105.875, and 1105.876 (practices 1, 2, 4, 13, 14, 16 to 23, 26 to 32, 35, and 36). This responsibility shall include (1) a finding that the practice is needed and practicable on the farm, (2) necessary site selection, other preliminary work, and layout work of the practice, (3) necessary supervision of the installation, and (4) certification of performance. For the practice contained in § 1105.843 (practice 3), the Soil Conservation Service is responsible (1) for determining that the practice is needed and practicable on the farm, and (2) for necessary site selection, other preliminary work, and layout work of the practice. For the practices contained in §§ 1105.845 and 1105.852 (practices 5 and 12), the Soil Conservation Service is responsible for determining that the practice is needed and practicable on the farm. In addition, upon agreement of the State Office and the Territorial Conservationist of the Soil Conservation Service, responsibility for all or part of the unassigned technical phases of these or other practices may be assigned to the Soil Conservation Service. The Territorial Conservationist of the Soil Conservation Service may utilize assistance from private, State, or Federal agencies in carrying out these assigned responsibilities. The Soil Conservation Service will utilize to the full extent available resources of the Territorial forestry agency in carrying out its assigned responsibilities for the practice contained in § 1105.866 (practice 26).

(c) The Forest Service (Forestry Division, Territorial Board of Agriculture and Forestry) is responsible for the technical phases of the practices contained in §§ 1105.864 and 1105.865 (practices 24 and 25). This responsibility shall include (1) providing necessary specialized technical assistance, (2) development of specifications for the practice, and (3) working through the State Office, determining compliance in meeting these specifications. The Forest Service may utilize assistance from private, State, or Federal agencies in carrying out these assigned responsibilities.

§ 1105.810 *Practice specifications and approval.* (a) Minimum specifications which practices must meet to be eligible for Federal cost-sharing are set forth in this subpart. Additional specifications may be secured from the State Office or the soil Conservation Service Territorial Office in Honolulu.

(b) For those practices in this subpart which authorize Federal cost-sharing for minimum required applications of liming materials and commercial fertilizers, the minimum required application on which cost-sharing is authorized shall in each case be determined on the basis of current soil tests: *Provided, however,* That if the State Office determines available facilities are inadequate to provide the necessary tests, the minimum required applications of these materials shall be those recommended for the area by the Agricultural Extension Service. Liming materials contained in commercial fertilizers, phosphate rock, or basic slag will not qualify for Federal cost-sharing.

(c) Practice specifications shall provide minimum performance requirements which will qualify the practice for cost-sharing and, where applicable, may also provide maximum limits of performance which will be eligible for cost-sharing. The minimum performance requirements established for a practice shall represent those levels of performance which are necessary to assure a satisfactory practice. The maximum limits of performance for cost-sharing established for a practice shall represent those levels of performance which are needed in order for the practice to be most effective in meeting the conservation problem and which are not in excess of levels for which cost-sharing can be justified.

(d) Costs for the practices contained in §§ 1105.843, 1105.846 to 1105.848, 1105.864, 1105.866, and 1105.874 (practices 3, 6 to 8, 24, 26, and 34) may be shared even though a good stand is not established, if the State Office determines, in accordance with approved standards, that the practices were carried out in a manner which would normally result in the establishment of a good stand, and that failure to establish a good stand was due to weather or other conditions beyond the control of the farm or ranch operator. The State Office may require as a condition of cost-sharing in such cases that the area be reseeded or replanted, or that other needed protective measures be carried out.

§ 1105.811 *Completion of practices.* Federal cost-sharing for the practices contained in this subpart is conditioned upon the performance of the practices in accordance with all applicable specifications and program provisions. Except as provided in §§ 1105.812 and 1105.813, practices must be completed during the program year in order to be eligible for cost-sharing.

§ 1105.812 *Practices substantially completed during program year.* Approved practices may be deemed, for purposes of payment of cost-shares, to have been carried out during the 1959 program year, if the State Office determines that they are substantially completed by the end of the program year. However, no cost-shares for such practices shall be paid until they have been completed in accordance with all applicable specifications and program provisions, except as provided in § 1105.813.

§ 1105.813 *Practices requiring more than one program year for completion.* Cost-shares approved under the 1959 program will not be considered as earned until all components of the approved practices are completed in accordance with all applicable specifications and program provisions. Cost-shares for completed components may be paid only after the practice is substantially completed, and only on the condition that the farmer or rancher will complete the remaining components of the practice within the time prescribed by the State Office which will afford the farmer or rancher a fair and reasonable opportunity to complete them, unless prevented from doing so for reasons beyond his control and regardless of whether cost-sharing therefor is offered, or refund the cost-shares paid to him. If an approved practice is not substantially completed by the end of the 1959 program year, the practice may be considered for re-approval under the 1960 program.

§ 1105.814 *Initial establishment or installation of practices.* Under the initial establishment principle as it applies to the 1959 program, Federal cost-sharing may be authorized for the first establishment or installation of a practice with cost-sharing since the 1953 program on a particular piece of land while under the control of the current operator. Federal cost-sharing may also be authorized for replacement, enlargement, or restoration of practices for which cost-sharing has been allowed since the 1953 program if the practice has served for its normal life span, or if all of the following conditions exist:

(a) Replacement, enlargement, or restoration of the practice is needed to meet the conservation problem.

(b) The failure of the original practice was not due to the lack of proper maintenance by the current operator.

(c) The State Office believes that the replacement, enlargement, or restoration of the practice merits consideration under the program to an equal extent with other practices for which cost-sharing has not been allowed under a previous program.

§ 1105.815 *Repair, upkeep, and maintenance of practices.* Federal cost-sharing is not authorized for repairs or for normal upkeep or maintenance of any practice.

FEDERAL COST-SHARES

§ 1105.817 *Division of Federal cost-shares—(a) Federal cost-shares.* The Federal cost-share attributable to the use of conservation materials or services shall be credited to the person to whom the materials or services are furnished. Other Federal cost-shares shall be credited to the person who carried out the practices by which such other Federal cost-shares are earned. If more than one person contributed to the carrying out of such practices, the Federal cost-share shall be divided among such persons in the proportion that the State Office determines they contributed to the carrying out of the practices. In making this determination, the State Office shall take into consideration the value of the labor, equipment, or material contributed by each person toward the carrying out of each practice on a particular acreage, and shall assume that each contributed equally unless it is established to the satisfaction of the State Office that their respective contributions thereto were not in equal proportion. The furnishing of land or the right to use water will not be considered as a contribution to the carrying out of any practice.

(b) *Death, incompetency, or disappearance.* In case of death, incompetency, or disappearance of any person, any Federal share of the cost due him shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP-122, as amended (Part 1108 of this chapter).

§ 1105.818 *Increase in small Federal cost-shares.* The Federal cost-share computed for any person with respect to any farm or ranch shall be increased as follows: *Provided, however,* That in the event legislation is enacted which repeals or amends the authority for making such increases, the Secretary may, in such manner and at such time as is consistent with such legislation, discontinue such increases:

(a) Any Federal cost-share amounting to $0.71 or less shall be increased to $1.

(b) Any Federal cost-share amounting to more than $0.71, but less than $1, shall be increased by 40 percent.

(c) Any Federal cost-share amounting to $1 or more shall be increased in accordance with the following schedule:

Amount of cost-share computed:	Increase in cost-share
$1 to $1.99	$0.40
$2 to $2.99	.60
$3 to $3.99	1.20
$4 to $4.99	1.60
$5 to $5.99	2.00
$6 to $6.99	2.40
$7 to $7.99	2.80
$8 to $8.99	3.20
$9 to $9.99	3.60
$10 to $10.99	4.00
$11 to $11.99	4.40
$12 to $12.99	4.80
$13 to $13.99	5.20
$14 to $14.99	5.60
$15 to $15.99	6.00
$16 to $16.99	6.40
$17 to $17.99	6.80
$18 to $18.99	7.20
$19 to $19.99	7.60
$20 to $20.99	8.00
$21 to $21.99	8.20
$22 to $22.99	8.40
$23 to $23.99	8.60
$24 to $24.99	8.80
$25 to $25.99	9.00
$26 to $26.99	9.20
$27 to $27.99	9.40
$28 to $28.99	9.60
$29 to $29.99	9.80

Amount of cost-share computed—Continued	Increase in cost-share
$30 to $30.99	$10.00
$31 to $31.99	10.20
$32 to $32.99	10.40
$33 to $33.99	10.60
$34 to $34.99	10.80
$35 to $35.99	11.00
$36 to $36.99	11.20
$37 to $37.99	11.40
$38 to $38.99	11.60
$39 to $39.99	11.80
$40 to $40.99	12.00
$41 to $41.99	12.10
$42 to $42.99	12.20
$43 to $43.99	12.30
$44 to $44.99	12.40
$45 to $45.99	12.50
$46 to $46.99	12.60
$47 to $47.99	12.70
$48 to $48.99	12.80
$49 to $49.99	12.90
$50 to $50.99	13.00
$51 to $51.99	13.10
$52 to $52.99	13.20
$53 to $53.99	13.30
$54 to $54.99	13.40
$55 to $55.99	13.50
$56 to $56.99	13.60
$57 to $57.99	13.70
$58 to $58.99	13.80
$59 to $59.99	13.90
$60 to $60.99	14.00
$186 to $199.99	(1)
$200 and over	(2)

[1] Increase to $200.
[2] No increase.

§ 1105.819 *Maximum Federal cost-share limitation.* (a) The total of all Federal cost-shares under the 1959 program to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) for approved practices which are not carried out under pooling agreements shall not exceed the sum of $2,500, and for all approved practices, including those carried out under pooling agreements, shall not exceed the sum of $10,000.

(b) All or any part of any Federal cost-share which otherwise would be due any person under the 1959 program may be withheld, or required to be refunded, if he has adopted, or participated in adopting, any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, designed to evade, or which has the effect of evading, the provisions of this section.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

§ 1105.821 *Maintenance of practices.* The sharing of costs, by the Federal Government, for the performance of approved conservation practices on any farm or ranch under the 1959 program will be subject to the condition that the person with whom the costs are shared will maintain such practices throughout their normal life spans in accordance with good farming practices as long as the land on which they are carried out is under his control.

§ 1105.822 *Practices defeating purposes of programs.* If the State Office finds that any person has adopted or participated in any practice during the 1959 program year which tends to defeat the purposes of the 1959 or any previous program, including, but not limited to, failure to maintain, in accordance with good farming practices, practices carried out under a previous program, it may withhold, or require to be refunded, all or any part of the Federal cost-share which otherwise would be due him under the 1959 program.

§ 1105.823 *Depriving others of Federal cost-share.* If the State Office finds that any person has employed any scheme or device (including coercion, fraud, or misrepresentation), the effect of which would be or has been to deprive any other person of the Federal cost-share due that person under the program, it may withhold, in whole or in part, from the person participating in or employing such a scheme or device, or require him to refund in whole or in part, the Federal cost-share which otherwise would be due him under the 1959 program.

§ 1105.824 *Filing of false claims.* If the State Office finds that any person has knowingly filed claim for payment of the Federal cost-share under the 1959 program for practices not carried out, or for practices carried out in such a manner that they do not meet the required specifications therefor, such person shall not be eligible for any Federal cost-share under the 1959 program and shall refund all amounts that may have been paid to him under the 1959 program. The withholding or refunding of Federal cost-shares will be in addition to and not in substitution of any other penalty or liability which might otherwise be imposed.

§ 1105.825 *Federal cost-shares not subject to claims.* Any Federal cost-share, or portion thereof, due any person shall be determined and allowed without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 1105.826, and except for indebtedness to the United States subject to setoff under orders issued by the Secretary (Part 13, Subtitle A, of this title)); and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 1105.826 *Assignments.* Any person who may be entitled to any Federal cost-share under the 1959 program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1959, including the carrying out of soil and water conservation practices. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the regulations issued by the Secretary (Part 1110 of this chapter).

§ 1105.827 *Practices carried out with State or Federal aid.* The total extent of any practice performed shall be reduced for the purpose of computing cost-shares by the percentage of the total cost of the items of performance on which costs are shared which the State Office determines was furnished by a State or Federal agency. Materials or services furnished through the 1959 program, materials or services furnished by any agency of a State to another agency of the same State, or materials or services furnished or used by a State or Federal agency for the performance of practices on its land shall not be regarded as State or Federal aid for the purposes of this section.

§ 1105.828 *Compliance with regulatory measures.* Persons who carry out conservation practices for cost-sharing under the 1959 program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations. The person with whom the cost of the practice is shared shall be responsible to the Federal Government for any losses it may sustain because he infringes on the rights of others or fails to comply with applicable laws and regulations.

APPLICATION FOR PAYMENT OF FEDERAL COST-SHARES

§ 1105.830 *Persons eligible to file application.* Any person who, as landlord, tenant, or sharecropper on a farm or ranch, bore a part of the cost of an approved conservation practice is eligible to file an application for payment of the Federal cost-share due him.

§ 1105.831 *Time and manner of filing application and required information.* (a) It shall be the responsibility of persons participating in the program to submit to the State Office forms and information needed to establish the extent of the performance of approved conservation practices and compliance with applicable program provisions. Time limits with regard to the submission of such forms and information shall be established where necessary for efficient administration of the program. Such time limits shall afford a full and fair opportunity to those eligible to file the forms or information within the period prescribed. At least 2 week's notice to the public shall be given of any general time limit prescribed. Such notice shall be given by mailing notice to each farm inspector and making copies available to the press. Other means of notification, including radio announcements and individual notices to persons affected, shall be used to the extent practicable. Notice of time limits which are applicable to individual persons, such as time limits for reporting performance of approved practices, shall be issued in writing to the persons affected. Exceptions to time limits may be made in cases where failure to submit required forms and information within the applicable time limits is due to reasons beyond the control of the farmer or rancher.

(b) Payment of Federal cost-shares will be made only upon application submitted on the prescribed form to the State Office. Any application for payment may be rejected if any form or information required of the applicant is not submitted to the State Office within the applicable time limit.

(c) If an application for a farm or ranch is filed within the time prescribed, any producer on the farm or ranch who did not sign the application may subsequently apply for his share of the cost-share, provided he does so on or before December 31, 1960.

APPEALS

§ 1105.833 *Appeals.* Any person may, within 15 days after notice thereof is forwarded to or made available to him, request the State Office in writing to reconsider its recommendation or determination in any matter affecting the right to or the amount of his Federal cost-shares with respect to the farm or ranch. The State Office shall notify him of its decision in writing within 15 days after receipt of written request for reconsideration. If the person is dissatisfied with the decision of the State Office, he may, within 15 days after the decision is forwarded to or made available to him, request the Administrator, ACPS, to review the decision of the State Office. The decision of the Administrator, ACPS, shall be final. Written notice of any decision rendered under this section by the State Office shall also be issued to each other landlord, tenant, or sharecropper on the farm or ranch who may be adversely affected by the decision.

AUTHORITY, AVAILABILITY OF FUNDS, AND APPLICABILITY

§ 1105.835 *Authority.* The program contained in this subpart is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17 of the Soil Conservation and Domestic Allotment Act, as amended (49 Stat. 1148, 16 U. S. C. 590g–590q), and the Department of Agriculture and Farm Credit Administration Appropriation Act, 1959.

§ 1105.836 *Availability of funds.* (a) The provisions of the 1959 program are necessarily subject to such legislation as the Congress of the United States may hereafter enact; the paying of the Federal cost-shares provided in this subpart is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such Federal cost-shares will necessarily be within the limits finally determined by such appropriation.

(b) The funds provided for the 1959 program will not be available for paying Federal cost-shares for which applications are filed in the State Office after December 31, 1960.

§ 1105.837 *Applicability.* (a) The provisions of the 1959 program contained in this subpart are not applicable to (1) any department or bureau of the United States Government or any corporation wholly owned by the United States; (2) grazing lands owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership, including, but not limited to, grazing lands administered by the Forest Service of the United States Department of Agriculture, or by the Bureau of Land Management (including lands administered under the Taylor Grazing Act) or the Fish and Wildlife Service of the United States Department of the Interior; (3) nonprivate persons for performance on any land owned by the United States or a corporation wholly owned by it; and (4) farmlands, the use of which the State Office determines will probably change within approximately 2 years to nonagricultural use.

(b) The program is applicable to (1) privately owned lands; (2) lands owned by the Territory of Hawaii or a political subdivision or agency thereof; (3) lands owned by corporations which are partly owned by the United States, such as production credit associations; (4) lands temporarily owned by the United States or a corporation wholly owned by it, which were not acquired or reserved for conservation purposes, including lands administered by the Farmers Home Administration, the Federal Farm Mortgage Corporation, the United States Department of Defense, or by any other Government agency designated by the Administrator, ACPS; and (5) any cropland farmed by private persons which is owned by the United States or a corporation wholly owned by it.

CONSERVATION PRACTICES AND MAXIMUM RATES OF COST-SHARING

§ 1105.841 *Practice 1: Constructing terraces and/or diversion ditches to control the flow of runoff water and check soil erosion on sloping farmland.* Cost-sharing will be allowed provided the structures are properly laid out and constructed in accordance with specifications contained in Technical Standards on file in the State Office. If the land terraced is planted to clean-tilled crops, the crop rows should follow contour or suitable grade lines. This practice is applicable to average slopes, up to 12 percent for channel terraces, up to 25 percent for diversion ditches, and up to 50 percent for bench terraces. Necessary protective outlets must be provided.

Maximum Federal cost-share. (a) 50 percent of the cost, but not in excess of $0.30 per cubic yard of earth moved in terrain permitting normal operation of tillage equipment.

(b) 50 percent of the cost, but not in excess of $0.40 per cubic yard of earth moved in other terrain (rocky, broken, steep, or with exposed substratum).

§ 1105.842 *Practice 2: Constructing interception ditches and/or outlet channels for disposing of, diverting, or collecting water to control erosion or for impounding livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grazing land management as a means of protecting established vegetative cover, and for irrigation.* This practice does not apply to infield surface water interception on farmland. (See § 1105.841 (practice 1) for infield interception of runoff water.) Channels having an erosive grade must be protected against erosion damage by adequate sod (see § 1105.843 (practice 3)) or other lining. Outlets must be protected to discharge water without gullying. Cost-sharing will be allowed only once and that for the year of construction. Specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. (a) 50 percent of the cost, but not in excess of $0.40 per cubic yard of material moved, other than by dynamiting.

(b) 50 percent of the cost of materials and labor in dynamiting rock.

§ 1105.843 *Practice 3: Establishing a protective sod lining in waterways to dispose of excess water without causing erosion and establishing a protective cover on slopes of field road fills and cuts.* This practice is applicable to waterways built or reshaped in the program year for use in removing excess water from farmland that is contoured, terraced, and/or trash-mulched. It also applies to exposed slopes of field road fills and cuts installed and/or reshaped during the program year. Sod lining of waterways and cover on fills and cuts must be dense enough to prevent soil cutting before cost-sharing may be allowed. Maximum width of waterway for which cost-sharing will be approved is 50 feet. Slopes of fills and cuts must not exceed natural angle of repose for the soil. Detailed specifications on species, seeding rates, sprig spacings, soil preparation, and irrigation are contained in Technical Standards for § 1105.847 (practice 7) and § 1105.848 (practice 8) on file in the State Office. Soil moving under this practice is eligible for cost-sharing only if it qualifies under § 1105.842 (practice 2).

Maximum Federal cost-share. (a) $3.50 per 1,000 square feet of surface established to cover by seeding, sodding, or sprigging.

(b) 50 percent of the cost at the farm of the minimum required application of approved liming materials and/or commercial fertilizers, including nitrogen (as determined by soil test), for establishment of the cover. (Receipts, invoices, or other evidence of cost are required.)

§ 1105.844 *Practice 4: Constructing erosion control dams, pits, ponds, or stone or vegetative barriers to prevent or heal the gullying of farmland or reduce runoff of water.* Receipts or invoices showing purchase of pipe and/or flume material and receipts or records showing payment for labor will be required by checkers as evidence of accomplishment under paragraphs (d) and (f) of this section. Detailed specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. (a) 75 percent of the cost, but not in excess of $0.40 per cubic yard of earth moved in the construction of dams, wings, and walls.

(b) $20 per cubic yard of concrete used.

(c) $13 per cubic yard of rubble masonry used.

(d) 75 percent of the average cost of pipe and/or flume material delivered to the farm.

(e) $3 per cubic yard of rock used, for rock or rock-and-brush dams.

(f) 75 percent of the cost of constructing stone barriers for diverting and spreading surface runoff.

(g) $0.50 per 100 linear feet for planting single line vegetative barriers to impede the flow of surface runoff.

(h) $3.50 per 1,000 square feet for planting suitable permanent massed vegetative barriers.

§ 1105.845 *Practice 5: Initial planting of orchards on the contour to help prevent erosion.* This practice is to conserve water and reduce erosion from irrigation or storm water, with orchard rows running on nonerosive grades across

the main slope. Cost-sharing will be allowed for planting orchards on the contour on land having more than 2 percent slope. The land must be protected during the rainfall season by cover crops, stubble mulch, or mulch and terraces or diversion ditches. Cultivation at other times for weed control or soil tilth must be on the contour.

Maximum Federal cost-share. $7.50 per acre.

§ 1105.846 *Practice 6: Establishment of leguminous crops for use as stubble mulch, cover, or green manure for protection of soil from erosion.* This practice is applicable to all orchardland. In order to qualify, a good stand and a good growth of the leguminous crops must be grown and left on the land as cover or turned under for green manure during the program year. Detailed specifications are contained in Technical Standards on file in the State Office. Receipts or invoices showing purchase of seed, or records of collecting, will be required by checkers as evidence of seed used. In case of mixed seeding with acceptable nonlegumes (see § 1105.847 (practice 7)), the ratio of one-third of the required poundage of legume seed for unmixed plantings to two-thirds of the required poundage of nonlegume seed for unmixed plantings shall provide the basis for determining eligibility and cost-share. Any of the following crops or any other locally adapted crops approved by the State Office may be used.

	Recommended minimum seeding rate (pounds per acre)
(a) Pigeon peas	30
(b) Velvetbeans	25
(c) Field beans	20
(d) Vetch (hairy, common, purple)	25
(e) Clover (Hubam)	5
(Kaimi)	10
(f) Kudzu (tropical)	2
(g) Crotalaria juncea	20
(h) Cowpeas	30
(i) Trefoil (big)	2
(j) Alfalfa	10

Maximum Federal cost-share. (a) 75 percent of the cost of seed at the farm, but not in excess of $7.50 per acre of area planted.

(b) $7.50 per acre planted to sprigs or cuttings.

(c) 60 percent of the cost of the minimum required application of fertilizer (as determined by soil test), but not in excess of $15 per acre of area fertilized. (Receipts, invoices, or other evidence of cost are required.) (For lime application see § 1105.849 (practice 9).)

§ 1105.847 *Practice 7: Establishment of adapted nonlegumes for stubble mulch, cover, filter strip, or green manure for protection of soil from erosion.* This practice is applicable to all orchardland. Para grass (Panicum purpurascens), molasses grass, Rhodes grass, feather fingergrass, acceptable small grains, and other nonlegumes determined by the State Office as suitable for this purpose, are eligible for cost-sharing. In order to qualify, a good stand and a good growth must be secured during the program year and be left on the land if for cover or turned under before year-end if for green manure. Detailed specifications are contained in Technical Standards on file in the State Office. Acreage harvested for seed or hay is not eligible for Federal cost-sharing. Receipts or invoices showing purchase of seed, or records of collecting, will be required by checkers as evidence of seed used. In case of mixed seeding with acceptable legumes, see § 1105.846 (practice 6) for ratio specifications.

Maximum Federal cost-share. (a) 75 percent of the cost of seed at the farm, but not in excess of $7.50 per acre actually planted.

(b) $7.50 per acre planted to sprigs, stools, or cuttings.

(c) 60 percent of the cost of the minimum required application of fertilizer (as determined by soil test), but not in excess of $15 per acre of area fertilized. (Receipts, invoices, or other evidence of cost are required.) (For lime applications see § 1105.849 (practice 9).)

§ 1105.848 *Practice 8: Initial establishment of permanent pasture or initial improvement of an established permanent grass or grass-legume cover for soil or watershed protection by seeding, sodding, or sprigging adapted perennial grasses and/or legumes.* All equipment used to prepare land for seeding shall operate across the slope as near to the contour as practicable. In areas where long slopes are to be broken out of native vegetation, the land preparation shall be done in contour strips and established to improved pasture before the intermediate strips shall be broken out. Detailed specifications are contained in Technical Standards on file in the State Office. The seed must be well distributed over the area sown to insure a good stand at maturity. Any locally adapted crops approved by the State Office may be used but must be seeded at not less than the minimum seeding rates per acre prescribed by the State Office. In order to meet minimum requirements, slips or stools of grasses may be planted in continuous rows. Grass and legume charts are available in the State Office. Costs will be shared only if a satisfactory stand of the seeded grass or grass-legume mixture is established within 6 months after clearing, unless natural circumstances recognized by the State Office as being beyond control of the farmer affect growth results adversely. No area seeded shall be grazed until grass and legume-grass mixtures are well established. This practice is not applicable to land occupied by a merchantable stand of timber or pulpwood, or to land which, if cleared, would be suitable for continued production of crops. Receipts or invoices showing purchase of seed, or records of collecting, will be required as evidence of cost. If liming materials must be applied in the quantity determined to be needed for successful establishment of the cover, cost-sharing for the minimum required application of liming materials may be authorized under § 1105.849 (practice 9).

Maximum Federal cost-share. (a) 50 percent of the cost of seed in straight grass or legume seedings, but not in excess of $8 per acre, for seeding after land preparation.

(b) 50 percent of the cost of seed in mixed grass-legume seedings, but not in excess of $10 per acre seeded.

(c) $7.50 per acre planted to slips or stools.

(d) 50 percent of the average cost at the farm of the minimum required application of approved commercial fertilizers, including nitrogen (as determined by soil test), for establishment of the cover, but not in excess of $12 per acre. (Receipts, invoices, or other evidence of cost are required.)

§ 1105.849 *Practice 9: Initial treatment of cropland, orchardland, or pasture with liming material for correction of soil acidity and addition of needed calcium to permit best use of legumes and/or grasses for soil improvement and protection.* This practice is applicable to land which is devoted in 1959 to grasses or legumes or which will be devoted to grasses or legumes in the planned rotation for the farm. Treatment of land which is in pasture and which is to remain in pasture will be eligible for cost-sharing only if recent soil analysis and Agricultural Extension Service recommendations justify the use of lime and all measures needed to assure an improved vegetative cover which will provide adequate and extended soil protection are carried out. Liming material must contain at least 80 percent calcium carbonate equivalent and be fine enough to pass through a 20-mesh screen (unless the Agricultural Extension Service of the University of Hawaii recommends otherwise) and must be evenly applied to the land. Except as provided in § 1105.814, cost-sharing may not be authorized for this practice on land on which this practice or another practice involving the application of liming material was carried out in 1955 or a subsequent year, unless a current soil test shows a need for a substantial application of liming material. Receipts or invoices showing the purchase of lime, properly dated and signed by the vendor, will be required as evidence by the checker at the time of inspection.

Maximum Federal cost-share. (a) 50 percent of the cost of liming material delivered to the farm on an island having locally produced lime available.

(b) 75 percent of the cost of liming material delivered to the farm on an island without locally produced lime available.

§ 1105.850 *Practice 10: Initial controlling of competitive shrubs to permit growth of adequate grass cover for soil protection on range or pasture land by poisoning, rotary-mowing, shredding, clipping, or hand grubbing.* Costs will be shared for each treatment, but not in excess of three treatments during the year, done according to accepted practices. Receipts or invoices showing purchase of poisons used or of labor employed in grubbing, clipping, shredding, or mowing will be required by checkers as evidence of cost. Analysis of poisons will also be required. Competitive shrubs eligible under this practice are as described in University of Hawaii Extension Bulletin 62 and BAF Regulation NW–10 on noxious weeds, available at the State Office.

Maximum Federal cost-share. (a) 50 percent of the average cost of State Office approved chemicals, but not in excess of $3 per acre per application.

(b) 50 percent of the cost of grubbing labor, but not in excess of $3 per acre per treatment.

(c) 50 percent of the cost of rotary-mowing, shredding, or clipping, but not in excess of $2 per acre per each operation.

§ 1105.851 *Practice 11: Initial application of organic mulch material to any cropland, orchardland, or eroded pasture areas for soil protection and moisture conservation.* Organic material must be of a fibrous nature and shredded, chopped, or crushed. Material such as sugarcane bagasse, cane leaf trash, pineapple trash, tree fern stumps, coarse grasses, coffee husks, sawdust, and wood shavings or chips, as well as macadamia nut husks and shells, will be eligible. At time of application, finely shredded material like bagasse and sawdust should lie at least 2 inches thick, medium fine material like coffee husks and wood shavings should lie at least 3 inches thick, and coarse material like pineapple trash and cane leaf trash should lie at least 6 inches thick. Receipts or invoices showing purchase of materials and cost of transportation will be required by checkers as evidence of compliance. For protection of mulch cover from damage by flowing water, terraces and/or diversion ditches must be installed where necessary and feasible.

Maximum Federal cost-share. (a) 50 percent of the cost of organic material at the farm, but not in excess of $50 per acre treated with materials secured from outside the farm.

(b) $2.50 per acre treated with crop residue material produced on the farm.

(c) 50 percent of the cost of acceptable organic material grown for the purpose on the farm, but not in excess of $50 per acre.

§ 1105.852 *Practice 12: Installation of pipelines for livestock water to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover or to make practicable the utilization of the land for vegetative cover.* Installations in corrals, feed lots, and holding pens are not eligible. Receipts or invoices showing purchase of pipe used will be required to determine cost.

Maximum Federal cost-share. 35 percent of the average cost of pipe at the farm, except that the cost-share for pipe in excess of 2 inches in diameter may not exceed the cost which may be shared for 2-inch pipe.

§ 1105.853 *Practice 13: Construction of permanent catchment areas for accumulating water to be used to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover or to make practicable the utilization of the land for vegetative cover.* No cost will be shared if the water supplied is primarily for irrigation or domestic purposes. The practice is not applicable for corrals, feed lots, and holding pens alone. Receipts or invoices showing purchase of materials used will be required to determine cost. Detailed specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. (a) 35 percent of the cost of material used, other than concrete and rubble masonry.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

§ 1105.854 *Practice 14: Construction of permanent water tanks for accumulating water to be used to obtain proper distribution of livestock and encourage rotation grazing and better grassland management as a means of protecting established vegetative cover or to make practicable the utilization of the land for vegetative cover.* No cost will be shared if the water supplied is primarily for irrigation or domestic purposes. The practice is not applicable for corrals, feed lots, and holding pens alone. Receipts or invoices showing purchase of materials used will be required to determine cost. Detailed specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. (a) 35 percent of the cost of material used, other than concrete and rubble masonry.

(b) $12 per cubic yard of concrete used.

(c) $7 per cubic yard of rubble masonry used.

§ 1105.855 *Practice 15: Construction of permanent fences to obtain better distribution and control of livestock grazing on range or pasture land and to promote proper management for protection of established forage resources, or to protect farm woodland from grazing.* No cost may be shared for the maintenance or repair of existing fences or for the construction of boundary fences including road fences. Required fencing of forest reserve land is not eligible. Any fencing necessary to the working of cattle (including pens, corrals, and feed lots) is ineligible. Receipts or invoices showing purchase of materials will be required to determine cost.

Maximum Federal cost-share. (a) 35 percent of the average cost at the farm of posts, wire, poles, lumber, staples, or other similar fencing materials used.

(b) $0.25 per linear foot of rock wall, minimum dimensions of which shall be: Height, 4 feet; base width, 36 inches; top width, 24 inches.

§ 1105.856 *Practice 16: Constructing or sealing dams, pits, or ponds for livestock water, including the enlargement of inadequate structures.* The development must contribute to a better distribution of grazing or better pasture management or make practicable the utilization of the land for vegetative cover. This practice is applicable only to livestock enterprises on lands established for grazing. Receipts or invoices showing purchase of material used in construction will be required by checkers as evidence of cost. Earth fills must be constructed in accordance with supplemental specifications for "Small Earth Storage Dams," provided on request by SCS or ASC offices.

Maximum Federal cost-share. (a) 50 percent of the cost, but not in excess of $0.40 per cubic yard of earth material moved.

(b) $14 per cubic yard of concrete used.

(c) $8.50 per cubic yard of rubble masonry used.

(d) 50 percent of the cost of seeding or sodding the dam and filter strips.

(e) 50 percent of the cost of materials, other than concrete and rubble masonry, including soil sealing and including installation costs.

§ 1105.857 *Practice 17: Constructing or sealing dams, pits, or ponds for irrigation water.* The purpose of this practice is to conserve agricultural water or to provide water necessary for the conservation of soil resources. No cost-sharing will be allowed for material moved in cleaning or maintaining a reservoir, or for dams, pits, or ponds, the primary purpose of which is to bring into agricultural production land which was not devoted to the production of cultivated crops or crops normally seeded for hay or pasture in the area during at least 2 of the last 5 years. Receipts or invoices showing purchase of materials used will be required by checkers as evidence of cost. Detailed specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. (a) 50 percent of the cost, but not in excess of $0.40 per cubic yard of earth material moved.

(b) $14 per cubic yard of concrete used.

(c) $8.50 per cubic yard of rubble masonry used.

(d) 50 percent of the cost of seeding or sodding dams or filter strips.

(e) 50 percent of the cost of materials, other than concrete and rubble masonry, including soil sealing and including installation costs.

§ 1105.858 *Practice 18: Constructing or enlarging permanent ditches, dikes, or laterals in reorganization of farm irrigation system to conserve water and prevent erosion.* The reorganization (a change for the better in style or method of conveying water to and in the fields) must be carried out in accordance with a reorganization plan approved by the responsible SCS technician. Receipts or invoices showing records of employment of equipment and/or labor will be required by checkers as evidence of installation costs. No cost-sharing will be allowed for reorganizing an irrigation system if the primary purpose of the reorganization is to bring additional land under irrigation, or for reorganizing a system which was not in use during at least 2 of the last 5 years. No cost-sharing will be allowed for cleaning a ditch. Detailed specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. 50 percent of the cost, but not in excess of $0.40 per cubic yard of earth material moved in the construction or enlargement of permanent ditches, dikes, or laterals.

§ 1105.859 *Practice 19: Lining ditches in reorganization of farm irrigation system to conserve water and prevent erosion.* The reorganization (a change for the better in style or method of conveying water to and in the fields) must be carried out in accordance with a reorganization plan approved by the responsible SCS technician. Receipts or invoices showing purchase of materials used will be required by checkers as evidence of installation costs. No cost-sharing will be allowed for reorganizing an irrigation system if the primary purpose of the reorganization is to bring additional land under irrigation, or for reorganizing a system which was not in use during at least 2 of the last 5 years. No cost-sharing will be allowed for repairs or replacements of existing struc-

tures. Detailed specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. (a) 50 percent of the cost of approved material used, other than concrete and rubble masonry, including soil sealing and including installation costs.

(b) $14 per cubic yard of concrete used.

(c) $8.50 per cubic yard of rubble masonry used.

§ 1105.860 *Practice 20: Constructing or installing permanent structures such as siphons, flumes, drop boxes or chutes, weirs, diversion gates, and permanently located pipe in reorganization of farm irrigation water supply system to conserve water and prevent erosion.* The reorganization (a change for the better in style or method of conveying water to and in the fields) must be carried out in accordance with a reorganization plan approved by the responsible SCS technician. Receipts or invoices showing purchase of material used will be required by checkers as evidence of installation costs. No cost-sharing will be allowed for reorganizing an irrigation system if the primary purpose of the reorganization is to bring additional land under irrigation, or for reorganizing a system which was not in use during at least 2 of the last 5 years. No cost-sharing will be allowed for repairs or replacements of existing structures. Detailed specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. (a) 50 percent of the cost of material used in permanent structures, other than concrete and rubble masonry, but excluding forms.

(b) $14 per cubic yard of concrete used.

(c) $8.50 per cubic yard of rubble masonry used.

§ 1105.861 *Practice 21: Installation of a water distribution system, including portable sprinklers and gated pipes, in reorganizing farm irrigation to conserve water and prevent erosion.* The reorganization (a change for the better in style or method of applying water to the fields) must be carried out in accordance with a reorganization plan approved by the responsible SCS technician. Receipts or invoices showing purchase of materials or equipment will be required by checkers as evidence of installation costs. No cost-sharing will be allowed for reorganizing an irrigation system if the primary purpose of the reorganization is to bring additional land under irrigation, or for reorganizing a system which was not in use during at least 2 of the last 5 years. No cost-sharing will be allowed for repairs or replacements of existing structures. Detailed specifications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. 35 percent of the cost at the farm of plain, gated, or perforated pipe, sprinklers, and fittings used, but not in excess of $100 per acre of reorganized irrigation.

§ 1105.862 *Practice 22: Construction or enlargement of permanent open drainage systems or vertical drains to dispose of excess water on farmland under cultivation or on pastureland.* No cost will be shared for material moved in cleaning or maintaining a ditch, or for structures installed for crossings, or for other structures primarily for the convenience of the farm operator. Receipts or invoices showing purchase of seed or materials and records of labor employed and soil moved will be required by checkers as evidence of construction work costs. No cost-sharing will be allowed for ditches, the primary purpose of which is to bring into agricultural production land which was not devoted to the production of cultivated crops or crops normally seeded for hay or pasture in the area during at least 2 of the last 5 years. Detailed specications are contained in Technical Standards on file in the State Office.

Maximum Federal cost-share. (a) 50 percent of the cost, but not in excess of $0.40 per cubic yard of material moved, other than by dynamiting.

(b) $14 per cubic yard of concrete used.

(c) $8.50 per cubic yard of rubble masonry used.

(d) 50 percent of the average cost of seed or planting materials for establishing suitable cover for protection against erosion on ditchbanks and rights-of-way, plus 50 percent of the average cost at the farm of the minimum required application of approved liming materials and commercial fertilizers, including nitrogen (as determined by soil test), for establishment of the cover.

(e) 50 percent of the cost of materials and labor in dynamiting rock.

(f) 50 percent of the average cost of material used, other than concrete and rubble masonry.

(g) 50 percent of the cost of initial clearing of brush and/or trees from the minimum right-of-way.

§ 1105.863 *Practice 23: Installing underground drainage systems to dispose of excess water.* No Federal cost-sharing will be allowed for systems, the primary purpose of which is to bring new land into agricultural production. This practice is not applicable to land other than that devoted to the production of cultivated crops or crops normally seeded to hay or pasture during at least 2 of the 5 years preceding that in which the practice is applied: *Provided, however,* That upon a showing by a farmer applicant for this practice that the land on which the practice is to be applied was in cultivated crops, tame hay, or seeded pasture 2 years out of 10 years preceding the application applied for, he may be allowed cost-shares as to such land. The installation of this practice on eligible land shall not be ineligible for cost-shares because its use results in incidental drainage on ineligible land. In the installation of drainage systems, due consideration shall be given to the maintenance of wildlife habitat.

Maximum Federal cost-share. 50 percent of the cost of installing the system. (Receipts, invoices, or other evidence of cost are required.)

§ 1105.864 *Practice 24: Initial establishment of a stand of trees or shrubs on farmland for purposes other than the prevention of wind or water erosion.* Plantings must be protected from fire and grazing. Fencing newly planted trees or shrubs under this practice for protection against grazing is eligible for cost-sharing only if the construction specifications in § 1105.855 (practice 15) are employed. Acceptable plant species and spacing are those recommended by the Forestry Division of the Territorial Board of Agriculture and Forestry.

Maximum Federal cost-share. $8 per 100 trees or shrubs planted.

§ 1105.865 *Practice 25: Improvement of a stand of forest trees on farmland.* Federal cost-sharing may be allowed for any of the following measures: (a) Thinning, (b) pruning crop trees, (c) release of desirable tree seedlings by removing or killing competing and undesirable vegetation, (d) site preparation for natural reseeding, (e) fencing, and (f) erosion control measures on logging roads and trails. The area must be protected from fire. Where seedlings are present or needed, the area must be protected from grazing. Federal cost-sharing for site preparation will be limited to areas which have a sufficient number of desirable seed trees for natural reseeding, which will not restock unless brush, dense litter, and other material on the forest soil is broken up or removed so that soil is exposed, and on which the seed trees will be left until the area is restocked. The practice must be carried out in accordance with technical forestry standards of the Forestry Division, Territorial Board of Agriculture and Forestry. Federal cost-sharing for fencing shall be limited to permanent fences needed to protect the area from grazing, excluding boundary and road fences. (See § 1105.-855 (practice 15).)

Maximum Federal cost-share. 50 percent of the cost of performance. (Receipts, invoices or other evidence of cost are required.)

§ 1105.866 *Practice 26: Initial establishment of a stand of trees or shrubs to prevent wind or water erosion.* Plantings must be protected from fire and grazing. Fencing newly planted trees or shrubs under this practice for protection against grazing is eligible for cost-sharing only if the construction specifications in § 1105.855 (practice 15) are employed. Acceptable plant species are those recommended by the Forestry Division of the Territorial Board of Agriculture and Forestry. The spacing of trees and shrubs shall be in accordance with specifications developed by the Soil Conservation Service.

Maximum Federal cost-share. $8 per 100 trees or shrubs planted.

§ 1105.867 *Practice 27: Installation of facilities for sprinkler irrigation of permanent pasture for developing forage resources to encourage rotation grazing and better pasture management for protection of all grazing land in the farm against overgrazing and erosion.* Installation of sprinkler irrigation facilities must be solely for irrigation of permanent pasture or area being established in permanent pasture. The installation must be in accordance with a written plan approved by the responsible technician.

Maximum Federal cost-share. 35 percent of the cost at the farm of plain, gated, or perforated pipe, sprinklers, and fittings, but not in excess of $100 per acre. (Receipts, invoices, or other evidence of cost are required.)

§ 1105.868 *Practice 28: Constructing wells or developing seeps or springs for livestock water as a means of protecting established vegetative cover through proper distribution of livestock, rotation grazing, or better grassland management, or to make practicable the utilization of the land for vegetative cover.* Detailed specifications are contained in Technical Standards on file in the State Office. Receipts or invoices showing payment for labor and/or purchase of materials used will be required by checkers. Pumping equipment must be installed for wells, except artesian wells, and adequate storage facilities must be provided. Cost-sharing will be allowed only for constructing or deepening wells and for water storage facilities. No cost-sharing will be allowed for wells constructed primarily for the use of headquarters.

Maximum Federal cost-share. 50 percent of the cost of construction or development, excluding pumping equipment.

§ 1105.869 *Practice 29: Shaping or land grading to permit effective surface drainage.* No Federal cost-sharing will be allowed for shaping or grading performed through farming operations connected with land preparation for planting or cultivating crops. No Federal cost-sharing will be allowed for shaping or land grading on land which was not devoted to the production of cultivated crops or crops normally seeded for hay or pasture in the area during at least 2 of the last 5 years. Detailed specifications are contained in Technical Standards on file in the State office.

Maximum Federal cost-share. 50 percent of the cost of shaping or grading. (Receipts, invoices, or other evidence of cost are required.)

§ 1105.870 *Practice 30: Leveling or grading land for more efficient use of irrigation water and to prevent erosion.* No Federal cost-sharing will be allowed for floating or restoration of grade. However, the leveling operation may be completed over a period of more than one program year on a component basis where the size and cut of fills are such that a heavy leveling operation will be needed following settlement of the original fills. No Federal cost-sharing will be allowed for leveling land if the primary purpose of the leveling is to bring into agricultural production land which was not devoted to the production of cultivated crops or crops normally seeded for hay or pasture in the area during at least 2 of the last 5 years. Leveling or grading must be carried out in accordance with a plan approved by the responsible SCS technician. Detailed specifications are contained in Technical Standards on file in the State Office. Receipts or invoices showing payment of labor and equipment will be required by checkers.

Maximum Federal cost-share. 50 percent of the cost of earth moving.

§ 1105.871 *Practice 31: Streambank or shore protection, channel clearance, enlargement or realinement, or construction of floodways, levees, or dikes, to prevent erosion or flood damage to farmland.* This practice shall not be approved in cases where there is any likelihood that it will create an erosion or flood hazard to other adjacent land, or where its primary purpose is to bring new land into agricultural production. Detailed specifications are contained in Technical Standards on file in the State Office. No cost will be shared for maintenance or repair of existing structures.

Maximum Federal cost-share. 75 percent of the cost of construction and protective measures. (Receipts, invoices, or other evidence of cost are required.)

§ 1105.872 *Practice 32: Initial establishment of contour operations on nonterraced unirrigated land to protect soil from wind or water erosion.* All cultural operations must be performed as nearly as practicable on the contour. Detailed specifications are contained in Technical Standards on file in the State Office. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of effective contour operations.

Maximum Federal cost-share. (a) $5 per acre established in contour farming during the year.

(b) 50 percent of the cost of removing stone walls or hedgerows. (Evidence of cost is required.)

§ 1105.873 *Practice 33: Initial establishment of cross-slope stripcropping to protect soil from water or wind erosion.* All cultural operations, including row crop planting, must be performed across the prevailing slope. Federal cost-sharing may be authorized for removing stone walls or hedgerows where such removal is necessary to the establishment of an effective cross-slope stripcropping system.

Maximum Federal cost-share. (a) $5 per acre established in cross-slope stripcropping during the year.

(b) 50 percent of the cost of removing stone walls or hedgerows. (Evidence of cost is required.)

§ 1105.874 *Practice 34: Establishment of permanent vegetative strips between tree rows in young (less than 5 years old) coffee orchards as a protection against erosion.* Federal cost-sharing will be limited to the establishment of vegetative strips not less than 3 feet wide across the slope.

Maximum Federal cost-share. (a) 75 percent of the cost of seed at the farm, but not in excess of $7.50 per acre of area planted to grasses and legumes listed in §§ 1105.846 and 1105.847 (practices 6 and 7). (Receipts, invoices, or other evidence of cost are required.)

(b) $7.50 per acre planted to sprigs or cuttings.

(c) 60 percent of the average cost at the farm of the minimum required application of approved commercial fertilizer, including nitrogen, and liming material (as determined by soil test) for establishment of the vegetative strips, but not in excess of $15 per acre of area treated. (Receipts, invoices, or other evidence of cost are required.)

§ 1105.875 *Practice 35: Subsurface tillage of cropland and/or orchardland protected by organic mulch, to avoid plowing under the surface cover of mulch which has been applied for soil protection and moisture conservation.* No cost-sharing will be allowed unless the soil surface is protected by a blanket of settled mulch not less than 1 inch thick.

Maximum Federal cost-share. $5 per acre subtilled, but not in excess of two subtilling operations a year. The total cost-share shall not be in excess of $300 per farm.

§ 1105.876 *Practice 36: Constructing channel lining, chutes, drop spillways, pipe drops, drop inlets, or similar structures for the protection of outlets and water channels that dispose of excess water.* Detailed specifications are contained in Technical Standards on file in the State Office. Receipts or invoices showing purchase of materials will be required by checkers as evidence of material used. Federal cost-sharing will not be allowed for forms or repair of existing structures.

Maximum Federal cost-share. 75 percent of the cost of material used.

Done at Washington, D. C., this 3d day of September 1958.

[SEAL] E. L. PETERSON,
Assistant Secretary.

[Bulletin NSCP-2301]

PART 1106—NAVAL STORES CONSERVATION

SUBPART C—1959

The purpose of the Naval Stores Conservation Program (hereinafter referred to as "this program") is to restrict turpentining to the more productive timber, to conserve the worked trees, to protect and permit undisturbed growth of the uncupped trees and to conserve the soil, water and timber resources.

Through the 1959 program the Federal Government will share with turpentine farmers the cost of carrying out approved conservation practices in accordance with the provisions of this bulletin and such modifications thereof as may hereafter be made. Cost-shares are predicated upon the economic use and conservation of soil and timber resources on turpentine farms, and computed on the faces in the tract or drift where an approved conservation practice is carried out.

This program provides cost-sharing for conservation practices only on turpentine farms having tracts or drifts of faces which were installed during, or after, the 1955 season.

GENERAL PROVISIONS

Sec.
1106.1001 General requirements.
1106.1002 Required performance.
1106.1003 Double-headed nails requirement.
1106.1004 Fire protection.
1106.1005 Bark-bar requirement.
1106.1006 Inspection assistance.

CONSERVATION PRACTICES AND RATES OF FEDERAL COST-SHARES

1106.1010 Practice 1: Working only 9 inch d. b. h. or larger trees.
1106.1011 Practice 2: Working only 10 inch d. b. h. or larger trees.
1106.1012 Practice 3: Working only 11 inch d. b. h. or larger trees.
1106.1013 Practice 4: Working only 12 inch d. b. h. or larger trees.
1106.1014 Practice 5: Restricting turpentining to previously worked trees.
1106.1015 Practice 6: Working only selectively marked trees.

Sec.
1106.1016 Practice 7: Initial use of spiral gutters or Varn aprons and double-headed nails.
1106.1017 Practice 8: Removal of cups and tins from faces on small trees.
1106.1018 Practice 9: Pilot plant tests of new methods and equipment.
1106.1019 Practice 10: Hardware removal.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

1106.1020 Increase in small Federal cost-shares.
1106.1021 Maintenance of practices.
1106.1022 Practices defeating purposes of programs.
1106.1023 Federal cost-shares not subject to claims.
1106.1024 Assignments.
1106.1025 Death, incompetency, or disappearance of producer.
1106.1026 Maximum Federal cost-share limitation.
1106.1027 Evasion.

APPLICATION FOR PAYMENT OF FEDERAL COST-SHARES

1106.1028 Persons eligible to file application for payment of Federal cost-shares.
1106.1029 Time and manner of filing applications and required information.

APPEALS

1106.1030 Appeals.

DEFINITIONS

1106.1031 Definitions.

AUTHORITY AND AVAILABILITY OF FUNDS, APPLICABILITY AND ADMINISTRATION

1106.1032 Authority.
1106.1033 Availability of funds.
1106.1034 Applicability.
1106.1035 Administration.

AUTHORITY: §§ 1106.1001 to 1106.1035 issued under sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7–17, 49 Stat. 1148, as amended, 72 Stat. 192; 16 U. S. C. 590g–590q.

GENERAL PROVISIONS

§ 1106.1001 *General requirements.* No tract or drift can qualify for cost-sharing under more than one conservation practice other than as provided for under practices specified in §§ 1106.1016, 1106.1017, and 1106.1019. In each of the practices the faces are to be worked sufficiently to obtain at least one dipping of gum.

§ 1106.1002 *Required performance—*(a) *Approved conservation practices.* Each participating producer shall, carry out at least one of the approved conservation practices in every tract or drift of faces operated by him during the 1959 turpentine season. This requirement will not apply if the Forest Service determines that the condition of a particular tract or drift does not warrant carrying out approved conservation practices as a practical or economic matter, in which case the Forest Service may approve face installations made without carrying out a conservation practice. In cases where such approval is given for specific tracts or drifts of the turpentine farm, no cost will be shared for any faces in such tracts or drifts.

(b) *Practice components.* Cost-sharing may be approved under the 1959 Program for only the component parts of the practice which are completed during the program year. The producer must complete all the remaining components of the practice in accordance with good forestry practices and all applicable requirements of this program if cost-sharing is offered to him therefor under a subsequent program. Separate rates of cost-sharing have been established for each component part of each practice.

(c) *Dual cupping.* The installation of two cups on trees less than 14 inches d. b. h. in any tract or drift cupped under the provisions of §§ 1106.1010, 1106.1011, 1106.1012, 1106.1013, or 1106.1015 may be approved by the Forest Service as meeting the requirements of these practices where the Forest Service has determined that such action conforms to sound conservation practice.

(d) *First year working.* The cost-share for this component is applicable to tracts or drifts having only eligible virgin working faces, i. e., faces installed for the first working during the 1959 season. If faces have been installed contrary to the requirements for eligible faces, the cups and tins for such faces shall be removed within 30 days after being discovered unless a longer period of time for their removal is approved by the Forest Service, or the tract or drift will be considered only for qualification for cost-shares under the next lower practice for which qualified.

(e) *Practices under §§ 1106.1010, 1106.1011, 1106.1012, 1106.1013, 1106.1014, 1106.1015, 1106.1016, or 1106.1018 which require more than one year for completion.* (1) Cost-shares may be approved under this program for the completion of a component of a practice: *Provided,* The producer agrees in writing to complete all remaining components of the practice in accordance with all applicable specifications and program provisions within the time prescribed by the Forest Service as affording reasonable opportunity to comply if cost-sharing is offered to him therefor under a subsequent program.

(2) Any advance cost-share so paid shall be refunded if the remaining components of the practice are not completed within the time prescribed by the Forest Service: *Provided,* The producer is offered cost-sharing under a subsequent program for the completion of such components. The extension of the period for completion of the components shall not constitute a commitment to approve cost-shares therefor under a subsequent program. Approval of cost-sharing for other practices under a subsequent program may also be denied until the remaining components are completed.

(3) Cost-shares for working of faces for second, third, fourth, or fifth years are applicable under the 1959 Program to faces which were installed and met the eligible face requirements during the 1955, 1956, 1957, or 1958 season. Such cost-shares may also be allowed in tracts or drifts: (a) Which had some undersized trees from which cups have been removed by the time of first elevation, and (b) for any new faces that may have been installed on eligible trees in 1959 in the second or third year's working to complete cupping of the tract or drift or to replace normal mortality. New faces installed in excess of that necessary to complete cupping or replace normal mortality will disqualify the tracts or drifts for cost-sharing under the practice initially established.

§ 1106.1003 *Double-headed nails requirement.* Use of double-headed nails is required in the elevation of all cups and tins installed for the first working in 1957, 1958, or 1959, or where costs have been previously shared for the initial use of double-headed nails on the faces in the tracts or drifts. Use of double-headed nails is optional with respect to elevation of tins on faces initially installed in the 1955 or 1956 season, and also with respect to the virgin installation of 1959 faces.

§ 1106.1004 *Fire protection.* Each producer shall during the 1959 turpentine season cooperate with any existing cooperative fire control system serving the general area where his turpentine farm is located, unless he is otherwise following approved forest fire protection on his turpentine farm.

§ 1106.1005 *Bark-bar requirement.* No back face shall be worked on any tree unless a live bark-bar on each side of the back face is provided and maintained throughout the 1959 turpentine season, the total of the two bark-bars being not less than 7 inches in width, measured horizontally along the bark surface at the narrowest point: *Provided, however,* That the restriction with respect to the width of the bark-bar shall not apply to any tree which has on it two or more old faces, including any back face installed prior to 1959. Faces having bark-bars totaling less than 7 inches shall not be worked in a manner that will result in leaving bark-bars less than those of former workings measured at the narrowest point.

§ 1106.1006 *Inspection assistance.* Each producer shall assist representatives of the Forest Service in the administration of this program by:

(a) Giving them free access to his turpentine farm or farms;

(b) Counting all faces and keeping written records thereof separately by tracts and drifts;

(c) Furnishing count records and satisfactory evidence of control of faces to the local inspector (Area Forester) when requested;

(d) Furnishing information on burned areas, cutting operations, and interest in other turpentine farms as requested;

(e) Furnishing competent labor to assist the local inspector (Area Forester) in counting faces;

(f) Submitting an application for payment of Federal cost-shares (Form NSCP–1) and other prescribed forms;

(g) Notifying the Forest Service promptly of any change in ownership or control; and

(h) Otherwise facilitating the work of the inspector (Area Forester) in checking compliance with the terms and conditions of this program.

CONSERVATION PRACTICES AND RATES OF FEDERAL COST-SHARES

§ 1106.1010 *Practice 1: Working only 9 inch d. b. h. or larger trees—*(a) *Description of practice.* This practice consists of installing and working faces and raising the cups and tins on 9 inch d. b. h. or larger trees over a period of two to five years.

(b) *Eligible faces.* Trees on which faces are installed shall be selected in a manner that will result in having no faces (except back faces on trees having a worked-out face) on trees which are less than 9 inches d. b. h. and only one face on trees less than 14 inches d. b. h., except as provided in § 1106.1002 (c).

(c) *Components of practice and rates of cost-sharing—*(1) *Initial installation and first year working of 9 inch d. b. h. or larger trees; 2 cents per face.*

(2) *Working of faces for second, third, fourth, or fifth year; ½ cent per face.* If a relatively minor number of faces have been installed contrary to the requirement for eligible faces or in excess of that necessary to complete cupping of the stand or replacement of normal mortality, the cups and tins on such faces shall be removed within 30 days after notice to the producer, or within such longer period of time as is approved by the Forest Service in any case where the producer for some reason beyond his control is unable to remove such cups and tins within 30 days.

(3) *Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree; ½ cent per face.* This component is not applicable where practice 1106.1016 is used.

§ 1106.1011 *Practice 2: Working only 10 inch d. b. h. or larger trees—*(a) *Description of practice.* This practice consists of installing and working faces and raising the cups and tins on 10 inch d. b. h. or larger trees over a period of two to five years.

(b) *Eligible faces.* Trees on which faces are installed shall be selected in a manner that will result in having no faces (except back faces on trees having a worked-out face) on trees which are less than 10 inches d. b. h. and only one face on trees less than 14 inches d. b. h., except as provided in § 1106.1002 (c).

(c) *Components of practice and rates of cost-sharing—*(1) *Initial installation and first year working of 10 inch d. b. h. or larger trees; 4 cents per face.*

(2) *Working of faces for second, third, fourth, or fifth year; 3 cents per face.* If new faces have been installed on trees in excess of that necessary to complete cupping of the stand or normal mortality replacement or on trees under 10 inches d. b. h. the entire tracts or drifts will be considered only for qualification under the provisions of § 1106.1010 (c) (2) and there may be withheld or required to be refunded 1½ cents per face for each face in the tracts or drifts in which such improper installation occurs and for which costs were shared in 1955, 1956, 1957, or 1958.

(3) *Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree; ½ cent per face.* This component is not applicable where practice 1106.1016 is used.

§ 1106.1012 *Practice 3: Working only 11 inch d. b. h. or larger trees—*(a) *Description of practice.* This practice consists of installing and working faces and raising the cups and tins on 11 inch d. b. h. or larger trees over a period of two to five years.

(b) *Eligible faces.* Trees on which faces are installed shall be selected in a manner that will result in having no faces (except back faces on trees having a worked-out face) on trees which are less than 11 inches d. b. h. and only one face on trees less than 14 inches d. b. h., except as provided in § 1106.1002 (c).

(c) *Components of practice and rates of cost-sharing—*(1) *Initial installation and first year working of 11 inch d. b. h. or larger trees; 6 cents per face.*

(2) *Working of faces for second, third, fourth, or fifth year; 3 cents per face.* If new faces have been installed on trees in excess of that necessary to complete cupping of the stand or normal mortality replacement or on trees under 11 inches d. b. h. the entire tracts or drifts will be considered only for qualification under the provisions of § 1106.1010 (c) (2) or § 1106.1011 (c) (2) and there may be withheld or required to be refunded 2½ cents per face for faces qualified for § 1106.1010, or 1 cent per face for faces qualified for § 1106.1011 for each face in the tracts or drifts in which such improper installation occurs and for which costs were shared in 1955, 1956, 1957, or 1958.

(3) *Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree; ½ cent per face.* This component is not applicable where § 1106.1016 is used.

§ 1106.1013 *Practice 4: Working only 12 inch d. b. h. or larger trees—*(a) *Description of practice.* This practice consists of installing and working faces and raising the cups and tins on 12 d. b. h. or larger trees over a period of two to five years.

(b) *Eligible faces.* Trees on which faces are installed shall be selected in a manner that will result in having no faces (except back faces on trees having a worked-out face) on trees which are less than 12 inches d. b. h. and only one face on trees less than 14 inches d. b. h., except as provided in § 1106.1002 (c).

(c) *Components of practice and rates of cost-sharing—*(1) *Initial installation and first year working of 12 inch d. b. h. or larger trees; 7 cents per face.*

(2) *Working of faces for second, third, fourth, or fifth year; 3 cents per face.* If new faces have been installed on trees in excess of that necessary to complete cupping of the stand or normal mortality replacement or on trees under 12 inches d. b. h. the entire tracts or drifts will be considered only for qualification under the provisions of § 1106.1010 (c) (2), § 1106.1011 (c) (2), or § 1106.1012 (c) (2), and there may be withheld or required to be refunded 5 cents per face for faces qualified for § 1106.1010, 3½ cents per face for faces qualified for § 1106.1011, or 2½ cents per face for faces qualified for § 1106.1912 for each face in the tracts or drifts in which such improper installation occurs and for which costs were shared in 1955, 1956, 1957, or 1958.

(3) *Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree; ½ cent per face.* This component is not applicable where § 1106.1016 is used.

§ 1106.1014 *Practice 5: Restricting turpentining to previously worked trees—*(a) *Description of practice.* This practice consists of installing and working faces and raising the cups and tins over a period of two to five years only on trees having a previously worked face.

(b) *Eligible faces.* Trees on which faces are installed shall be selected in a manner that will result in having no faces on round trees.

(c) *Components of practice and rates of cost-sharing—*(1) *Initial installation and first year working of faces on previously worked trees; 7 cents per face.*

(2) *Working of faces for second, third, fourth, or fifth year; 3 cents per face.* New faces installed on round trees in these tracts or drifts which earned a payment for the restricted cupping practice will disqualify the tracts or drifts for cost-sharing under this practice. If, however, new faces have been installed on any round trees the entire tracts or drifts will be considered only for qualification under the provisions of §§ 1106.1010 (c) (2), 1106.1011 (c) (2), 1106.1012 (c) (2), or § 1106.1013 (c) (2) and there may be withheld or required to be refunded the difference between the cost-shares previously paid and the amount that the subsequently determined practice would have earned in 1955, 1956, 1957, or 1958.

(3) *Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree; ½ cent per face.* This component is not applicable where § 1106.1016 is used.

§ 1106.1015 *Practice 6: Working only selectively marked trees—*(a) *Description of practice.* This practice consists of installing and working faces and raising the cups and tins on selectively marked trees over a period of two to five years.

(b) *Eligible faces.* Only trees 9 inches or more d. b. h. which should be removed to improve the timber stand may be cupped. Cupping shall be limited to trees selectively marked in advance in accordance with good, approved timber management practices to insure production of larger diameter class timber or to provide other stand improvement measures as approved by the Forest Service: *Provided,* That the number of remaining uncupped trees per acre shall average at least the minimum number per acre specified by the Forest Service in its Minimum Stocking Guide issued June 4, 1956, as amended, and be well distributed over the area.

(c) *Components of practice and rates of cost-sharing—*(1) *Initial installation and first year working of selectively marked trees; 8 cents per face.* If faces

have been installed contrary to the requirements for eligible faces, the area will be considered only for qualification for cost-shares under one of the diameter cupping practices specified in §§ 1106.1010, 1106.1011, 1106.1012, or § 1106.1013.

(2) *Working of faces for second, third, fourth, or fifth year; 4 cents per face.* New faces may be installed only in the second year of working, subject to all conditions of eligibility of paragraph (b) of this section. New faces installed on round trees in these tracts or drifts after the second year of working will disqualify the tracts or drifts for cost-sharing under this practice. If, however, new faces have been installed on round trees after the second year of working, the entire tracts or drifts will be considered only for qualification under the provisions of § 1106.1010 (c) (2). There may be withheld or required to be refunded 4 cents per face for each face in the tracts or drifts in which such improper installation occurs and for which costs were shared in 1955, 1956, 1957, or 1958.

(3) *Initial use of double-headed nails in the initial installation or in the raising of cups and tins to conserve the worked portion of the tree; ½ cent per face.* This component is not applicable where § 1106.1016 is used.

§ 1106.1016 *Practice 7: Initial use of spiral gutters or Varn aprons and double-headed nails*—(a) *Purpose.* To minimize damage to the tree in installing faces for the virgin year or in the first elevation and to conserve the worked portion of the tree.

(b) *Description of practice.* This practice consists of using spiral gutters or Varn aprons attached with double-headed nails when cups and tins are initially installed on the face or when cups and tins are elevated for the first time.

(c) *Eligible faces.* Faces on trees installed to meet the requirements of §§ 1106.1010, 1106.1011, 1106.1012, 1106.1013, 1106.1014, 1106.1015, and 1106.1018 may qualify for this practice, the cost-share for which is in addition to the aforesaid sections.

(d) *Components of practice and rates of cost-sharing*—(1) *Initial use of spiral gutters or Varn aprons in the virgin installation or in the first elevation of cups and tins; 2 cents per face.* (i) The cost-share rate established for initiating this practice is limited to tracts or drifts having only virgin working faces, i. e., faces installed for the first working during the 1959 season or faces upon which the cups and tins are elevated for the first time during the 1959 season. On accepting cost-sharing for this practice the producer agrees to use the spiral gutter or Varn apron and double-headed nails to attach the tins in all subsequent raisings and attachment of tins to the face.

(ii) Cups and tins shall be installed in a manner that will minimize the loss of gum and restrict amount of damage to the tree. Spiral gutters or Varn aprons shall be used and the tins shall be attached to the tree with double-headed nails. In smoothing the tree and seating the cup for the virgin installation exposure of wood shall be limited to areas on the tree having burls, ridges, or other deformities.

§ 1106.1017 *Practice 8: Removal of cups and tins from faces on small trees*—(a) *Purpose.* To encourage producers who have not participated in the 1957 or 1958 Programs to discontinue working small unproductive trees, to promote improved naval stores and forestry practices, and to improve productivity of the woodland.

(b) *Description of practice.* This practice consists of removing the cups and tins and discontinuing the working of small unproductive timber and meeting all other requirements for participation in this program.

(c) *Eligible faces.* All faces installed for the first working in 1959 on trees under 9 inches d. b. h. and all but one face on trees between 9 and 14 inches d. b. h. having two or more faces. Working of faces shall be discontinued and cups and tins removed by tracts or drifts within 30 days after being discovered unless a longer period of time for their removal is approved by the Forest Service to meet the eligible face requirements of § 1106.1010. Only producers who did not participate in the 1957 or 1958 programs are eligible for cost-sharing under this practice.

(d) *Components of practice and rates of cost-sharing*—(1) *Removal of cups and tins on trees under 9 inches d. b. h. and on trees between 9 and 14 inches d. b. h. having more than one face; 8 cents per face.* The cost-share for this component is applicable to faces discontinued by removal of cups and tins to permit the tract or drift to meet the eligible face requirements of § 1106.1010.

§ 1106.1018 *Practice 9: Pilot plant tests of new methods and equipment*—(a) *Purpose.* To conduct controlled demonstrations or experiments to test values of new methods and equipment for gum production.

(b) *Description of practice.* This practice consists of carrying out practical demonstrations or tests of new methods or equipment according to requirements of the Forest Service.

(c) *Eligible faces.* Only faces on trees in selected tracts used in controlled demonstrations or tests carried out in accordance with provisions prescribed by the Forest Service are eligible for cost-sharing.

(d) *Components of practice and rates of cost-sharing.* (1) Eight cents per face for faces meeting the requirements of § 1106.1010.

(2) Eleven cents per face for faces meeting the requirements of §§ 1106.1011, 1106.1012, 1106.1013, 1106.1014, and 1106.1015.

§ 1106.1019 *Practice 10: Hardware removal*—(a) *Purpose.* To encourage producers to remove all hardware to conserve the worked section of the tree for use in other products.

(b) *Description of practice.* This practice consists of removing all cups, nails, and tins by the producer who last worked the face.

(c) *Eligible faces.* All faces worked out in 1958 or 1959 and from which hardware is removed by December 31, 1960.

(d) *Component of practice and rate of cost-sharing; 2 cents per eligible face.* Use of this practice is optional. To qualify for cost-shares under this component in tracts or drifts having in excess of 5 percent of back-faced timber, all hardware must also be removed from the old faces or all trees with such old faces must be cut out of the tracts or drifts. No cost-share will be approved for the removal of hardware in any tract or drift unless all hardware is removed from all remaining trees with eligible faces.

GENERAL PROVISIONS RELATING TO FEDERAL COST-SHARING

§ 1106.1020 *Increase in small Federal cost-shares.* The total of the payment computed for any producer with respect to his turpentine farm under the Naval Stores Conservation Program and the cost-share computed for him on the same farm under the Agricultural Conservation Program shall be increased as follows: (a) Any Federal cost-sharing amounting to 71 cents or less shall be increased to $1.00; (b) any Federal cost-sharing amounting to more than 71 cents but less than $1.00 shall be increased by 40 percent; (c) any Federal cost-sharing amounting to $1.00 or more shall be increased in accordance with the following schedule:

Amount of cost-shares computed:	Increase in cost-shares
$1.00 to $1.99	$0.40
$2.00 to $2.99	0.80
$3.00 to $3.99	1.20
$4.00 to $4.99	1.60
$5.00 to $5.99	2.00
$6.00 to $6.99	2.40
$7.00 to $7.99	2.80
$8.00 to $8.99	3.20
$9.00 to $9.99	3.60
$10.00 to $10.99	4.00
$11.00 to $11.99	4.40
$12.00 to $12.99	4.80
$13.00 to $13.99	5.20
$14.00 to $14.99	5.60
$15.00 to $15.99	6.00
$16.00 to $16.99	6.40
$17.00 to $17.99	6.80
$18.00 to $18.99	7.20
$19.00 to $19.99	7.60
$20.00 to $20.99	8.00
$21.00 to $21.99	8.20
$22.00 to $22.99	8.40
$23.00 to $23.99	8.60
$24.00 to $24.99	8.80
$25.00 to $25.99	9.00
$26.00 to $26.99	9.20
$27.00 to $27.99	9.40
$28.00 to $28.99	9.60
$29.00 to $29.99	9.80
$30.00 to $30.99	10.00
$31.00 to $31.99	10.20
$32.00 to $32.99	10.40
$33.00 to $33.99	10.60
$34.00 to $34.99	10.80
$35.00 to $35.99	11.00
$36.00 to $36.99	11.20
$37.00 to $37.99	11.40
$38.00 to $38.99	11.60
$39.00 to $39.99	11.80
$40.00 to $40.99	12.00
$41.00 to $41.99	12.10
$42.00 to $42.99	12.20
$43.00 to $43.99	12.30
$44.00 to $44.99	12.40
$45.00 to $45.99	12.50
$46.00 to $46.99	12.60
$47.00 to $47.99	12.70
$48.00 to $48.99	$12.80
$49.00 to $49.99	12.90
$50.00 to $50.99	13.00
$51.00 to $51.99	13.10
$52.00 to $52.99	13.20
$53.00 to $53.99	13.30
$54.00 to $54.99	13.40
$55.00 to $55.99	13.50
$56.00 to $56.99	13.60
$57.00 to $57.99	13.70
$58.00 to $58.99	13.80
$59.00 to $59.99	13.90
$60.00 to $185.99	14.00
$186.00 to $199.99	(1)
$200.00 and over	(2)

[1] Increase to $200.
[2] No increase.

§ 1106.1021 *Maintenance of practices.* The sharing of costs by the Federal Government for performance of approved practices included in this program will be subject to the condition that the producer with whom the costs are shared will maintain such practices in accordance with good forestry practices as long as the timber remains under his control. There may be withheld or required to be refunded all cost-shares on tracts or drifts in which failure to maintain any or all practices occurs, except as modified by §§ 1106.1010, 1106.1011, 1106.1012, 1106.1013, 1106.1014, 1106.1015, or 1106.1022. The producer shall not be expected to maintain and complete the practice when prevented by destruction of the timber by fire, weather, insects, diseases, or other conditions beyond his control.

§ 1106.1022 *Practices defeating purposes of programs.* If the Forest Service finds that any producer has adopted or participated in any practice which tends to defeat the purposes of this program or previous programs, it may withhold or require to be refunded all or any part of any cost-share which has been or otherwise would be made to such producer under this program. Practices which tend to defeat the purposes of this and previous programs shall include, but are not restricted to the following:

(a) The cutting contrary to good forestry practices of turpentine trees in drifts or tracts (including current non-working areas) on which costs have been or would be shared under this or the 1955, 1956, 1957, or 1958 program. There may be withheld or required to be refunded the amount previously paid for each face for which costs were shared in 1955, 1956, 1957, 1958, or 1959 in the tracts or drifts in which such cutting occurs. Conformity to the following rules shall be considered good cutting practice:

(1) When turpentine trees are cut for thinnings at least the minimum number of trees per acre specified in the Minimum Stocking Guide issued by the Forest Service June 4, 1956, as amended, shall be left uncut and undamaged and well distributed over the cutting area.

(2) When turpentine trees are cut in a harvest cutting, at least 400 turpentine trees per acre shall be left uncut and undamaged and well distributed over the cutting area, or a minimum of the following number or combination of numbers of thrifty turpentine seed trees per acre: 9 inches or over d. b. h.—6 trees, 8 inches d. b. h.—9 trees, or 7 inches d. b. h.—12 trees, shall be left uncut and undamaged, or if clearcut, artificial planting of at least 500 trees per acre will be accomplished prior to April 1, 1962.

(b) Raising cups and tins without double-headed nails on faces where double-headed nails are required. There may be withheld or required to be refunded all or any part of cost-shares earned under this or previous programs on the tracts or drifts in which such improper raising occurs.

(c) Picking up additional faces in the fourth or fifth year will disqualify the tract or drift for any further cost-sharing, unless the hardware is removed to limit the working to one age class of faces. Such removal must be accomplished within 30 days of notification by the Forest Service.

(d) Failure to meet bark-bar requirement. There may be withheld or required to be refunded all or any part of cost-shares earned under this program on the tracts or drifts in which such improper chipping occurs.

(e) The burning by the producer on any drift or tract of his turpentine farm which will destroy natural reforestation on land which is not fully stocked with turpentine trees or which will result in damage to established turpentine tree reproduction. There may be withheld or required to be refunded all or any part of cost-shares earned under this program on the drifts or tracts in which such improper burning occurs.

(f) The installation of new faces on round trees less than 9 inches d. b. h. or more than one face on round trees less than 14 inches d. b. h. in tracts or drifts having working faces installed during or prior to the 1954 turpentine season. There may be withheld or required to be refunded 2 cents per face for each working face installed during or prior to 1954 in the tracts or drifts in which such installation occurs.

§ 1106.1023 *Federal cost-shares not subject to claims.* Any Federal cost-share, or portion thereof, due any person shall be determined and allowed without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 1106.1024 and except for indebtedness to the United States subject to set-off under orders issued by the Secretary (Part 13, Subtitle A, of this title)) and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 1106.1024 *Assignments.* Any producer who may be entitled to any Federal cost-share under the 1959 Program may assign his right thereto, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1959, including the carrying out of soil and water conserving practices. No assignment will be recognized unless it is made in writing on Form ACP–69 and in accordance with the regulations issued by the Secretary (Part 1110 of this chapter) witnessed, however, by an inspector or the Program Supervisor of the Forest Service and filed with the Forest Service, Valdosta, Georgia.

§ 1106.1025 *Death, incompetency, or disappearance of producer.* In case of death, incompetency, or disappearance of any producer, his share of cost-shares shall be paid to his successor, determined in accordance with the provisions of the regulations in ACP–122, as amended (Part 1108 of this chapter).

§ 1106.1026 *Maximum Federal cost-shares limitation.* The total of all cost-shares under the 1959 Naval Stores Conservation and the 1959 Agricultural Conservation Programs to any person with respect to farms, ranching units, and turpentine places in the United States (including Alaska, Hawaii, Puerto Rico, and the Virgin Islands) for approved practices which are not carried out under pooling agreements shall not exceed the sum of $2,500, and for all approved practices, including those carried out under pooling agreements, shall not exceed the sum of $10 000.

§ 1106.1027 *Evasion.* All or any part of any Federal cost-share which has been or otherwise would be made to any producer participating in this program may be withheld or required to be refunded if he has adopted or participated in adopting any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means which was designed to evade, or which has the effect of evading, the provisions of § 1106.1026.

APPLICATIONS FOR PAYMENT OF FEDERAL COST-SHARES

§ 1106.1028 *Persons eligible to file application for payment of Federal cost-shares.* An application for payment of Federal cost-shares may be filed by any producer who contributed to the performance of any approved Naval Stores Conservation practice and is working faces for the production of gum naval stores, during the 1959 turpentine season, which were installed during or after the 1955 season. If it is determined that two or more producers contributed to carrying out the practice the Federal cost-shares shall be divided among such producers in the proportion which the Program Supervisor determines they contributed to carrying out the practice. In making this determination, the Program Supervisor shall take into consideration the value of the labor, equipment, or material contributed by each person toward the carrying out of each practice on a particular acreage, and shall assume that each contributed equally unless it is established to the satisfaction of the Program Supervisor that their respective contributions thereto were not in equal proportion. The furnishing of land, trees, or the right to use water will not be considered as a contribution to the carrying out of any practice.

§ 1106.1029 *Time and manner of filing applications and required information.* Payment of Federal cost-shares will be made only when a report of performance

is submitted to the Forest Service on or before January 31, 1960, on the prescribed form (NSCP–1) Application for Payment. Payment of Federal cost-shares may be withheld from any producer who fails to file any form or furnish any information required with respect to any turpentine farm which is being operated by him.

APPEALS

§ 1106.1030 *Appeals.* Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the Regional Forester in writing to review the recommendation or determination of the Program Supervisor in any matter affecting the right to or the amount of his Federal cost-shares with respect to the producer's turpentine farm. The Regional Forester shall notify the producer of his decision in writing within 60 days after the submission of the appeal. If the producer is dissatisfied with the decision of the Regional Forester he may, within 15 days after the decision is forwarded to or made available to him, request the Chief of the Forest Service to review the case and render his decision, which shall be final.

DEFINITIONS

§ 1106.1031 *Definitions*—(a) *Gum naval stores.* Crude gum (oleoresin), gum turpentine and gum rosin produced from living trees.

(b) *Producer or turpentine farmer.* Any person, firm, partnership, corporation, or other business enterprise, doing business as a single legal entity, producing gum naval stores from turpentine trees controlled through fee ownership, cash lease, percentage lease, share lease, or other form of control.

(c) *Turpentine tree.* Any tree of either of the two species, longleaf pine (Pinus palustris) or slash pine (Pinus elliottii Engelm).

(d) *Turpentine farm.* This includes (1) land growing turpentine trees, owned or leased by a producer in one general locality, which are currently being worked for gum naval stores, herein referred to as a working area; and (2) all commercially valuable or potentially valuable forest land, owned by a producer on which turpentine trees are growing and which are not being currently worked for gum naval stores, herein referred to as a nonworking area.

(e) *Tract.* A portion of a working area having a continuous stand of trees supporting faces of one age class or intermingled age classes.

(f) *Drift.* A portion or subdivision of a tract set apart for convenience of operation or administration.

(g) *Turpentine season.* The entire calendar year, or, if a farm is operated less than the full calendar year, that period within the calendar year during which a producer is operating his turpentine farm for the production of gum naval stores.

(h) *Face.* The whole wound or aggregate of streaks made by chipping, streaking or pulling the live tree to stimulate the flow of crude gum (oleoresin), herein referred to as gum.

(i) *Cup.* A container made of metal, clay, or other material hung on or below the face to accumulate the flow of gum.

(j) *Tins.* The gutters or aprons, made of sheet metal or other material, used to conduct the gum from a face into a cup.

(k) *D. b. h.* Diameter breast height; i. e., diameter of tree measured 4½ feet from the ground.

(l) *Round tree.* Any tree which has not been faced or scarred.

(m) *Scarred tree.* A tree having an idle face not over 36 inches in vertical measurement from the shoulder of the first streak to the shoulder of the last streak.

(n) *Worked-out face.* An idle face which is 60 inches or more in vertical measurement between the shoulder of the first streak and the shoulder of the last streak, or a dry face.

(o) *Back-face.* A face placed on a tree having a previously worked face.

(p) *Spiral gutter.* A curved gutter that follows a spiral path around the tree.

(q) *Varn apron.* A curved two-piece adjustable apron with tacking flange.

(r) *Double-headed nail.* Double-headed nails specially designed for naval stores use are produced commercially by several manufacturers. The use of a double-headed nail meeting the following minimum specifications is required where this practice is used: The overall length shall be 1⅜ inches; distance between heads a minimum of ¼ inch; its wire gauge no smaller than 13; the driving head shall be of the flat "Common Nail" type with diameter between 5/32 and ¼ inch and diameter of clinching head ¼ inch. Experience has shown that the use of double-headed nails meeting these specifications is satisfactory and meets the requirements for any type of installation and easy removal from the trees.

(s) *Normal mortality.* Two percent (2%) of all faces in the tract or drift.

(t) *Virgin streak.* The first chipping of the tree following initial installation of the face.

(u) *Hardware.* All gutters, aprons, or metal strips of any kind whatsoever together with nails used to support same and nails used to support cups for the collection of raw gum resin.

AUTHORITY AND AVAILABILITY OF FUNDS, APPLICABILITY AND ADMINISTRATION

§ 1106.1032 *Authority.* This program is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1959.

§ 1106.1033 *Availability of funds.* (a) The provisions of this program are necessarily subject to such legislation affecting said program as the Congress of the United States may hereafter enact; the paying of the Federal cost-shares herein provided for is contingent upon such appropriation as the Congress may hereafter provide for such purpose; and the amounts of such Federal cost-shares will necessarily be within the limits finally determined by such appropriation and by the extent of participation in this program.

(b) The funds provided for this program will not be available for the payment of applications filed after December 31, 1960.

(c) If the total estimated earnings under the Naval Stores Conservation Program exceed the total funds available for cost-sharing, such cost-shares will be reduced equitably.

§ 1106.1034 *Applicability.* (a) The provisions of this program are not applicable to any turpentining operations within the public domain of the United States, including the lands and timber owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership (such lands include, but are not limited to lands owned by the United States which are administered by the Forest Service or the Soil Conservation Service of the Department of Agriculture, or by the Bureau of Land Management or the Fish and Wildlife Service of the Department of the Interior).

(b) This program is applicable to (1) turpentine farms on privately owned lands, (2) lands owned by a State or political subdivision or agency thereof, or (3) lands owned by corporations which are either partly or wholly owned by the United States provided such lands are temporarily under such government or corporation ownership and are not acquired or reserved for conservation purposes. Only turpentine farms on lands that are administered by the Farmers Home Administration, the Federal Farm Mortgage Corporation, a Production Credit Association, or the U. S. Department of Defense, shall be considered eligible unless the Forest Service finds that land administrated by any other agency complied with all of the foregoing provisions for eligibility.

§ 1106.1035 *Administration.* The Forest Service shall have charge of the administration of this program and is hereby authorized to prepare and to issue such bulletins, instructions and forms, and to make such determinations, as may be required to administer this program, pursuant to the provisions of this bulletin, and the field work shall be administered by the Forest Service through the office of the Regional Forester, United States Forest Service, 50 Seventh Street NE., Atlanta 23, Georgia. Information concerning this program may be secured from the Forest Service, Valdosta, Georgia, or from any local Area Forester of the Forest Service.

Done at Washington, D. C., this 3d day of September 1958.

[SEAL] E. L. PETERSON,
Assistant Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdts. 40–12, 41–18, 42–15]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATION OUTSIDE CONTINENTAL LIMITS OF UNITED STATES

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

SUPPLEMENTAL OXYGEN REQUIREMENTS FOR SUSTENANCE AND FIRST-AID

In F. R. Docs. 58–7069, 58–7070, and 58–7071, appearing in the issue for Saturday, August 30, 1958, the following change should be made:

The word "psychological" should read "physiological"—appearing on page 6746 in § 40.203–T (e) (3); appearing on page 6747 in § 41.24a–T (e) (3); appearing on page 6749 in § 42.27–T (e) (3).

By the Civil Aeronautics Board.

[SEAL] MABEL MCCART,
Acting Secretary.

[F. R. Doc. 58–7235; Filed, Sept. 5, 1958; 8:53 a. m.]

[Civil Air Regs. Amdt. 41–18]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE CONTINENTAL LIMITS OF UNITED STATES

SUPPLEMENTAL OXYGEN REQUIREMENTS FOR SUSTENANCE AND FIRST-AID

Correction

In Federal Register Document 58–7070, published at page 6746 in the issue for Saturday, August 30, 1958, the date in the second line of paragraph (b) of § 41.24b, now reading "July 31, 1958", should read "July 31, 1959".

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 36]

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of Section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows: (Listed items to be placed in appropriate sequence in the sections indicated).

Section 610.12 *Green civil airway 2* is amended to read in part:

From Red Wing INT, Minn.; to LaCrosse, Wis., LFR; MEA 2,800.

Section 610.13 *Green civil airway 3* is amended to read in part:

From Des Moines, Iowa, LFR; to Moline, Ill., LFR; MEA 2,200.
From Moline, Ill., LFR; to Walnut INT, Ill.; MEA 2,300.
From Walnut INT, Ill.; to Joliet, Ill., LFR; MEA 2,100.
From Joliet, Ill., LFR; to Lansing INT, Ind.; MEA 2,300.
From Lansing INT, Ind.; to McCool INT, Ind.; MEA 2,000.

Section 610.212 *Red civil airway 12* is amended to delete:

From Joliet, Ill., LFR; to Int. NE crs Joliet, Ill., LFR & W crs South Bend, LFR; MEA 2,000.
From Int. NE crs Joliet, Ill., LFR & W crs South Bend, LFR; to South Bend, Ind., LFR; MEA 2,100.

Section 610.212 *Red civil airway 12* is amended by adding:

From Downers Grove INT, Ill.; to Chicago, Ill., LFR; MEA 2,300.
From Chicago, Ill., LFR; to South Bend, Ind., LFR; MEA 2,200.

Section 610.214 *Red civil airway 14* is amended to delete:

From Lone Rock INT, Wis.; to Avon INT, Wis.; MEA 2,700.
From Avon INT, Wis.; to Rockford, Ill., LFR; MEA 2,300.
From Rockford, Ill., LFR; to Aurora INT, Ill.; MEA 2,100.
From Aurora INT, Ill.; to Chicago, Ill., LFR; MEA 2,300.

Section 610.214 *Red civil airway 14* is amended by adding:

From Sullivan INT, Wis.; to Burlington INT, Wis.; MEA 2,400.
From Burlington INT, Wis.; to Chicago, Ill., LFR; MEA 2,500.

Section 610.228 *Red civil airway 28* is amended to delete:

From Rockford, Ill., LFR; to Wauconda INT, Ill.; MEA 2,500.
From Wauconda INT., Ill.; to Chicago, Ill., LFR; MEA 2,500.

Section 610.242 *Red civil airway 42* is deleted.

Section 610.249 *Red civil airway 49* is amended to delete:

From Ft. Bridger, Wyo., LFR; to Kemmerer INT, Wyo.; MEA 10,000.

Section 610.254 *Red civil airway 54* is deleted.

Section 610.298 *Red civil airway 98* is deleted.

Section 610.308 *Red civil airway 108* is amended to delete:

From Promontory Pt., Utah, LF/RBN; to Corinne, Utah, LF/RBN; MEA 11,000.

Section 610.605 *Blue civil airway 5* is amended to delete:

From Houston, Tex., LFR; to Bryan, Tex., LFR; MEA 1,800.
From Bryan, Tex., LFR; to Waco, Tex., LFR; MEA 2,000.

Section 610.606 *Blue civil airway 6* is amended to delete:

From Abilene, Tex., LFR; to Wichita Falls, Tex., LFR; MEA 3,000.
From Wichita Falls, Tex., LFR; to Washington INT, Okla.; MEA 2,700.

Section 610.609 *Blue civil airway 9* is amended to delete:

From Springfield, Mo., LFR; to Columbia, Mo., LFR; MEA 2,300.

Section 610.613 *Blue civil airway 13* is amended to read in part:

From Texarkana, Ark., LFR; to Ft. Smith, Ark., LF/RBN; MEA 3,600.

Section 610.614 *Blue civil airway 14* is amended to read in part:

From *Riverside, Calif., LFR; to Fontana INT, Calif.; northbound, MEA 12,000; southbound, MEA 5,000. *10,000—MCA Riverside LFR, northbound.

Section 610.621 *Blue civil airway 21* is amended to read in part:

From Ellicott City INT, Md.; to Harrisburg, Pa., LFR; MEA 2,500.

Section 610.631 *Blue civil airway 31* is amended to delete:

From Avon INT, Ill.; to Madison, Ill., LFR; MEA 2,400.

Section 610.652 *Blue civil airway 52* is added to read:

From Tamiami, Fla., LF/RBN; to New River INT, Fla.; MEA 1,100.
From New River INT, Fla.; to W. Palm Beach, Fla., LFR; MEA 1,200.

Section 610.657 *Blue civil airway 57* is deleted.

Section 610.667 *Blue civil airway 67* is amended to read in part:

From Needles, Calif., LFR; to Las Vegas, Nev., LFR; MEA 8,000.

Section 610.669 *Blue civil airway 69* is deleted.

Section 610.678 *Blue civil airway 78* is deleted.

Section 610.1001 *Direct routes, U. S.* is amended to delete:

From Augusta, Ga., LFR; to Spartanburg, S. C., LFR; MEA 2,000.

Section 610.1001 *Direct routes, U. S.* is amended to read in part:

From Leona, Tex., VOR; to New Waverly, INT, Tex.; MEA *2,800. *1,500—MOCA.
From Beaumont, Tex., LFR; to Galveston, Tex., LF/RBN; MEA 1,400.
From Danville, Va., LF/RBN; to Greensboro, N. C., LFR; MEA 2,300.

Section 610.1001 *Direct routes, U. S.* is amended by adding:

From Quitman, Tex., VOR; to Int. 101 M. Quitman VOR & 058 M. rads. Gregg Co., VOR; MEA *2,200. *1,700—MOCA.
From Houston, Tex., LFR; to Galveston, Tex., LF/RBN; MEA 1,700.
From Galveston, Tex., LF/RBN; to NH3; MEA *1,700. *For that airspace over U. S. territory.
From Egmont Key, Fla., LF/RBN; to Grand Isle, La., LF/RBN; MEA 1,200.

Section 610.6002 *VOR civil airway 2* is amended to read in part:

From *Lake City INT, Minn.; to Nodine, Minn., VOR; MEA 2,800. *3,000—MRA.
From Dodge INT, Wis., via N alter.; to Nodine, Minn., VOR via N alter.; MEA 2,800.

Section 610.6003 *VOR civil airway 3* is amended to read in part:

From Hopkins INT, Fla.; to *Maytown INT, Fla.; MEA **2,000. *1,700—MRA. **1,300—MOCA.

From Maytown INT, Fla.; to Oakhill INT, Fla.; MEA *1,400. *1,200—MOCA.
From Jacksonville, Fla., VOR; to *St. Marys INT, Ga.; MEA 1,200. *3,500—MRA.
From St. Marys INT, Ga.; to Brunswick, Ga., VOR; MEA 1,200.

Section 610.6004 *VOR civil airway 4* is amended to read in part:

From *Nunn INT, Colo., via N alter.; to Gill INT, Colo., via N alter.; MEA **18,000. *12,500—MRA. **7,500—MOCA. (Deletes MRA at Gill INT.)

Section 610.6006 *VOR civil airway 6* is amended to read in part:

From North Platte, Nebr., VOR; to Loup INT, Nebr.; MEA *4,800. *4,100—MOCA.
From Loup INT, Nebr.; to Grand Island, Nebr., VOR; MEA 3,500.
From Youngstown, Ohio, VOR; to Clarion, Pa., VOR; MEA 2,600.
From Clarion, Pa., VOR; to Philipsburg, Pa., VOR; MEA 4,000.

Section 610.6007 *VOR civil airway 7* is amended to read in part:

From Terre Haute, Ind., VOR; to Westpoint, Ind., VOR; MEA 2,000.
From Westpoint, Ind., VOR; to Lafayette, Ind., VOR; MEA 2,000.
From Terre Haute, Ind., VOR via W alter.; to Westpoint, Ind., VOR via W alter.; MEA 2,000.
From Birmingham, Ala., VOR via E alter.; to Hartselle INT, Ala., via E alter.; MEA 2,300.
From Hartselle INT, Ala., via E alter.; to *Tanner INT, Ala., via E alter.; MEA **3,500. *3,500—MRA. **2,000—MOCA.

Section 610.6008 *VOR civil airway 8* is amended to read in part:

From Imperial, Nebr., VOR; to Lexington INT, Nebr.; MEA *7,000. *4,800—MOCA.
From Lexington INT, Nebr.; to Grand Island, Nebr., VOR; MEA *7,000. *3,600—MOCA.
From Mansfield, Ohio, VOR; to Navarre, Ohio, VOR; MEA 2,500.
From Navarre, Ohio, VOR; to Kilgore INT, Ohio; MEA 2,500.
From Kilgore INT, Ohio; to Pittsburgh, Pa., VOR; MEA 3,000.

Section 610.6009 *VOR civil airway 9* is amended to read in part:

From New Orleans, La., VOR; to McComb, Miss., VOR; MEA 1,700.
From New Orleans, La., VOR via W alter.; to Albany INT, La., via W alter.; MEA 1,400.
From Albany INT, La., via W alter.; to McComb, Miss., VOR via W alter.; MEA 1,700.
From New Orleans, La., VOR via E alter.; to Picayune, Miss., VOR via E alter.; MEA *1,400. *1,300—MOCA.

Section 610.6010 *VOR civil airway 10* is amended to read in part:

From Youngstown, Ohio, VOR; to Clarion, Pa., VOR; MEA 2,600.
From Clarion, Pa., VOR; to Philipsburg, Pa., VOR; MEA 4,000.

Section 610.6012 *VOR civil airway 12* is amended to read in part:

From Prescott, Ariz., VOR via S alter.; to Cornville INT, Ariz., via S alter.; MEA *12,500. *10,000—MOCA.
From Cornville INT, Ariz., via S alter.; to Winslow, Ariz., VOR via S alter.; MEA *12,000. *11,000—MOCA.

Section 610.6013 *VOR civil airway 13* is amended to read in part:

From Houston, Tex., VOR; to Humble INT, Tex.; MEA 1,500.
From Humble INT, Tex.; to Lufkin, Tex., VOR; MEA *2,500. *1,500—MOCA.
From Houston, Tex., VOR via W alter.; to Gulf Coast INT, Tex., via W alter.; MEA *2,300. *1,800—MOCA.
From Gulf Coast INT, Tex., via W alter.; to New Waverly, INT, Tex., via W alter.; MEA *3,300. *1,500—MOCA.
From New Waverly INT, Tex., via W alter.; to Lufkin, Tex., VOR via W alter.; MEA *2,800. *1,500—MOCA.

Section 610.6014 *VOR civil airway 14* is amended to read in part:

From *Fallis INT, Okla.; to Kellyville INT, Okla.; MEA 3,000. *3,700—MRA.
From Kellyville INT, Okla.; to Tulsa, Okla., VOR; MEA *3,000. *2,500—MOCA.
From Prague INT, Okla., via S alter.; to *Sapulpa INT, Okla., via S alter.; MEA **4,000. *3,000—MRA. **2,000—MOCA.

Section 610.6014 *VOR civil airway 14* is amended by adding:

From Hobart, Okla., VOR via S alter.; to Chickasha INT, Okla., via S alter.; MEA **4,300. *4,300—MRA. **3,100—MOCA.
From Chickasha INT, Okla., via S alter.; to Oklahoma City, Okla., VOR via S alter.; MEA *2,800. *2,500—MOCA.

Section 610.6015 *VOR civil airway 15* is amended to read in part:

From Houston, Tex., VOR; to Cypress INT, Tex.; MEA 1,800.
From Cypress INT, Tex.; to College Station, Tex., VOR; MEA 2,000.

Section 610.6016 *VOR civil airway 16* is amended to read in part:

From *Ontario, Calif., VOR; to Moreno INT, Calif.; westbound, MEA 5,500; eastbound, MEA 13,000. *8,000—MCA Ontario VOR, eastbound.

Section 610.6018 *VOR civil airway 18* is amended to read in part:

From Monroe, La., VOR; to *Rayville INT, La.; MEA **2,000. *3,000—MRA. **1,700—MOCA.
From Rayville INT, La.; to *Oak Ridge INT, Miss.; MEA **2,000. *4,000—MRA. **1,700—MOCA.
From Oak Ridge INT, Miss.; to Jackson, Miss., VOR; MEA *2,000. *1,700—MOCA.

Section 610.6020 *VOR civil airway 20* is amended to read in part:

From Lafayette, La., VOR; to New Orleans, La., VOR; MEA 1,500.
From New Orleans, La., VOR; to Gulfport, Miss., VOR; MEA *1,500. *1,400—MOCA.
From Lafayette, La., VOR via S alter.; to *Raceland INT, La., via S alter.; MEA **4,700. *4,700—MRA. **1,500—MOCA.
From Raceland INT, La., via S alter.; to New Orleans, La., VOR via S alter.; MEA 1,400.
From New Orleans, La., VOR via N alter.; to Picayune, Miss., VOR via N alter.; MEA *1,400. *1,300—MOCA.
From Mobile, Ala., VOR via N alter.; to *Citronelle INT, Ala., via N alter.; MEA 1,500. *2,500—MRA.
From Citronelle INT, Ala., via N alter.; to Evergreen, Ala., VOR via N alter.; MEA *2,500. *1,500—MOCA.

Section 610.6622 *VOR civil airway 22* is amended to read in part:

From *Calvary INT, Ga., via N alter.; to **Reno INT, Ga., via N alter.; MEA ***5,000. *2,500—MRA. **2,500—MRA. ***1,500—MOCA.

Section 610.6022 *VOR civil airway 22* is amended to delete:

From St. Rose, La., LF/RBN; to Cat INT, Ala.; MEA *3,000. *2,000—MOCA.
From Cat INT, Ala.; to Brookley, Ala., TVOR; MEA *3,000. *1,600—MOCA.

Section 610.6022 *VOR civil airway 22* is amended by adding:

From New Orleans, La., VOR; to Cat INT, La.; MEA *3,000. *2,000—MOCA.
From Cat INT, La., to Brookley AFB, Ala., TVOR; MEA *3,000. *1,600—MOCA.

Section 610.6023 *VOR civil airway 23* is amended to read in part:

From Rancho INT, Calif., via E alter.; to *Oceanside, Calif., VOR via E alter.; MEA 3,000. *2,500—MCA Oceanside VOR, northwestbound.
From *Bakersfield, Calif., VOR via E alter.; to Fresno, Calif., VOR, MEA 3,000; via E alter., MEA 3,500. *7,000—MCA Bakersfield VOR, southbound.

Section 610.6025 *VOR civil airway 25* is amended to read in part:

From Paso Robles, Calif., VOR to *Agnew, Calif., VOR; MEA 6,000. *4,000—MCA Agnew VOR, southeastbound.
From Campbell INT, Calif.; to Agnew, Calif., VOR, northwestbound only; MEA 4,000.

Section 610.6026 *VOR civil airway 26* is amended to read in part:

From Cherokee, Wyo., VOR; to Alcova, INT, Wyo.; MEA 12,000.
From Alcova INT, Wyo.; to Casper, Wyo., VOR; MEA 11,000.

Section 610.6027 *VOR civil airway 27* is amended to read in part:

From Paso Robles, Calif., VOR; to Salinas, Calif., VOR; MEA 6,000.

Section 610.6030 *VOR civil airway 30* is amended to read in part:

From Waterville, Ohio, VOR; to Wellington, Ohio, VAR; MEA 2,000.
From Youngstown, Ohio, VOR; to Clarion, Pa., VOR; MEA 2,600.
From Clarion, Pa., VOR; to Philipsburg, Pa., VOR; MEA 4,000.

Section 610.6035 *VOR civil airway 35* is amended by adding:

From Tampa, Fla., VOR via W alter.; to *Crystal INT, Fla., via W alter.; MEA **1,500. *2,000—MRA. **1,200—MOCA.
From Crystal INT, Fla., via W alter.; to *Shrimp INT, Fla., via W alter.; MEA **1,500. *6,000—MRA. **1,000—MOCA.
From Shrimp INT, Fla., via W alter.; to Cross City, Fla., VOR via W alter.; MEA *6,000. *1,200—MOCA.

Section 610.6035 *VOR civil airway 35* is amended to read in part:

From Tallahassee, Fla., VOR via E alter.; to *Reno INT, Ga., via E alter.; MEA **2,000. *2,500—MRA. **1,500—MOCA.
From *Calvery INT, Ga.; to **Camilla INT, Ga.; MEA 2,000. *2,500—MRA. **2,200—MRA.
From Camilla INT, Ga.; to Albany, Ga., VOR; MEA 2,000.
From *Reno INT, Ga., via E alter.; to **Pelham INT, Ga., via E alter.; MEA ***2,000. *5,000—MRA. **2,700—MRA. ***1,500—MOCA.
From Pelham INT, Ga., via E alter.; to *Hartsfield INT, Ga., via E alter.; MEA **2,000. *2,000—MRA. **1,500—MOCA.
From Hartsfield INT, Ga., via E alter.; to *Sale INT, Ga., via E alter.; MEA 1,700. *3,000—MRA.
From Sale INT, Ga., via E alter.; to Albany, Ga., VOR, via E alter.; MEA 1,700.

Section 610.6040 *VOR civil airway 40* is amended to read in part:

From Cleveland, Ohio, VOR; to Navarre, Ohio, VOR; MEA 2,500.

From Navarre, Ohio, VOR; to Kilgore INT, Ohio; MEA 2,500.
From Kilgore INT, Ohio; to Pittsburgh, Pa., VOR; MEA 3,000.

Section 610.6051 *VOR civil airway 51* is amended to read in part:

From Hopkins INT, Fla.; to *Maytown INT, Fla.; MEA **2,000. *1,700—MRA. **1,300—MOCA.
From Maytown INT, Fla.; to Oakhill INT, Fla.; MEA *1,400. *1,200—MOCA.
From Shelbyville, Ind., VOR; to Stockwell INT, Ind.; MEA 2,900.
From Stockwell INT, Ind.; to Lafayette, Ind., VOR; MEA 2,300.

Section 610.6053 *VOR civil airway 53* is amended to read in part:

From Indianapolis, Ind., VOR; to Linden, INT, Ind.; MEA 2,100.
From Linden INT, Ind.; to Westpoint, Ind., VOR; MEA 2,000.
From Westpoint, Ind., VOR; to Peotone, Ill., VOR; MEA 2,000.

Section 610.6054 *VOR civil airway 54* is amended to read in part:

From Muscle Shoals, Ala., VOR; to *Tanner INT, Ala.; MEA 2,200. *3,500—MRA.
From Huntsville, Ala., VOR; to Princeton INT, Ala.; MEA 3,000.
From Princeton INT, Ala.; to Chattanooga, Tenn., VOR; MEA 4,000.

Section 610.6058 *VOR civil airway 58* is amended to delete:

From Berghols INT, Pa.; to Ellwood City, Pa., VOR; MEA 2,500.

Section 610.6064 *VOR civil airway 64* is amended to read in part:

From Thermal, Calif., VOR; to Chuckwalla INT, Calif.; MEA 7,000.
From Chuckwalla INT, Calif.; to Blythe, Calif., VOR westbound, MEA 7,000; eastbound, MEA 6,000.

Section 610.6067 *VOR civil airway 67* is amended to read in part:

From Cedar Rapids, Iowa, VOR; to *Vinton INT, Iowa; MEA 2,500. *3,200—MRA.
From Vinton INT, Iowa; to Waterloo, Iowa, VOR; MEA 2,500.

Section 610.6068 *VOR civil airway 68* is amended to read in part:

From *Floresville INT, Tex.; to Clareville INT, Tex.; MEA **2,200. *3,000—MRA. **2,000—MOCA.

Section 610.6070 *VOR civil airway 70* is amended to read in part:

From Creole INT, La.; to *Albany INT, La.; MEA 1,400. *1,500—MRA.
From Albany INT, La.; to Hammond INT, La.; MEA 1,400.

Section 610.6072 *VOR civil airway 72* is amended to read in part:

From Vandalia, Ill., VOR; to *Arcola INT, Ind.; MEA **3,000. *3,000—MRA. **2,200—MOCA.
From Arcola INT, Ind.; to State Line INT, Ind.; MEA *3,000. *2,200—MOCA.
From State Line INT, Ind.; to Westpoint, Ind., VOR; MEA 2,000.
From Westpoint, Ind., VOR; to Lafayette, Ind., VOR; MEA 2,000.

Section 610.6072 *VOR civil airway 72* is amended to delete:

From Lafayette, Ind., VOR; to Radnor INT, Ind.; MEA 2,300.
From Radnor INT, Ind.; to Kokomo INT, Ind.; MEA 2,200.

Section 610.6074 *VOR civil airway 74* is amended to delete:

From Ponca City, Okla., VOR via S alter.; to Shell Lake INT, Okla., via S alter.; MEA *3,000. *2,400—MOCA.
From Shell Lake INT, Okla., via S alter.; to Tulsa, Okla., VOR via S alter.; MEA 3,100.
From Tulsa, Okla., VOR via S alter.; to Okmulgee, Okla., VOR via S alter.; MEA 2,700.

Section 610.6074 *VOR civil airway 74* is amended by adding:

From Ponca City, Okla., VOR via S alter.; to *Sapulpa INT, Okla., via S alter.; MEA **3,000. *3,000—MRA. **2,400—MOCA.
From Sapulpa INT, Okla., via S alter.; to Okmulgee, Okla., VOR via S alter.; MEA *3,000. *2,400—MOCA.

Section 610.6075 *VOR civil airway 75* is amended to read in part:

From Wheeling, W. Va., VOR; to Kilgore INT, Ohio; MEA 3,000.
From Kilgore INT, Ohio; to Navarre, Ohio, VOR; MEA 2,500.
From Navarre, Ohio, VOR; to Cleveland, Ohio, VOR; MEA 2,500.

Section 610.6089 *VOR civil airway 89* is amended to read in part:

From *Hudson INT, Colo., via E alter.; to Gill INT, Colo., via E alter.; MEA 7,500. *9,000—MRA. (Deletes MRA at Gill INT.)

Section 610.6091 *VOR civil airway 91* is amended to delete:

From Albany, N. Y., VOR; to *Keesville INT, N. Y.; MEA 6,000. *4,000—MCA Keesville INT, southbound.
From Keesville INT, N. Y.; to Plattsburg, N. Y., VOR; MEA 3,000.

Section 610.6091 *VOR civil airway 91* is amended by adding:

From Albany, N. Y., VOR; to Benson, Vt., VOR; MEA 4,500.
From Benson, Vt., VOR; to Burlington, Vt., VOR; MEA 4,000.
From Burlington, Vt., VOR; to Plattsburg, N. Y., VOR; MEA 2,000.

Section 610.6092 *VOR civil airway 92* is amended to read in part:

From Millersburg INT, Ind.; to Edgerton INT, Ohio; MEA *3,000. *2,300—MOCA.
From Edgerton INT, Ohio; to Pulaski INT, Ohio; MEA *3,000. *2,100—MOCA.
From Pulaski INT, Ohio; to Waterville, Ohio, VOR; MEA 2,000.
From Mansfield, Ohio, VOR; to Navarre, Ohio, VOR; MEA 2,500.
From Navarre, Ohio, VOR; to Kilgore INT, Ohio; MEA 2,500.
From Kilgore INT, Ohio; to Wheeling, W. Va., VOR; MEA 3,000.

Section 610.6094 *VOR civil airway 94* is amended to read in part:

From *Carlsbad, N. Mex., VOR; to **Potash INT, N. Mex.; MEA 5,300. *8,100—MCA Carlsbad VOR, southwestbound. **6,000—MRA.
From Potash INT, N. Mex.; to Hobbs, N. Mex., VOR; MEA 5,300.

Section 610.6096 *VOR civil airway 96* is amended to delete:

From Lafayette, Ind., VOR; to Radnor INT, Ind.; MEA 2,300.
From Radnor INT, Ind.; to Ft. Wayne, Ind., VOR; MEA 2,200.

Section 610.6096 *VOR civil airway 96* is amended by adding:

From Greentown INT, Ind.; to Ft. Wayne, Ind., VOR; MEA 2,200.

Section 610.6097 *VOR civil airway 97* is amended by adding:

From Tampa, Fla., VOR via E alter.; to *Crystal INT, Fla., via E alter.; MEA **1,500. *2,000—MRA. **1,200—MOCA.
From Crystal INT, Fla., via E alter.; to *Shrimp INT, Fla., via E alter.; MEA **1,500, *6,000—MRA. **1,000—MOCA.
From Shrimp INT, Fla., via E alter.; to Scallop INT, Fla., via E alter.; MEA *4,000. *1,000—MOCA.
From Scallop INT, Fla., via E alter.; to Cross City, Fla., VOR via E alter.; MEA *2,000. *1,200—MOCA.
From Cross City, Fla., VOR via E alter.; to Tallahassee, Fla., VOR via E alter.; MEA *1,500. *1,300—MOCA.

Section 610.6097 *VOR civil airway 97* is amended to read in part:

From Shelbyville, Ind., VOR; to Stockwell INT, Ind.; MEA 2,900.
From Stockwell INT, Ind.; to Lafayette, Ind., VOR; MEA 2,300.
From Indianapolis, Ind., VOR via W alter.; to Lebanon INT, Ind., via W alter.; MEA 2,300.
From Lebanon INT, Ind., via W alter.; to Stockwell INT, Ind., via W alter.; MEA 2,900.
From Stockwell INT, Ind., via W alter.; to Lafayette, Ind., VOR via W alter.; MEA 2,300.
From Nodine, Minn., VOR; to *Lake City INT, Minn.; MEA 2,800. *3,000—MRA.
From *Calvery INT, Fla.; to **Camilla INT, Ga.; MEA 2,000. *2,500—MRA. **3,500—MRA.
From Camilla INT, Ga.; to Albany, Ga., VOR; MEA 2,000.
From Knoxville, Tenn., VOR; to Norris INT, Tenn.; MEA 3,000.
From Norris INT, Tenn.; to London, Ky., VOR; MEA 5,000.
From London, Ky., VOR; to Richmond INT, Ky.; MEA 3,500.
From Richmond INT, Ky.; to Lexington, Ky., VOR; MEA 3,000.

Section 610.6103 *VOR civil airway 103* is amended to read in part:

From Elkins, W. Va., VOR; to Clarksburg, W. Va., VOR; MEA 5,000.
From Clarksburg, W. Va., VOR; to Wheeling, W. Va., VOR; MEA 3,000.
From Wheeling, W. Va., VOR; to Kilgore INT, Ohio; MEA 3,000.
From Kilgore INT, Ohio; to Navarre, Ohio, VOR; MEA 2,500.
From Navarre, Ohio, VOR; to Cleveland, Ohio, VOR; MEA 2,500.

Section 610.6106 *VOR civil airway 106* is amended to read in part:

From *Clara INT, W. Va.; to Clarksburg, W. Va., VOR; MEA 4,000. *4,000—MRA.
From Clarksburg, W. Va., VOR; to Morgantown, W. Va., VOR; MEA 4,000.

Section 610.6107 *VOR civil airway 107* is amended to read in part:

From *Panoche, Calif., VOR; to Mt. Hamilton INT, Calif.; MEA 7,000. *5,500—MCA Panoche VOR, southbound.
From Mt. Hamilton INT, Calif.; to Mt. Day INT, Calif.; southbound, MEA 7,000; northbound, MEA 6,000.
From Mt. Day INT, Calif.; to Mission INT, Calif.; southbound, MEA 7,000; northbound, MEA 5,000.
From Mission INT, Calif.; to *Oakland, Calif., VOR; southbound, MEA 7,000; northbound, MEA 3,500. *2,500—MCA Oakland VOR, southeastbound.

Section 610.6114 *VOR civil airway 114* is amended to read in part:

From Baton Rouge, La., VOR; to *French Settlement INT, La.; MEA 2,000. *2,500—MRA.

From French Settlement INT, La.; to New Orleans, La., VOR; MEA 2,000.

Section 610.6114 *VOR civil airway 114* is amended by adding:

From Alexandria, La., VOR via N alter.; to *Woodville INT, La., via N alter.; MEA **3,000. *5,500—MRA. **1,700—MOCA.

From Woodville INT, La., via N alter.; to *Clinton INT, La., via N alter.; MEA **6,000. **1,300—MOCA.
*6,000—MRA. **1,300—MOCA.

From Clinton INT, La., via N alter.; to Albany INT, La., via N alter.; MEA *2,000. *1,400—MOCA.

From Albany INT, La., via N alter.; to New Orleans, La., VOR via N alter.; MEA 1,400.

Section 610.6119 *VOR civil airway 119* is amended to read in part:

From Imperial, Pa., VOR; to Clarion, Pa., VOR; MEA 3,500.

From Clarion, Pa., VOR; to Fitzgerald, Pa., VOR; MEA 3,500.

Section 610.6123 *VOR civil airway 123* is amended to read in part:

From Baltimore, Md., LFR; to Port Deposit INT, Md.; MEA 3,000.

Section 610.6126 *VOR civil airway 126* is amended to read in part:

From Millersburg INT, Ind.; to Edgerton INT, Ohio; MEA *3,000. *2,300—MOCA.

From Edgerton INT, Ohio; to Pulaski INT, Ohio; MEA *3,000. *2,100—MOCA.

From Pulaski INT, Ohio; to Waterville, Ohio, VOR; MEA 2,000.

Section 610.6128 *VOR civil airway 128* is amended to read in part:

From Peotone, Ill., VOR; to Westpoint, Ind., VOR; MEA 2,000.

From Westpoint, Ind., VOR; to Linden INT, Ind.; MEA 2,000.

From Linden INT, Ind.; to Indianapolis, Ind., VOR; MEA 2,100.

Section 610.6135 *VOR civil airway 135* is amended to read in part:

From Needles, Calif., VOR; to Bullhead INT, Nev.; southbound, MEA 6,000; northbound, MEA 8,000.

From Bullhead INT, Nev., to Las Vegas, Nev., VOR; MEA 8,000.

Section 610.6140 *VOR civil airway 140* is amended to read in part:

From Baltimore, Md., VOR; to Port Deposit INT, Md.; MEA 3,000.

Section 610.6141 *VOR civil airway 141* is amended to delete:

From Lebanon, N. H., LF/RBN; to Plattsburg, N. Y., VOR; MEA 6,000.

Section 610.6141 *VOR civil airway 141* is amended by adding:

From Lebanon, N. H., LF/RBN; to Burlington, Vt., VOR; MEA 6,000.

From Burlington, Vt., VOR; to West Bangor INT, N. Y.; MEA 6,000.

From West Bangor INT, N. Y.; to Massena, N. Y., VOR; MEA 2,500.

Section 610.6146 *VOR civil airway 146* is amended to read in part:

From Poughkeepsie, N. Y., VOR; to Bradley INT, Conn.; MEA 3,000.

From Bradley INT, Conn.; to Putnam, Conn., VOR; MEA 2,500.

From Putnam, Conn., VOR; to Providence, R. I., VOR; MEA 2,000.

Section 610.6154 *VOR civil airway 154* is amended to read in part:

From Meridian, Miss., VOR; to *York INT, Ala.; MEA 2,000. *2,500—MRA.

Section 610.6159 *VOR civil airway 159* is amended to read in part:

From *Quitman INT, Ga., via W alter.; to **Cotton INT, Ga., via W alter.; MEA ***3,000. 5,000 — MRA. **3,300 — MRA. ***1,500—MOCA.

From Cotton INT, Ga., via W alter.; to *Hartsfield INT, Ga., via W alter.; MEA **3,000. *2,000—MRA. **1,500—MOCA.

From Hartsfield INT, Ga., via W alter.; to *Sale INT, Ga., via W alter.; MEA 1,700. *3,000—MRA.

From Sale INT, Ga., via W alter.; to Albany, Ga., VOR via W alter.; MEA 1,700.

Section 610.6161 *VOR civil airway 161* is amended to read in part:

From Des Moines, Iowa, VOR; to *Mitchellville INT, Iowa; MEA 2,700. *5,000—MRA.

From Mitchellville INT, Iowa; to Newton, Iowa, VOR; MEA 2,700.

Section 610.6163 *VOR civil airway 163* is amended to read in part:

From Spring Branch INT, Tex.; to *Johnson City INT, Tex.; MEA **3,000. *3,000—MRA. **2,800—MOCA.

From Johnson City INT, Tex.; to *Kingsland INT, Tex.; MEA **5,000. *3,100—MRA. **2,700—MOCA.

Section 610.6165 *VOR civil airway 165* is amended to read in part:

From *Palmdale, Calif., VOR; to White Oaks INT, Calif.; MEA 10,000. *8,000—MCA Palmdale VOR, northwestbound; *9,000—MCA Palmdale VOR, Southbound.

From White Oaks INT, Calif.; to *Whitman INT, Calif.; MEA 9,000. *9,000—MCA Whitman INT, southeastbound.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective September 25, 1958.

[SEAL] WILLIAM B. DAVIS,
Acting Administrator of Civil Aeronautics.

AUGUST 29, 1958.

[F. R. Doc. 58-7185; Filed, Sept. 5, 1958; 8:45 a. m.]

TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter I—Commodity Exchange Authority (Including Commodity Exchange Commission), Department of Agriculture

PART 1—GENERAL REGULATIONS UNDER THE COMMODITY EXCHANGE ACT

INCREASE OF REGISTRATION FEES

By virtue of the authority vested in the Secretary of Agriculture under section 8a of the Commodity Exchange Act, as amended (7 U. S. C., 1952 ed., sec. 12a), § 1.11 of Part 1 of Chapter I, Title 17, Code of Federal Regulations, as amended (17 CFR, 1958 Supp., 1.11), is hereby further amended by striking out "$25" and "$2", appearing therein, and inserting in lieu thereof "$30" and "$5", respectively.

The foregoing amendments shall become effective upon publication in the FEDERAL REGISTER, except that the present fees shall remain in effect with respect to applications for registration as futures commission merchant, or renewal thereof, for the period ending December 31, 1958, and with respect to duplicates of registration certificates for such period.

It is hereby found that it would be impracticable, unnecessary, and contrary to the public interest to give preliminary notice and engage in public rule making procedure with respect to this amendment, or to delay the effective date thereof until 30 days after publication in the FEDERAL REGISTER, for the reasons that: (1) The costs of performing the service are increased over what they were formerly, and the Independent Offices Appropriation Act, 1952, provides that agencies should recover the aggregate cost of registration and licensing "to the full extent possible"; (2) the facts supporting the determinations with respect to the fees necessary to cover increased costs are not available to the trade, but are peculiarly within the knowledge of the Department; and (3) additional time is not required to comply with this amendment. Registration fees are deposited in the Treasury as general receipts and are not available for expenditure by the Department of Agriculture.

Issued this 2d day of September 1958.

(Sec. 8a, as added by sec. 10, 49 Stat. 1500; 7 U. S. C. 12a)

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 58-7210; Filed, Sept. 5, 1958; 8:49 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6309]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNNING AFTER DECEMBER 31, 1953

FIGURE TO BE USED FOR 1958 IN DETERMINING RESERVE AND OTHER POLICY LIABILITY DEDUCTION FOR LIFE INSURANCE COMPANIES

By virtue of the authority contained in section 812 (a) of the Internal Revenue Code of 1954 (70 Stat. 45; 26 U. S. C. 812 (a)), it is hereby determined that the figure to be used under section 812 in computing the "reserve and other policy liability deduction" of life insurance companies for the taxable year 1958 shall be 0.7553.

Because the figure announced in this Treasury decision is computed from information contained in the income tax returns of life insurance companies for the year 1957, which are not open to public inspection, the public accordingly cannot effectively participate in the determination of such figure. Therefore, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said Act.

(Sec. 7805, 68A Stat. 917; 26 U. S. C. 7805)

[SEAL] NELSON P. ROSE,
Acting Secretary of the Treasury.

SEPTEMBER 4, 1958.

[F. R. Doc. 58-7266; Filed, Sept. 5, 1958; 9:46 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter N—Artificial Islands and Fixed Structures on the Outer Continental Shelf

[CGFR 58-28]

PART 145—FIRE-FIGHTING EQUIPMENT

PORTABLE AND SEMIPORTABLE FIRE EXTINGUISHERS

Notices regarding proposed changes in the navigation and vessel inspection regulations, as well as withdrawal of certain manufacturers' approvals, were published in the FEDERAL REGISTER dated February 12, 1958 (23 F. R. 905-910), and March 1, 1958 (23 F. R. 1268-1270), as Items I through XVIII of an Agenda to be considered by the Merchant Marine Council. Pursuant to these notices the Merchant Marine Council held a public hearing on March 18, 1958, at Washington, D. C.

This document is the eighth of a series covering the regulations and actions considered at this public hearing and annual session of the Merchant Marine Council and contains final actions taken with

respect to that portion of Item VIII respecting portable and semiportable fire extinguishers for artificial islands and fixed structures on the outer Continental Shelf.

All the comments, views, and data submitted in connection with the items considered by the Merchant Marine Council at this public hearing have been very helpful to the Coast Guard and are very much appreciated. The proposed actions in Item VIII were revised as a result of information received. The regulations in 33 CFR 145.05 (c), as revised, are adopted and set forth in this document. The other actions based on Item VIII are set forth in separate Coast Guard Federal Register documents identified as CGFR 58–29 [1] and 58–30,[2] which are also published in this issue of the FEDERAL REGISTER.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 167–15, dated January 3, 1955 (20 F. R. 840), and 167–17, dated June 29, 1955 (20 F. R. 4976), to promulgate regulations in accordance with the statutes cited with the regulations below, § 145.05 (c) is amended by revising Table 145.05 (c) to read as set forth below, and this amendment shall become effective 90 days after the date of publication of this document in the FEDERAL REGISTER:

§ 145.05 *Classification of fire extinguishers.* • • •

(c) • • •

TABLE 145.05 (c)—PORTABLE AND SEMIPORTABLE EXTINGUISHERS

Classification		Soda-acid and water, gallons	Foam, gallons	Carbon dioxide, pounds	Dry chemical, pounds
Type	Size				
A	II	2½	2½		
B	II		2½	15	10
C	II			15	10
B	V		40	100	50

(Sec. 633, 63 Stat. 545; 14 U. S. C. 633. Interprets or applies sec. 4, 67 Stat. 462; 43 U. S. C. 1333)

Dated: August 29, 1958.

[SEAL] J. A. HIRSHFIELD,
Rear Admiral, U. S. Coast Guard,
Acting Commandant.

[F. R. Doc. 58–7230; Filed, Sept. 5, 1958; 8:53 a. m.]

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

[CGFR 58–29]

RATING: TESTS AND INSPECTIONS OF PORTABLE AND SEMIPORTABLE FIRE EXTINGUISHERS

Notices regarding proposed changes in the navigation and vessel inspection regulations, as well as withdrawal of certain manufacturers' approvals, were published in the FEDERAL REGISTER dated February 12, 1958 (23 F. R. 905–910), and March 1, 1958 (23 F. R. 1268–1270), as Items I through XVIII of an Agenda to be considered by the Merchant Marine Council. Pursuant to these notices the Merchant Marine Council held a public hearing on March 18, 1958, at Washington, D. C.

This document is the ninth of a series covering the regulations and actions considered at this public hearing and annual session of the Merchant Marine Council and contains final actions taken with respect to certain portions of Items VIII and IX dealing with portable and semiportable fire extinguishers. The eighth document, identified as CGFR 58–28, contains final actions with respect to portable and semiportable fire extinguishers for artificial islands and fixed structures on the outer Continental Shelf, which are also based on Item VIII of the Agenda, and is published under "Title 33—Navigation and Navigable Waters" in this FEDERAL REGISTER.[1] With respect to the withdrawal of approvals granted certain manufacturers, a supplementary document, identified as CGFR 58–30, contains the final actions and is published as a "Notice" in this FEDERAL REGISTER with the title "Withdrawal of Approvals of Toxic Vaporizing Liquid Type Fire Extinguishers, Such as Those Containing Carbon Tetrachloride or Chlorobromomethane." [2]

All the comments, views, and data submitted in connection with the items considered by the Merchant Marine Council at this public hearing were considered and are very much appreciated. The proposals respecting portable and semiportable fire extinguishers were revised because of the information received. Portions of the following items regarding portable and semiportable fire extinguishers considered at the public hearing held March 18, 1958, as revised, are adopted and included in this document:

Item VIII—Portable and Semiportable Fire Extinguishers; Clarification of Ratings and Withdrawal of Certain Approvals of Carbon Tetrachloride Fire Extinguishers (46 CFR 25.30–10, 76.50–5, 95.50–5, 167.45–75).

Item IX—Fire Precautions for Passenger, Tank, Cargo, and Miscellaneous Vessels (46 CFR 71.25–20, 91.25–20, 167.45–70).

The changes in the proposals respecting portable and semiportable fire extinguishers are:

a. All requirements for toxic vaporizing liquid fire extinguishers have been removed from the regulations.

b. New regulations have been added which provide that (1) vaporizing liquid type fire extinguishers presently installed on board boats and vessels may be continued in use so long as in good and serviceable condition until January 1, 1962; and (2) the carriage on board boats and vessels of toxic vaporizing liquid type fire extinguishers, such as those containing carbon tetrachloride or chlorobromomethane, as Coast Guard approved equipment is prohibited after January 1, 1962.

c. Minimum values have been established for dry chemical fire extinguishers of 20-, 30-, and 50-pound capacities for classification Types B–III, B–IV, and B–V, respectively. The values for classification Type A–I fire extinguishers have been removed from the classification tables because such extinguishers are no longer required.

d. The current approvals issued to manufacturers of toxic vaporizing liquid type fire extinguishers, such as those containing carbon techrachloride or chlorobromomethane, are withdrawn effective on the 91st day after the date of publication of Coast Guard Federal Register Document CGFR 58–30 in the FEDERAL REGISTER.

It is felt very desirable to have the requirements for toxic vaporizing liquid type fire extinguishers removed from all the regulations and to prohibit the use of such fire extinguishers as approved equipment on all boats and vessels after January 1, 1962. Therefore, similar amendments will be proposed to the regulations governing tank vessels (Subchapter D) and to small passenger vessels (Subchapter T) and included in a future Public Hearing Agenda of the Merchant Marine Council.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 120, dated July 31, 1950 (15 F. R. 6521), 167–14, dated November 26, 1954 (19 F. R. 8026), 167–15, dated January 3, 1955 (20 F. R. 840), 167–20, dated June 18, 1956 (21 F. R. 4894), and CGFR 56–28, dated July 24, 1956 (21 F. R. 5659), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments and regulations are prescribed and shall become effective 90 days after the date of publication of this document in the FEDERAL REGISTER:

Subchapter C—Uninspected Vessels

PART 25—REQUIREMENTS

SUBPART 25.30—FIRE EXTINGUISHING EQUIPMENT

Section 25.30–10 is amended by revising Table 25.30–10 (c) in paragraph (c) and by adding a new paragraph (e), which read as follows:

§ 25.30–10 *Hand portable fire extinguishers and semiportable fire extinguishing systems.* • • •

(c) • • •

TABLE 25.30–10 (c)

Classification		Foam, gallons	Carbon dioxide, pounds	Dry chemical, pounds
Type	Size			
B	I	1¼	4	2
B	II	2½	15	10
B	III	12	35	20

• • • • • •

(e) Vaporizing-liquid type fire extinguishers, such as those containing carbon techrachloride or chlorobromomethane, shall not be acceptable as equipment required by this subchapter on and after January 1, 1962. Existing

[1] See title 46, chapter I, Federal Register document 58–7231, *infra*.

[2] See Department of the Treasury, United States Coast Guard, in Notices Section, *infra*.

[1] See Federal Register document 58–7230, *supra*.

[2] See Department of the Treasury, United States Coast Guard, Federal Register document 58–7232, in Notices Section, *infra*.

installations shall be permitted to be carried as part of the required equipment so long as such extinguishers are in good condition, but not later than January 1, 1962.

(R. S. 4405, as amended, 4462, as amended, secs. 8, 17, 54 Stat. 165, as amended, 166, as amended; 46 U. S. C. 375, 416, 526g, 526p)

Subchapter H—Passenger Vessels

PART 71—INSPECTION AND CERTIFICATION

SUBPART 71.25—ANNUAL INSPECTION

Section 71.25–20 (a) (1) is amended by revising Table 71.25–20 (a) (1) to read as follows:

§ 71.25–20 *Fire detecting and extinguishing equipment.* (a) • • •

TABLE 71.25–20 (a) (1)

Type unit	Test
Soda acid	Discharge. Clean hose and inside of extinguisher thoroughly. Recharge.
Foam	Discharge. Clean hose and inside of extinguisher thoroughly. Recharge.
Pump tank (water or antifreeze).	Discharge. Clean hose and inside of extinguisher thoroughly. Recharge with clean water or antifreeze.
Cartridge operated (water, antifreeze or loaded stream).	Weigh pressure cartridge and replace if end is punctured or weight is ½ ounce less than stamped on cartridge. Remove liquid. Clean hose and inside of extinguisher thoroughly. Recharge with clean water, solution, or antifreeze. Insert charged cartridge.
Carbon dioxide	Weigh cylinders. Recharge if weight loss exceeds 10 percent of weight of charge. Inspect hose and nozzle to be sure they are clear.[1]
Dry chemical (cartridge-operated type).	Weigh pressure cartridge and replace if end is punctured or weight is ½ ounce less than stamped on cartridge. Inspect hose and nozzle to see they are clear. Insert charged cartridge. Be sure dry chemical is free flowing (not caked) and chamber contains full charge.
Dry chemical (stored pressure type).	See that pressure gauge is in operating range. If not, or if seal is broken, weigh or otherwise determine that full charge of dry chemical is in extinguisher. Recharge if pressure is low or if dry chemical is needed.

[1] Cylinders shall be tested and marked in accordance with the regulations of the Interstate Commerce Commission, as noted in § 147.04–1 of Subchapter N (Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels) of this chapter.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, as amended, 4400, as amended, 4417, as amended, 4418, as amended, 4421, as amended, 4423, as amended, 4426, as amended, 4428–4430, as amended, 4433, as amended, 4434, as amended, 4453, as amended, sec. 14, 29 Stat. 690, as amended, secs. 10, 11, 35 Stat. 428, 41 Stat. 305, secs. 1, 2, 49 Stat. 1544, as amended, 49 Stat. 1935, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 70 Stat. 152, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 392, 399, 400, 404, 406–408, 411, 412, 435, 366, 395, 396, 363, 367, 660a, 1333, 390b, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 74—STABILITY

SUBPART 74.10—STABILITY STANDARDS

Section 74.10–15 (a) (1), respecting application of damaged stability standards, is corrected by changing a reference from "paragraph (k) of this section" to "paragraph (e) of this section."

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416)

PART 76—FIRE PROTECTION EQUIPMENT

SUBPART 76.50—HAND PORTABLE FIRE EXTINGUISHERS AND SEMIPORTABLE FIRE EXTINGUISHING SYSTEMS, ARRANGEMENTS, AND DETAILS

Section 76.50–5 is amended by revising Table 76.50–5 (c) in paragraph (c) and by adding a new paragraph (e), which read as follows:

§ 76.50–5 *Classification.* • • •

(c) • • •

TABLE 76.50–5 (c)

(e) Vaporizing-liquid type fire extinguishers, such as those containing carbon tetrachloride or chlorobromomethane, shall be removed from all vessels on or before January 1, 1962. Existing installations of such extinguishers may be continued in use if in good and serviceable condition until the removal date.

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, 4470, as amended, 4471, as amended, 4477, as amended, 4479, as amended, 4483, as amended, secs. 1, 2, 49 Stat. 1544, as amended, sec. 17, 54 Stat. 166, as amended, sec. 3, 54 Stat. 367, as amended, sec. 2, 54 Stat. 1028, as amended, sec. 3, 70 Stat. 152, sec. 3, 68 Stat. 675; 46 U. Subchapter I—Cargo and Miscellaneous Vessels

PART 91—INSPECTION AND CERTIFICATION

SUBPART 91.25—INSPECTION AND CERTIFICATION

Section 91.25–20 (a) (1) is amended by revising Table 91.25–20 (a) (1) to read as follows:

§ 91.25–20 *Fire extinguishing equipment.* (a) • • •

TABLE 91.25–20 (a) (1)

Type unit	Test
Soda acid	Discharge. Clean hose and inside of extinguisher thoroughly. Recharge.
Foam	Discharge. Clean hose and inside of extinguisher thoroughly. Recharge.
Pump tank (water or antifreeze).	Discharge. Clean hose and inside of extinguisher thoroughly. Recharge with clean water or antifreeze.
Cartridge operated (water, antifreeze or loaded stream)	Weigh pressure cartridge and replace if end is punctured or weight is ½ ounce less than stamped on cartridge. Remove liquid. Clean hose and inside of extinguisher thoroughly. Recharge with clean water, solution, or antifreeze. Insert charged cartridge.
Carbon dioxide	Weigh cylinders. Recharge if weight loss exceeds 10 percent of weight of charge. Inspect hose and nozzle to be sure they are clear.[1]
Dry chemical (cartridge-operated type).	Weigh pressure cartridge and replace if end is punctured or weight is ½ ounce less than stamped on cartridge. Inspect hose and nozzle to see they are clear. Insert charged cartridge. Be sure dry chemical is free flowing (not caked) and chamber contains full charge.
Dry chemical (stored pressure type).	See that pressure gauge is in operating range. If not, or if seal is broken, weigh or otherwise determine that full charge of dry chemical is in extinguisher. Recharge if pressure is low or if dry chemical is needed.

[1] Cylinders shall be tested and marked in accordance with the regulations of the Interstate Commerce Commission, as noted in § 147.04–1 of Subchapter N (Explosives or Other Dangerous Articles or Substances and Combustible Liquids on Board Vessels) of this chapter.

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4399, 4400, 4417, 4418, 4421, 4423, 4426–4431, 4433, 4434, 4453, as amended, sec. 14, 29 Stat. 690, secs. 10, 11, 35 Stat. 428, 41 Stat. 305, 49 Stat. 1544, 1935, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 361, 362, 391, 392, 399, 400, 404–409, 411, 412, 435, 366, 395, 396, 363, 367, 660a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

PART 95—FIRE PROTECTION EQUIPMENT

SUBPART 95.50—HAND PORTABLE FIRE EXTINGUISHERS AND SEMIPORTABLE FIRE EXTINGUISHING SYSTEMS, ARRANGEMENTS AND DETAILS

Section 95.50–5 is amended by revising Table 95.50–5 (c) in paragraph (c) and by adding a new paragraph (e), which read as follows:

§ 95.50–5 *Classification.* • • •

(c) • • •

TABLE 95.50–5 (c)

Classification		Soda-acid and water, gallons	Foam, gallons	Carbon dioxide, pounds	Dry chemical, pounds
Type	Size				
A	II	2½	2½		
B	I		1¼	4	2
B	II		2½	15	10
B	III		12	35	20
B	IV		20	50	30
B	V		40	100	50
C	I			4	2
C	II			15	10

• • • • • •

(e) Vaporizing-liquid type fire extinguishers, such as those containing carbon tetrachloride or chlorobromomethane, shall be removed from all vessels on or before January 1, 1962. Existing installations of such extinguishers may be continued in use if in good and serviceable condition until the removal date.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417, 4418, 4426, 4470, 4471, 4477, 4479, and 4483, as amended, secs. 1, 2, 49 Stat. 1544, sec. 17, 54 Stat. 166, sec. 2, 54 Stat. 1028, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 463, 464, 470, 472, 476, 367, 526p, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917; 3 CFR, 1952 Supp.)

Subchapter J—Electrical Engineering

PART 111—ELECTRICAL SYSTEM; GENERAL REQUIREMENTS

SUBPART 111.70—SPECIAL REQUIREMENTS FOR TANK VESSELS

Section 111.70–5 *Definitions* is amended by correcting in paragraphs (d) and (g) references to other regulations from "§§ 146.25–3 and 146.25–5" to "§§ 146.25–10 and 146.25–15."

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416)

Subchapter R—Nautical Schools

PART 167—PUBLIC NAUTICAL SCHOOL SHIPS

SUBPART 167.45—SPECIAL FIRE-FIGHTING AND FIRE PREVENTION REQUIREMENTS

1. Section 167.45–70 (e) is amended to read as follows:

§ 167.45–70 *Portable fire extinguishers, general requirements.* • • •

(e) Every fire extinguisher provided shall be examined at each annual inspection to determine that it is still in good condition. Soda-and-acid and foam fire extinguishers shall be tested by discharging the contents, cleaning thoroughly, and then refilling. Carbon dioxide fire extinguishers shall be checked by weighing to determine contents and if found to be more than 10 percent under required contents of carbon dioxide shall be recharged. Pump tank fire extinguishers shall be tested by pumping and discharging the contents, cleaning thoroughly, and then refilling or recharging. Cartridge-operated type water or antifreeze fire extinguishers shall be checked by examining the extinguishing agents to determine if in still good condition and by weighing the cartridges; if the weight of the cartridge is ½ ounce or more under the weight stamped thereon or if it is punctured, the cartridge shall be rejected and a new one inserted. Stored pressure type extinguishers shall be checked by determining that the pressure gauge is in the operating range, and the full charge of extinguishing agent is in the chamber. The hoses and nozzles of all fire extinguishers shall be inspected to see that they are clear and in good condition.

2. Section 167.45–75 is amended to read as follows:

§ 167.45–75 *Fire extinguishers for emergency powerplants.* In compartments where emergency lighting and wireless units are located, two fire extinguishers approved by the Coast Guard or the Navy, of either carbon dioxide or dry chemical type, shall be permanently located at the most accessible points. In addition, two fire extinguishers of the above types, or foam type, shall be permanently located so as to be readily accessible to the emergency fuel tanks containing gasoline, benzine or naphtha. Carbon tetrachloride type fire extinguishers shall be removed on or before January 1, 1962. Existing installations of such extinguishers may be continued in use if in good and serviceable condition until the removal date.

(R. S. 4405, as amended; 46 U. S. C. 375. Interpret or apply R. S. 4417, as amended, 4418, as amended, 4426, as amended, 4428–4434, as amended, 4450, as amended, 4488, as amended, 4491, as amended, 41 Stat. 305, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, secs. 1–21, 54 Stat. 163–167, as amended, 1028, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391, 392, 404, 406–412, 239, 481, 489, 363, 367, 526–526t, 463a, 50 U. S. C. 198; E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

Dated: August 29, 1958.

[SEAL] J. A. HIRSHFIELD,
Rear Admiral, U. S. Coast Guard,
Acting Commandant.

Subchapter J—Electrical Engineering

PART 112—EMERGENCY LIGHTING AND POWER SYSTEM

PART 113—COMMUNICATION AND ALARM SYSTEMS AND EQUIPMENT

Subchapter Q—Specifications

PART 160—LIFESAVING EQUIPMENT

MISCELLANEOUS AMENDMENTS TO CHAPTER

Notices regarding the proposed changes in the navigation and vessel inspection regulations were published in the FEDERAL REGISTER dated February 12, 1958 (23 F. R. 905–910), and March 1, 1958 (23 F. R. 1268–1270), as Items I through XVIII of an Agenda to be considered by the Merchant Marine Council. Pursuant to these notices the Merchant Marine Council held a public hearing on March 18, 1958, at Washington, D. C.

This document is the tenth and last of a series covering the regulations and actions considered at this public hearing and annual session of the Merchant Marine Council and contains the final actions taken with respect to miscellaneous changes in lifesaving equipment in Item XIII of the Agenda.

All the comments, views, and data submitted in connection with the items considered by the Merchant Marine Council at this public hearing were considered and are very much appreciated. The proposals were revised on the basis of the comments received. The miscellaneous amendments in Item XIII—Revisions of Specifications Governing Manufacturing of Certain Lifesaving Equipment, as revised, are adopted and set forth in this document. The proposed changes to 46 CFR 160.024–3 (c) and 160.028–3 (c), respecting the construction of the pistol projected parachute red flare distress signals and signal pistols by establishing the depth of penetration of the firing pin, were withdrawn for further study. With respect to requirements for testing lifeboat winches, 46 CFR 160.015–5 (b) (3) was revised to require the test weight shall be stopped by the action of the counterweight alone within a distance of 6 feet rather than 4 feet, while the language in 160.015–5 (b) (7) was clarified with respect to gravity davits. The lot size for the sampling, inspections, and tests of self-igniting water lights (calcium carbide—calcium phosphide type) in 46 CFR 160.012–4 (a) (3) was changed from "500" to "1000" water lights. Regarding the hand orange smoke distress signals, the proposal in 46 CFR 160.037–4 (o), regarding the volume and density of smoke of test specimens was changed from "50 percent transmission for not less than 40 seconds" to "70 percent transmission for not less than 30 seconds."

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 120, dated July 31, 1950 (15 F. R. 6521), 167–14, dated November 26, 1954 (19 F. R. 8026), 167–15, dated January 3, 1955 (20 F. R. 840), 167–20, dated June 18, 1956 (21 F. R. 4894), and CGFR 56–28, dated July 24, 1956 (21 F. R. 5659), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments are prescribed and shall become effective 90 days after the date of publication of this document in the FEDERAL REGISTER:

SUBPART 160.009—BUOYS, LIFE, RING, CORK OR BALSA WOOD, FOR MERCHANT VESSELS AND MOTORBOATS

1. Section 160.009–6 (a) is amended to read as follows:

§ 160.009–6 *Marking.* (a) Each ring life buoy shall be plainly marked in waterproof ink on both the body and the cover with the name and address of the manufacturer, the size of the buoy, and with the official approval number assigned.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, secs. 6, 17, 54 Stat. 164, as amended, 166, as amended, 347, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 481, 489, 367, 526e, 526p, 1333, 50 U. S. C. 198, E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

SUBPART 160.012—LIGHTS, WATER: SELF-IGNITING (CALCIUM CARBIDE—CALCIUM PHOSPHIDE TYPE), FOR MERCHANT VESSELS

2. Section 160.012–4 is amended by revising paragraph (a) and by adding a new paragraph (e), which reads as follows:

§ 160.012–4 *Sampling, inspections, and tests.* (a) *General.* Self-igniting water lights specified by this subpart are not inspected at regularly scheduled factory inspections of production lots, but the Commander of the Coast Guard District may detail a marine inspector at any time to visit any place where such lights are manufactured to check materials and construction methods and to conduct such tests and examinations as may be required to satisfy himself that the lights are being manufactured in compliance with the requirements of this specification and with the manufacturer's plans and specifications approved by the Commandant. The manufacturer shall provide a suitable place and the apparatus necessary for the use of the marine inspector in conducting tests at the place of manufacture. The marine inspector shall be admitted to any place in the factory where work is done on the lights or component materials, and samples of materials entering into construction may be taken by the marine inspector and tests made for compliance with the applicable requirements. The manufacturer shall obtain material affidavits or suitable invoices for all materials entering into the construction of the lights and shall maintain a file of such affidavits or invoices which shows the lot numbers of the lights in which the materials were used. This file shall be made available to the marine inspector upon demand.

(1) *Manufacturer's inspections and tests.* Manufacturers of approved water lights shall maintain quality control of the materials used, manufacturing methods, workmanship, and the finished product so as to meet the requirements of this specification, and shall make full inspections and tests of representative samples from each lot to maintain the quality of the product. From each lot the manufacturer shall test not fewer than one specimen light for susceptibility to explosion, paragraph (d) of this section; and not less than three specimen lights for disengaging load, paragraph (e) of this section, following which test them for burning time, paragraph (b) of this section, and candlepower, paragraph (c) of this section. The records for these tests shall be kept on file by the manufacturer and shall be made available to the Coast Guard marine inspector upon demand.

(2) *Lot size.* A lot shall consist of not more than 1,000 water lights of the same type and model. Lots shall be numbered serially by the manufacturer, and if at any time during the manufacture of a lot, any change or modification in materials or production methods is made, a new lot shall be started.

• • • • •

(e) *Disengaging load.* Hang the specimen light by the top pull ring. Suspend a 35-lb. weight from the bottom pull ring. At one minute intervals add weights to produce the following static loads: 36, 37, 38, 39, 40, 50, 60, 70, 80, 90, 100, 101, 102, 103, 104, 105, 110, 120, etc., pounds. The disengaging load shall be not less than 40 nor more than 100 pounds.

3. Section 160.012–5 is amended by adding a new paragraph (b), which reads as follows:

§ 160.012–5 *Marking.* • • •

(b) The lot number, and the month and year of manufacture, shall be plainly and permanently marked in indelible ink on the cylinder and on the packing carton or box in which the water light is shipped.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 404, 481, 489, 367, 1333, 50 U. S. C. 198, E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

SUBPART 160.015—LIFEBOAT WINCHES FOR FOR MERCHANT VESSELS

4. Section 160.015–1 is amended to read as follows:

§ 160.015–1 *Applicable regulations*—(a) *Regulations.* The following regulations of the issue in effect on the date lifeboat winches are manufactured, form a part of this subpart.

(1) Coast Guard regulations; Electrical Engineering Regulations, CG–259 (46 CFR (Subchapter J) Parts 110 to 113, inclusive of this chapter).

(b) *Copies on file.* A copy of the regulations referred to in this section shall be kept on file by the manufacturer, together with the approved plans, material affidavits, and the certificate of approval.

5. Section 160.015–2 is amended by revising paragraphs (h), (i), and (k), which read as follows:

§ 160.015–2 *General requirements for lifeboat winches.* • • •

(h) Falls shall not lead past any position that may be needed for the operation of the winch, such as hand cranks, pay-out wheels, brake levers, etc.

(i) Where falls lead along a deck they shall be suitably covered and so arranged that the top of the cover does not exceed 12 inches above the deck.

• • • • •

(k) For the purpose of calculations and conducting tests, the working load is the maximum load in pounds applied to the winch for which approval is desired.

6. Section 160.015–3 is amended by revising paragraphs (g) and (m), which read as follows:

§ 160.015–3 *Construction of lifeboat winches.* • • •

(g) In addition to the hand brake, a governor type brake shall be fitted so as to control the speed of lowering of the lifeboat in accordance with § 160.015–5 (b) (4) and (5).

• • • • •

(m) Motors, switches, controls, cables, etc., shall be of the waterproof type if installed on an open deck. Controls may be of the dripproof type if installed in a deck house or under deck. Installations shall be in accordance with Subchapter J (Electrical Engineering) of this chapter (Electrical Engineering Regulations, CG–259).

7. Section 160.015–5 is amended by revising subparagraphs (1) through (7) in paragraph (b), and by revising subparagraph (2) in paragraph (c), which read as follows:

§ 160.015–5 *Inspection and testing of lifeboat winches.* • • •

(b) *Factory test for initial approval.* (1) Lifeboat winches shall be tested for strength and operation at the place of manufacture in the presence of an inspector. The lifeboat winch under test shall be set up similar to the intended shipboard installation. In the case of a lifeboat winch with non-grooved drums, the drums shall be built up or sufficiently filled with wire to simulate the maximum number of wraps for which the winch is to be approved. The tests to be conducted are as noted in subparagraphs (2) to (8) of this paragraph. The limiting values of velocities and the 2 foot braking distance set forth in the following paragraphs of this section are the values to be actually achieved with the specific arrangement of falls contemplated for the shipboard installation. If a different arrangement of falls is used to facilitate testing, due consideration shall be given to the use of limiting velocities, braking distances, and test weights which will be equivalent to the test performed with an arrangement of falls identical to that used for the shipboard installation.

(2) A pull of 2.2 times the working load, equally divided between drums, shall be applied in a direction similar to a shipboard installation. The test weight producing this load shall be dropped through a distance of not less than 15 feet, at which time this weight shall be stopped within a distance of 2 feet by action of the counterweight alone on the hand brake.

(3) A test identical to that noted in subparagraph (2) of this paragraph shall be conducted after the braking surfaces have been thoroughly wetted. The test weight shall be stopped by the action of the counterweight alone within a distance of 6 feet. The test need only be applied to lifeboat winches having external brakes.

(4) With a pull equal to the working load, it shall be determined that the governor brake will limit the speed of lowering of the test weight to a maximum of 120 feet per minute, except that, in the case of winches designed for use with emergency lifeboats aboard passenger vessels, the speed of lowering shall not exceed 160 feet per minute.

(5) With a pull equal to 0.3 times the working load, it shall be determined that the winch will lower the test weight at not less than 40 feet per minute, except that, in the case of winches designed for use with emergency lifeboats aboard passenger vessels, the speed of lowering shall not be less than 60 feet per minute.

(6) With a pull equal to the working load, the test weight shall be lowered and raised a sufficient number of times so that the combined lowering distance is not less than 500 feet. This test is to determine the efficiency of the lifeboat winch for prolonged service.

(7) With a pull equal to 0.5 times the working load, it shall be demonstrated that the lifeboat winch can be hand operated by hoisting the test weight without undue effort. In the case of gravity davits, it shall be demonstrated that this test weight can be carried easily to the stowed position of the lifeboat.

• • • • •

(c) • • •

(2) Each lifeboat winch shall be set up in a manner similar to that described in subparagraph (1) of this section. With a pull equal to 1.1 times the working load, the test weight shall be dropped through a distance of not less than 15 feet, at which time the load shall be stopped by the action of the counterweight alone. This test is to demonstrate the operation of the winch, and if satisfactory, no further test need be required. However, if the inspector is not satisfied with the operation of the winch, a com-

plete test as noted in paragraph (b) of this section may be required.

8. Section 160.015–6 is amended by revising paragraphs (a) and (d), which read as follows:

§ 160.015–6 *Procedure for approval of lifeboat winches.* (a) Before action is taken on any design of lifeboat winch, detail plans covering fully the arrangement and construction of the lifeboat winch, a complete bill of material setting forth the physical properties of the materials used, and strength calculations, shall be submitted to the Commandant through the Commander of the Coast Guard District having jurisdiction over the construction of the lifeboat winch.

• • • • •

(d) Upon receipt of corrected drawings, material affidavits, and satisfactory test report, the Commandant will issue a certificate of approval. No change shall be made in the design or construction without first receiving permission of the Commandant via the Commander of the Coast Guard District in which the lifeboat winch is built.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, sec. 11, 35 Stat. 428, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 481, 489, 396, 367, 50 U. S. C. 198, E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

SUBPART 160.021—SIGNALS, DISTRESS, HAND RED FLARE, FOR MERCHANT VESSELS

9. Section 160.021–4 is amended by revising Table 160.021–4 (b) (2) (i) in paragraph (b), and paragraphs (e) and (m), which read as follows:

§ 160.021–4 *Sampling, inspections, conditioning, and tests.* • • •

(b) *Qualification (type or brand approval) tests.* • • •

(2) *Technical tests.* (i) • • •

TABLE 160.021–4 (b) (2) (i)

Letter identification	Number of specimens	Kind of tests	Paragraph references
a	2	Elevated temperature, humidity, and storage.	160.021–4 (l).
b	2	Spontaneous ignition	160.021–4 (m).
c	2	Chromaticity	160.021–4 (n).

• • • • •

(e) *Ignition and burning characteristics.* Test specimens shall ignite and burn properly when the directions on the signal are followed. Test specimens shall not ignite explosively in a manner that might be dangerous to the user or persons close by. Test specimens shall ignite and burn satisfactorily with uniform intensity. The plug separating the flare composition from the handle shall in no case allow flame or hot gases to pass through it or between it and the casing in such manner as might burn the hand while holding the signal by the handle.

• • • • •

(m) *Spontaneous ignition.* Place the specimen in a thermostatically controlled even-temperature oven held at 75° C. for 48 consecutive hours. Signals shall not ignite or undergo marked decomposition.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 481, 489, 367, 1333, 50 U. S. C. 198, E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

SUBPART 160.022—SIGNALS, DISTRESS, FLOATING ORANGE SMOKE, FOR MERCHANT VESSELS

10. Section 160.022–3 (d) is amended to read as follows:

§ 160.022–3 *Materials, workmanship, construction, and performance requirements.* • • •

(d) *Performance.* Signals shall meet all the inspection and test requirements contained in § 160.022–4.

11. Section 160.022–4 is amended by revising Table 160.022–4 (b) (2) (i) in paragraph (b), and paragraphs (e), (i), and (m), and by adding a new paragraph (n) (formerly paragraph (m)), which read as follows:

§ 160.022–4 *Sampling, inspections, conditioning, and tests.* • • •

(b) *Qualification (type or brand approval) tests.* • • •

(2) *Technical tests.* • • •

TABLE 160.022–4 (b) (2) (i)

Letter identification	Number of specimens	Kind of tests	Paragraph references
a	2	Elevated temperature, humidity, and storage.	160.022–4 (h).
b	2	Spontaneous ignition	160.022–4 (i).
c	1	Susceptibility to explosion.	160.022–4 (j).
d	1	Corrosion, color, and volume and density.	160.022–4 (k), (l) and (m).
e	1	Color and volume and density.	160.022–4 (l) and (m).

• • • • •

(e) *Ignition and smoke emitting characteristics.* Test specimens shall ignite and emit smoke properly when the directions on the signal are followed. Test specimens shall not ignite explosively in a manner that might be dangerous to the user or persons close by. Test specimens shall emit smoke at a uniform rate while floating in smooth water, and should float in such a manner that the rate of discharge will be constant while the signal is floating in rough water. Signals should be so constructed that moderately heavy seas likely to be encountered at sea will not cause the signal to become inoperative.

• • • • •

(i) *Spontaneous ignition.* Place the specimen in a thermostatically controlled even-temperature oven held at 75° C. for 48 consecutive hours. Signals shall not ignite or undergo marked decomposition.

• • • • •

(m) *Volume and density of smoke.* Test specimens shall show less than 20 percent transmission for not less than 1 minutes when measured with apparatus having a light path of 7½", an optical system aperture of ±3.7 degrees, and an entrance air flow of 650 cubic feet per minute, such apparatus to be as described in National Bureau of Standards Report No. 4792 dated July 1956.

(n) *Lot acceptance or rejection.* When the marine inspector has satisfied himself that the floating orange smoke distress signals in the lot are of a type officially approved in the name of the manufacturer and meet the requirements set forth in this subpart, each of the smallest packing cartons or boxes (usually containing 4 signals) in which the signals are sealed prior to shipment, shall be plainly marked with the words: "Inspected and Passed, (date), (port), Inspector's initials, U. S. C. G." A lot shall be rejected when the average percentage of failure, as computed by the table shown in paragraph (b) (1) of this section exceeds 15 percent. When notice is received by the marine inspector that specimen signals have failed to meet the requirements of the production check tests at a Government laboratory, further production check tests at the place of manufacture shall be discontinued until retests of adjusted samples show correction of the deficiency found. Signals from rejected lots may, when permitted by the marine inspector, be reworked by the manufacturer to correct the deficiency for which they were rejected and be resubmitted for official inspection. Signals from rejected lots may not, unless subsequently accepted, be sold or offered for sale under representation as being in compliance with this specification or as being approved for use on merchant vessels.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 481, 489, 367, 1333, 50 U. S. C. 198, E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

SUBPART 160.023—SIGNALS, DISTRESS, COMBINATION FLARE AND SMOKE, HAND, FOR MERCHANT VESSELS

12. Section 160.023–1 is amended to read as follows:

§ 160.023–1 *Applicable specifications.* (a) *Specification.* The following specification, of the issue in effect on the date hand combination flare and smoke distress signals are manufactured, forms a part of this subpart:

(1) Military Specification:

MIL–S–18655—Signal, Distress, Day and Night, Mark 13, Mod. 0.

(b) *Copies on file.* A copy of the specification referred to in this section shall be kept on file by the manufacturer, together with the approved plans and certificate of approval. The Military Specification may be obtained from the Commanding Officer, Naval Supply Depot, Scotia 2, N. Y.

13. Section 160.023–2 (a) is amended to read as follows:

§ 160.023–2 *Type.* (a) Hand combination flare and smoke distress signals specified by this subpart shall be of the type described in specification MIL–S–18655.

14. Section 160.023–3 (a) is amended to read as follows:

§ 160.023–3 *Materials, workmanship, construction, and performance requirements.* (a) The materials, construction, workmanship, general and detail requirements shall conform to the requirements of specification MIL–S–18655, except as otherwise specifically provided by this subpart.

15. Section 160.023–4 (a) is amended to read as follows:

§ 160.023–4 *Sampling, inspections, and tests.* (a) Sampling and tests of signals manufactured under this subpart for merchant vessels shall be done by a marine inspector in general accordance with the procedures provided by specification MIL–S–18655, except that the Coast Guard marine inspector shall be the cognizant inspector and the Coast Guard the cognizant agency.

16. Section 160.023–5 (a) is amended to read as follows:

§ 160.023–5 *Labeling and marking—*(a) *Labeling.* A label showing firing instructions in accordance with specification MIL–S–18655, and to include the commercial designation of the signal, the lot number, Coast Guard approval number and month and year of manufacture, shall be applied in a neat, workmanlike manner after the paint has become thoroughly dry. The label shall be attached to the signal and then protected by a transparent moisture impervious coating.

17. Section 160.023–7 (c) is amended to read as follows:

§ 160.023–7 *Procedure for approval.* • • •

(c) *Pre-approval sample.* After the first drawings and specifications have been examined and found to appear satisfactory, the manufacturer will be advised as to any corrections or additions which are necessary. A marine inspector then will be detailed to the factory to observe the production facilities and manufacturing methods and to select at random from not less than 50 signals already manufactured, a sample of not less than 24 specimens which will be forwarded prepaid by the manufacturer to the Commandant for the necessary conditioning and tests in accordance with the requirements for production lots as provided by specification MIL–S–18655 and this specification to determine compliance for qualification for type or brand approval for use on merchant vessels.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 481, 489, 367, 1333, 50 U. S. C. 198)

SUBPART 160.024—SIGNALS, DISTRESS, PISTOL-PROJECTED PARACHUTE RED FLARE, FOR MERCHANT VESSELS

18. Section 160.024–4 is amended by revising Table 160.024–4 (b) (2) (i) in paragraph (b) and paragraph (k), which read as follows:

§ 160.024–4 *Sampling, inspections, conditioning, and tests.* • • •

(b) *Qualification (type or brand approval) tests.* • • •

(2) *Technical tests.* (i) • • •

TABLE 160.024–4 (b) (2) (i)

Letter identification	Number of specimens	Kind of tests	Paragraph references

b	2	Spontaneous ignition	160.036–4 (k).
c	2	Chromaticity	160.036–4 (l).

• • • • • • •

(k) *Spontaneous ignition.* Place the specimen in a thermostatically controlled even-temperature oven held at 75° C. for 48 consecutive hours. Signals shall not ignite or undergo marked decomposition.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 481, 489, 367, 1333, 50 U. S. C. 198, E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

SUBPART 160.037—SIGNALS, DISTRESS, HAND ORANGE SMOKE, FOR MERCHANT VESSELS

20. Section 160.037–3 (d) is amended to read as follows:

§ 160.037–3 *Materials, workmanship, construction, and performance requirements.* • • •

(d) *Performance.* Signals shall meet all the inspection and test requirements contained in § 160.037–4.

21. Section 160.037–4 is amended by revising Table 160.037–4 (b) (2) (i) in paragraph (b), paragraphs (e), (l), and (o), and by adding a new paragraph (p) (formerly paragraph (o)), which read as follows:

§ 160.037–4 *Sampling, inspections, conditioning, and tests.* • • •

(b) *Qualification (type or brand approval) tests.* • • •

(2) *Technical tests.* (i) • • •

TABLE 160.037–4 (b) (2) (i)

Letter identification	Number of specimens	Kind of tests	Paragraph references
a	2	Elevated temperature, humidity, and storage.	160.037–4 (k).
b	1	Spontaneous ignition	160.037–4 (l).
c	1	Susceptibility to explosion.	160.037–4 (m).
d	2	Color and volume and density.	160.037–4 (n) and (o).

• • • • •

(e) *Ignition and smoke emitting characteristics.* Test specimens shall ignite and emit smoke properly when the directions on the signal are followed. Test specimens shall not ignite explosively in a manner that might be dangerous to the user or persons close by. The plug separating the smoke producing composition from the handle shall in no case allow flame or hot gases to pass through it or between it and the casing in such manner as might burn the hand while holding the signal by the handle.

• • • • •

(l) *Spontaneous ignition.* Place the specimen in a thermostatically controlled even-temperature over held at 75° C. for 48 consecutive hours. Signals shall not ignite or undergo marked decomposition.

• • • • • • •

(o) *Volume and density of smoke.* Test specimens shall show less than 70 percent transmission for not less than 30 seconds when measured with apparatus having a light path of 7½", an optical system aperture of ±3.7 degrees, and an entrance air flow of 650 cubic feet per minute, such apparatus to be as described in National Bureau of Standards Report No. 4792 dated July 1956.

(p) *Lot acceptance or rejection.* When the marine inspector has satisfied himself that the hand orange smoke distress signals in the lot are of a type officially approved in the name of the manufacturer and meet the requirements set forth in this subpart, each of the smallest packing cartons or boxes (usually containing 1 dozen signals) in which the signals are sealed prior to shipment, shall be plainly marked with the words: "Inspected and Passed, (date), (port), Inspector's initials, U. S. C. G." A lot shall be rejected when the average percentage of failure, as computed by the table shown in para-

graph (b) (1) of this section exceeds 15 percent. When notice is received by the marine inspector that specimen signals have failed to meet the requirements of the production check tests at a Government laboratory, further production check tests at the place of manufacture shall be discontinued until retests of adjusted samples show correction of the deficiency found. Signals from rejected lots may, when permitted by the marine inspector, be reworked by the manufacturer to correct the deficiency for which they were rejected and be resubmitted for official inspection. Signals from rejected lots may not, unless subsequently accepted, be sold or offered for sale under representation as being in compliance with this specification or as being approved for use on merchant vessels.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, sec. 3, 54 Stat. 347, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 481, 489, 367, 1333, 50 U. S. C. 198, E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

SUBPART 160.050—BUOYS, LIFE, RING, UNICELLULAR PLASTIC

22. Section 160.050–6 (a) is amended to read as follows:

§ 160.050–6 *Marking.* (a) A substantial corrosion-resistant name plate shall be permanently attached to one of the straps of each ring buoy on which there appears the name and address of the manufacturer, the size of the buoy, and approval number. Space shall also be provided for the date, the inspector's initials, and the letters, "U. S. C. G." Alternate methods of marking will be given special consideration.

(R. S. 4405, as amended, 4462, as amended; 46 U. S. C. 375, 416. Interpret or apply R. S. 4417a, as amended, 4426, as amended, 4488, as amended, 4491, as amended, secs. 1, 2, 49 Stat. 1544, 1545, as amended, secs. 6, 17, 3, 54 Stat. 164, as amended, 166, as amended, 347, as amended, sec. 3, 68 Stat. 675; 46 U. S. C. 391a, 404, 481, 489, 367, 526e, 526p, 1333, 50 U. S. C. 198, E. O. 10402, 17 F. R. 9917, 3 CFR, 1952 Supp.)

EDITORIAL CORRECTIONS

1. Coast Guard Document CGFR 58–23 and Federal Register Document 58–4797, published in the FEDERAL REGISTER of June 25, 1958, is corrected in the following respect:

a. In § 160.052–7 (a) (23 F. R. 4630) the phrase "to observe reduction methods" is corrected to read "to observe production methods."

2. The Coast Guard Document CGFR 58–10 and Federal Register Document 58–4845, published in the FEDERAL REGISTER of June 26, 1958, is corrected in the following respects:

a. In Table 112.05–1 (a) in § 112.05–1 (23 F. R. 4682), the third description of the size of vessel and service in column 1 is changed from "other than ocean and coastwise, 100 g. t. and over, but less than 1600 g. t." to read "other than ocean and coastwise, 100 g. t. and over."[1]

b. In § 113.25–10 (c) (1) (ii) (23 F. R. 4684), the phrase "whichever is the high" is changed to "whichever is the higher."

3. The 1952 revision of Part 45 of Title 46 CFR is corrected by changing the following references:

a. In § 46.01–60 (a) the reference "§ 45.20–80" is changed to "§ 45.25–5."

b. In § 45.01–65 (a) the reference "§ 45.20–80" is changed to "§ 45.25–5."

c. In § 45.15–10 (a) the reference "§ 45.15–60" is changed to "§ 45.15–27."

Dated: August 29, 1958.

J. A. HIRSHFIELD,
Rear Admiral, U. S. Coast Guard,
Acting Commandant.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 949]

[Docket No. AO–232–A7]

MILK IN SAN ANTONIO, TEXAS, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Travis Room of the St. Anthony Hotel, San Antonio, Texas, beginning at 10:00 a. m., c. s. t., on September 10, 1958, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the San Antonio, Texas, marketing area.

The public hearing is for the purpose of receiving evidence with respect to the economic and emergency marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

Proposed by the Producers Association of San Antonio:

1. Amend § 949.53 by adding a provision that for Class II milk utilized in the manufacture of Cheddar cheese the price shall be computed by multiplying by 8.4 the average of the daily prices paid per pound of cheese at Wisconsin primary markets ("Cheddars" f. o. b. Wisconsin assembling points, cars or truck loads) as reported by the Department for the month involved.

Proposed by the Dairy Division, Agricultural Marketing Service:

2. Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 1204 North Main Avenue, San Antonio 2, Texas, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 3d day of September 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 58–7239; Filed, Sept. 5, 1958; 8:55 a. m.]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 81]

PUBLIC HEARINGS UNDER THE FEDERAL WATER POLLUTION CONTROL ACT

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Surgeon General of the Public Health Service, with the approval of the Secretary of Health, Education, and Welfare, proposes to revise Part 81 of this subchapter as set out below. As so revised, these regulations will be applicable to hearings held under section 8 of the Federal Water Pollution Control Act (70 Stat. 504; 33 U. S. C. 466g). Interested persons may submit written data, views or arguments (in duplicate) in regard to these regulations to the Surgeon General, Public Health Service, Washington 25, D. C. All relevant material received not later than 30 days after the publication of this notice will be considered.

Part 81 will be revised to read as follows:

Sec.
81.1 Applicability.
81.2 Definitions.
81.3 Initiation of proceedings for public hearing; appointment of Board.
81.4 Organization and general procedures of the Board.
81.5 Notice of hearing.
81.6 Service.
81.7 Publication of notice.
81.8 Parties.
81.9 Presentation of evidence by the Surgeon General.
81.10 Hearing procedure.
81.11 Records of proceedings.
81.12 Oral argument.
81.13 Final findings and recommendations.

AUTHORITY: §§ 81.1 to 81.13 issued under sec. 10, 70 Stat. 506; 33 U. G. S. 466i. Interpret or apply sec. 8 (e), 70 Stat. 505; 33 U. S. C. 466g (e).

§ 81.1 *Applicability.* The provisions of this part apply to proceedings under section 8 (e) of the Federal Water Pollution Control Act (70 Stat. 504; 33 U. S. C. 466g (e)).

§ 81.2 *Definitions.* As used in this part:

(a) "Act" means the Federal Water Pollution Control Act, 70 Stat. 498, 33 U. S. C. 466.

(b) "Board" means the board appointed by the Secretary pursuant to section 8 (e) of the act (33 U. S. C. 466g (e)).

(c) "Department" means the Department of Health, Education, and Welfare.

(d) "Pollution" means any pollution declared to be subject to abatement by section 8 (a) of the act (33 U. S. C. 466g (a)).

(e) "Secretary" means the Secretary of Health, Education, and Welfare.

(f) "Surgeon General" means the Surgeon General of the Public Health Service.

(g) The definitions of terms contained in sections 8 and 11 of the act (33 U. S. C. 466g, 466j) shall be applicable to such terms as used in this part unless the context otherwise requires.

§ 81.3 *Initiation of proceedings for public hearing; appointment of Board.* (a) In any case where the Secretary finds that the conditions precedent to the calling of a public hearing under the act exist, he will call such a hearing, and may either fix the time and place thereof, or authorize the Surgeon General to do so.

(b) Prior to the hearing, the Secretary will appoint a hearing board of five or more persons, as provided in the act, and will designate one of the members as chairman. A majority of the Board shall be persons other than officers or employees of the Department. The Secretary may revoke appointment to the Board in the event of disability of a member, and may fill any vacancy in the membership of the Board, or in the office of chairman.

§ 81.4 *Organization and general procedures of the Board.* (a) The chairman shall convene the Board for hearing sessions and for such other meetings as may be necessary.

(b) The chairman shall preside at all hearing sessions and meetings of the Board. In case of the absence or incapacity of the chairman, the Board may elect from its members an acting chairman to preside and perform the duties of the chairman.

(c) The hearing shall be conducted in an informal but orderly manner in accordance with this part. A quorum of the Board for the purpose of the hearing shall consist of not less than five members. Questions of procedure during a hearing shall be determined by the chairman. Rulings of the chairman may be appealed to the Board.

(d) The Board shall have the power to rule upon offers of proof and the admissibility of evidence, to receive relevant evidence, to examine witnesses, to regulate the course of the hearing, to change the time and place of the hearing or any of its sessions upon reasonable notice to the parties, and to hold conferences for the settlement or simplification of issues.

(e) The Surgeon General shall provide for the Board such clerical and technical assistance as may be necessary.

(f) The Board shall designate an executive secretary, from personnel provided by the Surgeon General, who shall maintain and have custody of all official records and other documents pertaining to the functions of the Board, and shall perform such other duties related to its functions as the Board may prescribe.

(g) The Board may authorize the chairman and the executive secretary on its behalf to execute, issue or serve such notices, reports, communications, and other documents relating to the functions of the Board as it may deem proper.

§ 81.5 *Notice of hearing.* (a) The Surgeon General shall issue and serve notice of hearing as herein provided and, if the time and place of the hearing have not been fixed by the Secretary, shall fix such time and place.

(b) The notice of hearing shall identify the person or persons discharging any matter causing or contributing to the pollution, and briefly describe the nature of the discharge or discharges and the interstate waters affected thereby. The notice shall include the names of the persons constituting the Board before whom the hearing will be held upon a day and at a time and place specified not earlier than three (3) weeks after the service of the notice.

(c) Notice of hearing shall be served on the following:

(1) Each person named in the notice as discharging any matter causing or contributing to pollution and the water pollution control agency or interstate agency, to whom formal notification of such pollution has previously been given in accordance with the Act.

(2) The water pollution control agency or the interstate agency of the State or States, other than that in which the discharge originates, claiming to be adversely affected by such pollution.

§ 81.6 *Service.* Notice of hearing, findings, conclusions and recommendations of the Board, and any other documents relating to the functions of the Board, may be served by mailing a copy thereof addressed to each person or agency to be served at their respective residences, offices or places of business as ascertained by the Surgeon General or the Board, as the case may be.

§ 81.7 *Publication of notice.* Notice of the public hearing shall be published in the FEDERAL REGISTER at least three (3) weeks prior to the hearing.

§ 81.8 *Parties.* (a) The parties to a hearing shall include the persons and agencies specified in § 81.5 (c).

(b) The Surgeon General shall have all the rights of a party to the hearing.

(c) Upon application and good cause shown, the Board may permit any interested person or agency to appear before it and be admitted as a party to such extent and upon such terms as the Board shall determine proper.

(d) Any party may appear in person or by counsel.

(e) The failure of any party to file an appearance or appear at the hearing in response to the notice of hearing shall not delay the hearing and the Board may proceed, hear and receive evidence and take other appropriate action affecting such party.

§ 81.9 *Presentation of evidence by the Surgeon General.* The Surgeon General shall arrange for the presentation of evidence concerning the pollution, the person or persons discharging any matter causing or contributing to the pollution and remedial measures, if any, recommended by him.

§ 81.10 *Hearing procedure.* (a) Each witness shall, before testifying, be sworn or make affirmation.

(b) When necessary, in order to prevent undue prolongation of the hearing, the Board may limit the number of times any witness may testify, the repetitious examination or cross-examination of witnesses or the amount of corroborative or cumulative testimony.

(c) The Board shall exclude irrelevant, immaterial or unduly repetitious evidence.

(d) Every party shall have the right to present evidence and cross-examine witnesses.

§ 81.11 *Record of proceedings.* (a) Testimony given and other proceedings had at a hearing shall be reported verbatim. A transcript of such report shall be a part of the record and the sole official transcript of the proceedings.

(b) All written statements, charts, tabulations and similar data offered in evidence at the hearing shall, upon a showing satisfactory to the Board of their authenticity, relevancy and materiality, be received in evidence and shall constitute a part of the record.

(c) Where the testimony of a witness refers to a statute, or a report or document, the Board shall, after satisfying itself of the identification of such statute, report or document, determine whether the same shall be produced at the hearing and physically be made a part of the record or shall be incorporated in the record by reference.

(d) The Board may take official notice of statutes of the United States or of any State and of duly promulgated regulations of any Federal agency.

(e) The Board may take official notice of a material fact not appearing in the evidence in the record, but any party, prior to the conclusion of the hearing, shall be afforded an opportunity to show the contrary.

§ 81.12 *Oral argument.* Oral argument may be permitted in the discretion of the Board, and shall be reported as part of the record unless otherwise ordered by the Board.

§ 81.13 *Final findings and recommendations.* (a) The Board shall make its final findings, conclusions and recommendations, if any, based on the evidence presented at the hearing, and submit the same to the Secretary.

(b) Upon submission of such findings, conclusions and recommendations, the Board shall be terminated and all records pertaining to its functions transferred to the custody of the Surgeon General.

(c) A copy of the findings, conclusions, and recommendations, if any, of the Board shall be served on all parties to the hearing by the Secretary.

Dated: August 19, 1958.

[SEAL] JOHN D. PORTERFIELD,
Acting Surgeon General.

Approved: August 29, 1958.

ARTHUR S. FLEMMING,
Secretary of Health, Education, and Welfare.

NOTICES

DEPARTMENT OF THE TREASURY

United States Coast Guard

[CGFR 58-30]

WITHDRAWAL OF APPROVALS OF TOXIC VAPORIZING LIQUID TYPE FIRE EXTINGUISHERS, SUCH AS THOSE CONTAINING CARBON TETRACHLORIDE OR CHLOROBROMOMETHANE

A notice of proposed withdrawal of approvals of toxic vaporizing liquid type fire extinguishers, such as those containing carbon tetrachloride or chlorobromomethane, was published in the FEDERAL REGISTER of February 12, 1958 (23 F. R. 908), in conjunction with a notice of proposed rule making to revise the classification ratings for various types of portable and semiportable fire extinguishers. In accordance with this notice the Merchant Marine Council held a public hearing at Washington, D. C., on March 18, 1958. The changes in the regulations are further described in documents identified as CGFR 58-28[1] and 58-29,[2] which are published as "Rules and Regulations" in this FEDERAL REGISTER.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 120, dated July 31, 1950 (15 F. R. 6521), 167-14, dated November 26, 1954 (19 F. R. 8026), 167-15, dated January 3, 1955 (20 F. R. 840), 167-20, dated June 18, 1956 (21 F. R. 4894), and CGFR 56-28, dated July 24, 1956 (21 F. R. 5659), to prescribe requirements with respect to fire protection equipment in accordance with the statutes cited with the regulations in 46 CFR Parts 25, 76, 95, and 167:

It is ordered, That all approvals for toxic vaporizing liquid type fire extinguishers, such as those containing carbon tetrachloride or chlorobromomethane, are withdrawn, effective on the 91st day after the date of publication of this document in the FEDERAL REGISTER: *Provided*, That any such vaporizing liquid type fire extinguishers manufactured prior to this date and in service may be continued in service so long as in good and serviceable condition until January 1, 1962.

Dated: August 29, 1958.

[SEAL] J. A. HIRSHFIELD,
Real Admiral, U. S. Coast Guard, Acting Commandant.

POST OFFICE DEPARTMENT

ORGANIZATION AND ADMINISTRATION

MISCELLANEOUS AMENDMENTS

Corrected Reprint

In Federal Register Document 58-7190, appearing on page 6799 in the issue for Thursday, September 4, 1958, the first amendatory paragraph, now designated "a", should be designated "1", and the first line of 821.7 should read "a. An independent officer appointed by". As corrected, the entire document is reprinted as follows:

Federal Register Document 58-4353, appearing on pages 4010 to 4018, inclusive, of the issue for June 7, 1958, as amended (23 F. R. 5278-5281), is further amended as follows:

1. Amend section 821.7, Judicial Officer, to read as follows:

821.7—JUDICIAL OFFICER

a. An independent officer appointed by the Postmaster General, who acts for the Postmaster General in the performance of quasi-judicial functions having delegated authority from the Postmaster General to—

(1) Execute final departmental decisions and orders in administrative proceedings arising from alleged violation of postal laws and disputes over second-class permits conducted in accordance with the rules of practice and procedures of the Department; and modify, suspend, or rescind any action heretofore taken or hereafter taken pursuant to a delegation of authority.

(2) Preside at the reception of evidence in proceedings where expedited hearings are requested by either party or provided in Rules of Practice.

(3) Revise or amend the Post Office Department Rules of Practice for administrative hearings.

b. Decisions and orders of the Judicial Officer made under the delegated authority are the final departmental action from which there is no further administrative remedy or appeal. The Judicial Officer does not supervise or exercise control over any officer, employee or organization in the Post Office Department except as provided in 821.7 (c). He is responsible only to the Postmaster General and the Deputy Postmaster General. The Office of the General Counsel and the Bureau of the Chief Postal Inspector do not participate in or advise as to the decisions of the Judicial Officer in any proceeding. The Judicial Officer may refer any proceeding to either the Postmaster General or the Deputy Postmaster General for final decision.

c. Exercises administrative supervision over the Division of Hearing Examiners and the Docket Clerk but does not direct or participate in the Initial Decision of the Hearing Examiner in any proceeding.

2. Amend section 821.8, Division of Hearing Examiners, to read as follows:

821.8—DIVISION OF HEARING EXAMINERS

a. Hearing examiners are appointed and qualified in the manner prescribed by law (5 U. S. C. 1010). They preside at administrative hearings in cases involving alleged violations of postal laws or conflicts arising over second-class mail permits.

b. Examiners prepare initial decisions in those cases which become final departmental decisions, unless an appeal is taken to the Judicial Officer.

c. The Division of Hearing Examiners and the Docket Clerk are under the jurisdiction of the Judicial Officer for administrative supervision in the same manner as are Hearing Examiners assigned to independent regulatory commissions.

3. Amend paragraph a of section 822.2, General Counsel, to read as follows:

a. Serves as legal adviser to the Postmaster General, the Deputy Postmaster General, and the entire Postal Establishment with respect to legal interpretations and opinions; drafting or approving legal documents; and conduct of administrative hearings before regulatory agencies of the Federal Government and court proceedings on behalf of the Department. He does not advise or consult with the Judicial Officer or the Hearing Examiners with respect to their performance of the duties and functions assigned to them under sections 821.7 and 821.8 except in the disposition of ex parte matters as authorized by law, nor does he participate in the decisions of the Judicial Officer or Hearing Examiners.

(R. S. 161, as amended, 396, as amended; sec. 1 (b), 63 Stat. 1066; 5 U. S. C. 22, 1339-15, 369)

LEO G. KNOLL,
Acting General Counsel.

The foregoing amendments to the Department's Organization are hereby adopted.

[SEAL] E. O. SESSIONS,
Acting Postmaster General.

DEPARTMENT OF COMMERCE

Federal Maritime Board

LATINA SHIPPING CO., LTD. AND SEAPORT SHIPPING CO.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to § 15 of the Shipping Act, 1916 (39 Stat. 733, 46 U. S. C. 814):

Agreement No. 8292 between Latina Shipping Company, Ltd., New York, and Seaport Shipping Co. (Portland), Portland, Oregon, provides that Seaport will perform specified freight forwarding services for Latina in connection with the latter's shipments moving through Portland, Oregon; Latina is to compensate Seaport by payment of a service fee.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement, and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: September 3, 1958.

By order of the Federal Maritime Board.

[SEAL] JAMES L. PIMPER,
Secretary.

[F. R. Doc. 58-7218; Filed, Sept. 5, 1958; 8:51 a. m.]

GRACE LINE, INC.

NOTICE OF APPLICATION AND HEARING

Notice is hereby given that Grace Line, Inc. has filed application for the privilege of carrying cargo and passengers southbound from United States Atlantic ports to Jamaica on its passenger ships ss "Santa Rosa" and ss "Santa Paula" and its C-2 type combination passenger-cargo ships operating on Trade Route No. 4.

A public hearing will be held under section 605 (c) of the Merchant Marine Act, 1936, as amended, upon the aforementioned application, should any person, firm, or corporation having a material interest in said application file with the Secretary, Federal Maritime Board, by close of business on September 22, 1958, any protest, in writing, in triplicate, with a full and complete statement of the reasons for his objections, and request (also in writing, in triplicate) for hearing under section 605 (c).

The purpose of the hearing, should one be held, will be to receive evidence relevant to the following: (1) Whether the application with respect to the operations hereinabove described is one with respect to a vessel or vessels to be operated on a service, route, or line, served by citizens of the United States which would be in addition to the existing service or services, and, if so, whether the service already provided by vessels of United States registry in such service, route, or line is inadequate, and in the accomplishment of the purposes and policy of the Act, additional vessels should be operated thereon; (2) whether the application covering the aforesaid operation is one with respect to a vessel operated or to be operated in a service, route, or line served by two or more citizens of the United States with vessels of United States registry, and if so, whether the effect of such an agreement would be to give undue advantage or to be unduly prejudicial as between citizens of the United States in the operation of vessels in competitive services, routes, or lines; and (3) whether it is necessary to enter into an agreement covering these operations in order to provide adequate service by vessels of United States registry.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Federal Maritime Board determines that petitions to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Federal Maritime Board will take such action as may be deemed appropriate.

Dated: September 4, 1958.

By Order of the Federal Maritime Board.

[SEAL] JAMES L. PIMPER,
Secretary.

ATOMIC ENERGY COMMISSION

EMPIRE STEEL CASTINGS, INC.

BYPRODUCT MATERIAL LICENSE

Upon the basis of a preliminary investigation it appears that Empire Steel Castings, Inc. (hereinafter referred to as the "licensee") is the holder of License No. 37-2448-1 issued by the Atomic Energy Commission under its regulations in 10 CFR, Part 30 "Licensing of Byproduct Material;" and that said license authorizes the possession and use of two sealed sources containing 200 millicuries and 500 millicuries each of Cobalt-60; that the licensee is also in possession of a one curie source of Cobalt-60; and that the licensee's possession and use of such one curie source of Cobalt-60 are without license authority from the United States Atomic Energy Commission, and are, therefore, in violation of the Atomic Energy Act of 1954, as amended, and the regulations of the Atomic Energy Commission issued thereunder. Pursuant to said Act and regulations, the possession and use of byproduct material as defined therein are unlawful, except as authorized by a Commission license.

It further appears that subsequent to acquisition of the one curie of Cobalt-60 the licensee has submitted an application for amendment to its license requesting authorization to possess and use the said source; that the licensee's operating procedures, instrumentation, personnel monitoring equipment and facilities may be inadequate to protect health and minimize danger to life or property with respect to the licensee's intended use of the said source.

In view of the foregoing, it appears that the public health, interest and safety require the omission of a notice of violation in accordance with § 2.201 (b) of the Commission's rules of practice (10 CFR Part 2); and that the following order be effective immediately.

Pursuant to the Atomic Energy Act of 1954, as amended, and the regulations in Parts 2, 20 and 30, 10 CFR: *It is ordered*, That,

1. The licensee shall cease and desist from further use of the one curie source of Cobalt-60, the possession and use of which by the licensee has not been duly authorized by the Commission pursuant to the regulations in 10 CFR Part 30;

2. The licensee shall place the one curie source of Cobalt-60 in its possession in storage pending:

(a) Transfer of said source by the licensee to a recipient duly authorized by the Atomic Energy Commission to receive such source, after prior approval of the Atomic Energy Commission has been received by the licensee with respect to the method of transfer; or

(b) Issuance of a license by the Atomic Energy Commission to the licensee authorizing it to possess and use such source.

3. The licensee shall store the one curie source of Cobalt-60 in its possession in such manner that the storage of the source shall not cause any individual to receive a dose, or be exposed to radiation levels or airborne concentrations of radioactive material in excess of that permitted under the Atomic Energy Commission's regulations "Standards for Protection Against Radiation," 10 CFR Part 20, and the storage areas and containers shall be posted and labeled in accordance with the provisions of §20.203 of said regulation.

The licensee may request a formal hearing with respect to this order, or any part thereof, by filing a written request for hearing with the office of the Secretary, United States Atomic Energy Commission, Washington 25, D. C., within 15 days after the date of this order. Filing of a written request for hearing may also be accomplished in person either in the Commission's Public Document Room, 1717 H Street NW., Washington, D. C., or the office of the Secretary in Germantown, Maryland.

Signed and dated at Germantown, Maryland, this 29th day of August 1958.

For the Atomic Energy Commission.

EBER PRICE,
Acting Director,
Division of Licensing and Regulation.

FEDERAL POWER COMMISSION

[Docket No. G-16114]

WARREN PETROLEUM CORP.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 29, 1958.

Warren Petroleum Corporation (Warren) on July 31, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 29, 1958.

Purchaser: El Paso Natural Gas Company.

Rate schedule designation: Supplement No. 7 to Warren's FPC Gas Rate Schedule No. 22.

Effective date: September 1, 1958 (effective date is that proposed by Warren).

In support of the proposed favored-nation rate increase Warren submitted a copy of a letter from El Paso, dated July 11, 1958, in which El Paso states that as of June 1, 1958,[1] it would begin to pay higher prices to Phillips Petroleum Company for gas produced within the "favored-nation" area as set forth in the contract comprising Warren's FPC Gas Rate Schedule No. 22. In further support, Warren states the gas sales contract resulted from arm's-length bargaining and was entered into in good faith to provide for and reflect the market price of gas to be delivered in future years.

In addition to the support as stated, Warren also has submitted "for information purposes a cost of service study" which it considers "irrelevant and unnecessary to support the increase in price."

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or perferential or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 7 to Warren's FPC Gas Rate Schedule No. 22 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 7 to Warren's FPC Gas Rate Schedule No. 22.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7193; Filed, Sept. 5, 1958; 8:45 a. m.]

[1] Date Phillips' suspended rate became effective subject to refund at Docket No. G-14115.

[Docket No. G-16125]

ARKANSAS LOUISIANA GAS CO.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGES IN RATES, AND ALLOWING INCREASED RATES TO BECOME EFFECTIVE

AUGUST 29, 1958.

Arkansas Louisiana Gas Company (Respondent), on July 30, 1958, tendered for filing Supplement No. 3 to its FPC Gas Rate Schedule XFS-1 and revised tariff sheets[1] to two other rate schedules by which Respondent proposes to increase its rate for sale of gas in the amount of $28,358 annually to three purchasers[2] supplied with gas produced or gathered by Respondent in the State of Louisiana. August 1, 1958 is the requested effective date.

The clause in the contracts between Respondent and the buyers provide generally that the buyer will reimburse Respondent for 66⅔ percent (in the case of Rate Schedules XFS-1 and XFS-2) and 50 percent (in the case of Rate Schedule XFS-4) of any additional taxes over those presently paid by Respondent.

The increased rates and charges so proposed are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rates and charges until August 2, 1958, and thereafter to permit them to become effective as of that date: *Provided*, That within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated revised tariff sheets be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rates be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in the above-designated tenders.

(B) Pending such hearing and decision thereof, said Supplement No. 3 to Respondent's FPC Gas Rate Schedule XFS-1, First Revised Sheet No. 68 to Respondent's FPC Gas Rate Schedule XFS-3 and Second Revised Sheet No. 81 to Respondent's FPC Gas Rate Schedule XFS-4, are each hereby suspended and the use thereof deferred until August 2, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rates, charges, and classifications set forth in the above-designated filings shall be effective as of August 2, 1958: *Provided, however*, That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rates and charges and the proposed increased rates and charges hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the date upon which the increased rates allowed by this order become effective, and under the rates allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the revised tariff sheets involved, as follows:

Agreement and Undertaking of Arkansas Louisiana Gas Company To Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued ----------, in Docket No. G-16125, Arkansas Louisiana Gas Company hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused the agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ------ day of ----------

Arkansas Louisiana Gas Company

By ----------

Attest:

(Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) The aforementioned sheets hereby suspended shall not be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7194; Filed, Sept. 5, 1958; 8:45 a. m.]

[1] First Revised Sheet No. 68 (relating to Rate Schedule XFS-3) and Second Revised Sheet No. 81 (relating to Rate Schedule XFS-4) were tendered on August 19, 1958 in substitution for supplements to these rate schedules which were submitted on July 30, 1958.

[Docket No. G-16116]

HAROLD L. WOODS ET AL.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

AUGUST 29, 1958.

Harold L. Woods et al. (Respondent), on July 31, 1958, tendered for filing a proposed change in its presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.

Purchaser: Southwest Gas Producing Company, Inc.

Rate schedule designation: Supplement No. 4 to Respondent's FPC Gas Rate Schedule No. 1.

Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge until August 2, 1958, and thereafter to permit it to become effective as of that date: *Provided*, That within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until August 2, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of August 2, 1958: *Provided, however*, That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement

and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of Harold L. Woods, et al. to Comply with the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Changes

In conformity with the requirements of the order issued _____, in Docket No. G-16116, Harold L. Woods et al., on this _____ day of _____ hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and for this purpose has executed this agreement and undertaking

(Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplements hereby suspended nor the rate schedules sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[Docket No. G-16122]

T. J. AHERN ET AL.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 29, 1958.

T. J. Ahern et al. (Ahern) on August 1, 1958, tendered for filing a proposed change in his presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 29, 1958.

Purchaser: Texas Illinois Natural Gas Pipeline Company.

Rate schedule designation: Supplement No. 6 to Ahern's FPC Gas Rate Schedule No. 2.

Effective date: September 1, 1958 (effective date is the effective date proposed by Ahern).

In support of the proposed redetermined rate increase, Ahern submits a copy of a letter from Texas Illinois Natural Gas Pipeline Company informing him that the price has been redetermined to be a base price of 16.99 cents per Mcf plus tax reimbursement. Ahern has signed the letter in agreement.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 6 to Ahern's FPC Gas Rate Schedule No. 2 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 6 to Ahern's FPC Gas Rate Schedule No. 2.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until February 1, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7196; Filed, Sept. 5, 1958; 8:46 a. m.]

[Docket No. G-16113]

PHILLIPS PETROLEUM CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 29, 1958.

Phillips Petroleum Company (Phillips), on July 30, 1958, tendered for filing a proposed change in its presently effective rate schedule [1] for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes increased rates and charges, is contained in the following designated filing:

Description: Notice of Change, dated July 29, 1958.

Purchaser: Arkansas Louisiana Gas Company.

Rate schedule designation: Supplement No. 21 to its FPC Gas Rate Schedule No. 11.

Effective date: September 26, 1958 (effective date is the effective date proposed by Phillips).

In support of the proposed rate increase, Phillips states that the proposed price is not unjust nor unreasonable, that the new rate will do no more than reduce the deficiency in Phillips' jurisdictional revenues, that many producers in the area are receiving prices greatly in excess of those proposed, and that the indicated price of the subject gas as shown by Exhibit No. 324 in Docket No. G-16116, et al. is 20.2 cents per Mcf.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 21 to Phillips' FPC Gas Rate Schedule No. 11 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 21 to Phillips' FPC Gas Rate Schedule No. 11.

(B) Pending such hearing and decision thereon, said supplement be and is hereby suspended and the use thereof deferred until February 26, 1959, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission (Commissioner Hussey dissenting).

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7197; Filed, Sept. 5, 1958; 8:46 a. m.]

[1] Present rate previously suspended and in effect subject to refund in Docket No. G-11125.

[1] A previous increase was suspended in Docket No. G-13099 until February 1, 1958, but motion to place the suspended rate into effect subject to refund was never filed by Ahern.

[Docket No. G-16121]

SOUTHWEST NATURAL PRODUCTION CO.

ORDER FOR HEARING AND SUSPENDING PROPOSED CHANGE IN RATES

AUGUST 29, 1958.

Southwest Natural Production Company (Southwest) on July 31, 1958, tendered for filing a proposed change in its presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated July 30, 1958.

Purchaser: Arkansas Louisiana Gas Company.

Rate schedule designation: Supplement No. 4 to Southwest's FPC Gas Rate Schedule No. 8.

Effective date: September 4, 1958 (effective date is the date on which Supplement No. 3 to Southwest's FPC Gas Rate Schedule was accepted for filing and permitted to become effective).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge.

The increased rate and charge so proposed has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that Supplement No. 4 to Southwest's FPC Gas Rate Schedule No. 8 be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in Supplement No. 4 to Southwest's FPC Gas Rate Schedule No. 8.

(B) Pending such hearing and decision thereon, said supplement be and it is hereby suspended and the use thereof deferred until September 5, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(C) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7198; Filed, Sept. 5, 1958; 8:46 a. m.]

[Docket No. G-16070]

F. A. CALLERY, INC., ET AL.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGES IN RATES, AND ALLOWING INCREASED RATES TO BECOME EFFECTIVE

AUGUST 29, 1958.

F. A. Callery, Inc., et al. (Respondent), on July 30, 1958, tendered for filing proposed changes in its presently effective rate schedules for sales of natural gas subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings:

Description: Notices of Change, Dated July 29, 1958.

Purchaser: United Gas Pipe Line Company.

Rate schedule designation: Supplement No. 2 to Respondent's FPC Gas Rate Schedule No. 13. Supplement No. 3 to Respondent's FPC Gas Rate Schedule No. 13.

Effective date: August 1, 1958 (effective date is the date proposed by Respondent).

Respondent on October 2, 1957, tendered a Notice of Change which reflected a 4 mil periodic increase from 17.80¢ per Mcf to 18.20¢ and said Notice of Change was designated Supplement No. 1 to Respondent's FPC Gas Rate Schedule No. 13. By order issued November 1, 1957, at Docket No. G-13616, we suspended said supplement and deferred its use "until April 2, 1958, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act." As of the date of this order, said Supplement No. 1 has not been made effective subject to refund.

The instant Notice of Change which is designated herein as Supplement No. 2 to Callery's FPC Gas Rate Schedule No. 13 proposes to increase the level of rate from 17.80¢ per Mcf, the presently effective price, to 18.55¢, a price reflecting the Louisiana tax increase. The instant Notice of Change which is designated herein as Supplement No. 3 to Callery's FPC Gas Rate Schedule No. 13, on the other hand proposes to increase the level of rate from 18.20¢ per Mcf, the increased rate not as yet made effective subject to refund, to 18.95¢, an amount also reflecting the Louisiana tax increase.

The increased rates and charges proposed in Supplement Nos. 2 and 3 are intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable (1) to suspend Supplement No. 2 until August 2, 1958, and thereafter to permit it to become effective as of that date; provided, that within 20 days from the date of this order Respondent shall file with the Secretary of this Commission an appropriate undertaking to assure such refund as may be ordered and (2) to suspend Supplement No. 3 until the date on which Supplement No. 1 is made effective in the manner prescribed by the Natural Gas Act.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplements be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rates be made effective as hereinafter provided, and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rates and charges contained in Supplement Nos. 2 and 3 to Respondent's FPC Gas Rate Schedule No. 13.

(B) Pending such hearing and decision thereon, Supplement No. 2 is hereby suspended and the use thereof deferred until August 2, 1958, and until such further time as each is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in said Supplement No. 2 to Respondent's FPC Gas Rate Schedule No. 13 shall be effective as of August 2, 1958: *Provided, however,* That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (F) below.

(D) Pending such hearing and decision thereon, Supplement No. 3 is hereby suspended and the use thereof deferred until the date on which Supplement No. 1 is made effective in the manner prescribed by the Natural Gas Act.

(E) Respondent shall refund at such times and in such amounts to the per-

sons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rates and charges and the proposed increased rates and charges hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates or charges allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rates in effect immediately prior to the date upon which the increased rates allowed by this order become effective, and under the rates allowed by this order to become effective, together with the differences in the revenues so computed.

(F) As a condition of this order, as such applies to aforesaid Supplement No. 2, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (E) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of F. A. Callery, Inc., et al. to Comply with the Terms and Conditions of Paragraph (E) of Federal Power Commission's Order Making Effective Proposed Rate Charges

In conformity with the requirements of the order issued _____, in Docket No. G-16070, F. A. Callery, Inc., et al., hereby agrees and undertakes to comply with the terms and conditions of paragraph (E) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this _____ day of _____.

_____

By _____

Attest:

_____

(Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(G) If Respondent shall, in conformity with the terms and conditions of paragraph (E) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise it shall remain in full force and effect.

(H) Neither the supplements hereby suspended nor the rate schedule sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(I) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[Project No. 1971]

IDAHO POWER CO.

NOTICE OF LAND WITHDRAWAL; OREGON

SEPTEMBER 2, 1958.

In accordance with Article 45 of the license, issued August 8, 1955, for this Project, the Idaho Power Company (Licensee) on May 9, 1958, filed exhibits for the inclusion, in its transmission system, of the Oxbow-Pallette Junction 230 kv transmission line.

Therefore, in accordance with the provisions of section 24 of the Act of June 10, 1920, as amended, notice is hereby given that the hereinafter described lands, insofar as title thereto remains in the United States, are from May 9, 1958, the date of filing of exhibits, reserved from entry, location or other disposal under the laws of the United States until otherwise directed by the Commission or by Congress.

All portions of the following described subdivisions lying within 75 feet of the center line survey of the transmission line right-of-way location from the Oxbow powerhouse to Pallette Junction, as delimited on map Exhibit J and K, consolidated (F. P. C. No. 1971-65), entitled "Oxbow-Palette Junction-Hells Canyon 230 kv Transmission Line" and filed in the Commission May 9, 1958.

[Docket No. E-6816]

PUBLIC SERVICE COMPANY OF OKLAHOMA

ORDER FIXING TIME AND PLACE OF HEARING AND GRANTING INTERVENTION

SEPTEMBER 2, 1958.

The Commission, by order issued April 17, 1958, in the above-entitled matter (19 FPC 554), (1) ordered that a hearing be held concerning the lawfulness of a proposed rate schedule of Public Service Company of Oklahoma, Rate Schedule FPC No. 151, at a time and place and in the manner to be fixed by further order of the Commission; and (2) suspended the operation of that rate schedule and deferred the use thereof as more specifically set forth in that order. Public Service Company of Oklahoma by that proposed rate schedule proposes to effect certain revisions both in the type of electric service which it renders to the Grand River Dam Authority and its rates and charges therefor.

The Grand River Dam Authority, an agency of the State of Oklahoma, by petition filed May 22, 1958, requested leave to intervene and participate as a party in this proceeding all in support of the aforementioned rate schedule. By that petition, Grand River Dam Authority also requested permission to file with the Commission a proffered agreement between the Public Service Company of Oklahoma and the Grand River Dam Authority dated April 21, 1958, which by its terms would amend certain contractual provisions between those parties as embodied in Public Service Company of Oklahoma's Rate Schedule FPC No. 151.

Kamo Electric Cooperative, an "electric cooperative" organized and existing under the laws of the State of Oklahoma, together with a number of other such electric cooperatives,[1] by petition filed June 9, 1958, requested leave to intervene and participate as interveners and be fully heard in all matters involving or relating to this matter, all in support of certain contentions generally in opposition to the Public Service Company of Oklahoma's Rate Schedule FPC No. 151.

The aforementioned electric cooperatives, with the exception of Oklahoma Statewide Electric Cooperative, are stated to be engaged in the distribution and sale of electric power and energy (obtained from the Grand River Dam Authority), to rural customers in all or part of certain named counties in the State of Oklahoma. Oklahoma Statewide is said to be engaged in coordinating and assisting the other named electric cooperatives in promoting and planning for the widespread use of electric power and energy in Oklahoma.

In the opinion of the Commission, the participation of the Grand River Dam Authority, Kamo Electric Cooperative and the other above-named electric cooperatives, in this proceeding may be in the public interest and, therefore, they should be granted permission to intervene and participate herein as hereinafter provided. Also, it is appropriate and in the public interest in carrying out the provisions of the Federal Power Act that the public hearing ordered by the aforementioned Commission order be commenced as hereinafter provided.

Considering the issues herein before the Commission and the respective positions of the aforementioned petitioners, the following order of presentation on direct is anticipated (1) Public Service Company of Oklahoma and Grand River Dam Authority, (2) Kamo Electric Cooperative and the other above-named electric cooperatives, and (3) staff; each such presentation being followed by a recess of the hearing and the opportunity for cross examination with respect to that particular presentation with further recesses of the hearing following the opportunity for cross examination of (1) and before the presentation of (2) and following the opportunity for cross examination of (2) and before the presentation of (3); each of the above recesses being for a minimum period of four calendar weeks unless otherwise agreed to by the parties herein including staff.

Wherefore, the Commission, pursuant to the authority contained in the Federal Power Act, particularly sections 205, 307, 308, and 309, orders:

(A) The public hearing concerning the lawfulness of Public Service Company of Oklahoma's Rate Schedule FPC No. 151 ordered by the aforementioned Commission order be held commencing October 21, 1958, at 10:00 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington 25, D. C.

(B) Grand River Dam Authority, Kamo Electric Cooperative and the other above-named electric cooperatives are hereby permitted to become interveners in this proceeding: *Provided, however,* That with respect to each of those petitioning parties, its participation shall be limited to matters affecting its asserted rights and interests specifically set forth in its respective petition for leave to intervene: *And provided further,* That with respect to each of those petitioning parties, the admission of such petitioning party shall not be construed as recognition by the Commission that such petitioning party might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(C) Interested State Commissions may participate in this proceeding as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

(D) The Commission hereby accepts for information purposes only, the aforementioned agreement between the Public Service Company of Oklahoma and the Grand River Dam Authority dated April 21, 1958, proffered by the Grand River Dam Authority. Nothing herein contained shall be construed (1) as constituting an acceptance of said agreement for filing to effect a change in Public Service Company of Oklahoma's Rate Schedule FPC No. 151; (2) as effecting a change in that rate schedule; or (3) as being in any way prejudicial to any request which hereafter may be made by Public Service Company of Oklahoma for permission to change such rate schedule, pursuant to the Commission's regulations under the Federal Power Act.

By the Commission.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7222; Filed, Sept. 5, 1958; 8:52 a. m.]

[Docket No. G-4207]

SAM SKLAR

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 2, 1958.

Take notice that Sam Sklar, Trustee (Applicant), a partnership having its principal place of business in Shreveport, Louisiana, filed on October 6, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces natural gas from its acreage in the Cotton Valley Field, Webster Parish, Louisiana, and sells such gas in interstate commerce for resale to: (1) United Gas Pipe Line Company (United) under a contract between Applicant and United, executed April 29, 1940, as amended November 29, 1952, and designated in the Commission's files as Applicant's FPC Gas Rate Schedule No. 3, and (2) Louisiana Nevada Transit Company (Louisiana Nevada) under a contract between Louisiana Nevada and the Cotton Valley Operators Committee, executed October 24, 1940, and designated in the Commission's files as Applicant's FPC Gas Rate Schedule No. 4.

Analysis of the above-mentioned Rate Schedule No. 4 discloses that Applicant's sale to Louisiana Nevada is made under a contract to which Applicant is not a signatory party; therefore, the Applicant is hereby notified that that portion of its application relating to the sale of natural gas to Louisiana Nevada will be dismissed, and that the Commission's action accepting Applicant's FPC Gas Rate Schedule No. 4 will be rescinded, pursuant to § 154.91 (d) of the Commission's regulations under the Natural Gas Act. The order accompanying the Commission's Opinion No. 314, issued July 23, 1958, ordered the Cotton Valley Operators Committee to file an application for a certificate of public convenience and necessity and to file a rate schedule covering the sale of natural gas to Louisiana Nevada from the Cotton Valley Field.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 7, 1958, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 24, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 2, 1958.

Take notice that Panhandle Eastern Pipe Line Company (Applicant), a Delaware corporation, having its principal officers at 1221 Baltimore Avenue, Kansas City, Missouri, and 120 Broadway, New York, New York, filed on January 31, 1958, an application and on April 22, 1958, and May 27, 1958, supplements thereto, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing the acquisition and operation of certain natural gas transmission facilities, as hereinafter described, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Panhandle proposes to acquire by purchase from the Town of Lapel, Indiana (Town) 4.9 miles of natural gas pipeline and other appurtenant facilities, more particularly described as follows: Twenty-six thousand three hundred thirty-four feet, more or less, of steel pipeline 4½ inches in outside diameter running from the connection of said line with the Panhandle Eastern Pipe Line Company's Anderson 18-inch Lateral to the point downstream of the measuring and regulating devices housed in the town border station of the Town of Lapel where the gas enters the distribution system of the Town of Lapel, Indiana; such portion of the farm tap connection service lines which are located along and connected to said 4½ inch steel pipeline as may be owned by the Town or the Municipal Gas Company thereof; all meters, regulators, valves and other equipment and fixtures attached and appurtenant to said line and to the farm tap service lines, including the building housing the town border station and all measuring and regulating devices therein contained; all land owned by the Town or the Municipal Gas Company thereof which is a part of the tract on which the town border station stands; and any and all rights of way, easements, permits, licenses and agreements under or pursuant to which the Town has constructed and now maintains said line and appurtenant property.

Applicant alleges that the facilities proposed to be acquired comprise all of the gas transportation facilities owned by the Town, but do not include the lines and other facilities which the Town owns and uses for the distribution of gas at low pressures to the public in the Town of Lapel.

The consideration proposed to be paid for the said facilities is $15,814.78 from funds on hand.

Applicant alleges that it delivers gas through the pipeline and facilities proposed to be purchased to the Town of Lapel for resale to the public and to Brockway Glass Company (Brockway), a direct industrial customer. There are also approximately twenty farm service tap customers served from said pipeline, which Applicant will continue to serve.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 14, 1958, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before October 1, 1958. Failure of any party to appear at and participate in the hearing will be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7224; Filed, Sept. 5, 1958; 8:52 a. m.]

[Docket No. G-14836]

MIDSTATES OIL CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 2, 1958.

Take notice that on April 4, 1958, Midstates Oil Corporation, (Applicant) filed an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale of natural gas to United Gas Pipe Line Company (United) for resale for ultimate public consumption, subject to the jurisdiction of the Commission, which gas is produced by Applicant from approximately 529.17 acres located in the Normanna and South Tuleta Fields, Bee County, Texas, as more fully described in the application on file with the Commission and open to public inspection.

The estimated volume of gas to be sold per month is 93,000 Mcf and the proposed price is 17 cents per Mcf at 14.65 psia. A gas sales contract between the Applicant and United dated March 31, 1958, is made a part of the application and has been designated Midstates Oil Corporation FPC Gas Rate Schedule No. 61, which said agreement provides for periodic price increases and a redetermination clause.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 8, 1958, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 25, 1958.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7225; Filed, Sept. 5, 1958; 8:52 a. m.]

[Docket No. G-15339]

JOHN B. HAWLEY, JR.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 2, 1958.

Take notice that John B. Hawley, Jr., Trustee (Applicant), filed an application on June 23, 1958, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the sale of natural gas in interstate commerce as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant seeks athority to sell natural gas in interstate commerce to Cities Service Gas Company (Cities Service) for resale from the Danner A-1 gas unit, located in the Hugoton Field, Finney County, Kansas.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 7, 1958 at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 26, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7226; Filed, Sept. 5, 1958; 8:52 a. m.]

[Docket No. G-15715]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION AND DATE OF HEARING

SEPTEMBER 2, 1958.

Take notice that United Gas Pipe Line Company (Applicant), a Delaware corporation having its principal place of business at Shreveport, Louisiana, filed on July 29, 1958, an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate, during the year 1959, taps, meters and appurtenant facilities necessary to render service to not more than 25 unnamed road construction contractors who annually use natural gas in connection with Federal, State, or local road building projects. Exact information is not available as to the facilities, number of customers, their location, or the amount of gas they would need, as the road building projects are transient. The temporary deliveries cease and the contracts terminate when the road construction projects are completed. Applicant states that its past experience shows that the average road project uses about 16,000 Mcf of natural gas, generates a revenue of about $4,000 to Applicant and requires Applicant to invest about $500.00 for construction and subsequent removal of facilities.

The amount of gas involved is small compared to Applicant's available system reserves. The service, as proposed, would have no appreciable effect on Applicant's available gas reserves or service to existing customers.

The purpose of this budget type application is to avoid hardship upon the road building contractors in awaiting the preparation and filing of an application for each project and the delay involved in hearing and decision in each instance.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on October 7, 1958, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 30, 1958. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] JOSEPH H. GUTRIDE, *Secretary.*

[F. R. Doc. 58-7227; Filed, Sept. 5, 1958; 8:52 a. m.]

[Docket No. G-16077]

CHEYENNE OIL CORPORATION OF DELAWARE ET AL.

ORDER FOR HEARING, SUSPENDING PROPOSED CHANGE IN RATE, AND ALLOWING INCREASED RATE TO BECOME EFFECTIVE

SEPTEMBER 2, 1958.

Cheyenne Oil Corporation of Delaware (Operator), et al., (Respondent) on August 14, 1958, tendered for filing a proposed change in his presently effective rate schedule for the sale of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, dated August 8, 1958.

Purchaser: Texas Gas Transmission Corporation.

Rate schedule designation: Supplement No. 1 to Respondent's FPC Gas Rate Schedule No. 1.

Effective date: September 13, 1958 (effective date is the first day after expiration of required thirty days notice).

The increased rate and charge so proposed is intended to reflect (in whole or in part) the additional "excise, license, or privilege tax" of one cent per Mcf levied by the State of Louisiana pursuant to Act No. 8 of 1958 (House Bill 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950. The Commission is advised that litigation is being instituted to challenge the constitutionality of the said Act No. 8 of 1958. In consideration of this fact, and in order to assure appropriate refund in the event said Act No. 8 of 1958 should be declared unconstitutional or otherwise held invalid by final judicial decision, it is deemed advisable to suspend the said proposed increased rate and charge until September 14, 1958, and thereafter to permit it to become effective as of that date; provided, that within 20 days from the date of this order Respondent shall file with the Secretary of the Commission an appropriate undertaking to assure such refund as may be ordered.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

(2) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that Respondent's proposed increased rate be made effective as hereinafter provided and that Respondent be required to file an undertaking as hereinafter ordered and conditioned.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the proposed increased rate and charge contained in the above-designated supplement to Respondent's FPC Gas Rate Schedule.

(B) Pending such hearing and decision thereon, said supplement be and it hereby is suspended and the use thereof deferred until September 14, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(C) The rate, charge, and classification set forth in the above-designated supplement to Respondent's FPC Gas Rate Schedule shall be effective as of September 14, 1958: *Provided, however,* That within 20 days from the date of this order, Respondent shall execute and file with the Secretary of the Commission the agreement and undertaking, described in paragraph (E) below.

(D) Respondent shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to the said Act No. 8 of 1958, then, and in that event, a proportionate part of the interest so received by the Respondent herein shall be passed on and paid to the

persons entitled thereto at such times and in such amounts, and in such manner as may be required by final order of the Commission. Respondent shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original and four copies), in writing and under oath, to the Commission quarterly, or monthly if Respondent so elects, for each billing period, and for each purchaser, the billing determinants of natural gas sales to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order becomes effective, and under the rate allowed by this order to become effective, together with the differences in the revenues so computed.

(E) As a condition of this order, within 20 days from the date of issuance thereof, Respondent shall execute and file in triplicate with the Secretary of this Commission its written agreement and undertaking to comply with the terms of paragraph (D) hereof, signed by a responsible officer of the corporation, evidenced by proper authority from the board of directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

Agreement and Undertaking of_____ to Comply With the Terms and Conditions of Paragraph (D) of Federal Power Commission's Order Making Effective Proposed Rate Charges

In conformity with the requirements of the order issued _____, in Docket No. G-_____, hereby agrees and undertakes to comply with the terms and conditions of paragraph (D) of said order, and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its board of directors, a certified copy of which is appended hereto this ____ day of _____.

_____

Attest: By _____

_____

(Secretary)

Unless Respondent is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

(F) If Respondent shall, in conformity with the terms and conditions of paragraph (D) of this order, make the refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(G) Neither the supplement hereby suspended nor the rate schedule sought to be altered thereby shall be changed until the period of suspension has expired, unless otherwise ordered by the Commission.

(H) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.

[SEAL] MICHAEL J. FARRELL,
Acting Secretary.

[F. R. Doc. 58-7228; Filed, Sept. 5, 1958; 8:53 a. m.]

[Docket No. E-6839]

CENTRAL VERMONT PUBLIC SERVICE CORP.

NOTICE OF APPLICATION

SEPTEMBER 2, 1958.

Take notice that on August 22, 1958, an application was filed with the Federal Power Commission pursuant to section 203 of the Federal Power Act by Central Vermont Public Service Corporation ("Applicant"), a corporation organized under the laws of the State of Vermont and qualified to do business as a foreign corporation in the States of New Hampshire and New York, with its principal business office at Rutland, Vermont, seeking an order authorizing it to sell or otherwise dispose of certain of its facilities to Vermont Electric Power Company, Inc. ("Velco"). Velco, a subsidiary of Applicant, which is incorporated in the State of Vermont with its principal business office at Rutland, Vermont, was organized for the primary purpose of constructing and operating transmission and associated facilities to receive and transmit 100,000 KW of firm power from the St. Lawrence River Development, pursuant to a contract dated June 13, 1957, between Velco and the State of Vermont, and to deliver such power directly or through the facilities of others to allottees of the State of Vermont. Velco intends to begin receiving St. Lawrence power on or about September 2, 1958. Applicant is engaged primarily in the business of generating, purchasing, transmitting, distributing and selling electric energy for thirteen counties in Vermont. It also sells electric energy to four customers in Washington County, New York.

The facilities to be transferred consist of approximately 33.8 circuit miles of 115 KV transmission line between Essex and Middlebury, Vermont, and approximately 12.3 circuit miles of 115 KV transmission line between Essex and Milton, Vermont. Their present use is for the interchange of power between the Central system and the St. Albans system (both in Applicant's main system) and subsequent to the transfer will be used by Applicant as at present and by Velco for the transmission of St. Lawrence power to allottees of the State of Vermont. The proposed transfer does not include all the operating facilities of either party to the transaction. The consideration for the transfer will be cash equal to the original cost of the facilities, less the amounts accrued for depreciation as of September 1, 1958. The original cost of the facilities to be sold, less accrued depreciation, as of September 1, 1958, is $712,994.36. Applicant states that the proposed sale will not have any effect upon any [illegible] for the purchase, sale or interchange of electric energy except to permit Velco to fulfill its commitments to the State of Vermont under Power Transmission Contract dated June 13, 1957.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 22d day of September 1958, file with the Federal Power Commission, Washington 25, D. C., petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file and available for public inspection.

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 58-7229; Filed, Sept. 8, 1958; 8:53 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3726]

MISSOURI POWER & LIGHT CO.

NOTICE OF FILING OF APPLICATION REGARDING ISSUANCE OF SHORT-TERM NOTES

AUGUST 29, 1958.

Notice is hereby given that Missouri Power & Light Company ("Missouri"), a public-utility subsidiary of Union Electric Company ("Union"), a registered holding company, has filed with the Commission and application pursuant to the Public Utility Holding Company Act of 1935 ("Act") and has designated section 6 (b) thereof as applicable to the proposed transactions, which are summarized as follows:

As of August 14, 1958, Missouri had outstanding $1,075,000 of promissory notes issued to two banks, of a maturity of nine months from date of issue, which were issued pursuant to the exemptive provisions contained in the first sentence of section 6 (b) of the act. Missouri expects that it will be necessary to borrow an additional amount of $400,000 on or about September 10, 1958, at which time the total aggregate amount of such promissory notes will be $1,475,000. This amount is within the maximum amount, $1,575,000, which Missouri may presently issue under such exemptive provisions, or 5 per centum of the aggregate of the principal amount of Missouri's long-term debt and the par value of its preferred and common stock.

Missouri estimates its cash requirements from external sources for construction purposes during the months October 1958 through March 1959 will aggregate $3,150,000. This includes $1,475,000 for the repayment of the promissory notes to be outstanding on or about September 10, 1958, which will be held by Central Missouri Trust Company (Jefferson City, Missouri) and The Chase Manhattan Bank. Missouri has made arrangements with the present holders of its short-term notes, and with two other financial institutions, Harris

Trust and Savings Bank of Chicago, Illinois, and the Exchange National Bank of Jefferson City, Missouri, for bank loans in the aggregate amount of $3,150,000, without any commitment fees, as required by Missouri from time to time. These loans will be evidenced by promissory notes to be dated as of the date of each particular borrowing, will mature on June 30, 1959, will bear interest at the prime rate effective at the particular time of borrowing, and will be prepayable prior to maturity without premium.

It is further stated that Missouri contemplates permanent financing during the first six months of 1959 to obtain funds for the repayment of its promissory notes and for the continuation of its construction program.

Accordingly, Missouri requests the Commission to enlarge the percentage which Missouri may borrow, pursuant to the first sentence of section 6 (b) of the act, from 5 percent to 10 percent, such increase to remain in effect until June 30, 1959, or such earlier date upon which Missouri shall have consummated its permanent financing referred to above.

It is stated that no other regulatory commission has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 19, 1958, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by such filing which he proposes to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application as filed or as it may hereafter be amended, may be granted as provided in Rule 23 of the rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20 (a) and 100, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 58-7200; Filed, Sept. 5, 1958; 8:47 a. m.]

[File No. 812-1173]

NATIONAL AVIATION CORP.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION OF PURCHASE OF SECURITIES DURING EXISTENCE OF UNDERWRITING SYNDICATE

AUGUST 29, 1958.

Notice is hereby given that National Aviation Corporation ("Applicant"), a registered closed-end, non-diversified investment company, has filed an application pursuant to section 10 (f) of the Investment Company Act of 1940 ("Act"), for an order of the Commission exempting from the provisions of section 10 (f) of the Act the proposed purchase of not to exceed 10,000 shares of the 113,500 shares of capital stock proposed to be issued by Thiokol Chemical Corporation (the "Issuer").

Applicant recites that the Issuer is preparing to issue in a public offering an aggregate of 113,500 shares of its common stock which are covered by a Registration Statement filed by the Issuer with the Securities and Exchange Commission on or about August 22, 1958. The Issuer proposes to issue to holders of its capital stock of record as of the close of business September 11, 1958 rights in the form of transferable warrants, expiring September 26, 1958, to subscribe for such stock at the rate of 1 share for each 12 shares held.

The investments of Applicant over the last ten years have been, and are, for the most part, in securities of aircraft manufactures, air transport companies and in companies either in, or connected with, or serving and/or supplying the aviation industry. The Issuer is engaged primarily in the research, development and production of solid and liquid propellant motors for rockets and missiles for the United States Government and also produces liquid polymers and special purpose synthetic rubbers for industrial application.

The investment banking firms of Paine, Webber, Jackson & Curtis and Hornblower & Weeks are expected to be members of the underwriting group offering the securities. The application recites that Stuart R. Reed, a director of applicant, is a special partner in the firm of Paine, Webber, Jackson & Curtis and that Charles S. Sargent, also a director of Applicant, is a general partner of Hornblower & Weeks. Applicant proposes to purchase the shares either through the exercise of rights purchased on the New York Stock Exchange or from any of the underwriters other than Paine, Webber, Jackson & Curtis or Hornblower & Weeks. The proposed investment would represent approximately 1.87 percent of the total assets of Applicant as of August 21, 1958.

Section 10 (f) of the act provides, among other things, that no registered investment company shall knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security (except a security of which such company is the issuer) a principal underwriter of which is a person of which a director of such registered investment company is an affiliated person. The Commission may exempt a transaction from this prohibition if and to the extent that such exemption is consistent with the protection of investors. Since Reed and Sargent are affiliated persons of investment banking firms which may be part of the underwriting group of the securities offering, purchase of the rights or the stock by the Applicant during the underwriting is subject to the provisions of section 10 (f) of the act.

It is represented that the proposed purchase is consistent with the protection of investors and the investment policies of the Applicant as recited in its registration statement filed with the Commission.

Notice is further given that any interested person may, not later than September 12, 1958, at 1:00 p. m., submit to the Commission in writing any facts bearing on the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 58-7201; Filed, Sept. 5, 1958; 8:47 a. m.]

[File No. 31-654]

BENDIX AVIATION CORP.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

AUGUST 29, 1958.

Notice is hereby given that Bendix Aviation Corporation ("Bendix"), a holding company which has heretofore claimed exemption pursuant to Rule 9 promulgated under the Public Utility Holding Company Act of 1935 ("Act"), has filed with this Commission an application for exemption for itself, and its public-utility subsidiary Hamilton and Rossville Hydraulic Company ("H&R") as such, pursuant to section 3 (a) (3) of the Act.

All interested persons are referred to the application on file at the Commission for a statement of the request for the exemption, and of the facts forming the basis for such exemption, which are summarized as follows:

Bendix is a corporation organized under the laws of Delaware in 1929. It is engaged in the business of diversified engineering and manufacturing. The products manufactured and sold by it relate primarily to aviation, automotive, industrial, consumer, and miscellaneous military products.

H&R is the only subsidiary of Bendix which is a public-utility company as defined in the Act, and its outstanding securities, consisting only of common stock, are all owned by Bendix. It owns certain hydro-electric facilities located on the Miami River at Hamilton, Ohio, and the electric energy produced therefrom is normally used by the Hamilton Division of Bendix located contiguous to the generating facilities of H&R; however, at certain times of the year the energy produced exceeds the requirements of the Hamilton Division of Bendix and such excess electricity is sold to Cincinnati Gas & Electric Company, a non-affiliated public-utility company, from which company H&R, at times, also purchases electricity.

H&R sells electric energy to Bendix at its cost which covers all operating expense of H&R including depreciation on its plant and taxes but which allows for no profit or loss. During the five-year period 1953–57, the electricity sold to Cincinnati Gas & Electric Company ranged from about 2¼ million to 5 million kilowatt hours comprising from 20 percent to 40 percent of H&R's generation in those years. During the same period the revenue received from sales to Cincinnati Gas & Electric Company ranged from about $8,500 to $20,000 per year. Consolidated net sales, royalties and other operating income of Bendix for the year ended September 30, 1957, exceeded $700,000,000, and its net income for the period was about $27,500,000.

Notice is further given that interested persons may, not later than September 15, 1958, request in writing that a hearing be held in respect of the application for exemption, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application as filed, or as it may be amended, may be granted, or the Commission may take such other action as it may deem appropriate.

By the Commission.

[File No. 7–1930]

DEERE & CO. (DELAWARE)

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING:

SEPTEMBER 2, 1958.

In the matter of application by the Pacific Coast Stock Exchange for unlisted trading privileges in Deere & Company (Delaware), common stock; File No. 7–1930.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X–12F–1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York and Midwest Stock Exchanges.

Upon receipt of a request, on or before September 17, 1958, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SYMINGTON-WAYNE CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

SEPTEMBER 2, 1958.

In the matter of application by the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in Symington-Wayne Corporation, common stock; File No. 7–1934.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X–12F–1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before September 17, 1958, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commisison.

[File No. 70–3727]

UNION ELECTRIC CO.

NOTICE OF FILING OF APPLICATION-DECLARATION REGARDING PROPOSED ACQUISITION OF UTILITY ASSETS IN EXCHANGE FOR COMMON STOCK

AUGUST 29, 1958.

Notice is hereby given that Union Electric Company ("Union"), a registered holding company and also a public-utility company, has filed with this Commission an application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), regarding the proposed acquisition of certain public-utility assets of R. W. Foss Electric Company, Inc. ("Foss"), and has designated sections 6 (a), 7, and 9 (a) of the Act and Rule 50 (a) (4) promulgated under the Act as applicable to the proposed transactions.

All interested persons are referred to the application-declaration on file at the office of the Commission for a statement of the transaction therein proposed which is summarized as follows:

Union renders electric service in eastern and central Missouri, in portions of Illinois, and in southeastern Iowa. Foss is a public-utility company engaged in the purchase, transmission and distribution of electric energy in Henry, Lee, and Van Buren counties in southeastern Iowa, and, among other communities, serves the cities of Salem, Hillsboro, Stockport, Douds, and environs. The outstanding capital stock of Foss is owned by members of the Foss family. Approximately 82 percent of the electric energy used by Foss is purchased from Union, and the Foss properties are adjacent to those of Union in Iowa. Pursuant to a contract dated August 1, 1958, between Union and the stockholders of Foss, Union proposes to acquire substantially all the properties of Foss in exchange for 9,133 shares of Union's $10 par value treasury common stock at an agreed value of $30 per share, or an aggregate of $273,990.

The application-declaration states that the Public Service Commission of Missouri and the Illinois Commerce Commission have jurisdiction over the issuance and sale by Union of its common stock, but that no State commission has jurisdiction over the proposed acquisition by Union of the utility assets of Foss. It is also stated that no Federal commission other than this Commission has jurisdiction over any of the proposed transactions.

No finder's fee or commission is to be incurred in connection with the proposed transactions, and the expenses to be incurred in connection therewith are estimated at not to exceed $1,000.

Notice is further given that any interested person may not later than September 15, 1958, at 5:30 p. m., request in writing that a hearing be held in respect to such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law which he desires to controvert, or he may request that he be notified should the Commission order a hearing thereon. Any such request shall be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the Commission may grant the application and permit the declaration to become effective as prescribed in Rule 23 promulgated under the Act or the Commission may grant exemption from its rules as provided in Rule 20 (a) or 100 thereof or take such action as it deems appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 1–3074]

CORNUCOPIA GOLD MINES

ORDER SUMMARILY SUSPENDING TRADING

SEPTEMBER 2, 1958.

In the matter of trading on the American Stock Exchange in the $0.05 par value common stock of Cornucopia Gold Mines; File No. 1–3074.

I. The common stock, $0.05 par value, of Cornucopia Gold Mines being listed and registered on the American Stock Exchange; and

II. The Commission on July 25, 1958, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the Act") to determine at a hearing to be held September 2, 1958, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the common stock of Cornucopia Gold Mines (hereinafter called "registrant") on the American Stock Exchange for failure to comply with section 13 of the Act and the rules and regulations adopted thereunder, and for failure to comply with the disclosure requirements of Regulation 14 adopted pursuant to section 14 (a) of the Act.

On August 13, 1958, the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the Act for the reasons set forth in said order to prevent fraudulent, deceptive or manipulative acts or practices for a period of ten days from the date of the aforesaid order.

III. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the American Stock Exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the Securities Exchange Act of 1934 and the Commission's Rule X–15C2–2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange;

It is ordered, Pursuant to section 19 (a) (4) of the Securities Exchange Act of 1934, that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten (10) days, September 3 to September 12, 1958, inclusive.

By the Commission.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 957—IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

LIMITATION OF SHIPMENTS

Section 957.317 (b) (1) published in the FEDERAL REGISTER August 30, 1958 (23 F. R. 6742) is hereby corrected to read as follows:

(1) Except as otherwise provided in this section, during the period from September 1, 1958, through June 30, 1959, no handler shall ship potatoes of any variety unless such potatoes are generally "fairly clean," which means that at least 90 percent of such potatoes are "fairly clean," as such terms are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1556 of this title), and

(i) If they are of the round varieties (including, but not being limited to, Bliss Triumph, and Pontiac varieties), such potatoes meet the requirements of the U. S. No. 2, or better, grade, 2 inches minimum diameter,

(ii) If they are of the White Rose variety, such potatoes meet the requirements of the U. S. No. 2, or better, grade, 8 ounces minimum weight: *Provided*, That any such potatoes that grade not less than U. S. No. 1 may be shipped if they are of 2 inches minimum diameter or 4 ounces minimum weight, size A,

(iii) If they are of the Kennebec variety, such potatoes meet the requirements of the U. S. No. 2, or better, grade, and are of 2 inches minimum diameter or 4 ounces minimum weight, and

(iv) If they are of any other variety (including, but not being limited to the Early Gem and Russet Burbank varieties), such potatoes meet the requirements of the U. S. No. 2 or better grade and are 6 ounces minimum weight: *Provided*, That any such potatoes of the Early Gem variety that grade not less than U. S. No. 1 may be shipped if they are of 2 inches minimum diameter or 4 ounces minimum weight, and any other varieties (including, but not being limited to the Russet Burbank variety) that grade not less than U. S. No. 1 may be shipped if they are 2 inches minimum diameter or 4 ounces minimum weight, size A, as such terms, grades, and sizes are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1556 of this title), including the tolerances set forth therein.

PART 1003—DOMESTIC DATES PRODUCED OR PACKED IN LOS ANGELES AND RIVERSIDE COUNTIES, CALIFORNIA

ORDER AMENDING ORDER

§ 1003.0 *Findings and determinations*—(a) *Previous findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of the order; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(b) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, effective thereunder (7 CFR Part 900; 23 F. R. 4027, 4779), a public hearing was held at Coachella, California, on April 10–11, 1958, on a proposed amendment of Marketing Agreement No. 127, and Order No. 103 (7 CFR Part 1003), regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as hereby amended, regulates the handling of domestic dates produced or packed in Riverside, Orange, and Los Angeles Counties and that portion of San Bernardino County lying west of 116 degrees W. longitude, located within the State of California in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, the marketing agreement and order upon which hearings have been held;

(3) The said order, as hereby amended, is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act and the issuance of several orders applicable to subdivisions of the area of production would not effectively carry out the declared policy of the act;

(4) There are no differences in the production and marketing of dates in the area of production covered by the order, as hereby amended, which would require different terms applicable to different parts of such area; and

(5) All handling of dates produced or packed in the area of production, as hereby amended, is in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

(c) *Additional findings.* It is hereby found on the basis hereinafter indicated that good cause exists for making the provisions of this order effective not later than the date of publication in the FEDERAL REGISTER; and that it would be contrary to the public interest to postpone such effective date until 30 days after publication (60 Stat. 237; 5 U. S. C. 1001 et seq.). The provisions of this amendatory order are, among other things, designed to relieve handlers of some obligations, improve the operation of the program, and provide additional means for achieving the objectives of the program. It is necessary, in order to effectuate the declared policy of the act and to maximize the benefits derivable from this amendatory action during the current crop year, that this amendatory order become effective as early in the current crop year as practicable so as to cover substantially all of the dates handled during such year. The present crop year began on August 1, 1958, only limited quantities of dates are now being handled, and such handling is expected to increase substantially in the immediate future. The provisions of this amendatory order are well known to handlers. The public hearing in connection therewith was held on April 10 and 11, 1958, in Coachella, California, and the recommended decision and the final decision were published in the FEDERAL REGISTER on July 17, 1958 (23 F. R. 5454) and August 15, 1958 (23 F. R. 6303), respectively. The text of the amendatory order was made available to all known interested persons. With respect to a number of the changes in the present provisions of the regulatory program, effected by the amendatory order, which may result in changed obligations of handlers, actions will be required by the Secretary of Agriculture after the amendatory order becomes effective; and handlers are already aware of the circumstances involved. The specified effective date hereof will provide an early opportunity for the taking of the required actions. Accordingly, date handlers will need no further advance notice to prepare for compliance with the provisions of this amendatory order.

(d) *Determinations.* It is hereby determined that:

(1) The "Marketing Agreement, as Amended, Regulating the Handling of Domestic Dates Produced or Packed in a Designated Area of California," upon which public hearing was held, has been signed by handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping dates covered by said order, as hereby amended) who, during the period August 1, 1957 through July 31, 1958, handled not less than 50 percent of the volume of dates covered by said order, as hereby amended; and

(2) The issuance of this order, amending the aforesaid order, is favored or approved by at least two-thirds of the producers who participated in a referendum on the question of its approval and who, during the determined representative period (August 1, 1957 through July 31, 1958), were engaged in the production for market of dates which are covered by said order, as hereby amended, such producers having also produced for market at least two-thirds of the volume of such dates represented in such referendum.

It is therefore, ordered, That, on and after the effective date hereof, all handling of dates produced or packed in the area of production shall be in conformity to, and in compliance with, the terms and conditions of the aforesaid order, as hereby amended as follows:

1. Revise the provisions of § 1003.4 to read as follows:

§ 1003.4 *Area of production.* "Area of production" means the Counties of Riverside, Orange and Los Angeles, and that portion of San Bernardino County lying west of 116 degrees W. longitude, located within the State of California.

2. Insert in § 1003.9, between the words "production" and "shall", the phrase "or the movement of dates by a handler to storage for his account within the area of production".

3. Delete from § 1003.11 the words "the quantity of marketable" and insert, in lieu thereof, the words "the aggregate quantity of whole dates and pitted".

4. Delete from § 1003.12 the phrase, "minimum grade permitted to be handled by the regulations imposed by this part", and insert, in lieu thereof, the phrase, "applicable minimum grade then in effect pursuant to § 1003.39 and any additional, applicable requirements, pursuant to § 1003.40, which may then be in effect for restricted dates."

5. Add a new § 1003.15 as follows:

§ 1003.15 *Substandard dates.* "Substandard dates" means those dates which fail to meet the requirements for marketable dates but are not cull dates.

6. Add a new § 1003.16 as follows:

§ 1003.16 *Cull dates.* "Cull dates" means dates which fail to meet the requirements (with respect to freedom from defects) prescribed in section 708 of the Agricultural Code of California for dates for use in products or by-products other than alcohol, brandy, and products not intended for human consumption.

7. Add a new § 1003.17 as follows:

§ 1003.17 *Graded dates.* "Graded dates" means those dates which are eligible for certification as marketable dates.

8. Renumber present § 1003.15 as § 1003.18.

9. Renumber present § 1003.16 as § 1003.19 and revise its provisions to read as follows:

§ 1003.19 *Cooperative marketing association.* "Cooperative marketing association" means a cooperative marketing association of date growers organized under the laws of the State of California.

10. Renumber § 1003.17 as § 1003.20 and amend said section by deleting "and Riverside Counties of California", and inserting in lieu thereof, ", Riverside and Orange Counties, and that portion of San Bernardino County lying west of 116 degrees W. longitude located within the State of California".

11. Delete §§ 1003.21, 1003.22, 1003.23 and 1003.24, and insert, in lieu thereof, the following:

§ 1003.21 *Establishment of Date Administrative Committee.* A Date Administrative Committee, composed of seven members with an alternate member for each such member, is hereby established to administer the terms and conditions of this part: *Provided*, That the number of members and alternates may be changed consistent with findings made pursuant to § 1003.22 (b).

§ 1003.22 *Membership representation.* (a) Members and alternate members shall, until such time as a realignment of the committee membership is effected pursuant to paragraph (b) of this section, be selected by the Secretary from each of the following groups and on the following basis:

(1) One member from handlers, each of whom produced during the then current crop year to February 28 at least 51 percent of all of the dates handled by him during such period, and producers, each of whom delivered to such handlers during the then current crop year to February 28 at least 50 percent of his deliveries to all handlers during such period;

(2) Three members from cooperative marketing associations of whom one shall be an employee and serve as a handler member of the committee, and two shall be from among the producer members of such associations;

(3) Three members from all other handlers and producers of whom two shall be handler members selected from among such other handlers, and one shall be a producer member selected from among such other producers.

The foregoing representation is based on each member representing approximately 14.28 percent of date tonnage handled.

(b) Whenever the Secretary finds that any change in tonnage handled in any group is equivalent to more than one-half of the basic 14.28 percent for a member, he shall so notify the committee and thereafter nominations and selections of members and alternates in that group shall be in such numbers and follow such alignment as the Secretary may determine: *Provided*, That each group shall be entitled to at least one member and alternate. Any such realignment shall be based on the tonnage of dates acquired from producers and certified for handling or further processing during the then current crop year to February 28. Any increase or decrease in the

number of members representing a particular group shall not be dependent upon a change in membership representation of any other group nor shall any increase or decrease in the total number of members on the committee change the basic percentage herein established for tonnage representation for members. Except for the group specified in paragraph (a) (1) of this section, any change in the nomination and selection of members for any group shall be made so as to keep producer members and handler members in balance insofar as possible.

§ 1003.23 *Term of office.* The term of office for members and alternate members shall be one year ending on May 14 but each such member and alternate member shall continue to serve until his successor has been selected and has qualified.

§ 1003.24 *Nominations.* (a) Each group specified in § 1003.22 (a) may nominate, at a nomination meeting or meetings held on or before April 15 of each year, members and alternates to represent the group. With respect to the group specified in § 1003.22 (a) (3), separate meetings of handlers and of producers shall be held to nominate the handler representatives and producer representatives, respectively.

(b) At any meeting of the group specified in § 1003.22 (a) (1), each producer and each producer-handler shall be entitled to one vote for each position to be filled. At the respective meetings of the cooperative marketing associations in the group specified in § 1003.22 (a) (2), and of the handlers in the group specified in § 1003.22 (a) (3), each such association and each such handler shall be entitled to vote for each position to be filled as a representative for the particular group; and each such vote shall be weighted by the tonnage of dates acquired from producers and certified, for handling or for further processing, through February 28 of the then current crop year. At any meeting of the producers in the group specified in § 1003.22 (a) (3), each such producer shall be entitled to one vote for each position to be filled. The individual receiving the highest number of votes for a position shall be the nominee. Immediately after the completion of the meetings covered by this section, the committee shall report to the Secretary the nominees for each position together with a certificate of all necessary tonnage data and other information deemed by the committee to be pertinent or which is requested by the Secretary. The Secretary shall select, in his discretion, members and alternates from such nominees or from other qualified persons; but any such selection shall be from the groups, and on the basis, prescribed in § 1003.22. However, the Secretary shall allow a reasonable time for nominations to be received before proceeding with any selection without regard to nominations.

12. Delete from § 1003.31 the second and third sentences and insert, in lieu thereof, the following two sentences: "All decisions of the committee shall be by an affirmative vote of at least two-thirds (in case of fractional numbers, rounded to the nearest whole number) of the members of the committee. The presence of two-thirds, determined in the same way, of the members of the committee shall be required to constitute a quorum."

13. Amend § 1003.34 (a) to read as follows:

(a) Its estimate of the total date production separated as to marketable dates and dates of other grades and, when applicable, sizes, which will be produced in such crop year;

14. Amend § 1003.34 (e) by inserting the words "and size" after the word "grade".

15. Delete from § 1003.39 the first sentence and insert, in lieu thereof, the following sentence: "In order to effectuate the declared policy of the act all whole dates and pitted dates handled under this subpart shall meet the requirements of U. S. Grade C, or, if for further processing, U. S. Grade C (Dry), of the effective United States Standards for Grades of Dates: *Provided*, That the Secretary may, upon recommendation of the committee, prescribe other minimum standards of quality."

16. Delete from § 1003.39 the last sentence and insert, in lieu thereof, the following two sentences: "Notice of the minimum standard regulation shall be sent by the committee to all handlers of record. On and after the effective date of such regulations no handler shall handle dates except in accordance with such minimum standard."

17. Delete § 1003.40 and insert, in lieu thereof, the following:

§ 1003.40 *Additional grade or size regulations.* Whenever the committee deems it advisable to establish grade or size requirements for any variety of dates, in addition to the minimum standard provided pursuant to § 1003.39, to govern dates of such variety to be handled or to be withheld to meet restricted obligation, or both, it shall recommend to the Secretary requirements as to grade based on the effective United States Standards for Grades of Dates or any modification thereof, and such size requirements as it may deem appropriate. If the Secretary finds, upon the basis of such recommendation or other information available to him, that such additional grade or size regulation, or both such regulations, will tend to effectuate the declared policy of the act, he shall establish such regulations. Notice thereof, showing the effective date, shall be sent by the committee to all handlers of record. On and after the effective date no handler shall handle dates of such variety or withhold such dates to meet withholding obligation except in accordance with such regulations.

18. Amend § 1003.41 in the following respects: (1) Revise § 1003.41 (a) and (b) to read as follows:

§ 1003.41 *Inspection*—(a) *Packed dates.* Prior to handling any dates packed for handling each handler shall, at his own expense, cause: (1) An inspection to be made of such dates in order to ascertain if such dates meet the applicable grade and size regulations prescribed or provided for in this part; and (2) a certification for handling to be made of all such dates as meet such grade and size regulations.

(b) *Dates for further processing.* Prior to handling any dates for further processing each handler shall, at his own expense, cause: (1) An inspection to be made to ascertain if such dates meet the applicable grade and size requirements effective pursuant to § 1003.39 or § 1003.40, except for character associated with moisture; and (2) a certification for further processing to be made of all such dates as meet such grade and size requirements: *Provided*, That such inspection and certification requirements shall not apply to interhandler transfers within the area of production of field-run dates or graded dates.

(2) Change in the first sentence of § 1003.41 (a), the word "shipped" to the word "handled".

19. Change in § 1003.44 (b) the word "shipped" to "handled".

20. Delete § 1003.45 (a) and insert, in lieu thereof, the following:

(a) Whenever free and restricted percentages for any variety of dates have been established for a crop year by the Secretary in accordance with § 1003.44, each handler shall, at the time of having dates of such variety certified for handling or for further processing, withhold from handling a quantity of marketable dates of such variety having a weight equal to the restricted percentage for such variety referable to the dates so certified. The weight required to be withheld shall be determined by dividing the restricted percentage by the free percentage and applying the resultant withholding percentage, rounded to the nearest one-tenth of one percent, to the weight of dates so certified. The withholding percentage, computed as aforesaid, shall be established by the Secretary. When pitted dates are certified, the weight to be withheld shall be determined by dividing the weight of the pitted dates certified for handling or further processing by 0.90 and applying the withholding percentage.

21. Delete § 1003.45 (c) and insert, in lieu thereof, the following:

(c) At any time during the crop year dates may be inspected and certified for handling or for further processing as provided in § 1003.41. Dates so certified shall, at the time of certification, be identified by appropriate seals, stamps, or tags to be furnished by the committee and to be affixed to the containers by the handler under the direction and supervision of the committee or its designated inspectors. The assessment requirements in § 1003.72 as well as the withholding obligation prescribed in paragraph (a) of this section shall be met at the time of certification. However, a handler who has had more dates certified for handling or further processing than he subsequently shipped or otherwise handled may, upon request to the committee and with its approval, have any of such excess quantity of the certified dates suspended from certification of record or, if damaged or the outlet changed, removed from certification, and his withholding and assessment obligations adjusted accordingly. A handler, who has had dates certified for handling or further processing and has not had them so suspended from certification of record or removed from certification, may carry such certified dates over into the new crop year and need not pay the assessment nor meet the requirements of any withholding percentages established for such year.

22. Insert after § 1003.45 (d) new paragraphs (e) and (f) as follows:

(e) On request to the committee and with its approval, a handler may, in accordance with the provision of this paragraph and any applicable rules and regulations which the committee may prescribe with the approval of the Secretary, defer until any date not later than July 31 of the crop year the meeting of any portion of his obligation to withhold restricted dates by setting aside such amount of graded dates as will assure a quantity of marketable dates equal at least to the quantity needed to be withheld from handling to meet his withholding obligation. With respect to any such dates the handler may set aside in connection with such a deferment, the committee may require, if it deems it necessary, the handler to have made, at his own expense, such inspection as may be necessary for a determination as to whether such dates conform to the applicable requirements for dates that may be set aside under this paragraph. As a condition to the committee approving the deferment, the handler shall agree in writing that: (1) He will adequately mark and identify the set-aside graded dates as such and hold them separate and apart from other dates; (2) the graded dates will not be removed from the stacks in which so set aside without the prior written permission of the committee; (3) inspection of the dates by the committee will be permitted at any reasonable time; and (4) if the quantity, quality, or size of the set-aside dates is found by the committee at any time to be deficient, the handler will promptly set aside such additional or substitute quantity of graded dates as is necessary to correct the deficiency.

(f) Upon the committee prescribing, with the approval of the Secretary, minimum standards for inspection of field-run dates and appropriate administrative rules and regulations, a handler may, in accordance therewith and the provisions of this paragraph, satisfy all or any part of his obligation to withhold restricted dates by setting aside field-run dates or by disposing of field-run dates in outlets prescribed in, or pursuant to, § 1003.56. The field-run dates shall be of such quality or size as shall be prescribed in such rules and regulations. The setting aside, direct disposal, and disposal of any field-run dates set aside shall occur prior to July 31 of the crop year in which the withholding obligation occurs. Prior to the disposal or setting aside of the field-run dates, the handler shall have had them inspected to determine the weight of dates eligible to satisfy withholding obligation. Upon such disposal or setting aside of the field-run dates, the handler shall be credited with satisfaction of his restricted obligation to the extent of the eligible weight of dates. In permitting the handler to so satisfy his withholding obligation the committee shall require the handler to agree in writing that: (1) Any field-run dates set aside will be held separate and apart from other dates and appropriately marked; (2) such dates will not be removed from the stacks in which so set aside for substitution of other dates, disposition, or for any other reason without prior written permission of the committee; and (3) inspection of said dates by the committee will be permitted at any reasonable time. In order to satisfy a withholding obligation by direct disposal of field-run dates into cull outlets, the disposal shall be under the supervision of the committee and through persons on a committee approved list of feeders and manufacturers. The handler may, upon giving prior notice to the committee of any of the following proposed actions with respect to field-run dates withheld and obtaining its approval, (i) dispose of any such set-aside, field-run dates in the same manner as provided for direct disposal (ii) grade such dates and have the graded dates certified as marketable dates and withhold or dispose of such marketable dates as restricted dates, or (iii) substitute for the set-aside, field-run dates an equivalent quantity of marketable dates which he shall withhold or dispose of as restricted dates.

23. Add a new § 1003.48 as follows:

§ 1003.48 *Container regulation.* Whenever the committee deems it advisable to establish a container regulation for any variety of dates, it shall recommend to the Secretary the size, capacity, weight, or pack of the container, or containers, which may be used in the handling or packaging of dates, or both. If the Secretary finds upon the basis of such recommendation or other information available to him that such container regulation would tend to effectuate the declared policy of the act he shall establish such regulation and notice thereof showing the effective date, shall be sent by the committee to all handlers of record. After the effective date of such regulation, no handler shall handle dates of such variety except in accordance with such regulation and all other applicable requirements in effect pursuant to this part.

24. Delete from § 1003.51 the first sentence and insert, in lieu thereof, the following: "Transfers of dates may be made from one handler to another, and each handler who so transfers any such dates shall immediately upon the completion of the particular transfer notify the committee of the transfer, specifying the date of the transfer, the quantity and variety of dates involved, and the name of the receiving handler."

25. Add a new § 1003.54 as follows:

§ 1003.54 *Disposition of other than free dates.* Dates other than free dates shall not be used or otherwise disposed of except as provided in §§ 1003.55 and 1003.56.

26. Delete §§ 1003.55, 1003.56, and 1003.57 and insert, in lieu thereof, the following:

§ 1003.55 *Outlets for restricted and other marketable dates.* Restricted dates may be disposed of only through exportation to such countries as the committee may approve or by diversion in such form as rings, chunks, pieces, butter, macerated, or paste, or any other products which the committee concludes to be appropriate and which will result in the dates moving into consumption in a form other than that of whole dates or pitted dates. Dates other than restricted dates may also be so disposed of if they are inspected and certified as meeting the requirements for marketable dates. However, the provisions of this section shall not preclude any such dates from being disposed of in the outlets for substandard dates and cull dates prescribed in § 1003.56.

§ 1003.56 *Outlets for substandard and cull dates.* Substandard dates and cull dates may be disposed of without inspection, but only in feed, non-table syrup, alcohol, or brandy outlets, or in such other outlets for non-human food products as the committee concludes are non-competitive with the outlets for free and restricted dates: *Provided*, That whenever the committee concludes and the Secretary finds that the use of substandard dates of any variety in certain products for human consumption would tend to effectuate the declared policy of the act, the Secretary shall specify such products, and dates of such variety that are inspected and certified as substandard dates may be disposed of for use, or used, in such products.

§ 1003.57 *Approved manufacturers or feeders for diversion of restricted, other marketable, substandard, and cull dates.* (a) Diversion, pursuant to § 1003.55 or § 1003.56, of restricted dates, other marketable dates, substandard dates, or cull dates shall be accomplished only by such persons (which may include handlers) as are approved manufacturers or feeders. Any person may become an approved manufacturer or feeder if he (1) submits an application to the committee in which he agrees, as a condition to approval of his application, to furnish to the committee such information as it may require and to comply with the requirements and restrictions relative to the use and disposition of such dates, as set forth in this part, and (2) receives from the committee written approval of his application. The application and approval shall be in accordance with such rules, regulations and safeguards as may be prescribed pursuant to § 1003.59.

§ 1003.58 *Terminal dates.* Dates covered by §§ 1003.55 and 1003.56 shall, by September 30 of the subsequent crop year (a) in accordance with the applicable requirements of such sections, be disposed of, or be converted from their whole or pitted form; or (b) be set aside and marked for disposition pursuant to the applicable requirements of such sec-

tions. The committee may prescribe, with the approval of the Secretary, such rules, regulations and safeguards, pursuant to § 1003.59, as may be necessary to prevent dates covered by §§ 1003.55 and 1003.56 from interfering with the objectives of this part.

27. Renumber existing § 1003.58 as § 1003.59.

28. Amend § 1003.61 to read as follows:

§ 1003.61 *Reports of handler carryover.* Each handler shall file each year with the committee written reports of his carry-over of dates as of January 1, June 1, and August 1, and at such other times as the committee may prescribe. Such reports shall be filed within 15 days of the respective dates.

29. Amend § 1003.64 to read as follows:

§ 1003.64 *Reports on disposition of restricted, other marketable, substandard and cull dates.* Each handler disposing of any quantity of restricted dates or other marketable dates, substandard dates, or cull dates for which disposition is prescribed in §§ 1003.55 and 1003.56 shall promptly thereafter report such disposition to the committee in such form as the committee may prescribe.

30. Delete from § 1003.72 the fourth sentence.

31. Amend § 1003.74 to read as follows:

§ 1003.74 *Refunds.* Excess funds held by the committee at the conclusion of a crop year may be used to defray expenses for no more than the ensuing four months and thereafter, within a reasonable time, the committee shall credit or, upon demand, refund the aforesaid excess to handlers who contributed to such excess. A handler's share of the excess funds shall be the amount of assessments he paid in excess of his actual pro rata share of the expenses of the committee.

32. Add a new § 1003.76 as follows:

§ 1003.76 *Compliance.* No handler shall handle any dates (including dates for further processing) except in conformity with, and as authorized by or pursuant to, the applicable provisions of this part, including but not being limited to the regulations relating to grade, size, and volume; and no handler shall use or otherwise dispose of restricted dates or any other dates which have not been certified for handling or for further processing except in conformity with, and as authorized by or pursuant to, the applicable provisions of this part.

33. Insert "or for further processing" immediately after the words "handled or certified for handling" wherever such words appear in §§ 1003.46, 1003.50, 1003.72 and 1003.73.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated, September 3, 1958, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] TRUE D. MORSE,
Acting Secretary.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54677]

PART 1—CUSTOMS DISTRICTS, PORTS, AND STATIONS

EXTENSION OF LIMITS OF CUSTOMS PORT OF BURLINGTON, VT.

SEPTEMBER 3, 1958.

By virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623 (19 U. S. C. 2), which was delegated to the Secretary of the Treasury by the President by Executive Order No. 10289, September 17, 1951 (3 CFR, 1951 Supp., Ch. II), the limits of the customs port of entry of Burlington, Vermont, in Customs Collection District No. 2 (Vermont), comprising the territory within the corporate limits of that city, are hereby extended to include the territory within the limits of the town of South Burlington, in the State of Vermont, effective on the date of publication of this Treasury decision in the FEDERAL REGISTER.

Section 1.1 (c), Customs Regulations, is amended by deleting the period after "Burlington" in the column headed "Ports of entry" in District No. 2 (Vermont), and by adding "(including the town of South Burlington) (T. D. 54677)."

(R. S. 161, as amended, Pub. Law 85-619; 5 U. S. C. 22. Interprets or applies sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended; 19 U. S. C. 1, 2)

[SEAL] A. GILMORE FLUES,
Acting Secretary of the Treasury.

[F. R. Doc. 58-7261; Filed, Sept. 8, 1958; 8:48 a. m.]

[T. D. 54678]

PART 2—MEASUREMENT OF VESSELS

FOREIGN VESSELS

The Bureau of Customs has been advised through the Department of State of the United States of an exchange of notes between the Government of the Federal People's Republic of Yugoslavia and the Government of the United States whereby merchant vessels of the respective countries calling at the ports of the other country will be recognized as being of the tonnages shown on certificates of registry or other national papers issued by the respective Governments, except when the tonnages shown in such papers are manifestly incorrect under the rules of the issuing authority. The effective date of the agreement is June 16, 1958.

Accordingly, the first sentence of § 2.63 of the Customs Regulations is amended by deleting "and" before "Venezuela", adding a comma after "Venezuela", and by inserting "and Yugoslavia" after "Venezuela".

(R. S. 161, as amended, Pub. Law 85-619, 4154, as amended, sec. 3, 23 Stat. 118, as amended; 5 U. S. C. 22, 46 U. S. C. 3, 61)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: September 2, 1958.

A. GILMORE FLUES,
Acting Secretary of the Treasury.

[F. R. Doc. 58-7262; Filed, Sept. 8, 1958; 8:49 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.373]

PART 42—DOCUMENTATION OF IMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT

IMMIGRANT CLASSIFICATION SYMBOLS

Part 42, Chapter I, Title 22 of the Code of Federal Regulations, is hereby amended in the following respects:

1. Paragraph (d) of § 42.3 *Immigrant classification symbols* is amended to read as follows:

(d) The following symbols shall be used in the cases of nonquota immigrants who qualify for the benefits of the Act of September 11, 1957 (Public Law 85-316) as amended by the Act of August 21, 1958 (Public Law 85-700):

Class	Section of the act	Symbols to be inserted in visa
Eligible orphan adopted abroad	4 (b) (2) (A)	K-1
Eligible orphan to be adopted	4 (b) (2) (B)	K-2
Spouse or child of adjusted first preference immigrant	9	K-3
Beneficiary of first preference petition approved prior to July 1, 1958	12A	K-4
Spouse or child of beneficiary of first preference petition approved prior to July 1, 1958	12A	K-5
Beneficiary of second preference petition approved prior to July 1, 1957	12	K-6
Beneficiary of third preference petition approved prior to July 1, 1957	12	K-7
German expellee	15 (a) (1)	K-8
Netherlands refugee or relative	15 (a) (2)	K-9
Refugee-escapee	15 (a) (3)	K-10

2. Section 42.3 *Immigrant classification symbols* is amended by the addition of the following paragraph:

(e) The following symbols shall be used in the cases of nonquota immigrants who qualify for the benefits of the Act of September 2, 1958 (P. L. 85-892):

Class	Section of the act	Symbols to be inserted in visa
Azores natural calamity victim	1 (A)	K-11
Spouse or unmarried minor son or daughter of Azores calamity victim	1	K-12
Netherlands national displaced from Indonesia	1 (B)	K-13
Spouse or unmarried minor son or daughter of Netherlands national displaced from Indonesia	1	K-14

The regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the provisions thereof involve foreign affairs functions of the United States.

(Sec. 104, 66 Stat. 174; 8 U. S. C. 1104)

Dated: August 28, 1958.

RODERIC L. O'CONNOR,
Administrator, Bureau of Security and Consular Affairs.

[F. R. Doc. 58-7286; Filed, Sept. 8, 1958; 8:53 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1725]

UTAH

WITHDRAWING PUBLIC LANDS FOR USE OF FOREST SERVICE FOR AN ADMINISTRATIVE SITE, RECREATION AREA AND OTHER PUBLIC PURPOSES

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 43 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the Uinta and Manti LaSal National Forests in Utah are hereby withdrawn from all forms of appropriation under the public land laws, including the mining but not the mineral-leasing laws, nor the act of July 31, 1957 (61 Stat. 367; 30 U. S. C. 601-604) as amended, and reserved for use of the Forest Service, Department of Agriculture, for an administrative site, recreation area, and other public purposes:

[Utah 019139]

UINTA NATIONAL FOREST

UINTA SPECIAL MERIDIAN

Hub Ranger Station Administrative Site

T. 2 S., R. 12 W.,
Sec. 28, SE¼NE¼NE¼, E½SW¼NE¼NE¼, N½SE¼NE¼, N½NE¼SW¼NE¼, and NW¼NW¼SW¼NE¼.
The areas described aggregate 42.5 acres.

WASATCH NATIONAL FOREST

SALT LAKE PRINCIPAL MERIDIAN

Alpine Loop Highway (Utah No. 80) Roadside Zone

A strip of land 200 feet on each side of the center line of Alpine Loop Highway (Utah No. 80) through the following legal subdivisions:
T. 4 S., R. 2 E.,

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 902]

[Docket No. AO-293-RO-1]

MILK IN WASHINGTON, D. C., MARKETING AREA

NOTICE OF REOPENING OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the reopening of the public hearing held in Washington, D. C., April 8-19, 1957 (22 F. R. 1116, F. R. Doc. 57-1472). The hearing will be held in the Crystal Room of the Burlington Hotel, 1120 Vermont Avenue NW., Washington, D. C., beginning at 10:00 a. m., e. d. t., on September 22, 1958. The principal purpose of the hearing is to receive additional evidence concerning the level and basis of pricing Class I milk as previously stated in the recommended decision issued by the Deputy Administrator on May 26, 1958 (23 F. R. 3719; F. R. Doc. 58-4052). In connection therewith the Maryland and Virginia Milk Producers Association, has submitted the following proposal to be considered in lieu of their Class I price proposal set forth in the original notice.

§ 902.50 *Class I price.* (a) The price for Class I milk shall be $5.70 for the months of January through March and July through December, and $5.10 for the months of April, May, and June, provided, that such price shall be adjusted with changes in the average of the minimum Class I prices established by Federal orders for Philadelphia, New York, and Chicago in accordance with the following schedule:

3-market average variation—Corresponding month of 1957:	*Washington Class I price adjustment*
Plus 15 cents to minus 15 cents	0
	Plus adjustment
More than 15 cents but less than 35 cents	20 cents.
More than 35 cents but less than 55 cents	40 cents.
More than 55 cents but less than 75 cents	60 cents.
More than 75 cents but less than 95 cents	80 cents.
	Minus adjustment
Minus 15 cents but not more than 35 cents	20 cents.
Minus 35 cents but not more than 55 cents	40 cents.
Minus 55 cents but not more than 75 cents	60 cents.
Minus 75 cents but not more than 95 cents	80 cents.

Additional evidence may also be submitted with respect to any or all of the proposals considered at the original hearing.

Neither the specific proposal set forth above nor the proposals set forth in the original notice have received the approval of the Secretary of Agriculture.

Copies of this notice of hearing and of the original notice of hearing may be procured from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Issued at Washington, D. C., this 4th day of September 1958.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 58-7282; Filed, Sept. 8, 1958; 8:52 a. m.]

[7 CFR Part 905]

[Docket No. AO-297]

HANDLING OF MILK IN MISSISSIPPI DELTA MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Greenwood, Mississippi, on August 6–10, 1957, pursuant to notice thereof issued on July 16, 1957 (22 F. R. 5800), upon a proposed marketing agreement and order regulating the handling of milk in the Mississippi Delta marketing area.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, filed with the Hearing Clerk, United States Department of Agriculture, his recommended and revised recommended decisions on June 16, 1958 (23 F. R. 4415) and August 5, 1958 (23 F. R. 6032), containing notice of opportunity to file written exceptions thereto.

The material issues of record relate to:

1. Whether the handling of milk produced for sale in the proposed marketing area is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products;

2. Whether marketing conditions show the need for a milk marketing agreement or order which will tend to effectuate the policy of the Act; and

3. If an order is issued what its provisions should be with respect to:

(a) The scope of regulation;

(b) The classification and allocation of milk;

(c) The determination and level of class prices;

(d) Distribution of proceeds to producers; and

(e) Administrative provisions.

Findings and conclusions—(1) *Character of the commerce.* All milk to be regulated by the proposed marketing agreement and order is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk and its products.

There is an interrelation of the trade in Grade A milk in the Mississippi Delta marketing area with the trade in surrounding areas in Mississippi and other States. The proposed marketing area lies wholly within the State of Mississippi, but included in the area are two Federal Government installations, namely Air Force Bases located in Washington and Lowndes Counties. Contracts for milk and its products to serve these installations are issued on a competitive bid basis with milk distributors in the region making bids to secure such contracts from time to time.

Four regulated handlers under Order No. 87 distribute milk on retail and wholesale routes in the proposed marketing area. One of these four handlers sells approximately 40 percent of its total sales in the Central Mississippi marketing area. This handler is located in the proposed Mississippi Delta marketing area and would be the only one of the four Central Mississippi marketing area handlers that would become regulated under this proposed marketing agreement and order.

Located within the proposed marketing area are three milk distributors that have been, or currently are partially regulated by Federal Order No. 87. There have been months when these plants were fully regulated by Order No. 87. Route distribution of fluid milk by these plants in the Central Mississippi marketing area varies from 10 to 20 percent of their total receipts from dairy farmers.

Milk distributors in the proposed Mississippi Delta area purchase bulk fluid milk from plants located in Illinois, Wisconsin, and Tennessee. Purchased Grade A nonfat dry milk is used to produce buttermilk, a milk product that would be classified as Class I product as provided elsewhere in this decision. Specific figures representing the total volume of such purchases were not given. One handler, however, stated that purchases of bulk fluid milk from Wisconsin and Tennessee would average, on annual basis, nearly a million pounds. Another handler stated that sales of buttermilk represented 12–13 percent of his total fluid milk products sales. A large portion of this buttermilk was made from Grade A nonfat dry milk (three carloads of nonfat powder purchased during the past year) purchased from sources outside the State of Mississippi. It is a general practice of all handlers in the proposed Mississippi Delta area to purchase Grade A nonfat dry milk, from out-of-State markets, for use in making buttermilk for distribution on retail and wholesale routes.

Also, there is evidence that Grade A milk or cream is at times moved in interstate commerce by distributors who would be handlers under a Mississippi Delta area order. During the past year, fluid milk was shipped from the Mississippi Delta area plants to markets in Florida, Arkansas, and Louisiana. The quantity of such sales was not available.

Another movement of milk in interstate commerce by Mississippi Delta area Grade A plants, as herein defined, is their disposal of a portion of receipts, that is in excess of fluid needs, to product manufacturing plants, or, in the manufacture of dairy products with wide regional or country-wide markets. Besides such evidence of interstate commerce in the Mississippi Delta area there is evidence that the marketing of producer milk in this area directly affects interstate commerce in milk and, milk products in Mississippi and surrounding States. Farm supplies of Grade A milk for the proposed area are intermingled with supplies for Tennessee and Alabama fluid markets and for Mississippi dairy products manufacturing plants. Procurement of milk in the northwestern portion of the proposed marketing area is in competition with the Memphis, Tennessee, market as evidenced by the testimony of handlers in this area. The same is true on the eastern edge of the Mississippi Delta area milkshed, where Delta distributors and supply plants compete for producers with Grade A milk plants that regularly supply milk to Alabama markets. The growing Grade A trade in northern Mississippi affects farm supplies for dairy products manufacturing plants at Houston, Starkville, and Kosciusko, Mississippi. Much of the supply for the Mississippi Delta fluid trade comes from farms that formerly were patrons of these dairy manufacturing plants. On the other hand, some of the producer milk for the Mississippi Delta area trade, that is in excess of the daily needs of the fluid milk processing plants, is disposed of to these dairy product manufacturing plants.

It is concluded that a significant portion of the milk trade in the Mississippi Delta marketing area is in the current of interstate commerce, and that the marketing of producer milk in this trade area directly affects interstate commerce in milk and dairy products.

(2) *Need for an order.* The issuance of a marketing agreement or order will tend to effectuate the declared policy of the act.

The two proponent cooperative associations represent approximately one-half of the dairy farmers producing milk for handlers in the proposed marketing area. The Cooperative Creamery Association of Starkville, Mississippi, operates three plants. These plants are located at Starkville and Greenwood, Mississippi. The plants include two distributing plants and a combination supply and manufacturing plant. This latter plant, while under one roof, is so separated as to permit the receiving and handling of Grade A milk in accordance with board of health regulations. In a completely segregated portion of the plant are separate facilities for receiving and manufacturing milk not qualified to be labelled Grade A. This cooperative plant, located at Starkville, Mississippi, supplies its two subsidiary distributing units, A and M Dairies at Greenwood and Starkville. The Cooperative Creamery Association supply plant also contracts with Grenada Farms, Grenada, to furnish monthly specified quantities of milk. In addition, other handlers from time to time purchase supplemental supplies of milk from Cooperative Creamery Association. The Mississippi Milk Producers' Association—the principal cooperative representing producers supplying milk to handlers regulated by Order No. 87 for the Central Mississippi marketing area—is also a proponent of a proposed regulation for the Mississippi Delta marketing area. This bargaining cooperative association represents members who supply handlers that would be regulated by the proposed marketing agreement and order.

Winco Dairy Association, Louisville, Mississippi, and Cooperative Dairies Incorporated, Columbus, Mississippi, together representing approximately 15 percent of all the dairy farmers supplying milk to distributors in the proposed marketing area, operate distributing plants in their respective cities.

The western portion of the marketing area is known as the Delta area and is primarily a cotton producing section. Dairy farming is a minor enterprise. Dairy farmers producing Grade A milk for the proposed marketing area are concentrated in the eastern portion. More than half are located in Lowndes, Oktibbeha, Noxubee, Winston and Attala counties. The remaining producers are scattered over a 20-county area.

Conditions and practices in the trade of this area justify a uniform price plan as authorized under the Act. First, there are procurement practices and policies that, in the absence of a uniform pricing scheme, contribute to market instability and insecurity for producers. Some plants do not afford producers a reliable market or outlet for their supply. In order to keep their costs of supply used in Class I products as low or lower than competitors, and their plant price to producers in line with those paid at other plants, they drop producers in periods of flush production. Then, in periods of low production, or of expanded sales, they reinstate old producers or recruit others. Producers who are dropped when market supplies are seasonally plentiful usually have no alternative outlet better than a distant product manufacturing plant, where returns are much lower than at Grade A milk plants. Such unfortunate producers, in effect, bear a very disproportionate share of the loss or low return on that portion of market supplies which is in excess of daily Class I usage, but which is none the less essential to an adequate market supply. This practice tends to unsettle supply conditions. Other distributing plants limit producers to a number that furnishes an adequate supply only during months of relatively heavy production, and depend upon supplementary supplies from other plants, or other sources, in other periods. While producers who deliver to such plants may be relatively well paid, the use of milk from sources other than producers, when producer milk is available, reduces Class I utilization of producer milk in the market and lowers average plant returns to producers.

In this respect the case is different if plants with short supply of producer milk obtain supplementary supply from supply plants or other plants that receive producer milk in excess of the requirements of their more regular outlets. While this practice displaces no producer milk it has given rise to disparity in prices paid to producers and in the cost, to competing distributors, of milk actually used in fluid milk products. In this marketing area, much of the supplemental milk required by distributing plants is supplied by a cooperative association, that operates two distributing plants and a supply plant. All member milk is received in the supply plant from which it is moved to its processing plants as needed for fluid milk products and to other distributing plants needing supplementary supply for their fluid products. Receipts from producers in this plant usually exceed sales to processors for fluid milk products. Although the extra milk in the plant is clearly essential reserve supply for the market, it may be utilized only in relatively low valued Class II products. The lower valued utilization of this reserve supply tends to make returns to producers at this plant lower than at plants that receive from producers little, if any, supply in excess of actual utilization in fluid milk products.

Such supply relations and concomitant producer prices signify that producers do not share equally in returns from the plants using their milk for fluid milk products. Unequal sharing by producers in market returns from plant utilization of milk, which they in effect supply in common, causes unsettled and unstable market conditions for producers and handlers alike.

The producer testimony on need for an order stresses the instability and uncertainty as well as the inequality in plant prices to producers. No comprehensive compilation of statistical evidence of such price conditions was presented. But, it was stated that not infrequently producer prices have been lowered on rumors or fear of retail and wholesale reductions in street prices. An instance of this occurred in 1956 when producer prices were generally decreased 15 to 25 cents per hundredweight for a period of 3 months even though retail and wholesale prices were reduced for only two weeks, and such change occurred in only a small segment of the sales area. While this may not be a common occurrence, it signifies what has and what may happen to producer prices in the absence of some comprehensive and orderly method of determining them. Variations in pricing plans and in class utilization prices in this area reflect unequal costs of milk among handlers. Such inequality has tended to unsettle trade relations and to depress producer prices.

In this area producers have little part in the determination of plant prices and payments. Handlers pay producers on base and excess price plans devised by handlers. Producers are unable to determine or check the accuracy of weights and tests. Attempts by proponent cooperatives to work out with handlers a classified price plan have failed. Handlers have not been receptive to bargaining with producers.

The marketing agreement and order as recommended herein will implement the policy declared in the Agricultural Marketing Agreement Act of 1937, as amended, of establishing and maintaining orderly marketing conditions by providing:

(1) A determination of prices to producers under a regular and dependable method at levels consistent with the policy established by the act;

(2) An impartial audit of handler's records of receipts and utilization to insure payment of uniform prices for milk purchased;

(3) The establishment of uniform class prices to handlers based on the utilization of milk;

(4) Uniform returns to producers supplying the market and an equitable sharing by all producers of the lower returns for sale of reserve milk;

(5) Uniform rules for all producers in a seasonal production incentive plan which will encourage all producers to adjust production to a more even pattern;

(6) A system of impartial checking of all producer milk in respect to weight and butterfat content; and

(7) Marketwide information in respect to all receipts, utilization and intermarket movements of milk.

(3) *Order provisions*—(a) *Scope of regulation.* The type of regulation effected by a milk order is essentially a matter of establishing minimum prices to dairy farmers who produce milk for the market. The scope of such regulation is determined by appropriate definitions of the terms: marketing area, pool plant, handler, producer-handler, producer, producer milk and other source milk.

(1) *Marketing area.* The Mississippi Delta marketing area should include all the territory and municipalities and military reservations within the boundaries of: Attala, Bolivar, Carroll, Choctaw, Grenada, Holmes, Humphreys, Leake, Leflore, Lowndes, Montgomery, Noxubee, Oktibbeha, Sharkey, Sunflower, Tallahatchie, Washington, Webster, Winston, and Yazoo counties; Beats 1, 4 and 5 in Calhoun county; Beats 4 and 5 in Coahoma county; Beats 2, 3, 4, and 5 in Quitman county including all of the village of Crowder; and Beats 1, 4, and 5 in Yalobusha county all within the State of Mississippi.

This definition is different from that of the revised recommended decision in that Beat 5 in Chickasaw county and Beat 3 in Panola county are excluded, except for the border village of Crowder.

Several proposals were made with respect to the marketing area. Altogether, a total of 45 counties, encompassing all the counties in Mississippi north of the present Central Mississippi marketing area, were proposed to be included as the marketing area. But the problems complained of by proponents centered primarily around the handling of milk in plants which serve a general area known as the Mississippi Delta. The marketing area as defined by proponents comprised a contiguous group of 17 counties. Distributors proposed 28 additional counties.

This definition differs from the proposal of proponent in two respects: Issaquena county and parts of Coahoma and Quitman counties are not included; the counties of Winston, Noxubee, Lowndes, Oktibbeha, Choctaw, Webster

and parts of Calhoun and Yalobusha counties are added. The remainder of each of these counties and 17 other counties, extending east and west across the state and north to the Tennessee line, proposed by distributors, are not included in the area. One other county, on the southern edge of the area, which was proposed as additional to proponents' group, is not included.

The chief fault found with proponents' area proposal was that it was too limited. Although it was broad enough to include all competing distributors in the main currents of the trade in the region, it failed to include important segments of the sales areas of a few of these distributors. Such operators sought to protect themselves against competition with unregulated distributors, in what would be outside sales territory, by proposing to incorporate such localities in the marketing area. Distributors who might become regulated by such area extension in turn proposed still further extensions. All these proposals for additions to proponents' proposed area will be examined in the light of all the evidence. But, before considering them, it may be well to give reasons for not including in the area all the counties in the group proposed by proponents.

One county and parts of two others of the area proposed by proponents are omitted. Issaquena county is on the very southern edge of the Delta region. It is sparsely populated and is served only by distributors who would be regulated because of business in other localities. But, it is not in the sales territory of many Delta distributors and might perhaps be served as well by Central Mississippi distributing plants as by Delta distributors. For these reasons, the evidence generally in support of the proposed area, does not qualify this fringe locality. Leake county also was omitted from the previous recommended decision. But, on the basis of exceptions it is included in the area of this decision. The principal distributor in this county excepted to its omission on the ground that his trade in Leake county is a substantial and integral part of his trade in the recommended area and if this county is not included he at times might not qualify as a pool handler. This distributor also sells in the Central Mississippi area. But his chief competition in Leake county is another Delta area distributor, who also urges the incorporation of Leake county in the Delta area. These circumstances justify including Leake county in the Delta marketing area.

Parts of the other counties in proponents' proposed area that should not be included are Coahoma and Quitman. Beats 1, 2, and 3, in Coahoma county and Beat 1 in Quitman county are located on the northwest edge of the marketing area and are more closely associated with the Memphis marketing area than with the Delta area. There is one milk distributor located in Coahoma county, none in Quitman county. A distributor regulated by Memphis Federal Order No. 18, and a distributor that would be partially regulated under the order recommended herein, distribute fluid milk products on routes in these two counties. The record is incomplete with respect to the exact proportion of total sales in these counties that is now made by distributors who would be handlers under a Delta order. From the exceptions, however, it is evident that the local handler in Coahoma county would be fully regulated only part of the time because of sales in other parts of the marketing area. Regulated handlers have the majority of fluid milk product sales in the parts of these counties added to the area. Procurement of milk for these counties is in competition with both the Memphis and Delta source of supply. Therefore, only Beats 1, 2 and 3 in Coahoma and Beat 1 in Quitman county should not be included in the marketing area.

The remaining 13 counties in proponents' group and 9 additional counties or parts of counties are included in the area. These additional counties—named in the forepart of the discussion of this issue—were proposed by Delta area distributors whose sales territories extended to the north and west beyond the limits of the area proposed by proponents. Such extension seems advisable and is, therefore, provided. In these counties, the business done by principal Delta distributors is substantial. Evidently, they are an important part of the market for producer milk. And milk marketing and distribution in this additional area is closely interrelated with that of the chief centers of the Delta trade. Adding this territory would bring under the order three additional handlers, who would otherwise be unregulated. But, the limits on the north, which would exclude parts of the counties of Coahoma, Calhoun, Quitman and Yalobusha would minimize "fringe area" sales by distributors whose business in the main is in other areas. Including only parts of these counties, as indicated above, with the other counties mentioned would still confine the regulation to those mainly engaged in the Delta area trade. There would be only two "fringe" distributors, each with approximately five percent of his sales in the area.

It is necessary thus to limit the area on the north in order to avoid full application of this order to Grade A milk handlers and their producers whose marketing operations are mainly in the trade centering in Tupelo, Mississippi, or are associated with the Memphis trade. Since such interests are not competitive factors in the main currents of trade in the Delta region, there is no justification in bringing them fully under a price plan designed specifically for the trade in the Delta region. The defined area would avoid this. If it were extended further to the north it would involve distribution mainly engaged in other marketing areas. For this reason the other 17 counties to the north which were proposed as additions to the proposed area could not be included in the area. Their exclusion leaves two Delta area handlers with approximately 15 percent of their respective sales outside the area. In this part of their sales territory their competition would be unregulated. But under the circumstances this is unavoidable; for in these northern counties, the Grade A milk trade emanates from local centers that are more closely related to Tennessee and Alabama markets than to the Mississippi Delta market.

Warren and Kemper are the remaining counties that were proposed for the Delta area and that are not included in the defined area. Warren county is presently a part of the Central Mississippi marketing area and is ineligible for the Delta area. And the evidence concerning Kemper affords little grounds for attaching it to the Delta area. It is on the southern edge of the Delta trade region, as conveniently located to Central Mississippi plants as to those in the Delta trade. The only urban population is in small and scattered towns. Other salient facts are: that there is no local distributor in the county; that sales by a Central Mississippi handler presently constitutes about 40 percent of total distribution in the county; and, that the rest of the business is done by distributors who would be handlers under the Delta order.

Finally, it may be said in behalf of the defined marketing area that it would be the regulation to handlers who are primarily engaged in the trade of the Delta region; that the recommended area is contiguous and has uniform health and sanitation regulations of production and handling of milk; that it would subject only minor fringe area distribution to partial regulation; and that the sales areas of all fully regulated handlers would be mostly within the marketing area. Only two handlers would have as much as 15 percent of sales outside of the area. Only these handlers would have competitive relations with unregulated distributors.

(2) *Milk to be regulated.* The milk to be regulated by the proposed marketing agreement and order should be that which is regularly delivered to plants from which milk is regularly distributed on routes in the marketing area, or which is delivered to plants that are regular sources of supply for such plants. To be eligible for such distribution, milk must be produced, processed, and distributed in conformity with applicable health regulations. Provision should be made to designate clearly what milk will be subject to the pricing and pooling provisions of the recommended marketing agreement and order. For this reason, definitions of handler, producer-handler, plant (various types), producer, producer milk, and other source milk should be provided.

A handler should be defined as:

(1) The operator of a pool plant as hereinafter defined;

(2) The operator of a plant from which Class I milk is processed, packaged, and distributed on routes within the marketing area; and

(3) A cooperative association with respect to the milk of any producer which such cooperative association causes to be diverted from a pool plant by delivery directly from producers' farms to a nonpool plant for the account of such cooperative association.

The handler receives the milk of producers and thus must be held responsible for reporting its receipt and utilization. The handler is the one responsible for the payment for producer milk at not less than specified minimum prices. In case a person operates more than one plant at which milk is to be priced, he should be a handler with respect to the combined operations of such plants. If a handler also operates an unregulated plant(s), this definition is not intended to include such person in his capacity as an operator of such type of plant(s). Producer-handlers and other operators of distributing plants should be handlers in order that such persons shall report to the market administrator to determine their status at any given time.

The definition of a pool plant should be such as to determine which producers, as hereinafter defined, are to be included in the determination of a marketwide uniform price to producers. Some plants have received milk from local dairy farmers and distributed most of such milk as fluid milk products in the proposed marketing area over a period of several years. There are other plants that fall into one of two categories, (a) distributing plants with a primary interest in other fluid markets but distributing milk within the area and (b) plants generally known as supply plants at which milk is received directly from dairy farmers and delivered in bulk to distributing plants. There are two distributing plants not regulated by any Federal milk order located outside the proposed marketing area that currently sell fluid milk products within the area, but have their primary market elsewhere. Milk distributors in this market depend in part upon bulk supplies of milk and thus there needs to be provision for supply plants as pool plants. Specific requirements for pool plants are therefore needed to define the supply which is generally regarded as an integral part of this fluid market. This may be accomplished by first defining a distributing plant and a supply plant.

A distributing plant should be defined as a plant at which fluid milk products, conforming to the Grade A sanitation requirements of any duly constituted health authority having jurisdiction in the marketing area, are processed and packaged and from which fluid milk products are disposed of on route(s) in the marketing area.

A supply plant should be defined as a plant at which milk produced in conformity with Grade A health regulations for the marketing area is received from dairy farmers and from which fluid milk products are moved to a distributing plant.

A pool plant should meet certain performance standards in order to determine its status as a regular and substantial supplier of fluid milk in the marketing area. In order to qualify as a pool plant, a distributing plant should (1) dispose of 20 percent or more of receipts from dairy farmers and supply plants as fluid milk products on routes in the marketing area and (2) have a total disposition of fluid milk products on routes of 50 percent or more of receipts of fluid milk products from dairy farmers and supply plants. In order to qualify as a pool plant a supply plant should move 50 percent or more of receipts from dairy farmers to a distributing plant, as herein defined. If a supply plant qualifies on this basis during each of the months of September through January, it should be able to retain pool plant status the following February through August.

The supply area for the Mississippi Delta marketing area overlaps the supply area of other fluid markets and manufacturing milk production areas. Therefore, the previously stated pool plant requirements are necessary to insure (1) that the producers sharing in the uniform price of the market pool be those delivering to plants from which a substantial portion of the milk received at such a plant is disposed of as fluid milk products in the marketing area and (2) that the receipts of those plants which primarily serve markets outside the marketing area be excluded from sharing in the pool. Thus, it is provided that those plants that make sales of fluid milk products on routes in the marketing area that represent 20 percent or more of total receipts from dairy farmers should be regarded as pool plants. Such a percentage of sales in the area in most cases would represent a substantial volume and thus dairy farmers shipping to such plants should share in the marketwide pool.

The proponent cooperative associations proposed that not less than 70 percent of the receipts of producer milk and fluid milk products from other pool plants be disposed of on routes as Class I during the months September through January as a necessary requirement for qualifying a distributing plant as a pool plant. Similarly a 60 percent shipment of producer milk by a supply plant to a distributing plant would be necessary for pool plant qualification. But, a percentage requirement higher than 50 percent in either case is not warranted on the basis of this record even though distributing plants normally use a higher proportion of their receipts from dairy farmers as fluid milk products. The purpose of this percentage requirement is to distinguish distributing plants from supply plants for the purpose of pool plant qualification. Not less than 50 percent distribution of fluid milk products on routes in any month would indicate that the plant is primarily a milk distributing plant. Route disposal will serve to distinguish those plants that may qualify as pool plants through route distribution from those which must qualify as supply plants. Route is defined in the order to include all deliveries of fluid milk products other than deliveries to other milk plants.

The 50 percent shipping (to distributing plants) requirement would be reasonable for supply plants as a parallel requirement to that of distributing plants, but it should not apply to supply plants during months of seasonally heavy receipts from producers. Supply plants carry reserve supplies for distributing plants. If they have the milk when needed by processors they may have little or no call for it during flush months. If a supply plant meets the required standards during the short supply season (September–January) status as a pool plant would then be retained during the balance of the year (February–August).

The Mississippi Delta market is currently served by one supply plant. This plant operated by Cooperative Creamery Association and located at Starkville, Mississippi, supplies bulk milk to its distributing plants at Starkville and Greenwood. In addition, other handlers in the proposed marketing area purchase bulk supplies from this plant. These standards will require such supply plants that qualify to have a primary interest in supplying the Mississippi Delta market, and an opportunity to share in marketwide pooling at all times if it establishes its association with the market during the season of normally low supplies.

Producer-handler should be defined as a dairy farmer who operates a distributing plant but receives no milk from other dairy farmers or nonpool plants.

The purpose of this definition is to describe a type of producer-handler operation which would not be required to equalize utilization and prices with the rest of the market. As a practical matter the producer-handler status—outside the producer price pool—must be defined in terms that definitely prescribe the latitude in procurement afforded such an operator.

First, it may be noted that there is no evidence or argument against confining this category to distributors who receive no milk from producers; for, uniform pricing of producer milk as herein recommended requires the equalization of utilization and prices by all handlers who procure milk from producers. Exception for this type of handler would tend to diminish the efficacy of the pricing scheme. For much the same reason a handler who uses other source milk, in addition to his own production, in fluid milk products, must be required to equalize utilization and prices with other distributors. Otherwise, such a handler might be able to acquire relatively low cost milk for an expansion of his business, at the expense of other distributors and their producers. For these reasons it is concluded that these restrictions are entirely appropriate.

But the evidence does not justify further circumscription of this type of handler. The proposed limitation—3300 pounds per month—on sales was insufficiently supported and seems to be unwarranted. The limitations discussed above would remove the likelihood of any cost advantage that the producer-handler might gain over pool handlers. There was no evidence to show that in this area a prescribed quantitative limit, in addition to procurement limitations, would be necessary in order to prevent this type of handler from undermining or limiting the market for producer milk. If sales by such a handler are limited for the most part to what he can economically produce it must be presumed from the evidence that he would enjoy no obvious competitive advantage in the trade. And this would most likely be true even if producer-handlers are permitted to supplement their own production with purchases from pool plants. It was proposed to confine the supply of a producer-handler to his own production. However, procurement from pool plants normally would cost considerably more than direct receipts of producer milk, and in this area probably could not be relied upon by such handlers, except in relatively

small and uncertain quantities. Such milk, of course, would be fully priced producer milk at the pool plant and would be a part of the reserve supply for pool distributors. It would not be available to nonpool handlers at any lower cost, certainly, than to pool distributors. Furthermore, it would seem that under such circumstances procurement by producer-handlers from pool plants would tend to increase Class I utilization of producer milk and to increase returns to producers. It is therefore recommended that producer-handler be defined so as to confine the supply of milk for such an operator to his own production and receipts from pool plants.

Producer should be defined as a person, other than a producer-handler, who produces Grade A milk, in conformity with the sanitation requirements issued by a duly constituted health authority, for consumption in the marketing area as a fluid milk product and whose milk is received at a pool plant. Producer milk diverted from a pool plant by a handler, including a cooperative association, to a nonpool plant for its account should be deemed to have been received at the location of the pool plant from which diverted. In order to distinguish between producers whose milk may be temporarily diverted and those whose milk may be more or less permanently diverted from the fluid market, some limitation on the length of time that milk may be diverted and still be considered as producer milk under the order is desirable. Based on the conditions in the market, it is concluded that milk of a dairy farmer which is diverted to a nonpool plant in excess of 10 days production during any month (except during the months of February through August, when receipts of milk from producers are relatively large in relation to Class I sales) should not be considered as producer milk under the order. Milk of a dairy farmer which is moved to a nonpool plant in a quantity that exceeds 10 days production during the months of September through January is not sufficiently associated with this market to be priced and pooled with other producer milk. Free diversion of milk during February through August will facilitate the economical disposal of seasonal reserve supplies. Such provisions will permit milk regularly associated with the market to be diverted to manufacturing plants during periods of seasonal flush production and over weekends and holidays when supply and demand relationships may require some reserve to be manufactured in plants not regulated by the order. This provision will facilitate interplant movements of milk for the purpose of short time adjustments of supply and demand without depriving dairy farmers producing the regular supply for the market of their status as producers.

Other source milk should be defined as all skim milk and butterfat contained in fluid milk products received by a handler at his plant(s), except producer milk and fluid milk products received from pool plants. Any receipts from a producer-handler would be other source milk since such persons are neither a producer nor the operator of a pool plant. This definition would include milk products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed and converted to another product in the plant during the month. Supplemental supplies from nonpool plants are occasionally needed and the amounts needed vary from season to season and between handlers.

(b) *The classification and allocation of milk.* Milk should be classified in two classes reflecting the principal differences in the value of milk used for different purposes. Class I should include all skim milk and butterfat disposed of for consumption as a fluid milk product. Fluid milk product means milk, skim milk, buttermilk, flavored milk and drinks, cream and mixtures of milk, skim milk and cream. Plant loss of producer skim milk and butterfat in excess of 2 percent and skim milk and butterfat not accounted for as Class II should also be classified as Class I. Because skim milk and butterfat are not used in most products in the same proportions as received from producers, these components should be classified separately. Class prices, however, will apply per hundredweight of milk, and will be adjusted for the butterfat content of the milk actually used in each class through butterfat differentials.

Representatives of the health authorities having jurisdiction in the proposed marketing area testified that fluid milk products, as defined herein, sold for consumption in the area must be produced and handled in compliance with sanitation standards that are substantially uniform throughout the proposed marketing area. The proponent cooperative associations requested that buttermilk be a Class I product. The health regulations require the same health standards for buttermilk as is required for fluid milk. It is concluded that buttermilk should be a Class I product. Skim milk and butterfat used to produce sweet and sour cream must meet the same health requirements as milk for fluid consumption, hence it is appropriate that cream be classified and priced in the same class as fluid milk.

The products which should be included in Class I are those distributed to consumers in fluid form and required by the health authorities having jurisdiction in the marketing area to be obtained from milk or milk products from Grade A sources. The extra cost of Grade A quality milk produced and delivered to the market in the condition and quantities required makes it necessary to provide a price for milk used as Class I somewhat higher than for milk used for manufacturing purposes. It is appropriate that all of the products required to be from Grade A milk be included in a single class so that all milk required to make such products may contribute uniformly to the cost of supplying the market needs for Grade A milk.

Reserve milk not needed seasonally, or at other times such as weekends, for Class I use must be disposed of for use in manufactured products. These products are not required to be made from inspected milk, must be sold in competition with products made from uninspected sources produced over a large area and generally are less perishable than fluid milk products. Milk so used should be classified as Class II and priced in accordance with its value in such outlets.

Class II should therefore include skim milk and butterfat used to produce any product other than a fluid milk product, including but not limited to such products as ice cream, ice cream mix, ice milk, frozen desserts and mixes, frozen cream, aerated cream, dried milk products, whole and nonfat, condensed or evaporated products, butter, cottage and hard cheese. Class II should also include plant loss of other source milk, actual plant loss on producer milk not in excess of 2 percent, all skim milk dumped or accounted for as disposed of for livestock feed, and inventories of fluid milk products on hand at the end of any month. Cream which is frozen and placed in storage should be Class II since such cream is intended primarily for use in ice cream or ice cream mix. Any frozen cream or other Class II products which may be used later in a fluid milk product would be considered as other source milk at the time of such use and assigned to the lowest priced utilization in the plant.

Handlers have inventories of milk and milk products at the beginning and end of each month which must enter into the accounting for current receipts and utilization. The record testimony indicates that an appropriate classification of the inventory of fluid milk products is in Class II. This manner of classifying inventory with correlated steps in the allocation procedure provides a means of charging each handler for his Class I sales each month at the current Class I price. Fluid milk products whether in bulk or packaged form should be inventoried and classified as Class II. Manufactured milk products are not included in inventory accounting because the skim milk and butterfat used for such products are accounted for in the month when such products are manufactured.

Uniformity of costs to handlers and simplicity of accounting are achieved if, so far as possible, Class I utilization each month is assigned to current receipts of producer milk. This can be accomplished by classification of closing inventory as Class II, and allocation of opening inventory to Class I only when current receipts of producer milk (except allowable Class II shrinkage) are less than Class I sales. In such case the handler should pay the difference between the Class II price for such milk in the preceding month and the current Class I price. The volume on which this charge is made should not exceed the volume (in excess of allowable Class II shrinkage) for which producers were paid at the Class II price in the preceding month.

Inventories of products designated as Class I on hand at a pool plant at the beginning of any month during which such a plant becomes qualified for the first time should likewise be subtracted from the Class II utilization of such plant. This will preserve the priority of assignment of current producer receipts to current Class I use for each month.

Unaccounted for milk in excess of a reasonable allowance for plant loss should be Class I so as to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance for this purpose. No limit need be put on shrinkage of other source milk since such milk is deducted from the lowest use class under the allocation procedures. Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts. Allowance for loss on producer milk diverted to another pool plant should be at the pool plant where actually received. When milk is moved in bulk from a supply plant to a distributing plant the loss on producer milk should be prorated at the rate of 0.5 percent to the supply plant and 1.5 percent to the distributing plant. Each handler must be held responsible for full accounting of all his receipts of skim milk or butterfat in any form. The handler who first receives the milk from producers should be responsible for establishing the classification of and the payment for producer milk. Except for such limited quantities of shrinkage that may be classified in Class II, all skim milk and butterfat which is received and for which the handler cannot establish utilization should be classified as Class I milk. This provision is necessary to remove any advantage to handlers who fail to keep complete and accurate records and to assure that producers receive full value for their milk on the basis of its use.

Provision should be made for classification of fluid milk products transferred in bulk between pool plants and from plants to nonpool plants. Transfers between pool plants should be permitted in any class agreed upon by the handlers operating such plants so long as the prior claim of producer milk for Class I sales is maintained. Transfers between pool plants at an agreed upon class will not affect the total value of producer milk under a marketwide pool so long as this prior claim is maintained.

Milk, skim milk or cream transferred or diverted from Mississippi Delta pool plants to nonpool plants should be classified as Class I to the extent that the receipts from regulated plants under this order or any other order exceeds the Class II usage in the nonpool plant. In the event fluid milk products are received at a nonpool plant from more than one plant regulated by a Federal order, any skim milk or butterfat classified as Class I at such a nonpool plant should be shared pro rata between pool plants of this and other orders. In order to substantiate a Class II classification the nonpool plant must have and make available records adequate to verify any Class II utilization claimed.

There was no evidence indicating that the Mississippi Delta market carries milk supplies for other markets and therefore producers have no claims of priority to Class I sales in other markets resulting from transfers from pool plants to nonpool plants in such markets. The highest-valued uses should be assigned first to producers regularly supplying the other market. The provisions herein outlined are provided purposely to assure such assignment.

When handlers receive butterfat and skim milk from sources other than from producers, it is necessary to provide a method for allocating such receipts to the classes of utilization in such a manner as to determine the classification of producer milk. Inasmuch as producer milk is the regular available supply for fluid consumption in the marketing area, producer milk should be assigned the Class I utilization in preference to other source milk. This is necessary to insure the effectiveness of the classified pricing program of the proposed order. The system of assigning utilization of milk to receipts from different sources which will carry out this objective is set forth in detail in the proposed market agreement and order.

In general this procedure requires that skim milk and butterfat, respectively, remaining in each class be assigned to producer milk by making the following deductions from the gross utilization of each handler starting with Class II milk, except as otherwise noted:

(1) Class II shrinkage of producer milk;

(2) Other source milk;

(3) Receipts from other handlers (according to classification);

(4) Beginning inventory;

(5) Add shrinkage deducted in (1); and

(6) Overage.

Since uniform prices paid producers by each handler are to be calculated monthly, the assignment of utilization described above should be carried out with respect to all milk received during each month.

(c) *Class prices.* Class I prices should be established at a level, which in conjunction with Class II prices, hereinafter concluded to be appropriate, will result in returns to producers high enough to maintain an adequate but not excessive supply of milk to meet the requirements of the marketing area.

The maintenance of stable conditions in the market requires that prices be modified whenever the supply of milk in relationship to sales is out of adjustment. If prices remain too low, insufficient milk will be produced to provide for Class I needs, and if a shortage of this kind should continue it would be necessary to supplement supplies from regular producers by importations of milk from distant areas. On the other hand, if prices are too high, excess production is stimulated, consumption is curtailed, and uneconomic surpluses of milk develop. Moreover, an appropriate balance between supplies of approved milk from regular producers and the sales of such milk in Class I will be attained only if Class I prices are in proper relationship to prices of milk from supplemental sources of supply.

Because of changing supply and demand conditions for milk in the market it is necessary, in order to maintain an appropriate relation between supply and sales, to provide a method of flexible Class I pricing. Pricing formulas which cause prices to change automatically with changes in market conditions are in general use for the pricing of milk to farmers in fluid markets. Proponents proposed for this area such a Class I price formula, one which was much the same as that in the Central Mississippi area under Order No. 87. The purpose was to provide appropriate flexibility in Delta area prices and, at the same time, close articulation of Delta prices with Central Mississippi prices. But, it is shown below that the proposed separate formula for the Delta area would not meet these tests; and that price objectives would be better served by basing Delta area Class I prices directly on prices of the Central Mississippi order at certain designated basing points in the Delta area, than by a separate formula provision.

(1) *Class I price.* The Class I prices in this order should be the Class I prices determined pursuant to § 987.51 (a) of Federal Order No. 87 regulating the handling of milk in the Central Mississippi marketing area, less 16 cents per hundredweight.

It was proposed by the cooperative that the Class I prices be $1.65 per hundredweight above a basic formula price for the months of March through July and $2.05 for all other months. The basic formula price suggested was the highest of the average price paid midwestern condenseries, a formula price based on market values of butter and nonfat dry milk, or the average paying price of nearby Mississippi manufacturing plants.

The result of the cooperative's proposal would be a Class I price 20 cents per hundredweight less than the Class I prices determined under Federal Order No. 87 for the Central Mississippi marketing area. This price would apply to all plants that would be pool plants in the marketing area proposed by the two proponent cooperatives. This proposal was supported on grounds of inter-area relations of the trade in the Delta region with that of the Central Mississippi area. This was the dominant consideration in the determination of the level of Class I prices.

It should be noted that the Delta area adjoins the Central Mississippi market on the south while the northern boundary is approximately 100 miles south of the Memphis area. For 1957, Class I prices at Jackson, Mississippi, averaged $5.73 and at Memphis $5.34. Thus the proposed Delta price of 20 cents under the Jackson price, in 1957, would have been about the same amount over the Memphis price. In 1956 average Class I prices in Memphis were 53 cents lower than the Central Mississippi prices at Jackson. In 1955, the difference was 57 cents. A handler proposed that if Delta prices must be definitely aligned with Central Mississippi prices, as proposed by producers, rather than with Memphis prices, they should be no less than 30 cents under the Jackson, Mississippi, price. This proposal, however, seems to assume that the difference in the annual level of Class I prices in Central Mississippi and in the Memphis area is most likely to be nearer to 60 cents than to 40 cents. This assumption was not supported by any examination of the factors

associated with the fluctuating relation of prices in these two markets. On the basis of hearing evidence, there is no good basis for predicting much different relationship from that in 1957.

The same Class I price for all pool plants regardless of location in the area is necessary to equalize extensive competitive relations among pool plants in the area. The prices proposed by proponents need to be altered slightly under prevailing price relations between the Central Mississippi and Memphis markets. A Class I price of sixteen cents under the Central Mississippi market will provide a price, 25 to 30 cents over Memphis and in proper alignment to the location of the Delta territory with respect to these areas. The same price for all plants in the marketing area will reflect the competition between Delta plants. The recommended level of the Class I price will reflect the competition some Delta plants have with the Central Mississippi market.

The procurement area is almost wholly within the proposed marketing area. Some distributors within the area have sales outside the area. Two milk distributors located in the southeast portion and two located in the west-central side of the marketing area sell some fluid milk products in the Central Mississippi marketing area. Three Central Mississippi area handlers distribute fluid milk products in the proposed Delta area. Three milk distributors in the Delta area have some sales to the north, outside the marketing area, in competition with Memphis handlers and with milk distributors primarily competitive with the Memphis trade area. Nonpool plants located within the marketing area, in the eastern portion of the area, compete for supplies of milk with milk distributors that would be regulated under this recommended order. These nonpool plants procure supplies for manufacturing purposes and for sale as Grade A fluid milk for markets in the State of Alabama. Because of the competition in the sale of milk and in the procurement of supplies, milk at the various locations in the recommended marketing area should be priced in accordance with the general location of the marketing area to the trade in the Central Mississippi market.

Obviously, it is necessary in order to contribute to orderly marketing and market stability to price milk in the Delta pool at approximately the level it would be if it were in the Central Mississippi pool. A large portion of the supply area is around Starkville. Under the Central Mississippi order the Class I price would be adjusted by 16 cents at this location. The same location adjustment would apply at Greenwood, which is one of the larger sales areas. A Class I price identical with that which the Central Mississippi order provides at Greenwood and Starkville, Mississippi, will then appropriately extend the Central Mississippi Class I prices adjusted by location adjustments to the Delta area.

(2) *Class II price.* The Class II price should reflect the value of milk for general manufacturing uses in the Mississippi Delta milkshed. The average of the prices paid at four Mississippi dairy manufacturing plants provides an appropriate indication of the value of milk for such uses in the area. The four plants selected are in the general area of the Mississippi Delta milkshed, and are not operated or controlled by persons who will be handlers under the order.

To the monthly average of the prices paid at local dairy manufacturing plants 20 cents per hundredweight should be added for the months of September through January and 10 cents all other months. Proponents testified that they are willing to divert for their account milk that handlers do not want to dispose of as Class II. Proponents are able to dispose of Class II milk at this price level. The recommended Class II price will discourage handlers from procuring needless supplies of Grade A fluid milk for Class II use and thus will tend to maximize returns to producers for Grade A milk used for Class II.

(3) *Handler butterfat differential.* Butterfat and skim milk will be accounted for separately for classification purposes since they are not used in most products in the same proportions as received from producers. The basic test for which class prices are determined is 4.0 percent butterfat content, the usual fat test at which prices are quoted in the area, and on which the market has operated for many years. It will then be necessary to adjust Class I and Class II prices of milk to handlers in accordance with the average test of milk used in each class. Butterfat differentials which reflect differences in value due to differences in butterfat content are used for this purpose. Producers proposed that the handler butterfat differentials be .12 times the Chicago price of 92-score butter. In the Mississippi Delta area, fluid cream must be from Grade A milk and is therefore priced as Class I milk. Butterfat in cream from inspected sources sold as fluid cream or cream mixtures has a higher value than that in ungraded milk which will be approximately reflected by a butterfat differential 0.12 times the Chicago butter price. Such a differential should be used to adjust the hundredweight price of Class I milk for each one-tenth percent variation for 4.0 percent butterfat content. The Class II butterfat differential should be 0.11 times the Chicago butter price as proposed. Such a differential reflects an appropriate value of butterfat for Class II uses in this area.

(4) *Location differentials.* It is concluded that location differentials should apply on Class I milk received from producers at Delta plants located 30 miles but less than 40 miles north of U. S. Highway No. 82 and within the State of Mississippi. The price at such plants should be 7.5 cents less than the prices determined pursuant to § 905.50 (a) of the proposed order. For pool plants located outside the State of Mississippi and 30 miles but less than 40 miles from the nearer of the city halls of Greenville or Columbus, Mississippi, the price should also be decreased 7.5 cents. An additional deduction at pool plants located 40 miles or more north of U. S. Highway No. 82 in the State of Mississippi or outside the State and 40 miles or more from the named basing points at the rate of 1.5 cents for each 10 miles such distance exceeds 40 miles.

Exceptions to the revised recommended decision maintained that location adjustments should not apply to plants in the State of Mississippi located between U. S. Highway No. 82 and 30 miles north thereof. Previous decisions lacked clarity in specifying the application of location differentials to pool plants located north of U. S. Highway No. 82 and in the State of Mississippi and for pool plants located outside the State. This decision and the order provisions attached hereto specify that a pool plant located within the State of Mississippi, shall be located 30 miles or more north from U. S. Highway No. 82 *before* location differentials apply. Competitive conditions affecting handlers located within 30 miles north of U. S. Highway No. 82 are comparable, so that class prices should be the same for all handlers located in this area whether in the west, central or eastern portion of the marketing area. The competitive conditions in sales and procurement with the Memphis market incurred by handlers located farther than 30 miles north of U. S. Highway No. 82 justify a location adjustment of the amount provided in the revised recommended decision.

The location adjustments provided herein recognize the principle that milk similarly used and located should be similarly priced.

Since the Delta area is directly north of the Central Mississippi area there is no need for location adjustments to the south. Distances would be measured by the shortest highway distance open to commercial truck traffic as determined by the market administrator. This mileage rate, which is the same as that applicable under Order No. 87, is valid for the Delta area, as shown by evidence in the record. The value of manufacturing milk is approximately the same regardless of location. Any differences in price of such milk has little relation to its location to the Mississippi Delta area or to its location nationally. Therefore, location adjustments are unnecessary on Class II milk and should only apply to milk assigned or otherwise classified as Class I.

The uniform prices for producer milk should be subject to location adjustments to reflect the value of such milk in accordance with the location of the pool plant to which such milk is delivered. The rate of adjustment applying to uniform prices should be the same as herein recommended for adjusting Class I prices to handlers. This would be as proposed by producers and as provided in the Central Mississippi area.

(d) *Payments to producers*—(1) *Type of pool.* The marketwide type of pool should be included as a means of distributing to producers the returns from the sale of their milk.

The proponent cooperatives proposed that distribution returns from the sale of producer milk be on a marketwide basis.

Marketing conditions require payment of a uniform price to all producers representing the value of all market utilization to compensate all producers fairly for their contribution to the market supply. Some milk distributors buy as closely as possible to their Class I needs and carry little or no surplus in the high production months. The cooperatives supply their cooperating handlers with as much milk as needed and generally handle the surplus production of their members by diversion to manufacturing outlets. Under present marketing arrangements producers share unequally in the Class I sales of the market. A majority of plants do not have manufacturing facilities, other than for ice cream, and generally purchase supplies from dairy farmers close to their needs. Under an individual handler pool, it could not be expected that reserve supplies for the market would be uniformly distributed among handlers. The burden of carrying the necessary reserve supplies of milk would continue to be shouldered by only a part of the producers.

A market-wide pool will facilitate the movement of milk supplies by the cooperative associations between handlers to meet their individual needs or to those nonpool processing plants that can make the most efficient use of such milk. Such a pool will aid the market in retaining qualified and experienced producers on a year-round basis which will tend to make available enough milk to fill the Class I requirements during the normally short production season. A market-wide pool will permit any handler to bid on such business as that offered by military installations and other public institutions and to obtain the supplies for such sales without upsetting the market whenever the business might shift from one handler to another. These factors, taken in conjunction with the variations in amount of reserve supplies among plants, all support the adoption of a marketwide pool.

(2) *Producer payment plan.* A base and excess plan of distributing returns for milk among producers should be adopted for this market.

The majority of the producers are now receiving payment for milk on a base-excess plan. Each of the two cooperative associations has used this system of distributing payment among its members for many years. The evidence, although it does not represent the total figures for the market, indicates that receipts vary widely relative to Class I sales between the summer and winter months. Handlers and cooperatives have paid producers on base-excess plans with substantially the same rules. Due to lack of complete market information in regard to receipts from all producers and utilization data from all handlers, the effect of these plans on the relationship of supply to total inspected needs of the market cannot be accurately and specifically determined. It is evident, however, that these base-excess plans as operated in the past have encouraged more even production.

Fundamentally the base-excess plan proposed by the cooperative associations and included herein is similar to that now being used. When Class II utilization exceeds the total quantity of excess milk, each producer would receive the manufacturing milk price for milk delivered during the base-operating month in excess of a daily average amount, known as the producer's base. The base forming period is September through January. The producer's base for the base-operating period beginning with the following March is determined by the daily average shipments during the preceding base-forming period. The base price is determined by dividing the total market base deliveries into the remaining returns for all producer milk after subtracting the value of excess milk and the value of milk from producers with no base. The base of each producer delivering milk in the base period is the amount determined by dividing the total pounds of milk received from such producer at all pool plants during the base period by the number of days for which milk was delivered but not less than 120 days.

Certain rules regulating the transfer of established bases were proposed and are adopted herein subject to some modification. Transfers within these rules should be made only on written request filed with the market administrator. The rules permit reasonable transfer of bases and correspond closely to present practices in the market.

The proposed rules are modified to provide for computing bases for dairy farmers on deliveries during the preceding base-forming period whenever any plant first achieves pool plant status in a base paying period. This provision will permit these producers to share equally with all other producers in the returns for milk.

Handlers should make payments to each producer for his milk at the required prices. If a producer has given a cooperative association written authorization by contract or in any other form to collect payments for him and the association makes a written request for the payments due such producers, payment should be made by the handler to the cooperative. A provision authorizing handlers to make payment directly to such qualified cooperative for milk received from producer-members is necessary to enable the association to carry out its essential functions authorized by the enabling act. A cooperative association, if it is to carry out these essential functions, must have full authority in the collective bargaining and selling of member milk. It is provided that handlers should make payments to producers, or to cooperative associations, at not less than applicable price(s) on or before the 15th day after the end of each month. Since it has been the practice in this area for handlers to pay producers bimonthly, provision has been made for partial payments to producers on or before the last day of each month for milk delivered during the first 15 days of each month at not less than the Class II price. In making payments for producer milk to a cooperative association the handler will pay an amount equal to the sum of the individual payments otherwise payable to member producers, and should at the same time furnish the cooperative association with a statement showing the name of each producer for whom payment is being made to the cooperative association, the volume and average butterfat content of milk delivered by each such producer, and the amounts of and reasons for any deductions which the handler withheld from the amount payable to each producer. This statement is necessary in order that the cooperative association can make proper distribution of money to the producer-members for whom it makes collections.

The order should not include a provision that would provide a pooling differential for "special milk".

A handler proposed a pooling differential on "special milk". He was joined in this proposal by representatives of the Mississippi Guernsey and Jersey breed associations. It was proposed that "special milk" be defined as milk:

(1) Receiving not less than a Class I price premium of 25 cents per hundredweight above the minimum order price,

(2) Processed and handled separately, and

(3) Sold under a registered trademark controlled by a producers' organization.

In support of such a definition of "special milk", it was contended that:

(1) It has superior quality.

(2) Production costs of this "special milk" are higher, and

(3) Consumer demand is greater than in the case of average or "ordinary" milk.

The proposed definition of "special milk", on which a pooling differential for "special milk" would be based, is not a feasible means to distinguish such milk from any other milk in the market for pricing and pooling purposes. In the first place premiums of 25 cents per hundredweight, or more, are frequently paid for reasons not associated with the quality of the milk. There have been numerous situations under Federal milk price regulation where premiums of 25 cents per hundredweight, and more, have been paid generally throughout the market. Consequently, the mere payment of a premium of any amount could not be relied upon to distinguish "special" milk from other milk in the market.

Neither could separate processing and handling be used to identify "special milk". Frequently, all of the milk received in a plant which distributes "special" breed milk handles only milk which is eligible for this designation. Likewise, other distributors sometimes distribute "special milk" and they process in their own plants only milk meeting those specifications. It could be said, consequently, in the latter case as well as the former, that the milk was handled separately. Moreover, milk handlers sometimes set up special quality criteria of their own choosing, and they handle milk meeting these criteria separately.

Finally, the use of a trademark controlled by a producers' organization could not be relied upon to distinguish "special milk" from all other milk in the market. In this market and in other markets, there are producers' associations which distribute milk under their own brand names, which brand names are registered and are controlled by producers' associations. Hence, this criterion also would fail to identify only special milk.

Each of these criteria, and all in combination, would not successfully distinguish special milk from other milk which could be distributed in this and other markets.

In justification for special pricing and pooling it is claimed that the special milk has superior qualities entailing higher production costs that entitle producers to higher prices. But these claims are not supported. The record evidence merely states that "special" breed milk possesses higher or different quality characteristics than other milk in a Grade A standard market but does not offer facts to substantiate such claims. The evidence on cost of production is of the same nature. It is a fact that cost of production studies show marked variation in costs from farm to farm among Grade A milk producers, including producers of "special" breed milk. Production costs or marketability are not in themselves factors to influence minimum milk prices or to justify separate or special pooling of returns to selected groups of producers.

In further justification of their proposal, proponents claimed a greater consumer demand for "special milk." To support this claim, the high Class I utilization of one handler distributing "special" breed milk in the marketing area was cited. This handler purchases other source fluid and powdered milk, from distance sources, to supplement receipts from area producers. At the same time, however, there are producers of special breed milk located in the marketing area that do not have a market with this handler. Extensive advertising, superior selling practices, proximity to the market place are some factors, besides type of milk differentiation, that influence consumer demand and permit some handlers to secure higher than market average Class I utilization. Be that as it may, any handler restricting the amount of milk purchased from producers and supplementing supplies from other sources may achieve equally well a high Class I utilization.

Even if it were possible to define adequately the "special milk" referred to, it would be inappropriate to provide a special pooling differential. The pooling arrangements provided in Federal orders have important market and price stabilizing functions. They make it feasible for milk handlers to accept the offerings of producers at all times. In a market-wide pool handlers may accept the milk of producers without reducing the individual handler's pay price in relation to the rest of the market. This makes it feasible for the handler to accept and market all of the deliveries of producers. In a similar way, under individual-handler pooling, the regulated handler pays his producers a blended price for all of their deliveries. Thus, he does not have to choose among producers who will receive a higher price and who a lower price. The handler can thus receive all of the milk of his producers at an equal price. Through pooling, producers share equally in the higher value of fluid milk products, in the responsibility to provide an adequate and orderly flow of the supply of milk to meet consumer demand and in the lower returns from the market reserve supply. For these reasons the act provides for either individual-handler or marketwide pooling of returns to milk producers to stabilize the pricing and orderly marketing of milk in the interest of producers and consumers.

The proposal for a pool differential, which in effect would mean separate pooling for "special milk", would nullify the effect of pooling. It would hinder the stabilizing influence pooling is intended to have in a regulated market. This is particularly evident when it is recognized that the proposed criteria for "special milk" could result in a multiplicity of separate pooling arrangements. Clearly there is no statutory intent to adopt a proposal which would have the effect of nullifying one of the most essential stabilizing devices provided in the act.

Despite the fact that it is concluded inappropriate to provide special pooling arrangements for "special milk", there is no need to consider such action a penalty to the producers of such "special milk". The prices specified in the Federal orders are minimums only. Producers may negotiate for higher prices for milk of special marketability which under certain circumstances may inhere in "special milk". Such premiums would not be pooled; but would be paid directly to the producers of "special milk".

For these reasons the proposal for special pooling and similar pricing proposals that would provide for a preferential pooling or pricing arrangement for producers of "special milk" is denied.

(3) *Producer butterfat differentials.* The butterfat differential used in making payments to producers should be calculated at the average of the returns actually received from the sale of butterfat in producer milk. The rate to be used for this purpose would be the average of the Class I and Class II differentials weighted by the proportion of butterfat in producer milk classified in each class. Thus, producer returns for butterfat will reflect the actual sales value of their butterfat at the class differentials provided in the order. The producer butterfat differential in no way affects the handlers' costs of milk but merely prorates returns among producers according to the varying butterfat tests of their milk.

(4) *Producer-settlement fund.* Since the amount which the order requires a particular handler to pay for his milk may be more or less than the amount he is required to pay to producers or cooperative associations, some method of balancing these amounts is necessary. A producer-settlement fund should be established for this purpose. All handlers who are required to pay more for their milk on the basis of their utilization than they are required to pay to producers or cooperative associations should pay the difference into the producer-settlement fund; and all handlers who are required to pay more to producers or cooperative associations than they are required to pay for their milk on the basis of utilization should receive the difference from the producer-settlement fund. Amounts paid into and out of the producer-settlement fund for this purpose will be equal except for minor differences that may result from rounding of uniform prices. In order to permit this rounding of prices, to allow for unavoidable delays in receiving payments from handlers, and to permit payments to be made to any handler which audit by the market administrator reveals is due such handler from the producer-settlement fund, a reserve should be held in the producer-settlement fund at all times. The amount of the reserve contemplated in the proposed order should be sufficient for these purposes. This reserve would be accumulated by deducting between 4 and 5 cents each month from the uniform or base price, as applicable, after adding half of the unobligated balance to the pool from which such prices are computed. Since excess milk will rarely share in the higher class uses of the market, and deduction for the reserve from the excess milk price would reduce this price below the level of ungraded manufacturing milk prices, excess milk need not contribute to this revolving reserve fund in months when payments are computed under the base-excess plan.

If at any time the balance in the producer-settlement fund is insufficient to cover payments due to all handlers from the producer-settlement fund, payments to such handlers should be reduced uniformly per hundredweight of milk. The handlers may then reduce payments to producers by an equivalent amount per hundredweight. Amounts remaining due such handlers from the producer-settlement fund should be paid as soon as the balance in the fund is sufficient, and handlers should then complete payments to producers.

5. Payments on unpriced milk:

The order should provide compensatory payments with respect to unpriced milk which is allocated to Class I in a pool plant when receipts from producers exceed 110 percent of the Class I utilization.

The proponent cooperatives proposed compensatory payments on all unpriced milk utilized or sold in the marketing area. The rate of payment would be the difference between the Class I and Class II milk prices for the months March through August. During the months of September through February, the rate of payment would be the difference between the Class I milk price and the uniform price to producers.

Receipts of milk from producers during the lowest period of production may not be enough to meet the Class I needs of handlers in the marketing area. Therefore, purchase of other source milk by handlers in bulk fluid form or as skim milk powder or condensed milk is at times necessary. During the flush season, receipts from producers are more than sufficient to meet the Class I needs of the market.

An important function of the order is to insure that the position of handlers paying producers a Class I price for fluid milk will not be undermined by other handlers using the market's excess or surplus milk for Class I use. It is equally important that the Class I market be protected from the use of seasonal excess

milk from other markets as well as from its own surplus. If the order failed to provide such protection, a handler could curtail purchases of producer milk to his own advantage and secure low cost reserve supplies from other markets for Class I use.

Seasonal supplies may be obtained easily and cheaply during the months of flush production, when most markets have receipts of milk considerably greater than necessary to supply their current fluid requirements. If adjoining milksheds dispose of their seasonal surplus in each other's Class I markets, the result would be confused and disorderly marketing conditions. Market prices would be demoralized, production of milk would be impaired, and the future supply of milk for both markets would be jeopardized. Such disorderly marketing conditions would be contrary to the purposes of the Agricultural Marketing Agreement Act. Therefore, in order to insure the effectiveness of the classified pricing program and to promote orderly marketing, it is necessary that some method of compensating for, or neutralizing the effect of, the advantage created for unpriced milk should be provided as an essential provision of this order. Since the need for such payments arises because of the availability of unpriced milk (milk not procured at specified prices by class usage), compensatory payments should not apply to milk entering the marketing area from a plant regulated under another order. Its proper classification and pricing is determined pursuant to the other order.

It is not practicable to price all milk which may enter the market. However, it is necessary to make provision to prevent the displacement of producer milk by such unpriced milk for the purpose of cost advantage. The alternative available under the order is to make a charge against unpriced milk used in Class I to the extent necessary to remove any advantage in using such milk in lieu of milk from producers.

In the case of other source milk received in the form of concentrated products such as condensed skim milk or nonfat dry milk, the cost to the handler of such products is approximately the Class II price provided under the Mississippi Delta order. When such products are reconstituted and utilized as Class I milk, the cost to the handler of such product is less than the Class I price by approximately the difference between the Class I price and the Class II price. In order to remove any price advantage, a handler might have through the reconstitution of manufactured dairy products into fluid milk products, the rate of compensatory payment on other source milk received in the form of concentrated products should be the difference between the Class I price and the Class II price, adjusted by the applicable butterfat differential. Since the point of origin of such other source milk is not generally known, it is not administratively feasible to adjust these payments by any location differential.

In addition to the other source milk which enters the market in the form of concentrated products there are at times fluid milk imports from unregulated markets for use as Class I. To remove the price advantage that a handler might achieve by purchasing surplus milk from other markets for use as Class I milk, a compensatory payment should be assessed on such milk equal to the difference between the Class I price and the Class II price. The Class II price provided by the order is a fair index of the value of such milk in manufactured dairy products which is the alternative outlet for such milk. Since the handler must pay the cost of transporting such milk from the plant of origin to the marketing area, the rate of the payment should be reduced by the amount of the location differential which would apply at the plant of origin were it a regulated plant under the Mississippi Delta order.

In order to permit handlers to secure supplementary supplies without making a payment when the market is actually short of milk, it has been provided that no compensatory payment will apply any month in which receipts of producer milk on the market are less than 110 percent of Class I sales. From the record data on monthly receipts and utilization of producer milk, such utilization percentage would be a practical demarcation of adequate supply and deficit supply conditions.

In computing the applicable location differential, if a handler has received other source milk in the form of fluid milk products from two or more nonpool plants, the amount of skim milk and butterfat allocated to Class I milk should be considered to have been received from the plants in sequence according to the smallest location adjustment applicable.

In the case of a handler whose plant fails to qualify as a distributing plant but who has sales of fluid milk products on routes in the marketing area, such handler also should under certain conditions be required to make payments to the producer-settlement fund. The amount of these payments would be the lesser of (1) the difference between the Class I and Class II price multiplied by the amount of Class I milk sold in the marketing area, or (2) the amount by which total payments to dairy farmers are less than the total amount of the plant's obligation to producers if such obligation is computed as if such plant were a pool plant.

If the handler elects to make payments under the first option, the regulatory plan will be protected in the same manner and to the same extent as is provided with respect to compensatory payments on other source milk. If the handler chooses to pay the full utilization value of his milk either directly to his own farmers or by combination of payments to his farmers and to the producer-settlement fund, he will obviously not have any advantage in terms of the minimum order class prices on his sales of Class I milk in the marketing area, for his total minimum obligation for milk will be determined in exactly the same way as if he were a fully regulated handler.

Affording this last option to nonpool plants which distribute some Class I milk in the marketing area will adequately protect the regulatory plan in this market. In the areas from which it is expected such nonpool handlers would procure supplies, no great quantities of milk are available. Moreover, the size of handlers who would use this option is relatively small. It is expected also that the difference between the Class I price and uniform price, which will prevail in this market, will be relatively minor. Consequently, the price which these handlers would be required to pay under the option and the uniform price payable by wholly regulated handlers would not differ greatly. Hence, the exercise of this option could not have a disruptive influence on the handling of milk in this area. For these reasons, it is not necessary, in order to maintain the integrity of the regulatory plan in this market, to require these partially regulated plants to make payments into the producer-settlement fund if it is ascertained that they have paid their producers at least the total amount of money which they would be required to pay if they were fully regulated.

The nonpool handler should also pay his pro rata share of the costs of administration of the order. Complete verification of receipts, utilization and payments is required if such a handler is to be given credit for payments as related to the classified use value of skim milk and butterfat received. Accordingly, administrative expense should be determined on the same basis as for fully regulated plants. Should a handler operating a nonpool distributing plant elect when filing his report to make payments to the pool at the difference between the Class I and Class II prices with respect to sales in the marketing area, the expenses of administration will be assessed only with respect to such sales, since need for verification will then be confined to that volume.

6. A provision for the determination of equivalent price quotations should be included in the order.

Such a provision is designed to meet an emergency situation in which a price quotation necessary in the determination of class prices, or for any other purposes, may not be available. In such event, the Secretary would determine a price equivalent to the price quotation normally available. The provision proposed will remove uncertainty as to the procedure to be followed in the absence of any price quotation provided for in the order and thereby will prevent unnecessary interruption in the administration of the order.

(e) *Other administrative provisions.* The remaining provisions are of a general administrative nature, are incidental to the order provisions of the proposed order, and are necessary for proper and efficient administration. They provide for the selection of a market administrator, define his powers and duties, provide for an administrative assessment, prescribe the information to be reported by handlers and set forth the rules to be followed in making the computations required. They also prescribe the length of time that records must be retained and provide a plan for the liquidation of the regulatory program in the

event of suspension or termination. They are similar to like provisions of other milk orders, and except as set forth below require no comment.

As his share of the expenses of administering this proposed order each handler should pay not in excess of 5 cents per hundredweight with respect to all producer milk received, all other source milk received at a pool plant which was classified as Class I milk, and as discussed elsewhere with respect to a nonpool plant. The market administrator must verify receipts and utilization of all such milk; therefore, all such milk should be subject to the expenses of administration. Experience in other markets indicates that 5 cents per hundredweight with respect to all such milk should yield sufficient money to cover expenses of administration. If payment of expenses of administration at the rate of 5 cents per hundredweight yields more money than is needed, provision is made for the Secretary to prescribe a lesser rate of payment from time to time.

Provision should be made for the dissemination of market information to producers, for the verification of weights and for the sampling and testing of milk received from producers for whom such services are not being rendered by a qualified cooperative association. The order should provide that 7 cents per hundredweight, or such lesser amount as the Secretary may determine, be deducted from payments to such producers for use of the market administrator in financing such services. While proponents sought a deduction of 8 cents per hundredweight, the lesser amount recommended, based on the evidence of this record, should provide adequate funds for marketing services. Conditions in this marketing area are not enough different from the Central Mississippi market—where a 7 cent rate is provided—to justify a higher rate in the Delta area. For producers for whom a cooperative association is rendering such services, the handler should pay to the cooperative association such deductions as the producer has authorized the cooperative to collect. Such payments to be in lieu of those to the market administrator.

Reports are required from handlers on receipts and utilization so that the market administrator may make the computations necessary to the marketwide pooling operation and the uniform price to producers. Handlers are also required to submit payroll reports which would show the details of milk receipts from each producer, the value of the milk received from the producer, deductions therefrom, and net amount paid to the producer.

There are limitations on the period of time handlers shall retain books and records which are required to be made available to the market administrator, and on the period of time in which obligations under the order shall terminate. The provision made in this regard is identical in principle with the general amendment made to all orders in operation on July 30, 1947, effective February 22, 1949, and the Secretary's decision of January 26, 1949 (14 F. R. 444) covering the retention of records and limitation of claims is equally applicable in this situation and is adopted as part of the decision.

Dates must be prescribed for announcing prices, filing reports and making payments. The following time schedule should allow all interested persons adequate time to perform each function. (These time limits apply to the indicated day of the month following the month for which computations are being made.)

Day of the month and function:

6th day—Announcement of class prices by market administrator.

5th day—Submission of monthly report of receipts and utilization by handlers.

10th—Announcement of uniform prices by market administrator.

12th—Notification by market administrator to handlers of the value of their producer milk and amounts due to or payable from producer-settlement fund.

12th—Payment by handlers of amounts due to producer-settlement fund and for expenses of administration.

13th—Payments by handlers to cooperative associations and by the market administrator out of the producer-settlement fund.

15th—Payments by handlers to producers.

It is impracticable to regulate a handler under two or more orders with respect to the same milk. He should be regulated where his Class I sales are greatest. Therefore, a handler who operates a plant at which minimum prices to dairy farmers are established under another Federal order issued pursuant to the act and also sells Class I milk in the Mississippi Delta marketing area should be exempt from the provisions of this regulation, except for reporting the volume of Class I sales in the marketing area.

Rulings on proposed findings and conclusions. Briefs and proposed findings and conclusions were filed on behalf of certain interested parties in the market. These briefs, proposed findings and conclusions, and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or to reach such conclusions are denied for the reasons previously stated in this decision.

General findings. (a) The proposed marketing agreement and order and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in public interest; and

(c) The proposed marketing agreement and order will regulate the handling of milk in the same manner as, and will be applicable to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Mississippi Delta Marketing Area", and "Order Regulating the Handling of Milk in the Mississippi Delta Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the attached order which will be published with this decision.

Referendum Order; Determination of Representative Period; and Designation of Referendum Agents

It is hereby directed that a referendum be conducted among producers to determine whether the issuance of the attached order regulating the handling of milk in the Mississippi Delta marketing area, is approved or favored by the producers, as defined under the terms of the proposed order, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of June 1958, is hereby determined to be the representative period for the conduct of such referendum.

Hobart E. Crone and Andrew T. Radigan are hereby designated, jointly and severally, Agents of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 20th day from the date this decision is published.

Issued at Washington, D. C., this 3d day of September 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

ORDER[1] REGULATING THE HANDLING OF MILK IN THE MISSISSIPPI DELTA MARKETING AREA

Sec.
905.0 Findings and determinations.

DEFINITIONS

905.1 Act.
905.2 Secretary.
905.3 Department of Agriculture.
905.4 Person.
905.5 Cooperative association.
905.6 Mississippi Delta marketing area.
905.7 Route.
905.8 Distributing plant.
905.9 Supply plant.
905.10 Pool plant.
905.11 Nonpool plant.
905.12 Handler.
905.13 Producer-handler.
905.14 Producer.
905.15 Producer milk.
905.16 Other source milk.
905.17 Fluid milk product.
905.18 Chicago butter price.

MARKET ADMINISTRATOR

905.20 Designation.
905.21 Powers.
905.22 Duties.

REPORTS, RECORDS AND FACILITIES

905.30 Reports of receipts and utilization.
905.31 Other reports.
905.32 Producer-handler reports.
905.33 Records and facilities.
905.34 Retention of records.

CLASSIFICATION

905.40 Skim milk and butterfat to be classified.
905.41 Classes of utilization.
905.42 Assignment of shrinkage.
905.43 Responsibility of handlers.
905.44 Transfers.
905.45 Computation of skim milk and butterfat in each class.
905.46 Allocation of skim milk classified.
905.47 Allocation of butterfat classified.
905.48 Computation of total producer milk in each class.

MINIMUM PRICES

905.50 Class prices.
905.51 Butterfat differential to handlers.
905.53 Location adjustment to handlers.
905.53 Rate of compensatory payments.
905.54 Use of equivalent prices.

APPLICATION OF PROVISIONS

905.60 Producer-handler exemption.
905.61 Plants subject to other Federal orders.
905.62 Obligations of handler operating a nonpool distributing plant.

DETERMINATION OF PRICES TO PRODUCERS

905.70 Computation of value of producer milk.
905.71 Computation of the 4.0 percent value of all producer milk.
905.72 Uniform price.
905.73 Uniform excess milk price.
905.74 Uniform base milk price.
905.75 Producer butterfat differential.
905.76 Location adjustment to producers.
905.77 Notification.

BASE RATING

905.80 Determination of daily base.
905.81 Computation of base.
905.82 Base rules.
905.83 Announcement of established bases.

PAYMENTS

Sec.
905.90 Payments to producers.
905.91 Adjustment of accounts.
905.92 Marketing services.
905.93 Expense of administration.
905.94 Producer-settlement fund.
905.95 Payments to the producer-settlement fund.
905.96 Payments out of the producer-settlement fund.
905.97 Termination of obligations.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

905.100 Effective time.
905.101 Suspension or termination.
905.102 Continuing obligations.
905.103 Liquidation.

MISCELLANEOUS PROVISIONS

905.110 Agents.
905.111 Separability of provisions.

AUTHORITY: §§ 905.0 to 905.111 issued under sec. 5, 49 Stat. 753 as amended; 7 U. S. C. 608c.

§ 905.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon a proposed marketing agreement and a proposed order regulating the handling of milk in the Mississippi Delta marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk as determined pursuant to Section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest;

(3) The said order regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in this order, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 5 cents per hundredweight or such amount not to exceed 5 cents per hundredweight as the Secretary may prescribe with respect to receipts of producer milk, including such handler's own production; other source milk allocated to Class I milk and applicable amounts specified in § 905.62 (a) (2) and (b) (2).

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Mississippi Delta marketing area shall be in conformity to, and in compliance with, the following terms and conditions:

DEFINITIONS

§ 905.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 905.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any other officer or employee of the United States, authorized to exercise the powers or to perform the duties of the Secretary of Agriculture.

§ 905.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions specified in this part.

§ 905.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 905.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 905.6 *Mississippi Delta marketing area.* Mississippi Delta marketing area, hereinafter called the marketing area, means all the territory, including incorporated municipalities and military reservations within Attala, Bolivar, Carroll, Choctaw, Grenada, Holmes, Humphrey, Leake, Leflore, Lowndes, Montgomery, Noxubee, Oktibbeha, Sharkey, Sunflower, Tallahatchie, Washington, Webster, Winston, and Yazoo counties; Beats 1, 4 and 5 in Calhoun county; Beats 4 and 5 in Coahoma county; Beats 2, 3, 4, and 5 in Quitman county including all of the village of Crowder; and Beats 1, 4, and 5 in Yalobusha county all within the State of Mississippi.

§ 905.7 *Route.* "Route" means a delivery (including delivery by a vendor or sale from a plant or plant store) of any fluid milk product, other than a delivery to any milk processing plant.

§ 905.8 *Distributing plant.* "Distributing plant" means any plant at which fluid milk products, eligible for distribution in the marketing area under a Grade A label, are processed and packaged and from which fluid milk products are disposed of on a route(s) in the marketing area.

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, governing proceedings to formulate marketing agreements and marketing orders have been met.

§ 905.9 *Supply plant.* "Supply plant" means any plant at which milk eligible for distribution in the marketing area under a Grade A label, is received from dairy farmers and from which fluid milk products are moved to a distributing plant.

§ 905.10 *Pool plant.* "Pool plant" means:

(a) A distributing plant, other than that of a producer-handler or one described in § 905.61 (a), from which during the month:

(1) Disposition in the marketing area of fluid milk products on routes is 20 percent or more of receipts from dairy farmers and supply plants; and

(2) Total disposition of fluid milk products on routes is 50 percent or more of receipts from dairy farmers and supply plants; or

(b) A supply plant from which during the month 50 percent or more of receipts from dairy farmers is moved to a plant described in paragraph (a) of this section. Any supply plant that was a pool plant during each of the months of September through January immediately preceding shall continue to be a pool plant each of the following months of February through August unless written notice to the market administrator is received before the first day of the month of its intention to withdraw, in which case such plant shall thereafter be a nonpool plant, unless it again qualifies as a supply plant by shipping 50 percent or more of its receipts from dairy farmers to a plant described in paragraph (a) of this section.

§ 905.11 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 905.12 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of a pool plant(s); or

(b) The operator of any nonpool distributing plant with route distribution in the area; or

(c) A cooperative association with respect to milk of producers diverted for the account of such association from a pool plant to a nonpool plant in accordance with § 905.14.

§ 905.13 *Producer-handler.* "Producer-handler" means a dairy farmer who operates a distributing plant at which no fluid milk or fluid milk products are received during the month except his own production or transfers from a pool plant(s).

§ 905.14 *Producer.* "Producer" means any person, other than a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is received during the month at a pool plant or is diverted by a handler to a pool plant or a nonpool plant for the account of such handler or by a cooperative association but for not more than 10 days production during any months of September through January. Milk diverted for the account of the operator of a pool plant shall be deemed to have been received at the plant from which diverted, and milk diverted for the account of a cooperative association shall be deemed to have been received by the cooperative association at the location of the pool plant from which it was diverted.

§ 905.15 *Producer milk.* "Producer milk" means all skim milk and butterfat received at a pool plant directly from producers, or diverted pursuant to § 905.14.

§ 905.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month of fluid milk products except (1) fluid milk products received from pool plants, (2) producer milk; and

(b) Products, other than fluid milk products, from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month, or for which other utilization or disposition is not established pursuant to § 905.33.

§ 905.17 *Fluid milk product.* "Fluid milk product" means all skim milk and butterfat in the form of milk, including concentrated milk, skim milk, including reconstituted skim milk, buttermilk, flavored milk, flavored milk drinks, eggnog, yogurt, cream (other than frozen storage cream) cultured sour cream, and any mixture of cream and milk or skim milk (other than ice cream, ice cream mixes, other frozen desserts and mixes, and sterilized products contained in hermetically sealed containers).

§ 905.18 *Chicago butter price.* "Chicago butter price" means the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department of Agriculture.

MARKET ADMINISTRATOR

§ 905.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 905.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary, complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 905.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon, satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 905.93, the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses, except those incurred under § 905.92, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(g) Verify all reports and payments of each handler by examination of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and by such other means as are necessary;

(h) Publicly disclose, at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 905.30 and 905.31, or payments pursuant to §§ 905.90 to 905.95;

(i) Publicly announce by posting in a conspicuous place in his office and by such other means as he deems appropriate, and notify each handler in writing:

(1) On or before the 6th day of each month, the minimum price for Class I milk pursuant to § 905.50 (a) adjusted by the applicable location adjustments pursuant to § 905.52 and the Class I butterfat differential computed pursuant to § 905.51 (a), both for the current month, and the minimum price for Class II milk computed pursuant to § 905.50 (b) and the Class II butterfat differential computed pursuant to § 905.51 (b) both for the previous month;

(2) On or before the 10th day after the end of each of the months of August through February, the uniform price computed pursuant to § 905.72 and the butterfat differential computed pursuant to § 905.75; and

(3) On or before the 10th day after the end of each of the months of March through July, the uniform prices for base milk and for excess milk computed pursuant to §§ 905.73 and 905.74 and the butterfat differential computed pursuant to § 905.75;

(j) On or before the 12th day after the end of each month, report to each cooperative association which so requests, the percentage of producer milk delivered by members of such association, which was used in each class by each handler receiving such milk. For the purpose of this report, the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by each handler; and

(k) Prepare and make available for the benefit of producers, consumers, and handlers, general statistics and information concerning the operation of this part which do not reveal confidential information.

REPORTS, RECORDS AND FACILITIES

§ 905.30 *Reports of receipts and utilization.* On or before the 5th day (exclusive of Sundays and holidays) of each month each handler who operates a pool plant(s), each handler, other than a producer-handler, who operates a nonpool distributing plant, and any cooperative association with respect to milk for which it is a handler pursuant to § 905.12 (c) shall report for the preceding month to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(a) The quantities of skim milk and butterfat contained in:

(1) Milk received from producers and for the months of March through July the total quantity of base and excess milk. In lieu thereof the operator of a nonpool distributing plant shall report aggregate receipts from dairy farmers who would be producers if such plant were a pool plant;

(2) Fluid milk products received from other pool plants;

(3) Other source milk; and

(4) Inventories of fluid milk products on hand at the beginning and end of the month;

(b) The utilization of all skim milk and butterfat required to be reported pursuant to paragraph (a) of this section, including separate statements with respect to:

(1) Disposition of fluid milk products on routes within the marketing area from plants described in §§ 905.61 and 905.62, and from other plants for which the market administrator requires such information as a basis for determination of status or obligations; and

(2) Class I milk outside the marketing area;

(c) Such other information with respect to sources and utilization of skim milk and butterfat as the market administrator may prescribe.

§ 905.31 *Other reports.* (a) On or before the 20th day of each month each handler operating a pool plant(s) and each cooperative association which is a handler pursuant to § 905.12 (c) shall report its producer payroll for the preceding month which shall show for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer and for the base-operating months of March through July the total pounds of base and excess milk;

(3) The number of days on which milk was received from such producer if less than a full calendar month;

(4) The average butterfat content of such milk; and

(5) The net amount of such handler's payment, the price paid and the amount and nature of any deductions;

(b) Each handler who received producer milk for which payment is to be made to a cooperative association pursuant to § 905.90 (e) shall report to such cooperative association with respect to each such producer, as follows:

(1) On or before the 20th day of each month, the total pounds of milk received during the first 15 days of the month;

(2) On or before the 10th day after the end of each month;

(i) The daily and total pounds of milk received during the month with separate totals for base and excess milk for the months of March through July, and the average butterfat test thereof; and

(ii) The amount or rate and nature of any deductions.

(c) Each handler (other than a producer-handler or one described in § 905.61) operating a nonpool distributing plant shall report his payments to dairy farmers qualified to be producers if such plant were a pool plant, showing for each such dairy farmer:

(1) The pounds of milk;

(2) The average butterfat content thereof; and

(3) The date and net amount of payment to such dairy farmer with a statement of the prices, deductions and charges used in computing such payment and the nature of each.

§ 905.32 *Producer-handler reports.* Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator shall prescribe.

§ 905.33 *Records and facilities.* Each handler shall maintain and make available to the market administrator during the usual hours of business, such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data for each month with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form;

(b) The weights and butterfat and other content of all milk, skim milk, cream, and other milk products handled;

(c) The pounds of skim milk and butterfat contained in or represented by all milk, skim milk, cream, and milk products on hand at the beginning and end of each month; and

(d) Payments to producers, including any deductions authorized by producers, and disbursement of money so deducted.

§ 905.34 *Retention of records.* All books and records required under this part to be made available to the market administrator, shall be retained by the handler for a period of three years to begin at the end of the calendar month, to which such books and records pertain: *Provided,* That if within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act of a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 905.40 *Skim milk and butterfat to be classified.* All skim milk and butterfat required to be reported pursuant to § 905.30 shall be classified (separately as skim milk and butterfat), pursuant to §§ 905.41 to 905.47.

§ 905.41 *Classes of utilization.* Subject to the conditions set forth in §§ 905.42 to 905.47 the classes of utilization shall be as follows:

(a) Class I shall be all skim milk (including reconstituted skim milk) and butterfat:

(1) Disposed of in the form of fluid milk products, except those classified pursuant to paragraph (b) (2) of this section; and

(2) Not accounted for as Class II;

(b) Class II shall be all skim milk and butterfat:

(1) Used to produce any product other than a fluid milk product;

(2) In skim milk authorized by the market administrator to be dumped or accounted for as disposed of for livestock feed;

(3) In shrinkage, but in an amount not to exceed one-half percent of the total pounds of skim milk and butterfat received directly from producers plus 1½ percent of the total pounds of skim milk and butterfat in bulk milk, skim milk, and cream in fluid form received at a pool plant from all sources less that disposed of in bulk to a pool plant of another handler;

(4) In shrinkage of other source milk; and

(5) In inventories of fluid milk products on hand at the end of the month.

§ 905.42 *Assignment of shrinkage.* The market administrator shall assign shrinkage at the pool plant(s) of each handler as follows:

(a) Compute the shrinkage of skim milk and butterfat classified as Class II milk; and

(b) Assign the resulting amounts pro rata to the handler's receipts of skim milk and butterfat, respectively, in (1) producer milk and milk received from other pool plants and (2) other source milk.

§ 905.43 *Responsibility of handlers.* All skim milk and butterfat shall be classified as Class I unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 905.44 *Transfers.* Skim milk and butterfat transferred or diverted during the month as milk, skim milk or cream from a pool plant to:

(a) The pool plant of another handler shall be classified as Class I unless Class II is indicated by the operators of both plants in their reports submitted pursuant to § 905.30 and:

(1) The receiving plant has utilization in such class of equivalent amounts of skim milk and butterfat, respectively; and

(2) Such skim milk and butterfat shall be classified so as to allocate to producer milk the greatest possible total Class I in the two plants;

(b) A plant operated by a producer-handler shall be Class I;

(c) A nonpool plant, except as specified in paragraph (b) of this section, shall be Class I unless:

(1) The transfer is in bulk form and the transferring handler claims Class II use on his report for the month;

(2) The operator of the nonpool milk plant maintains books and records which are made available for examination upon request by the market administrator and which are adequate for verification of such Class II use; and

(3) The skim milk and butterfat, respectively, received at the nonpool plant during the month from a pool plant(s) and from a plant(s) at which milk is priced pursuant to another order issued pursuant to the act does not exceed the skim milk and butterfat, respectively, resulting from the following computation:

(i) Determine the skim milk and butterfat, respectively, used to produce any items of Class II milk (as defined pursuant to § 905.41 (b)) at such nonpool plant during the month;

(ii) Add the skim milk and butterfat, respectively, in fluid bulk cream transferred from such nonpool plant to a plant at which milk is priced pursuant to this part or another order issued pursuant to the act and such cream is allocated to other than Class I (under the applicable order definitions and allocation procedures at the transferee plant);

(iii) Add the skim milk and butterfat, respectively, in fluid bulk cream transferred from such nonpool plant to a second nonpool plant which is not in excess of the items of Class II processed in such second nonpool plant plus the bulk fluid cream shipped from such second nonpool plant to other nonpool plants which do not dispose of milk or cream for consumption in fluid forms: *Provided*, That the second nonpool plant meets the conditions of subparagraph (2) of this paragraph; and

(iv) Subtract the skim milk and butterfat, respectively, received in fluid milk products at such nonpool plant from any source(s) other than that which has been approved by a governmental agency as a source(s) of Grade A fluid milk products.

In the event that the remaining skim milk and butterfat, respectively, computed pursuaht to subdivision (iv) of this subparagraph is less than the skim milk and butterfat, respectively, received at such nonpool plant from a pool plant(s) and from a plant(s) at which milk is priced pursuant to another order issued pursuant to the act, the difference shall be assigned pro rata, to each pool plant (in accordance with receipts of skim milk and butterfat, respectively, from all plants regulated pursuant to the act), and shall be classified as Class I milk.

§ 905.45 *Computation of skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and obvious errors the monthly report submitted by each handler pursuant to § 905.30 and compute the total pounds of skim milk and butterfat respectively, in Class I and Class II at the pool plant(s) of such handler.

§ 905.46 *Allocation of skim milk classified.* The pounds of skim milk remaining after making the following computations shall be the pounds in each class allocated to producer milk:

(a) Subtract from the total pounds of skim milk in Class II the pounds of skim milk shrinkage pursuant to § 905.41 (b) (3);

(b) Subtract from the total pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in other source milk, except as specified in paragraph (c) of this section;

(c) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk received from plants subject to the pricing and payment provisions of other orders issued pursuant to the Act;

(d) Subtract from the pounds of skim milk remaining in each class, the pounds of skim milk received from other handlers in such class pursuant to §§ 905.41 and 905.44 (a);

(e) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class II, the pounds of skim milk in inventory of fluid milk products on hand at the beginning of the month;

(f) Add to the remaining pounds of skim milk in Class II the pounds subtracted pursuant to paragraph (a) of this section; and

(g) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk in milk received from producers, subtract such excess from the remaining pounds of skim milk in each class in series, beginning with Class II.

§ 905.47 *Allocation of butterfat classified.* Allocate the pounds of butterfat in each class to producer milk in the same manner as that prescribed for skim milk in § 905.46.

§ 905.48 *Computation of total producer milk in each class.* Combine into one total the amounts computed pursuant to §§ 905.46 and 905.47 for each class and determine the weighted average butterfat content of producer milk.

MINIMUM PRICES

§ 905.50 *Class prices.* Subject to the provisions of §§ 905.51 and 905.52 the minimum prices per hundredweight for the month shall be as follows:

(a) *Class I price.* The price per hundredweight for Class I shall be the price for Class I milk established pursuant to § 987.51 (a) of this chapter regulating the handling of milk in the Central Mississippi marketing area, less 18 cents.

(b) *Class II price.* The price per hundredweight for Class II shall be the average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture: Kraft Cheese Co., Houston, Mississippi; Borden Co., Starkville, Mississippi; Carnation Co., Tupelo, Mississippi; Pet Milk Co., Kosciusko, Mississippi; plus 20 cents per hundredweight for the months September through January and plus 10 cents per hundredweight for the months February through August.

§ 905.51 *Butterfat differential to handlers.* For milk containing more or less than 4.0 percent butterfat, the class prices determined pursuant to § 905.50 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate determined as follows:

(a) *Class I.* Multiply the Chicago butter price for the preceding month by 0.12;

(b) *Class II.* Multiply the Chicago butter price for the month by 0.11.

§ 905.52 *Location adjustment to handlers.* For milk received from producers at a pool plant located 30 miles or more north of U. S. Highway No. 82 and within the State of Mississippi, by shortest highway distance open to commercial truck traffic, as determined by the market administrator, or at a pool plant located outside the State of Mississippi and 30 miles or more by shortest highway distance open to commercial truck traffic, as determined by the market administrator, from the nearer of the city halls at Greenville or Columbus, Mississippi, and which is classified as Class I, the prices determined pursuant to § 905.50 (a) shall be reduced 7.5 cents, plus an additional 1.5 cents for each 10 miles that such distance exceeds 40 miles.

§ 905.53 *Rate of compensatory payments.* In any month in which total deliveries of producer milk are 110 percent or more of the total amount classified as Class I (excluding duplications) at all pool plants, the rate of compensatory payment per hundredweight shall be calculated as follows:

(a) Subtract the Class II price, adjusted by the Class II butterfat differential, from the Class I price adjusted by the Class I butterfat differential and adjust such difference by the location differential rate set forth in § 905.52 for the location of the plant at which the milk was received from farmers.

§ 905.54 *Use of equivalent prices.* If for any reason a price quotation required by this part for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 905.60 *Producer-handler exemption.* A producer-handler shall be exempt from all provisions of this part except §§ 905.32, 905.33 and 905.34.

§ 905.61 *Plants subject to other Federal orders.* The provisions of this part, except §§ 905.30 (b) (1), 905.33 and 905.34, shall not apply to:

(a) A distributing plant which would be subject to the classification and pricing provisions of another order issued, pursuant to the act unless a greater volume of Class I is disposed of from such plant during the month on routes in the Mississippi Delta marketing area than in the marketing area defined in such other order;

(b) A supply plant which would be subject to the classification and pricing provision of another order issued pursuant to the act unless such plant qualified as a pool plant during each of the preceding months of September through January.

§ 905.62 *Obligations of handler operating a nonpool distributing plant.* In lieu of payments required pursuant to §§ 905.90 to 905.95, each handler, other than a producer-handler or one exempt pursuant to § 905.61 (a), who operates during the month a nonpool distributing plant, shall pay to the market administrator for deposit in the producer-settlement fund and the administrative assessment fund, as the case may be, as follows:

(a) If such handler so elects in writing at the time of reporting pursuant to § 905.30 the amounts computed as follows:

(1) On or before the 13th day after the end of the month, for the producer-settlement fund, an amount equal to the difference between the value of the Class I disposed of during the month on routes in the marketing area at the applicable Class I price for the month and the value of such milk at the Class II price; and

(2) On or before the 13th day after the end of the month, as his pro rata share of expense of administration, the rate specified in § 905.93 with respect to Class I disposed of on routes in the marketing area.

(b) Except as the handler may elect the option pursuant to paragraph (a) of this section, he shall pay the amounts as follows:

(1) On or before the 25th day after the end of the month, for the producer-settlement fund, the amount specified in paragraph (a) (1) of this section, or any plus amount resulting from the following computation, whichever is less:

(i) Determine the value for milk received from dairy farmers at such plant for such month pursuant to § 905.70 as if such plant were a pool plant; and

(ii) Deduct the gross payments made by the handler to dairy farmers for milk received at such plant for such month. Such gross payments shall be limited to cash payments made to the dairy farmer or his assignee on or before the date for filing reports required pursuant to § 905.31 (c), plus the value of any supplies or services furnished by the handler on prior written authorization or as evidenced by a delivery ticket signed by the dairy farmer; and

(2) On or before the 13th day after the end of the month, as his pro rata share of the expense of administration, an equal to that which would have been computed pursuant to § 905.93 had such plant been a pool plant.

DETERMINATION OF PRICES TO PRODUCERS

§ 905.70 *Computation of value of producer milk.* The value of producer milk received during the month by each handler at his pool plant(s) shall be computed by the market administrator as follows:

(a) Multiply the producer milk in each class, as computed pursuant to § 905.48, by the applicable class prices (adjusted pursuant to §§ 905.51 and 905.52);

(b) Add an amount computed by multiplying the skim milk and butterfat subtracted from Class I pursuant to § 905.46 (b) and the corresponding step of § 905.47 and pursuant to § 905.46 (e) and the corresponding step of § 905.47 excluding the skim milk and butterfat determined pursuant to paragraph (d) of this section, by the rate of compensatory payment as determined pursuant to § 905.53 for the nearest plant(s) from which an equivalent amount of other source milk was received in the form of fluid milk products;

(c) Add the amount computed by multiplying the skim milk and butterfat in overage deducted from each class pursuant to § 905.46 (a) and the corresponding step of § 905.47 by the applicable class price;

(d) Add the amount obtained by multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the lesser of:

(1) The hundredweight of milk subtracted from Class I pursuant to § 905.46 (e) and the corresponding step of § 905.47; or

(2) The hundredweight of producer milk classified as Class II (except as shrinkage) for the preceding month.

§ 905.71 *Computation of the 4.0 percent value of all producer milk.* For each month, the market administrator shall compute the 4.0 percent value of producer milk, as follows:

(a) Combine into one total the individual value of milk computed pursuant to § 905.70 for all handlers, except those who failed to make payments required pursuant to §§ 905.90 and 905.95 for the preceding month;

(b) Add, if the weighted average butterfat test of all producer milk represented in paragraph (a) of this section is less than 4.0 percent, or substract if the weighted average butterfat test of such milk is more than 4.0 percent, an amount computed by multiplying the total pounds of butterfat represented by the difference of such average butterfat test from 4.0 percent by the butterfat differential provided in § 905.75 multiplied by 10.

(c) Add the total of the values of the applicable producer location adjustments pursuant to § 905.76, and

(d) Add not less than one-half of the unobligated balance in the producer settlement fund.

§ 905.72 *Uniform price.* For each of the months of August through February, the uniform price per hundredweight for milk containing 4.0 percent butterfat received from producers at pool plants (before location adjustments) shall be computed as follows:

(a) Divide the amount computed pursuant to § 905.71 by the hundredweight of producer milk; and

(b) Subtract not less than 4 cents nor more than 5 cents.

§ 905.73 *Uniform excess milk price.* For each of the months of March through July, the price for excess milk of 4.0 percent butterfat content shall be computed as follows:

(a) Multiply the hundredweight of excess milk, not in excess of Class II represented by the values included in § 905.71 (a), by the Class II price for milk of 4.0 percent butterfat content determined pursuant to § 905.50 (b);

(b) Multiply the hundredweight of any excess milk not included in the computation in paragraph (a) of this section by the Class I price for milk of 4.0 percent butterfat content pursuant to § 905.50 (a); and

(c) Combine into one total the values computed pursuant to paragraphs (a) and (b) of this section, divide by the hundredweight of excess milk and round to the nearest cent.

§ 905.74 *Uniform base milk price.* For each of the months of March through July, the price for base milk of 4.0 percent butterfat content received from producers at pool plants (before location adjustment) shall be computed as follows:

(a) Multiply the total pounds of excess milk by the excess price for the month;

(b) From the total 4.0 percent value of producer milk pursuant to § 905.71 subtract the total value determined in paragraph (a) of this section;

(c) Divide the resultant value by the total hundredweight of base milk; and

(d) Subtract not less than 4 cents or more than 5 cents.

§ 905.75 *Producer butterfat differential.* In making payments pursuant to § 905.90, the uniform prices shall be increased or decreased for each one-tenth of one percent of butterfat content in the milk received from each producer or a cooperative association above or below 4.0 percent, as the case may be, by a butterfat differential equal to the average of the butterfat differentials pursuant to § 905.51 weighted by the pounds of butterfat in producer milk in each class, rounded to the nearest tenth cent.

§ 905.76 *Location adjustment to producers.* In making payments to producers and cooperative associations, a handler may deduct from applicable uniform prices with respect to all milk received from producers at the handler's pool plant the amount per hundredweight applicable to the plant as set forth in § 905.52.

§ 905.77 *Notification.* On or before the 12th day after the end of each month the market administrator shall notify each handler of:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) The amount due such handler from the producer-settlement fund or the amount to be paid by such handler to the producer-settlement fund, as the case may be; and

(c) The totals of the amounts to be paid by such handler pursuant to §§ 905.92 and 905.93.

BASE RATING

§ 905.80 *Determination of daily base.* The daily base of each producer shall be calculated by the market administrator as follows: Divide the total pounds of milk received by all handlers of pool plants from such producer during the months of September through January by the number of days from the first day milk is received from such producer during said months to the last day of January, inclusive, but not less than 120 days.

§ 905.81 *Computation of base.* The base of each producer to be applied during the months of March through July shall be a quantity of milk calculated by the market administrator in the following manner: Multiply the daily base of such producer by the number of days for which such producer's milk was received by such handler during the months.

§ 905.82 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall be assigned to the producer for whose account milk is received at a pool plant during the months of September through January and to each person for whose account milk was delivered to a plant that did not qualify as a pool plant during each month of the base forming period, but which qualifies as a pool plant during any of the months of March through July, bases shall be assigned on deliveries at such plant in the same manner as if such plant had been a pool plant during each month of the base forming period.

(b) An entire base shall be transferred by the market administrator to another person upon receipt of an application form, approved by the market administrator, and signed by the base-holder(s), or his heirs, and by the person to whom such base is transferred subject to the following condition:

(1) If a base is transferred to a producer already holding a base, a new base shall be computed by adding together the producer milk deliveries of the transferee and transferor during the base forming period and dividing the total by the number of days from the first day of delivery by either the transferee or transferor during the base forming period to the last day of January, inclusive, but not less than 120 days.

PAYMENTS

§ 905.90 *Payments to producers.* Except as provided in paragraph (e) of this section each handler shall make payment for producer milk as follows:

(a) On or before the last day of each month, for milk received during the first 15 days of the month, at not less than the price per hundredweight for Class II milk for the preceding month;

(b) On or before the 15th day after the end of each of the months of August through February for milk received during such month at not less than the uniform price per hundredweight, computed for such handler pursuant to § 905.72, subject to the butterfat differential computed pursuant to § 905.75 and the location differential computed pursuant to § 905.76, less proper deductions authorized in writing by such producer and less payment made pursuant to paragraph (a) of this section, and deductions made pursuant to § 905.92;

(c) On or before the 15th day after the end of each of the months of March through July, after allowance for the amount of payment made pursuant to paragraph (a) of this section for deductions made pursuant to § 905.95 and for other proper deductions authorized in writing by such producer, as follows:

(1) At not less than the uniform price per hundredweight for base milk computed pursuant to § 905.74 for the quantity of base milk received from such producer during the month subject to the butterfat differential computed pursuant to § 905.75 and the location differential computed pursuant to § 905.76; and

(2) At not less than the uniform price per hundredweight for excess milk computed pursuant to § 905.73 for the quantity of excess milk received from such producer during the month, subject to the butterfat differential computed pursuant to § 905.75 and the location differential computed pursuant to § 905.76;

(d) In making the payments to producers pursuant to paragraphs (b) and (c) of this section, each handler shall furnish each producer from whom he has received milk with a supporting statement in such form that it may be retained by the producer, which shall show for each month:

(1) The month and the identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to this part;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer;

(e) In lieu of payments pursuant to paragraphs (a), (b) and (c) of this section, each handler shall make payment to a cooperative association which has filed a written request for such payment with such handler and with respect to producers for whose milk the market administrator determines that such cooperative association is authorized to collect payment, as follows:

(1) On or before the 26th day of each month an amount equal to not less than the Class II price for the preceding month, multiplied by the hundredweight of milk received during the first 15 days of the month from such producers; and

(2) On or before the 13th day after the end of each month an amount equal to not less than the applicable uniform price pursuant to §§ 905.72 to 905.76, multiplied by the hundredweight of milk received from such producers to which each such price is applicable, subject to the butterfat differential computed pursuant to § 905.75 and the location differential computed pursuant to § 905.76, less payment made such cooperative association pursuant to subparagraph (1) of this paragraph, and proper deductions authorized in writing by such producers or such cooperative associations; and

(f) On or before the 13th day after the end of the month, each handler shall pay to each cooperative association which is also a handler, for milk received from it not less than the value of such milk as classified pursuant to § 905.44 (a) at the applicable respective class prices including differentials prescribed by this part.

(g) If by such date such handler has not received full payment for such month pursuant to § 937.96 he shall not be deemed to be in violation of this section if he reduces uniformly to all producers and cooperative associations his payments per hundredweight by a total amount not in excess of the reduction in payments due from the market administrator; however, the handler shall make such balance of payment uniformly to those producers to whom it is due on or before the date for making payments pursuant to this section next following that on which such balance of payment is received from the market administrator.

§ 905.91 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts, or verification of weights and butterfat tests of milk or milk products discloses errors resulting in money due (a) the market administrator from a handler, (b) a handler from the market administrator, or (c) any producer or cooperative association from a handler the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth under which such error occurred.

§ 905.92 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers for milk (other than milk of his own production) pursuant to § 905.90, shall deduct 7 cents per hundredweight, or such amount not exceeding 7 cents per hundredweight, as may be prescribed by the Secretary, and shall pay such deductions to the market administrator on or before the 15th day after the end of each month. Such moneys shall be used to check the accuracy of the testing and weighing of their milk for producers who are not receiving such service from a cooperative association;

(b) In the case of producers who are members of a cooperative association which the Secretary has determined is actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deduction specified in paragraph (a) of this section, such deductions from the payments to be made to such producers as may be authorized by the membership agreement or marketing contract between such cooperative association and such producers on or before the 15th day after the end of each month, and pay such deductions to the cooperative association of which such producers are members, furnishing a statement showing the amount of any such deductions and the amount and average butterfat test of milk received from each such producer. In lieu of such statement, a handler may authorize the market administrator to furnish such cooperative association the information reported for such producers pursuant to § 905.90 (d).

§ 905.93 *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator on or before the 15th day after the end of the month for such months, 5 cents per hundredweight, or such amount not exceeding 5 cents per hundredweight, as the Secretary may prescribe, with respect to:

(a) Receipts of producer milk, including such handler's own production;

(b) Other source milk allocated to Class I milk pursuant to § 905.46 (b) and § 905.47; and

(c) Applicable amounts specified in § 905.62 (a) (2) or (b) (2).

§ 905.94 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 905.62, 905.91 and 905.95, and out of which he shall make all payments pursuant to §§ 905.91 and 905.96: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

§ 905.95 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month, each handler shall pay to the market administrator any amount by which the value of his producer milk as computed pursuant to § 905.70, for such month, is greater than the amount owed by him for such milk pursuant to § 905.90.

§ 905.96 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler any amount by which the total value of his producer milk, computed pursuant to § 905.70, for such month is less than the amount owed by him for such milk pursuant to § 905.90. If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce such payments uniformly per hundredweight of producer milk and shall complete such payments as soon as the appropriate funds are available.

§ 905.97 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representative.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay any handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 905.100 *Effective time.* The provisions of this part or any amendment to this part shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to § 905.101.

§ 905.101 *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall terminate, in any event, whenever the provisions of the act authorizing it cease to be in effect.

§ 905.102 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder, the final accrual or ascertainment of which requires further acts by any person (including the market administrator) such further acts shall be performed notwithstanding such suspension or termination.

§ 905.103 *Liquidation.* Upon the suspension or termination of the provisions of this part, except this section, the market administrator, or such liquidating agent as the Secretary may designate, shall if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignment or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated, all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidating and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 905.110 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his Agent or Representative in connection with any of the provisions of this part.

§ 905.111 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances is held invalid, the application of such provision and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

[F. R. Doc. 58-7283; Filed, Sept. 8, 1958; 8:52 a. m.]

[7 CFR Part 929]

[Docket No. AO–260–A3]

MILK IN EASTERN SOUTH DAKOTA MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Watertown, South Dakota, on December 4–5, 1957, pursuant to notice thereof issued on October 18, 1957 (22 F. R. 8383).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service, on July 25, 1958 (23 F. R. 5778) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues on the record of the hearing relate to:

1. Expansion of the marketing area.
2. Instituting a marketwide pool for distributing returns to producers.
3. Qualifications for attaining pool plant status.
4. Payments on unpriced milk disposed of in the marketing area from nonpool plants.
5. The level of the Class I price.
6. Reducing the Class I butterfat differential.
7. Application of location differentials on class prices and in paying producers.
8. Classifying milk transferred or diverted to a nonpool plant.
9. Using a base and excess plan in paying producers.
10. Miscellaneous administrative and conforming changes.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof.

1. The marketing area should include all of the territory within the counties of Beadle, Brown, Codington, Day and Spink, all in the State of South Dakota. The marketing area is now limited to the cities of Aberdeen, Huron, Redfield and Watertown, which are, respectively, in Beadle, Brown, Spink, and Codington Counties. Population of these 4 cities, according to the 1950 census, was 53,000. For the 5 counties, herein recommended as the marketing area, the 1950 population was 97,000.

The expanded marketing area will conform more closely with the sales territory of regulated handlers and will bring under regulation unregulated distributors who now enjoy a competitive advantage over regulated handlers. The principal unregulated handler who would be affected by the change is the Crescent Dairy of Webster. Milk from this plant is distributed in Day, Brown, Codington, and Spink Counties in competition with presently regulated handlers. As an unregulated handler the Crescent Dairy has not been required to pay class prices under the order to which its principal competitors have been subject, and the price paid by this handler for milk for fluid use has been consistently below that provided by the order. Effective May 1, 1956, the Crescent Dairy raised the price paid to producers for "base milk" of 3.5 percent butterfat from $3.67 to $4.09 per hundredweight. The comparable price for Class I milk under the Eastern South Dakota order from May 1956 through December 1957 ranged from $4.44 to $4.90. The price advantage enjoyed by the Crescent Dairy has tended to bring about instability in the marketing of milk in the proposed enlarged area and has impaired the effectiveness of the Eastern South Dakota order.

Fairmont Foods Company distributes Grade A milk in the Eastern South Dakota marketing area from its plant at Moorhead, Minnesota. The sales from this plant in the marketing area in the past have been insufficient to qualify it as a fully regulated plant under the order. Likewise, it is indicated that the sales from this plant in the enlarged marketing area would not qualify it as a pool plant, but would subject it to partial regulation as a nonpool plant under the marketwide pool order.

Grade A milk products sold for fluid consumption throughout the proposed marketing area must be approved by local or state health authorities who are governed by health ordinances, practices and procedures patterned after the United States Public Health Ordinance and Code. Movements of Grade A milk, both in bulk and packaged form, between various localities in the marketing area take place through the reciprocal approval of the responsible health authorities. Ratings by the United States Public Health Service are recognized as a basis for approval of outside sources of milk. Moreover, a state law provides that after June 30, 1958, no milk other than Grade A may be sold in South Dakota. This will result in the extension of regulation under the order to those who now distribute ungraded milk in the area and who will have met the requirements for obtaining approval as Grade A operations by June 30.

Aberdeen, Huron, Watertown, Webster, and Redfield are the principal points at which milk from producers is purchased and packaged for distribution throughout the marketing area. However, a substantial proportion of the distribution from these cities is in nearby communities and in the rural areas of the counties in which they are located. Because of this, the best interests of the market would be served by defining the marketing area on the basis of county rather than city boundaries.

It was proposed by producers and handlers that Hughes County, in which is located the city of Pierre, be included in the marketing area. Tyler's Dairy of Pierre, which operates the only Grade A plant in Hughes County, receives milk regularly from three dairy farmers. In addition, this handler purchases milk in half-gallon paper containers and supplemental supplies of milk in bulk from the Oak Grove Dairy, Norwood, Minnesota.

Pierre, with a 1950 population of 5,700, is the largest city between Huron in the Eastern South Dakota marketing area and Rapid City in the Black Hills marketing area. Its distance from Huron is 116 miles, from Rapid City 183 miles and from Sioux Falls 226 miles. The population of Pierre has increased appreciably since 1950 due to the Missouri River Development work in the vicinity. The growth in population has brought about an increase in the quantities of milk distributed in the area. In recent years milk has been distributed in Pierre from plants in Huron and Redfield under the Eastern South Dakota order, from a plant in Sioux Falls under the Sioux Falls-Mitchell order and from the Fairmont Foods plant at Moorhead, Minnesota. Tyler Dairy competes with these handlers only in Pierre and in a nearby smaller community.

Tyler's Dairy does not have a price advantage over regulated handlers in the procurement of milk. This handler pays producers $4.65 per hundredweight for 3.5 percent milk for Class I purposes. The average Class I price under the Eastern South Dakota order for the 12 months ending October 1957 was $4.56.

Hughes County is relatively far removed from the primary sales distribution area of Eastern South Dakota handlers and under existing marketing conditions it would not be practicable to include it in the marketing area. Accordingly, Hughes County should not be included in the marketing area.

Handlers stated that the marketing area considered at the hearing was not large enough in that it did not include various places wherein milk from their plants is distributed and therefore would not regulate some handlers with whom they compete. The volume of milk sold in localities outside the marketing area from pool plants as defined under the proposed order is not in itself justification for the inclusion of such localities in the marketing area. Neither was it established that marketing conditions in these localities are such that their exclusion would be inappropriate or unjustified at this time.

It is neither administratively feasible nor necessary to include all territory in the marketing area in which handlers to be regulated distribute milk. Furthermore, it would not be possible to designate a marketing area of reasonable size which would include all sales outlets of each and every handler that would be subject to regulation. As additional territory would be added, the problems associated with the extension of regulation to distributors that make a substantial portion of their fluid milk sales outside the market would be increased many fold. By providing for a marketing area as proposed herein, regulation is at a minimum for milk distributors with a large proportion of their sales outside the marketing area and their operations will not be unduly disturbed with respect to the major portion of their sales in communities wherein they compete with other distributors who would not be regulated at all by the proposed order.

It was urged at the hearing that the order provide specifically that any territory within the boundaries of the designated marketing area which is occupied by government (Municipal, State or Federal) reservations, installations, institutions or other establishments should be considered as within the marketing area. It is clearly intended that all such territory be included in the marketing area. However, so that there will be no doubt as to the intent of the marketing area definition, it should be indicated that the designated places in the Eastern South Dakota marketing area shall include territory within such boundaries which is occupied by government (Municipal, State or Federal) reservations, installations, institutions, or other establishments.

2. The order should be amended to provide for a marketwide equalization pool as a means of distributing to producers the proceeds from the sale of their milk. Such a pool will assure each producer supplying the market that he will receive a return based on his pro rata share of the Class I sales of the entire market. The "blend" price that a producer receives will depend on the overall utilization of all producer milk received at the pool plants of all regulated handlers during the month. Although each handler subject to the order will be required to pay uniform prices for producer milk in accordance with the classification of such milk pursuant to the order, the minimum blend prices payable to producers will be the same for all producers in the market irrespective of the use made of such milk by the individual handler.

Under the individual-handler type of pool now contained in the order the minimum prices payable to producers is uniform to all producers delivering to the same handler. The price that a producer receives depends on the proportion of his milk used in Class I and in Class II milk by a handler. Although each handler now subject to the order is required to pay uniform minimum prices to all producers who deliver to him during each month, the minimum uniform prices payable to producers by the several handlers differ according to the variation among handlers in the proportion of milk used in each class.

Although the potential supply of producer milk in the production area for the Eastern South Dakota market is adequate for the market's needs, the individual handler pool has tended to deter the obtaining of such adequate supply on a year-round basis. Some handlers' receipts of producer milk during the months of low production are inadequate for their Class I needs and they have been reluctant to take on additional producers. A reason for this practice has been that the additional reserve supplies that such handlers would be required to carry in the months of seasonally high production would lower the uniform prices to their producers under the individual handler pool. This, it was suggested, put such handlers at a disadvantage with other handlers who are limiting their purchases from producers and thereby paying higher uniform prices during the flush production months. This reluctance to take on additional producers has brought about an uneconomic procurement pattern for the Eastern South Dakota market and has impeded the maintenance of an adequate reserve supply of milk for the order market.

The uniformity of payments to all producers as provided under a marketwide pool will permit a handler either to maintain a manufacturing operation in his plant to handle the seasonal and daily reserve supplies of milk or to limit the operation at his plant to the handling of milk for Class I purposes without affecting the blend prices payable to his producers as against other producers in the market. The facilities in the various plants in the area for handling producer milk which is in excess of that needed for Class I purposes varies considerably at the present time. While a number of plants in the market are exclusively Class I operations and handle no surplus milk, there are several plants that are now equipped to handle substantial quantities of milk for manufacturing purposes. The facilities for handling milk for manufacturing purposes were considerably less extensive in April 1955 when the present order was promulgated.

There are currently separate cooperative associations of producers in each of the 4 cities in the present marketing area. Under the individual handler pool there has been limited movement of bulk milk between handlers in the different cities in the marketing area. Instead producer associations have frequently been called upon to market outside the order the milk of their members not needed for Class I purposes by order handlers. A marketwide pool will provide a greater incentive for the Eastern South Dakota producer associations to obtain the optimum utilization of milk for the whole market because of their sharing equally in benefits of the Class I sales for the total market. Likewise, a marketwide pool will make it possible for the producer associations to assist in diverting seasonal reserve milk, thus keeping on the market those producers who are needed to fulfill the year-round requirements of the market. It assists in apportioning among all producers the lower returns from reserve milk where otherwise this burden may be placed on individual groups of producers. A marketwide pool will thereby contribute to market stability and the attainment of an adequate and dependable supply of producer milk.

Because all producers will receive payment at the rate of the marketwide uniform price each month and because the payment due from each handler for producer milk at the applicable class prices may be more or less than he is required to pay directly to producers, a method of equalizing this difference is necessary. A producer-settlement fund should be established for this purpose. A handler whose obligation for producer milk received during the month is greater than the amount he is required to pay producers for such milk at the applicable uniform price would pay the difference into the producer-settlement fund, and each handler whose obligation for producer milk is less than the applicable uniform price value would receive payment of the difference from the fund. Provision for the establishment and maintenance of the producer-settlement fund as set forth in the attached order is similar to that contained in all other Federal orders with marketwide pools.

Experience has indicated that it is desirable to set aside a reasonable reserve or balance in such fund at the end of each month. Such a reserve is necessary in order to provide for contingencies such as the failure of a handler to make payment of his monthly billing to the fund or the payment to a handler from the fund by reason of an audit adjustment. The reserve, which would be operated as a revolving fund and adjusted each month, is established in the attached order at not less than four nor more than five cents per hundredweight of producer milk in the pool for the month. The unobligated balance in the producer-settlement fund remaining from the preceding month would be added to the values used in calculating the uniform prices each month. The amount of the reserve which is provided herein should be adequate to enable the producer-settlement fund to perform its function efficiently.

As indicated elsewhere in this decision, compensatory payments received by the market administrator from any handler would be deposited in the producer-settlement fund. Money thus deposited into the producer-settlement fund would be included in the uniform price computation and thereby be distributed to all producers on the market.

If at any time the balance in the producer-settlement fund is insufficient to cover payments due to all handlers from the producer-settlement fund, payments to such handlers would be reduced uniformly per hundredweight of milk. The handlers may then reduce payments to producers by an equivalent amount. The remaining amounts due such handlers from the fund would be paid as soon as the balance in the fund becomes adequate to meet such payments, and handlers would then complete payments to producers. In order to reduce the possibility of this occurring, milk received by any handler who has failed to make the payments required to the producer-settlement fund for the preceding month would be eliminated in the computation of the uniform price.

3. The order should be revised to prescribe standards based on association with the market for qualifying a plant as a pool plant. As indicated elsewhere in this decision, marketwide pooling of producer returns is considered essential to the stable and orderly functioning of the Eastern South Dakota market. Since a marketwide pool results in payment to all producers on an average utilization for the market, individual handlers will be relieved of any responsibility for maintaining a high Class I utilization in order to support their payments to producers. Whatever utilization of milk a handler may have, his rate of payment to producers will be the same as that of all other handlers in the market. Thus, it is possible that his status with respect to the pool may be-

come a determining factor in guiding a handler's operation.

The basis for determining which plants shall be pool plants under the Eastern South Dakota order, and thereby fully subject to regulation, should be clearly set forth in the order and apply uniformly to all plants, wherever located. Pool plant status should not be determined solely on an occasional shipment of milk to the market, or on approval by a specified health authority. Such a method for determining which plants shall be subject to regulation would not provide a workable basis for administering the order in conjunction with the other provisions recommended in this decision.

Since the production of high quality milk involves extra expenses, it is important that the amount of milk produced under Grade A inspection be no more than the minimum necessary to provide the market with an adequate and dependable supply of quality milk. To encourage more than enough production of such milk would represent an economic waste, since the expenditures incurred in producing Grade A milk not needed on the market would result in no extra value to consumers.

Essential to the operation of a market-wide pool is the establishment of performance standards to apply uniformly to all plants. Any plant, regardless of its location, should have equal opportunity to comply with the standards and thereby to participate in the marketwide pool and have its producers share in the Class I sales of the market. Any producer who meets the necessary health department requirements should be permitted, under the order, to sell his milk to plants meeting the standards of qualification. Whether or not plants and producers choose to supply the Eastern South Dakota market will depend on the economic circumstances with which they are confronted, such as prices, transportation costs, and alternative outlets.

Performance standards should be such that any plant which has as its major function the supplying of milk to the market would pool its sales and share in the marketwide equalization. On the other hand, plants only casually, or incidentally, associated with the market should not be subject to complete regulation. Neither should they be permitted or required to equalize their sales with all handlers in the market. If a milk plant were to be permitted to share on a pro rata basis the Class I utilization of the entire market without being genuinely associated with the market, then the differentials paid by users of Class I milk would be dissipated without accomplishing their intended purpose. If a plant were to be qualified and fully regulated merely by making a token shipment of milk or cream into the market for sale as Class I milk, then any milk plant which found itself in a position where it was selling a smaller share of its milk in Class I then the average for all regulated handlers might make such shipment and receive equalization payments from the pool. The only qualification such a plant would be required to meet would be compliance with the necessary health department standards.

Since reserve milk is an essential part of any fluid milk business there will always be some excess milk in the plants of handlers supplying other markets. This will be particularly true in the months of flush production. Plants selling primarily to other markets, or plants shipping milk on an opportunity basis to any market where supplies happen to be short, do not represent sources of milk on which the Eastern South Dakota market may depend. If such a plant, by selling a token quantity of Class I milk in the marketing area, were allowed to pool its surplus, the operator thereof could gain an unwarranted advantage in paying producers by receiving equalization payments from the Eastern South Dakota order pool. Such a distribution of equalization payments would, in fact, reduce the blend price to producers regularly supplying the market, thereby having an adverse effect on the milk supplies upon which the market depends. This could result in the need for higher Class I prices than would otherwise be required to supply the market adequately.

Because of the difference in marketing practices and functions between distributing plants and supply plants, two sets of performance standards have been provided. A "distributing plant" under the order would be defined as a plant in which milk is processed or packaged and from which any fluid milk product (as hereinafter defined) is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area. A "supply plant" would be defined to mean a plant (except a distributing plant) from which Grade A milk, skim milk or cream is shipped during the month to a distributing plant which is qualified as a pool plant.

In order to qualify as a pool plant, a distributing plant should be required to distribute at least 10 percent of its milk from producers and other plants during the month as Class I milk on retail or wholesale routes to outlets in the marketing area.

A distributing plant having more than 90 percent of its business outside the marketing area or in other outlets should not be considered as essentially associated with the market. It is not considered advisable to bring such a plant under full regulation because of the minor share of its business which is in the marketing area. Full regulation in such case would not be necessary to accomplish the purpose of the order, and might well place such plant at a competitive disadvantage in relation to its competitors in supplying the unregulated market.

Such a minimum is necessary to avoid the possibility that a plant otherwise not associated with the market might qualify itself for equalization payments to its own advantage, and to the disadvantage of the market, by means of minor sales in the marketing area.

It is contemplated that only plants primarily engaged in route distribution of fluid milk products should be qualified as pool plants under this definition. In order to preserve this distinction, a further condition is placed on distributing plants that their total distribution of Class I milk on routes to wholesale or retail outlets, both inside and outside the marketing area, must amount during the month to at least 35 percent of their receipts of milk from dairy farmers and from other plants. Any plant which does not qualify on this basis should be deemed to be primarily a supply plant and its pool status should be judged by the standards applied to such plants.

A plant from which milk for Class I uses is distributed regularly in the marketing area under normal circumstances may be expected to dispose of its milk in such a way as to exceed by a reasonable margin the minimum performance standards necessary to qualify as a pool plant. There may be from time to time plants supplying milk to the marketing area which would not qualify for pool status. Such plants would be subject to payments hereinafter discussed if they are not fully subject to regulation.

The performance standards for supply plants to qualify for pool plant status should reflect the fact that currently the quantity of milk produced for the Eastern South Dakota market is adequate on an annual basis for the needs of the market. At times, especially during the months of seasonally high production, distributors in the market have not needed all of the milk available from producers in order to keep their Class I outlets fully supplied. In order to assure that all the producers' milk which is pooled with the market will be available for Class I, supply plant standards should be set at levels which require that such milk will be available.

In order to qualify for pool plant status a supply plant should ship to distributing plants which are pool plants at least 35 percent of its receipts of milk from dairy farmers in any month in the form of fluid milk products. A supply plant from which a proportionately lesser quantity of milk is disposed of in this manner should not, under the present conditions in the Eastern South Dakota market, be considered as primarily associated with the regulated market.

It is recognized that if there is any demand for milk from supply plants it will be greatest during the season of low production. For sustained periods during the months of flush production supplies of milk received at plants located in or near the marketing area may be sufficient to supply the Class I outlets. During this part of the year it would be more economical to leave the most distant milk in the country for manufacture and use local supplies for Class I use. The performance provisions should not force milk to be transported to distributing plants in the months of seasonally high production in order to maintain the eligibility of supply plants to pool.

To avoid this, provision should be made whereby a supply plant may maintain pool plant status throughout the year if it supplies a substantial portion of its producer milk to distributing plants during the months when milk production tends to be lowest. The proposed standards require that a supply plant provide distributing plants which are pool plants with milk to the extent of

50 percent of its producer milk receipts during the period of September through November to maintain automatic pool status for the months of March through June.

A handler operating a distributing plant or a supply plant which does not meet the standards for a pool plant should be required to file reports for such plant and submit to audits by the market administrator to verify the status of such plant.

Some handlers in the market receive milk from both Grade A and ungraded producers. Where such an operation takes place, it is generally the practice of the handler to maintain the ungraded operation physically apart from that of his Grade A operation. The handler who operates an ungraded plant which is in the adjoining or same building as his Grade A plant should not be restricted in the operation of his ungraded plant to any greater degree than the operator of any other ungraded plant. However, proper safeguards should be provided in the order to insure that the ungraded and graded portions of a plant operated by the same handler are maintained as separate entities. It is concluded, therefore, that if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it should not be considered a part of a pool plant. However, if the graded and ungraded operations of a plant are not maintained separately, the entire operation of such plant would be considered as that of a pool plant, and all ungraded milk received at such plant would be considered as other source milk received at a pool plant.

4. The order should provide that payment be made into the producer-settlement fund with respect to unpriced milk which is allocated to Class I milk in a pool plant.

Receipt of milk in excess of Class I disposition is necessary to operate a fluid milk business. Because of seasonal fluctuations in production without corresponding changes in demand, this excess or reserve milk must be marketed in manufactured form in competition with products made from ungraded milk. The existence of this reserve Grade A milk, which must be marketed at a lower price, is the primary cause of the instability which may affect fluid milk markets.

Considerable volumes of Grade A milk must be disposed of as surplus by various unregulated plants from which the Eastern South Dakota order handlers may obtain milk. When milk is available in substantial volumes from nonpool sources, handlers under the order could obtain such milk at prices reflecting its value as surplus milk, which prices would approximate the Class II price under the order. During the seasonally high production months of March through June, the compensation payment on other source milk allocated to Class I milk should be the difference between the minimum price of producer milk used for surplus (Class II) and the Class I price adjusted to the location of the plant from which such other source milk was received from farmers. This rate will reflect generally the difference in the value between unregulated and regulated milk for Class I use at that time.

During the months of July through February, when milk supplies tend to be shorter than in other months, it is not likely that other source fluid milk products will be available to the market at surplus prices. It may reasonably be expected that during such months milk would be available from unregulated sources at prices more nearly at the level of the uniform price under the order. The compensation payment during these months should be the difference between the marketing area uniform price to producers and the Class I price adjusted to the location of the plant from which such fluid milk products are supplied. The relationship between the supply of and demand for milk in the market in the July through February period tends to fluctuate from year to year according to marketing conditions. These conditions will generally prevail also in surrounding markets that are potential sources of supply for unpriced milk. Thus, the rate of compensation payment based on the difference between Class I and uniform prices will adjust itself automatically in these months in accordance with the proportion of Class I milk to the total milk pooled and this will tend to affect also conditions in the area from which unpriced milk is obtained.

The rates which are here found to be appropriate for the Eastern South Dakota marketing area give recognition to general competitive conditions in the purchase and sale of fluid milk products. However, such conditions do not prevail uniformly in all instances since all transactions are not made under the same circumstances and it would not be administratively feasible to adjust prices or payments to individual transactions.

It is therefore necessary to have definite and specified rates applicable to all handlers similarly situated. The rates herein provided were proposed by producers and are those which will best effectuate the intent of the act under current marketing conditions in the area. No other rates were proposed at the hearing with respect to compensatory payments on unpriced milk.

Other source milk used in the form of nonfat dry milk solids should be considered to be from a source at the location of the pool plant where it is used. In some instances there will be none and in other cases insignificant transportation charges per hundredweight experienced by handlers on such other source milk under the skim milk equivalent basis of accounting provided in the order. By following this procedure, the compensation payment on other source milk derived from nonfat dry milk solids will be comparable to that on any other source milk which is allocated to Class I milk.

In addition to that other source milk which would enter the marketing area through pool plants, some milk is distributed in the marketing area from nonpool plants. The largest distribution of nonpool milk in the Eastern South Dakota marketing area is from a plant in Moorhead, Minnesota. At this location and at various other locations in nearby Minnesota substantial quantities of milk are available throughout the year. It would not be possible to stabilize the Eastern South Dakota market under the classified pricing program if distribution in the marketing area of unpriced milk from nonpool plants without compensation payments were allowed. Since such milk may be procured for distribution in the Eastern South Dakota marketing area on the same basis as other source milk at pool plants it should be classified and priced the same as unpriced milk distributed through any other channels.

No compensation payment should be required on milk classified and priced as Class I under another Federal milk marketing order. The minimum prices for Class I milk under other Federal orders where Eastern South Dakota order handlers might obtain supplemental supplies approximate the Eastern South Dakota order Class I price as adjusted for location of the supplying plants. Since handlers operating plants under other Federal orders must pay for producer milk on a utilization basis, they would not be in a position to dispose of their surplus producer milk in the Eastern South Dakota marketing area for Class I use at less than Class I prices.

Handlers proposed that no compensatory payment be required on other source milk received at a pool plant during a month when receipts of producer milk are below 110 percent of Class I sales. If such a provision were incorporated in the order, it would not be expected to have any effect in the seasonally high production months of March through June. During the months of July through February the compensatory payment rate herein provided of the difference between the Class I price and uniform price would adjust itself automatically to changes in the relationship between the producer milk supply and the Class I sales of the market. Thus, with producer milk receipts at a ratio of less than 110 percent of Class I sales the compensatory payment rate would be relatively negligible or completely nonexistent. In view of this, there is no need for providing in the order that the compensatory payment provision shall be inoperative when producer receipts are below 110 percent of Class I sales. Moreover, such a provision would be harmful to the best interests of the market by encouraging handlers to limit their purchases of producer milk and thereby bring about an uneconomic procurement pattern for the Eastern South Dakota market at the expense of nearby dairy farmers.

5. No change should be made in the Class I price at this time.

Handlers proposed that the Class I price be reduced 46 cents for milk sold outside the marketing area. They argued that such a reduction in price is necessary to enable them to compete with unregulated Grade A milk and ungraded milk.

The Class I price under the Eastern South Dakota order is established at a level which will insure an adequate supply of Grade A milk for the market. Reducing the price for Class I milk dis-

posed of outside the marketing area would depress the overall returns to producers, thereby having an adverse effect on the milk supplies upon which the market depends.

The enlarged marketing area as proposed herein encompasses the territory in which regulated handlers distribute the major portion of their receipts from producers. Handlers should not be encouraged by means of an "out of area price" to seek additional Class I outlets at the expense of producers primarily associated with the Eastern South Dakota order market. Such uneconomical movements of milk, resulting in lower returns to producers, would seriously jeopardize stability and orderly operation in the Eastern South Dakota market.

In addition to the competition from unregulated Grade A milk, handlers claimed they need to reduce their prices for Grade A milk in areas where ungraded milk is offered for sale. Extra costs are involved in meeting the sanitary requirements relative to the maintenance of a dairy herd for the production of Grade A milk. Recognition of the higher quality and greater value of milk sold as Grade A in the sales territory served by Eastern South Dakota handlers is indicated in those communities wherein both Grade A and ungraded milk are sold by the preference of consumers for Grade A milk. In view of this, there is no justification for reducing the Class I price for milk sold outside the marketing area to enable handlers to purchase Grade A milk at prices which approximate the ungraded milk price. Moreover, in accordance with a recently enacted law, ungraded milk for human consumption may not be offered for sale in South Dakota after June 30, 1958.

The two price system proposed by handlers would have the effect of having consumers of milk in the marketing area subsidize buyers of milk in communities outside the marketing area. There is no sound economic basis to discriminate against purchasers in the sales territories wherein Eastern South Dakota order handlers have the greater part of their Class I sales in favor of buyers elsewhere.

Evidence was also received on a proposal that would reduce the Class I price 23 cents and on another that would base the Class I price on the price for Class II milk plus a differential of $1.40.

At the present time the Class I price is computed by adding $1.40 to the higher of the Class II price or the Midwest Condensery price. Eliminating the condensery price as a factor in calculating the Class I price would result in a price approximating that in the Sioux Falls-Mitchell order, which price averages about 15 cents below the Eastern South Dakota Class I price.

The argument of handlers that a lower Class I price is necessary to enable them to compete with unregulated handlers and handlers regulated by other orders was not substantiated at the hearing. In fact, the testimony presented did not establish that the Class I price now provided under the individual handler pool order would not be appropriate under the marketwide pool herein recommended.

6. The Class I butterfat differential should be computed by multiplying the average of the daily quotations for Grade A (92-score) butter at Chicago for the preceding month by 0.120. The differential is now obtained by adding 2.8 cents to the Class II butterfat differential, which results in a Class I butterfat differential approximating the Chicago butter price average times 0.160.

The Class I butterfat differential in the Eastern South Dakota order is high in relation to the Class I butterfat differential in other markets. Under the Chicago order, for example, handlers pay a butterfat differential on Class I milk approximating the Chicago 92-score butter price times 0.120.

The high Class I butterfat differential, it was indicated, has been one of the principal reasons for the rapid and continuing decline in the proportion of butterfat contained in the Class I disposition in the market. This decrease of butterfat in Class I utilization is reflected especially in the low butterfat content of fluid milk distributed in the marketing area.

In Eastern South Dakota, as in other markets, whole milk in fluid form is the most significant item making up the Class I sales in the market. The average butterfat content of fluid whole milk distributed in the marketing area currently ranges between 3.3 and 3.5 percent, tending generally to be but little above the required minimum in the State of South Dakota of 3.25 percent.

A high butterfat differential as now contained in the order tends to be a deterrent to increasing the butterfat content of fluid milk products distributed by regulated handlers. The change proposed herein gives recognition to the increasing value of the nonfat solids portion of the milk for fluid purposes in relation to the butterfat portion. The lower rate of the butterfat differential should give some encouragement to the sale of higher fat milk and of cream.

7. A schedule of location differentials should be incorporated in the order to provide an appropriate adjustment of order prices at the location of any plant from which milk is moved to the marketing area. With the same class prices applicable, milk received at a plant outside the marketing area and moved to the marketing area for processing and packaging may be expected to be more costly to a handler than milk received directly from producers at his processing plant in the marketing area. In the same manner, additional transportation costs would be incurred by the operator of a plant from which packaged milk is moved a relatively long distance to the marketing area. Unless provision is made in the order for the application of location differentials, producers delivering milk to plants located at some distance from the marketing area would be paid the same uniform prices as producers delivering to plants in the marketing area.

It is economically more feasible to meet the needs of the market for fluid purposes from those farms or plants nearest the market before bringing in milk from more distant plants. The value of milk to the market for fluid purposes is greater at the location of a plant in the marketing area which packages it for distribution than at a plant from which milk must be moved to the marketing area for Class I uses. Recognition in the order through the medium of a location differential should be given to this difference in value.

So as to be equitable to all handlers, the minimum Class I price to be paid for producer milk should not be dependent upon the type of plant receiving the milk. However, to the extent that milk is received elsewhere from producers and brought to the marketing area by a handler, the handler has assumed a transportation cost which might otherwise be borne by producers. Accordingly, the Class I price should be adjusted downward in the case of a plant which assumes the cost of hauling milk to the marketing area.

It is customary, in both regulated and unregulated markets, for handlers to pay producers delivering milk to plants farther removed from the market a lesser price per hundredweight than is paid producers delivering directly to plants in the marketing area. To the extent that this represents a lower price because of the location of the milk, such difference in value should be recognized under the order.

Official notice is here taken of Order No. 17, regulating the handling of milk in the Black Hills, South Dakota, marketing area. The location differential in that order reduces the price for Class I milk received from producers at a pool plant located more than 100 miles from the four principal cities in the marketing area by 15 cents for the first 110 miles or less and by 1.5 cents for each additional 10 miles or fraction thereof that such plant is from the nearest of the post offices in such cities.

Aberdeen, Huron and Watertown are the principal cities in the Eastern South Dakota marketing area and are so situated with respect to the overall marketing area so that basing location differential mileage zones from the nearest of them would be equitable to all handlers. The post office in each of these cities would be an appropriate point from which the mileage used in applying the location differentials might be measured. Computing the differential from the nearest of such cities will reflect the value of the milk in relation to the nearest potential outlet and it may reasonably be expected that milk which is moved for regular distribution or as a supplementary source of supply would be nearer to the city to which the shipments were made. This method of arriving at location differential adjustments will result in values for milk at plants at different locations in such a manner as to promote the economical allocation of available supplies in accordance with location of such supplies with respect to the major consuming centers in the marketing area.

Because the Eastern South Dakota marketing area is spread over a relatively large territory and because milk distributed in the marketing area is moved great distances, it would be inappropriate to have location differentials applicable at plants which are less than 100 miles from any of the principal cities in the marketing area. Accordingly, it is concluded that the Class I price under the Eastern South Dakota order should be reduced by 15 cents for the first 110 miles and 1.5 cents for each additional 10 miles or fraction thereof with respect to producer milk received at a plant which is not less than 100 miles from the nearest of the Post Offices of Aberdeen, Huron, and Watertown.

The location differential here recommended is economically sound and will be applicable to all handlers wherever located. The proposed rates are fundamentally the same as those contained in various other orders and are representative of the cost of hauling milk by an efficient means to the market.

Prices paid producers supplying plants to which location differentials apply should be reduced to reflect the lower value of such milk f. o. b. the point to which delivered.

No adjustment should be made in the Class II price because of the location of the plant to which the milk is delivered. There is little difference in the value of milk for manufactured uses associated with location of the plant receiving the milk. This is because of the low cost per hundredweight of milk involved in transporting manufactured products. The prices paid for ungraded milk received at various sections of the milkshed do not indicate any difference in value associated with location.

After a handler receives milk for Class II use, he should be expected to handle and dispose of the milk by the most advantageous possible method. Prices paid producers for such milk should not be made dependent upon the method employed by the handler in disposing of such milk. To do otherwise would remove part of the incentive for keeping handling costs at a minimum. To insure that milk will not be moved unnecessarily at producers' expense, the order should contain a provision to determine whether milk transferred between plants may receive the location differential credit. This should provide that for the purpose of calculating such location differential credit the skim milk and butterfat in fluid milk products transferred in bulk form be assigned to any Class II use remaining in the transferee plant after a maximum assignment of 5 percent of the direct producer receipts to Class II milk at such plant.

8. The marketwide pool order will facilitate the transfer and diversion of fluid milk products from pool plants to nonpool plants. At the present time, under the individual handler pool order, the diversion by a cooperative association of the milk of its members is not subject to the order and does not affect the blend price paid by a handler at a specified plant. However, the transfer or diversion by a handler of excess producer milk for manufacturing purposes under the individual handler pool order affects the blend price returned to his producers but not to other producers on the market. As provided in the proposed marketwide pool order, milk transferred by a cooperative association or a proprietary handler to a nonpool plant would affect returns to all producers on the market. In view of this, it is important that the transfer provisions of the order specify clearly the manner in which milk that is transferred or diverted from a pool plant to a nonpool plant should be classified under the marketwide pool herein proposed.

Fluid milk products transferred or diverted to a nonpool plant should be classified as Class I milk unless certain conditions are met. The operator of the nonpool plant, if requested, should make his books and records available to the market administrator for the purpose of verifying the receipts and utilization of milk in such nonpool plant. Provision for verification by the market administrator is reasonable and necessary to insure proper application of the classification procedures prescribed in the order.

In order to classify such transfers or diversions as Class II milk the fluid milk products disposed of from the receiving nonpool plant should not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers directly supplying such plant. However, if the fluid milk products disposed of from the receiving nonpool plant exceed the receipts of skim milk and butterfat from dairy farmers regularly supplying such plant, the difference should be assigned to the fluid milk products transferred or diverted from a pool plant and classified as Class I milk. If the transfers and diversions to the nonpool plant during the month are from two or more plants subject to the provisions of this and other orders issued pursuant to the act, the skim milk and butterfat assigned to Class I milk at each such pool plant under the Eastern South Dakota order should be not less than that obtained by prorating the assignable Class I milk at the nonpool plant over the receipts from all plants subject to the provisions of this and other orders issued pursuant to the act.

The method herein recommended for classifying transfers and diversions from pool plants to nonpool plants accords equitable treatment to order handlers and gives appropriate recognition to handlers in other regulated markets in the classification of milk transferred to a common nonpool plant. Giving priority to dairy farmers directly supplying a nonpool plant recognizes that they are the regular and dependable source of supply of milk for fluid use at such plant. The proposed method of classification will safeguard the primary functions of the transfer provisions of the order by promoting orderly disposal of reserve supplies and in assuring that shipments to nonpool plants will be classified in an equitable manner.

The provision for classifying fluid milk products as Class II milk should not be extended to include milk transferred or diverted to nonpool plants located more than 150 miles from the nearest of the post offices of Aberdeen, Huron, and Watertown. The area thus described is adequate to dispose of reserve milk for Class II use. Fluid milk products moving greater distances are normally for Class I use.

When milk or skim milk in bulk has been transferred or diverted to a nonpool plant located not more than 150 miles from Aberdeen, Huron, and Watertown, the market administrator is required to verify the utilization claimed by such nonpool plant. It may reasonably be expected that the market administrator will be able to make such verification within such "surplus disposal area" without incurring undue expense. It would not, however, be administratively feasible or otherwise justifiable to have a surplus disposal area of unlimited expanse or to cover a geographical area which is larger than that provided herein. Making such provision might tend to make unreasonable demands on the market administrator in connection with the verification of occasional or irregular shipments to nonpool plants located beyond the area wherein handlers who would be subject to the order normally dispose of reserve supplies of milk for Class II purposes.

9. A "base and excess" plan of distributing the returns for milk among producers should be employed in connection with the market-wide pool.

Base and excess plans, although they vary among cooperative associations and handlers have been commonly used throughout the marketing area. The base and excess method of distributing milk returns during the months of heaviest production has wide support among producers.

Because of the seasonal variations in the production of milk for the Eastern South Dakota market, there is need for an incentive to increase production in the fall and winter months relative to spring and summer months. This can best be accomplished through a uniformly administered base and excess plan incorporated in the order.

Some handlers and cooperative associations have difficulty in utilizing efficiently all milk delivered to them in the months of seasonally high production. By providing returns related directly to a producer's ability to deliver additional milk in the fall and winter as compared with deliveries during the season of flush production, a more even milk production pattern will be encouraged.

The base-excess plan herein recommended would establish for each producer a base that would depend upon his deliveries of milk to pool plants during the months of September, October and November. During these months, as well as all other months in the period of July through February, producers would receive the marketwide blend or uniform price for all milk which they deliver to pool plants.

For each of the months of March through June separate uniform prices for "base milk" and "excess milk" would be computed so that Class I sales would first be allotted to base milk. Base milk would be milk received at a pool plant from a producer during any of the months of March through June which is not in excess of an amount equal to the daily base of such producer multiplied by the number of days in such month. Class II disposition in the market would first be allotted to excess milk. If Class I disposition is more than the base milk

received from producers in any month, such additional Class I milk would be allocated to excess milk and the excess blend price increased accordingly.

The daily base of each producer would be calculated by the market administrator by dividing the total pounds of producer milk received at all pool plants from such producer during the months of September through November by the number of days on which such milk is received from such producer.

It may be expected that new producers coming on the market during or after the base forming period would be needed to supply the Class I needs of the market. These producers should be permitted to share in the proceeds from the sale of Class I milk during the base operating period even though they did not establish bases during the preceding September through November period. A producer who delivered milk during the base forming period but desires to change his level of production should not be required to receive payment for the high production at the excess price. Such a producer should be permitted to relinquish his base and establish the base of a new producer if he so desires. This would add greater flexibility to the plan and would accommodate cases of abnormally low production during the base forming period due to unusual circumstances.

For those producers who do not deliver milk during the base forming period or who deliver milk on less than 60 days during the base forming period or who desire to relinquish established bases, the daily base would be calculated for each of the months of March through June by dividing the pounds of producer milk received from such producer during the month by the number of days in such month and multiplying the quotient by 50 percent for the months of March and April and by 40 percent for May and June. The above percentages will allow new producers to share in the Class I market during the base operating period but will not encourage new producers to come on the market at that time if their production is not needed to supply the Class I needs of the market.

If a plant were a nonpool plant during the preceding September through November period and became a pool plant during any of the months of March through June of the following year, provision should be made for assigning bases to the dairy farmers regularly supplying such plant. This would be effectuated most equitably by according such dairy farmers the same treatment as other producers in establishing bases. This would be accomplished by providing that for the purpose of calculating the daily base of a producer deliveries of any dairy farmer during the preceding September through November to a nonpool plant that is a pool plant in any of the months of March through June shall be considered producer milk received at a pool plant.

It was proposed by producers that the months of January and February be included in the base operating period and the months of August and December be included in the base forming period. The record does not show that the receipts of milk in these months is abnormal in relation to receipts in other months. Moreover, including these months in the base forming and base paying periods would make the plan unduly restrictive and would not improve the effectiveness of the base-excess plan. September, October and November are normally the months in which the production of milk for the Eastern South Dakota market is lowest and the base forming period should be limited to these months.

Location differentials heretofore discussed should be applied to prices paid producers for base milk. Since excess milk will represent principally producer milk classified in Class II to which no location differential is applicable, the producer price for excess milk should not be subject to the location differential provision of the order.

It is necessary to provide certain rules in connection with the establishment and transfer of bases in order to provide reasonable administrative workability of the plan. Such rules should outline specifically the method for calculating the base for each producer and set forth clearly the procedure to be followed for transferring bases. It is desirable that the need for administrative discretion and restrictive conditions in connection with the application of the base rules be kept at a minimum. To accomplish this, it is necessary that transfer of bases be limited to the entire base of a producer.

The free transfer of entire bases as proposed by producers and recommended herein will facilitate the operation and contribute toward carrying out the intent of the base-excess plan. The purpose of the base-excess plan is to encourage fall production by providing for each producer to share in the Class I market during the spring months of high production along with other producers in proportion to his deliveries to the market during the preceding fall months. Providing for unrestricted base transfer will give added assurance to a producer that he will have the full benefit of the base he has made whether or not he is able to continue milk production for his own account through the following months of flush production. This assurance should increase the effectiveness of the base-excess plan in encouraging production of milk during the months of the year when it is most needed on the market. Bases should be transferred on the first day of a month following receipt of a statement on an approved form showing the holder of such base, the person to whom it is to be transferred, and signed by both parties.

No provision is now made in the order for distributing to producers the returns for their milk through a base and excess plan. It would be desirable, therefore, to allow producers a reasonable period of time to make such changes as might be necessary to adjust their production patterns toward obtaining the optimum benefits under a base and excess plan. The earliest possible date on which the amended order could become effective would be during the 1958 base making period. In view of this, Eastern South Dakota producers would not have had adequate notice that would enable them to make any changes affecting their production in the fall of this year. On the basis of these facts and from the viewpoint of administrative feasibility it is concluded that the base and excess method of paying producers should not be utilized under the order during the 1959 base operating period. Accordingly, during the months of March through June 1959 each producer would be paid not less than the monthly marketwide uniform price for his total deliveries. This would be accomplished by providing that all milk delivered by producers to pool plants during the 1959 base operating period shall be considered base milk.

10. (a) The entire order should be redrafted to incorporate conforming and clarifying changes and to facilitate application of its various provisions.

In designating which persons would be subject to regulation and the application of order provisions to them, new or revised definitions are provided in the atached order, including those for "producer", "fluid milk product", "producer milk" and "other source milk". The definitions for "pool plant", "distributing plant", and "supply plant" are discussed elsewhere in this decision.

"Producer" should mean any person, except a producer-handler, who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority which milk is received at a pool plant.

"Fluid milk product" should mean milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (except frozen cream) and any mixture in fluid form of skim milk and cream (except ice cream mixes and sterilized products in hermetically sealed containers). The items designated as fluid milk products pursuant to this definition are those products which when disposed of by handlers are considered as Class I milk.

"Producer milk" should be defined as all skim milk and butterfat contained in milk received at a pool plant directly from producers.

When producer milk is not needed in the market for Class I purposes, the movement of such milk to nonpool plants for manufacturing purposes should be facilitated. Allowing for unlimited diversion during those months when reserve supplies of milk are heaviest will contribute to this end. Unlimited diversion is neither necessary nor desirable during the other months of the year when producer milk regularly associated with the market is needed to supply the Class I needs of the market. It is necessary, however, to provide for limited diversion during such months to enable handlers to divert producer milk on such occasions as weekends or holidays when the milk is not needed in the market for Class I purposes.

Provision should be made so that the producer milk regularly received at a pool plant may be diverted for the account of a handler to a nonpool plant any day during the flush production months and on not more than the number of days that milk was delivered to a pool plant from the farm of the producer during any other months and still retain producer milk status under the order. Milk diverted in the manner

herein prescribed should be deemed to have been received at the plant from which it was diverted.

"Other source milk" should be defined as all skim milk and butterfat contained in or represented by fluid milk products utilized by the handler in his operations except producer milk, fluid milk products received from pool plants, and inventory at the beginning of the month. Thus, other source milk would represent skim milk and butterfat which is not subject to the pricing provisions of this order during the month. It would include all milk products from plants other than pool plants, milk received from a producer-handler and all manufactured dairy products from any source which are reprocessed or converted into another product during the month. It would include those manufactured products from a plant's own production which are made and are reprocessed or converted into another product during the same or a later month.

(b) During the months of March through June the maximum shrinkage that may be classified in Class II should be 5 percent of the receipts of skim milk from producers and other sources. Handlers testified that it has been necessary during these months of seasonally high production to dump small quantities of skim milk for which no outlet was available.

It would not be practicable to permit in an unlimited manner the dumping of skim milk by pool plant handlers. Neither would it be appropriate to classify in other than Class II small quantities of skim milk for which no better outlet is available. The necessary relief to handlers in this matter will be appropriately afforded by the increased shrinkage allowance (from 2 to 5 percent) herein provided on skim milk dumped during the spring months of heavy production.

(c) The Class II price in the Eastern South Dakota order is based on prices paid for butter and nonfat dry milk solids. Producers proposed that the formula used to compute this price be rewritten to conform with the language used in other Midwestern Federal orders. Since this change would not affect the annual level of the Class II price, it should be made at this time. The Class II price would be the price obtained as follows: (1) Multiply the Chicago butter price by 4.24; (2) Multiply by 8.2 the weighted average of carlot prices per pound for spray process nonfat dry milk solids for human consumption f. o. b. manufacturing plants in the Chicago area, as published by the Department for the period from the 26th day of the preceding month through the 25th day of the current month; (3) Add into one sum the amounts computed in (1) and (2) above and subtract 80 cents therefrom.

The method used in computing the Class II butterfat differential should also be changed. The differential is now computed by multiplying the Chicago butter price by 0.125 and subtracting 0.8 cents therefrom. Computing the differential by multiplying the Chicago butter price for the current month by 0.110 will not change the level of the Class II butterfat differential and will simplify the calculation thereof.

(d) A proposal made by handlers would give other source milk priority over producer milk in allocating the Class I sales of regulated handlers. This would have the effect of assigning the lowest value utilization for the market to dairy farmers associated with it. The inclusion of such a provision in the order would tend to nullify the purpose for which orders are issued and would be inconsistent with the intent of the act. Accordingly, the proposal to give other source milk priority over producer milk to the Class I sales of regulated handlers is hereby denied.

(e) The date by which handlers are required to submit to the market administrator their monthly reports should be changed from the 6th day to the 7th day of the following month. Handlers stated that the extra day is necessary because a number of reports and statements are required of them from various sources immediately following the close of each month, and being required to file monthly reports with the market administrator by the 6th has frequently worked a hardship on them. There was no opposition to this handler proposal and it is expected that the extra day for preparing reports will enable handlers to provide the market administrator in a more complete and accurate manner the data needed to compute the monthly uniform price under the marketwide pool.

(f) Under the marketwide pool, it will be necessary for the market administrator to receive reports and payments when due in order to calculate the blend price and make disbursement of money to handlers for the equalization of producer pay rates. The order should be adjusted, therefore, to permit disclosure of the names of handlers delinquent in such matters as soon as the delinquency occurs. Also, interest should be charged on money overdue the market administrator. The interest rate provided in the attached order is 6 percent per annum. Such an interest rate is not a penalty but represents a fair price for the use of the money. Charging interest will avoid giving the handler any incentive to retain money temporarily for use in his business at no cost until compliance can be enforced.

(g) One of the formulas used in computing the basic formula price, which is used in calculating the Eastern South Dakota order Class I price, is the average of the prices paid for milk received from dairy farmers at specified plants in Wisconsin and Michigan known as the "Midwestern Condenseries". One of the 13 plants now listed in the order (Pet Milk Company, Hudson, Michigan) is no longer in operation. Accordingly, only the 12 of the 13 plants in the Midwestern Condensery group now operating are listed in the attached proposed order as the plants whose prices paid to dairy farmers shall be used in determining the basic formula price under the order.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of certain interested parties in the market. These briefs and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions set forth in the briefs are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied.

General findings. (a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditons thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on exceptions. In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Eastern South Dakota Marketing Area", and "Order Amending the Order Regulating the Handling of Milk in the Eastern South Dakota Marketing Area", which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

Referendum Order; Determination of Representative Period; And Designation of Referendum Agent

It is hereby directed that a referendum be conducted to determine whether the issuance of the attached order amending the order regulating the handling of milk in the Eastern South Dakota marketing area, is approved or favored by the producers, as defined under the terms of

the order, as hereby proposed to be amended, and who, during the representative period, were engaged in the production of milk for sale within the aforesaid marketing area.

The month of July 1958 is hereby determined to be the representative period for the conduct of such referendum.

Wayne McPherren is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders, as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 20th day from the date this decision is issued.

Issued at Washington, D. C., this 3d day of September 1958.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

Order[1] Amending the Order Regulating the Handling of Milk in the Eastern South Dakota Marketing Area

Sec.
929.0 Findings and determinations.

DEFINITIONS

929.1 Act.
929.2 Secretary.
929.3 Department.
929.4 Person.
929.5 Cooperative association.
929.6 Eastern South Dakota marketing area.
929.7 Producer.
929.8 Distributing plant.
929.9 Supply plant.
929.10 Pool plant.
929.11 Nonpool plant.
929.12 Handler.
929.13 Producer-handler.
929.14 Producer milk.
929.15 Fluid milk product.
929.16 Other source milk.
929.17 Base milk.
929.18 Excess milk.
929.19 Chicago butter price.

MARKET ADMINISTRATOR

929.25 Designation.
929.26 Powers.
929.27 Duties.

REPORTS, RECORDS, AND FACILITIES

929.30 Reports of receipts and utilization.
929.31 Other reports.
929.32 Records and facilities.
929.33 Retention of records.

CLASSIFICATION

929.40 Skim milk and butterfat to be classified.
929.41 Classes of utilization.
929.42 Shrinkage.
929.43 Responsibility of handlers and reclassification of milk.
929.44 Transfers.
929.45 Computation of the skim milk and butterfat in each class.
929.46 Allocation of skim milk and butterfat classified.

MINIMUM PRICES

929.50 Basic formula price.
929.51 Class prices.
929.52 Butterfat differentials to handlers.
929.53 Location differentials to handlers.
929.54 Use of equivalent prices.

APPLICATION OF PROVISIONS

929.60 Producer-handler.
929.61 Plants subject to other Federal orders.
929.62 Handlers operating nonpool plants.
929.63 Rate of payment on unpriced milk.

DETERMINATION OF UNIFORM PRICE

929.70 Computation of value of milk for each handler.
929.71 Computation of aggregate value used to determine uniform price.
929.72 Computation of uniform price.
929.73 Computation of uniform price for base milk and excess milk.
929.74 Notification of handlers.

PAYMENT FOR MILK

929.80 Time and method of payment for producer milk.
929.81 Butterfat differentials to producers.
929.82 Location differentials to producers.
929.83 Producer-settlement fund.
929.84 Payments to the producer-settlement fund.
929.85 Payments out of the producer-settlement fund.
929.86 Adjustment of accounts.
929.87 Expense of administration.
929.88 Termination of obligations.

DETERMINATION OF BASE

929.90 Daily base.
929.91 Base rules.
929.92 Announcement of established bases.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

929.100 Effective time.
929.101 Suspension or termination.
929.102 Continuing power and duty of the market administrator.
929.103 Liquidation after suspension.

MISCELLANEOUS PROVISIONS

929.110 Separability of provisions.
929.111 Agents.

AUTHORITY: §§ 929.0 to 929.111 issued under sec. 5, 49 Stat. 753 as amended; 7 U. S. C. 608c.

§ 929.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Eastern South Dakota marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act.

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held;

(4) All milk and milk products handled by handlers, as defined in the order as hereby amended, are in the current of interstate commerce or directly burden, obstruct, or affect interstate commerce in milk or its products; and

(5) It is hereby found that the necessary expense of the market administrator for the maintenance and functioning of such agency will require the payment by each handler, as his pro rata share of such expense, 5 cents per hundredweight or such amount not to exceed 5 cents per hundredweight as the Secretary may prescribe, with respect to butterfat and skim milk contained in (i) producer milk, (ii) other source milk at a pool plant which is allocated to Class I milk pursuant to § 929.46, and (iii) Class I milk distributed in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the Act.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the Eastern South Dakota marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as hereby amended, and the aforesaid order is hereby amended as follows:

DEFINITIONS

§ 929.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 929.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 929.3 *Department.* "Department" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 929.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 929.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 929.6 *Eastern South Dakota marketing area.* "Eastern South Dakota marketing area", hereinafter called the "marketing area", means all the territory within the boundaries of the counties of Beadle, Brown, Codington, Day and Spink, all in the State of South Dakota, including territory within such boundaries which is occupied by government (Municipal, State or Federal) reservations, installations, institutions, or other establishments.

§ 929.7 *Producer.* "Producer" means any person, except a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is received at a pool plant.

§ 929.8 *Distributing plant.* "Distributing plant" means a plant in which any Grade A fluid milk product is processed or packaged and disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 929.9 *Supply plant.* "Supply plant" means a plant from which Grade A milk, skim milk or cream is shipped during the month to a pool plant qualified pursuant to § 929.10.

§ 929.10 *Pool plant.* "Pool plant" means:

(a) A distributing plant from which a volume of Class I milk equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 10 percent of such receipts are so disposed of to such outlets in the marketing area: *Provided*, That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

(b) A supply plant from which the volume of fluid milk products shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided*, That if such shipments are not less than 50 percent of the receipts of Grade A milk directly from dairy farmers at such plant during the immediately preceding period of September through November, such plant shall be a pool plant for the months of March through June, unless written application is filed with the market administrator on or before the 15th day of any of the months of March, April, May or June to be designated a nonpool plant for such month and for each subsequent month through June of the same year: *And provided further*, That if a portion of a plant is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing or packaging of any fluid milk product for Grade A disposition, it shall not be considered as part of a pool plant pursuant to this section.

§ 929.11 *Nonpool plant.* "Nonpool plant" means any plant other than a pool plant which receives milk from dairy farmers or is a milk manufacturing, processing or bottling plant.

§ 929.12 *Handler.* "Handler" means: (a) Any person in his capacity as the operator of one or more distributing or supply plants, or (b) any cooperative association with respect to the milk from producers diverted by the association for the account of such association from a pool plant to a nonpool plant.

§ 929.13 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers or from sources other than pool plants.

§ 929.14 *Producer milk.* "Producer milk" means the skim milk and butterfat contained in milk received at a pool plant directly from producers: *Provided*, That milk diverted from a pool plant to a nonpool plant for the account of either the operator of the pool plant or a cooperative association shall be deemed to have been received by the diverting handler at the plant from which diverted: *And provided further*, That in any of the months of July through March milk diverted from the farm of a producer on more than the number of days that milk was delivered to a pool plant from such farm during the month shall not be deemed to have been received by the diverting handler at the plant from which diverted on such days.

§ 929.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (except frozen cream) and any mixture in fluid form of skim milk and cream (except ice cream, ice cream mixes, and sterilized products hermetically sealed containers).

§ 929.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, (2) producer milk, or (3) inventory at the beginning of the month; and

(b) Products other than fluid milk products from any source (including those produced at the plant), which are reprocessed or converted to another product in the plant during the month.

§ 929.17 *Base milk.* "Base milk" means milk received at a pool plant from a producer during any of the months of March through June that is not in excess of such producer's daily base computed pursuant to § 929.90 multiplied by the number of days in such month: *Provided*, That all milk received at a pool plant from a producer during any of the months of March through June 1959 shall be base milk.

§ 929.18 *Excess milk.* "Excess milk" means the amount of milk received at a pool plant from a producer during any of the months of March through June that is in excess of base milk received from such producer during such month.

§ 929.19 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of Grade A (92-score) bulk creamery butter at Chicago as reported during the month by the Department.

MARKET ADMINISTRATOR

§ 929.25 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 929.26 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 929.27 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 929.87 the cost of his bond and of the bonds of his employees, his own compensation, and all other expenses necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

such other person as the Secretary may designate;

(f) Publicly announce at his discretion, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate the name of any person who, after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 929.30 and 929.31, or payments pursuant to §§ 929.62, 929.80, 929.84, 929.86 and 929.87;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(i) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(j) Publicly announce on or before:

(1) The 5th day of each month, the minimum price for Class I milk pursuant to § 929.51 (a) and the Class I butterfat differential pursuant to § 929.52 (a), both for the current month; and the minimum price for Class II milk pursuant to § 929.51 (b) and the Class II butterfat differential pursuant to § 929.52 (b), both for the preceding month;

(2) The 10th day after the end of each of the months of July through February, the uniform price pursuant to § 929.72 and the producer butterfat differential pursuant to § 929.81; and

(3) The 10th day after the end of each of the months of March through June, the uniform price for base milk and excess milk pursuant to § 929.73 and the butterfat differential pursuant to § 929.81; and

(k) On or before the 10th day after the end of each month, report to each cooperative association, which so requests, the percentage of the milk caused to be delivered by the cooperative association or its members to the pool plant(s) of each handler during the month, which was utilized in each class. For the purpose of this report, the milk so delivered shall be allocated to each class for each handler in the same ratio as all producer milk received by such handler during the month.

REPORTS, RECORDS AND FACILITIES

§ 929.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month each handler, except a producer-handler, shall report to the market administrator for such month in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in or represented by receipts of producer milk, and the aggregate quantities of base and excess milk;

(b) The quantities of skim milk and butterfat contained in or represented by fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in or represented by other source milk;

(d) The quantities of skim milk and butterfat contained in or represented by producer milk diverted to nonpool plants pursuant to § 929.14;

(e) Inventories of fluid milk products on hand at the beginning and end of the month; and

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 929.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer:

(i) His name and address,

(ii) The total pounds of milk received from such producer including for the months of March through June, the total pounds of base and excess milk,

(iii) The number of days, if less than the entire month, for which milk was received from such producer,

(iv) The average butterfat content of such milk, and

(v) The net amount of such handler's payment, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of any fluid milk product at his pool plant, his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such milk;

(3) Prior to his diversion of producer milk to a nonpool plant, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted; and

(4) Such other information with respect to the utilization of butterfat and skim milk as the market administrator may prescribe.

§ 929.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk, skim milk, cream, and other milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations including the amount and nature of any deductions and the disbursement of money so deducted.

§ 929.33 *Retention of records.* All books and records required under this order to be made available to the market administrator shall be retained by the handler for a period of 3 years to begin at the end of the month to which such books and records pertain: *Provided,* That if, within such 3-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 929.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat which are required to be reported pursuant to § 929.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 929.41 through 929.46.

§ 929.41 *Classes of utilization.* Subject to the conditions set forth in § 929.44 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of a fluid milk product and (2) not accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than a fluid milk product; (2) contained in inventory of fluid milk products on hand at the end of the month; and (3) in shrinkage allocated to receipts of producer milk and other source milk (except milk diverted to a nonpool plant pursuant to § 929.14) but not in excess of 2 percent of such receipts of butterfat, 2 percent of such receipts of skim milk in the months of July through February and 5 percent of such receipts of skim milk in the months of March through June.

§ 929.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in producer milk and other source milk.

§ 929.43 *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

§ 929.44 *Transfers.* Skim milk or butterfat disposed of each month from a pool plant shall be classified:

(a) As Class I milk, if transferred in the form of a fluid milk product to another pool plant unless utilization as Class II milk is claimed for both plants on the reports submitted for the month to the market administrator pursuant to § 929.30: *Provided,* That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 929.46 and any additional amounts of such skim milk or butterfat shall be classified as Class I milk: *And provided further,* That if other source milk was received at either or both plants the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk at both plants;

(b) As Class I milk, if transferred to a producer-handler in the form of a fluid milk product;

(c) As Class I milk, if transferred or diverted in the form of a fluid milk product to a nonpool plant located more than 150 miles, by the shortest highway distance as determined by the market administrator, from the nearest of the Post Offices of Aberdeen, Huron, and Watertown, South Dakota; and

(d) As Class I milk, if transferred or diverted in the form of a fluid milk product in bulk to a nonpool plant located not more than 150 miles, by the shortest highway distance as determined by the market administrator, from the nearest of the Post Offices of Aberdeen, Huron, and Watertown, unless:

(1) The transferring or diverting handler claims classification in Class II milk in his report submitted to the market administrator pursuant to § 929.30 for the month within which such transactions occurred;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) The skim milk and butterfat in the fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from such nonpool plant do not exceed the receipts of skim milk and butterfat in milk received during the month from dairy farmers who the market administrator determines constitute the regular sources of supply for such plant: *Provided,* That any skim milk or butterfat in fluid milk products (except in ungraded cream disposed of for manufacturing uses) disposed of from the nonpool plant which is in excess of receipts from such dairy farmers shall be assigned to the fluid milk products so transferred or diverted and classified as Class I milk: *And provided further,* That if the total skim milk and butterfat which were transferred or diverted during the month to such nonpool plant from all plants subject to the classification and pricing provisions of this order and other orders issued pursuant to the act is more than the skim milk and butterfat available for assignment to Class I milk pursuant to the preceding proviso hereof, the skim milk and butterfat assigned to Class I milk at a pool plant shall be not less than that obtained by prorating the assignable Class I milk at the transferee plant over the receipts at such plant from all plants subject to the classification and pricing provisions of this and other orders issued pursuant to the act.

§ 929.45 *Computation of the skim milk and butterfat in each class.* For each month the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for each pool plant and shall compute the pounds of butterfat and skim milk in each class at each such plant: *Provided,* That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such product plus all of the water reasonably associated with such solids in the form of whole milk.

§ 929.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 929.45, the market administrator shall determine the classification of producer milk received at the pool plants of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 929.41 (b) (3);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which were not subject to the Class I pricing provisions of an order issued pursuant to the act;

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk other than that received in the form of fluid milk products;

(4) Subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less;

(5) Subtract from the remaining pounds of skim milk in each class in series beginning with Class II milk, the pounds of skim milk in other source milk which were received in the form of fluid milk products which are subject to the Class I pricing provisions of another order issued pursuant to the act;

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (4) of this paragraph;

(7) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from other pool plants according to the classification of such products as determined pursuant to § 929.44 (a);

(8) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month; and

(9) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount of excess so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of producer milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 929.50 *Basic formula price.* The higher of the prices computed pursuant to paragraph (a) or (b) of this section, rounded to the nearest cent, shall be the basic formula price.

(a) The average of the basic or field prices per hundredweight reported to have been paid or to be paid for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Location

Borden Company, Mt. Pleasant, Mich.
Borden Company, New London, Wis.
Borden Company, Orfordville, Wis.
Carnation Company, Oconomowoc, Wis.
Carnation Company, Richland, Center, Wis.
Carnation Company, Sparta, Mich.
Pet Milk Company, Belleville, Wis.
Pet Milk Company, Coopersville, Mich.
Pet Milk Company, New Glarus, Wis.
Pet Milk Company, Wayland, Mich.
White House Milk Company, Manitowoc, Wis.
White House Milk Company, West Bend, Wis.

(b) The price computed pursuant to § 929.51 (b).

§ 929.51 *Class prices.* Subject to the provisions of §§ 929.52 and 929.53 the class prices per hundredweight shall be as follows:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price for the preceding month, plus $1.40.

(b) *Class II milk price.* The Class II milk price shall be the price obtained by adding the amounts computed pursuant to subparagraphs (1) and (2) of this paragraph, and subtracting 80 cents therefrom.

(1) Multiply the Chicago butter price by 4.24.

(2) Multiply by 8.2 the weighted average of carlot prices per pound for spray

process nonfat dry milk solids for human consumption, f. o. b. manufacturing plants in the Chicago area, as published by the Department for the period from the 26th day of the preceding month through the 25th day of the current month.

§ 929.52 *Butterfat differentials to handlers.* For milk containing more or less than 3.5 percent butterfat, the class prices for the month calculated pursuant to § 929.51 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.120.

(b) *Class II prices.* Multiply the Chicago butter price for the current month by 0.110.

§ 929.53 *Location differentials to handlers.* For producer milk which is received at a pool plant located 100 miles or more from the Post Offices of Aberdeen, Huron, and Watertown, South Dakota, by the shortest hard surfaced highway distance as determined by the market administrator, and which is classified as Class I milk, the price specified in § 929.51 (a) shall be reduced by 15 cents for the first 110 miles or less and by 1.5 cents for each additional 10 miles or fraction thereof that such plant is from the nearest of the Post Offices of Aberdeen, Huron, and Watertown: *Provided*, That for the purpose of calculating the location differential adjustment applicable pursuant to this section, fluid milk products that are transferred in bulk form between pool plants shall be assigned to any remainder of Class II milk in the transferee plant after making the calculations prescribed in § 929.46 (a) (4) and the comparable steps in (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable to each plant, beginning with the plant having the largest differential.

§ 929.54 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 929.60 *Producer-handler.* Sections 929.40 through 929.46, 929.50 through 929.52, 929.70 through 929.73 and 929.80 through 929.87 shall not apply to a producer-handler.

§ 929.61 *Plants subject to other Federal orders.* The provisions of this part shall not apply to a distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant is qualified as a pool plant pursuant to § 929.10 and a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets and to pool plants in the Eastern South Dakota marketing area than in the marketing area regulated pursuant to such other order: *Provided*, That the operator of a distributing plant or a supply plant which is exempt from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 929.30) and allow verification of such reports by the market administrator.

§ 929.62 *Handlers operating nonpool plants.* Each handler in his capacity as the operator of a nonpool plant shall, on or before the 13th day after the end of each month, pay to the market administrator for deposit into the producer-settlement fund an amount obtained by multiplying the total hundredweight of butterfat and skim milk disposed of as Class I milk from such plant to retail or wholesale outlets (including sales by vendors and plant stores) in the marketing area during the month by the rate determined pursuant to § 929.63.

§ 929.63 *Rate of payment on unpriced milk.* The rate of payment per hundredweight to be made by handlers on unpriced other source milk allocated to Class I shall be any plus amount obtained by subtracting from the Class I price adjusted by the Class I butterfat and location differentials applicable at a pool plant of the same location as the nonpool plant supplying such other source milk;

(a) During the months of March through June, the Class II price adjusted by the Class II butterfat differential; and

(b) During the months of July through February, the uniform price pursuant to § 929.72 adjusted by the Class I butterfat differential.

DETERMINATION OF UNIFORM PRICE

§ 929.70 *Computation of value of milk for each handler.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 929.46 (a) (9) and the corresponding step of (b) by the applicable class prices;

(c) Add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the lesser of (1) the hundredweight of producer milk classified in Class II less shrinkage during the preceding month or (2) the hundredweight of milk subtracted from Class I pursuant to § 929.46 (a) (8) and the corresponding step of (b);

(d) Add an amount calculated by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 929.46 (a) (2) and (3) and the corresponding step of (b) by the rate of payment on unpriced milk determined pursuant to § 929.63 at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided*, That if the source of any Class I products at a pool plant are not clearly established or if such skim milk is in the form of nonfat dry milk solids, they shall be considered to have been received from a source at the location of the pool plant where they are classified.

§ 929.71 *Computation of aggregate value used to determine uniform price.* For each month the market administrator shall compute an aggregate value from which to determine the uniform price per hundredweight for producer milk of 3.5 percent butterfat content, f. o. b. plants located within 100 miles of the post offices of Aberdeen, Huron, and Watertown, South Dakota, as follows:

(a) Combine into one total the values computed pursuant to § 929.70 for all handlers who made the reports prescribed in § 929.30 for such month, except those in default of payments required pursuant to § 929.84 for the preceding month;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is less or more, respectively, than 3.5 percent, an amount computed by multiplying such differences by the butterfat differential to producers, and multiplying the result by the hundredweight of such producer milk;

(c) Add an amount equal to the sum of the location differential deductions to be made pursuant to § 929.82; and

(d) Add an amount equal to one-half of the unobligated cash balance in the producer-settlement fund.

§ 929.72 *Computation of uniform price.* For each of the months of July through February, the market administrator shall compute a uniform price for producer milk of 3.5 percent butterfat content f. o. b. pool plants located within 100 miles of the post offices of Aberdeen, Huron, and Watertown, South Dakota, as follows:

(a) Divide the aggregate value computed pursuant to § 929.71 by the total hundredweight of producer milk included in such computations; and

(b) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (a) of this section. The resulting figure shall be the uniform price for producer milk.

§ 929.73 *Computation of uniform price for base milk and excess milk.* For each of the months of March through June, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 3.5 percent butterfat content, f. o. b. pool plants located within 100 miles of the post offices of Aberdeen, Huron, and Watertown, South Dakota, as follows:

(a) From the reports submitted by handlers pursuant to § 929.30 determine the aggregate classification of producer milk included in the computation of value pursuant to § 929.71 and the total hundredweight of such milk that is base milk and that is excess milk;

(b) Determine the value of such excess milk on a 3.5 percent butterfat basis by multiplying the total hundredweight of such milk that is not greater than the total Class II milk pursuant to paragraph (a) of this section by the Class II milk price and by adding thereto the value obtained by multiplying the hundredweight of such excess milk that is greater than the quantity of such Class II milk by the Class I milk price;

(c) Divide the value of excess milk obtained in paragraph (b) of this section by the total hundredweight of such milk, and subtract not less than 4 nor more than 5 cents from the price thus computed. The resulting figure shall be the uniform price for excess milk;

(d) Subtract the value of excess milk obtained in paragraph (b) of this section from the aggregate value of all milk obtained in § 929.71; and

(e) Divide the amount obtained in paragraph (d) of this section by the total hundredweight of base milk obtained in paragraph (a) of this section, and subtract not less than 4 cents nor more than 5 cents from the price thus computed. The resulting figure shall be the uniform price for base milk.

§ 929.74 *Notification of handlers.* On or before the 10th day of each month the market administrator shall notify each handler with respect to his pool plants:

(a) The amount and value of milk in each class computed pursuant to §§ 929.46 and 929.70 and the totals of such amounts and values;

(b) The uniform price computed pursuant to § 929.72 or § 929.73, whichever is applicable;

(c) The amount due such handler from the producer-settlement fund;

(d) The total amounts to be paid by such handler pursuant to §§ 929.80 and 929.84; and

(e) The amount to be paid by such handler pursuant to § 929.87.

PAYMENT FOR MILK

§ 929.80 *Time and method of payment for producer milk.* (a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) On or before the last day of each month, for producer milk received during the first 15 days of the month, at not less than the Class II price for the preceding month; and

(2) On or before the 15th day after the end of each month, for milk received during such month, an amount computed at not less than the uniform prices per hundredweight pursuant to §§ 929.72 and 929.73 subject to the butterfat differential computed pursuant to § 929.81 plus or minus adjustments for errors made in previous payments to such producer; and less (i) payment made pursuant to paragraph (1) hereof, (ii) location differential deductions pursuant to § 929.82, and (iii) proper deductions authorized by such producer.

(b) Each handler shall make payment to a cooperative association for producer milk which it caused to be delivered to such handler, if such cooperative association is authorized to collect such payments for its members and exercises such authority, an amount equal to the sum of the individual payments otherwise payable for such producer milk, as follows:

(1) On or before the 26th day of each month for producer milk received during the first 15 days of the month; and

(2) On or before the 13th day after the end of each month for milk received during such month.

(c) In making the payments for producer milk pursuant to this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement in such form that it may be retained by the recipient, that shall show:

(1) The month and identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of milk received from each producer, including for the months of March through June, the pounds of base milk and excess milk;

(3) The minimum rate or rates at which payment to the producer is required pursuant to the order;

(4) The rate that is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 929.81 *Butterfat differentials to producers.* The uniform prices for producer milk shall be increased or decreased for each one-tenth of one percent that the butterfat content of such milk is above or below 3.5 perecnt, respectively, at the rate determined by multiplying the total pounds of butterfat in the producer milk allocated to Class I and Class II milk during the month pursuant to § 929.46 by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth of a cent.

§ 929.82 *Location differentials to producers.* The uniform price pursuant to § 929.72 and the uniform price for base milk pursuant to § 929.73 for producer milk received at a pool plant located 100 miles or more from the Post Offices of Aberdeen, Huron and Watertown, South Dakota, by the shortest hard-surfaced highway distance as determined by the market administrator, shall be reduced by 15 cents for the first 110 miles or less and by 1.5 cents for each additional 10 miles or fraction thereof that such plant is from the nearest of the Post Offices of Aberdeen, Huron and Watertown, South Dakota.

§ 929.83 *Producer-settlement fund.* The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made to such fund and out of which he shall make all payments from such fund pursuant to §§ 929.62, 929.84, 929.85, and 929.86: *Provided*, That the market administrator shall offset the payment due to a handler against payments due from such handler.

§ 929.84 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month each handler shall pay to the market administrator the amount by which the obligation pursuant to § 929.80 of such handler to producers for milk received at a pool plant during the month is less than the value of such producer milk pursuant to § 929.70: *Provided*, That to this amount shall be added one-half of 1 percent of any amount due the market administrator pursuant to this section for each month or any portion thereof that such payment is overdue.

§ 929.85 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month the market administrator shall pay to each handler the amount by which the obligation pursuant to § 929.80, of such handler for producer milk received during the month exceeds the value of such producer milk pursuant to § 929.70: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler who has not received the balance of such payments from the market administrator shall not be considered in violation of § 929.80 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 929.86 *Adjustment of accounts.* Whenever verification by the market administrator of reports of payments of any handler discloses errors made in payments to or from the producer-settlement fund, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days of such billing make payments to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or to a cooperative association discloses payment of less than is required by § 929.80, the handler shall make up such payment to the producer or cooperative association not later than the time of making payment next following such disclosure.

§ 929.87 *Expense of administration.* As his pro rata share of the expense of the administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of each month 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to butterfat and skim milk contained in (a) producer milk, (b) other source milk at

a pool plant which is allocated to Class I milk pursuant to § 929.46, and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

§ 929.88 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money.

(a) The obligation of any handler to pay money required to be paid under the terms of this part shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this part to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler within the applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

DETERMINATION OF BASE

§ 929.90 *Daily base.* The daily base for each producer shall be determined by the market administrator and shall be the amount obtained by dividing the total pounds of producer milk received from such producer at all pool plants during the months of September through November immediately preceding by the number of days on which such milk is received from such producer: *Provided,* That for the purpose of calculating the daily base of a producer pursuant to this section, the number of days included in his producer milk deliveries shall be the number of days of production of producer milk and the deliveries of any dairy farmer during the preceding September through November to a nonpool plant that is a pool plant in any of the months of March through June shall be considered producer milk received at a pool plant: *Provided further,* That if no milk is received from a producer at a pool plant during the months of September through November or if milk is received on less than 60 days during such months, the daily base of such producer shall be calculated for each of the months of March through June by dividing the pounds of producer milk received from such producer during the month by the number of days in such month and multiplying the quotient by 50 percent for the months of March and April and by 40 percent for May and June: *And provided further,* That any producer for whom a daily base has been established pursuant to this section based on deliveries of 60 or more days during the preceding months of September through November may, in lieu thereof, by notifying the market administrator prior to March 31, be accorded a daily base calculated pursuant to the immediately preceding proviso of this section.

§ 929.91 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the months of September through November.

(b) An entire base shall be transferred from a person holding such base to any other person effective as of the first day of any month following receipt by the market administrator of an application for such transfer. Such application shall be on a form approved by the market administrator and shall be signed by the baseholder and by the person to whom such base is to be transferred: *Provided,* That if a base is held jointly, the entire base shall be transferable only upon receipt of such application signed by all joint holders.

§ 929.92 *Announcement of established bases.* On or before February 15 of each year the market administrator shall notify each producer and the handler receiving milk from such producer of the daily base established by such producer.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 929.100 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 929.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 929.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided,* That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignment or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 929.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 929.110 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 929.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

[F. R. Doc. 58-7254; Filed, Sept. 8, 1958; 8:48 a. m.]

[7 CFR Part 994]

[Docket No. AO-300]

HANDLING OF MILK IN COLORADO SPRINGS-PUEBLO MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and order regulating the handling of milk in the Colorado Springs-Pueblo marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 20th day after publication of this decision in the FEDERAL REGISTER. The exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed marketing agreement and order, as hereinafter set forth, were formulated, was conducted at Colorado Springs, Colorado, on December 16 through 19, 1957, pursuant to notice thereof which was issued November 26, 1957 (22 F. R. 9616).

The material issues of record relate to:

1. Whether the handling of milk produced for sale in the proposed marketing area is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk or its products;

2. Whether marketing conditions show the need for the issuance of a milk marketing agreement or order which will tend to effectuate the policy of the Act; and

3. If an order is issued what its provisions should be with respect to:

(a) The scope of regulation;

(b) The classification and allocation of milk;

(c) The determination and level of class prices;

(d) Distribution of proceeds to producers; and

(e) Administrative provisions.

1. *Character of the commerce.* All milk to be regulated by the proposed marketing agreement and order is in the current of interstate commerce, or directly burdens, obstructs, or affects interstate commerce in milk and its products.

One of the handlers who would be regulated under the Colorado Springs-Pueblo order has regular distribution of fluid milk on routes in six Kansas Counties. Also, there are regular route sales of fluid milk in Colfax County, New Mexico, from one plant at Colorado Springs, one at Pueblo, and one at Rye.

The supply of milk for the market is also directly interstate in character. One of the Colorado Springs handlers regularly obtains milk from approximately 50 shippers in western Kansas. A Pueblo handler purchases supplemental milk in bulk tank lots from the Dodge City and Wichita areas. There are occasional shipments of supplemental milk from Minnesota.

Producers for the Colorado Springs-Pueblo market supply milk primarily for fluid use. However, there is necessarily some reserve for variations in sales and production. This reserve milk is commonly manufactured into such storable dairy products as butter, nonfat dry milk, and cheese which compete directly with similar products which are marketed nationally.

There are numerous producers of manufacturing grade milk throughout the Colorado Springs-Pueblo milkshed in Southeastern Colorado and Western Kansas. These dairymen constitute a potential source of Grade A milk. During periods of strong demand for additional fluid milk some of them make the necessary investment to qualify as Grade A producers. The extent to which this occurs is, of course, influenced by the margin of fluid milk returns over those obtained for manufacturing grade milk and this fact is recognized in the Class I price formula which consists of a differential over manufacturing values.

2. *Need for an order.* Marketing conditions in the Colorado Springs-Pueblo area are such that the issuance of a marketing order will tend to effectuate the declared policy of the Act.

Stability of the marketing conditions, together with a reasonable certainty that an adequate supply of pure and wholesome milk can be assured for the Colorado Springs-Pueblo marketing area only when all milk handlers in the area pay substantially equal minimum prices for milk according to use, and only when all farmers supplying milk to handlers in the market receive the same price per hundredweight for milk of equal quality.

The majority of the farmers shipping to the seven milk distributing plants located in Colorado Springs are members of the Colorado Springs Milk Producers Association, a bargaining cooperative. One of the plants is operated by a producer-handler. At five of these plants member milk is sold on a base and excess plan. Each producer has a base computed from his deliveries during the fall months. The months used and the proportion of deliveries which will be considered as base milk are subject to negotiation early in the following calendar year, but the computation of bases is uniform as between producer members. The association has no means of ascertaining whether nonmembers' bases are computed uniformly, and one handler does not use the base and excess plan at all. A contract between the association and the handlers which expired April 1, 1957, priced the Colorado Springs base milk at the Denver base price. From April 1 until the time of the hearing, no contract was in effect.

Even if all handlers purchased milk on a base and excess plan, the cost of the raw product used for Class I purposes would vary in accordance with the percentage of the total receipts utilized for Class I purposes at each plant. The cooperative has not been able to verify the class use of milk. Obviously, the fact that one handler does not use the base and surplus plan introduces another source of variation in the cost of raw milk. One of the Colorado Springs handlers pays substantially lower prices for milk delivered to his plant by a large group of new shippers located in Eastern Kansas. This portion of the supply provides him with a substantial advantage in the cost of milk. Still another source of possible disparity between handlers is the absence of any consistent system for the allocation of supplemental bulk milk. At the time of the hearing the association had been unable to obtain any agreement on the allocation of such receipts.

The Pueblo Dairymen's Association, the principal bargaining association of producers in the Pueblo portion of the market, operates a receiving station. The milk received from producers at this station is delivered by bulk tank truck to a distributing plant in Denver and to one in Colorado Springs. The association also has some members who deliver their milk directly from farms to the three principal bottling plants in Pueblo and to a plant at Walsenburg. All of the milk of association members is pooled with the nonmember milk at the three Pueblo bottling plants. The pooling operation is based on reports submitted by each handler and by the association to a certified public accountant. The milk shipped to Denver is classified arbitrarily at 90 percent Class I and 10 percent Class III. The association has complete information on the weights, tests, and quantities of base milk delivered by producers to the receiving station but has no check on the weights and tests of milk delivered to other handlers' plants. Also, it has no check on the utilization of milk reported by the bottling plants. The association has not been able to bargain with handlers for a complete system of classified pricing and pooling of milk in the market. It follows that the same conditions of potential inequity between handlers in the cost of milk (depending upon the proportion used in Class I, variation in base-rating plans, and allocation of supplemental milk) are as much a factor in Pueblo as in the Colorado Springs portion of the market.

A marketing agreement and order program is needed to establish and maintain orderly marketing conditions throughout the marketing area. The auditing of the utilization of all milk

received by handlers, the checking of butterfat tests and weights of all producer milk, and the publication of complete supply and use data for the market will aid in this objective by assuring producers that they will receive a proper accounting for their milk and by providing full information on market developments.

3. *Order provisions*—(a) *Scope of regulation.* Federal milk orders achieve marketing and pricing stability by using techniques authorized by the Agricultural Marketing Agreement Act of 1937, as amended. Important among these techniques are the requirements that (1) regulated distributors (handlers) pay specified minimum prices to producers in accordance with a classified use plan established in an order, and (2) these payments are distributed to each producer on a uniform basis through either an individual-handler pool, or a marketwide pool. Under the circumstances it is important to establish clearly which plants and which milk will be subject to all or part of the pricing provisions of the orders and, in turn, which dairy farmers will participate in the distribution of returns through the respective pools. To identify such persons and to facilitate reference to them throughout this decision and in the proposed orders, such terms as marketing area, producer, types of milk plants, handler, producer milk, and other source milk are defined and are used herein.

Marketing area. The Colorado Springs-Pueblo marketing area should include El Paso, Pueblo, Huerfano, and Teller counties. This territory comprises a contiguous area within which there is such a high degree of competition in the sale and procurement of milk as to constitute a distinct marketing area to which a single system of pricing is applicable.

This market is served primarily by a group of 13 distributing plants. Seven of these are located in Colorado Springs, four in Pueblo, one at Rye and one at Walsenburg. These plants receive approximately 7.5 million pounds of milk per month from about 390 producers. Most of these plants are supplied in whole or in part by the two cooperative associations of producers who proposed that a Federal order be established for this market. So far as is disclosed by the record, this marketing area involves no other handers with the exception of three plants located in Denver. Relationships between the Denver and Colorado Springs-Pueblo markets will be covered in more detail below.

The sanitary requirements relative to the production, processing, and sale of bulk milk are substantially comparable throughout the market. The State of Colorado Grade A standards constitute the minimum standards throughout the area. The extensive overlapping of distribution from the 13 plants located in the area and the three Denver plants demonstrates in a practical way the comparability of sanitary standards.

There is extensive competition among the handlers throughout the market. Two of the handlers operate milk distributing plants in both Colorado Springs and Pueblo and cover the entire area from one or the other plant. Another handler distributes milk throughout the market from a plant located in Colorado Springs. The handler whose plant is located at Rye also distributes milk in Pueblo, Beulah, and Walsenburg, and the handler with a plant at Walsenburg also distributes in Pueblo. These handlers obtain the major portion of their milk either directly from producers or through the receiving station operated by the Pueblo Dairymen's Association at Pueblo. Most of the producers are located within comparatively short distances from the plants, in Southeastern Colorado, although one handler has a group of approximately 50 bulk tank shippers in the vicinity of Goodland, Kansas.

Three of these handlers, operating five distributing plants, distribute some milk in other counties in southeastern Colorado and Western Kansas. However, a tabulation of their sales discloses that 87 percent of their total sales of Class I milk is within the defined marketing area.

Fremont County should not be included in the marketing area. The principal population centers are Canon City and Florence. A high proportion of fluid milk sales in the county are made by four local handlers who do not distribute milk within the defined area. There was no evidence that the lack of regulation would be a serious problem to producers or a significant competitive factor in the distribution of milk by handlers who would be subject to regulation in the Colorado Springs-Pueblo area.

Similar conditions exist in Crowley and Otero, the other two counties which producers proposed should be included in the marketing area. The three plants located at Rocky Ford and one at La Junta do the major proportion of business in these countries and do not make Class I sales in the defined marketing area.

Substantially the same conditions also apply in the six handler-proposed counties of Chaffee, Custer, Saguache, Rio Grande, Alamosa, and Las Animas. Salida is the principal population center in Chaffee County and is served mainly by two local plants. A local plant at Westcliffe in Custer County serves most of that county. Saguache, Rio Grande, and Alamosa Counties are in the San Luis Valley. The major proportion of Class I sales in the Valley are made by five local handlers. In Las Animas County, three local plants located at Trinidad account for the bulk of the Class I business. In each of these six counties the local handlers account for the great majority of the Class I sales, are not involved in the defined Colorado Springs-Pueblo market and have not created any competitive problems for the Colorado Springs-Pueblo handlers based on milk procurement advantages.

There was no proposal to include the large Denver market. The Denver Milk Producers, Inc., the cooperative association of producers serving that market sells its milk on a classified price plan and pools the returns to producers on a marketwide basis. Since regulation of the Denver market was not proposed, the Colorado Springs-Pueblo marketing area should be so designated as to minimize involvement of Denver handlers. One Denver handler distributes fluid milk throughout much of the Colorado Springs-Pueblo area and two others have sales in Colorado Springs. These handlers must, therefore, be involved in any regulation affecting the Colorado Springs-Pueblo market. On the other hand, extension of the Colorado Springs-Pueblo marketing area to include the tier of counties north of Colorado Springs as proposed by handlers would involve other handlers than the three serving Colorado Springs. Of these additional handlers one distributes milk in Park County, another in Douglas, a third in Elbert, Lincoln, Kit Carson, and Cheyenne Counties, and a fourth Denver handler has distribution in Lincoln and Kit Carson Counties. In each of these proposed counties there is a comparatively small population, there are no local milk distributors, and a minor proportion of sales are made by Colorado Springs-Pueblo handlers. Since Class I prices in the Denver market have been above those in effect in Colorado Springs or those recommended herein, the Denver handlers have not constituted unfair price competition.

The remaining four counties in Southeastern Colorado, namely Baca, Bent, Prowers, and Kiowa, and the six Kansas Counties proposed by handlers for inclusion in the marketing area are characterized by comparatively small population, a minor proportion of sales by only one of the handlers who would be subject to the Colorado Springs–Pueblo order, and a major proportion of sales by local handlers or by other handlers whose primary markets are well outside the proposed area. The local plants are located at Lamar and Holly in Prowers County, at Las Animas in Bent County, and at Goodland in Sherman County, Kansas. The outside handlers include one from Denver, one from North Central Kansas, and two who are already subject to the Southwest Kansas milk marketing order. The extension of regulation to those counties is not essential to effective regulation in the Colorado Springs-Pueblo market and they should not be included.

In summary, of the 30 counties proposed in the notice of hearing for inclusion in the marketing area, only El Paso, Pueblo, Huerfano, and Teller Counties should comprise the marketing area.

Definitions of plants and milk to be priced. The primary factor in determining what milk is to be completely subject to the pricing and pooling provisions of the order is the degree to which plants are associated with the supply of milk to the market for fluid uses. Most of the milk plants which are primarily associated with the Colorado Springs-Pueblo market receive milk from producers, perform the processing and bottling operation, and distribute the bottled milk on wholesale and retail routes in the marketing area. These are commonly referred to as distributing plants. A second type of plant operation involves receiving milk from producers and assembling it into bulk tank lots either for shipment to distributing plants or, in the event the milk is not needed for

bottling, to manufacturing plants. Such plants are commonly referred to as supply plants.

The definition of "pool plant" should include all those distributing plants and supply plants which are primarily identified with the Colorado Springs-Pueblo market. These are the plants at which the minimum prices paid to producers for milk would be fully applicable and which would participate in the marketwide equalization pool.

A distributing plant should be qualified as a pool plant if 20 percent or more of the total Class I sales of such plants are made within the defined marketing area. All of the distributing plants which are located within the marketing area and to which members of the proponent cooperative association regularly deliver milk would qualify as pool plants under the 20 percent standard. However, on the basis of the operations being carried out at the time of the hearing, this would eliminate the Denver handlers whose principal Class I outlets are in that market but who also distribute significant quantities of fluid milk in the Colorado Springs-Pueblo market. It would not be appropriate to fully regulate these plants, and others who operate in similar fashion, and include them in the Colorado Springs-Pueblo pool because their competitors in their primary sales territory would not be regulated. However, such plants should be regulated to the extent of eliminating any competitive advantage based on the cost of milk.

The order should also provide pooling standards for the supply plants from which distributing plants draw supplemental supplies of milk. Plants shipping supplemental supplies of milk to a market generally fall into two broad categories. One category includes plants serving as receiving stations where milk from producers is assembled into bulk tank lots for more convenient shipments to city plants. They make regular shipments of large quantities and are clearly so closely associated with the market as to call for pooling and full regulation.

The second category of supply plants furnish only incidental shipments of milk to the market or regular shipments of limited quantities during only the shortest production period. They are not primarily associated with the market and need not be fully regulated. Such plants supply the market for a short duration only and may be located at widely scattered points. Such plants should be able to supply milk to the market during such periods of need without becoming fully subject to the order.

These different functions can best be recognized by defining as a "supply plant" any plant that ships during any month to distributing pool plants at least 50 percent of its receipts of milk from dairy farmers. Because of the seasonal variation in production the distributing pool plants require the largest quantities of supplemental milk in the fall and the least in the spring. Therefore, if a supply plant meets the shipping percentage standards each of the months of September through February, such plants should be designated as a pool plant until the end of the following August unless a written request for nonpool status is submitted to the market administrator. Receipts from plants not qualified under these supply plant standards should be considered as other source milk.

The Pueblo Dairymen's Cooperative operates a receiving station at which milk is received from producers in ten-gallon cans, weighed, tested, cooled and assembled into bulk tank lots for shipment to bottling plants. When not needed for fluid purposes the milk is transferred to manufacturing outlets. The plant, therefore, functions as a supply plant.

Certain types of operations which would otherwise qualify as pool plants should be exempt from the pooling provisions of the order. Such exemption should cover plants which would be subject to the pricing and pooling provisions of another Federal order if a larger volume of milk is involved with the other order market than is associated with the Colorado Springs-Pueblo market. If the plant operates as a distributing plant under both orders, the volume of Class I sales in each market during the month would determine the applicable order. However, it is conceivable that a plant might operate primarily as a supply plant under another order, yet have some route sales in this market. In such event, it should remain subject to the order under which it was qualified as a supply plant.

Exemption should also apply to plants distributing an average of less than 1,000 pounds of Class I milk per day on routes in the marketing area. The sale of such small quantities of milk has little or no effect on the marketing of milk in the area. Application of order pricing and payment provisions to these distributors would entail effort and expense without contributing significantly to orderly marketing and should, therefore, be exempt, except for such reporting and audit provisions as will serve to establish the volume of sales in the area.

"Handler" is an all-inclusive definition designed to cover all persons operating plants or otherwise having responsibility with respect to the marketing of milk in the area. Subject to specified exemptions, the handler is the person who receives milk from producers and who is responsible for reporting receipts and utilization of milk and payment therefor. It includes (a) persons operating pool plants, (b) persons operating nonpool plants from which Class I milk is distributed on routes in the marketing area, and (c) a cooperative association with respect to member milk diverted to a nonpool plant. If an association is defined as a handler on diverted milk, even though it has no plant, the producers whose milk is diverted will continue to receive the uniform price under the order, they will remain an integral part of the market and their milk will be available for fluid use whenever it is needed.

The term "producer" should be defined in order to identify those dairy farmers who are the producers of the regular supply of fluid milk and cream for the market, and to whom the minimum prices specified in the order should be paid. Only those dairy farmers who produce milk in compliance with the sanitation requirements for milk for fluid use are qualified as producers. The order does not apply to dairymen producing manufacturing grade milk. Since it is the pool plants which are fully subject to the pricing, pooling, and payment provisions of the order, it is the dairymen delivering fluid grade milk to such plants who qualify as producers. The producer definition should also cover those dairymen whose milk usually is received at a pool plant but which is temporarily diverted to a nonpool plant by the operator of a pool plant or by a cooperative association. Milk so diverted is deemed to have been received at the plant from which it was diverted.

The term "producer-handler" should apply to a person who produces milk on his own farm and operates a plant from which a route is operated wholly or partly in the marketing area but who receives no milk from sources other than his own farm or from pool plants.

A producer-handler is exempt from the pricing, pooling, and payment provisions of the order. Producers proposed that the producer-handler definition be limited to operations from which less than 1,000 pounds per day of Class I milk is distributed in the marketing area. It appears, however, that the principal objective sought to be achieved by the volume limitation is provided for by the requirement that a producer-handler utilize only his own production or from other pool plants. Milk transferred from pool plants to a producer-handler is classified as Class I. It follows that any supplemental milk purchased by producer-handlers will have been pooled and will not represent a cheap source of supply to the producer-handler.

The definition of "producer milk" applies to milk received directly at a pool plant from the producers' farms. Any subsequent transfers of milk between pool plants are accounted for as other source milk rather than as producer milk. Milk from producers which is diverted to a nonpool plant should retain its status as producer milk.

"Other source milk" is specifically defined in order to distinguish it from producer milk. It includes milk received at a pool plant from nonpool sources and products, other than fluid milk products, from any source which are reprocessed or converted to another product in the plant during the month.

A definition of "fluid milk product" is provided to facilitate reference in the subsequent sections of the order. The fluid milk products are those which constitute Class I use in the market and include fluid milk, skim milk, buttermilk, flavored milk, fluid cream and cream mixtures, and concentrated milk which is not sterilized or packed in hermetically sealed cans.

The term "route" is used to cover a number of types of milk distributing operations. It includes any delivery to retail or wholesale outlets of any fluid milk product. Deliveries to other milk processing plants, either pool plants or nonpool plants, do not qualify, but sales

by a vendor or from a plant store are included.

(b) *The classification and allocation of milk.* Milk should be classified in two classes, reflecting the principal differences in the quality and the value of milk required for different uses. In general, Class I should include milk and cream sold for consumption in fluid form and Class II should include milk used for manufacturing purposes.

Because skim milk and butterfat are not used in most products in the same proportions as received from producers, these components should be classified separately. Class prices, however, will apply per hundredweight of milk, and will be adjusted for the butterfat content of the milk used in each class through butterfat differentials.

The products which should be included in Class I are those required by the health authorities having jurisdiction in the marketing area to be obtained from milk or milk products from approved inspected sources. The extra cost of getting quality milk produced and delivered to the market in the condition and quantities required makes it necessary to provide a price for milk used as Class I substantially higher than uninspected milk used for manufacturing purposes. It is appropriate that all of the products required to be from approved inspected sources be included in a single class so that all milk required to make such products may contribute uniformly to the cost of supplying the market needs for inspected milk.

Class I should include all skim milk and butterfat disposed of for consumption as a fluid milk product. It will be recalled that fluid milk products include milk, skim milk, buttermilk, flavored milk and drinks, cream and cream mixtures, and concentrated milk. These products must be produced and handled in compliance with sanitation standards that are substantially uniform throughout the proposed marketing area. The same sanitation standards apply to fluid skim milk, flavored milk drinks and buttermilk, as to whole milk. Skim milk and butterfat used to produce sweet and sour cream must meet the same health requirements as milk for fluid consumption, hence, it is appropriate that cream be classified and priced in the same class as fluid milk. Concentrated milk is not now distributed in the marketing area. Proper classification of this product at this time will prevent any problems concerning its classification if at some future date a handler decides to start distributing it. Concentrated milk must be made from milk of similar quality to milk used in other products for fluid consumption which would be classified in Class I. Products commonly known as evaporated milk or condensed milk and which are either packed in hermetically sealed cans or are used in the manufacture of other milk products should not be considered as concentrated milk and should not be classified in Class I unless they are used in the manufacture of milk products which are in Class I.

It is an increasingly common practice to raise the nonfat solids content of skim milk, buttermilk, and flavored milk drinks. Apparently this is most commonly accomplished in the area through the addition of condensed skim milk or nonfat dry milk made from producer milk or milk from other health-approved sources. The skim milk equivalent of these concentrated fluid items, whether obtained by adding solids or by partial condensation, should be in Class I.

Reserve milk not needed seasonally, or at other times such as weekends, for Class I use must be disposed of for use in manufactured products. These products are not required to be made from inspected milk, must be sold in competition with products made from uninspected sources produced over a large area and generally are less perishable than fluid milk products. Milk so used should be classified as Class II and priced in accordance with its value in such outlets.

Producers proposed that milk used to produce cottage cheese and ice cream be classified separately and priced at a premium over the price of milk for other manufacturing uses. Since this is primarily a pricing problem, it is dealt with subsequently in detail under the heading "Class II price".

Class II should be defined to include skim milk and butterfat used to produce any product other than a fluid milk product, including but not limited to such products as ice cream, ice cream mix, frozen cream, aerated cream, dried milk products, whole and nonfat, condensed or evaporated products, butter, cottage and hard cheese. Class II should also include such unrenumerative "uses" as plant loss of other source milk, skim milk dumped and milk accounted for as disposed of for livestock feed, and inventories of fluid milk products on hand at the end of any month. Cream which is frozen and placed in storage should be Class II since such cream is intended primarily for use in ice cream or ice cream mix. Any frozen cream or other Class II product which may be used later in a fluid milk product would be considered as other source milk at the time of such use and assigned to the lowest priced utilization in the plant.

Handlers have inventories of milk and milk products at the beginning and end of each month which must enter into the accounting for current receipts and utilization. It is appropriate that the ending inventory of fluid milk products be classified as Class II. This manner of classifying inventory, with correlated steps in the allocation procedure, provides a means of charging each handler for his Class I sales each month at the current Class I price. Fluid milk products whether in bulk or packaged form should be inventoried and classified as Class II. Manufactured milk products are not included in inventory accounting because the skim milk and butterfat used for such products are accounted for in the month when such products are manufactured.

Uniformity in the application of the pricing provisions and simplicity of accounting are achieved if, so far as possible, Class I utilization each month is assigned to current receipts of producer milk. This can be accomplished by classification of closing inventory as Class II, and allocation of opening inventory to Class I only when current receipts of producer milk (except allowable Class II shrinkage) are less than Class I sales. In such case the handler should pay the difference between the Class II price for such milk in the preceding month and the current Class I price. The volume on which this charge is made should not exceed the volume (in excess of allowable Class II shrinkage) for which producers were paid at the Class II price in the preceding month.

Inventories of products designated as Class I on hand at a pool plant at the beginning of any month during which such a plant becomes qualified for the first time should likewise be subtracted from the Class II utilization of such plant. This will preserve the priority of assignment of current producer receipts to current Class I use for each month.

Unaccounted for milk in excess of a reasonable allowance for plant loss should be Class I so as to require full accounting by handlers for their receipts. Two percent is considered a reasonable maximum allowance for this purpose. No limit need be put on shrinkage of other source milk since such milk is deducted from the lower use class under the allocation procedures. Since it is not feasible to segregate shrinkage of producer milk from that of other source milk in the same plant, total shrinkage is prorated on the basis of the volume of receipts. Allowance for loss on producer milk diverted to another pool plant should be at the pool plant where actually received, and no shrinkage should be allowed on milk diverted to a nonpool plant. It should be recognized that milk incurs relatively little shrinkage in its receipt and much more in processing, bottling, and distribution operations. Up to one-half of one percent shrinkage should be allowed on that milk which is physically received at a receiving plant and transferred to another plant for bottling and distribution. The bottling plant should be allowed up to one and one-half percent shrinkage on that milk received in bulk from a receiving station or other handler.

Each handler must be held responsible for full accounting of all his receipts of skim milk or butterfat in any form. The handler who first receives the milk from producers should be responsible for establishing the classification of and the payment for producer milk. (In the case of diversions to nonpool plants or to other pool plants, the diverting handler is held responsible.) Except for such limited quantities of shrinkage as may be classified in Class II, all skim milk and butterfat which is received and for which the handler cannot establish utilization should be classified as Class I milk. This provision is necessary to remove any advantage to handlers who fail to keep complete and accurate records and to assure that producers receive full value for their milk on the basis of its use.

Provision should be made for classification of fluid milk products transferred in bulk between pool plants and from pool plants to nonpool plants. Transfers between pool plants should be permitted

in any class agreed upon by the handlers operating such plants so long as the prior claim of producer milk for Class I sales is maintained. Transfers between pool plants at an agreed upon class will not affect the total value of producer milk under a marketwide pool so long as this prior claim is maintained.

Milk, skim milk, or cream transferred in bulk to a nonpool milk plant located more than 200 miles from the El Paso County Courthouse, in Colorado Springs, should be classified as Class I. There are adequate facilities for the manufacture of excess milk into Class II products within a radius of 200 miles. The automatic classification as Class I of milk or skim milk moved more than 200 miles will reduce the administrative expense which would otherwise be involved in having the market administrator verify actual utilization in nonpool milk plants located at extreme distances from the market.

The more common form of transfer to a nonpool milk plant by area handlers is the movement of excess milk to nearby manufacturing plants. There may, of course, be sales to such plants for fluid purposes. It is provided that transfers of milk, skim milk, or cream from a pool milk plant to a nonpool milk plant located less than 200 miles from the El Paso County Courthouse be Class I unless Class II use is affirmatively established. Evidence of Class II use consists of a certification by the pool plant operator that the transfer was intended for Class II use, and verification by the market administrator of the records made available by the nonpool plant operator showing that at least an equivalent quantity of milk was utilized for manufacturing purposes.

When handlers receive butterfat and skim milk from sources other than from producers, it is necessary to provide a method for allocating such receipts to the classes of utilization in such a manner as to determine the classification of producer milk. Inasmuch as producer milk is the regular available supply for fluid consumption in the marketing area, producer milk should be assigned the Class I utilization in preference to other source milk. This is necessary to insure the effectiveness of the classified pricing program of the proposed order. The system of assigning utilization of milk to receipts from different sources which will carry out this objective is set forth in detail in the attached order.

In general this procedure requires that skim milk and butterfat, respectively, remaining in each class be assigned to producer milk by making the following deductions from the gross utilization of each handler starting with Class II milk, except as otherwise noted:

(1) Class II shrinkage of producer milk;

(2) Other source milk from unregulated plants;

(3) Other source milk from plants regulated under another Federal order;

(4) Receipts from other handlers (according to classification);

(5) Beginning inventory;

(6) Add shrinkage deducted in (1); and

(7) Overage.

Since uniform prices paid producers by each handler are to be calculated monthly, the assignment of utilization described above should be carried out with respect to all milk received during each month.

(c) *Class prices.* The value of milk when used for manufacturing purposes is an important pricing factor for both Class I and Class II milk. The Class I price should be sufficiently above manufacturing values to compensate producers for the extra costs of meeting sanitation requirements, transporting the milk to the central market, and providing a reasonably steady supply throughout the year. The Class II price is even more directly related to manufacturing values since manufactured dairy products constitute the principal Class II uses.

The discussion of class prices will, therefore, start with the basic formula price, which is a general measure of manufacturing values. It will then deal with Class I and Class II prices, the adjustments for variations in location and butterfat content, and the provision for equivalent prices in the event some of the specified quotations are not available. These topics are followed by a section on payments on unpriced milk. This is the milk distributed in the market from plants which are not fully subject to the pricing, pooling, and payment provisions of the order.

Basic formula price. The basic formula price to be used in determining the Class I price should be the higher of the prices paid at the same list of mid-western condenseries located in Wisconsin and Michigan which is commonly used for this purpose in other Federal orders, or a formula based on market prices of butter and nonfat dry milk. These two basic formulas measure the value of milk used in three of the major manufactured dairy products, all of which are marketed nationally.

Use of the higher of the formula prices will base the Class I price on the most favorable manufacturing use for milk in each month. In eastern Colorado, all the major dairy products are manufactured, and fluid markets must compete with the highest value of the several products.

The condensery price is the same as that proposed by producers and commonly used in Federal orders. However, a somewhat higher butter-powder formula should be used than that proposed by producers. The formula price per hundredweight of 3.5 percent milk should be comprised of a butterfat value equal to the price of 92-score butter at Chicago less a "make" allowance of 3 cents, multiplied by a yield factor of 4.2 and a skim milk value equal to the average prices of spray and roller process nonfat dry milk at Chicago area manufacturing plants less a "make" allowance of 5.5 cents multiplied by a yield factor of 8.2. The principal reason for using a higher butter-powder formula is that higher formulas are used in the Federal markets closest to the Western Colorado area. At the support prices prevailing during the April 1958–March 1959 marketing season, the Southwest Kansas and Wichita formulas would produce a price of $2.94 for 3.5 percent milk and the basic formula proposed by producers would be only $2.81. Since inter-market relationships constitute a major factor in the use of basic formulas, the formulas already used in the Wichita and Southwest Kansas orders should be adopted.

(e) *Class I differential.* For the first 18 months of the operation of an order for the Colorado Springs-Pueblo area, the minimum Class I price per hundredweight of milk of 3.5 percent butterfat content should be determined by adding a stated differential of $2.20 to the basic formula price.

Some time after the order has been in operation a full year, a hearing can be called to consider more permanent Class I price provisions. At such time considerable marketwide data on all aspects of the marketing of milk in the area will have become available. These data can be expected to provide the basis for a reappraisal of price levels, including an opportunity to consider means of providing for automatic price adjustments which will depend upon changes in supply and demand.

The differential of $2.20 is designed to bring forth an adequate supply of pure and wholesome milk for the Class I needs of the market, including the necessary daily and seasonal reserve.

One basis for estimating the level of prices which will achieve this purpose is to review the available historical data on prices, sales, and receipts.

The Colorado Springs Milk Producers Association presented monthly data on the quantities of butterfat classified as base and as surplus, the prices paid for each, and the total payments to member producers from January 1954 through the first half of November 1957. The proportion of base milk corresponded rather closely with the proportion used in the proposed Class I during the year July 1956 through June 1957. To the extent this was true during the entire 4-year period, the base prices approximate the Class I prices which prevailed. In 1954 the prices for base milk averaged $2.08 over the basic formula prices specified above, in 1955 they were $1.98 over, in 1956, they were $1.83 over, and for the 10½ months of 1957 they were $1.91 over.

The data submitted by the Pueblo Dairy Exchange, Inc., with respect to the Pueblo pool reflect a substantially smaller percentage of milk settled for at the "Base Class I" price than at the base price in Colorado Springs. No data on actual utilization by handlers were available. The quoted Class I prices were higher than in Colorado Springs and averaged $2.50 over the basic formula price in 1954, $2.03 over in 1955 and 1956, and $2.07 over in the first 10 months of 1957.

Another series of historical data was presented by a group of six Colorado Springs handlers. They used combined data on receipts and utilization for the months July 1956 through June 1957 to determine what Class I price would have been needed to maintain the same cost of producer milk as was incurred during each of these 12 months. Their computation started with the total value of

milk purchased from dairy farmers. This quantity was then assigned to Class I using the definition proposed by producers and allocating producer receipts to the highest available utilization. The remaining quantity was assigned to a single surplus class rather than to the two classes proposed by producers, and valued at 82.3 cents per pound of fat. By deducting the Class II value from the total value of producer milk, they arrived at a computed value for the Class I sales each month. The 12-month average of the computed Class I prices was $5.287 per hundredweight of milk containing 3.73 percent butterfat. Using the Class I butterfat differential proposed by producers reduced this price to $5.12 for milk of 3.5 percent butterfat, or a Class I differential of $1.96 over the average basic formula price of $3.16 for the 12-month period.

Both the Colorado Springs and Pueblo dealers purchased bulk milk from other sources during the past year to supplement their supplies of locally produced milk. It appears, therefore, that the prices which have prevailed have not attracted a full supply of milk for the market, although it must be recognized that the base-rating plan and other institutional factors also affected the supply of milk.

Inter-market price comparisons furnish a second guide for establishing Class I prices. Denver is the primary fluid milk market in eastern Colorado and the course of prices, receipts, and sales in that market over the past several years constitute important evidence relative to the Colorado Springs-Pueblo market. The quantity of milk pooled by the principal cooperative association in that market is a little more than 4 times as large as that handled by the 6 largest plants in Colorado Springs. The extensive area of procurement for the Denver market and the wide sales territory of major handlers also contribute to making Denver the primary market. Comparable price data for the Denver and Colorado Springs markets were available from November 1954 through October 1957. These disclosed that the prices paid Colorado Springs producers for the butterfat content of "base" milk were nearly identical with the prices paid for "base" milk in the Denver pool, plus the 6-cent quality bonus commonly paid in the Denver market. The blend prices reported paid to Colorado Springs producers were approximately equal to the comparable Denver figures, and the blend prices paid to members of the Pueblo Dairy Exchange were somewhat below those paid to the Colorado Springs shippers. It appears, therefore, that Class I prices approximately equal to the base prices which have prevailed in the Colorado Springs and Pueblo markets would maintain returns to producers at a competitive level with returns to Denver shippers.

There are several Federal order markets east of Colorado in which orders have operated for sufficient periods of time to demonstrate the appropriateness of the Class I prices. Moreover, some of these markets have furnished the supplemental milk purchased from time to time by Colorado Springs-Pueblo handlers. In addition, there has been some direct competition between the Colorado Springs-Pueblo distributors and those subject to some other Federal orders. In view of the constantly increasing distances over which bulk and packaged fluid milk is shipped, competition from other markets can be expected to be greater in the future than in the past.

Taking official notice of the basic formula prices which would have prevailed hereunder during November and December 1957, the Class I price for the Colorado Springs-Pueblo market would have averaged $5.34 in 1957 and $5.33 in 1956. These prices can be compared with the Class I prices in various Federal order markets by adding a transportation cost computed at the rate of 1.5 cents per 10 miles or fraction thereof. (This is the rate used in establishing location adjustments hereunder.) On this basis, the Southwest Kansas Class I price, adjusted to 3.5 percent butterfat content plus a 42-cent hauling allowance for the 276 miles from Dodge City to Pueblo would have averaged $5.25 (−9 cents) in 1957 and $5.41 (+8 cents) in 1956. At the time of the hearing, there were fairly regular bulk sales of milk from Dodge City to a handler in Pueblo.

The nearest point in the Greater Kansas City marketing area is the city of Manhattan, Kansas, and a 74-cent hauling charge would be involved for the 485 miles, yielding Class I prices of $5.20 (−14 cents) in 1957 and $5.22 (−11 cents) in 1956. From Kansas City, Mo., a 90-cent haul is involved for the 599 miles, yielding prices of $5.36 (+2 cents) and $5.38 (+5 cents). From Amarillo, the center of the Texas Panhandle market, a cost of 50 cents would be involved in a 325-mile haul to Pueblo and the resulting Class I prices would have been $5.74 (+40 cents) in 1956 and $5.90 (+57 cents) in 1957. From Lincoln, Nebraska, subject to the Omaha-Lincoln-Council Bluffs order, the distance is 517 miles, involving a cost of 78 cents and resulting in prices of $.25 (−9 cents) and $5.34 (+1 cent).

The order markets with the largest available quantities of supplemental bulk milk are the Ozarks and Chicago markets. Springfield, Missouri, in the Ozarks area is 733 miles from Colorado Springs, the hauling cost would be $1.11 and the resulting Class I prices for milk transported to Colorado Springs were $5.15 (−19 cents) in 1957, and $5.50 (+17 cents) in 1956. In the case of Chicago, long distance shipments most commonly come from plants in upstate Wisconsin. The plant at Menomonie in the 20th zone may be considered typical. It is 949 miles from Colorado Springs; the transportation costs would amount to $1.42; and the Class I prices would have been $4.92 (−42 cents) in 1957 and $5.12 (−21 cents) in 1956.

It will be noted that in several of these markets Class I prices were lower in 1957 than in 1956. This was due primarily to more adequate supplies and the action of supply-demand adjustments. Except for Menomonie, under the Chicago order, the Class I prices provided herein for the Colorado Springs-Pueblo market appear well in line with those in other Federal order markets. Plant handling charges on shipments from Chicago are substantial, at least on occasional purchases of supplemental milk, and the actual cost of Chicago milk at Colorado Springs-Pueblo would be higher than are indicated by the Class I price comparisons.

A group of approximately 50 producers in the vicinity of Goodland, Kansas, have furnished milk to one of the Colorado Springs handlers at substantially lower prices than have been paid for other local milk. During November, one of these producers was paid $1.30 per pound of fat in base milk ($4.55 on a 3.5 basis) for milk delivered to Colorado Springs. This compares with prices of $1.45 ($5.08 for 3.5 milk) paid to members of the Colorado Springs Milk Producers Association.

Moreover, the blend price under the Southwest Kansas order was $4.80 in November and averaged $4.34 for the year, official notice being taken of prices for November and December 1957. To the extent that the Southwest Kansas market would involve a shorter and less expensive farm-to-market haul, the comparative prices indicate that the Goodland milk may not be permanently available to Colorado Springs at the prices recently prevailing. It is concluded that the prices paid to these shippers have not been in effect for a sufficient period of time to be a significant indication of the price at which a supply of Grade A milk can be obtained for the entire market.

The Class I prices provided herein will have little effect on the competitive relationships which already exist between the Colorado Springs-Pueblo and Denver handlers. The Class I price in the Denver market was $1.70 per pound of butterfat ($5.95 per hundredweight of 3.5 milk) from May 1, 1956, until the time of the hearing. During the same period the price per pound of butterfat in fluid cream (Class II) was $1.56 ($5.46 per hundredweight). Since these prices are entirely on a butterfat basis, the value assigned to skim milk items sold for fluid use depends upon the relative fat content of producer milk and Class I sales. Also it is clear from the fact that base prices are substantially lower than Class I or Class II prices that substantial quantities of manufacturing milk (Class IV) are included in the base milk. The net effect has been that Colorado Springs handlers have been able to match the Denver blend prices to producers at somewhat lower cost for milk used for fluid purposes.

Class II price. As previously stated, Class II includes all manufacturing uses of milk. Milk used for these purposes should be priced at the basic formula prices during the months of September through December and January through April and at the basic formula price minus 20 cents during the flush production months of May, June, July, and August.

In 1957 the basic formula price during the months of May through August would have been established by the butter-powder formula and the resulting Class II prices for milk of 3.5 percent butterfat content would have been $2.89 in June and July and $2.90 in May and August. The Class II price would have ranged from $3.10 to $3.25 in the other eight months. The simple average of these prices for the 12 months was $3.08 per hundredweight though it is recognized that such an average is not entirely representative because of the comparatively large volumes which would be processed at the lower prices. Class II prices would have been closely similar in 1956 with a range of $2.88 to $2.90 in the flush months of May through August, a range of $3.04 to $3.26 in the other eight months and a simple average of $3.06.

The Class II prices which would have been provided by the order are well above the prices charged in Denver for milk for manufacturing uses. The Denver price was proposed as appropriate for the Colorado Springs-Pueblo market. It was shown, however, that the Denver price is based almost exclusively on the butterfat value of the milk for churning butter. The Denver Class IV prices were also lower than other available indicators of the value of milk for manufacturing purposes in this general area. In 1956, the Denver Class IV prices for milk of 3.5 butterfat ranged from $2.66 to $2.88 and averaged $2.81; in the first 10 months of 1957 they ranged from $2.76 to $2.88 and averaged $2.84. The United States average price paid for milk for manufacturing purposes, adjusted to 15 percent by direct ratio, ranged from $2.90 to $3.01 and averaged $2.94 in 1956 and from $2.93 to $3.02 with an average of $2.97 during the first 10 months of 1957. This price is also used as the Class II price under the Wichita, Kansas, milk marketing order. Prices paid for milk used for manufacturing evaporated milk in the Southwestern United States were well above the United States manufacturing price in 1956 and 1957 and milk used for the manufacture of hard cheese and butter and powder in the mountain region averaged slightly above the United States average manufacturing price in both periods.

The Class II price provided herein may also be compared with prices paid for manufacturing milk in other nearby Federal orders markets. In the Kansas City market, the basic formula prices were slightly higher but a 20-cent flush season discount was applied during 6 months instead of 4 months. The simple average of the Kansas City Class II prices during 1956 was 2 cents higher and during the first 10 months of 1957 was 2 cents lower than the prices provided herein. The Class II price under the Southwest Kansas and Texas Panhandle orders averaged 7 and 11 cents lower in 1956 and 6 and 12 cents lower in 1957.

Consideration was given to providing a separate classification for milk used in the production of cottage cheese and ice cream at higher prices than those applying to other manufacturing uses. However, this proposal was not based on any requirement that these products be made from milk approved for fluid use. Substantial quantities of these products, particularly ice cream and other frozen desserts, are distributed in the Colorado Springs-Pueblo market by nonhandler firms. Also, handlers commonly make these products from manufacturing grade ingredients and utilize fluid grade milk only as and when it is available for these purposes. It is also evident that most of the handlers who now choose to utilize producer milk in the production of all or a portion of these products whenever it is available could rearrange their operations so as to avoid using producer milk. This would leave only a few handlers who would be obligated to pay the proposed higher Class II prices for milk utilized for these products. In these circumstances it appears that a separate Class II for these products at a premium price would be inequitable between handlers and would not achieve any substantially higher prices for the producers.
